Scholarships, Loans, Grants Available To Upperclassmen

Enrolled State College students who wish to be considered for a number of competitive scholarships available to upperclassmen for 1960-61 should obtain application forms from the Financial Aid Office, 207 Holladay Hall at their earliest opportunity. The completed applications should be returned by April 5.

Grants-in-Aid

By the same application a student may be considered for a grant-in-aid (small, non-competitive scholarship) and/or a

long-term, low-interest loan for next year. The competitive scholarships are limited in number and in general will be awarded first, for the most part before the close of the current semester.

There is no particular deadline for filing applications for grants and loans, but it is generally preferable if they are submitted by the end of the spring semester. Students with high academic standing may as well submit them now, so that they will receive consideration

for the competitive scholarships. Grants and loans require new applications each year. Also, rising sophomores who last year were awarded one-year Talent For Service Scholarships must reapply to receive grants-in-aid for 1960-61.

Competitive Scholarships

Most competitive scholarships require academic averages of B or better, evidence of financial need, good citizenship records, and leadership potential. Grants-in-aid, or general scholarships, and long-term loans are awarded to students who have averages of C+ or better and who have financial need. State College participates in the National Defense Student Loan Program, which provides its largest source of loan funds.

Some of the competitive scholarships available to students in more than one school are: The Radio Corporation of America Scholarship, \$800 for a senior in engineering or science; two Burlington Industries Foundation Scholarships, \$500 each, one for a junior in engineering, one to a junior in textiles; the Superior Cable Corporation Scholarship, \$600 for a junior in C.E., M.E., E.E., or physics; and three Winn-Dixie Scholarships, \$200 each, to juniors.

Agriculture Scholarships

Scholarships for students in the School of Agriculture include: Peele Scholarship, \$200; Ralston-Purina Scholarship, \$500, for seniors in Ag. Econ., Ag.E., poultry science, and animal industry; and the Poultry Science Scholarship and the Mocksville Feed Mills Scholarship, both up to \$500 for students in poultry science.

Engineering Scholarships

Other engineering scholar-

ships include: Bendix Aviation Scholarship, tuition and fees to a senior; Luther W. Cartwright Jr. Memorial Scholarship, \$200 to a junior or senior; Douglas Aircraft Company Scholarship, \$750 to a senior in M.E.A., E.E., or M.E.; L. A. Mahler Scholarship, \$200 to an E.E. senior; Monsanto Chemical Company Scholarship, \$500 to a senior; Smith-Douglass Scholarship, \$500 to a junior; two Trane Company Scholarships, \$500 each to seniors in heating and air conditioning, M.E., or E.E.; and the Westinghouse Scholarship, \$500 to a senior in M.E. or E.E.

Forestry Scholarships

Scholarships in forestry include: three Biltmore Scholarships, \$350 a year to management students; Darlington Veneer Scholarship, \$500; Pulp and Paper Foundation Scholarships, \$300, \$500, and \$750 stipends to students in pulp and paper; Rayonier Foundation Scholarship, \$600 to a student in pulp and paper technology; Scott Russ Scholarship in Forestry, \$200 to a student in management; and two George K. Slocum Scholarships, \$150 each for students in management.

Textile Scholarships

Upperclassmen in the School of Textiles may apply for these competitive scholarships: American Viscose Corporation Scholarship, \$500 to a senior; Blackman-Uhler Company Scholarship, \$500 to a senior in textile chemistry; Carolina Yarn Association Scholarship, \$300; Chemstrand Corporation Scholarship, \$500 to a senior; the Ciba Company Scholarship, \$500 to a junior; the Herman Cone Memorial Foundation, Inc.

(See SCHOLARSHIP, page 4)

Two Year Course

Ag School Institutes

State College has completed plans for a new two-year technical program in agriculture, Chancellor John T. Caldwell and Dr. D. W. Colvard, dean of agriculture, announced Tuesday.

The new program, authorized by the 1959 General Assembly, has been officially designated the North Carolina Agricultural Institute.

Dr. Homer C. Folks, who was named last summer to direct the institute, said classes will begin in September. Applications for enrollment are now being received.

"It will be a needed addition to our regular degree-granting program in the School of Agriculture," Chancellor Caldwell added.

"Instruction offered by the Agricultural Institute will be designed to train students for

technical jobs in agriculture which require more than a high school education but less than four years of college."

Five programs of instruction will be offered in the institute. They are:

- (1) a course in general agriculture, designed to provide technical training for students who plan to return to the farm;
- (2) a course in poultry technology, designed to meet the growing need for people trained in the production, processing and marketing of poultry products;
- (3) a course in pest control, designed to provide men with technical knowledge needed to control household and structural pests;
- (4) a course in livestock management and technology, designed to train graduates who can fill technical jobs within North Carolina's fast growing animal industry;
- (5) a course in farm equipment sales and service, designed to train men in the selection, demonstration, installation and maintenance of agricultural equipment.

Dr. Folks said students enrolled in the Agricultural Institute will use the same facilities available to four-year students.

In general, however, applicants must be of good moral character, and graduates of an accredited high school or the equivalent thereof.

Applicants do not have to pass the regular college entrance exam.

Programs of instruction and regulations governing the Agricultural Institute were developed after Dr. Folks and Dr. H. B. James, director of instruction for the School of Agriculture, studied similar institutes in other states.

The Agricultural Institute has the backing of all major farm organizations in North Carolina.

Student Support Urged For Campus Chest Drive

The Campus Chest Drive will be held this year April, 1-8.

Tom Lane, a member of Advisory Committee for the drive, made this statement to the Technician. "Once a year, and only once a year, State students are asked to stop and think of the welfare of thousands of unfortunate children and students elsewhere. This occasion is the Campus Chest Drive, formerly the Student United Fund, to be held April 1-8.

"The proceeds of the drive will benefit needy children in the Raleigh area and students in other lands, some of whom

do not even have the bare necessities of life.

"All students are asked to help, both by giving and by helping with solicitations. Anyone who would like to help solicit should see his dormitory president or call Pete Gernert at VA-86188. The first meeting for solicitors will be held on March 22, at 9:00 p.m., in the College Union Theater.

All interested persons are urged to attend. A very interesting program has been planned by the Advisory Committee which consists of top campus leaders.

Campus Crier

Mr. John W. Davis, Vice-President of District 4 of the AIEE, will speak on the topic "Your Future As An Electrical Engineer" Wednesday, March 16, at 7:00 p.m. in Riddick 242. This will be a regular meeting of the AIEE* IRE Joint Student Branch. The Student Paper Contest will also be held.

The Military Ball will be held on Saturday, March 26, from 8 until 12 in the Coliseum. The "Tactones", a well known Air Force band, will provide the music, and refreshments will be served. All cadets are urged to attend. Memberships may be purchased from Major Drum in the Army ROTC office. Dress will be formal.

A musical concert featuring the Four Freshmen will be the entertainment attraction for all BSU's attending the March 19 Deputation at ECC in Greenville. Cars will leave the BSU Center at 2:00 p.m. Travel expenses and a delicious supper will cost \$2.00 each. All who plan to attend are requested to sign up at the BSU Center or in 411-D Bragaw.

All delegates, alternates, and observers to the State Student Legislature are requested to attend a final meeting Tuesday, March 15, at 8:30 p.m. in the Student Government Room of the College Union. The Assembly has been re-scheduled for March 17-19, this weekend. Final plans for the presentation and defense of the State College bill

will be made at the Tuesday night meeting.

(See CRIER, page 4)

AIEE To Elect Future Officers At Tuesday Meet

Next year's officers of the American Institute of Industrial Engineers will be elected at the next meeting on Tuesday, March 15, at 7:00 p.m. in the College Union.

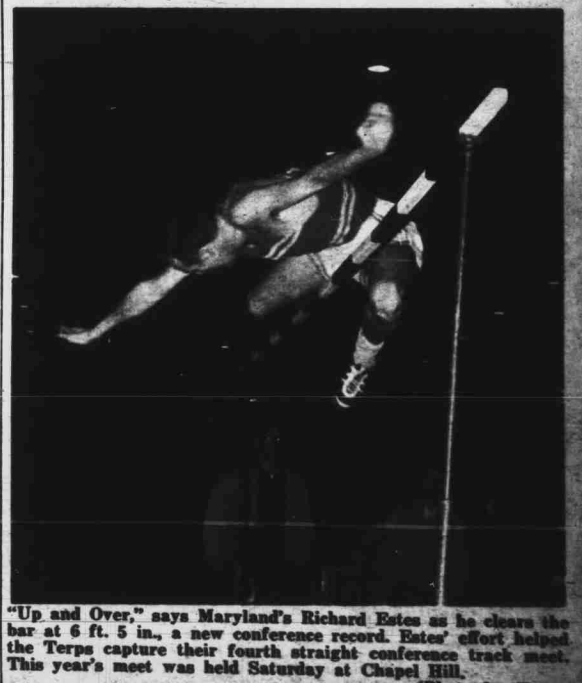

The present officers (mainly seniors) will relinquish their offices, and the newly elected ones will take charge of this meeting.

Charles Shakelford, chairman of the publicity committee of AIEE, made this statement concerning this meeting: "There are many officers and chairmanships that must be filled. The success of the AIEE chapter next year depends on the turnout at the tomorrow night meeting and how well these offices are filled.

"Those who have not yet joined the AIEE may also take this opportunity to join by picking up application blanks in the AIEE office.

"All freshmen, sophomore, and junior Industrial Engineering students are especially urged to attend for you are the future members and future leaders of the AIEE student chapter."

Terp Clears Bar In ACC Meet

"Up and Over," says Maryland's Richard Estes as he clears the bar at 6 ft. 5 in., a new conference record. Estes' effort helped the Terps capture their fourth straight conference track meet. This year's meet was held Saturday at Chapel Hill. (Photo by Hoey)

EDITORIAL COMMENT

Grave Injustice

Readers have probably noticed the presence of an article entitled, "N. C. State M & O Crews Do Big Job". This article was reprinted from the monthly *Career* for two main purposes: (1) To show the students, faculty, and staff of State College what a admirable job the M & O does, and (2) To lead into the exposure of one of the greatest injustices that presently exists on our campus.

The first purpose has been accomplished, and wholly by this article, we might add, for there'll be no bouquets tossed in the direction of the M & O from this column this week. The second of these purposes may not be fulfilled tonight, but a start will be made, and the finish will come soon.

We might say now that the reason for this sudden but long overdue, blast at the M & O was prompted by a growing unrest developing from a series of somewhat unfair deals involving the M & O and the student body. The culmination of these transactions came last week when a group of students living in Tucker Dormitory were forced to have some window panes replaced after they were broken during a snowball fight.

Approximately thirteen window panes were broken during the affray. Of course, the next day, the M & O repairmen came to replace the panes. The shock came later when the group of students received a bill for the costs of the repair job, 43 dollars!

Through a sixth sense or perhaps through ordinary curiosity, the students called a Raleigh firm, in an attempt to ascertain whether or not they had been overcharged. It seems that this local firm submitted an estimate for the repair job, (had they been allowed to come to the campus and do it,) and their estimate was approximately sixteen dollars!

Of course, in all fairness, we must understand that the M & O cannot be expected to perform any job for the same price as an outside firm. This is true, because, as a workman goes to a dormitory to repair some breakage, he is stopping the job that he is supposed to be performing. The fact that the M & O loses this man's service for the time that he is gone must be taken into consideration and must also be paid for.

However, with little fear of contradiction, we can say that 27 dollars is a rather steep price to pay for taking the workmen away, the workmen, that is, that would be required to replace thirteen window panes.

Of course, this area is not the only one where students here have been known to experience unfair prices. The costs of the Coliseum, costs of refinishing floors, tables, etc., with cigarette burns, and other examples just show that the M & O has lost the cause and principles of this institution in some dusty files.

Something can be done about this deplorable situation, but the lead should come from the Student Government. This area is one in which the legislature can function admirably—for the good of the student body. The incident above is true, and it will not go unnoticed if this student body cries to its voice, the Student Government. —JM

Campus Humor by Gray

N. C. State M&O Crews Do Big Job

(Editor's note: The following article is reprinted from the February issue of *Career*, a monthly publication for personnel in North Carolina State government.)

Go to the campus of North Carolina State College some day. Stroll along the clean bricked walks among clipped grass and neat landscaping. Signs will tell you what buildings you pass. In the buildings, it's warm. The floors are clean. The furniture is in good repair. The lights work.

All this, most people take for granted. But somebody had to work to keep the grass cut, the signs painted, the floors clean, the furniture repaired, the lights burning. At State College the myriad jobs are done by the Maintenance and Operation Division.

It's the type job that has to be done at many institutions, but at State College 350 employees are doing an exceptional job. J. McCree Smith, director of M&O cites a few examples.

Employees built a window shade repair machine for \$300. It would cost at least six times

that much to buy one.

They make cement paint for 10 cents a gallon. It costs 60 cents to a dollar on the market.

They built janitors clean-up carts for \$19. Ready-mades cost \$37.

For \$50, employees built a portable extension ladder that fits on a pick-up truck for use in replacing lamps in street lights. A factory-built ladder of the same type costs about \$1,100—and once it's on the truck it won't come off; the college's homemade rig will.

They have created working and storage space over, under, around and through the M&O quarters. The underside of the west stands in Riddick Stadium were turned into storerooms. Employees have an enlarged, clean washroom. Most of the work of enlargement was done in inclement weather when employees couldn't do regular outside work.

The job done by M&O is more than a combination of ideas and ingenuity. According to Smith, the attitude of employees plays an important part. It's the sort of attitude that brings a man

Greeks On Campus

By Bill Marley
Chi chapter of Phi Kappa Tau, here at State College, will celebrate the annual Carnation Ball at Scandia Village this Saturday, March 19. The Ball is held as near the founding date of Phi Kappa Tau, March 17, 1906, every year as is possible.

A banquet precedes the dance with the seniors of the chapter taking charge of the program. This year, the program will consist of giving an award to the outstanding pledge of the past pledge class and also of crowning the sweetheart.

The speaker will be Professor Lindsay Whichard, who is the chapter's faculty advisor.

The dance follows the banquet with music being furnished by a combo led by Harrison Register of Durham. The PKT's are expecting a good show (ing) including many alumni up for the weekend.

District Five Leadership Training School for Sigma Phi Epsilon will meet this Saturday at Duke University. District

Five consists of the nine chapters of SPE's in North and South Carolina.

This is an annual affair held for the newly-elected officers of each chapter and it includes class instruction for the betterment of chapter operation.

Farm House fraternity again headed the scholarship list at State as it had done every year since its inception here in 1954. The house average of 2.7086 was 0.15 point ahead of the second place fraternity. Congratulations to FH scholars are in order.

Also at Farm House, elections were held last week. Serving as President for the coming year will be Dave McMahon; Business Manager, Talmadge Brown; Secretary, Louis McGee; Treasurer, Ted McColl; Steward, Jack Hawkins; I. F. C. representative, Bobby Shepherd; and junior I. F. C. representative, Marvin Hicks.

Delta Rho chapter of Theta Chi fraternity held its biggest weekend of the year on March 3-4.

The weekend started on Friday with an informal party at the house. The house's two new Kingston Trio albums and one Duane Eddy disc provided the music until about one in the morning and then the party broke up to go sledding.

Saturday afternoon, the thirty-eight brothers and their dates convened for an informal get-acquainted party at about three o'clock. The party was ended with a buffet dinner for all.

That night, the Raleigh Woman's Club and the Woody Hayes combo provided the atmosphere for the eighth annual Dream Girl Dance. During the dance, the brothers took time out to serenade Gordon Kirkman's fiancée, Reney Feltner, of Raleigh.

The highlight of the evening came when Amey Lou Bell of Asheville, sponsored by Morris Dillingham, was elected the Dream Girl of Theta Chi. Amey is a freshman at Meredith majoring in Education. She will represent Delta Rho chapter at the annual Mason-Dixon Jubilee, April 9, at Chapel Hill.

After the dance, the brothers and dates returned to the house where a Shipwreck Party finished the weekend.

Letter to the Editor

A Commendation

To the Editor of The Technician: Is my imagination running away with me, or has The Technician really become a finer and more interesting newspaper than it was at the beginning of the school year? The edition of March 10, 1960, is a good example of what "our" newspaper has become.

The article on the Honor System was found to be most interesting as was "Probation Ends on Pack Basketball". It was easy to see that a great deal of time and effort went into the writing of both of these articles. The excellent coverage of the installation of Dr. Caldwell is also to be commended. The pictures accompanying this piece were noted to be clearer and of higher quality than previous pictures seen in The Technician. I understand that this is due to the higher grade of paper that The Technician is now being printed on.

The weekly columns, such as "Rambling 'Round," "Entertainment Unlimited," "At the College Union," and, of course, "The Penguin's Roost," are al-

ways well worth reading. All of these things go to make a good newspaper—one we can be proud of.

Not a staff photo, but nevertheless interesting, to say the least. Joe Coble, a resident of Syme Dormitory, grabbed this shot and forwarded it to the offices. If construction like this would continue, "Let It Snow, let it snow, let it snow!"

NYU Beats Duke For Regional Title

The Duke Blue Devils, the Cinderella team of the Atlantic Coast Conference, lost to a strong New York University team in the Eastern Regional finals at Charlotte, Saturday night. The final score of the contest was 74-59 in favor of the Violets.

Thus the Blue Devils' winning streak was stopped at five. Last week in the ACC Tournament, they had defeated two of the strongest teams in the conference—Wake Forest and North Carolina. These two wins gave them the championship of the Atlantic Coast Conference.

They defeated a rather weak

Princeton team last Tuesday night in Madison Square Garden. Then in the first round of play in these regionals last Friday night, they defeated St. Joseph's by a scant two points, 58-56.

The Violets earned their way into the finals by beating West Virginia, 82-81 in an overtime.

The Blue Devils did not have it Saturday night as they simply ran out of gas. The Violets jumped into a 6-0 lead before the Duke team could scratch. However, the Blue Devils came back to tie the score at 6-all. This was the last time the Duke team was in the game as the New Yorkers ran up ten point

margin at 25-15. After that it was no contest.

The score at the half was 35-26 in favor of NYU.

The NYU team was very hot in the first half as they broke the 1-3-1 zone of Duke wide open with their outside shooting.

Thus the New Yorkers will represent the East in the semi-finals at San Francisco next Friday. Other teams will be Cincinnati, Ohio State, and California.

NYU will meet Ohio State in the semi-finals, while Cincinnati and California will meet in the other semi-final match.

Maryland Wins ACC Indoor Games at Chapel Hill

Maryland's Terrapins walked off with the ACC Indoor games held at Chapel Hill Saturday. The Terps amassed 82 points. The 30-man squad captured a total of eight out of the twelve events held.

Duke's Cary Weisiger took individual honors as he captured the Weil Mile and the 880. Neither of his victories were records.

Carolina finished second in the team standings with 30 points. They were followed by Duke with 28 7/10, South Carolina 25 9/10, Clemson 10, Virginia 8 2/10, and State 8 2/10. Wake Forest failed to score.

Maryland also captured the freshman division with 46 1/2 points. Duke and Carolina tied for second with 30 1/2 points each.

Bill Biggerstaff and Johnny Davis were the only runners to finish as high as fourth in any

event for State. Biggerstaff finished fourth in the high hurdles. Davis was fourth in the 880-yard run.

In the freshman division Bob Martin finished second in the low hurdles. Martin is one of the top freshmen on the state frosh team this year. He has been showing up well in the last couple of weeks, and shows promise of helping the varsity very much next year.

Summaries of events in Saturday's annual Atlantic Coast Conference indoor games:

CONFERENCE DIVISION
Shot put—1, Kovalakides, Maryland. 2, Coates, South Carolina. 3, Hameroff, Maryland. 4, Leffler, North Carolina. 5, Lancaster, North Carolina. 49 feet, 9 inches.
Broad jump—1, tie between Hodges, Maryland; and Upton, South Carolina. 2, Stanley, North Carolina. 4, Sims, North Carolina. 5, Bloodworth, N. C. State. 22 feet, 2 1/2 inches.
High jump—1, R. Estes, Maryland. 2, Stevenson, Duke. 3, G. Estes, Maryland. 4, Swofford, Clemson. 5, Five-way tie among Frank, Duke; Lindsey, South Carolina; Hoagland, Virginia; Wood, N. C. State, and Valley, South Carolina. 6 feet, 5 inches. New record. Old record 6 feet, 4 1/2 inches set by Tait of Maryland, 1959.
Two mile relay—1, Maryland

(Patrick, Adams, Cingott, Harper). 2, North Carolina. 3, Duke. 4, North Carolina State. (Only four teams competed) 8:05.4. New record. Old record 8:05.5 set by Maryland, 1958.

60-yard dash—1, Speigel, Maryland. 2, Sepp, Virginia. 3, Goldstein, Maryland. 4, Whitaker, Maryland. 5, Pitts, Maryland. 6.5.

Mile run—1, Weisiger, Duke. 2, Colavita, Maryland. 3, Wells, Maryland. 4, Pfalzgraf, South Carolina. 5, Henry, North Carolina. 4:13.6.

600-yard run—1, Dunkelberg, Clemson. 2, Seagle, North Carolina. 3, tie between Menaker, Duke, and Board, Virginia. 5, Coltrane, Virginia. 1:43.2.

High hurdles—1, Johnson, Maryland. 2, Bradshaw, South Carolina. 3, McDonough, Maryland. 4, Biggerstaff, N. C. State. 5, Klotz, Maryland. 8.6 seconds.

Two mile run—1, Mason, South Carolina. 2, Drake, South Carolina. 3, Nourse, Duke. 4, Hanson, Maryland. 5, tie between Saboniah, Virginia, and Everett, North Carolina. 9:24.6.

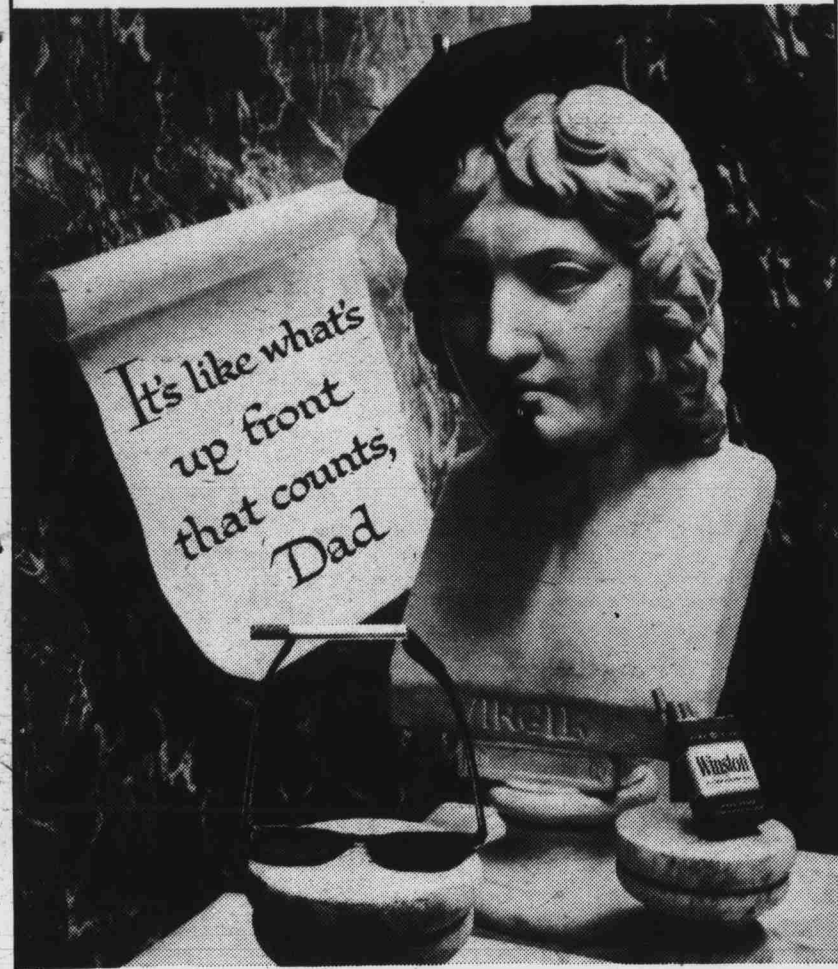

Low hurdles—1, Johnson, Maryland. 2, Smith, Maryland. 3, Finton, Maryland. 4, Bradshaw, South Carolina. 5, Grandmaison, Maryland. 7.9 seconds.

Pole vault—1, Anderson, Maryland. 2, tie between Glass, Maryland, and Tiedmann, North Carolina. 4, Stone, North Carolina. 5, Leary, N. C. State. 14 feet. New record. Old record 13 feet, 9 1/2 inches set by Mel Schwars of Maryland, 1956.

800-yard run—1, Weisiger, Duke. 2, Bazemore, Duke. 3, Brant, North Carolina. 4, Davis, N. C. State. 5, Harper, Maryland. 1:57.5.

Mile relay—1, Maryland (Salup, Colavita, Wolfe, Smith). 2, North Carolina. 3, Clemson. 4, Duke. 5, Virginia. 8:28.4.

Even Virgil is with the Winston beat

I Sing Of Arms And Like **FILTER-BLEND**, Man,

For if you dig a modern filter cigarette It figures that it's what's up front that is the most Like pure Flavorville, orbit stuff, and all that jazz; And only Winston swings with **FILTER-BLEND** up front, A real gone combo of golden, rich tobaccos Selected and processed like for filter smoking; That's why, dear cats or even squares, it's understood

Winston tastes good like a cigarette should!

APPLY NOW FOR 1960-61 SCHOLARSHIPS, GRANTS-IN-AID AND LOANS

Enrolled State College students who wish to be considered for a number of competitive scholarships should obtain application forms, complete and return them to the Financial Aid Office, 207 Holladay Hall, by April 5th. By the same application a student may ask for consideration for a grant-in-aid (small, non-competitive scholarship) and/or a long-term, low-interest loan (including a National Defense Student Loan). The competitive scholarships are limited in number and will be awarded first, for the most part, before the close of the current semester. There is no particular deadline for those who wish to be considered only for grants and loans, although it is generally more convenient for all concerned if applications are filed by June 1st or early summer.

ORIENTATION GROUP LEADERS

The traditional program of small group orientation for new students is being planned for next September by Student Government's Commission on Orientation. All interested upperclassmen are urged to make application to serve as Group Leaders. Outstanding opportunity for service, leadership and responsibility. Group Leaders receive letters of commendation, certificates of service, and other considerations including meal books. Special registration is arranged. Applications available at College Union Main Desk, 207 Holladay Hall, and 104-A Bragaw Dormitory from Monday to Sunday, March 7-13.

THE INTERNATIONAL ASSOCIATION FOR THE EXCHANGE OF STUDENTS FOR TECHNICAL EXPERIENCE has received additional

training positions for U. S. student trainees. Applications from interested students should be submitted as soon as possible. Training positions are available in the fields of Metallurgy, Mechanical Engineering, Chemical Engineering, Civil Engineering, Physics and Agriculture. A limited supply of application blanks is available in Room 232 Riddick.

ATTENTION ALL STUDENTS—The snow experienced this year is unusual for State College. It is natural that some will throw snowballs, but this can be done without damage to window panes and screens. Each student is again urged to use caution so that no personal injury or property damage will occur. Dormitory-room occupants are held responsible for damage to their rooms including window and screen breakage. Sliding on snow while holding on to car bumpers is also an invitation to injury and should be avoided.

Crier

(Continued from page 1)

There will be a meeting of the ASCE Tuesday, March 14, at 7:30 p.m. in room 436, Mann Hall.

The program will consist of a film "Civil Engineers of the Navy" and talks by Capt. James I. Benson, Deputy District Civil Engineer, and Lt. Jack Moger, CEC, USN., with an open discussion on civil engineering in the Navy.

George Couturier would like to thank the fellow student for returning his wedding ring.

SLIME FROM SYME
By Larry Wright

When the Physics department wants to lower the students' grades, they give an hour and a half quiz to be worked in an hour, but the E. E. department uses another very effective method. They wait until the quiz is well under way, and then discover that several corrections need to be made. Many times this means that a student has worked fifteen or twenty minutes on a quiz for nothing. He has to start over and finish the quiz in the remaining time. Second semester E. E. students have rarely taken quizzes this semester and last semester, too, that did not have corrections to be made. Last semester, there was even a correction made on the final examination about thirty minutes after the exam had started. Most of the students had to work the corrected problem over since they had already worked it once.

Can't something be done about this? I wonder if Dr. Hoadley is aware of this situation?

Why doesn't the E. E. de-

partment let the recitation professors proctor the quizzes instead of using graduate students? Sometimes the graduate students can not intelligently answer questions raised by students during the quiz. At times, this has resulted in lower quiz grades for the students concerned.

Why did the substitute in Mr. Brantley's Calculus class give back the homework problems during the first quiz? Some of the students were interrupted three times to receive and put away homework problems. Besides this, there was the continual distraction of the professor calling the names of the students who were receiving papers. This disturbance certainly didn't help anyone to do better on the quiz. Couldn't this have been avoided by letting the students pick up their homework problems after the quiz?

Mr. Sutherland, do you like to eat with dirty silverware? Neither do the students, but unless we carefully inspect each fork, spoon, and knife that we use, it is very likely that we are eating with dirty silverware.

Military Future

A F General To Discuss

Brig. General Joseph H. Moore, Commander of the 4th Tactical Fighter Wing, will speak in the State College Union Ballroom Wednesday, March 16, at 8 p.m.

General Moore recently set a new speed record of 1,216 miles per hour over a 100 kilometer closed course at Edwards Air Force Base in California on December 11, 1959. This run returned the record to the United States from France. General Moore received the Bendix Trophy and the Distinguished Flying Cross for his speed run.

General Moore will be introduced by Colonel Robert Paul, professor of air science at State College.

Lucky Strike's Dr. Frood to the rescue:

Foolproof Formula Simplifies Chemistry

Dear Dr. Frood: I am having a difficult time in chemistry. We are studying the chemical properties of acids, and I have become utterly confused. Can you help me understand acids?

J. Bunsen Burner

Dear Bunsen: Take two parts of hydrochloric acid and three parts nitric acid. Pour into saucer. Stir mixture with finger. Note how much shorter the finger becomes. That is due to the chemical action of the acid.

Dear Dr. Frood: I was amazed at the recent survey which proved that the poorest students were students with cars. Would you comment, please?

Dean

Dear Dean: I was amazed, too. In my day only the rich students had cars.

Dear Dr. Frood: On the level, do you smoke Luckies?

Doubling Tom

Dear Tom: On the level, I do smoke Luckies. I also smoke Luckies on inclines. And once enjoyed one while scaling the vertical face of Mt. Everest.

Dear Dr. Frood: Exactly what is the difference between adult westerns and what I suppose you would call juvenile westerns?

Channel Selector

Dear Channel: It's the horses. The hero on juvenile westerns rides a pure white horse or a palomino. In adult westerns, the hero's horse is brown, sincere, mature-looking.

Dear Dr. Frood: I am going out for the college play and have become interested in the "Method" school of acting. Could you tell me how this differs from ordinary acting?

Thespis

Dear Thesp: It is all a matter of how you throw yourself into your part. For instance, when playing "Peter Pan" the ordinary actor flies through the air on guide wires. When the "Method" actor plays the role, wires are unnecessary.

Dear Dr. Frood: I am friendly, outgoing, tolerant, athletic, well to do and a good conversationalist. Why does everybody hate me?

Hurt

Dear Hurt: I don't know why—we just do.

COLLEGE STUDENTS SMOKE MORE LUCKIES THAN ANY OTHER REGULAR!

When it comes to choosing their regular smoke, college students head right for fine tobacco. Result: Lucky Strike tops every other regular sold. Lucky's taste beats all the rest because L.S./M.F.T.—Lucky Strike means fine tobacco.

TOBACCO AND TASTE TOO FINE TO FILTER!

Product of The American Tobacco Company—Tobacco is our middle name
