On Educational Responsibilities

Caldwell Addresses Graduating Class

An appeal for the advancement of all levels of education in the State and nation was voiced by Dr. John T. Caldwell, chancellor of State College, in an address Monday, February 1, to the mid-semester graduating class of the college.

An audience of several hundred persons attended the mid-term commencement rites and saw Chancellor Caldwell confer degrees upon 225 students in the William Neal Reynolds Coliseum.

Chancellor Caldwell and J. Phil Carlton of Pinetops, president of the Class of 1960, bade the graduating students farewell in informal remarks.

Dr. Caldwell declared:

"Now more than ever before it is clear that the adequacy of support for higher education, for all education, will determine the destiny of nations and indeed the course of human events. We beg of you to play fully the role of a responsible, contemporary citizen in supporting the enterprise of teaching, learning and research."

Chancellor Caldwell extended to the graduating class State College's best wishes "for success, happiness, and a well-earned share of the world's cash!"

He urged the graduates to join the college's Alumni Association, which, he said, "will be rewarding personally" and added:

"But more than that, it will help you to render intelligent support, not only to this institution, your Alma Mater, but also to higher education generally at a time when it is sorely needed . . ."

In wishing the mid-term graduates Godspeed, Chancellor Caldwell expressed appreciation to the parents of the students and to the State College faculty for their work and sacrifices on behalf of the graduating students. "Good Wife" diplomas were presented to the wives of the married students in the class.

"And to the faculty it is appropriate to address a word of appreciation. For though teaching at North Carolina State College is their career job, for which they are paid a salary, it is fair to say that most of them are remunerated at some financial level below the true worth of what they contribute to our Society.

The invocation was spoken by the Rev. Oscar B. Wooldridge, Jr., coordinator of religious affairs at State College.

Special musical selections—Mendelssohn's "On Wings of Song" and Beauchant's "Marche"—were presented by Mrs. Emily Kellam and Mrs. Charles G. Morehead, harpists.

J. Perry Watson, assistant director of music at State College, led the audience in singing the college's alma mater.

Among those receiving degrees were 163 candidates for bachelor's degrees, 45 master degree candidates, 14 Doctor of Philosophy candidates, and three seeking professional degrees.

Campus Crier

All organization and fraternity bills for sections in the Agromeck must be paid by Feb. 15, 1960. These bills are payable in the office of the Publications secretary, Mrs. Lucas, on the third floor of the 1911 Building.

AIEE and FMM members will meet Thursday, February 11, at 7:30 in the AIEE lounge in Riddick. Dr. A. R. Summerlin, local physician in Obstetrics and Gynecology, will present a talk on "Female Reproduction".

There will be a meeting of all students interested in representing State College at the State Student Legislature in March, on Tuesday, Feb. 16, at 8:30 p.m. in the Student Government office.

Teenage Pianist Highlights Annual 'Fine Arts Festival'

State College will present its annual "Fine Arts Festival" in the College Union Building beginning Thursday, February 11, and continuing through Tuesday, February 23.

Professional acts as well as acts presented by college students will be included in the festival.

Lorin Hollander, 14-year old concert pianist who catapulted to fame when he replaced Van Cliburn in San Antonio in 1959, will open the festival in the William Neal Reynolds Coliseum Thursday, February 11, at 8 p.m. The presentation will be sponsored by the Friends of the College, Inc.

Hollander's performance will be the only activity taking place in the Coliseum. The remainder of the performances and displays will be held in the College Union.

Paul Green, noted author, teacher, and playwright of Chapel Hill, will give a talk entitled "North Carolina's Big Hungry." This year's appearance will be Green's second in the festival. The talk will be given at 8 p.m. Friday, February 12, and will be sponsored by the College

Union Library Committee under the Chairmanship of Joyce Mearns of Raleigh.

The 80-piece East Carolina College Concert Band, under the direction of Herbert L. Carter, will perform at 3 p.m. Sunday, February 14. The concert will be sponsored by the College Union Music Committee under the

chairmanship of Bob Burgess of Dumont, N. J. This program is in conjunction with the annual spring tour of the band.

"Good Design '60" produced by the college's Department of Product Design in the School of Design will go on display at 8 p.m. in the College Union Gallery starting February 14. The

display is sponsored by the College Union Gallery Committee under the chairmanship of Fred Creiger of New York, N. Y.

Modern Dance, to be presented by Duke University students under the direction of Mrs. Julia Wray, will be demonstrated at 8:30 p.m. Sunday, February 14. (See FESTIVAL, page 8)

Rush Week Continues Through Saturday

By Lenny Lavitt

Once again an opportunity arises for N. C. State students,

especially the newer arrivals on campus, to visit the eighteen national social fraternities here at State.

Rushing for the Spring semester will be held on February 10th, 11th, 12th and 13th, yesterday through Saturday.

The times for visiting are 7-10 p.m. on Thursday, and 7-12 on both Friday and Saturday evenings.

Last fall, approximately 250 men pledged the various fraternities. This number brought the total of active fraternity men and pledges to over 800.

Many new students visited the houses last semester and did not pledge for various reasons.

Now, after being here a term and seeing what goes on, they have another opportunity to visit any fraternity without obligation.

Visitors are urged to call the fraternity houses if they need a ride from the campus.

A list of the eighteen fraternities, their addresses, and phone numbers are listed in the Student Directory, The IFC Handbook-THE FRATERNITY WAY, and The Tower. New freshmen are strongly urged to take advantage of this rush period.

All visitors should consider the advantages offered by a social fraternity, such as the spirit of brotherhood and sportsmanship, together with social learning, which is a vital part of college life.

Unlike last semester, there will be no formal rushing rules in effect.

Budgets, Cuts Approved By Student Government

By Jim Page

The eighth session of the State College Student Legislature was called to order last January 21st. After vice president Bob Cooke had called the meeting to order, and everyone managed to simmer down a bit, secretary Charlie Russel read his latest book to us, "The Minutes Of The Last Meeting". (I call it his latest book because of the length of the minutes.)

Having these little matters cleared up, the meeting continued with president Eddie Knox giving his report. President Knox stated that he had great hopes for a strong delegation from State College to attend the N. C. State Student Legislature. The legislature is to be held in the capitol within the legislative chambers if the Governor and the Council of State will let "the kids who scared Raleigh" convene there.

President Knox urged that all students who are interested in being a delegate to contact him at once. It was also brought out in the President's report that there is at present a move under foot to do away with freshman cars.

He stated that he was strongly against this and that he thought that the administration as a whole feels the same way about the matter.

Knox also pointed out that he hopes that there will be a great many students attending the installation of Dr. Caldwell on March 7th.

It was also brought up that the Chancellor was pleased with the bill passed concerning the Government Loan policy.

For the most part the rest of

the night was dominated by the Budgetary and Finance committee which had several budgets to be acted on. The first budget brought up was that of the N. C. State College Men's Glee Club.

Ronald Sherman, president of the Glee Club, was present to represent the Glee Club and to clear up any matters on the budget that he could. The budget of the Glee Club requested \$895 from the student fund.

It was brought out in the discussion of the budget that the Glee Club could not give concerts to finance itself because of a ruling of the administration. Senator John Fulton stated that he thought that the budget should be tabled until some information on the administration's policy on this matter could be gathered. The bill was tabled, and the meeting rolled on.

The next budget to be presented was that of Thirty and Three honorary society. By recommendation of the budgetary and finance committee, the legislature voted to give Thirty and Three \$80.

The next budget brought up was that of the Golden Chain. Golden Chain requested \$612.00, and after a brief discussion they received the full amount they requested.

The Drum and Bugle Corps budget was the next one to come forth. The Corps ask for \$1550.00 to cover their coming expenses. Mr. Valentine, who represented the D and B in the discussion, received a rather hard time when he tried to convince the senators that he needed so much money. One of the big items for which the

Alumnus Disapproves of Action on Loyalty Oaths.

EDITORIAL COMMENT

Following a lead given to a member of *The Technician* staff by a State College professor, we have investigated the presence of "foreign matter" on the steps of Leazer Hall, State College's cafeteria. (See photo below.)

Not only did we find the report to be true, but also we found that there was more "matter" than we had anticipated.

Before we go any further, let us say that we realize that such a subject for editorial comment is not exactly within the bounds of convention. But we also realize that a scene, such as the one below, is not exactly what one wishes to see as he is on his way to eat.

Let us say further that we realize that it is entirely possible that such a scene may be produced anew every day. But, we first investigated the report on January 26, and we re-investigated on February 5, finding the same evidence, and in the same formation.

Obviously, someone is to blame for this continued violation of good taste. If that person is overworked, and therefore doesn't have time to indulge in such unappealing labor, then another should be hired to perform this task of cleaning-up.

However, it is our belief that this occurrence has arisen from a complete ignorance of the situation.

Well . . . now you can be ignorant no more. The story has been told; now comes the dirty work!

—JM

As We Go To Dine . . .

sternation that I read in *The Technician* of the Student Council's action of opposing the signing of loyalty oaths and affidavits required of students receiving loans under the National Defense Educational Act. I can't imagine the motivation for this action. I am puzzled as to why an outside organization like Dr. Clark's Association of College Professors put forth so much effort to influence the Student Council's action.

The Communist Party, the fellow travelers, and organizations used by fellow travelers have fought and tried to round

is a matter of record that the Communists take full advantage of the freedom of expression, thought, etc., that is rightfully a part of our academic atmosphere. Practically all confessed Communists in this country first became associated with the Communist movement at the various university campuses.

What has this got to do with the Oath? Just this: Our laws, so painstakingly written to protect the innocent while catching the guilty, make it difficult to do much with a Communist as such, but if he is a Communist and signs an official statement

action that of . . . long as the Communists on our campuses can stir up opposition to this oath on some vague civil liberties grounds, they protect themselves from exposure or prosecution.

There are many, many Americans in this country who fail to understand your actions. Here is what Mr. Raymond J. Bronikowski of Milwaukee, Wisconsin, wrote to his Congressman, the Honorable Clement J. Zablocki, and his letter was printed in the Congressional Record of 18 January, I quote:

South Milwaukee, Wisconsin
January 10, 1960

"Dear Congressman Zablocki: I'd planned to write you giving my views on the loyalty oaths and affidavits required of students receiving grants under the National Defense Education Act. But, I find that Mr. Gordon Lewis' editorial in the January 7 Voice-Journal pretty well expresses my views as well as my wife's. I've included it with this letter, with the hope that it might be read into the Congressional Record as a grassroots opinion on loyalty and patriotism.

Sincerely yours,
Raymond J. Bronikowski
From the South Milwaukee Voice-Journal, January 7, 1960
IS PATRIOTISM OLD FASHIONED?

'We're beginning to get an inferiority complex because of the recent furor over the loyalty oaths and affidavits required of students receiving loans under the National Defense Education Act.

'Apparently it's becoming so old-fashioned to be patriotic that we're going to let the students bite the hands that feed them.

'What, we'd like to inquire, is so dreadfully wrong about asking students to state their allegiance to the U. S. Government if they are going to accept financial handouts from that Government?

'Why should U. S. taxpayers pay for the schooling of those who either can't or won't take

the fact
the destruction of our form of government?
'We may be old-fashioned and we may be wrong, but we fail to see why requiring loyalty to the Government is too big a price to pay for providing a youth a good share of his higher education.'
You probably feel you are somehow standing up for your rights as a free American in refusing to sign such a statement and I commend you for the courage of your convictions, but I assure you in this case you are doing precisely what the Communists hope you will do. But do you think the signing of such an oath actually degrades or reflects on your patriotism? This money is provided by the National Defense Act and everyone in the Department of Defense has signed such an oath. Those of you who will become officers will be required to sign such an oath before you receive your commissions. I signed such an oath many times. Every person who occupies a position in our Government has to take such an oath. The President himself takes such an oath on the Bible before the whole nation that he "will uphold and defend the Constitution" of our great country. Does this reflect on his patriotism? This oath has been taken by every President since George Washington. Why are students different?

In Russia the average Russian cannot sign such an oath of loyalty to his government. He isn't given the privilege of pledging such an allegiance. In fact, very few can belong to the Communist Party. Only two per cent of the Russian people are members of the Communist Party. You would not like to see only two per cent of the people of this country given the privilege of taking such an oath I know. And I know that in your heart you know that taking such an oath and signing such an affidavit is only right, and only by so doing will you keep faith with future generations and with your forefathers who provided you this freedom of choice.

Down Beat Magazine
In recent weeks, the music business has found itself heavily concentrated on one subject: payola.

The public exposure of the practice, long widely known to be commonplace among disc jockeys, continues to make news as investigators for the House Subcommittee on Legislative Oversight uncover more and more DJs involved in the bribery practice.

Down Beat recently explained how the practice usually works:

Record company executives decide which DJs are to be bribed in which cities. Then they notify the distributor in a chosen city and specify which jocks are to get the money. The distributor arranges the payoff, delivers the sum to the DJs, and then is compensated by the record company in the form of a shipment of free records equal in value to the cash.

Down Beat columnist John Tynan pointed out in an editorial that the payola promotion of trash music—including rock and roll—has involved the systematic betrayal of American youth. Top rock and roll surveys, in whom countless adolescents have put an almost fanatical faith, are turning out to be major offenders.

"Today," Tynan said, "we are confronted with such utter moral decay in just one segment of society—the music business—that so-called responsible adults can snuck off the studied subversion of the nation's youth by the crass, crude vulgarity known as rock and roll with a complacent shrug. 'Kids are kids,' reads the slogan in the blinded eye.

"What of art that ennobles, elevates, and gives rise to potential greatness in man? Don't bother me, Jim," they say, 'gotta make a buck.'"

But Tynan and Down Beat both saw hope in the situation.

"Because America is an ever-maturing democracy and a civilization in which the music of jazz has become the most potent

elements of decency and justice become fused with the inherent jazz message: the complete justification of man's individuality; his boldly shouted belief in his own human dignity; his inalienable and inalienable right to free expression.

"This is but one reason why the current vacuum cleaning of our record business cannot but do good. And the new wind blowing is beginning to bend some entrenched old trees. Good music—including jazz—once more is being heard in ever-increasing volume over the land.

"Parasitic disc jockeys and self-blinded station owners are beginning to get the message: rock and roll at last is identified with the rotten practice that helped create it and feed it sustenance—payola. Today BAD MUSIC squats in the dock, accused. And the fresh breeze blowing across the land should be breathed deeply by all Americans."

"Co-operate in helping us demonstrate that jazz music is one of the best aspects of American democracy."

This was the appeal issued by pianist Dave Brubeck as he explained the cancellation of his 25-day tour of southern colleges and universities because his quartet is racially integrated.

Brubeck's appeal, in the Feb. 18 issue of Down Beat, was directed particularly to young jazz fans in the south.

"We know the problem is not with the Southern jazz fans," Brubeck told the magazine. "They know us and they know who we are. And we want to play the southern colleges and universities. All we want is that the authorities accept us as we are and allow us—and all other integrated jazz groups—to play our music without intimidation or pressure."

Colleges at which the Brubeck group was to play began to drop out when they learned the Brubeck's bassist, Gene Wright, is a Negro. When Brubeck de-

Editor's Note: The Air Force Department sponsored a class-participation essay program. Stephen B. Denny, who received the highest grade given, has submitted his essay to the Air Force Department. Denny's essay entitled "Old Timer" will be presented in two parts.

"Yessiree, Boy, that's a snappy uniform you're wearing. It's really a change from the old winter blues and summer tans that we wore about twenty years ago.

D'ye say you've just signed up? Well you Air Force boys are now the best outfit in the world. Now don't get me wrong, it was a number one force in my day; but it was young. It was just like a high school boy growing out of his clothes faster than his parents could buy them. It's technological advancements were obsolete before their production could be organized.

And its parents, just like that boy's parents, hesitated to buy clothes that were a few sizes too big. But they finally caught on. Now take that uniform of yours.

I've read about it. It's all-weather, comfortable from 15 to 100 degrees above zero. It's made from a miracle fabric that is so sensitive to temperature that it changes its chemical state and varies the amount of heat reflected and keeps you at an even temperature.

This change of state of the material also changes the color of the uniform. That's why it appears to be pale blue trimmed in black in the daylight and black trimmed in blue at night.

"Back in the late fifties, things were in a pretty big mess. Russia and the United States were standing face to face with a chip on each shoulder. Well, it wasn't quite a chip; it was more like an atom bomb. And if either of them knocked one off, they both stood a chance of getting blown to pieces. Russia had shot at the moon a couple of times. It seemed that we just couldn't get our missile program off the ground.

Russia is getting ahead" was the cry in those days.

And we were so busy trying to copy them that we didn't think about giving them something to shoot at—something in a different concept of power and propulsion.

"But our big break came toward the last of 1965. Hungary revolted again followed by Czechoslovakia, Bulgaria, and East Germany.

And Red China, figuring that this was their chance to walk alone, shook loose of "big daddy."

Russia, you know, had poured years to promote aggression in Asia, and then they found that

their per nan grown and opened a bite.

Russia was forced to concentrate on her political problems and postpone any immediate grand slam punch in the fight for the world championship.

"Well, this gave our boys at the Defense Department their big chance. The Army and Navy were pulled out of space materials into Red China for nothing. Their job was to continue the defense and offense of the United States on a large scale which included continuance of the Air Commands.

The Air Force was given the Scientists with knowledge in

from the other services to the Dept. of the Air Force. And now with a concentrated effort a larger objective could be established.

"During the next year many facts were collected concerning the ionic drive power plants. Because of the strong gravitational pull of Earth a ship with this engine would have to be launched from a man-made orbiting satellite or launched with the use of a first-stage rocket motor from the moon.

At this point everyone realized that it was only a matter of months until the moon could be reached and eventually all

Wolfpack Stops Blue Devils 63-53

N.C. State jumped into a 6-0 margin in the opening minutes of their game with the Duke Blue Devils in Reynolds Coliseum Tuesday night and held off a determined Vic Bubas coached team to take a 63-53 win. With this win over the Blue Devils, the Wolfpack pulled their overall record up to an 8-11 count and pushed their league mark to a 4-6.

State kept their winning streak of three games going and pushed their home mark to six games in a row. The Pack was sparked by big Bob "Moose" DiStefano who poured in 23 points. The big center hit on eight of 11 attempts from the floor and seven of eight from the charity line.

Following him were Stan Niewierowski and Don Gallagher with 10 points each. It was the rebounding of Niewierowski in the first part of the first-half that help put the Wolfpack in the command seat and kept them there.

Howard Hurt provided the punch for the Duke attack by pouring 21 points in the bucket, most of which came in the second half. John Cantwell, the

Blue Devils' mascot guard hit on seven shots from the floor to give him 14 points, second best for the Duke hoopers.

The big fact in the State win was the excellent shooting percentage that they had. The Pack hit on 43.5 percent in the first half and 55.0 percent in the second half for an average of 48.8 percent. The Blue Devils hit on 33.9 percent of their shots. The Pack took 13 less shots from the floor than the Blue Devils did, but hit on two more.

Duke found themselves down

6-0 to the Pack before they were able to get their first basket with 14:23 remaining in the first half.

The Duke attack began to pick up then and they closed the gap to four points and then everything happened. Hurt of the Blue Devils crashed to the floor after making a driving layup and didn't get up. The Duke trainers rushed out and got Hurt taken care of while a "State fan" flying over the court with a "Beat Duke" sign tied to its tail. When things

got back to normal, the Pack went to work and increased their margin over the Duke forces to 10 points at intermission.

The Blue Devils started off the second half with a tall lineup with the exception of Cantwell. DiStefano then pushed his attack button and vaulted the Pack into a 17 point lead with 9:26 remaining in the game. Hurt then began to find the range and closed the Pack margin to ten points as the game ended.

The State freshmen made the night a complete sweep for the home teams by downing the Blue Imps 70-44 and clinched the Big Four title. It was Jon Speaks pacing the Wolflets attack with 11 field goals and one free toss for 23 points. Pete Auksel was hot on his heels with eight field goals and three free throws for 19 tallies.

Art Heyman, who had been averaging a little over 31 points a game for Duke, was held to only 11 points by a tight State defense. John Punger of the Wolfpack had 16 points to give the State frosh the three top scorers in the game.

The win was the tenth of the

current season for the freshman team against three setbacks.

Several frosh players will definitely have to be considered for post season all-star teams.

The Wolfpack varsity will be seeking their fifth ACC win when they tangle with the University of Maryland in Reynolds Coliseum Saturday night. After the Maryland game, the Wolfpack will take on the University of North Carolina. Wednesday night at home. Both of these teams beat the Pack in previous meetings, but the Wolfpack with their "new look" will be out to teach these two teams a lesson.

Bunge Holds Lead; Pack Ranked Third

Al Bunge of the University of Maryland is holding on to his scoring lead in the ACC going into the second half of play. Bunge has poured in 276 points in 14 games for a 19.7 average. Following close behind is Carolina's Lee Shaffer with an 18.7 mark.

Bob DiStefano of the Wolfpack was averaging 11.0 points per game going into the Duke game, but, by scoring 23 points in that contest, he pushed his average up to 11.7 points per game. The State team has made a good showing on defense so far this season by allowing their opponents only 59.6 points per game which is the third best in the ACC.

State hasn't done as well on offense as they have on defense according to latest ACC figures. The Pack is currently averaging 58.2 points on defense which is 14 points behind South Carolina.

Notices

There will be an important meeting for all candidates for the varsity and freshman tennis teams Tuesday night, February 16, 7:30 p.m., Frank Thompson Gymnasium. All prospects, new and old, are urged to attend this meeting.

There will be an important meeting of all students interested in playing freshman baseball, Tuesday night, February 16, 7 p.m. in the band room of Frank Thompson Gymnasium. Information concerning practice and the schedule and eligibility will be discussed.

Anton Muehlbauer goes high in the air for a shot against Duke Tuesday night as Don Gallagher (42), Stan Niewierowski (right), and John Frye (30) get set for a rebound. State topped Duke 63-53 to gain their fourth ACC win of the season Tuesday night. (Photo by Hoey.)

Entertainment Unlimited

Alton Lee

First of all, for all of you who made it back, Congratulations! We knew you could do it. Now, this column's big news. It's in regard to the "Entertainment Unlimited" radio show. The time for our show on WKNC is changing. Actually the time remains the same; just the day is changed.

As of tomorrow night, "Entertainment Unlimited" will be heard Friday evenings at 8:00 p.m. on WKNC. The Platter Party will start at 8:30. The reason for this great and mighty change is so that we might bring all of the scintillating shows to you live, rather than on tape as it has often been necessary to do.

Tomorrow evening, we'll have a look at the big music of 1959. Next week, here and on the radio

show, our book will be "Peanuts Revisited". Also on the radio show, next week, listen for the best of Dear Abby. This new semester, the emphasis on the radio show will be very strongly placed on music, more so than ever before. We'll play the newest in good music from week to week.

Here, in the coming weeks, you can expect book reviews, TV and motion picture reviews, news about music, the "Alton Awards", news of local entertainment, etc.

MUSIC—It seems that during a holiday lots of good music is released. Pat Boone has a new tune, "Welcome, New Lovers." The Platters are finding things pretty bright with "Harbor Lights". "Sleepy Lagoon" on the opposite side may prove to be

a sleeper, and Tommy Edwards is building a hit record with "I'm Building Castles Again". The Fleetwoods have waxed "Outside My Window" which is just outside the hit charts. Last but not least, it had to happen! Bo Diddley has a tune called "Road Runner." Are you listening, Felton Watson?

If you have a chance, see "The Gazebo". It's a very funny and enjoyable picture. Glenn Ford steals the show all the way, but the casting is excellent.

Pat Boone's very special guests for an upcoming show are The Kingston Trio;

All rock and roll fans, take note of the rock and roll show this evening. Frankie Avalon, Freddie Cannon, and Clyde McPhatter are only a few of the

Veteran's Corner

By Jim Lawrence

It is to be hoped that all of the students were able to finish last semester with as few failures as possible and were able to add a few quality points to those they had already accumulated. To those who were able to do this: congratulations; to those who were not: better luck this semester.

We of the North Carolina State College Veteran's Association would like to welcome all of our new members. Sixty new men joined during registration and we are looking forward to having all of them at our next meeting.

This semester our membership drive is well underway. We want every veteran on campus to become an active member of our Association, then we will be able to accomplish something. Dr. Caldwell, The new Chancellor, will speak at a banquet on

19 March 1960 which will terminate our membership drive. A limited number of tickets to the banquet will be put on sale at a date to be announced later.

At the start of this new semester, we wish to appeal to all students who are veterans to help us in our Association's "New Look." You may wonder just what is this "New Look." I will endeavor to tell you. The "New Look" is a long range plan to help our college community, school, and city by actions or projects that we of the Association are capable of aiding in or carrying out. We are not reformers or dreamers. We are older members of our college community who feel it is our responsibility to do something worthwhile in our extra time.

"Extra" time, what am I talking about? The extra time I am talking about is that time that would normally be wasted on Friday nights. We meet twice a month on Friday nights, and we will let you go in time to enjoy yourself at the platter party or some other place. Most of you can spare a small amount of your time on Friday nights. Come to our next meeting. You will be cordially received, treated to coffee and doughnuts, and you will get an idea of the people and the ideas that go into the "New Look". There will be a demonstration on direct distance dialing by a representative from Bell Telephone Company. We challenge you to come to one of our meetings—you owe it to yourself.

Letter

clined to accept an all-white clause in his contract, the tour dropped from 25 to 15 to 12 to 10.

When Brubeck ordered that these remaining 10 be specifically advised that the group is integrated, all but three—the University of Jacksonville, Vanderbilt University, and the University of the South—dropped out. These three still wanted Brubeck. In addition, when the publicity began hitting newspapers on the cancellations, Memphis State University rescinded its original cancellation of the group on racial grounds.

Brubeck's own comments on the college situation he encountered in the south are in a detailed report by Ralph J. Gleason in the Feb. 18 issue of Down Beat.

IBM WILL INTERVIEW FEB. 25 & 26

IBM invites candidates for Bachelor's or Master's Degrees to discuss opportunities in Applied Science, Manufacturing, Marketing, Product Development and Programming... positions throughout the United States.

Laboratories and manufacturing facilities are located in Endicott, Kingston, Owego, Poughkeepsie, Yorktown, N. Y.; Burlington, Vt.; San Jose, Calif.; Lexington, Ky.; and Rochester, Minn. Corporate headquarters is located in New York, with 192 branch offices in cities throughout the United States. The IBM representative will be glad to discuss with you the type of career of particular interest to you. IBM offers:

- Leadership in the development of information-handling systems.
- New applications for data processing and advances in computer technology.
- Favorable climate for continued career growth.
- Opportunities for a wide range of academic backgrounds and talents.

Contact your College Placement Officer to arrange an appointment for a personal interview with the IBM representative.

[If you cannot attend the interview, call or write:

Rambling 'Round

By Harvey Horowitz

sounds more like one of us!

Welcome back to the campus, those of you that still are with us. Wasn't it refreshing to be once more at the end of a genuine State College line? And in the rain, too! Makes you feel right at home, doesn't it. And it is nice to know that M and O is still on the job, even in our absence. I wonder whose idea it was to make Primrose Avenue one-way in the other direction? And what purpose does it serve?

I have been asked how come M and O never dug any pits as deep as those for the foundations of the 'roundhouse'. It is too much like work.

In a week or so, the 1960 version of the College Union's Fine Arts Festival will begin, and I predict that several fine souls are going to grumble about the whole thing. They will simply refuse to understand why any upstanding state student would want to listen to a piano player or see a play. They will wave their comic books and shout violently that the College Union is wasting their money. To them, culture is nothing more than a nasty word.

I hope that these few, whoever they may be—and they are around, believe it or not—won't mind if I go and enjoy the dozen or so events that will be presented. But fellows, please don't let me attend alone! Culture really is good for you, if you give it a chance.

Sign on a slightly defective vending machine in one of the dormitories: 'This machine take-th, but giveth not in return. Amen.' Gosh, have we got some Wake Forest students among us now? The above mentioned sign was replaced by one which read 'If you want to lose your money, put it in here.' Now that

I was at the ball game the other night, but forgot to ask Mr. Clogston about the possibility of lending out our coliseum to those poor, poverty-stricken chaps at our neighbor institution on the Hill. (Chapel Hill, not Dix—but is there really any difference?)

Grad Student Tuition Change Not Effective

The Executive Committee of the Board of Trustees of the Consolidated University met on January 14, 1960. The subject of graduate student tuition changes was not placed on the agenda by President Friday. Investigation revealed that the N. C. State sponsored recommendations (to charge by the credit hour rather than by steps of 3, 6, 7 or more credit hours), now three years old, are still being reviewed by the president's staff.

Cecil Brooks resigned from the office of Treasurer of the Graduate Students Association Council. He has accepted a position as assistant registrar at the new University of South Florida. Phillip D. Dukes, Plant Pathology, was elected to serve as treasurer for the remainder of the year.

The following departments were represented at the January meeting of the GSA Council: AGC, AGE, AI, EE, EST, FC, HRT, MA, MI, OIG, PP; and PPT. The representatives from all departments not listed couldn't attend the meeting for some good or poor reason:

U and the Y

By Ann Smith

Spring semester is here and with it comes books, study, and long hours of concentration. The YMCA on the campus of North Carolina State College extends a cordial welcome to the returning as well as to the new students. The Y has scheduled a program that should interest most students. This program does not require very much time or effort on the part of the students, so please try to take advantage of some of the Y sponsored events.

Mrs. Wilma D. Stokley, writer, historian and sociologist, will speak at the Y Monday, February 15 at noon.

Mrs. Stokley and her husband wrote the book, *Neither Black Nor White*, which received the Hillman Award for the best book of the year in the areas of civil liberties, race relations, and world peace.

Mrs. Stokley is to speak at the Institute of Religion that is being held at the United Church that same evening. Her topic will be "The Changing South."

If anyone is interested in

attending the luncheon meeting, please contact Tom Johnston at the Y and pay the 75¢ for the lunch in advance.

The fourth in the series of Courtship and Marriage Seminars will be held in the Y Thursday, February 18, at 7 p.m. The discussion will be led by Rev. Rod Reinecke. The title of the discussion is "Is Your Date Blind?" All are urged to attend.

The new Freshman Diners' Club will hold its first meeting at the Y Tuesday, February 16, from 5:30-7:30 p.m. The topic for the evening will be "Science and Biblical Truth." The topic will be discussed by Dr. John R. Lambert, Jr., professor of social studies, and Dr. George A. Gullette, head of the department and professor of social studies.

Sebring Race Slated For March 26

The Sebring Twelve Hour Endurance Race for sportscars will be held this year on Saturday, March 26.

This race is the feature of almost a week of sportscar activity at Sebring. On March 23, and 24, the sportscar drivers will be practicing. The charge to see this practice is \$1.00. It has been said that the practice is even more entertaining than the race itself.

On March 25, races will be held in the P.M. Formula Jr. and under 1000 cc classes.

Special rates for groups of twenty or more may be purchased before March 1, 1960.

For more details apply Race Headquarters, Box 71, Sebring, Florida.

Summer jobs often lead to rewarding careers at Du Pont

THIS SUMMER...

ON-THE-JOB TECHNICAL TRAINING AT DU PONT

Pictured are a few of the many Du Pont plants and laboratories across the country where selected technical students roll up their sleeves during summer vacation and put their college training to practical use.

Most of the assignments are similar to work the employees are likely to do after graduation. Next summer, for example, a chemical engineering student may go to work on a catalyst recovery project. A mechanical engineering trainee may become engrossed in a challenging hydraulic study. A promising young chemist may tackle a problem in organic chemistry.

In short, each man is given a regular plant or laboratory assignment commensurate with his education to date. And, as with permanent employees, the student's training is personalized and tailored to fit his background and interests... even to the location he prefers, as far as practical.

This program has proved of benefit both to students and to Du Pont. It gives stu-

dents an opportunity to increase technical knowledge and to learn how to put college training to use in industry. It gives Du Pont a chance to observe men who will soon be graduating in science and engineering. Many of these summer associations are stepping stones to rewarding careers with this company.

Juniors, seniors and graduate students will be given technical assignments. Opportunities are in chemical, mechanical, electrical and metallurgical engineering; also in physics and mathematics. Candidates should write at once to E. I. du Pont de Nemours & Co. (Inc.), 2420 Nemours Building, Wilmington 98, Delaware. Openings are, of course, limited.

There are opportunities also for men who have completed their freshman and sophomore years, as laboratory assistants or vacation relief operators. They should apply direct to the Du Pont plant or laboratory location of their choice.

BETTER THINGS FOR BETTER LIVING... THROUGH CHEMISTRY

Two patients at Dix Hill were rolling about on the spacious lawn when a pigeon casually flew over and deposited upon one of the inmates forehead.

"Oh!", cried the nurse in charge. "Don't move. I'll be right back with some paper. With that the nurse ran furiously across the lawn and into a building.

The hit inmate turned to his friend. "They think we're crazy. Hell, that bird will be

Festival

(Continued from page 1)

This program includes a sequence of dance techniques, a movement theme varied by stylization, direction-space relationships, rhythm, levels, and inversion as well as "Abstract Dance" and "Sourwood Mountain." Modern Dance is sponsored by the College Union Dance Committee under the chairmanship of Houston Gay of Charlotte.

International folk songs and dances will be presented at 8 p.m. Tuesday, February 16. The program includes a group of top Israeli performers who will present a program of Israeli songs, dances, and music. This activity is sponsored by the College Union International Committee under the chairmanship of David Finkelstein of Lima, Peru.

Dr. Tibor J. Bebek, consultant on foreign affairs in eastern Europe for American Viewpoint's College Visitors Program, will speak at 8 p.m. Thursday, February 18. He has chosen for his topic "Life Under Communist Rule." Dr. Bebek is sponsored by the College Union Forum Committee under the chairmanship of Allen Overman of Pikeville.

The State College Symphonic Band, under the direction of Robert A. Barnes, will present its annual winter concert at 8 p.m. Friday, February 19. The concert is also sponsored by the College Union Music Committee.

The One-Act Play Festival, an annual event of the College Union Theatre Committee under the chairmanship of Gil Adams of Raleigh, will be presented at 3:30 p.m. Saturday, February 20.

The one-act plays are to be performed by various schools and colleges in North Carolina and Virginia. Among those tentatively scheduled are: Carolina Playmakers, Chapel Hill; Averett College, Danville, Va.; Atlantic Christian College, Wilson; A & T College, Greensboro; Louisburg College, Louisburg; East Carolina College, Greenville; Shaw University, Raleigh; St. Augustine's College, Raleigh.

The University of North Carolina String Quartet will present a composition written especially for the Quartet on Sunday, February 21, at 8:00 p.m. Quartet members are Edgar Alden and Jean Heard, violins; Dorothy Alden, viola; and Mary Gray Clarke, cello. The original composition is by William Klens, a faculty member of Duke University. The quartet's appearance is also sponsored by the College Union Music Committee.

miles away from here before she gets back."

Penguin Plaudits go to:

1. The fellow who thought up the idea of the bat with the banner at the Duke game.
2. WKNC's "Scarlet", whose radio program at 9:00 Monday nights is causing quite a stir.
3. Ken Susserman's roommate, who doesn't believe that Ken is a friend of mine.
4. All the many persons who have commented so favorably about our last three articles.

In Vienna a young Austrian was sent to jail for stabbing a pin into a girl's sweater to prove to his friends that she wore fairsies. She didn't.

There were two worms, a male and a female, crawling down the road. The female stopped and the male crawled on.

There was the ghoul who sent his girl a heart for Valentines Day—still beating.

A very small boy was leading a huge bull down the road.

A city woman stopped him and asked him where such a small boy as he was going with such a large bull.

"I'm taking him to breed."
"Couldn't your father do it?"
"No, madam, it's got to be the bull."

PUBLIC OPINION POLL QUESTION: What do you consider the most important quality in a woman?

Duke Man: Ability to hold liquor.
Wake Forest Man: Inability to hold liquor.
State Man: Teeth
Carolina Man: **! Censored

QUESTION: What do you pick up most in class?

Duke Man: My Pencil
Wake Forest Man: Girls with glasses;
Carolina Man: Short naps.
State Man: Headaches

QUESTION: Do you believe in sex before marriage?

Duke Man: Only with girls.
Wake Forest Man: I don't believe in dancing before marriage.
Carolina Man: For whom?
State Man: I believe in sex all the time!

corps wanted the money is a big trip to the Cherry Blossom Festival. The Student Government gave the D and B \$600.00 out of the requested \$1560.00.

The final budget brought up was that of the Pershing Rifles. After the PR's representative had gone through the cross examinations fired at him by the senators he finally got \$600.00 for his group. This concluded the reports of the Budgetary and Finance Committee.

APPAREL OFT PROCLAIMS THE MAN

The hounds of spring are on winter's traces. Soon we will be shedding our mukluks and union suits and putting on our spring finery. And what does Dame Fashion decree for the coming season?

(Dame Fashion, incidentally, is not, as many people believe, a fictitious character. She was a real Englishwoman who lived in Elizabethan times and, indeed, England is greatly in her debt. During the invasion of the Spanish Armada, Dame Fashion—not yet a Dame but a mere, unlettered country lass named Becky Sharp—during the invasion, I say, of the Spanish Armada, this dauntless girl stood on the white cliffs of Dover and turned the tide of battle by rallying the sagging morale of the British fleet with this stirring poem of her own composition:

*Don't be gullest,
Men of Britain.
Swing your cutlass,
We ain't quittin'.*

*Smash the Spanish,
Sink their boats,
Make 'em vanish,
Like a horse makes oats.*

*For Good Queen Bess,
Good sirs, you gotta
Make a mess
Of that Armada.*

*You won't fail!
Knock 'em flat!
Then we'll drink ale
And stuff like that.*

As a reward for these inspirational verses Queen Elizabeth dubbed her a Dame, made her poet laureate, and gave her the Western Hemisphere except Duluth. But this was not the extent of Dame Fashion's services to queen and country. In 1589 she invented the egg. If 1590, alas, she was arrested for poaching and imprisoned for thirty years in a butt of malmsey. This later became known as Guy Fawkes Day).

But I digress. Let us get back to spring fashions.

Certain to be popular again this year is the cardigan (which, curiously enough, was named after Lord Cardigan, who commanded the English fleet against the Spanish Armada. The sweater is only one product of this fertile Briton's imagination. He also invented the ball-peen hammer, the gerund, and the molar, without which chewing, as we know it today, would not be possible).

But I digress. The cardigan, I say, will be back, which is cause for rejoicing. Why? Because the cardigan has nice big pockets in which to carry your Marlboro Cigarettes—and that, good buddies, is ample reason for celebration. Do you think flavor went out when filters came in? If so, you've got another smoke coming. I mean Marlboros—all the rich, smooth flavor of prime tobaccos plus a filter that really filters. So slip into your cardigan and hic yourself to your tobacconist for some good Marlboros. They come in soft pack or flip-top box. Cardigans come in pink for girls and blue for boys. © 1960 Max Shulman

If you're a filter smoker, try Marlboros. If you're a non-filter smoker, try Philip Morris. If you're a television watcher try Max Shulman's "The Many Loves of Dobie Gillis"—Tuesday nights, CBS.
