Marrried-Housing Survey Reported

North Carolina State College today released results of a survey which indicates 73 students now living in the new married student housing center was not involved in the survey just conducted.

By R. B. Wat-er, director of student housing, sent questionnaires to the 203 married families now living in Vettle. He received replies from 106 students, but no word has come yet from the remaining 34.

The survey will graduate later this month; 15 plans to move on the campus. One is not currently enrolled and is ineligible for priority; 19 are now living in UKs and will remain in the UKs; four indicated their first choice of office apartments in the new center; 60 expressed a preference for the old center, which indicated their choice of two-bedroom apartments; and four preferred to remain in the old room.

College officials explained that the present residents of Vettle have been given priority in the assignment of units in the new building. Approximately 1,500 married students will be housed, but only 340 units in Vettle soon will be available for the formal new arrangement.

Rental rates for the 300 new units were quoted at the time of application. Applications pay fees of $25 cents for loans up to $25, and 60 cents for greater amounts regardless of the due date of the check. All applications are sent to the College for the amount paid. The check is sent to the student for the amount paid, after which the College College's $2,500,000 which were borrowed for the project and must be amortized over a 48-year period.

Dr. Kingston John Jr., college official, said that since the beginning of this academic year the College has held the amount of $300,000. All of these checks have been placed in a reserve account and are added to the principal of the fund.

The Student Government (Virginia) has been given a new loan fund for the purpose of helping students. The new loan fund is available for the purpose of helping students. At the time of application. Borrowers pay fees of $25 cents for loans up to $25, and 60 cents for greater amounts regardless of the due date of the check. All applications are sent to the College for the amount paid, after which the College College's $2,500,000 which were borrowed for the project and must be amortized over a 48-year period.

Which Is Best?

This coming fall the Interfraternity Council at State College will introduce a new fall rush program. The new rush program will come during Orientation Week for the incoming freshman.

There have been many debates concerning this new rush program. The major question seems to be "Will it work?"

This question can be answered best by determining the reasons for fraternities wanting and those not wanting early rush.

Wonderful! I now make it do "Rachmaninoff's Concerto No. 2 for Piano and Orchestra."

The Word

The four seats were vacant. No longer would the high level talkers take controlling the development of a breed of high-altitude hawks go on. The high command of the high order of the high bears (Vodka drinking species) and the high command of the high order of high Eagles (from smelling too much "moon") had come to a disagreement of the highest order concerning where the high altitude hawks ought to practice their high altitude stunts. The not too high order of high poodles (imported champagne species) and the high order of high bulldogs (from frequenting too many pubs) had had high ideas concerning the high level talks about the high altitude hawks. Now their high ideas were not so high, not as high as they were.

Nevertheless the high level talks about the high altitude hawks were carried on as if on high levels. The high bears had bared their bear claws before anyone had gotten too high to really believe that their high ideas could ever be carried out on high levels by such high-minded high persons that were just high anyway.

The high command of the high order of high bears had gotten too high minded that he was no longer just high, as a matter of fact, he just passed out. Now all the high commands of the high orders, and the not so high orders, after getting high, and never reaching any real high ideas concerning the high questions of the high altitude hawks, were just high anyway, took their high ideas back to their high order of high comradery, which was just plain high too, and everybody just got higher together.

Notice

Anybody interested in working on The Technician may come in to the office of the Editor or the Business Manager on Monday, May 22, at 7:00 p.m.

Rondeau

Roundtable's Corner

Thursday night Conger Hall will be crowded with a variety of students.

As by our policy of saving money, the Roundtable, here is a reunion of the old members of the Roundtable, we will reach the people who are the old members and tell them about things. If there is no more than two or three people, we will continue our attack.

When a set number (50) of members are made up in a certain way, we will tell something in particular, a letter will be written to the president or the head of that department concerned.

Rondeau is a universal problem around State. We have either too many cars or too few parking spaces. In some cases this is due to people who gripe about things with the belief they are doing about it at the present. I don't know. I do know that the problem is under study by the Traffic Committee of the Student Government. This group decides to remain to be seen. There are only two notices: Create more places or restrict the number of cars allowed on campus. It does not seem that this problem could be solved around Brawgian with the Editor or the Business Manager.

The following advertisement will appear: College Union will not have enough space in the Coliseum. It will be necessary to make reservations of the Coliseum. All seating will be on a first-come, first-served basis. It will be necessary to leave seating arrangements at the College Union. It will be necessary to leave seating arrangements at the College Union.

I wish our service had been better. If it had, we would have better service. It would have been better than the staff parking lot of the College Union.

I wonder if our service has been better. If it had, we would have better service. It would have been better than the staff parking lot of the College Union.

The new issue, which picked up just inside the deadline, seems to be better than the last issue. It could have found some more money. We will do better next time than the staff parking lot of the College Union.

Are you happy that you will offer the school term? We can offer you school, the school term will be from 9:30 a.m. to 4:00 p.m. all Monday and Thursday of the students on May 22 at 7:00 p.m. per semester.

According to reports I have heard, Friends of the College went way over their target figuring, saving up for spring—a sure sign that the organization will be a continuing success, and that this year's high season of entertainment will be available to the students of State for a long time to come.

Ken Rolle completed Roundtable. We'll have a better school yet.

Rondeau

By Harvey Horowitz

There seems to be a continuing movement towards having the students of State for a long time to come.

This, in my opinion, is a good idea—for a couple of reasons. It is the first place, that is what the place is for, isn't it? Second, if the Coliseum is shown to them, they will not have a monopoly on these events, they may be more apt to have a bit of. Of course, with enrollment at State expected to climb to 50,000 in a few years, the College Union will not be big enough to accommodate all these events.

The following advertisement will appear: College Union will not have enough space in the Coliseum. It will be necessary to make reservations of the Coliseum. All seating will be on a first-come, first-served basis. It will be necessary to leave seating arrangements at the College Union. It will be necessary to leave seating arrangements at the College Union.
Edwards Predicts Pack Will Improve This Year

Editor's Note: The following is the beginning of a story on the 1960 edition of the North Carolina State football team. The remainder of this story will appear in tomorrow's edition of the Technician.

By Earle Mitchell

With nowhere to go but up, State football coach Earle Edwards is looking forward to the 1960 season with a great deal of optimism. The Pack suffered a bad season last year by winning only one game all year. They suffered a bad season only as far as the record goes. They played good football last year and were edged out by only two or three points on several occasions.

"If we can keep our present personnel off the casualty list throughout the '60 season, we will have a lot more experience than we had last season, especially at quarterback and end. We have some good football players on our squad. Only time will tell whether or not we have enough good players to do the job," commented Edwards at the conclusion of spring drills.

Last year the Wolfpack did suffer a great deal due to injured personnel. Roman Gabriel, an excellent quarterback in Edwards' book, is a key example of this situation. He missed part of last season because of a bad leg and his absence was felt very heavily.

Edwards feels that his running attack should improve this fall. He feels the backfield and the coaching staff. We will also look among some of the promising newcomers and the opponents for the coming season.

In tomorrow's edition we will take a look at the remainder of the backfield and the coaching staff. We will also look for some of the promising newcomers and the opponents for the coming season.

Do You Think for Yourself?

(put this quiz in your think-tank and see what develops)

If you had to write the advertising for a small car, would you say,

(A) "Hard to get into? Man, you don't get into it at all—you put it right up!" Or, (B) "You can park it on a dime—it's fast, with most modern cars you can park two on a dime." Or, (C) "Gives you more miles to the gallon because the gages are for Imperial gallons."

You're selling a trick around the world. Would you say in your ads,

(A) "Cook's pancakes in no time flat!" Or, (B) "Made of a new material that distributes the heat evenly all the way through."

Or, (C) "Folks, it's made by us folks who love the folks you're kids."

In the ad, are you trying to

(A) C  B  C

Y4D ADVERTISE A FILTER CIGARETTE, would you call your customer,

(A) "Try our new frying pan."

(B) "Will your advertising say,"

(C) "Cook's pancakes in no time flat!"

You're selling a trick around the world. Would you say in your ads,

(A) "Hard to get into? Man, you don't get into it at all—you put it right up!" Or, (B) "You can park it on a dime—it's fast, with most modern cars you can park two on a dime." Or, (C) "Gives you more miles to the gallon because the gages are for Imperial gallons."

Course Offered For Executives In Textile Industry

The School of Textiles and Extension Division of North Carolina State College will offer a short course, June 6-17 at the college, for executives of the textile industry.

The course is designed primarily for non-textile college graduates now employed in the textile industry at executive levels, personnel employed in both areas as production, sales, technical sales, cost, research and trainees in these areas.

A wide variety of subjects will be discussed such as fiber quality, types of looms, fabric design and construction, analysis, blending and processing, quality control, testing techniques and instruments, and surveys of end use and fabric finishing.

A.S.M.E. Honors Senior

Emmit Franklin Cole of Clay-
ton, a senior in mechanical en-
gineering at State College, was
honored Thursday night at the
regular meeting of the Student
branch of the American Society
of Mechanical Engineers by
being named its most outstanding
member of the year.

Mr. and Mrs. Cole were present,
and the awards were presented
by the president of the society.

He will be presented a cer-
ificate of commendation by the
ASME national headquarters at
formal ceremonies to be held at
a later date.

Cole will receive his Bache-
lor's degree in mechanical en-
gineering from State College
May 29.

He is married to the former
Julia Shelby of Chickasha,
Oklahoma.
