Fraternity Row Becomes Reality

Construction Of Housing Facilities Gets 'Go Ahead' After Six Long Years

By BOB LINDER

Fraternity Row is no longer a dream to the 823 fraternity men of State College . . . it has suddenly become a reality.

After six long years of consecrated effort, final approval for this Fraternity Housing project was given Friday, and State's eighteen fraternities will soon move into full swing with this long-awaited venture.

In a statement prepared for The Technician, Mr. Banks Talley and Mr. Henry Bowers of the Student Activities Office had the following to say concerning the project. "Present and future State College students are indebted to members of our Board of Trustees for the support given the fraternity housing project. They are equally indebted to Mr. Watts Hill of Durham, who headed a special committee appointed to consider this project, and to President Friday and Vice-Presi-

dent Carmichael of the Consolidated University.

"President Friday gave the project his unequalled support and endorsement. And, as is the case with so many worthwhile plans in the Consolidated University, this plan could not have been implemented with the energetic efforts of Vice-President Carmichael.

"At State College, Dean James J. Stewart, Jr. has worked continuously for six years in the effort to bring the project to realization. All these men deserve our thanks."

Fraternity Row, a \$1,800,000 project, will initially contain twelve units housing 500 students. Long-range plans call for the addition of ten more units in future years.

It should be emphasized, at this point, that this project is being financed entirely by the eighteen fraternities; the State

of North Carolina nor State College is, in any way, assuming any financial responsibility. Dean James J. Stewart, Dean of Student Affairs, pointed out this important fact in a meeting Saturday, "In no way will this project obligate or jeopardize the financial arrangements for any other type of student housing."

State's 823 fraternity men comprise 14% of the student body. Although there will be only twelve units in the completed housing project, housing 500 men, the long range plan of adding ten more units at some later date will make room for all of State's "18". In addition to providing housing facilities for those fraternities which may choose to wait until some later date to move into the "Row" for various reasons, the long-range plan will make room available to any new chapters that might be established here.

At present, most of the eighteen fraternity houses are located in old, remodeled homes and all are off-campus. None of these houses were originally designed as fraternity houses, and most have been pointed out as being sub-standard to city regulations. The Wake County Health Department and City Fire Department have, for many years, recommended the needed improvement in fraternity housing.

Chancellor Dr. John Caldwell said of the new housing project, "We are pleased that we are now apparently ready to remedy a long-standing situation that has been growing steadily worse." He said the new facilities will mean "a high standard of housing" for State College fraternity men. Due to the Raleigh zoning laws, the fraternities have been unable, in the past, to make many needed improvements on their houses.

Construction will soon begin on Fraternity Row, to be located south of Western Boulevard adjacent to Avent Ferry Road. Future plans call for the expansion of the present campus to include this area.

Engineer's Ball Set For Saturday Night

The only formal dance on campus that is held exclusively for Engineering students, the Engineer's Ball, will be held this weekend in the Coliseum at 8:00 p.m.

The Coliseum will be decorated by Fallon's Decorating service.

Dance music will be provided by the Duke Ambassadors.

During the brief intermission that the band takes, there will be a presentation of stylized East Indian Dances. The group performing will be from the Emanuel-Kovach School of Theatre Dance and will include Jon and Betty Kovach, Vickie Kaveiva, and Pat Eubanks. Jon Kovachs spent the summer in New York

appearing in night clubs with Beatrice Kraft, who is one of the foremost exponents of East Indian Dancing in this country.

Also this will be the only dance on campus that offers free soft drinks and ice served at the tables by waiters.

Bids for this affair may be picked up at the respective Engineering offices during this week. After picking up your bid, be sure that the envelope contains a small white card, which is required for admission.

The Engineering Council hopes that everyone has a wonderful time and requests that they conduct themselves as mature individuals.

Alpha Phi Omega Pledges Twenty-Four Students

Iota Lambda, the State College Chapter of Alpha Phi Omega, national service fraternity, has pledged a total of twenty-four boys, one of the largest pledge classes in its history, for the fall semester.

The purpose of Alpha Phi Omega is "To assemble college men in the fellowship of the Scout Oath and Law, to develop friendship, and to promote service to humanity."

The Iota Lambda chapter here

at State is ranked among the top twenty in the nation.

Listed below are the members of the pledge class.

Ronald L. Blivens, Bristol, Tenn.; George A. Catherwood, Burlington; Norman H. Clemmons, Wilmington; Nolan Cogins, Thomasville; Anthony E. Collins, Winston-Salem; Robert R. Cosgrone, Basling Ridge, N. J.; Robert Stanford Cowan, Durham; Theron R. Dabbs, Jr., Elizabeth City; Micheal R. Edwards, Thomasville; John T. Fernald, Wilson; Steve E. Gentry, Arden; David P. Gilmer, Bristol, Tenn.; Robert E. Graham, Jr., Raleigh; Henry Harrell, III, Wilmington; Dale E. Harrison, Spruce Pines; James L. Humphery, Maple; Richard M. Johnson, Graham; William E. Keel, Washington; Edmund H. Malski, Flat Rock; George M. Mann, Jr., Wilmington; Robert D. Mustion, Kittrell; Richard M. Raper, Thomasville; Roy Clark Thompson, Saluda; and Micheal Warner, New Bern.

ATTENTION!

Eddie Knox, Student Government president, wishes to announce that efforts are being made to assure open classrooms at night for student study. Further developments will appear in The Technician.

- Campus Crier -

The Outing Committee announces an outing trip to Kerr Lake. The overnight trip will be held on November 21 and 22. The trip will cost about \$3.50, and it will include three meals, travel, and sleeping accommodations. Sign-up at the CU main desk by November 20.

The Fall Pinochle Tournament will be held in the College Union on November 23 at 7 p.m. There will be awards for the first and second place winners. Sign-up at the CU main desk by November 21.

The Forestry Club will meet Tuesday, November 17, at 7:00 p.m. in room 159 Kilgore Hall.

Due to an error made when the fraternity scholarship report was published in September, the average of Sigma Alpha Epsilon was one of the fraternities whose report was in error. SAE's final average places it twelfth among fraternities for the school year of 1958-59 instead of eighteenth as reported.

Lost: Betty Woodbury lost three paper-back books: (1) MacBeth, (2) Guy de Maupassant in English Edition, and (3) Guy de Maupassant in French Edition. She assumes them lost in Winston. No name is in the books. Anyone who knows the where-

Long, Hard Struggle

Since the idea of a Fraternity Row was first conceived six years ago, it has been a long, hard struggle by the many groups and individuals that have given the project their support. Without this support, State's need for adequate facilities for students belonging to fraternities could not have been met.

The plans for Fraternity Row have been endorsed by the Visiting Committees of the Board of Trustees of the Consolidated University each year for the past six years. These committees, after a thorough study of the proposed plans, each year, gave it their complete approval.

In Thursday's issue of The Technician, a complete summary of the past six years endeavors will be printed, as well as a complete listing of all groups and individuals who have supported this project. The Technician will attempt to recognize all those who have given so willingly of their time and efforts.

In Friday's action by the State Board of Higher Education and the Advisory Budget Commission, the Commission approved a loan to the fraternities. The money will be borrowed from the Federal Housing, Home and Finance Administration and will be paid back over a 40-year period at three and one-eighth per cent interest.

"Intend To Move Soon"

President Friday said that University officials have already completed preliminary design work on the proposed units, and that they "intend to move soon" to start construction.

Architect for the housing project will be G. Milton Small and Associates, of Charlotte. The new facilities will be constructed on State College land across Western Boulevard (see accompanying map).

Plans Move Forward

After Friday's decision was announced, Peyton Neal, Chairman of the IFC Housing Committee, made this statement to The Technician, "The Interfraternity Council, through the IFC Housing Committee, has been working closely with Dean Talley and Dean Bowers in the administration of the Fraternity Housing Project, and with the work that has been done prior to this final decision by IFC Presidents as far back as 1953. We feel that the IFC and the fraternities can now move forward in the actual planning of the fraternity houses."

The Interfraternity Housing Committee will meet Tuesday night of this week to draw up plans for the anticipated budget, living arrangements, financial conditions, and numerous other items, concerning Fraternity Row. Attending this meeting will be Deans Stewart, Talley, and Bowers, as well as a representative from The Technician.

In Thursday's issue, which everyone interested in Fraternity Row is encouraged to read, results of this meeting of the IFC Housing Committee will be printed, along with the already mentioned history leading up to Friday's action. In addition, we will try to recognize all those who have done so much to help with this effort.

The 823 fraternity men of State College owe a tremendous vote-of-thanks to all those who gave Fraternity Row their support. From President Friday, Vice-President Carmichael, Mr. Watts Hill, Dean Stewart, Banks Talley, and Henry Bowers . . . to the many individuals, whose efforts combined to make Fraternity Row a reality, we can only say, "Thank You!"

EDITORIAL COMMENT

No Longer the Dream

State College fraternity men saw their dream of many years—a fraternity row—become a virtual reality Friday when the North Carolina Board of Higher Education and the State Advisory Budget Commission, upon recommendations by the Consolidated University Board of Trustees, gave their final approvals to the project. (see story, page one.)

A fraternity row here at State College is something that the Greeks have been hoping for for at least the past ten years. But, in every case where the planned project was submitted for approval to some body of this state's educational system, there was a person or block of people who refused to be convinced that the project was a worthwhile addition for State College.

Recapitulation as far as the dissenting persons of the past is concerned is not necessary at this time, for now they have dropped their opposition. It is important to note, however, that, whatever their reasons were, they have been eliminated now.

This approval could not have come at a more needed time. At the present, many State fraternity men are living in quarters which are nearing the point of condemnation. For several years, the City of Raleigh has refused to grant building permits to any fraternity houses, thereby making major repairs or needed additions impossible.

Not only is the realization of this dream needed at this time because of the conditions of the houses, but there is also strong feeling against some of the fraternities by the people of Raleigh. These residents have complained because of "excessive noise" emitting from the fraternity houses. Of course, the latter problem has neither become better nor worse in the past few years, for fraternity men are basically the same, irregardless of what years they are in school.

Finally, the construction of a fraternity row will make the problem of supervision by college officials a bit more convenient. Now, with the eighteen houses scattered over a large area of Raleigh, it is almost impossible to control effectively the activities within any one house.

State's Greeks will shout in utter horror at this thought, but the most important item, by far, which this supervision will bring about is the fact that the houses will be protected. Several times a year, fraternity houses are entered and ransacked. The fraternity row should cut down such occurrences by a large number.

There is no end to the list of people that should be thanked for seeing this project through many storms in the past. We must thank the entire administration, and especially the Office of Student Affairs. We also must thank the members of the Board of Trustees who have worked so unceasingly in the past to see this dream become real. And also, we must thank the fraternity men who are now gone from State College, for, without their drive in the early years of this long battle, a fraternity row for State College fraternity men would be a very-much-in-the-future dream.

LITTLE MAN ON CAMPUS

Letter to the Editor

To the Editor:

Subject: Thank you, Mr. Price!

He came, he saw, he conquered. That famous line is again used. A cliché! But appropriate, I think. I don't like Whitman and I never will, and I would take one word of Sandburg for every hundred that Whitman ever wrote, but he had a message. Mr. Price bro' it that message to State and, because he did, I think we all understand Whitman better and like Price more. This is good for us and good for Whitman and good for Price.

The theme for Whistler's "Ten O'clock Lecture" carries the basic thoughts that all the great artists and creators ever uttered. From Woodrow Wilson at the peace treaty, Frank Lloyd Wright at the Midway Gardens, and Maurice Utrillo at Montmartre, and on and on backward and forward through the ages, great men's ideas productions have stood for themselves and represented themselves; and those who benefited were merely the by-products. Many only remember the wit of Whistler as Price presented it, but Price presented an infinitely greater idea of Whistler's. Those who had never heard Whistler's "Ten O'clock Lecture" will thank Mr. Price for his choice. It bares thought, and I believe it will get that thought from some of the State College students.

Tennessee Williams, Mr. Price said, is a representative American playwright. I believe, as far as American drama is concerned, that Williams is now the greatest living playwright and second only to Eugene O'Neill in all American drama. I wonder if Rod Sterling thought of Williams' "On a Streetcar Named Success" when he wrote "The Velvet Alley". I think he must have, as must all new artists, writers, and the like when the public, at last, finds that they are as good as they thought they were all the time. The essay is good and Price makes it far better by selecting it and presenting it.

And at last, we see Mr. Price playing his true role... that of an actor. I have no right to say for others that "The Last of the Solid Gold Watches" was well done by Mr. Price, but, as for me, it was better than the best. I am a child, a layman of the arts, so take my comments as a grain of sand. But, thank you, Vincent Price, for

making me wish that I were not quite so ignorant as I am. If each of us find and apply our talents as well as Mr. Price has, then there would be no problems concerning anything but success. Thank God for a Mr. Price at State, once in a while, anyway.

Phil Gietzen

Greeks On Campus Maltby Discouraged: 'Too Much Card Playing'

By Bill Marley

I talked to Richard Maltby at the dance Saturday night during a break and got the impression that he was a little discouraged with the card playing, etc., that went on during the afternoon concert. I tried to explain to him that we may not have seemed interested in the music he was playing but that it was "semi-traditional" here at I.F.C. concerts to use the concert music for a background for a casual afternoon. He admitted that he was somewhat heartened by the tremendous turnout at the dance itself and that he wouldn't hold our custom of indifference against us thanks to our dance enthusiasm.

Again the Fall I.F.C. Pledge Dance was a success and you Greeks turned out in great numbers for the affair.

I.F.C. news of last week includes the following list of new representatives; Durant Vick, junior representative from Kappa Sigma; David Whitesides, junior representative from Lambda Chi Alpha; Jimmy Neal, president of Pi Kappa Phi; Jimmy Hartage, representative from Pi Kappa Phi; and Mike Perry, junior representative from Sigma Alpha Epsilon.

Also on the agenda for last Wednesday's meeting was an announcement by Tom Eck of the Activities Committee that the Christmas party for the orphans could be held Friday December 11; or Monday, December 14. Each house will decide on the preferable date and notify a member of the Activities Committee. Tom asked that each house also decide how

L.G.

Last week you were told of the method of travel and the circumstances of the journey; in this issue, I shall try to tell you briefly of the nature of the natives and of the food that they eat.

My dog and I walked for about two hours in the direction of the town, the lights of which we had observed the night before. We were beginning to become quite hungry so I decided that we would search for food first of all, then begin studying and recording the culture of this generation. We finally reached the edge of the town and promptly began to search for a place to dine; naturally I wouldn't be able to take my dog in with me, but I could bring him some scraps of food from the meal. After an hour of searching we came to a tall, broken down brick building emblazoned with a sign boldly announcing its existence as "Sutherland's Cafeteria, pets welcome." From this I gathered that this wretched-looking establishment served animals as well as people. It was no time to be choosy, so I, followed by my dog, pranced in and fell in line along with the other starving patrons of "Sutherland's".

The food was divided into two groups, "special" and "regular." The special food must have been intended for the stronger-stomached pets, because I couldn't imagine eating such horrible combinations of bad food. I finally managed to find some food that looked edible (none looked desirable). I got two of each thing that I had picked

out, one for me and one for my dog. This later proved to be a mistake, my dog wouldn't eat any of the food and I couldn't manage one serving, let alone two.

It was when I was almost through the line that I suddenly remembered that my money would probably not be any good in this age, and that it wouldn't be worth the chance of exposure to use what I had. This thought came as quite a shock, but what else could I be made to do but wash a few dishes for my meal? When I finally came to the cashier I was just about to reveal myself when I realized that she was merely getting the patrons to sign their names and not extracting money from them. I was thankful for the old convenience of credit purchasing. I signed my name, like everyone else and went to find a place to sit.

The Cafeteria was divided up into several small rooms, one large room, and two balconies, which seemed to me a waste of space, but the building was quite old and had been designed as a luxury establishment many years ago. I finally found a place to sit to eat (I had to wait for a table-full of people to finish and leave before I could get a table). I was joined by a rather young man and his pet cat after I had been sitting for about five or ten minutes.

I managed to get started on a conversation concerning the strange way of paying for food with credit. He explained that credit had become such a thing that the government had formed an agency just to take care of credit, for the large companies were beginning to make too much profit on credit schemes. He said that everything was bought on credit for which the government sent out statements along with tax bills. The companies paid one's salary directly to the government to save their employees the trouble of keeping up with their cash.

We managed to become pretty good friends during the meal; I had to tell him everything about my coming there so I could get answers to my seemingly mad questions. He told me that he was a University student and invited me to attend classes with him one day. I decided that this could be just what I was looking for, an opportunity to study the training that the students of this generation received; it could prove invaluable in fitting together the overall picture of the culture of the time.

Later I shall tell you of my visit to the University.

UCLA Defeats State 21-12; Gabriel Stars

North Carolina State lost its second consecutive football game Friday night in the Coliseum at Los Angeles to the UCLA Bruins. The final score was 21-12.

The Wolfpack had to hold off the Bruins many times in the first half, as the Bruins single wing was working to perfection with tailback Bill Kilmer leading the way.

The Wolfpack held the Bruins three times on valiant goal line stands. These stands came within the Wolfpack four-yard line.

HOW IT HAPPENED

NCS	UCLA
13 First Downs	18
164 Rushing Yardage	268
128 Passing Yardage	135
14-22 Passes	7-15
9 Passes Intercepted by	3-42
6-27 Fumbles Lost	1
54 Fumbles Penalized	46

SCORING SUMMARY

NCS	0	0	6	6-12
UCLA	7	7	7	6-21
UCLA-Johnson 18 pass from Kilmer (Jones Kick)				
UCLA Skip Smith 71 run (Jones Kick)				
NCS-Podwika 23 run (Kick failed)				
UCLA-Luster 44 pass from Kilmer (Jones Kick)				
NCS-Morris 6 pass from Gabriel (pass failed)				

UCLA cashed in on two touchdowns in the first half, while the Wolfpack was having trouble getting its offense to click. However, in the second half with the score 14-0 in favor of UCLA, the Wolfpack scored its first TD of the game with Ron Podwika going 23 yards for the score. The try for the extra point was no good. However, the Wolfpack was back in the ball game.

With the score 14-6 UCLA came back to score another touchdown to put the game on ice. The score came on a 44-

yard pass from Kilmer to Luster to make the score UCLA 20 NCS 6. Jones converted for the extra point to increase the score to 21-6.

The Wolfpack came back in the last quarter to score when Roman Gabriel passed to sophomore end Johnny Morris for the "Rocket's" first varsity touchdown pass. A pass failed in a bid for two points and the score remained UCLA 21 NCS 12.

There was no more scoring in the hard fought contest. For the seventh straight time this season the Wolfpack had gone down to defeat. Incidentally, they also lost the toss at the beginning of the game.

However, there was a brighter side of the picture than the game would seem.

State's sophomore quarterback, Gabriel, played a whale of a ballgame for the Wolfpack. He completed 12 of 17 passes for 105 yards. Also, he completed his first touchdown pass as a varsity player. Maybe the "Rocket" has found himself if Friday night is any indication of what the sophomore quarterback can really do.

Ron Podwika, State's bread-and-butter halfback also played a whale of a ballgame. He gained 60 yards rushing in nine carries to lead the Wolfpack run-

ning attack. He also ran 28 yards for a TD.

Next week, the Wolfpack travels to Columbia, S. C., to play the Gamecocks. This is State's next to last game of the football season. They play Maryland in their season's finale at College Park, Maryland on December 5.

This has not been a good season for the Wolfpack as their record indicates.

However, with a few more inches and a few less seconds their record could just as easily be a winning one as a losing one.

Maybe next Saturday, the Wolfpack will win a toss and bring a victory home to State College. Let's hope so anyway.

ATHLETE OF THE WEEK

ROMAN GABRIEL—6-3, 212, 19, Soph., Wilmington, N. C. The "Rocket" was the Wolfpack's brightest light in otherwise dismal loss to the UCLA Bruins Friday night. Completed 12 of 17 passes for 105 yards and one touchdown. Gabriel had just returned to the Wolfpack lineup after being out three weeks with an injury. His TD pass to end Johnny Morris was his first of his varsity career.

Bragaw North Tops Watauga In Intramural Playoffs

There was a fast and furious week of football last week as the play-offs got underway in both the fraternity and dormitory loops. This week the teams in both leagues will enter into the second week of the play-offs.

In the top tilt of the week, Bragaw North handed Watauga a 23-0 decision in the first round game. It was the passing arm of Bob Salisbury that led the strong Bragaw team to the win. The Bragaw forced their way into the scoring column when a Salisbury to Henley covered 17 yards for a touchdown. This combination clicked again for the extra point to put Bragaw into the lead for good.

In the opening minutes of the fourth period Salisbury tossed another touchdown aerial, this time it was a 15 yarder to Wright. Then again in the fourth period Bragaw scored with same combination, a Salisbury to Wright pass. Bragaw picked up four more points in the game as they caught Watauga runners behind the goal line on two occasions.

The following is the results for the remainder of the football games played last week.

Bagwell 13-Tucker #2 0
Berry 1-Becton #1 0 (Won on yardage)
Syme 1-Bragaw S. 0 (Won on yardage)
SAM 16-PEP 0
S. Nu 13-PEKA 0
SPE 25-SAM 0
S. Chi 23-D. Sig. 0
KA 6-PKT 0

S. Nu 12-K. Sig. 12 (S. Nu won on regular season in fraternity volleyball).

The volleyball play-offs began in the dormitory loop this past week and are scheduled to get underway in the fraternity league this week. The following are the results of the action in the volleyball leagues this past week.

S. Pi 5-LCA 1
S. Chi 2-FH 1
SPE 2-PEP 1
S. Pi 2-S. Nu 1
KA 2-AGR 1
PKP 1-D. Sig. (Forfeit)
PEP 2-T. Chi 0
PEP 2-SAM 0
SAM 2-T. Chi 1
S. Chi 1-S. Pi 0 (Forfeit)
PEP 2-D. Sig. 0
S. Nu 2-LCA 0
PEKA 2-THE 0
Vetville 2-Watauga 0
WG48 2-Becton #1 0
Tucker #1 2-Bagwell 1
Becton #2 2-Berry 1

Last week the fraternity loop ended the volleyball action for the regular season and will get the play-offs started this week. There were three perfect records in the fraternity sections of volleyball. SPE, PKP and S. Chi ended the season with perfect 6-0 marks. PEKA, the other section winner, took their section with a 5-1 slate. The following are the final standings for the

Section I

SPE 6-0
PKT 4-2
SAE 1-5
K. Sig. dropped

Section II

PEKA 5-1
KA 4-2
AGR 3-3
TKE 6-0

Section III

PKP 6-0
PEP 4-2
D. Sig. 3-3
SAM 2-4
T. Chi 1-5

Section IV

S. Chi 6-0
S. Pi 4-2
FH 3-3
S. Nu 2-4
LCA 0-6

Along with the volleyball and football play-offs in the various leagues, the start of basketball season is at hand. There is a full schedule for basketball as well as volleyball and football. The following is the schedule for basketball action for this week.

Wednesday
6:00 Tucker-PEKA 2-Court 1
7:00 S. A. E-A. I. Grade-Court 2
7:00 Burlington-S. Chi 2-Court 1
8:00 D. Sig.-Tucker Troopers-Court 2
8:00 Becton 2-Nash Ramblers-Court 2
1 S.A.M.-T.K.E.-Court 2
9:00 L.C.A.-Wolverines-Court 1
Owen 1-S. Pi-Court 2

DICK HUNTER
N. C. State Class '58
AS
College Plan Representative

Dick will specialize in presenting to you our feature life, retirement, disability and future insurability plan of insurance. This policy has been designed especially for college men in regard to both need and reasonable premium. Financing is available to qualified seniors.

For information without obligation we invite you to call Mr. Hunter at Temple 2-3000, or visit him at 401-14 Raleigh Building.

North Carolina State Student Affairs Bulletin

ATTENTION FEBRUARY GRADUATING SENIORS—The Students Empty Stores is now taking orders for graduation invitations. December 1st will be the deadline for placing your order.

BICYCLE STICKERS—A new supply of bicycle stickers is on hand at the College Traffic Office, 107 Pullen Hall, and students who have not registered their bicycles should do so without delay.

INTERNATIONAL STUDENTS—Raleigh families would like to invite you to join them for Thanksgiving dinner. Please sign the lists in the College Union, Library, YMCA, and Gold Dorm.

MID-TERM FAILURE REPORTS—Each student receiving a mid-term failure report is strongly urged to consult immediately with his academic advisor and the instructor of the subject in which he is failing.

PHYSICAL THERAPY OPEN HOUSE—The Physical Therapy Department of the Duke University Medical Center will hold open house on Wednesday, November 18th, between 2:00 and 4:00 p.m. Any students at State College interested in physical therapy are cordially invited to attend. Department tour, demonstration of therapy procedures, and a movie, The Return, will be shown. The staff will be on hand to answer questions.

EMPLOYMENT OPPORTUNITY—Agricultural Commodity Graders of fresh fruit, vegetables, and grain are needed for duty with field offices of the Agricultural Marketing Service, Department of Agriculture, located throughout the country, the United States Civil Service Commission announces. The entrance salary levels

are \$4,900 and \$5,985 a year for graders of fresh fruit and vegetables, and \$4,040 and \$4,980 a year for grain. Appropriate experience or a combination of education and experience is required. Full information is contained in Civil Service Announcement No. 214B. This announcement and application forms may be obtained from Mr. George B. Justice, located at 802 Post Office Bldg., or from the U. S. Civil Service Commission, Washington 25, D. C. Applications will be accepted by the Board of U. S. Civil Service Examiners, 6th Floor, Administration Building, Department of Agriculture, Washington 25, D. C., until further notice.

COMMUNICATION BARRIERS ON CAMPUS—HOW TO BREAK THEM, is the topic for the American Association of University Professors program, November 17, 8:00 p.m., Alumni Memorial Building. Professor Lambert, Dean Shirley, Dean Stewart, and Phil Carlton will discuss the topic and respond to questions. Students are invited to attend and participate.

E. P. T. Initiates Pledges

Five pledges were initiated into the Alpha-Pi Chapter of Epsilon Pi Tau at 5:00 p.m. on Tuesday, November 10, 1959 at the College Union.

Those initiated and their hometowns were: Donald G. Bassett, Raleigh, N. C.; Charles H. Gates, Henderson, N. C.; William O. Hooks, Fremont, N. C.; Thomas E. Wallace, Charlotte; Lemuel H. Overton, Matthews, N. C.

Epsilon Pi Tau is an Honorary-Professional Society or Fraternity operation in the complementary fields of Industrial Arts Education and Industrial Vocational Education. The National Chapter was founded in 1928 at Ohio State University and was

incorporated in 1942. The local chapter, Alpha-Pi, was established on the N. C. State Campus in 1951. The purposes of Epsilon Pi Tau are: 1. To recognize the place of skill, 2. To promote social and professional proficiency, and 3. To foster and reward research.

LUCKY STRIKE presents

Dear Dr. Frood:

DR. FROOD'S MORAL OF THE MONTH

Brevity is the soul of wit. Which is why the sight of a girl in a Bikini invariably brings a smile to a man's face.

Dr. Frood, Ph.T.T.

Dear Dr. Frood: Do you think next year's dresses will cover the knees?
Clothes-Conscious

Dear Dr. Frood: Do you think a boy should kiss a girl on their first date?
Shy

Dear Clothes-Conscious: They'd better cover more than that.

Dear Shy: She would seem to be the logical choice.

Dear Dr. Frood: I read a great deal so I never have time for girls. Am I missing anything?
Literate

Dear Literate: Only a few marbles.

Dear Dr. Frood: The guy next to me copys from my paper. What should I do?
Truthful

Dear Truthful: Warn him. Quick!

Dear Dr. Frood: When I refuse to go out with unattractive girls, my friends say, "Beauty is only skin-deep." What do you say?
Fussy

Dear Fussy: That's deep enough.

Dear Dr. Frood: I admire my roommate very much, so I try to be like him. He smokes Luckies. Do you think I should smoke the same cigarette he does?
Awed

Dear Awed: No. Ask him for an unused Lucky.

DR. FROOD ON QUERIES BEST LEFT UNQUERIED
Years of experience have taught me never to ask a girl these questions:
*Shouldn't we skip the garlic?
What happened to the fraternity pin?
Wow! Is that your roommate?
Do you mind turning out that light?
You mean that isn't a beanie?
How come you never wear shorts?
Why don't you smoke your own Luckies?*

COLLEGE STUDENTS SMOKE MORE LUCKIES THAN ANY OTHER REGULAR!

When it comes to choosing their regular smoke, college students head right for fine tobacco. Result: Lucky Strike tops every other regular sold. Lucky's taste beats all the rest because L.S./M.F.T.—Lucky Strike means fine tobacco.

TOBACCO AND TASTE TOO FINE TO FILTER!

Product of The American Tobacco Company—"Tobacco is our middle name"
