## Fourteen Members

### Blue Key Initiates

Blue Key, national leadership fraternity, at N. C. State College, tapped fifteen new members into its group last Thursday and Friday.

The initiation banquet for the new members will be held Friday, January 22, at 6:30 p.m. The Banquet will be held at the Charcoal House.

The leadership positions held by the new members are as follows. W. R. Keen is a senior and

president of the Inter-Dormitory Council. D. H. Cash, Jr. is a senior and president of Tompkins Textile Council. J. W. Ray is a junior and chairman of the Honor Code Board.

F. S. Madren is a junior and treasurer of the Engineer's Council and also manager and vice president of Bragaw dorm.

R. L. Moxingo is a junior and is president of the Agriculture Education Club and also was president of the State F. F. A. J. R. Cooke Jr. is a junior and is the Vice-President of the Student Government.

C. E. Russell, Jr., is a junior and secretary of the student government. L. A. Daniels is a junior and chairman of the Consolidated University Student Council. R. H. Shultz is a senior and is the vice-president of the I. F. C.

P. I. Leggett is a junior and the president of the Junior Class. Stan Timblin is a senior and president of the College Union. S. C. Mathews is a junior and vice-president of the YMCA. T. H. Eck is a junior in the IFC activities chairman and a member of Alpha Zeta. H. W. Sigmon is a senior and is the secretary of the College Union. C. E. Libby is a member of the faculty in the school of Forestry and head of the Pulp and Paper Technology Dept.

The ideals of Blue Key are that in American Colleges and Universities (1) belief in God will be perpetuated and intensified, (2) the United States Government will be supported and defended, (3) established Institutions of society and principles of good citizenship will be preserved, and that through the inspiration of Blue-Key (1) intellectual attainment and a desire to serve their college and fellows are fostered among students, (2) student problems are studied and student life is enriched, and (3) an institution's progress and best interests are stimulated and promoted.

### Sigma Pi Sigma Inducts Students In Wed. Ceremony

Seventeen senior and graduate students in Engineering Physics and Nuclear Engineering were initiated into Sigma Pi Sigma, National Physics Honor Society in a formal ceremony Wednesday January 6, 1960.

Sigma Pi Sigma receives into membership physics students and others in closely related fields when such students attain high standards of scholarship, promise of professional merit, and academic distinction. Scholastic requirements for membership in the society are comparable to those of other national honorary societies.

Membership in Sigma Pi Sigma is the highest scholastic honor conferred exclusively on students of physics and closely related subjects. Election to membership implies not only that the student has attained a high standard of scholarship, but also that he has respect of his fellow students and the faculty of the Physics Department.

The newly initiated members are: George R. Barber, Frederick A. Bryan, Jr., Roy L. Champion, Francis C. Cobb, Jimmie S. Daughtry, William Y. Epling, Nripenda K. Ganguly, Arthur J. Gross, John W. Hall, Philip E. Hamrick, Harry M. Mitchell, Claude G. Poncelet, Charles H. Rutherford, Ronald E. Sells, Gary T. Smith, Dean A. Waters, Jimmie J. Wortman.

### State To Participate In UN Model Assembly

The College Union Forum Committee stated in a recent edition of *The Technician* that State College had accepted an invitation to participate in the United Nations Model Assembly which is to be held in Chapel Hill, February 25-27.

Hundreds of students from other southern colleges and universities will be attending the three day conference which should be filled with heated debates, walk-outs, parliamentary procedure and accomplished speakers.

The N. C. State College delegation will be representing Israel at the conference. The Forum Committee encourages all students who are interested in going as members of the delegation to call or come to the College Union Activities office for further information. The Forum Committee will hold personal interviews with everyone who applies.

Final selections will be made and announced later. The chosen delegates will have an opportunity for a summary meeting on the conference before going to Chapel Hill.

Registration for the conference is being held Thursday, February 25, from 1:00 p.m. 4:00 p.m. in Chapel Hill. Delegates attending the three day conference will be excused from their classes.

The main speaker for the United Nations Model Assembly will be Dr. Frank Graham, former President of the Consolidated University of North Carolina, former Senator, and a delegate to the U. N.

The experience of being a part of this conference should be invaluable in gaining a greater knowledge of the work and operation of the U. N. The Forum Committee hopes that you will give this every consideration.

## SG Protests Government Loan Disclaimer Affidavit Clause

By Jim Page

The seventh session of the State College Student Legislature was called to order once again last Thursday night at 8:15 by Vice-President Bob Cooke.

### Knox's Report

After Secretary Charlie Russel called the roll, and read the minutes of the last meeting, which were corrected to some extent by Senator Weiss McGee, the meeting got under way. President Knox reported that he intended to investigate the localization of the campus publications. He also cleared up some misunderstanding which resulted from his letter in the *Technician* directed toward the publications managers especially the Agromeck's.

At this point President Knox presented his views on the bill, concerning the National Defense Student Loyalty Oath and Disclaimer Affidavit requirements. President Knox, who is a recip-

ient of one of the loans, stated that he thought that the loyalty oath and affidavit had a great many objectionable qualities, but he thought that the school should not do away with the loans because they help many attend college who would not have the chance otherwise.

After the president's report, treasurer Ben Kittrell made his financial report to the legislature.

### Monetary Appropriations

At the conclusion of this brief report, the Budgetary and Finance Committee presented several, proposed appropriations. The first appropriation presented was for the State College Band. The band has asked for \$845.00 which would be used for band awards and tour expenses. This was discussed momentarily then Senator Phil Carlton rose and said that he was seldom in favor of many appropriations their first presentation, but that he was in favor of this one be-

cause he thought that the band had been one of the few bright spots on the football field this fall. With this remark the legislature voted to give the band the full requested amount. The next appropriation to be presented was one in which the Pershing Rifles asked for \$1100.00. After a few minutes of discussion it was decided that there was not sufficient evidence to give the PR's this amount of money, and that in fact there was not sufficient evidence of need so the bill was tabled till this evidence could be gathered.

Donald Duckworth of the promotions committee made his report in which he brought out that efforts were being made to give the students more of an idea on what is going on in the S. G. meetings, which incidentally is what I am trying to do in this article. In the promotions committee it was also brought out that possible dates for the S. G. banquet were May 18, 19, 20. However, several seniors found fault with each of these dates and the matter was turned back over to the committee.

After several other minor committee reports, Leslie Young was sworn in as a Senator.

### Government Loans

At this stage of the meeting we heard from Senator John Fulton and his Academic Affairs committee. (The fact of the matter is that we heard from Senator Fulton and his bill till nearly 12:15.) The main gist of the bill was that the student body of the college was against the signing of the disclaimer affidavit and the loyalty oath on all government loans, and that the student body strongly recommended that the chancellor file a protest to the affidavit and loyalty oath in behalf of the student body with the federal government and use the influence of his office to effect the repeal of the oath and the affidavit.

### Bill Altered

This bill did not pass as stated but underwent changes in

the course of the night's discussion. The bill as it passed stated that the student body disapproved the disclaimer affidavit requirement on the loans and that a copy of our disapproval would be sent to the chancellor of the college, the president of the consolidated university, the members of the board of trustees, and the state congressional members.

To start off the discussion of the bill before it passed, Dr. Clark of the local chapter of the Association of College Professors gave a talk stating that the Association had very strong feelings against the affidavit and some feeling against the oath. (Four other members of the local chapter attended the meeting with Dr. Clark.) After Dr. Clark's talk the floor was opened for discussion of the bill.

Senator John Fulton led the group in favor of passing the bill and Senator Phil Carlton led the group that was for changing the bill to some extent. There were several other members who voiced some very strong opinions. Senator Carol White of the school of engineering "came through" with some very good ideas entirely against the bill. Senator Gregory, also from the school of engineering, was also against the bill in its present form and presented some very fine points to verify his stand. Senator Phil Carlton, who proposed (for the most part) the bill that finally passed, argued in favor of changing the bill to the form that has already been stated.

### Fulton Active

Between every speaker seeking to change or in anyway alter the proposed bill Senator John Fulton rose and spoke his "peace" trying his best to tear down his opponents argument, and to build up his own. It can be said for him, however, that he did present some good ideas. Well after the "bull was shot" pro and con on the matter each side stating their arguments the bill was passed with quite a few alterations, the fact of the matter is that it looked like a new bill at the end of the meeting.

## Campus Crier

The College Union International Committee will sponsor a film program on Thursday, January 14, at 8:00 p.m. in the College Union Theater. The films will be: "The Seasons of Canada", "The Wilderness of Zin in Israel", "Modern Land of the Vikings" from Sweden. Coffee will be served following the film program.

Due to the many requests from the student body, the deadline for reservations for the Nassau trip has been extended until 11:00 p.m. Monday, January 18. No reservations will be accepted after this time.

This trip is open to College Union members and one guest. Additional information may be obtained in the College Union Activities Office.

At 7:00 p.m., on Thursday, Jan. 14, Mr. Rod Reinecke will present the third in a series of talks on Courtship and Marriage in the North Parlor of the YMCA. His topic will be "Mis-laid" or "The Meaning or Meaninglessness of sexuality." Everyone who plans to attend Mrs. Ethel Nash's discussions later on in the year should be present for this talk.

All appeals to the Traffic Appeals Committee should be made on or before Jan. 18, 1960. The committee will not meet Jan. 25 as examinations will be held that week. All traffic tickets must be appealed or paid by the 18th or the fine will be included in the admission charges.

All students who will graduate in February and would like to have a 1960 Yearbook mailed to them in the spring should:

(1) go to the Business Office and pay the remainder of their fee (\$2.83). (2) Take the receipt which they will receive from the Business Office to Mrs. Lucas, Room 313, 1911 Building and give her their permanent mailing address.

All E. E. faculty members and students are invited to attend the AIEE-IRE Joint Student Branch meeting, which will be held Tuesday, Jan. 19, at 7:00 p.m. in Riddick 242. The program will be "The Sandia Story." New officers will be elect-

Jobs are available for students graduating at the end of this semester as staff writers for *The News and Observer* here in Raleigh. Any student who is interested in this kind of work permanently should contact Woodrow Price at the Observer-Times Building on South McDowell Street.

The Fourdriner Society will meet Wednesday, Jan. 13, at 7:00 in Robertson Laboratory of Pulp and Paper Technology. "The Great White Trackway", a film on the manufacture of fine writing paper, will be shown.

There will be a WKNC staff meeting in the station lounge at 8:00 p.m., on Tuesday, Jan. 12. It is very important that all members be there. Those still interested in joining the staff are also invited to attend.

The Pershing Rifles will have a meeting Tuesday, Jan. 12th at 7:30 p.m. in the M. S. I classroom.

## Intercollegiate Band Draws State Students

A group of 14 State College Band members represented the college in the 1960 North Carolina Intercollegiate Band which performed in Concord January 9 and 10.

The event is sponsored each year by the College Band Directors National Association.

A committee made up of representatives from the various colleges in North Carolina met recently to select the personnel for the 1960 Band.

Robert A. Barnes, director of music at State College, is the North Carolina State chairman for the College Band Directors National Association.

The following musicians were

selected from State College: Jack Bouknight, Norman Come and Wayne Lanier, Wilmington; Robert Frazer, Charlotte; Tom Jones, Brevard; Jerry Kennon and Eddie Stubbs, Greensboro; Ray McCrary, Lexington; David Teague, Granite Falls; Plato Watts, Florence, South Carolina; Douglas White, Ahoskie; Raymond Winton, Raleigh; Tom Shinn, Asheville; and Tom Shumate, Cherryville.

The two-day event was culminated with a concert at 4 p.m. on Sunday in Concord. Sigurd Rascher, world famous saxophone virtuoso, was soloist with the 1960 Band. Lee Chrisman, director of bands at Boston University, was the guest conductor.

## EDITORIAL COMMENT

## A Notable Move

It is a welcome sight, indeed, to see that the Student Government has begun its function of legislating for this school year. And, it is even more welcoming to see that the Student Government has come forth with an honorable and sensible resolution.

Last Thursday night, after much deliberation from a good number of the Legislature, a bill was passed saying, in effect, that the student body of State College is opposed to the Disclaimer Affidavit of the National Defense Education Act of 1958. (See story, page one.)

This newspaper has contended throughout this year that the Affidavit in question is not detrimental to American principles. We still hold this belief.

However, the important part of the recent legislation by the Student Government is that they did not recommend that this College withdraw from the Federal Loan Program, because of its possible discriminatory undercurrents. Evidently, the Student Government realized that such a recommendation would have hurt more students here at State than it would have helped.

We hope that the Student Government will continue to use discretion and forethought in dealing with such important matters. And we also hope that they will continue to deal with important matters.

—JM.

## The Kids Who Scared Raleigh

(The following editorial, reprinted from the Charlotte Observer, concerns the upcoming State Student Legislature, to be held here in Raleigh on March 10, 11, and 12.)

Almost every year for the last quarter century a few score of college kids have come to Raleigh, banded themselves into North Carolina Student Legislature and proceeded to pass "bills" and "resolutions."

For the students themselves it has been a valuable exercise in the legislative processes. For the general public it has been a harmless game, hardly worthy of notice beyond the walls of the old Capitol.

Then came 1958 and a resolution favoring repeal of the ban against inter-racial marriage in North Carolina. The students passed it and the elders of state government went into a tizzy.

The Governor and the Council of State passed a resolution of their own. It refused the use of the state's legislative chambers to these youngsters unless their meetings are endorsed by a majority of the colleges and universities from whence they come.

Now the screws are tightened a bit more. The keepers of the Capitol will allow its use only "provided that all the active heads of the colleges and universities which may be represented at this (1960) meeting write to the Council of State signifying their sponsorship of the meeting. . . ."

Haven't these gentlemen anything more important to do? Are they afraid these few kids will undermine the firm foundations of the sovereign state of North Carolina?

What they enact and what they vote down is not of great concern to us. They have no more power to write laws of the state than the inmates of Central Prison.

What if they are against capital punishment, in favor of the short ballot, against racial barriers, in favor of a four-party system? They certainly have a right to their opinions. They have just as much right to the use of the legislative chambers to declare those opinions as does, for instance, the State Democratic Executive Committee.

The students may have asserted a minority view concerning the Constitution. At least they have not mocked that document as have their legislative elders on the

## Greeks On Campus

By Bill Marley

Again this week, news is slim for the Greeks because of the holidays. I do understand, however, that many good parties "a la combo" were held this past Saturday night. I know that in our house, it looked like the final big blast of Fall Rush Week to which I'm sure our neighbors and many "visitors" will attest.

Let me say a few words a-

## Editor's Letter

To the Editor of The Technician: I'm a member of the "Bluenotes", a vocal recording group, and I'm also a student here at State.

One of our members recently resigned for personal reasons and we are looking for a man to audition in order to replace him.

We presently have a song in the "Hot One Hundred" in *Billboard*, *Cash Box*, *Music Reporter*, and all the major charts. We are to appear on American Bandstand with Dick Clark, on Thursday, January 14, so it is a wonderful opportunity for someone.

We have a temporary man for the time being, but need to start working with a permanent replacement as soon as possible.

I would like for you to let the men here at State College know of our need. It certainly would be appreciated.

If you can do this, will you please have someone contact me as soon as possible?

F. L. "Pat" Patterson  
(Editor's note: Any student of State College who is interested in auditioning for a position with the "Bluenotes" should contact Patterson either at his home, S-1, Country Club Homes, or by calling him at TEmple 4-9421.)

## SPECIAL ISSUE

Next Monday's issue of The Technician will be devoted almost entirely to the Grand Opening of the new Student Supply Store. All persons or organizations wishing to have announcements printed in that issue should have them here in the offices no later than Thursday, January 14, at 7 p.m.

The scene is set in a small church at 11:15 Sunday morning. The preacher has stepped up to the stand and is about to deliver his sermon. He is a tall, rather dark, influential looking man of about 30 years. He has had all of the hardships of a poor man's life and now is about to reap the benefits of a position of influence in the community. The preacher is a basketball coach on Friday nights, just to supplement his income and help maintain his two-year old Cadillac in the proper fashion. He feels that he has a social obligation to represent his congregation by owning the newest, shiniest Cadillac in the community. The preacher leans over and first whispers, then shouts to the overly attentive congregation.

PREACHER: Bretheren, I have come befo' you today to let you in on some of the secrets of heaven. When the good Lord asks us for help, we's always ready to do all in our power to help!!

CONGREGATION: AMEN!

PREACHER: You realizes that time is rolling around again for the "Help Children Overseas" campaign and what we need to put it over is teamwork! (Shouts) Get in there and fight like hell to win—(Hesitatingly, realizing his mistake) I mean—put the campaign over to help those poor suffering overseas children.

CON: AMEN!

PREACHER: Now, like I tells my boys on Friday Nights, what we need to be successful in this here life is teamwork and fear of the great preserver and power. I'm askin' you all to open your pocketbooks and praise God to help those overseas children. Never mind those selfminded desires sent you by the devil. Think of someone else at times. You'll never get to heaven by keepin' all you got now.

CON: AMEN!

PREACHER: I think I done said enough about the overseas children. Now it is the time for the hymn and the giving of the holy offering to help support your hard workin' and God-fearin' parson. The many missionary needs of this community and payin' the rent on this meeting hall also needs your consideration. Give to support the grand and glorious works of God above the all powerful.

Which brings me to another important and needin' to be looked at thing. My Car's a'getting a little old and I's a'feared that I mightn't make it to a wedding or a fun'ral sometime. I hate to ask you to pay again for a new car, but I feel that the goodness and gloriousness of the great God above will look after you and pat you on the head for giving from your heart to a good cause where I need to be represented by you and your gifts. A God-fearing man never needs to worry 'bout giving too much; he just can't. It does his heart good to feel the money going to good purposes.

CON: AMEN for your good will!

PREACHER: I'm now ready to get down to business and deliver the sermon and the holy message of God as revealed in his divine book. Is there anyone here who would like to say something 'sides amen, cause after the preachin' begins, there won't be no speakin' out except to say amen when the holy ghost expects you to. (Preacher takes a big swallow of water from the glass on his lecturne and prepares to deliver the sermon—Silence from congregation) Now, bretheren, (Long silence, then reading from the Bible) Isaiah 55:2 done said "where fo' do ye spend money for that which is not bread—"

MEN'S WEAR

Hillsboro at State College

JAY BRAME

A year ago this Wednesday night the No. 1 basketball team in the nation was State College. On that same night they played the Tar Heels of the University of North Carolina. They lost to the Tar Heels 72-68 in an overtime.

This Wednesday night the Wolfpack travels to Chapel Hill to play the mighty Tar Heels. The Wolfpack is not rated No. 1 this year. However, a victory over the Tar Heels would probably be better to Coach Everett Case, the fans of State College, the students, the alumni, and all concerned with State College, than being No. 1 in the nation. A victory would probably bring a march to the Capitol Wednesday night. Let's hope we march Wednesday night about 10 o'clock.

Will Bennett, one of the stars

## VARSITY Congratulates Athlete of the Week

PETE AUKSEL

Varsity Men's Wear invites him to come by and receive \$5 in merchandise of his choice, compliments of the store.

We invite all N. C. State students to make Varsity Men's Wear their headquarters for the finest in men's clothing and furnishings.

**varsity**  
MEN'S WEAR  
Hillsboro of State College

athletes of the Sigma Chi fraternity, will be playing his last basketball game of his college career in the intramural ranks Tuesday night. The reason is that Will graduates at the end of this semester.

Will is a good friend of mine, and I know the Sigma Chis will miss him very much in their intramural program.

Although he is a good friend of mine, I will be glad to see Will go, as will the seventeen other fraternities on campus. He was probably the best athlete in the intramural program this year. Good luck to Will on anything and everything that he encounters after graduation.

Ever wonder how a coach feels when a player of his puts in two points for the other team. Well, it happened to me the other night. The team I was coaching was the Sigma Nu fraternity.

Dave Tharpe, center for the Sigma Nus, had just entered the game. It was a very close game, two or three points difference at the time. The Delta Sigs had a man shooting a free throw. He shot and missed. Dave came down with the rebound, and in

the heat and excitement of the game he tapped the ball in for the Delta Sigs.

Dave is now known around the Sigma Nu house as "minus two." Incidentally, I as coach did not feel too hot about the whole thing.

State's fine freshman team knocked the Blue Imps of Duke University from the unbeaten ranks Saturday night with a very impressive 90-56 win. The frosh held Duke's much publicized freshman, Art Heyman, to 14 points.

State's Pete Auxsel led the scoring with 26 points. The frosh's other four starters also scored in the double digits. John Pungler had 21 points, Pom Sinner, had 17 points, and the flashy guards, Ken Rohloff and Jon Speaks, had 11 and 10 points respectively.

Its a known fact that the frosh guards, Speaks and Rohloff, would probably be varsity starters if they were eligible. They are undoubtedly the finest guards that have hit the campus since Vic Molodet and Lou Pucillo came to the West Raleigh School.

## Athlete of the Week

Pete Auxsel—18, 6-6, Frosh, East Chicago, Indiana—led the high flying freshman to a 90-56 win over the Blue Imps Saturday night by scoring 26 points.

Auxsel also helped hold Duke's freshman star, Art Heyman, to 14 points.

Auxsel is the third East Chi-

cago native to play for the Wolfpack in recent years. The other two were All-American Vic Molodet and All-Conference forward George Stepanovich.

Pete figures very much in the future plans of the Wolfpack. He was sought after by more than 50 colleges.

# Duke Defeats State 47-34; Simbeck Stars

The Wolfpack of North Carolina State lost their fourth consecutive ACC contest Saturday night as the Blue Devils of Duke University fought hard and won, 47-34.

The final margin doesn't show how close the contest really was. With just over four minutes to play the score was 35-34. The Dukes had the lead and went on to outscore the Wolfpack 12-0 in the final minutes of the game.

It was a sophomore, Jon Ed Simbeck, who kept the Wolfpack in the game the whole second half as he sank shot after shot. Simbeck hit three straight goals to keep the Wolfpack within hailing distance of the Blue Devils. Denny Lutz, another sophomore, hit one to reduce the margin to one point, 34-33.

This was as close as the Wolfpack got as Duke, with Carroll Youngkin, Howard Hurt, and Doug Kistler leading the way, quickly stretched the margin to

43-34. School was out for the Wolfpack as the Blue Devils had the contest wrapped up.

Coach Vic Bubas won the first game from his old coach. Let it be said that it was not an easy victory for the Blue Devils. Coach Case is quickly teaching his boys the slow down game.

One of these nights, Coach Case's warriors will be up and knock some team right off the court.

The Blue Devils led the Wolfpack 26-16 at halftime.

State hit 14 of 30 field goals for the game for a very respectable 46.7% shooting accuracy. The Blue Devils on the other hand hit 17 of 43 for a 39.5%.

Simbeck was the high scorer of the game for the Wolfpack with 10 points. Don Gallagher was next in line with six points. Hurt and Johnny Frye led Duke's scoring with 13 and 12 points respectively.

While Coach Case substituted

freely, Vic Bubas used only two reserves. These were Fred Kast and John Cantwell.

The Wolfpack travels to Chapel Hill to play the Tar Heels Wednesday night.

They return home to play the Wake Forest Demon Deacons Saturday night.

Thus, the Wolfpack will be playing the two strongest teams in the conference this week. Both will probably be among the top 15 in the nation this week.

## NOW AVAILABLE TO YOU Monthly Payment of College Charges

Special Plan for Spring 1960 Semester

For Spring Semester Only

The idea of budgeting tuition costs is becoming more popular every day. Many families prefer to pay educational costs out of income rather than out of savings.

For those who do, North Carolina State College has made special arrangements with the First-Citizens Bank & Trust Co., Raleigh, for a monthly payment plan. The essential features of this service are as follows:

1. The Bank pays College charges to the College at the beginning of the spring semester. You then repay the Bank in 6 monthly installments.
2. Costs are reasonable. For example, for College charges amounting to \$250.00 to be paid in 6 months, the cost would be \$7.52. The monthly payment would be \$42.92, and the total amount you pay is \$257.52.
3. First-Citizens Pre-paid Education Plan also offers a monthly payment service to cover two, three or four years of schooling in one contract. Consecutive payments begin in October of the first school year. For further details write to First-Citizens Bank & Trust Co., Raleigh, N. C.
4. No delay through lengthy credit investigations.
5. Life insurance is included at no extra cost on all plans. In the event of the death of the parent who signs the contract, the unpaid balance (up to \$10,000) would automatically be paid off. Thus funds are provided for the uninterrupted education of the student.

If you would like to arrange payment of tuition and school fees on a monthly plan, please return the enclosed card to us. The necessary form for your signature will be mailed to you and after you send it back to us, we will be glad to complete the transaction.

### Repayment Schedule for Spring Semester Only

6 Mos. Plan	Numbr of Years of Schooling	Amount to be budgeted Spring Semester	Monthly Payment	Bank Charge	Total Payment
	1 Semester	\$250.00	\$42.92	\$ 7.52	\$257.52
	1 Semester	\$350.00	\$60.09	\$10.54	\$360.54
	1 Semester	\$450.00	\$77.25	\$13.50	\$463.50
	1 Semester	\$500.00	\$85.84	\$15.04	\$515.04

North Carolina State  
Student Affairs Bulletin

**DORMITORY STUDENTS** — Many students need to concentrate more on their studies between now and exams. Every occupant can help his fellow student by eliminating every unnecessary noise in the dorms during the next three weeks. Decreasing the volume on your radio will be a great help. Every effort should be made by each occupant to disturb the other occupants. The operation of every student in keeping the dorms quiet will undoubtedly enable many students to improve their semester grades.

**FOREIGN STUDENTS** — All aliens are required to report their addresses to the Government on forms that may be obtained at a post office or an office of the Immigration and Naturalization Service. The report must be made during the month of January.

**FREE FLU AND POLIO SHOTS** — All students who have not yet received polio vaccine or a flu shot should do so by reporting to the College Infirmary during the hours from 9:00 a.m. to 9:00 p.m. daily. All students are urged to take advantage of this free inoculation and immunization provided by your Student Health Service.

**ANY STUDENT WHO WILL GRADUATE IN FEBRUARY** and would like to have a 1960 Yearbook mailed to him in the spring should (1) go to the Business Office and pay the remainder of his fee (\$2.83), and (2) take the receipt which he will receive from the

Business Office to Mrs. Lucas, Room 313, 1911 Building and give her his permanent mailing address.

**PHYSICS DEPARTMENTAL SEMINAR** — Mr. W. H. Arnold, Jr., Supervisor of the Reactor Physics Group, Reactor Development, Atomic Power Department, Westinghouse Electric Corporation, Pittsburgh, will be the speaker at the Physics Seminar on Monday, January 11th, at 3:00 p.m. in Riddick 242. His topic will be "The Use of Multigroup Methods to Predict Critical Masses of UO<sub>2</sub> Systems." Those interested are cordially invited to attend.

**PAYMENT OF SPRING TERM TUITION AND FEES** — All students now enrolled have received bills for spring term tuition and fees. PAYMENTS SHOULD BE MAILED TO THE BUSINESS OFFICE NOT LATER THAN JANUARY 20. STUDENTS WHO FALL TO MEET THIS SCHEDULE MAY BE DELAYED AND INCONVENIENCED AT REGISTRATION TIME. For many years students at State College had to stand in long lines in order to pay their bills on registration day. The pre-paying system was established so that students could complete registration with the minimum of difficulty and delay. All students who make payments according to this schedule should be able to pick up PERMITS TO REGISTER and register as scheduled. PERMITS TO REGISTER will not be issued until payment is made.

Positions with Potential

**ENGINEERS • CHEMISTS • PHYSICISTS**

*Ceramic • Chemical  
Electrical • Industrial • Mechanical  
— Metallurgical*

National Carbon Company, America's foremost manufacturer of carbon and graphite electrodes and anodes, impervious graphite, brushes for motors and generators, dry cells and flashlights, arc carbons and a wide variety of other industrial products, offers positions to qualified B.S. and M.S. graduates in the fields listed above.

Positions are available at National Carbon Company's 16 plants, located in the following states: Iowa, New York, North Carolina, Ohio, Tennessee, West Virginia and Vermont, and throughout the country in our sales organization.

Interesting, rewarding careers in research, process and product development, production and methods engineering, product and process control, machine development, plant engineering and sales. A National Carbon representative will be on campus —

**Design School Receives Grant From Tile Council**

The School of Design of State College has received the second of three annual contributions of \$750 from the Tile Council of America in New York City.

Dean Henry L. Kamphoefner said today that \$500 of the gift will be used as a student loan fund and that \$250 will be used for the further development and improvement of the School of Design's materials display center.

The State College School of Design is one of seven such institutions in America that share in the cash awards from the Tile Council of America. The schools were chosen by a group of nationally-known educators.

Dean Kamphoefner explained that with the \$500 earmarked from last year's council gift, the total student loan fund now amounts to \$1,000 and is known as the Tile Council of America Student Loan Fund.

Check the experiences of four '59 graduates at Kearfott

**JAMES KEATING**  
Villanova University '59

**LENNART G. JOHANSSON**  
Lafayette College '59

**STANLEY WALLERSTEIN**  
Ohio University '59

**GARY WOERNER**  
Newark College of Engineering '59

Not at all sure of the area of engineering (development, design, test, manufacturing) which would interest him most, Jim has been most impressed by the way Kearfott Project Engineers STAY WITH A PROJECT from study phase right through to production, assuming full technical and financial responsibility for the quality and salability (price-wise) of the finished hardware. He finds that this Kearfott philosophy enables him to operate across the broad spectrum of engineering... Coming from out-of-town, Jim was also pleasantly surprised by the wide choice of living quarters readily available.

The very advanced nature of many Kearfott projects fired this engineer's imagination. He joined the Electronics Systems Lab, where he worked on the development of a tiny counter — part of what is believed to be the most accurate test equipment yet devised for missile guidance systems. After exposure to the diversity of the projects in the Systems Lab, Stan has decided to look no further, but requested permanent assignment here, where work ranges over space navigation, digital computers, guidance systems, solid state physics, industrial automation systems and diverse electronic systems.

Len is pleased with his six months' experience at Kearfott on two widely different counts. First is the combination of both theoretical and practical knowledge he has gained in a field that has fascinated him for a long time — transistor applications. The other is Kearfott's location. Finding midtown New York only 40 minutes away by car, Len, a veteran, is planning to continue his studies for an MS at one of the many colleges in the New York/New Jersey area: Columbia, N.Y.U., Stevens, Newark College of Engineering are all close by. This semester, Len has enrolled for two Kearfott sponsored courses taught at the plant.

Gary has worked by choice in two Laboratories since he joined Kearfott last June — Astronautics and Electronics. He values the opportunity he had to work in direct contact with senior engineers and scientists who have played a leading role in developing the Kearfott inertial systems and components which have been selected for application in over 80 aircraft and 16 major missile systems. Gary now leans to the choice of a permanent assignment in the Electronics Lab but has decided to work a few months in the advanced Gyrodynamics Division, before coming to a decision.

**Opportunities at Kearfott are expanding**

Long occupying a unique position in the fields of electronics and electro-mechanical components and precision instrumentation, Kearfott — in recent years — has moved more and more into the development of complete systems. This has led to major staff expansion at all levels, including a sizable number of positions for recent graduates in all 4 major company units:

- The Systems Division
- The Gyrodynamics Division
- The Electro-Mechanical Division
- The Precision Component Division

Through its flexible TRAINING PROGRAM, Kearfott offers young engineers freedom to explore the field, before selecting the broad area best fulfilling individual interests. Remarkable rapid professional advancement is possible — and likely — through the PROMOTION BY MERIT POLICY. For detailed information, see the Kearfott representative on campus.
