10,000 Expected

Fair Plans Readied

Approximately 3,500 engineering students at North Carolina State College are putting the finishing touches on the 28th annual Engineers' Fair to be presented next Friday and Saturday, April 1 and 2.

Theme of the two-day exposition will be "Entering A New Decade."

Exhibits and demonstrations will give a panoramic view of technical activity.

On display will be electronic marvels, space age vehicles, nuclear reactors, magical chemical techniques — hundreds of exhibits featuring engineering know-how for modern living.

Fair chairman Darrell Mencer, of Statesville, said approximately 10,000 visitors from all over North Carolina are expected for the two-day event.

He said special invitations

have been sent to North Carolina high school principals and their students to attend the fair.

Formal opening exercises are scheduled in Riddick Stadium Friday, April 1, at 1:30 p.m. Dr. John T. Caldwell, State College chancellor, will deliver the main address.

A highlight of the opening program will be the presentation of awards to the engineering school's retiring Advisory Council members and to the outstanding senior in engineering and the humanities. Dr. J. Harold Lampe, dean of the School of Engineering, will make these awards.

There will be no admission charge for the Engineers' Fair. Exhibit halls will remain open until 9 p.m. Friday, April 1, and will be open on Saturday, April 2, from 9 a.m. until 5:00 p.m.

Campus Crier

The Elections committee announces that registration books will be open for campus offices. The books are located in Holladay Hall, room 206. The books will be open each day from 9 to 5, starting April 4, and they will remain open until April 13.

The Forestry Club will meet this Tuesday night, March 29, at 7:00 p.m. in room 159 Kilgore Hall. All Forestry Students wishing to join the club are urged to attend.

Attention: The freshman and sophomore class pictures for the Pinetum will be taken at 12:00 noon Wednesday, March 30, at the east end of Kilgore Hall. Please plan to be present.

The AG Council presents Stunt Night at the College Union Theater on Tuesday, March 29th at 7 p.m.

On Tuesday March 29, at 7:30 p.m. there will be a meeting of A.S.C.E. The program will be a movie entitled "Man With A Thousand Hands." It is the story of the construction of a hydro-electric dam where the course of a river had to be changed.

The public is cordially invited to attend.

AFROTC Men

Reassigned

Captains John B. Fink and Richard L. Carroll, of the Air Force ROTC at State College, have received reassignments from Headquarters Air Force ROTC. Both men have been assigned to Air Training Command.

The officers will have completed three years of duty at State College at the end of this semester, it was reported today by Colonel Robert C. Paul, Professor of Air Science. The two captains were Assistant Professors of Air Science.

State Fraternities Give 100% Support To 'Fund' Campaign

The fraternities of N. C. State, acting through their governing body, the Interfraternity Council, demonstrated their full-fledged support of the Campus Chest Drive by donating one dollar for every fraternity member, or approximately \$900 to the campaign. Thus each fraternity starts the drive with a 100% contribution.

In addition to this, each fraternity is conducting solicitations within its own house in competition for the coveted Campus Chest Trophy. In making its decision to give, the IFC, according to Chest Drive Chairman Jim Greiner, "hopes to instill in both dormitory and off campus students a desire to give also, and by giving, to help others."

"I am overwhelmed," stated Greiner; "I never cease to wonder at the marvelous spirit of the fraternities on this campus. I have no doubt that if this spirit prevails throughout the campus, we will reach our goal of one dollar per accessible student."

State Instructor Killed In Crash

Clarence Bailey Bomar, an instructor in Engineering Graphics at State, was one of the party of four which perished in the crash of an Air Force plane in the Allegheny Mountains last Tuesday.

The wreckage of the Air Force C45 was first discovered by a searching helicopter crew late Wednesday. Early efforts to reach the burned plane were turned back by waist-deep snow drifts.

The twin-engined aircraft left from Florence, S. C. Tuesday on a flight to Denver, Colo., the site of an aviation conference the three men and one woman

were attending. Last contact with the plane was at 5:30 p.m., when the pilot radioed that he was having trouble with the engines and that ice was forming on the wings.

The pilot of the craft was Capt. George Barbour, of Florence. Other passengers were Mrs. Elizabeth D. Tucker, of Richmond, Va.; Dr. Monroe L. Hatch, of Sumter, S. C., and Bomar.

In addition to his position on the State College staff, Bomar was education director for the North Carolina Civil Air Patrol and the advisor to the State College Veterans' Association.

Annual Textile Engr. Conference Begins On State Campus Thursday

Engineering advances in textile manufacturing and textile improvements that can aid the engineer will be the dual themes of the third annual Textile Engineering Conference in Raleigh, March 31-April 1. The conference is sponsored by The American Society of Mechanical Engineers.

Among the subjects scheduled for presentation at the meeting on the State College campus are: design of treatment plants, natural gas in the textile industry, modern trends in the production of bulked yarns, direct spinning, textile processes, automation and preventive maintenance.

The opening session on Thursday morning will feature papers by E. C. Hubbard, of Raleigh, and J. L. Brown Jr., of Kansas. The two men will join with C. W. Mengel, also of Raleigh, in presenting a panel discussion, "Engineering Aspects in Design of Treatment Plants." The chairman for the session is Lee Harrisberger, from State College.

On Thursday afternoon C. M. Asbill Jr., from the staff of the Textile School, will present "Some Observations on Textile Automation." Other papers will be given by J. Sellers, Cleveland, Ohio, and J. H. Boddie, Tallahassee, Alabama.

S G Defeats Probation Bill 'Exam Week' Proposal Tabled

By Jim Page

Last Thursday night found the State College Student Government Senators wandering around the College Union like a brood of lost chicks looking for the old mother hen. It seemed that the C. U. had cancelled the reservations that had been made for the meeting room and for some reason didn't think it was necessary to notify anyone to that effect. As a result there was mass confusion till Vice-President Cooke talked someone into letting the Senators convene in one of the Union's rooms.

After everyone had found the new meeting room, Vice-President Bob Cooke called the meeting to order. It seemed that the minutes of the last meeting had

been left in Holladay Hall, thus they could not be read; much to the relief of the majority of the Senators.

After the preliminaries of starting the meeting were over, President Knox gave his report. President Knox reported that he was very pleased with the work of all of the State College delegates to the State Student Legislature, which was held in Raleigh last week.

Ben Kittrell, chairman of the Budgetary and Finance Committee, presented a bill which would give \$100 to the YMCA for the purpose of sending John P. Reuer as an exchange student to Russia. G. W. Garrison was present to answer all of the questions which were raised by the senators in regard to the

money requested by the YMCA. After Mr. Garrison had cleared up all matters concerning the bill, the Legislature promptly voted to give the money to the "Y".

Ed Woods, chairman of the Rules Committee, presented the resignation of James O. Groce, Robert H. Best, and William May to the group. The resignations were approved at once.

The next item on the agenda was a bill presented by Roger Bone of the Investigations Committee which would provide that in the future professors would be required to hold no quizzes on the week previous to Exam week, and that they spend at least two class periods in review of the material.

Also, that no organization shall hold any meeting prior to Exam week. This bill was best around for quite a while by the Senators and it was finally decided to refer the bill back to the committee in order that a more concise wording of the bill might be drawn up.

Don Duckworth, of the Promotions Committee, in his report stated that Senator Sam Ervin will be the speaker for the annual Student Government Banquet to be held in May.

Murray Rudisill, who is doing a fine job as the chairman of the Elections Committee, made this statement when he was questioned during his report as to some of the policies of his committee. "Gentlemen, during the past few weeks I have been working my f--- off to see that this election is a success and I think that it will be." This statement pretty well sums up the entire report of the Elections Committee.

Senator John Fulton, chairman of the Academic Affairs Committee, had the bill concerning activities and academic probation removed from the table in order that some definite action might be taken on it. The bill caught much condemnation and little commendation. After the bill had been hashed around for an hour or more, it failed by a fair margin of votes because of poor wording. In order to get some different points of view on the problem, the bill was sent to the Promotions Committee for action to be taken by that committee.

Don Duckworth presented a bill to endorse the work of the C. U. Forum Committee in their forthcoming political speech to be held in the C. U. This bill passed with unanimous consent and with no debate.

At about 10:30 Vice-president Cooke adjourned the meeting for another two weeks.

Carnival Queen Pageant Starts Sat. Night In CU

The Carnival Queen Pageant will be held in the College Union Theatre on April 1, 1960, at 7:30 p.m. All contestants and their escorts are requested to be present promptly at 7 p.m., or sooner. The Pageant will be open to the public this year; therefore, it will be necessary to have a rehearsal at 7 p.m.

The contestants will appear in a bathing suit for the first part of the judging; then they will change into a party dress for the second half. During the second part of the judging, the contestants will be asked questions on topics such as current events.

The judges for this year will be Jimmy Capps from Radio Station WPTF; Ann Seltman, Program Director for Radio Station WPTF; and John Mattox, a professional photographer.

Each organization that enters a booth in the College Union Carnival may enter two contestants in the Carnival Queen Contest. Mail or bring a photograph of the contestant to the College Union Activities Office

on or before March 31. If no photograph is available, please leave the name and address of the contestant and the name of the sponsoring organization at the Activities Office by March 31.

The Queen and five finalists will be chosen Friday night, April 1. The five finalists will receive corsages, and all the contestants will be presented at the Kick-off Dance in the College Union Ballroom after the Pageant is over. The five finalists will be presented Saturday night, April 2, at 9:30 p.m., and the Queen will be crowned at that time.

The Queen will receive a trophy, an orchid, and a regalia. The sponsoring organization will receive a 15" trophy, according to Bob Adams, chairman for the event.

Gov. Candidates To Speak At CU

Young voters in the Raleigh area will have a good opportunity to meet the North Carolina Democratic gubernatorial candidates sometime in the near future. The College Union Forum Committee has received acceptance from the candidates to speak on the State College Campus, according to Don Blizzard, YDC President.

More details of the event will appear in The Technician when they are arranged.

"Information gained from these appearances could very well decide which (Democratic) candidate you will support in the upcoming primary election. Don't miss this rare opportunity to meet the candidates in person," said Blizzard.

The Democratic primary election for governor will be held on May 28.

EDITORIAL COMMENT

Commendable Line-up

During the weeks that follow, the College Union Forum Committee has scheduled an outstanding series of lectures which should be of great interest to all students, faculty members, and staff members of State College. (See story, page one.)

The series of lectures will be delivered by the four candidates in the North Carolina Democratic gubernatorial primary on May 28—I. Beverly Lake, John Larkins, Terry Sanford, and Malcolm Seawell.

Approximately half the students here at State College will be eligible to vote in the primary. Since most of them will be relatively new to the game of politics on this large scale, a series such as the one planned can serve to clear up many misconceptions that may exist concerning the issues that are currently being considered by each of the candidates.

These men will, no doubt, attune their speeches to the general college atmosphere and feelings. But this factor will not necessarily make their lectures ones of little consequence. All of these four men realize that they stand to either gain or lose a great deal when they come to this campus, and therefore, they will surely not take the engagement lightly. From students alone, there are potentially close to two thousand votes, and such a block means much in a state that often assumes a nonchalant attitude towards voting and its responsibilities.

The Forum Committee of the College Union must be commended for initiating such a worthwhile project as this one. We young people—the college students—of this state and nation are now being looked to to rekindle the spark of awareness that has almost flickered out during the maddening pace in which we live today. A series such as this one can do much to make this hope be realized. It is simply our responsibility to see that it happens that way.

Dormitory Drivel

SLIME FROM SYME
By Larry Wright

I have a vast and powerful kingdom. My influence is known far and wide. I have millions of loyal subjects. I am King Alcohol. There are, however, a few rebels left. I am trying to win them over, and I'll never give up.

Although my kingdom is very large and influential, I am still trying to expand. Last year I spent 325 million dollars for expansion (advertising). This produced results because 250 thousand more people joined our 4.5 million slaves (alcoholics).

One of the rebels is the Department of Motor Vehicles. They don't like me because they claim I cause accidents. Let's look at the records. The records show that I am responsible for 25 to 30 per cent of all highway accidents. This isn't so bad, but here is something else. Of all fatal accidents, 50 per cent were caused by people under my influence.

Ah, here is something that will please my loyal subjects. The Department of Motor Vehicles has been set back again by our State Legislature. A bill for state-wide use of valid tests for intoxication has been defeated again. If this bill had passed, many more of my people

would lose their driving privileges. At present, 700 people each month lose their driver's license because of me.

My people in Sweden have a hard time. They are promptly jailed if even a trace of alcohol is in their blood stream. (Perhaps this is one nation that realizes how dangerous I am.)

Let's dig deeper into the records. The Department of Motor Vehicles contends that the most dangerous driver on the road is the one who has just had a few drinks. This is the driver who thinks that "one for the road" will help him. It does. It helps to slow down his reactions. It helps to make his thinking fuzzy. It helps him to take chances that he would not ordinarily take. I am glad many of my loyal subjects do not believe this. I also hope that they do not believe that drinking drivers caused 10,000 accidents and killed 350 people in North Carolina in 1958. In another state, drinking drivers cause 50 million dollars worth of damage each year.

Another rebel, a judge from Louisville, states that drinking causes about 90 per cent of the divorce cases to be filed.

Still another rebel points out that 80 to 90 per cent of the men and women in prison name me as the cause of their downfall.

I am the fourth leading cause for deaths (excepting accidents), ranked behind heart disease, cancer, and tuberculosis. These other three leading killers are being fought, and attempts are made to stamp them out, but I am allowed to promote others to come under my control and influence.

Recently, a 29-year old man shot and killed two young girls. He said that before the shooting, he had been drinking a lot.

A 20-year old gun collector who had been drinking, shot and killed his father and another man besides wounding three other people.

I am thankful that the people of the United States of America do not realize how dangerous I really am. They continue to allow me to destroy their morals, homes, property, and lives.

Letter to the Editor

Writer Strikes Out At AFROTC

To the Editor of The Technician:

It seems that the proverbial "fuzzy bear" was loosed in all his furry fury last Wednesday night in the Textile Auditorium. Only one thing was missing—the bear!! His place was adequately filled, however, by the two scholarly-looking Air Science II professors (?) who watched the proceedings like two hungry vultures circling over a soon-to-be carcass.

The quizzes would be bad enough if they came from the stupidly-written text books, but when they come from the wild imaginations of the professors — After the shafts were distributed, the watch birds had another system for keeping the students from passing the quiz. Two of the professors stationed themselves just outside one of the doors and started jabbering like two Greek Mynah birds, thus keeping the frustrated students from concentrating on a system for guessing some of the answers. However, I'm afraid that a two-headed coin and a dozen good luck charms wouldn't have been of much help on this masterpiece of gobbledygook.

Some of the more intelligent professors must have spent most of their leisure time with an international dictionary trying to find the right terms in which to express the very important questions of the quiz. Perhaps the professor who is working on his thesis undertook the task as a project. Maybe this same pro-

fessor will be graded on his thesis the same way that he graded his Air Science classes last semester! I understand that at least one of his classes was without a "B" and the rest of the grades weren't "A's" either.

Another of the professors seems to have a little dare-devil or stunt-man in him. Perhaps it is a combination of the two, as was so adequately demonstrated by his "brave" buzzing of the coliseum parking lot in the L-17.

I am not the only one who feels that the Air Science Department is not qualified to teach the students at State any-

thing. In fact, I believe that many of the students here could teach the Air Science professors more Air Science than the professors know. I suppose the reason that the professors didn't want to answer questions during the quiz was that they were afraid that they couldn't pronounce some of the words which they had previously looked up and forgotten.

The general attitude of the students after the quiz was that they would never again open an Air Science textbook, and "Advanced Air Science! What's that?!"

Name Withheld by Request

"B. C." Goes To College

There's a caveman at large in the comic pages of many newspapers named "B. C." The caveman is named "B. C.", not the newspapers. He has an I. Q. of 47, putting him in the freshman norm, and an aptitude for teaching, according to tests in the Registrars Office.

Antedating Homer by some few years, B. C. is in a position to give vital first-hand information on the eolithic beginnings of civilization, culture and all that jazz, hitherto a blank page in history.

Hence, B. C. Goes to College!, which we publish in these hallowed pages for the first time. Study it well, students, there's a rumor on the campus that credit will be given.

"B. C." is the creation of one Johnny Hart who never went

to college and, consequently, is an unbiased expert. The comic strip, now two years old, is featured in over 100 newspapers through the agency of the New York Herald Tribune Syndicate.

B.C.'s way-out humor and stereo sound effects, e.g., "Gronk!" and "Zot!", have made him the latest rage among us high-type collegiates. The first "B.C." book is being published by Funk & Wagnalls on April 1, an April Fool's joke with no butts, everybody being in on it. It's called "Hey, B. C.!"

One mystery remains: what do the initials of B.C.'s name stand for? A chap in the office claims the full name is Bobo Catepel, but this character's on warning from the Dean, which shows you how much he knows.

Sigma Chi Captures Swimming Meet

The Sigma Chi fraternity captured the fraternity division swimming championship last Thursday night. They had no trouble at all in repeating as swimming champs.

Sigma Alpha Epsilon finished second to the Sigs. The SAEs had 11 meet points, as compared to the 19 that the Sigs had. PKT, Sigma Pi and Kappa Sigma followed the first two finishers.

In the dormitory division it

was a different story, as three dormitories tied for first place. The dormitories that tied were Berry, Bagwell, and Bragaw North. Each of these dorms had 17 meet points. Becton #1 and Owen #1 tied for fourth with 10 meet points.

64 boys participated in the dormitory meet, while 113 participated in the fraternity meet.

AGR and LCA did not have any entries in the fraternity division, while Becton #2, Owen

#2, Syme, Vetville, and WG4 did not participate among the dormitories.

With the completion of the swimming meet, the winter intramural sports program is now history. Only the spring sports program remains. Who will win the trophies this year? Its a sure bet who will win it in the fraternity division, but who will win it in the close dormitory race? The Sigma Chi's have it hands down in the fraternity division, but Bragaw North, Bragaw South, Berry, Watauga, and Becton all have good chances of capturing the dormitory title for 1960.

Gibson Pitches No-Hitter; Michigan State Next

The Wolfpack opened its 1960 baseball season last week by splitting a doubleheader with Dartmouth and losing to Hampden? Sydney Saturday, 10-7.

The lone victory of the week came when Joel Gibson, a Wilmington Junior College transfer, threw a no-hitter at Dartmouth. Gibson completely hand-cuffed the Dartmouth nine, as he allowed only one runner to get as far as second base. He faced only 21 batters.

In the opening game of the doubleheader, Wilson Carruther's error in the first inning, on a potential double play grounder, led to two unearned runs off the tall righthander from Greensboro. The only other run that Dartmouth was able to get off of Carruthers came on a disputed home run by Joe Marrone. The ball rolled between the posts, and left fielder Jim Lancaster relayed the ball to the infield in time to hold Marrone to a triple. After some discussion, the umpires ruled that Marrone's hit was a home

run, which enabled Dartmouth to defeat the Pack, 3-2. Carruthers allowed only the visitors only five hits.

In the second game, Gibson aided his own cause by driving in two runs in the third inning, which was all he needed for the victory. Latham Smith had extra-base hit in the nightcap, a double.

In the game with Hampden-Sydney Saturday, the inability of the Wolfpack hurlers to get the ball over the plate led to the defeat. The Wolfpack outthit the Tigers 10-9, but they were unable to get the hits at the right time. There, also, were many line drives hit off the bats off the Wolfpack players that ended up in the hands of some fielder.

The hitting star of the game was State's Jimmy Cox, who hit two long homers over the fence. He also added a single to have three-for-four for the afternoon.

The losing pitcher for the Wolfpack was the starter, Jim Overby.

The Wolfpack has three games scheduled for this week. All the games are home games and will be played on the diamond behind the infirmary.

The schedule has Michigan State here tomorrow, Yale, Thursday, and Princeton, Friday.

The Wolfpack's first Atlantic Coast Conference tilt will be with Maryland here, a week from this Thursday.

The Wolfpack promises to be a strong team this year, if they can get the hitting. Time will tell.

Reds Defeat Whites 16-14; Moore Sparkles on Offense

A field goal in the final period by Jake Shaffer was the big factor that led the White team to a 16-14 win over the Red team in the annual spring intrasquad game in Riddick Stadium Saturday afternoon.

After jumping into a 13-0 lead the White team fell behind 14-13 late in the third stanza. But in the end it was the boot by Shaffer that told the story of the win for the White team.

Tom Dellinger of the Red team and Roger Moore of the White eleven were real spark plugs in each of their team's attack.

The White team got the ball midway in the first period when freshman Bill Kriger intercepted a Red aerial on the Red 39. Moore bulled his way to the three yard marker and an off-side penalty set the ball back to the eight. Gerry Mancini then

hit Randy Harrell with an aerial that put the White in a 6-0 lead. Shaffer added the point after.

Later on the White team got the ball on their own 20 yard line and drove 80 yards for the touchdown, with Moore covering 53 yards all by himself and moving the final six yards for the score. An attempted pass for the extra point failed. The White team held a 13-0 lead, but only for a short time.

The Reds got the ball on their own 35 and moved to the White 40 on a pass interference penalty. Dellinger decoyed the White secondary into moving in closer by hitting on several quick jump passes. Dellinger then heaved a pass to Claude Gibson on the goal line for the score. Ed Francis added the point after to cut the lead to just six points.

Later on in the third period Kent Morton recovered a fumble on the White 43 yard line. After driving to the White 19, Dellinger hit end Jim Tapp on the three yard line. From here Wolfer took the ball into the end zone for the score. Dellinger hit Kroll for the all-important extra point that put the Red team into a 14-13 lead.

The White team took the ball on their own 25 and moved it to the Red 4 on the running of Moore before the Red team put up the brick wall. Shaffer then booted the three pointer.

Roman Gabriel did not play in the game Saturday. Coach Edwards felt that rather than risk injury to his star quarterback, he would hold him out of the game.

North Carolina State Student Affairs Bulletin

ORIENTATION GROUP LEADERS—Letters of Appointment have been mailed to all former group leaders and to rising seniors. Letters concerning interviews have been mailed to all others. Instructions in these letters state that interviews for those required to have them will be conducted at the Student Government Offices in the College Union Building at 6:30 p.m. to 10:00 p.m. on March 30 and 31. Interviews average less than fifteen minutes.

JEWISH RELIGIOUS HOLY DAYS—In accordance with college policy, Jewish students will be granted permission to be absent from class on the following dates for the observance of Passover: April 12-13, 1960.

UPPERCLASSMEN COMPETING FOR SCHOLARSHIPS FOR 1960-61 are reminded that completed application forms should be filed at the Financial Aid Office, 507 Holladay Hall, by Tuesday, April 5th. These applications will receive consideration also for grants-in-aid and long-term loans.

SELECTIVE SERVICE COLLEGE QUALIFICATION TEST applications must be submitted by Thursday, April 7th, for the test administration of April 28th. Obtain application forms from any Selective Service Local Board.

JOSE GRECO AND HIS SPANISH DANCERS will appear at the Reynolds Coliseum on Thursday evening, March 31 at 8:00 p.m. under the auspices of "Friends of the College, Inc." Admission free to all State College students and their dates. Just show your ID Card at the right front door. **GET A DATE AND GO.**

CAUTION: The Chairman of the Campus Code Board, in a letter to the Technician recently, warns that persons found in violation of state, city and college regulations concerning the use and possession of fireworks will

be dealt with more severely in the future, and those found guilty of setting a fire of any nature in a dormitory or other college building are liable to suspension or permanent dismissal. This timely warning should be sufficient to eliminate such childish and immature acts on the part of State College men.

CAMPUS CHEST SOLICITORS—The second meeting of the Campus Chest solicitors will be held Tuesday, March 29 at 9:00 p.m. in Williams Hall Auditorium. It is essential that all solicitors be present at this meeting. The dinner meeting will be held Wednesday, March 30 at 6:15 p.m. in the Grill Room of the Cafeteria. Each person will go through the line and take his tray to the Grill Room.

PHYSICS SEMINAR: Dr. William H. Crew, Assistant Director of Scientific Personnel, Los Alamos Scientific Laboratory, will speak at a special Physics seminar on Tuesday, March 29 at 8:00 p.m. in Riddick 11. Dr. Crew will be speaking about the research work at the Laboratory. All interested persons are cordially invited to attend.

UNIVERSITY COMPUTATION CENTER DEDICATION EXERCISES—March 30, 1960. Memorial Auditorium, Chapel Hill, 2:00-4:00 p.m. Tours of the Computation Center, beginning at 10:00 a.m. Faculty and students of the three units of the Consolidated University are cordially invited.

DORMITORY RESIDENTS—Your parents have been instructed by the U. S. Census Bureau not to list you on their census report. Your dormitory manager should have delivered a census form to you by this time. If you have not received your form, ask your dormitory manager for it. Complete and return it to the manager as soon as possible as they have to turn in the completed forms by 4:30 p.m. Thursday, March 31.

NBC To Aid Public Enlightenment

Beginning Monday, March 28, America, its people and its institutions through a clear and honest appraisal of their strength, their weaknesses and their probable future.

The Fund for Adult Education and the National Broadcasting Company will jointly cooperate in the presentation of a series of sixteen 90-minute radio broadcasts designed to improve public understanding of how our society works so that more people may be stimulated to play a role in shaping its future. The series will be broadcast on WPTF (680 AM and 94.7 FM), Monday through Thursday evenings, beginning at 8:30.

IMAGE AMERICA will enlist the best minds in this country and abroad in an effort to reveal the true character of

The most beautiful new look in diamonds

Evening Star

ENGAGEMENT RINGS

You have to see it to believe it! Looks like a diamond star floating on her finger. And it makes any diamond look bigger, brighter, more beautiful. Don't even think of any other engagement ring until you see the dazzling "Evening Star" collection at your Artcarved jeweler's.

And, for real proof of value, ask your jeweler about Artcarved's famous nationwide Permanent Value Plan. It gives you the right to apply your ring's full current retail price, should you ever desire to, toward a larger Artcarved diamond—any time—at any of the thousands of Artcarved jewelers throughout the country.

IMPORTANT. Every genuine "Evening Star" diamond is guaranteed in writing, for color... cut... clarity... and carat weight and only Artcarved stamps the exact diamond weight in the ring. It's a genuine "Evening Star" only when the name is stamped in the ring.

Beloved by brides for more than one hundred years (1850-1960)

"AN EMBARRASSMENT OF RICHES"

Twinkly, lovable old Dr. Wagstaff Sigafos, head of chemistry at the Upper Rhode Island College of Science and Palmistry, cares naught for glory and wealth. All he cares about is to work in his laboratory, to play Mozart quartets with a few cronies, to smoke a good Marlboro, and to throw sticks for his faithful dog Trey to fetch.

So when, after years of patient research, Dr. Sigafos discovered Reverso, a shaving cream which causes whiskers to grow inward instead of outward, thus enabling a man to bite off his beard instead of shaving it, it never even crossed his mind that he had come upon a key to fame and riches; he simply assigned all his royalties from Reverso to the college and went on with his quiet life of working in the laboratory, playing Mozart quartets, smoking good Marlboros and throwing sticks for his faithful dog Trey. (Trey, incidentally, had died some years earlier but habit is a strong thing and Dr. Sigafos to this day continues to throw sticks.)

As everyone knows, Reverso turned out to be a madly successful shaving cream. Royalties in the first month amounted to \$290,000, which came in mighty handy, believe you me, because the college had long been postponing some urgently needed repairs—a lightning rod for the men's dormitory, new hoops for the basketball court, leather patches for the chess team's elbows and a penwiper for the Director of Admissions.

Royalties in the first month amounted to \$290,000.

In the second month royalties amounted to an even million dollars and the college bought Marlboro cigarettes for all students and faculty members. It is interesting that the college chose Marlboro cigarettes though they could well have afforded more expensive brands. The reason is simply this: you can pay more for a cigarette but you can't get a better flavor, a better smoke. If you think flavor went out when filters came in, try a Marlboro. The filter cigarette with the unfiltered taste. You, too, can smoke like a millionaire at a cost which does no violence to the slimmest of budgets. Marlboros come in soft pack or flip-top box and can be found at any tobacco counter. Millionaires can be found on yachts.

But I digress. We were speaking of the royalties from Reverso which continue to accrue at an astonishing rate—now in excess of one million dollars per week. The college is doing all it can to spend the money; the student-faculty ratio which used to be thirty students to one teacher is now thirty teachers to one student; the Gulf Stream has been purchased for the Department of Marine Biology; the Dean of Women has been gold-plated.

But money does not buy happiness, especially in the college world. Poverty and ivy—that is the academic life—not power and pelf. The Upper Rhode Island College of Science and Palmistry is frankly embarrassed by all this wealth, but I am pleased to report that the trustees are not taking their calamity lying down. Last week they earmarked all royalties for a crash research program headed by Dr. Wagstaff Sigafos to develop a whisker which is resistant to Reverso. Let us all join in wishing the old gentle man success.

© 1960 Max Shulman

The sponsors of this column can't offer you money but they can offer you fine smoking flavor—with or without filter. If you favor filters try a Marlboro. If non-filters are your pleasure pick a Philip Morris.

'Holiday On Ice' To Begin April 12

"Holiday on Ice," the big American ice show that shattered Moscow attendance records last year, will be celebrating its 15th anniversary when the production is staged in the William Neal Reynolds Coliseum at North Carolina State College April 13-16.

Helping to make the show a top-flight attraction here will be lovely Jinx Clark, whose skating artistry is known throughout the world.

"The Legend of the Black Pearl," the featured production number, is a perfect vehicle for the heralded talents of Miss Clark. Her role as the Rare Black Pearl gives Jinx opportunity to show solo magnificence and also adagio-daring as she joins with Alfredo Mendoza.

"Holiday on Ice" will open its five-day stand in the State Col-

lege Coliseum Tuesday, April 12, at 8:30 p.m. In addition, there will be evening shows Wednesday, April 13, through Saturday, April 16, at 8:30 p.m. and matinee performances Friday, April 15, at 3:30 p.m. and on Saturday, April 16, at 2:30 p.m.
