## On Latest Developments

### AIEE Holds Exhibit

Electronics for space, devices that amplify light, and an electronic highway system are among the latest scientific developments that will be discussed and demonstrated by Cyril N. Hoyler, manager of technical relations for RCA Laboratories, at State College tonight at 8 o'clock in the Textile Building Auditorium.

Mr. Hoyler's appearance is being sponsored by the Joint Student Branch of the American Institute of Electric Engineers and the Institute of Radio Engineers.

"The program is one that not only students will enjoy, but one that every member of the family will find interesting and fascinating," said Gene Scarborough of Statesville, a senior in electrical engineering and president of the Joint Student Branch.

Scarborough said that the lecture is open to the public without charge and invited all interested persons to attend.

Mr. Hoyler's demonstration lecture, "Electronics in Solids, Space, and Sound", will also feature a 4-pound portable transistorized television camera and an electronic colling system with no moving parts. These are some of the recent achievements in research at RCA's David Sarnoff Research Center in Princeton, N. J., where a staff of more than 250 scientists and engineers is engaged in studies and developments ranging over the entire field of radio, television, acoustics, and electronics.

Raymond Briggs of Raleigh,

electrical engineering junior who is this year's program chairman for the Joint Student Branch, reported that a musical prelude, using RCA stereophonic disc recordings, will start about 30 minutes before the lectures.

An important part of the talk will be devoted to a discussion of the RCA Electronic Music Synthesizer, and electronic system which can generate any tone produced by the human voice or musical instrument, and even beyond their capabilities.

Using specially built equipment, Mr. Hoyler will demonstrate and discuss the principles of this system, in which music is pre-set in coded form and then fed into electronic circuits in any variation in the mind can conceive. Illustrative selections, synthesized in the style of various instruments, will be played.

As one illustration of work in solid state electronics, Mr. Hoyler will discuss and demonstrate the properties of electro-luminescence and photoconductivity and their applications in an experimental light amplifier. Other demonstrations will show the principles of electronic refrigeration and "Electrofax," a system of high-speed electronic photography.

In the field of television, Mr. Hoyler plans to demonstrate an experimental miniaturized Industrial Television camera, using a half-inch vidicon tube and 19 transistors. Using about 5 watts of 60-cycle power, the camera generates a full television signal on either channel 2 or 3 which can be fed to a conventional television receiver.

### SG President Hunt Elected to YDC Post

At the State Convention of the Young Democrats Club held in Greensboro on October 2-4, Jimmy Hunt, president of the student government here at State, was unanimously elected to the college vice-president's position.

Attending the Convention from State College were Tom Gilmore, James Caldwell, Speed Williams, Dick Burgess, Royce Hagaman, Carl Henley, Eddie Knox, Phil Carlton, and Hunt.

Arthur Vann was elected to the State presidency in the closest race in the history of the State YDC conventions. Williams, in an interview with THE TECHNICIAN, stated that his opponent, Louis Allen, accepted defeat "in the most gracious manner ever witnessed by politicians in this State."

There were some 400 delegates in the Convention Hall representing the counties of North Carolina.

### State Observes 69th Birthday

Two members of State's original class attended an informal observance Friday at the college of the institution's 69th birthday.

W. J. Mathews of Goldsboro and Sam Young of Raleigh, members of the Class of 1889, were guests of honor at a luncheon which was arranged by H. W. (Pop) Taylor, director of alumni affairs at the college.

Mathews was first student to register when the college opened its doors on October 3, 1889.

A retired Wayne County contractor, Mathews is 88 years old. Young, an active Raleigh hardware merchant, is 85.

Only 72 students enrolled with Young and Mathews as freshmen during the college's first year. A group of 19 graduated four years later. Only five members of the original class are still living.

Since 1889, the college's physical plant has grown from one building to 68 modern buildings valued in excess of \$35,000,000. The student body has surpassed 5,700 students representing all of the State's 100 counties, 44 other states, and District of Columbia, three U. S. Possessions, and 40 foreign countries.

With the opening of the current school year, State had a wide range of facilities available for its students that were not in use at the beginning of the last school year.

### Campus Cries

The AIEE Auxiliary and Furniture Wives will meet Tuesday night in Room 256-258 of the College Union at eight o'clock. The speaker for the occasion will be Mr. William Simpson, the Placement Director for the School of Engineering here at State.

Any students who have changed their addresses since September 10 are asked to come by the College Union to check for any mail that may have come in for them. Any student may check at the College Union main desk.

### State's Fraternities Pledge Record Class

The eighteen social fraternities on campus have pledged a record 240 candidates for membership to their brotherhoods.

Fraternity men have expressed pleasure at acquiring the association of so many prospective "Greeks," from a freshman-

sophomore enrollment that showed a drop from last year.

The new pledges have linked themselves with the fraternities largely on the strength of the impressions they received during State's ten-day Rush Week. Rush Week, which was sponsored by the Interfraternity

Council, was held September 18-28.

The fraternities and the number of men each pledged are: Sigma Alpha Epsilon, 14; Sigma Chi, 25; Pi Kappa Alpha, 20; Pi Kappa Tau, 21; Delta Sigma Phi, 22; Lambda Chi Alpha, 9; Sigma Phi Epsilon, 14; Sigma Pi, 13.

Alpha Gamma Rho pledged 7; Tau Kappa Epsilon, 13; Pi Kappa Phi, 27; Sigma Alpha Mu, 4; Phi Epsilon Pi, 9; Kappa Alpha, 6; Theta Chi, 6; Kappa Sigma, 12; and Sigma Nu, 16.

Last year's combined pledge class totaled 211 persons, with approximately two-thirds of this number being eligible for initiation after first semester grades were reported.

The increase in the number of men interested in fraternities was a cause of hope for fraternity men in general. With the new fraternity row still in the wind, all fraternities will need adequate support if they are to be able to build new facilities. The average cost of the new fraternity housing is estimated at \$100,000 per fraternity; it is as yet not clear how the Fraternity Row will be financed, but the "Greeks" are expecting action soon.

In a recent survey of fraternity housing conditions, it was clearly shown that present facilities are inadequate to accommodate the growing fraternity system.

### Gilbert Harrison Speaks To Apollo Club Thursday

Gilbert Harrison, editor of "The New Republic," will speak to members of the Apollo Club Thursday, October 9, on "Nationalism and its Problem."

He is the second in a fall series of four lectures sponsored by the new campus discussion group.

The fall series, which has as its theme "Beyond Technology, What?", opened last Thursday when the 96 members of the Apollo Club heard Mrs. Vera M. Dean, editor of the "Foreign Policy Association Bulletin," speak on "Survival With Honor."

Harrison will address the Apollo Club members Thursday at 5:45 in the cafeteria. Presiding over the dinner meeting will be Chris Tabor of Baltimore, Md., chairman of the club.

After the dinner, an informal session will be held in the North Parlor of the College YMCA. A discussion session in one of State's fraternity houses, with Harrison participating, is planned also for Thursday night.

A faculty group will meet with Harrison Friday morning at 10 o'clock for an informal coffee break. A luncheon with the YMCA Cabinet will conclude his visit to State.

Born in Detroit, Harrison earned his undergraduate degree at the University of California and pursued graduate study at Balliol College, Oxford, England.

He was a member of The University Religious Council in Los Angeles and later was associated with the staff office of Civilian Defense in Washington, D. C.

During the war, he participated in pilot training with the

Royal Air Force and the Army Air Corps. He assisted in the founding of the World Veterans Federation in Paris, France, and worked in Germany for a Uni-

(See GILBERT Page 4)

### Students Move In

### New Dorm Rooms Finished

N. C. State students began moving into the completed two north wings of their ultra-modern New Dormitory Friday. The north wing of the New Dormitory was available for occupancy on Friday, October 3rd. Students who have reserved space in this building will have priority until 5 p.m., Tuesday, October 7th to move into the room which they have reserved.

Beginning at 8 a.m. Wednesday, October 8th, all spaces which have not been occupied will be reassigned to those applicants who have submitted special applications for rooms in this building with preference being given to upperclassmen.

The following procedure is to be used in changing rooms:

1. Check-out with the Manager of your present Dormitory and obtain your "Room Card" from him.
2. Take the "Room Card" to the Dormitory Rental Office, Room 4, Holladay Hall and exchange your keys. The keys to your old room must be returned before the keys to your new room will be issued.
3. Fill out change-of-address cards for the College Union and the Post Office. Notify your correspondents and magazine publishers of your new address to avoid unnecessary de-

mail. Until the mail boxes are installed in the New Dormitory, you should check with the Dormitory Manager concerning delivery of the mail.

The Dormitory Rental Office, in addition to its regular hours, will be open on Saturday, October 10.

(See NEW DORM Page 4)

### Professor Talks On Poland Visit

A State College assistant professor and formerly "Raleigh's Community Ambassador" will describe his experiences in Poland Tuesday, October 7, at 8 p.m. in the College Union Building.

Dr. Harvey Bumgardner, faculty member in the college's Department of Poultry Science, spent the summer in Poland as Raleigh's Community Ambassador.

His campus talk will be sponsored by the College Union Forum Committee.

A coffee hour will follow his talk.

The popular young professor received his B.S. degree from State College and his M.S. and Ph.D. degree from the University of Maryland.

A native of Kings Mountain, he is active in Raleigh Little Theater activities and is a member of Fairmont Methodist

Members of the AIEE Auxiliary and Furniture Wives take a break from the usual activities of preparing a formation for a football game in or-

# Social Fraternities

Fraternities have a great potential that has not as yet been realized.

With the advent of the largest pledge class in State's fraternal history, these social organizations again prepare for a busy year.

But in the past, the primary purpose of our fraternity system has been a selfish one . . . the refinement of human relations and service to the campus has been pushed into the background, while the purely social aspect of fraternities has been played to the hilt.

Surely, they are basically social fraternities. But how is "social" being interpreted? Does social mean that the Saturday night party, the bull sessions, the meals, etc., are the essential elements in a fraternity man's life?

With more than eight hundred men as members, the fraternity system could be a driving force on this campus . . . it could stimulate desire for higher scholarship, could bring many more cultural activities to State, could greatly assist a tottering honor system by openly and sternly forbidding honor violations (instead of using the "brotherhood" to demand illicit assistance), could encourage much-needed participation in extra-curricular activities, could educate their pledges to be gentlemen rather than merely "one of the boys" . . .

But at the present, fraternities are detached from the college campus, functioning as eighteen individual clubs, for the most part far more interested in their own welfare than in the welfare of State.

Even within the fraternity, there is little desire for mutual betterment . . . scholarship is maintained not for its own merit but for mere necessity, pledges are rarely taught but more often driven, the honor system is openly scorned, and the words "service" or "education" or "gentlemen" or "refinement" usually bring sneers.

How can State's fraternity men ever expect respect and cooperation from the administration when they have as yet not proven their worth . . . when the majority are using fraternities as eating clubs, as a place to watch TV, as a place to let off steam.

The Interfraternity Council has a great responsibility which it has dodged in the past, making it ineffectual as a guiding, coordinating body. None of the houses really pay any attention to what the IFC says or does, because in the past it has said and done little worth attention.

We call on the IFC to make itself stronger . . . to vote itself more power and authority . . . to prove itself a leader of the fraternity system rather than just a figurehead. Each fraternity's leaders will be willing to give the IFC this power and authority if they take their leadership seriously.

Fraternities were noble in their conception . . . let's make them noble in reality.

—RL

### Reputation At Stake

## Faculty Status Concerns Students

By Tom Feeley  
Editor's Note: The following article is the second in a series by Tom Feeley, a senior in electrical engineering and a member of Eta Kappa Nu, honorary electrical engineering fraternity. Mr. Feeley's first article appeared in the September 25 issue of THE TECHNICIAN, as a "Guest Editorial."

These articles are presented at this time because of the critical need to improve everyone's mind with the cause and effect of low faculty salaries.

In future issues, we hope to present a series of articles by John W. Shirley, State's Dean of Faculty, concerning his recent

trip to Russia. While there, Dean Shirley had ample opportunity to study the Russian educational system, and we hope he will compare the status of American and Russian educators in his report.

We live in a competitive society; and the comparative worth of any person, place or thing is determined by how well it compares with all others in the same group or category.

If a person is buying a car, the foremost consideration prior to purchase is the previous performance of the model being considered. In short, the reputation of the product is the prime point in question.

A new high in bid sending was set this year. In all, 18 fraternities sent 500 bids. This is living proof of my statement of last week, which held that a dynamic program of rushing had been accomplished.

The word "sharp" has been over used in description of many a rushee this year, but in describing the quality of these men "sharp" seems to be the appropriate word. Rushee quality this fall has been unusually high. The fact that more bids were sent than ever before seems to be conclusive evidence that all fraternities felt that good fraternity material was here at State.

For the new pledges of the Greeks, I would like to attempt to give a rough, general idea of what to expect during your pledge training. As a pledge you are not expected to relinquish the way of life you have been accustomed to, but instead a certain amount of responsibility has been placed on your shoulders. You are now a representative of your fraternity, and this responsibility has been given to you in order that the brothers

may see how you react to it, cope with it, and the way in which you can conduct yourselves under responsibility. You will be under observance, and you will be carefully considered as to your merits and qualities according to their standards. You will have work to do around the house, pledge quizzes concerning different aspects of your particular fraternity, and you will attend your own meetings.

Pledge training is not intended to nor should it interfere with school work in any way. The smart pledge will learn to budget his time and to adjust to pledge life early in his training.

I would like to suggest to you pledges to be yourselves now even more so than when you were rushing. Act naturally and feel at home in your fraternity house. Remember it is your home.

A bright spot early in your pledging will be the Fall IFC Pledge Dance featuring the Glen Miller orchestra. Browder's of Charlotte will again decorate the Coliseum for the dance and the week-end of Nov. 8 should prove to be a real "blast". This is your dance, pledges, and now is the time to start calling that special girl for the big week-end.

## Dean Talley Is Featured

State's Dean of Student Affairs, Banks C. Talley, was featured in a full-page spread of Sunday's News and Observer.

Talley, perhaps the best-known member of our administration, has received this fine recognition for his sincere efforts over the past eight years to help the student in almost every phase of his campus life.

Dean Talley is respected by students and faculty alike. He has built a reputation of being completely fair, yet at the same time has lived up to his responsibility of seeing that discipline is maintained at State College.

## Sorry Gentlemen . . . No One Is Admitted Without A Necktie

By Irving Glick

The face above is not the face you've seen before in some girls school . . . but it recalls the tone of voice.

The long-dead artist an anonymous . . . this picture is just his idea of this woman. Looks can be quite deceiving . . . she is actually somebody's mother . . . in fact, she claimed 130 living descendants before she passed on to greater things.

She is Ann Pollard (an innkeeper . . . by day . . .) who is said to have been one of Boston's original settlers . . . and why not, she seems to have done

It is interesting to know the background of paintings . . . even for those of us who can't appreciate them for Art's sake alone. With interpretation, paintings take on new significance . . . just as here Ann Pollard is shown as a severe old lady, straight-faced and highly respectable.

We are not actually trying to educate State students in the classics, for we would not be so presumptuous. However, all of us can have a little fun by seeing new meanings put on old paintings.

Even so, we expect scattered

## Wolfpack Triumphant Over Cavaliers, 26 - 14

Coach Earle Edwards and his determined Wolfpack squad staged a brutal comeback in the second half of Saturday's conference tilt with the Virginia Cavaliers to embarrass Coach Voris' squad by a score of 26-14.

Trailing by 7-6 at half-time, the Wolfpack came back a different team in the second half. With the opening kick-off of the third quarter, the State squad marched 94 yards for its second tally. Scoring almost at will, the Wolfpack pushed for another touchdown just 4 minutes later.

Staging a powerful running attack, State scored its final touchdown in the fourth period

after a 64 yard drive from their own 36 yard line. Taking advantage of four intercepted passes, the Wolfpack gained most of its yardage on the ground behind the effective blocking of its big forward wall.

The Cavaliers relied on their passing game behind their star quarterback, Reece Whitley. Whitley, the nation's leading passer, completed 12 of 18 passes for 116 yards, but had four of his tosses picked off by the Wolfpack. These four interceptions proved to be costly to the Cavaliers, as the Wolfpack took advantage of every error.

The Virginia squad scored its first touchdown on their opening march of 64 yards. Moving behind the passing arm of Reece Whitley the Cavaliers took 13 plays to push across the State goal.

Late in the second period the Wolfpack got its first score after an interception by Podwika on the Cavalier 48. On the first play, Cackovic rolled out to his right and headed down field. Forty-eight yards later, after eluding four or five would-be tacklers, Cackovic rushed over the goal for the six points.

## State Frosh Lose Opener To Clemson

Until the last 90 seconds of Saturday's game with the Baby Tigers of Clemson, it appeared to be an opening victory for the Wolflet football team of State College. Leading all the way, the State frosh were beaten 8-6 in the final period.

With 90 seconds left on the clock, a pass from Clemson's quarterback went for 8 yards into the end zone, good for the touchdown. Twice during the final period the Baby Tigers were turned back from the State goal. Taking over on downs on their own 1 foot line, the Wolflets attempted to kick out on fourth down, but a rugged Clemson line broke through to block Hunter's kick. State recovered the ball for a safety, which added two points to the Clemson total.

With the opening kick-off, State began a determined march for the Clemson goal, and 15 plays later the Wolflets pushed the ball over for their lone score of the ball game. A 30 yard pass from quarterback Gabriel to LH Hunter put the ball on the Clemson 20. Several plays later Hunter went over from the 2 for the score.

## Freshman Basketball Tryouts

Coach Lee Terrill will begin workouts for the freshman basketball squad Thursday, October 16. Any freshman interested in trying out for the team is requested to report to Coach Terrill at this time.

All who are interested should report to Frank Thompson Gymnasium at 6:00 p.m. on Thursday, October 16, and again Friday, October 17.

The Wolflets are anticipating a large turnout for the pre-season drills, and everyone who is interested is encouraged to participate. The freshman squad will be going into this season hoping to equal or better the 18-3 record set by last year's Wolflet team.

**International Week  
Starts Sunday, 19th**

Dr. Frank Graham, United Nations mediator in Asia, will open "International Week" activities at State College Sunday, October 19, with a talk at 8 p.m. in the College Union Ballroom.

Dr. Graham is a former president of the Consolidated University of North Carolina.

Included among the events of "International Week" at State College will be a book display, a dinner and fashion show, an international music broadcast over the campus radio station WKNC, a panel discussion, a soccer game, a picnic, and a costume ball.

The observance will end on Saturday, October 26.

State College has students from more than 40 foreign countries.

**N. C. State  
Student Affairs Bulletin**

**FREE POLIO SHOTS**—All students who have not received polio vaccine should do so by reporting to the College Infirmary during the hours 9 a.m. to 5 p.m. daily. No charge to State College students upon presentation of ID card. All students are urged to take advantage of this free immunization offered by your Student Health Service.

**FREE FLU SHOTS**—Available at Infirmary to all students from 9 a.m. to 5 p.m. daily. Recommend you take advantage of this free inoculation provided by your Student Health Service.

**AIR FORCE QUALIFICATION TESTS** are scheduled for Sat., Oct. 11 and Oct. 18. Students taking these tests will be excused from conflicting classes.

**INTRAMURAL FOOTBALL OFFICIALS NEEDED**—\$1.50 per game. We will teach you to officiate if you are willing to learn. Contact Intramural Office in Gym, ext. 218 or 496.

**FOOTBALL GAME TICKETS**—State College students will be permitted upon presentation of their athletic ticket, to purchase one (1) ticket to Wake Forest and Duke football games at half-price. **Union Carbide Corporation Awards  
Scholarships To Ten State Students**

Union Carbide Engineering Scholarships for the 1958-59 academic year have been awarded to ten students in the School of Engineering here.

Three of the scholarships are renewals of awards granted last year, announced Dr. J. Harold Lampe, dean of engineering.

Established for the first time in the fall of 1957 under the sponsorship of three divisions of the Union Carbide Corporation, each engineering scholarship covers the complete cost of tuition plus allowances for necessary books and fees as established by State.

Scholarships were renewed for Crawford R. Meeks, Jr., of Winston-Salem, a senior in mechanical engineering; George Adkins of Statesville, a senior in chemical engineering; and J. T.

Swain of Winston-Salem, a senior in electrical engineering.

New recipients of the scholarships are Ned Alan Sigman of Hickory, sophomore in mechanical engineering; James U. Crowder of Asheville, junior in mechanical engineering; John F. Speight of Winston-Salem, freshman in mechanical engineering; Jerry S. Harris of Washington, junior in electrical engineering; Hoyt S. Pittsboro, sophomore in mechanical engineering; and Richard H. Williamson of Canton, freshman in nuclear engineering.

Meeks and Sigmon received scholarships from the Union Carbide Chemicals Company.

Those receiving scholarships sponsored by the National Carbide Company are Adkins, Crowder, Privett, and Speight.

Swain, Harris, Beard, and Williamson were awarded scholarships sponsored by Union Carbide.
