In Arts & Crafts

C. U. Slates Contest

The College Union Hobby Committee will sponsor a campus wide competitive arts and crafts exhibit which will be on display in the College Union Gallery March 12 through 15. The purpose of the exhibit is to display student crafts and to obtain art objects to be submitted for a crafts exhibit which will be shown at the Association of College Unions Conference at the University of Indiana in late April. Articles chosen here to be shown in Indiana will be judged again for placement in a Travel Exhibit which will be displayed in College Unions throughout the nation.

Entrants will be limited to students and their wives or husbands. Articles made for class credit should not be entered. An individual may enter as few or as many projects as he or she wishes. All entrants must apply for entrance applications in the

College Union Craft Shop by Monday, March 9.

Each article should be marked with the estimated cost of the item as well as the name, address, and school of the entrant. This information should be placed in an inconspicuous place.

If the article is to be sold, the estimated price should be the same as the sale price. If the article is no for sale, the letters NFS should appear after the estimated price.

The articles will be judged on Wednesday, March 11, by three non-campus Art graduates. Articles must be submitted to the local exhibit to be eligible for the national exhibit and traveling tour exhibit. Further details may be obtained from Mrs. Carol H. Johnson, Craft Director, or Robert E. Williams, College Union Hobby Committee Chairman.

Campus Crier

A uniform showing will be held in the Coliseum Balcony February 16, from 8:00 a.m. to 5:00 p.m. for all MS IV's in the Army R.O.T.C. program.

The Fourdrinier Society will meet Tuesday, February 16, at 7:30 p.m. in Room 159 Kilgore Hall. The Forestry Club and all other organizations in the School of Forestry will jointly meet with the Fourdrinier Society for a program on microscopy as related to wood.

Guest speaker for this meeting will be Mr. Ralph Marts, an outstanding microscopy technician.

There will be a regular WKNC Staff meeting tomorrow evening February 16th, at 8:30 p.m. in the Station Lounge. This will be followed at 9 p.m. by an open meeting for all students who are interested in joining the WKNC staff. All such new people are urged to attend this important orientation meeting.

Campus Blanketed With Ice and Snow

By Mike Lea
Swish! Crash! Tinkle!
These were sounds that were frequently heard on this campus during the weekend as snowballs were whizzing around like flies on the Fourth of July, and college officials were moaning about the cost of the broken windows.

Although the campus did suffer the broken windows and a few fallen trees, it fared much better than the other parts of Raleigh from the Saturday snowstorm which blanketed most of the state.
All parts of Raleigh lost their power during the Snowstorm due to broken power lines, and traf-

fic in the city came to a virtual stop because of the ice and snow on the roads, but State College with its underground electrical system did not lose its power at any time.

Classes were not officially disrupted, but there were some classes that did not meet Saturday morning because their instructors could not navigate the icy roads.

Approximately two inches of snow fell in Raleigh Saturday morning and another inch of rain and sleet fell later in the day. This rain and sleet was what caused the real damage because it coated wires, trees, and bushes with a thick covering of ice. This ice caused so much extra weight to be added to the wires and the branches of the trees, that at many places they broke causing an unestimated amount of damage.

This storm, however did not produce the effect that all of the students wished. That is, classes met today as usual and there will be no time to run and romp in the snow. There will just be the usual books and the hope that both drill periods this week will be cancelled.

The Bell Tower as seen from Peele Hall after the snowstorm which blanketed the campus and most of the state is pictured above. This snowstorm and the subsequent sleet and rain crippled traffic and power all over Raleigh. (photo by Hoey)

- Notice -

An organizational meeting for the State College delegation to the State Student Legislature will be held Tuesday, February 16, at 8:30 p.m. in the Student Government office. Those students interested in participating are urged to attend.

The N. C. State Student Legislature is composed of representatives from numerous colleges and universities throughout the state. It convenes in the State Capitol during the week-end of March 10, 11, and 12. The N. C. State delegation will consist of 14 delegates and seven alternates.

Dean Shirley To Attend Institute At Harvard

Dr. John W. Shirley, dean of the faculty at State College, will attend the Institute for Academic Deans at Harvard University's Graduate School February 14-19.

The N. C. State educator is one of 28 deans from 26 states chosen to attend the institute, which will be sponsored by the Carnegie Corporation of New York City.

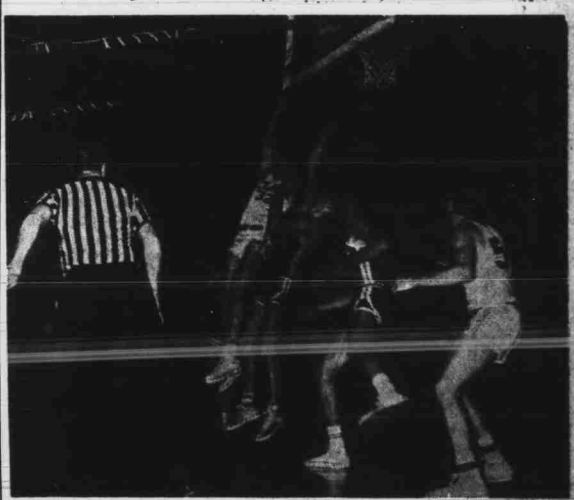

The institute program, arranged by Harvard University officials, will feature seminars, lectures, and a wide range of other activities designed to provide academic deans the latest information involving their profession.

Only six deans from the Southeastern states were selected to attend the institute. North Carolina will have four representatives. In addition to dean Shirley, other North Carolinians in attendance will be Deans Mil-

lard Burt of Atlantic Christian College, Wilson; Harold D. Conrad, High Point College; and P. R. Robinson, Saint Augustine's College, Raleigh.

Dean Shirley will be accompanied to Harvard by Mrs. Shirley.

Terps Foul To Lose, 48-46

Bruce Hoadley, State forward, was fouled in a scramble under the backboard in the closing seconds of the Saturday game against the University of Maryland which was played in the coliseum. Hoadley went on to make his two foul shots that broke a 46-46 tie and won the game for the Wolfpack, 48-46. (photo by Hoey)

Annual Fine Arts Festival Features Israeli Performers

By Jim Page
The Third Annual North Carolina State College Fine Arts Festival, the outstanding cultural program of the school year, opened last Thursday night, and will continue through February 23, under the sponsorship of the College Union.

The entire Festival is sponsored by the seventeen committees of the College Union, composed of State College students and student chairmen. The individual presentations are under the sponsorship of the committee within whose area the program falls.

Lorin Hollander, famed fourteen-year old pianist, got the Fine Arts Festival off to a brilliant start last Thursday night. Hollander, who catapulted to fame in January, 1959, was under the sponsorship of the friends of the college.

Paul Green, noted author, teacher, and playwright, spoke under the auspices of the C. U. Library Committee, February 12

in the Ballroom of the College Union. Mr. Green, who won the Pulitzer Prize in 1927 for his play, "In Abraham's Bosom," chose for his topic "North Carolina's Big Hungry."

The East Carolina Band was sponsored by the C. U. Music Committee at 3 p.m. Sunday afternoon. This program was in conjunction with the annual Spring tour of the eighty-piece Concert Band under the direction of Herbert L. Carter.

"Good Design '60," sponsored by the Gallery Committee and the Products Design Department of the School of Design, was an exhibit in the C. U. Art Gallery Sunday afternoon which introduced the blocks which inhibit the individual through visual or material means.

The C. U. International Committee will present a program of International Folk Songs and Dances of February 16, at 8 p.m. A group of top Israeli performers, who have been secured through the Israeli Embassy in

Washington, will present a program of their native songs, dances and music in the C. U. Ballroom.

Dr. Tibor J. Bebek, consultant on Foreign Affairs in Eastern Europe for American Viewpoint's College Visitors Program, will speak on "Life Under Communist Rule" February 18, at 8 p.m. in the C. U. Theater. Dr. Bebek, who has lived under both Nazi and Communist dictatorships, will speak under the auspices of the College Union Forum Committee.

The State College Symphonic Band under the direction of Robert A. Barnes will present the Annual Winter Concert February 19, at 8 p.m., in the C. U. Ballroom. This program is sponsored by the College Union Music Committee.

"Carmen Jones" will be the College Union Film Committee's presentation on February 20 and 21.

The Theatre Committee will present the annual One-Act Play Festival in the C. U. Ballroom on February 20. Several colleges throughout the state and Virginia will participate in the event.

The University String Quartet will be presented by the Music Committee February 21, at 8 p.m.

The Japanese movie, "Rashomon", which will be shown on February 22, in the C. U. Theater at 8 p.m. and 9:30 p.m., is presented by the College Union International Committee. In 1951, this movie received the Academy Award as the best Foreign Film; Grand Prize, at the Venice Film Festival; and Best Foreign Film, by the National Board of Review Selection. It is a stunning work of art produced with great skill to show to the best advantage the legendary esthetic powers of the Japanese.

A troupe of Israeli dancers and folksingers will appear in the College Union on Tuesday night. This program is in conjunction with the "Fine Arts Festival."

EDITORIAL COMMENT

Fine Arts

Although *The Technician* has not always been the most ardent supporter of the College Union and its programs, we must deviate from our usual path and compliment the Union and its staff for lining up a series of performances such as the ones that are being presented currently as a part of the Fine Arts Festival. (See story, page one.)

The Fine Arts Festival is presented in order to better acquaint the students at this technological institution with the cultural aspects of our society. Already, in the few days that the Festival has been underway, outstanding presentations have been made by Pianist Lorin Hollander, Playwright Paul Green, and the East Carolina College Concert Band.

In the days that follow until the Festival ends on February 23, students will have a chance to see stimulating performances by an Israeli group of folk singers and dancers, the State College Symphonic Band, and the University String Quartet.

There is no end to the amount of knowledge that can be gained by just attending these performances. Even though this College has few of the cultural outlets found at most liberal arts colleges, State College is far ahead of many other technical schools in the cultural opportunities which are made available to the students.

The present Festival is just another one of these opportunities. We encourage you to participate.

—JM

Realization

Once in a while, we feel the crying need to voice our opinion on something other than the usual, trite campus problems that exist, have existed, and will exist, such as, the M & O, the Cafeteria, the Student Government, the Honor System, etc., etc., etc.

We feel the need to cry out to the world that the college student is persecuted, but then we think and discover that the college student is perhaps the most unpersecuted group around.

And so what do we do to relieve our anxieties, to fulfill our inner-needs, to inflate our somewhat underinflated egos? We quit (as in Paar).

But, of course, this is just wishful thinking. If there's a job to be done, then it must be done. There is never any stopping in the middle of the road.

And so we must realize this fact.

—WCS

"The course is fine, Smith, fine, but I still don't see why we can't call it Engineering Medieval History 302."

Letter to the Editor

S. G. President Answers Letter on Loyalty Oaths

(Editor's note: The following letter, by the president of the Student Government, is in answer to the letter to the editor that appeared in last Thursday's issue of *The Technician* from Col. John R. Hood, Jr., concerning the Student Government's stand on the question of the requirements of the National Defense Education Act.)

To the Editor of *The Technician*: It is with a deep sense of responsibility that I reply to a letter in the February 11 edition of *The Technician*. First, let me compliment the writer for expressing his personal views as it is a refreshing thought to know that an alumnus of State College is concerned with present activities of students in an academic area. To the contrary, I find it extremely difficult to conform to his ideas.

The Student Government did not express disapproval of the loyalty oath as required of students receiving loans under the National Defense Educational Act, but registered its disapproval of the disclaimer affidavit. Let me assure Colonel Hood that discussion of this issue and the decision reached was neither initiated nor dictated by outside influences.

I question the implication of Colonel Hood's statement labeling the American Association

of University Professors as being an outside organization, for it is apparent that these men have an expressed interest in the academic affairs of their respective universities. It is their moral responsibility to debate any issue that confronts the educational process.

It is obviously necessary that a brief condensation of the Student Government's viewpoints be presented to give validity to the registered disapproval of the following disclaimer affidavit of the National Defense Educational Act of 1958:

"I do solemnly swear (or affirm) that I do not believe in, and am not a member of, and do not support any organization that believes in or teaches the overthrow of the United States Government by force or violence or by any illegal or unconstitutional methods."

The disclaimer affidavit has definite legal implications which could foreseeably result in punitive measures to a student signing such a clause without justification. Bluntly, this affidavit is dangerous to the most patriotic citizen and jet serves of little value in the detection of a disloyal citizen. It does not serve its purpose.

No subversive would have any qualms about signing such an affidavit. Moreover, the affidavit is discriminatory. The require-

ment of signing the disclaimer affidavit implies that a college student is disloyal until he makes a positive statement expressing his loyalty.

This requirement does not indicate a belief in the basic loyalty of American college students. Yet, no such avowal to the government is required of farmers receiving Federal subsidies, or of persons receiving old-age pensions, and of numerous other groups.

The affidavit is terminologically unclear. This leaves a wide area for interpretation and the danger of a resultant expansion of the meaning of the act. It also leaves a student in the position of not knowing whether, in believing in and supporting a certain organization and in receiving funds under the provisions of the NDEA, he is committing a crime under the provisions of this Act. In addition, it may serve as a basis for more restrictive legislation.

I read with amazement the analogy of the Russian student to that of an American student. I failed to understand the logic. It is unfortunate that the Russian student is given little, if any, opportunity to speak out on issues confronting his government. On the other hand, if the people of our democracy failed to participate by examining and voicing their opinions

of their elected representatives, then our democracy would fall. Furthermore, does the signing of loyalty oaths make one more patriotic?

Colonel Hood stated "The President (of the U. S.) takes an oath (loyalty oath) . . ." However, President Eisenhower has expressed disapproval of the disclaimer affidavit and urged its repeal.

President Eisenhower said, "when we begin to single out any group of citizens and impose a loyalty affidavit upon them" as a matter of legal compulsion, then he could "see why they are resentful." "Does this reflect on his patriotism?" Senator John Kennedy and other prominent American leaders have called for repeal of this affidavit.

Acts, rather than beliefs, should be the test of disloyalty in this great democracy. Every citizen has a right to his beliefs but his actions impose an entirely different situation.

When that citizen translates his beliefs and thoughts into actions in an effort to overthrow the government, the government then has the right to take punitive measures.

H. Edward Knox, president Student Government

By Bill Marley
Due to some rewarding cooperation, I have some news tonight from State College's first sorority, Sigma Kappa. Nancy Moody, Sigma Kappa's registrar or publicity chairman, called last week and gave me a run-down on her sisters' latest activities.

On February 7 at 3 p. m., Sigma Kappa members held tea in the Memorial Room of the Alumni Building for the new co-eds on campus. There were approximately twenty people present including Sigma Kappa Raleigh alumni and Mrs. Doris Doshier, chapter faculty adviser.

Miss Dee Clark of Beulaville has been elected president of the chapter due to the fact that Linda Wey did not return to State this semester. Miss Pat Garner of Raleigh will assume Clark's past duties as vice-president.

Sigma Kappa is the fifth largest sorority in the nation in the number of chapters, with the only other chapters in North Carolina being at Duke University and Western Carolina College.

An Interfraternity Council

Housing Committee meeting was held February 8 and a schedule of more "vital steps" was agreed upon. It is reported here for those Greeks interested in the progress that is being made on Fraternity Row.

1. Feb. 8-Mar. 1: Preparation of site plans
2. Mar. 1-Mar. 10: Site Selection
3. Mar. 10-May 13: Preliminary Design
4. May 13-June 1: Approval of preliminary designs
5. June 1-Aug. 30: Working drawings
6. Aug. 30-Sept. 30: Approval of working drawings
7. October 1: Announce bids
8. November 3: Receive bids

—NOTICE—

The Technician desperately needs a writer to take the place of the person who formerly wrote "L. G." Anyone desiring a position, no pay, and a satisfied mind, should come by this office on Tuesday night, February 16. He will be required to compose a column each week, offering his views of current happenings and crises in student life here at State College.

"Who, Me ... A Squealer?"

By Bob George
The title of this article perhaps best exemplifies the answer of an average State College student when asked the question, "Would you report a fellow student for cheating?" In most cases, students believe that cheating or not cheating is a matter of individual conscience which should concern largely the individual and for this reason they are unwilling to "squeal" on their classmates.

There is a definite linking in the student's mind between the idea of squealing and that of reporting violations. Perhaps, if a distinction between the two could be made, the most popular misconception of the Honor System might be clarified.

It is quite evident that if harmony is to exist in any given group, it is necessary that every individual have a respect for the principles of the group as a whole, and do his part to maintain them. From an objective point of view, when there is a violation of one of these principles, it is up to the individual to rectify it, or the harmony of the group will be weakened and eventually lost.

Here at State College, all incoming students must certify to uphold the Honor System as a requirement for registration. Therefore, when a student undertakes to violate the Honor System, he is making a Mockery out of a System whose very success rests in the loyalty of those who have agreed to abide by it.

When one sees a fellow student abusing the Honor System, he should try to think first of the relationship that exists between them as members of a body under the Honor System, because that is the relationship that is receiving the injury. If report-

ing was done to an external authority, it might very well be classified as "squealing", but at State College under our present system the authority is self-imposed. Violations are reported to an internal authority composed of students elected to do our bidding.

The signing of the Honor Pledge is another matter of great controversy. In many cases it has become simply a means of relieving teachers from the chore of proctoring quizzes. Often students have remarked that those who cheat on a quiz would be the last to forget to sign the Pledge. This is certainly true.

The chief value of signing such a pledge is to give the student a definite awareness of the fact that there is an Honor System. As has been mentioned, a student entering State College obligates himself to voluntarily live under the Honor System. Signing the Pledge will not stop cheating, but will serve only as a reminder of this obligation to be honest.

In conclusion, every student should realize that the success of our Honor System is dependent on each individual, at the same time remembering that it is not a mere pact for a chosen few.

Wolfpack Nips Terrapins 48-46

By Jay Brame

North Carolina State edged the Terrapins of Maryland 48-46 in close finish Saturday night at the William Neal Reynolds Coliseum. It was the Wolfpack's seventh consecutive victory at home.

With just five seconds left in the game Bruce Hoadley stepped to the foul line with a one-and-one situation. Bruce calmly put his first shot through the hoop. With this Maryland called timeout.

With the score 47-46, the first time that the Wolfpack had led since the 11:48 mark in the first half, Hoadley came back after the timeout to sink his second shot to put the Wolfpack ahead 48-46. The Terrapins quickly brought the ball down the court and with just one second left on the clock, Al Bunge was fouled by Bob DiStefano. Bunge had one shot coming to him.

One free throw would do the Terps no good as they were two points down, so Coach Bud Milikan inserted 6-10 Bob Wilson and 6-7 Ted Marshall. His strategy was for Bunge to miss his shot and hope that either Wilson or Marshall would tap it in. Bunge missed, but Wilson and Marshall failed to tap the ball into the bucket. The victory was the Wolfpack's.

The victory made up for the contest that the Wolfpack lost

at College Park about a month ago. The Wolfpack now has a 5-6 conference record and a 9-11 overall record.

The Wolfpack went ahead 1-0 on a free throw by Captain Danny Englehardt with 45 seconds gone in the first half. The score was tied at 2-all, 4-all, 7-all, 9-all, 11-all, and 13-all before a free throw by Bunge put the Terps ahead 14-13 with 12 minutes remaining in the first half.

Gallagher put the Wolfpack ahead 15-14 with 11:48 remain-

ing. This was the last time the Wolfpack led. From here the Terps moved out to a seven point lead at 26-19. Two buckets by Gallagher and Anton Mehlbauer in the last minute cut the Terps lead to three points at halftime, 30-27.

In the second half the Wolfpack fought an uphill struggle as they were never behind by more than six points. This was with 16:26 remaining in the game. From 30-36, the Pack reduced the margin to one point,

35-36. The Terps scored two quick buckets, and the score was 40-35.

At the nine minute mark and the score 42-39, the Terps tried to freeze the ball. However it did not work as the Terps lost the ball on several occasions. With one minute and 32 seconds remaining in the contest Mehlbauer was fouled. It was a one-and-one situation, and the Pack was down two. Mule simply stepped up to the line and sank both of his free throws. This was the first time that the Wolfpack had been tied with the Terps since the first half. Then

with five seconds left, Hoadley sank his free throws and the crowd went wild, the band played, and everybody went home happy except the Terrapins.

Muehlbauer played undoubtedly the finest game of his college career as he scored eighteen points and captured thirteen rebounds. His spirited play and desire and hustle kept the Wolfpack in the contest all the way.

DiStefano was the second high scorer for the Pack with 12 points.

Jerry Bechtle led the Terrapins with 16 points. Bunge was held to six points in the game

to hurt his scoring average, tops in the conference before the game.

The Wolfpack plays host to the Tar Heels Wednesday night at the Coliseum. Game time is 8:15. This is a reserved seat contest. The two freshman teams play in a preliminary with the game starting at 6:15. Coach George Pickett's fine freshman team will be seeking its eighth straight victory against Big Four competition.

Notices

There will be an important meeting for all candidates for the varsity and freshman tennis teams Tuesday night, February 16, 7:30 p.m., Frank Thompson Gym. All prospects, new and old, are urged to attend this meeting.

There will be an important meeting of all students interested in playing freshman baseball, Tuesday night, February 16, 7:00 p.m., in the band room of Frank Thompson Gym. Information concerning practice and eligibility will be discussed.

Coach Vic Sorrell requests that any student that is interested in coming out for varsity baseball to come by his office in the Coliseum immediately. Practice and tryouts for the varsity baseball team are to be held within the next week or so, weather permitting.

Wolflet Swimmers Set New Records At Carolina's Invitational Meet

The N. C. State freshman swimming team showed other ACC freshmen swimmers a thing or two about swimming in the sixth annual freshman invitational meet held in Chapel Hill on Friday and Saturday. The Wolflets took a squad of six to the meet and snatched six first places and two seconds.

Peter Fogarsay set three new meet marks to tie for top honors with Hugh Rodin of Maryland who also set three new records. Fogarsay tied an NCAA freshman mark when he swam the 100 yard breaststroke in 1:06.3.

This time was also a new conference record by :01.9. Fogar-

say also set new meet marks in the 200 yard breaststroke and the 200 yard individual medley.

Smokey Ellis won the 50 yard freestyle in 22.8 and the 100 yard freestyle in 52.2 which tied to meet mark. Ellis has done the 50 yard event in 22.3 seconds at a meet earlier this season. Ed Spencer rounded out the first place with a gold medal in the 100 yard butterfly.

Ellis had a second place in the 100 yard backstroke and Spencer had a second place in the 220 yard freestyle. Guy Griswold and John Carter contributed a fourth and sixth place respectively to round out the scoring for the Pack frosh.

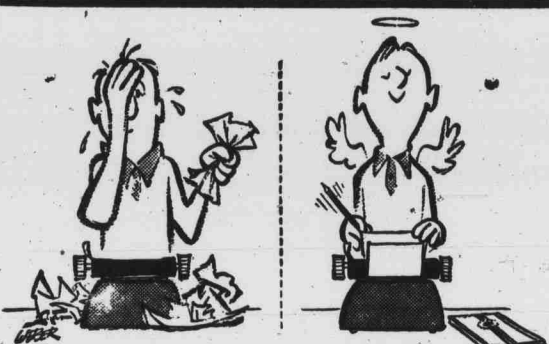

Anton Mehlbauer (52) shoots as Jerry Bechtle of Maryland falls into him in Saturday night's game. State players in the picture are Bruce Hoadley (32) and Jon Ed Simbeck (40). Maryland players are Al Bunge (34) and Jerry Shanahan (53). Muehlbauer's 18 points and 13 rebounds led State to a 48-46 victory over the Terps. (Photo by Hoey.)

Athlete of Week Awards Suspended

At an NCAA meeting last month it was decided that no college athlete should receive an award in merchandise or gifts. If an organization decides to give an athlete an award of some type for his outstanding play in a game or over a season, the school shall keep the gift or award until the athlete either graduates, quits school, or finishes up his eligibility.

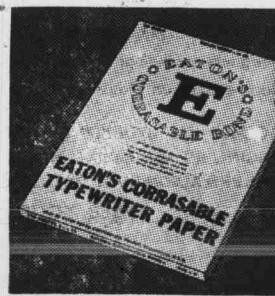

If an athlete accepts an award of some type, he and his school are subjected to a penalty to be handed down by the NCAA. Thus, Varsity's Athlete of the Week award is stopped.

Coast Guard To Interview Graduates

An application deadline for qualification for the August, 1960, Coast Guard Officer Candidate Class has been set local Coast Guard officials revealed today.

Additional information may be obtained by contacting the District Guard District, P. O. Box 540, Norfolk 1, Va. State College June graduates on Wednesday, February 10. Descriptive literature is available from the Director of Reserve, Fifth Coast may interview Lt. JG W. M. at 207 Holladay Hall.

A cut-off date of April 20, 1960, was established to enable selection and notification of college applicants prior to the June graduations.

The August class, convening at the new Coast Guard Officer Candidate School, Yorktown Virginia, will contain candidate for both the six month and three year Reserve Officer active duty programs.

Applicants must be in good health, from five feet-four inches to six feet-six inches in height with proportionate weight; must have twenty-five vision in each eye, corrected to twenty-thirty, and must pass a color blindness test.

North Carolina State Student Affairs Bulletin

IMPORTANT DEADLINES IN FEBRUARY:
February 19—Last day to drop a course without failure.

STUDENT I-D CARDS—Any student not having an I-D photo card should report to Room 3 Ricks Hall, February 11-19. No photos will be taken after February 19.

LIKE TO SING?—Here's a chance to sing with a large group of men from State College. A men's glee club of approximately four hundred voices is being formed to sing at Chancellor Caldwell's Installation on March 7, 1960. Anyone interested should come by the Music Department Office, 104 Pullen Hall, by March 1st.

INSURANCE FOR NEW STUDENTS—Accident and Sickness Insurance is available to students entering State College at this registration. Coverage until September, 1960, at a premium of \$7.50 for single students; \$14.00 for the student and spouse, and \$19.00 for the student, spouse and children. Enrollment forms available at College Infirmary or 201 Holladay Hall. Deadline March 1.

CAFETERIA SPECIAL PLATE—Beginning with the second semester the Cafeteria is reducing the Special Plate to 40¢, offering a choice of one of two meats, two vegetables, bread, and choice of tea, coffee or soda drink.

PHI KAPPA PHI FELLOWSHIP—One national award of \$2500 to superior senior with completed plans for graduate study beginning fall 1960. Applications available Tuesday and Wednesday at 207 Holladay Hall, 1400 Williams Hall, and 112 Winston Hall.

U. S. COAST GUARD COMMISSIONS—June graduates may receive additional information from representative at the College Union on Wednesday, February 10. Descriptive literature available at 207 Holladay Hall.

IMPROVEMENT IN READING (Edue. 1)—Four sections of training will be offered this term, with all classes starting next week (week of Feb. 15th). Classes meet once a week. This training, directed by Dr. Paul Rust, has assisted many students in doubling their reading rates while at the same time maintaining or improving reading comprehension. The classes are non-credit and students may register at the first meeting of a section.

- Section 1—Tuesdays—9 a.m. 111-B Tompkins
- Section 2—Tuesdays—10 a.m. 111-B Tompkins
- Section 3—Thursdays—10 a.m. 111-B Tompkins
- Section 4—Thursdays—11 a.m. 111-B Tompkins

Students and staff interested in Advanced Sections (training will start at 360 words per minute) are invited to attend a meeting at 12:00 noon, Monday, Feb. 15, Tompkins 111-B in order to select the most appropriate hours for these sections to meet.

SWIMMING POOL RECREATION HOURS—Second Semester:
Monday through Friday 4:00-4:30
Saturday and Sunday 2:00-5:00
Tuesday night 7:30-9:00

Tuesday nights are for faculty, co-eds, and staff members. It is requested that no children be brought to the pool.

Phi Epsilon Pi Remodels House

Phi Epsilon Pi, State College social fraternity, has recently announced the completion of alterations of their fraternity house at 130 Hawthorne Road.

The decor includes new fixtures, remodeled furniture, new carpeting, and five recently-acquired sculpture pieces.

"We have tried to arrange the accessories so they have interest, association, and good taste. I feel it will delight the eye of an observer because it is simple, pleasing to look at, and it is particularly well suited to its purpose," commented President, Lenny Tillman.

The designing consultant was Austin R. Bear from the State College School of Design.

General Motors pledges AC QUESTMANSHIP

SEEK AND SOLVE THE SIGNIFICANT WITH AC... IN MILWAUKEE!

Because of GM's large defense contribution toward technological superiority, AC accepts a challenge. AC is on a quest for significant scientific concepts. Based on past accomplishments—such as AChiever inertial guidance for Titan—AC will solve large problems. You may qualify for our specially selected staff if you have related experience plus a BS, MS or PhD in EE, Math or Physics.

ADVANCED SYSTEMS R & D—Current programs include interplanetary navigation and guidance; digital computer development; advanced inertial sensors; passive electromagnetic detection, surveillance and navigation systems; guidance systems for ballistic missiles, space vehicles and aircraft. **SYSTEMS ENGINEERS**—Advanced design of servo-mechanisms, systems mathematical analysis servo synthesis, probability studies, systems reliability analysis. **ELECTROMAGNETIC RESEARCH AND DEVELOPMENTS**—Research to advance the state of the art in devices such as gyros, accelerometers, and pickoffs. Research to develop new types of sensing devices needed for space navigation. **DIGITAL COMPUTER DESIGN ENGINEERS AND ANALYSTS**—Logic design, pulse circuit design, minimization methods, input-output quantization, logic module packaging, programming research, digital computation research, memory design. **GYRO-PROJECT ENGINEERS**—AC's success has brought in eight new projects. Men are needed to design and evaluate gyroscopes and accelerometers. Experience in electronics, electromagnetics or electromechanical design is desirable. **PACKAGING ENGINEERS**—Research to develop revolutionary packaging techniques for electronic miniaturized assemblies and sensing devices for use in space and radiation environments. **PRODUCT DESIGN ENGINEERS**—Design, development and test of electronic components, servos and circuits. **FIELD ENGINEERS**—Emphasis on missile inertial guidance equipment and bombing navigation systems. AC will give you comprehensive formalized training leading to domestic and foreign assignments. **RELIABILITY ENGINEERS**—Key positions for electrical and mechanical equipment designers, mathematicians, and quality control engineers to perform design review, project coordination, parts evaluation, statistical analyses and test planning to produce superior product.

AC ALSO HAS OPENINGS FOR: ENVIRONMENTAL TEST ENGINEERS • TRANSISTOR APPLICATION ENGINEERS • BOMBING NAVIGATION COMPUTER SYSTEMS ENGINEERS • TECHNICAL WRITERS INQUIRE ALSO ABOUT POSITIONS IN BOSTON AND LOS ANGELES.
