## Engineers' Council Head Named Outstanding Senior

Bill Foss, president of the Engineers' Council, was named the Outstanding Member of the Senior Class Saturday night at the annual Junior-Senior Dance, held in the State College Union. Student Government President Eddie Knox and Jim Moore, Editor of The Technician, were the other two finalists in the voting for the top award.

Sandy Matthews, vice president of the Y. M. C. A., made the presentation to Foss as several hundred juniors, seniors, and their dates looked on. The award came just before the presentation of the figure for the dance, which was made by Jimmy Capps, local radio announcer.

Foss, a graduating senior in Industrial Engineering, has had a varied career here at State College. As a junior, he served as vice president of the Engineers' Council and president of A.I.E. He was also chairman of both the Engineers' Ball Committee and the St. Patrick's Dance Committee. This year he has served outstandingly as president of the Engineers' Council.

In addition to these offices,

## Alpha Phi Omega Installs Officers For Coming Year

Iota Lambda chapter of Alpha Phi Omega, the only national fraternity on the campus of N. C. State College dedicated to service, on Tuesday night, May 10, 1960, formally installed its newly elected officers, who will serve until November, 1960.

Installed were Tom Lane of Butner, President; Pete Gernert of Andrews, Vice-president in charge of Service; Fred Alligood of Washington, Vice-president in charge of Pledges; Steve Gentry of Arden, Recording Secretary; George Mann of Wilmington, Corresponding Secretary; Ted Hogan of Graham, Alumni Secretary; Jim Turner of Dunn Loring, Va., Treasurer; Robert Gresham of Oxford, Sgt.-at-Arms; Dave Gilmer of Bristol, Tenn., Historian; and Prof. A. C. Hayes as Advisor.

April 26, 1960, was the date for the brotherhood induction for the following pledges who completed the requirements for membership: Dale Harrison of Spruce Pine, Jim Gilbert of Reidsville, Steve Wilson of Newton, Bill Moser of Greensboro, John Gaither of Charlotte, Jack Boutknight of Asheville, Mack Passmore of Gastonia, Ray Winton of Raleigh, Bruce Hamrick of Shelby, Eddy Stubbins of Greensboro, Lou Grimes of Cary, and Jim Spotts of Atlanta, Ga.

The Campus Chest Drive was one of the big projects taken on by members of Alpha Phi Omega, as well as the many smaller projects completed "behind the scene" by individual brothers, which makes this campus a better one for all students.

Foss is also a member of Golden Chain Senior Honorary Fraternity and Blue Key Honorary Fraternity.

The Outstanding Senior Award is chosen annually by the members of Blue Key. Nominations are made by members of the faculty, the student body, and Blue Key. The Blue Key members then vote on the entire field and narrow the choice of selection down to three seniors. Again they vote, this time by secret ballot, and a winner is named. This winner is kept secret by the chairman of the Blue Key Awards Committee until the night of the dance.

## Sigma Xi Society Plans Initiation

Dr. Hubert N. Alyea will be the principal speaker when the North Carolina State College Chapter of the Society of Sigma Xi has its annual initiation banquet on May 25.

Dr. Alyea, who is a chemist at Princeton University, will relate a number of lucky accidental discoveries which led to startling progress in the fields of plastics, antibiotics and nuclear energy.

Sigma Xi is an organization of people in science devoted to research. In addition to accepting new members at the banquet, the society will also present awards to four young researchers at State College.

Dr. C. J. Nusbaum, William Neal Reynolds professor of plant pathology, is chapter president.

## Campus Crier

The CU Photography Committee is sponsoring a tour of a commercial color printing photo lab Wednesday, May 18, at 7:30 p.m. All interested persons meet in the CU theater at 7 p.m.

"Beyond Mombassa," a movie starring Cornel Wilde, Donna Reed, and Ron Randall, will be shown in the CU theater Monday, May 16, at 8 p.m. The movie is sponsored by the CU International Committee.

Everyone who has an invitation to the Student Government banquet should reply by Tuesday night to Jim Page, TE 2-0916.

Any student attending summer school interested in rooming at the Phi Epsilon Pi house contact Gary Rosen at VA 8-3347. The Phi Ep house is located at 130 Hawthorne Road.

### —NOTICE—

Attention faculty members from the school of Engineering: Don't forget the very important meeting scheduled for Wednesday, May 18, at 4:10 p.m. in Riddick 242.

## Twelve New Links Selected For Golden Chain Thursday

Several hundred State College students witnessed the 34th annual Golden Chain tapping ceremony in the William Neal Reynolds Coliseum Thursday (May 12) at 12 noon.

This year's ceremony began with a medley by the State College Symphonic Band under the direction of Robert A. Barnes, director of music at the college.

As the band played in the background, approximately 100 prospective Golden Chain members filed onto the Coliseum floor. Sitting Indian fashion, they formed a large circle around a sun dial that had been erected in the center of the arena.

This year's Golden Chain members, clad in white robes

and yellow capes with a gold chain link suspended from around their necks by a red and gold ribbon, entered the arena in single file. They marched around the entire circle and then formed a straight line between the band and the circle.

William Norman Sharpe, Jr., of Fuquay Springs, arch regent of the society, stepped into the center of the circle and welcomed the visitors to the ceremony.

The audience sang the State College Alma Mater under the leadership of J. Perry Watson, assistant director of music.

Dr. Fred West, chaplain to State College from the Disciples of Christ Church in Raleigh, presented the invocation.

Consecutively each member of the Golden Chain slowly marched around the seated circle and placed the ribbon holding the gold chain link around the neck of one of the seated members.

The new member would then rise and go forward to the center of the circle while the member who had tapped him read the qualifications that allowed him to become a member.

The new members are: James Richard Currie of Larchmont,

N. Y., industrial engineering; Thomas Herbert Eck of Savannah, Ga., pulp and paper technology; Donald Davis Blizzard of Richlands, forest management; Frank S. Madren of Ossepe, electrical engineering; Kent Emanuel Watson of Rodanthe, professional student in landscape architecture; Charles Edwin Russell of Jamesville, agricultural education.

James Robert Cooke of Huntersville, agricultural engineering; Roger Mzingo of Snow Hill, agricultural education; Lowery Alton Daniels of Driver, Va., industrial engineering; Joel W. Ray of Asheville, textiles; Samuel Calvin Matthews of Raleigh, engineering math; Ronald Wilson Shearon of Rolesville, agricultural education.

Henry Bowers, assistant director of student activities; Dr. Kingston Johns, assistant director of counseling; and Robert A. Barnes, director of music, were elected honorary members of the society.

Golden Chain, senior honor society, was established at State College April 24, 1926. The organization was proposed by a student through the college newspaper. With the help of several members of the adminis-

tration, eighteen outstanding rising-seniors were chosen. Out of the chosen eighteen, twelve were selected to represent the class. This has been the policy ever since.

Golden Chain was adopted as the name of the organization because it "signified linking together the men who were outstanding members of this society during their college days."

The object of the organization is "to promote better citizenship at N. C. State College by fostering existing traditions, and creating new traditions which shall tend to instill the highest ideals of life by the promotion of higher scholarship, cleaner athletics, clearer self-expression, and a greater fidelity to duty in all campus organizations."

The out-going Golden Chain members are William Norman Sharpe, Jr., of Fuquay Springs, arch regent; John David Fulton of Norton, Va., regent; Gilbert Ray Alligood, of Washington, N. C., secretary; Charles Lee (Scooper) Jordan, III, of Laurinburg, treasurer.

Larry Ben Baxter of Cherryville; John Phillips Carlton of Pinetops; Robert Lee Davis of Salisbury; William Roy Foss of Raleigh; Benjamin Upchurch Kittrell of Kittrell; H. Eddie Knox of Davidson; Gordon Norman Owen, Jr., of Aruba, NWI; and David Walter Thomas, Jr. of Greenville.

The new members will meet Monday (May 16) at 9 p.m. in the E. S. King Religious Center to elect officers for the 1960-61 year.

## Dunlap Selected Textile 'Man Of Year'

G. H. Dunlap, director of the Placement Bureau and chairman of the Scholarship Committee in North Carolina State College's School of Textiles since 1943, was presented the "Man of the Year" award by the college chapter of Phi Psi, national honorary textile fraternity, here tonight.

president of Erwin Mills; the late Herman Cone of Greensboro; J. C. Cowan of Burlington Industries; Albert G. Myers, president of Textiles, Inc., Gastonia; Halbert W. Jones, president, Waverly Mills, Laurinburg; Charles H. Reynolds, vice president, Spindale Mills; William G. Alligood of American & Efrid Mills, Inc., Mt. Holly; and other textile industry leaders.

In honoring Director Dunlap, Phi Psi praised him for "noteworthy contributions to the textile industry and textile education."

Dunlap is a native of Rock Hill, S. C., and attended public schools there.

After receiving his B. S. degree in textiles from Clemson College, he took graduate work at the University of North Carolina, Massachusetts Institute of Technology and Pennsylvania State College.

He obtained practical manufacturing experience in two South Carolina cotton mills, and spent the next 13 years as a member of the Clemson textile school faculty.

In 1941, Dunlap was appointed research supervisor of the Southern Textile Association, and in this capacity visited hundreds of mills in the Southeast. Among the research projects which he completed and in this capacity visited hundreds of mills in the Southeast. Among the research projects which he completed and in this capacity visited hundreds of mills in the Southeast. Among the research projects which he completed and in this capacity visited hundreds of mills in the Southeast.

## Grange Master

## Grange Leader To Address Ag Council

Harry B. Caldwell, Master of the North Carolina Grange, will speak to the Ag Council at 7:00 p.m. on Thursday, May 19. This will be a joint meeting of all departmental clubs in the School of Agriculture, and the last meeting of the school year.

Mr. Caldwell will address the Council on "The Relationship of the Grange and Other Farm Organizations to the 1960 Agricultural Graduate."

A more qualified person could hardly have been chosen to speak on this particular subject. Caldwell, who lives in Greensboro, has headed the N. C. Grange since 1937. He has served on USDA's Agricultural Advisory Committee; was a delegate to the International Food and Agricultural Program Conference in Rome in 1953; and holds, or has held numerous offices in North Carolina agricultural organizations, the N. C. Advisory Budget Commission and the School of Agriculture Advisory Council.

All students in the School of Agriculture and Department of Agricultural Education are invited to attend this joint meeting. Mr. Caldwell's talk will surely be of interest to the agricultural student who wants to stay informed about his profession.

G. H. Dunlap

Presentation of the award to Dunlap was made at a banquet at the Charcoal Steak House. Dean of the School of Textiles, Dr. Malcolm E. Campbell made the presentation.

The award has been presented annually since 1946. The first award went to the late Dr. Thomas Nelson, former dean of the college's School of Textiles.

Other award recipients have been Governor Hodges; the late David Clark of Charlotte; William H. Ruffin of Durham,

## Thirteen Students Awarded Grants From Atom Group

Thirteen North Carolina State College engineering students have been awarded Atomic Energy Commission Special Fellowships in Nuclear Science and Engineering for the 1960-61 academic year.

Enrolled in the college's Department of Physics, the students were among 231 engineering students from 39 states, the District of Columbia, and Puerto Rico selected to participate in the Commission's fellowship program administered by the Oak Ridge Institute of Nuclear Studies.

The award winners are Norman Earl Banks of New Bern, Carrol Reid Bingham of Lenoir, James William Byrd of Mt. Olive, Henry Lee Fisher, Jr. of Mt. Pleasant, Hyatt McDonald Gibbs of North Wilkesboro, Gerald Howard Katzin, of Winston-Salem, Bobby Eugene Leonard of Raleigh, James Douglas McElroy of Sherman, Texas, John Irvin Paulk of Pulaski, Tenn., Lawrence Albright Mink of Winston-Salem, Richard Frederick Smale, III, of Pottstown, Pa., James Elwyn Watson, Jr., of Red Springs, and William Howard Wilkie of Skyland.

EDITORIAL COMMENT

# Sign of Regression

There are many changes that State College needs in solving its traffic situation on campus. Instead of listing all of these problems, this writer will just explore one of the many problems that he would like to see solved by next fall.

The problem is the intersection at Dan Allen Drive and Dunn Avenue. There is presently a "four-way stop sign" for all traffic traveling toward the busy intersection.

Who has the right of way at a "four-way stop" intersection? The car that arrives first naturally has the right of way. However, how many drivers are courteous enough to admit that the other fellow arrived at the intersection first?

The traffic problem at this intersection arises in the morning when many of the students are traveling to the Coliseum en route to their morning classes, and when they leave school in the afternoon around 5 o'clock. Many of the workers in Raleigh use Dan Allen Drive going to and from work which also adds to the problem.

This intersection should definitely have a traffic light. The reason for wanting this traffic light is that after an individual has made a complete stop at this intersection, he must have a quick eye and a fast foot to make it across the intersection.

A traffic light would also help solve the problem of crossing the intersection for the student that walks to class from Bragaw Dormitory. It is very difficult for a student to cross this intersection during the busiest times of the day. He either has to jaywalk or run across the intersection. Jaywalking is against the law and is being enforced in Raleigh now.

The Traffic Committee has made a number of both practical and practicable suggestions in the past which have led to the improvement of many of the traffic problems on campus.

Once again we must call on the Traffic Committee. A study of this dangerous intersection could easily prevent an injury to one of the students at State College or one of the residents of Raleigh. Removing the danger from this intersection would be doing State College and the residents of Raleigh a real service.

-JB

## Greeks On Campus

By Bill Marley

IFC news on rush-Orientation week tells of pretty well solidified plans. The rush functions will begin on Wednesday, September 14, with visitation taking place through Friday. Parties will be held Friday and Saturday night with a midnight curfew.

The first function on Wednesday afternoon will be open house held at all 18 fraternities. The whole schedule appears to be favorable to fraternities, since most of the freshman have their longer orientation meetings on the previous Monday and Tuesday.

The Alpha Gamma Rho chapter has lined up a beach party at Myrtle Beach this coming weekend. They will stay at the Poinsetta Inn and party around with the other fortunates who are down from Friday through Sunday.

The Sig Ep's threw their annual blast at Truby's this past week-end. Starting at 2:00 p.m. they ate a barbecue supper and then "picked" it up to the music of the "Hot Nuts" that night. They also have plans for a beach party starting the middle of exam week at Crescent Beach, S. C., which will be mainly for the graduating seniors.

### -Notice-

The Technician plans to publish three issues this week and next week. All articles for Wednesday night's issue are due by 7:00 p.m. Tuesday night, and all issues for Thursday night's issue are due by 7:00 p.m. Wednesday night.

# Campus Humor By Gray

### Letter to the Editor

## Student Attacks Agromeck

To the Editor of The Technician:

Upon obtaining a copy of *The Agromeck* Tuesday, I was amazed at the numerous errors present. Of course I realize a few errors in such a large publication may possibly be legitimate, but others are inexcusable.

Realizing that the Editor-in-Chief and the Business Manager are both members of a particular group on campus along with the Administration Editor, The Organization Editor, and the Fraternity Editor, it struck me as being rather odd that a few of these mistakes were ever made.

How did it happen that the "Rush Party" photo in the FarmHouse section (p. 301), the social function photo in the Sig-

ma Pi section (p. 327), and the social function photo in the Theta Chi section (p. 331), were all taken at one particular fraternity house? Was it a coincidence that in two of these three photographs the faces of members of the Agromeck staff were clearly distinguishable?

It is my understanding that each fraternity pays a sizable sum for its two pages in this book, and that it decides what photographs will be printed in these two pages. If the occasion should arise where a fraternity does not present a candid photo for their section, is it necessary to fill in the space with a photo made in another fraternity? Would it not be more acceptable to leave the space blank or rearrange those pictures that are already there to fill in any excess space?

Of course I can mention many other errors which are very evident and which should have been detected by the staff during the proof-reading.

I realize that a great deal of work and many long hours were spent on this publication, but at the same time, the members of the staff are paid for the services rendered the students of State College.

Another question that arises in my mind concerns the amount of space used for the presentation of the staff and their sponsors as compared to that of *The Technician*.

Was the staff justified in stretching its feature photographs to ten pages while condensing those of *The Technician* to four pages?

I wish to point out to the Student Body at State that one group on campus has monopolized

ed the Agromeck staff in recent years. Is there no one at State who is interested in reaping the benefits and the satisfaction of serving on the Staff? Must the staff of the Agromeck be monopolized by one group in years to come? Won't some qualified person attempt a 'break-through' and help these men? I am sure your assistance would be appreciated.

At this time I would like to request *The Technician* to print a statement of finances of the Agromeck, including income from students and otherwise, expenses, and profits. Please also include the numbers of copies printed this year, and the payments to staff members and others, and the use of all profits.

This statement is requested in order that the Student Body may be informed.

Max Fogleman

# State Beats Deacons; Frosh Top Big Four

By Earl Mitchell

Saturday afternoon the N. C. State Wolfpack ended its 1960 baseball season with a 8-2 win over the Deacons of Wake Forest. The win gave the Wolfpack a 9-5 conference mark and a 12-8 record on the season. The Pack ended up in third place in the conference behind Carolina and Duke respectively. The State nine lost their chance to win the crown when they were defeated by Carolina on Thursday.

Carolina beat Duke Saturday by a 6-3 count to gain the ACC title. The Tar Heels had an 11-3 loop mark, while the Blue Devils were in second place with a 9-4 mark. Just a half of a game separated the second place Blue Devils and the third place Wolfpack.

The Deacons scored two runs in the bottom of the ninth inning to deprive Wilson Carruthers of a shutout ball game. Going into the ninth frame Carruthers had given up only six hits and no Deacon had crossed the plate. The win gave Carruthers a 3-2 record for the season. Bob Plemmons took the setback for the Deacons to give him a 6-5 record on the season.

The Wolfpack found the key to Plemmon's offerings in the fourth inning and scored two runs on three hits and a sacrifice fly. The Pack then added another run in the fifth inning and four in the sixth inning. They concluded their scoring in the seventh inning with a lone run.

The Deacons bunched four hits together in the ninth inning to score two runs in that frame. One of these hits was a solo homer by rightfielder Jerry

Goodman. Story, Carruthers and Strickland each provided two hits in the eleven hit attack of the Wolfpack.

## FINAL ACC STANDINGS

	Conf.		All	
	W	L	W	L
Carolina	11	3	21	6
Duke	9	4	18	8
State	9	5	12	8
Clemson	7	6	12	9
Wake Forest	7	7	14	8
Maryland	5	6	7	8
South Carolina	3	11	4	18
Virginia	2	11	2	13

Here at State College, the State freshmen baseball team wrapped up the Big Four freshmen title by beating Wake Forest, 12-5. The Wolflets ended the season with an 8-2 record. The State frosh exploded for seven runs in the third inning to insure the victory.

Seven of the 13 hits that the Wolflets got came in the hot third inning that produced the seven State runs. Les Young led the State team with three hits in five trips to the plate. George Hayworth and Jerry Krecki had two hits each for State.

This year's ACC race turned into a real hot one in the last couple of weeks of the season. At the start of last week, five of the conference's eight teams were in contention for the title. One by one the five teams were cut down to two by Saturday afternoon. The Wolfpack hung in the race right until last Thursday, but Carolina slipped

Clemson finished the season in fourth place and Wake Forest was close behind in fifth place. Maryland, South Carolina and Virginia rounded out the final standings.

# Smith Places Tenth In ACC; Saigal-Hart Gain Semifinals

THE TECHNICIAN  
May 16, 1960

The North Carolina State golf and tennis teams participated in their respective ACC tournaments this past weekend. The golf team went to Durham for the tourney at the new Duke course while the netters went to Chapel Hill for the annual tennis tourney.

Bob Smith put together rounds of 73 and 81 for a 154 to tie for tenth place in the ACC links-tourney. Smith's 73 in the first round put him only three strokes off the medal pace set by Ronnie Thomas of Wake Forest. If Smith had been able to duplicate his 73 round in the final round he would have tied for third place with Peter Green of Carolina.

Other State players participating in the tourney and their scores are as follows: Al Harris, 80-82-162; James York, 80-83-163; John Isenhour, 81-82-163; David McComb, 87-79-166; Charles Stone, 92-82-174. Don Beman fired a 68 in the last

round to tie Ronnie Thomas for the ACC title with a 142 total.

Mushtaq Saigal and Jim Hart advanced to the semifinals before they were knocked out of the doubles competition by Bruce Sylvia and Ben Keyes, 6-1, 6-1. Sylvia and Keyes went on to win the ACC doubles crown.

In the first round of the singles play, James Spence, Hubert Ellison and Mushtaq Saigal drew byes. Phil Jacobs was the only man to win his first round match that played in the first round. The Ellison was the only State player to survive the second round

of play and he was defeated by Sylvia in the third round.

Hart and Saigal were the only State doubles team to get by the first round other than the team of Spence and Jacobs. Both of these teams got by the second round and met each other in the third round with the Hart-Saigal team winning.

Sylvia went on to win the singles crown when he defeated Bill Cullen of Wake Forest in the finals. The ACC golf and tennis tourneys brought the season to a close for these two State teams.

The most beautiful new look in diamonds

*Evening Star*  
ENGAGEMENT RINGS

You have to see it to believe it! Looks like a diamond star floating on her finger. And it makes any diamond look bigger, brighter, more beautiful. Don't even think of any other engagement ring until you see the dazzling "Evening Star" collection at your Artcarved jeweler's.

And, for real proof of value, ask your jeweler about Artcarved's famous nationwide Permanent Value Plan. It gives you the right to apply your ring's full current retail price, should you ever desire to, toward a larger Artcarved diamond—any time—at any of the thousands of Artcarved jewelers throughout the country.

IMPORTANT. Every genuine "Evening Star" diamond is guaranteed in writing, for color... cut... clarity... and carat weight and only Artcarved stamps the exact diamond weight in the ring. It's a genuine "Evening Star" only when the name is stamped in the ring.

Beloved by brides for more than one hundred years (1850-1960)

**HAIR AND SHAKESPEARE 331**  
Essentials of Good Grooming  
Prof. Tonsorial

Introspective reading of the Bard's works to prove that grooming was a motivating factor. Close observation indicating that Shakespeare's heroines were disillusioned by bad grooming: Lady Macbeth by Macbeth's hair that went *witchever* way (alcohol tonics, obviously). Ophelia by Hamlet's "melancholy mane" (hair creams, no doubt). Classroom lecture on how to present the perfect image by grooming with 'Vaseline' Hair Tonic. Proof beyond an ibid of a doubt that you can use all the water you want with 'Vaseline' Hair Tonic. 'Vaseline' Hair Tonic replaces oil that water removes. Keeps hair neater longer and attracts the op. cit. sex as Romeo did Juliet.

Materials: one 4 oz. bottle of 'Vaseline' Hair Tonic

**Vaseline HAIR TONIC**

In the bottle and on your hair the difference is clearly there!

**STUDENTS SUPPLY STORES**

VASELINE IS A REGISTERED TRADEMARK OF CHESEBROUGH-POND'S INC.

## North Carolina State Student Affairs Bulletin

**CANDIDATES FOR DEGREES, May 28, 1960**—Advance grade cards for May candidates will be mailed out Tues. May 17. They may be picked up in the office of your dean or director of instruction. (Graduate cards will be sent to Graduate Office and Engineering senior cards to the departmental offices.) Please fill out a card for each scheduled course and give to your instructor. All grades must be in Registration Office Wed., May 26, at 12:00 noon.

**GRADUATION INVITATIONS** are in and are ready to be picked up at New Student Supply Store.

**SHORT-TERM LOANS**—Letters have been mailed to students to remind them that all short-term loans must be repaid during this period. "Holds" must be placed on all records and on diplomas of delinquent borrowers.

**1959 GROUP LEADERS** (students who served last September) — Your Student Government Certificate of Commendation may be picked up at 104-A or 104-D Bragaw Dormitory.

**OUTDOOR CONCERT**—The last in a series of four concerts for State College students will be presented on Friday night, May 20, by the State College Symphonic Band. The concert will begin at 7:00 p.m. on the College Union Terrace. No admission charge.

**OUTSTANDING TRAFFIC TICKETS**—Students having outstanding traffic tickets on file at the Traffic Office, 107 Pullen Hall, must clear accounts before being permitted to re-register. Students in doubt as to whether they have traffic tickets should check with the Traffic Office. Students desiring to

make an appeal to the Student Government Traffic Committee should plan to do so Mon., May 16, at 12:00 in 109 Pullen Hall.

**WANTED: Reader for blind graduate student for remainder of sem. 4 to 5.** \$1.50 per hr. Call George Hallman, 2804 Barmettler St. Tel. TE 2-0876.

**FULBRIGHT AND OTHER OVERSEAS GRADUATE STUDY SCHOLARSHIPS FOR AMERICAN STUDENTS**—Application material is now available at 201 Holladay Hall. Although the deadline for submitting applications is Nov. 1, 1960, for awards to go into effect in the academic year 1961-62, it is advisable for those interested to obtain material now so that they can work on the project at some leisure during the summer. Rising seniors and graduate students with strong academic records are particularly urged to give consideration to these opportunities. About 900 Fulbright Scholarships in 30 different countries will be available for the 1961-62 year.

**RHODES SCHOLARSHIPS** (to Oxford University)—Material for the 1960 competition is at hand in 201 Holladay Hall. Available to single male students between 18-24 who have at least junior standing at the time of application. Appointments are for two years with a third year possible. Deadline for applications, Nov. 2, 1960, for 1961-62 appointment. Thirty-two scholarships assigned to the United States annually.

**CE AND CEC STUDENTS WHO PLAN TO ATTEND SUMMER SCHOOL** should see their advisers during the week of May 23 in order to get rosters made out and signed.

**PHYSICS SEMINAR: 8:00 p.m., Monday, May 16, 242 Riddick.** "Interaction of Ultrasonics with Plasmas" will be the topic of Dr. Maurice Surdin, visiting professor of Physics, on leave of absence from his position as Head of the Electronics Department of the French Atomic Energy Commission. All interested persons are cordially invited to attend.

## High School Teachers To Study Math Here

North Carolina State College, with the aid of a grant of \$6,545 from the National Science Foundation, will conduct an In-Service Institute in Mathematics for high school teachers, starting this fall.

Dr. J. W. Cell, head of the Department of Mathematics at State College, said today that classes will be held each Saturday from September 23, 1960, to May 20, 1961, on the college campus here.

The program will extend over two full semesters, 15 meetings per semester, beginning September 23, 1960. Each meeting will run from 9 a.m. to 12 noon on Saturdays with a 30-minute break.

Six semester hours of college credit will be given to participants upon satisfactory completion of the course. Arrangements for certificate renewal may be made, if desired.

Two courses will be offered, one each semester. "Fundamental Concepts of Algebra" will be taught the first semester, "Fundamental Concepts of Geometry" will be given the second semester.

Appointments to the Institute will be granted to 25 teachers of Mathematics. Qualifications for appointment are:

1. Be presently employed as a high school mathematics teacher.

2. Hold a bachelor's degree from an accredited college.

3. Reside within driving range of Raleigh.

The courses will be taught by two experienced staff members of the Mathematics Department of North Carolina State College. Dr. H. V. Park will teach the first semester; Dr. H. M. Nahikian will teach the second semester.

Requests for application blanks and for further information concerning the In-Service Institute for Teachers of High School Mathematics should be made immediately. Requests should be sent to Dr. H. V. Park, Director of the In-Service Institute, North Carolina State College, Raleigh.

## IE Offers Short Course In June

Modern methods in industrial engineering will be covered during a short course, June 13-16 at North Carolina State College.

Teaching personnel will include Dr. Clifton A. Anderson, Prof. Raul Alvarez, and Prof. W. Llewellyn.

This course, conducted by the Industrial Engineering Department and College Extension Division, will present some of the more useful tools and techniques that have been adopted by industrial engineers over the past decade. Computational aspects and their application will be stressed.

Topics will include linear programming, opening theory, inventory control, and replacement theory.

Registration and all class sessions will be held in Room 337, Riddick Building, North Carolina State College, Raleigh.

## EUROPE MADE SIMPLE: NO. 2

Last week we discussed England, the first stop on the tour of Europe that every American college student is going to make this summer. Today we will discuss your next stop, France—or the Pearl of the Pacific, as it is generally called.

To get from England to France, one greases one's body and swims the English Channel. Similarly, to get from France to Spain, one greases one's body and slides down the Pyrenees. As you can see, the most important single item to take to Europe is a valise full of grease.

No, I am wrong. The most important single item to take to Europe is a valise full of Marlboro Cigarettes. Oh, what a piece of work is Marlboro! If you think flavor went out when filters came in, treat yourself to a Marlboro. The filter works perfectly, and yet you get the full, zestful, edifying taste of the choice tobaccos that precede the filter. This remarkable feat of cigarette engineering was achieved by Marlboro's research team—Fred Softpack and Walter Fliptop—and I, for one, am grateful.

But I digress. We were speaking of France—or the Serpent of the Nile, as it is popularly termed.

First let us briefly sum up the history of France. The nation was discovered in 1492 by Madame Guillotine. There followed a series of costly wars with Schleswig-Holstein, the Cleveland Indians, and Captain Dreyfus. Stability finally came to this troubled land with the coronation of Marshal Foch, who married Lorraine Alsace and had three children: Flopsy, Mopsy, and Charlemagne. This later became known as the Petit Trianon.

Most Frenchmen were able to walk under Card Tables...

Marshal Foch—or the Boy Orator of the Platte, as he was affectionately called—was succeeded by Napoleon who introduced shortness to France. Until Napoleon, the French were the tallest nation in Europe. After Napoleon, most Frenchmen were able to walk comfortably under card tables. This later became known as the Hunchback of Notre Dame.

Napoleon was finally exiled to Elba where he made the famous statement, "Able was I ere I saw Elba," which reads the same whether you spell it forwards or backwards. You can also spell Marlboro backwards—Orobilram. Do not, however, try to smoke Marlboro backwards because that undoes all the efficacy of the great Marlboro filter.

After Napoleon's death the French people fell into a great depression, known as the Louisiana Purchase. For over a century everybody sat around moping and refusing his food. This torpor was not lifted until Eiffel built his famous tower, which made everybody giggle so hard that today France is the gayest country in all Europe.

Each night the colorful natives gather at sidewalk cafes and shout "Oo-la-la" as Maurice Chevalier promenades down the Champs Elysees swinging his Malacca cane. Then, tired but happy, everyone goes to the Louvre for bowls of onion soup.

The principal industry of France is cashing travelers checks.

Well sir, I guess that's all you need to know about France. Next week we'll visit the Land of the Midnight Sun—Spain.

## Channel Four To Air Trigonometry Course

A trigonometry course, mathematics 107, will begin from 5 to 6 p.m. on June 7 on Channel Four, WUNC-TV.

The televised trigonometry course will be telecast Tuesday, Wednesday, and Thursday by the North Carolina State College Extension Division through the facilities of WUNC-TV from June 7 through August 11.

Prof. H. A. Petrea, of the college's Mathematics Department will present the televised lectures.

Three semester hours credit will be given after successful completion of the examination at the end of the course. With the permission of the local high school, students may earn high school credit for this course.

The course will cover logarithms, slide rule, and the traditional parts of plane trigonometry. The tuition fee is \$15.00.

For bulletins describing the course or for registration, write the College Extension Division, North Carolina State College, Raleigh.

## Sale!

### SPORT JACKETS

1/4 off

One rack of Spring sport coats of dacron and cotton. Solids, checks and stripes. Most sizes in regulars and longs.

**varsity**  
MEN'S WEAR
