In Resolution

Student Legislature Supports Bond Issue

The Student Government passed a resolution concerning student support of the bond issue of October 27. This is the bond issue that concerns financial support to State supported educational facilities.

President Eddie Knox, in his report to the Legislature, urged the legislature to support the bond issue resolution and stated that a letter had been received from the University of Toronto concerning an exchange program for a weekend. Knox appointed an Exchange Committee that consisted of himself as chairman and Jim Moore, Bob Davis Norman Owen, Stan Timblin, and Ronald Keen as members.

He also reported that there will be a meeting with campus leaders this week to discuss campus problems, and that the Board of Trustees will meet on October 16 and 17, and he appointed a Board of Review of the Judicial system. Thomas Schultz and Melvin Poulson are the student members, and Dr. Holtzman and Dr. Toussaint are the faculty members.

Knox then appointed a Cheerleaders Committee. The members appointed were: Phil Carlton, chairman; Linda Wey; Dee Clark; Ronald Sherron; Tom Schultz; Professor George Blum; and coach Lee Terrill.

Treasurer Ben Kittrell reported that there is \$984.36 in the Student Government Fund and \$2,710.29 in the Student Activities Fund.

Resolution 2-A was unanimously passed; and a motion that appropriated \$160 to pay postage on cards concerning the

October 27, bond issue and to subsidize *The Technician* in its special paper on the bond issue also passed.

The Resolution follows:

WHEREAS, the institution of North Carolina State College, through the training of technical experts and through continuing research, performs a vital role in a vigorously progressive North Carolina and in the total economy of technical America, and

WHEREAS, pressures of an expanding enrollment at North Carolina State College and the challenge of industry demand the expansion of certain existing facilities, the addition of certain new facilities, and the replacement of certain old facilities, and

WHEREAS, affirmation of the October 27th Capital Improvement Bond Referendum will direct \$4,799,000 to North Carolina State College, so that an additional steam boiler may be installed, that a sufficiently large cafeteria may be constructed near the most populous living area of the college community and that three classroom and laboratory buildings may be added and one expanded to accommodate the overflow of existing classroom and laboratory buildings, now

THEREFORE, Be It Resolved that we, the Student Body of North Carolina State College, enthusiastically endorse the October 27th Capital Improvement Bond Referendum and do all in our power to urge its acceptance by the citizens of the State of North Carolina.

Campus Crier

The Forestry Club will hold its weekly meeting Tuesday, October 13, at 7:00 p.m. The meeting will be held in Kilgore Hall, Room 159.

All Sophomores who have not had their pictures made yet for the Agromeck will have them taken this week. The pictures will be taken in the College Union.

The first regular meeting of the Graduate Dames Club will be held in the College Union on Tuesday, October 13, at 8:00 p.m. All wives of graduate students are invited to attend. Mrs. Harriet Pressly will speak on "Places of Interest in Raleigh."

The first meet of A. I. P. will be held this Wed., Oct. 14, in the reactor building. This meeting is being held for old members and prospective new ones.

There will be a meeting of the Cadet Officers Wives' club on Wednesday, October 14, at 7:30

p.m. The meeting will be held in room 148 in the Coliseum.

"The Fourdrinier Society" will meet Wednesday, Oct. 14, at 7:30 p.m., in the Pulp and Paper Laboratory.

Attention Juniors: At the junior class meeting, it was decided that the '61 class ring will be ordered from Balfour again this year. The representative from Balfour will be on the campus October 12-16 to fit juniors for their rings. These students ordering rings must do so between 9 a.m. and 4 p.m. in the College Union snack bar area. Delivery of the rings is assured before Christmas.

- Notice -

New students may pick up their ID photo cards at the College Union from 1:00 to 4:30 p.m. on Tuesday and Wednesday afternoon, October 13 and 14.

Faculty Senate Favors Bond Referendum

The State College Faculty Senate has adopted a series of resolutions favoring the October 27 bond referendum.

In the bond referendum, North Carolina voters will decide on whether to grant the State of North Carolina authority to finance \$34,400,000 in permanent improvements at many of the State's institutions.

Action of the State College Faculty Senate was reported Wednesday by Prof. L. W. Seegers, chairman of the senate.

The Faculty Senate, in its resolutions, urged all members of the faculty to vote in the election and urged the faculty members as individual citizens to support the permanent improvement bond issue.

The resolutions were adopted at a regularly-scheduled meeting of the Faculty Senate Tuesday (October 6).

Sigma Pi Sponsors 'Ugly-Man' Contest

Sigma Pi Fraternity is sponsoring a campus-wide "Ugly-Man" contest in connection with the Homecoming program. Similar contests have proven themselves successful at other schools. Sigma Pi is anticipating much response. The winner will be announced at the Homecoming ball game.

Rules are as follows:

- (1) Any campus organization may sponsor a candidate.
- (2) Each candidate or his sponsor is responsible for obtaining five jars with the candidate's picture on each. These jars are to serve as ballot boxes. One will be placed in the College Union, the other four placed at stations approved by the management of Sigma Pi.
- (3) Voting will be at one cent (1¢) per vote. The candidate who receives the most votes will be declared the winner. The decision of the judges is final.
- (4) Each sponsor will be responsible for collecting the jars, counting the money and turning it in to Sigma Pi before noon on October 31st.
- (5) A trophy will be presented to the winning organization, and to the "ugliest man."
- (6) Proceeds will go toward the purchase of playground equipment for the State School for the Blind.
- (7) All entries must be made before October 16th.

If you are interested in making an entry or in obtaining information, contact Larry Fleming or Jim Hastings at the Sigma Pi House or telephone TE 2-0269.

'Loan Fund' Established By Engineers' Council

A \$4000 Engineers' Loan Fund was established at the beginning of this academic year by the Engineers' Council, student governing group for the School of Engineering, for short-term loans to engineering students.

Council President William R. Foss said that any engineering student is eligible to apply for a loan up to \$200 not to exceed

Hungarian Orchestra Appears At Coliseum

The Philharmonia Hungarica Symphony Orchestra is scheduled to appear at the Coliseum on Tuesday, October 13.

All State Students are invited and they and a date may be admitted by presenting their identification card at the door.

Henry Bowers, Assistant Coordinator of Student Activities at State, gave this word of advice to all students planning

to attend the concert. The program will start promptly at 8:00 p.m. and no one will be seated while a number is in progress.

"Since many students will bring dates, coats and ties should be worn and everyone should remain seated until the last encore is performed. Applause should be held until the end of a number and no one

should applaud, for example, between the movements of a symphony."

Bowers also commented on the friends of The College, Inc., the organization that is sponsoring the concert. He stated, "It (The Friends of the college) was organized to bring to the students of State College the finest cultural programs possible."

The first selection that the Philharmonia Hungarica will offer will be *L'Italiana In Algeri—Overture* by Gioacchino Rossini, the composer of "The Barber of Seville" The opera which gives this overture its name was first performed in 1813 and was one of Rossini's first early successes.

Next in the concert will be Ludwig Von Beethoven's *Symphony No. Two in D Major—Opus 36*. It was first performed in 1803.

Music For Strings, Percussion, and Celeste by Bela Bartok is the third selection on the program. It was written in 1937 and has a Hungarian theme.

The final selection on the agenda will be *Peacock Variations* by Zoltan Kodaly. It is also Hungarian in nature and is based on the "Robin Hood of Hungary."

The next program that will be sponsored by the Friends of the College is Vincet Price in program of readings. This will be held on November 12.

Frosh, Graduates To Hold Elections; Sign-up Books Open

The election of graduate students and freshmen representatives and freshman class officers will be held November 3.

Any student who wishes to run for one of these offices should bring a friend to Room 206 Holladay Hall and sign the nominations book before 5:00 p.m., October 23. The books will be kept open from 8:00 a.m. to 6:00 p.m. A freshman class meeting will be held on November 3, in connection with the election. Freshmen are allowed to run for one class office and one Senatorial Post.

The number of Student Government representatives to be elected are: Agricultural freshmen—1, Graduate students—2; Design freshmen—1; Education freshmen—1, Graduate students—1; Engineering freshmen—5, Graduate students—2; Forestry freshmen—1; Graduate Students—1; Textiles freshmen—1, graduate students—1.

Bob Cooke, Chairman of the Elections Committee of the Student Legislature, has urged all freshmen to seriously consider running for a position as a student representative or a class officer.

Final election will be held on November 5, if majorities are not reached in the November 3, elections.

6114 Enrolled

Registration Count Shows Record High

6114 students have enrolled into State College for the fall semester. This enrollment breaks all known records at State, which exceeds the enrollment of last year by 429 students.

The official report received from the Registration Office includes a breakdown of the total number of men and women enrolled. There are 156 women and 5958 men.

The number of new students and transfers reaches an all-time high of 1697. This leaves a total of 4417 returning students.

The freshman class has the largest number of students enrolled, totaling 1484. The senior class has the next largest class of 1363 students, which is unusual. The sophomore class has the next largest enrollment followed by the junior class with enrollments of 1223 and 1152 respectively. There are 634 graduate students, 204 unclassified students, 29 special students, and

25 fifth year professional students.

Of the eight schools of State College, the School of Engineering has over half the total enrollment with 3472 students. The other schools in order of enrollment are: School of Agriculture, 794; School of Education, 670; School of forestry, 420; School of Textiles, 347; School of Design, 269; School of General Studies (unclassified), 115; Graduate School (unclassified), 27. The largest increase was shown in the School of Engineering with an increase of 90 students.

The enrollment of students with residence in the State of North Carolina far exceed the enrollment of out-of-state and foreign students. There are 766 out-of-state students, and 182 foreign students.

Veterans of military service in the students body total 914, including 857 from the Korean campaign and 57 from World War II.

Approximately one-fourth of the students are married. Of the 1573 married students, 762 have children.

The number of students living in the dormitories is 3108, and the number living off campus is 1937. The eighteen social fraternities house 366 students. The number residing in vetville is 204, the number at the homes of parents or relatives is 346, and the number in trailers is 153.

GUEST EDITORIAL

Students Show Way

State College students have jumped wholeheartedly into a campaign to work for the adoption of the \$34,400,000 state bond issue in the October 27 election.

Well, good for them. It shows that the students are willing to do their part in helping assure that the State of North Carolina will meet its pressing obligations in many fields during the immediate future. The facilities which would be erected at State College by these bond proceeds wouldn't help a single member of the present State College student body, but will mean much to students yet to enroll there.

The students are going about this thing in a mature, sensible way. They are contacting their friends, their parents, their neighbors back home and are explaining the bond issue and the need for it. They will publish a special issue of *The Technician*, the college newspaper, and they will have postal cards which the students will send to the folks back home. That postal card asks the recipients to vote for the bond, and urges that they get their neighbors to vote for them, too.

The voluntary action of the State College student body brings up immediately the question as to what the State College faculty plans to do about supporting the bond issue. So far, there has been no word from the faculty, and it is regrettable that the students took such a forward-looking and necessary step before the faculty did.

If any people in North Carolina are in positions to understand the vital need for this bond issue, those people should be our teachers. And, the college teacher should be in the best position to see the state-wide need. They know that college enrollments are increasing by leaps and bounds. They know that the floods of new students will increase, not decrease, in the years to come. They know that college facilities are now taxed heavily, and that the colleges just won't be able to handle the enrollments of the future if they don't have more facilities.

With all that background of first-hand knowledge, the State College faculty should be able to get across to the people of Raleigh and Wake County the true need for these bonds. There must be at least one State College faculty member living in each precinct in Wake County. The best way to win elections is to have active, hard-working, door-bell-ringing precinct organizations. In the State College faculty, there surely should be such organizations for each of the county's precincts.

The goal the faculty could hold before itself should be a record vote in Wake County on October 27—and a record majority for the bond issue.

LITTLE MAN ON CAMPUS

ON TH' CONTRARY I THINK HE'S A WONDERFUL LECTURER - THIS IS TH' ONLY CLASS WHERE I CAN GET ANY DECENT SLEEP!

L.G.

Last Friday afternoon, a bunch of us guys were talking and we decided to go around and join a Frat that night. When night came I put on my clean pink shirt and blue suedes (I wanted to look good for them) and started walking.

As I walked up to the front door of a big house, the first one I came to, a large gentleman with a nametag of saying PLEDGE (whatever that meant) greeted me and asked if I wanted to see the house or just have my card signed at the door. I didn't have any cards so I said I would like to look at the house.

He took me inside where a lot of boys were sitting around smoking and talking about who they knew from somebody else's town. There was a big board on the wall with foreign writing on it and I asked him what it was and all he told me was that it was the name of the Fraternity in Greek. I knew a couple of Greek boys from back home and I asked him if there were any Greeks around.

One of the boys, marked BROTHER, walked over and told

me his name and said he was glad to meet me. I shook his hand (boy, did he squeeze hard) and started to talk to him, but he was gone before I knew it.

Soon another gentleman with a PLEDGE tag came up and asked me if I wanted a cigarette. I told him that I didn't smoke; my mother had told me it was bad to smoke. He sorta shook his head and asked me where I was from and who I knew from his town.

I tried to be nice and talk to him, but he kept looking down at my shoes (I could tell he liked them) and smiling sorta funny like. He was a real nice kinda guy; he did whatever one of the other boys told him to. He fetched drinks and cigarettes for a lot of boys, but he always came back to talk to me.

Finally after about ten minutes of this he asked me if I didn't want to see the scrap book, mumbling something under his breath about one being able to take care of three that way. I went with him down to a big room with all of the trophies on the wall and a poker table and sat down in a little group of boys to look at the scrap book. The other boys in the little circle were dressed in week-day clothes, too, so I felt a little better.

The boy showed us pictures of the Fraternity (I wondered what that meant; I thought it was Frat) football team and all that for about a half an hour. After a while I got tired and started sorta fidgeting around and scratching my stomach and all.

The boy in charge of the circle asked me if I was tired of seeing the scrap book and all and I told him yes, I was. He told me it was nice to meet me and he'd probably see me around the C.U. sometime. Another boy led me to a door and showed me a map and said, "Here is a good Fraternity that I'm sure you would like to visit." He told me he was sure I would like them.

I walked out of the door and down the steps, never looking back; I had decided that I wasn't going to join that Frat, I was going to join one with a good old American name.

Greeks On Campus

Due to the temporarily incapacious condition of the writer of this column, Bill Marley, *The Technician* will not include any news of fraternities in this issue. However, if the deliverers of Miles Laboratories, Inc. products were permitted to bring an abundant supply of Alka-Seltzer last week, Greeks on Campus will appear in the Thursday issue of *The Technician*. In that column, a review of the rush week activities and some statistics concerning the number of bids, etc., will be included. Oh-h-h!

Letters to the Editor

Loan Fund Established; Penguin Writes

To the Editor:
For some time, it has been known that a good-sized amount of money existed in the Engineers' Reserve Fund, money collected in Students Fees and left over from the operating budget of the Engineers Council over a period of several years. The members of the Engineers Council have realized that this money should be spent, but they have also realized that this money must be spent in such a way as to benefit all engineering students here at State College.

Several good ideas have been presented on this some of which are still under consideration and study. During the past summer, The Engineers' Loan Fund was set up, using funds from the Engineers' Reserve Fund. (See story, page 1.) Loans can now be made from this fund to any engineering student through the Financial Aid office in Holladay Hall. The terms of loans from this fund will be according to the suggestions made by the Engineers Council.

At the present time, the terms of the loans made are on a trial basis. The terms will be changed at any time if it is found to be necessary in order to best serve the needs of the students. It is the purpose of the Engineers' Council that engineering students will use the Engineers' Loan Fund whenever a loan can help them. Any suggestions concerning the Engineers' Loan Fund whenever a loan can help them. Any suggestions concerning the Engineers' Loan Fund or the use of the remaining part of the Engineers' Reserve Fund will be welcomed.

Frank Madren, treasurer
Engineers Council

EDITORIAL COMMENT

For the Common Need

In the column which is usually occupied by an editorial from *The Technician* staff, we have reprinted an editorial which appeared in the October 6 issue of *The Raleigh Times*. We do not want to place special emphasis on what was said concerning the faculty move to support the Bond Referendum, because the Faculty Senate has already passed a resolution in favor of supporting the vote. (See story, page 1.)

However, we do wish to call attention to what was said concerning the role that the student has assumed in pushing for the affirmative vote on October 27.

The Student Government passed a resolution on Thursday night pledging the support of the State students to the Bond Vote. In their resolution and in the remarks made by the S. G. president, the students' role in the Referendum was plainly stated.

The first area in which the students' voice will be heard will be the newspaper offices throughout the State of North Carolina. Each Student Government representative has written to the editor of his hometown newspaper asking him to support the bond vote.

All of the State students will be asked to help push this bond vote in another way. Postcards have been printed by the Student Government and they will be available at the last of this week so that students can send them home to their parents. These postcards will ask the parents to support the Bond Vote and also ask them to tell their neighbors about it.

Next Monday, a special issue of this newspaper will be sent to all the parents of State Col-

lege students in North Carolina.

Another important part of this Bond Issue in which the students will be asked to participate is that of a personal contact basis. Between now and October 27, State students are asked to talk to their parents and neighbors when they go home and tell them of the need for the passage of this Bond Issue.

It is important that we follow through with these suggestions that have been made by the Student Government, because the future of State College is at stake.

Passage of the Bond Referendum on October 27 will assure State College of a new classroom building, a new cafeteria, a general laboratory building, an Electrical Engineering and Physics Building, a replacement for the present greenhouses, an addition to the Steam Boiler, and additions to Polk Hall.

Each one of the above-mentioned items is needed today by State College. If we, as students, follow through on the recommendations by the Student Government, it will mean a great deal to an affirmative vote on October 27.

To the Editor:

Print this column and you will have another one sitting there the next Monday night and each week following.

The Penguin

(Editor's note: With a great deal of interest, we read the column put in our mailbox at the first of this past week by the person who calls himself *The Penguin*. The column that he wrote had an unusually close likeness to the column that appeared in *THE TECHNICIAN* last year entitled "Clean Living".

Before we print any material in *THE TECHNICIAN*, however, it is imperative that the editor and the person writing the particular item be acquainted at least on a name-calling basis.

If the person who wrote the column and who calls himself *The Penguin* will come by the office of this newspaper on Tuesday night, we will discuss the possibility of a weekly column with him. If he chooses to remain anonymous, however, it will be impossible for the students of State College to laugh at a column entitled "The Penguin's Roost" this year in this paper.

Clemson Hands State Second ACC Setback

State College went down to its second straight defeat of the season at the hands of Clemson College. The game was played on a wet soggy turf and it rained throughout the game.

State's running game was pitiful as they gained only 29 yards rushing. They managed to penetrate into Clemson territory on several occasions, but did not get past the Clemson 35-yard line. They did not reach the Clemson 35 until the last play of the game.

Clemson did not let the wetness on the field slow them down to any great extent. They came with in a half yard of scoring in the first period only to be stopped by a determined Wolfpack goal line stand. Clem-

son had first and goal on the State three-yard line and could not score.

However, they came back to score in the second quarter when on fourth and thirteen on the Wolfpack 26, Lowndes Shingler, threw a pass to end Gary Barnes to make it 6-0. The try for the extra point failed and the score was 6-0 at halftime.

The disaster came in the second half as Clemson capitalized on its opportunities to mount the score up. Lon Armstrong kicked a 28-yard field goal to make it 9-0. A State pass was intercepted in the flat, and Ron Scrudato raced it back for a 60-yard touchdown run.

This came in the fourth period, and it made the score 15-0. Bill

Mathis ran the ball over for two points to increase the score to 17-0. Mathis came back in the closing moments of the game to score the final points for Clemson as he scored from the three-yard line. The try for the extra point was no good, and the final score read: Clemson 23, State 0.

The game could be easily summed up by saying the Tigers were up for the game and the Wolfpack wasn't.

The Wolfpack plays host to Wake Forest Saturday night in Riddick Stadium. Game time is 8:00 p.m. Clemson has an open date as it warms up for the "Big Thursday" game with USC.

Berry Swamps Owen 38-6 In Feature Game

The volleyball season started in the intramural program last week for the dormitories as 16 teams saw action. However, football still ruled the fall sports program as there were a number of hard fought contests.

The dormitory game of the week was the battle between Berry and Owen #2. The final score was 38-6 as a strong Berry team captured its second straight contest.

All of the scoring in the game came on passes. W. Gore and H. Gore were the leaders for Berry. H. Gore passed for one TD and caught another pass for a TD, while W. Gore passed for two TDs.

Allen scored the only TD for Owen #2, as he caught a pass from Wilson.

Last year Berry was the hard-luck team. They made their way to the finals of four sports only to capture just one championship. This came in swimming.

If Berry continues the same pace that they have in the first two games, they will have a good chance to win the dormitory football championship.

There were no fraternity league games played last week, as the fraternities were having Rush Week.

Dormitory Results for week Oct. 5-Oct. 9.

Notes From The Wolfpack

Add North Carolina State to the list of schools that turned down Pittsburgh's great quarterback Ivan Tonic.

Tonic visited the campus here several years ago seeking a scholarship offer. "We took one look at him," coach Bill Smaltz recalled, "and decided he was too small."

Nick Maravich, 230-pound sophomore, has been shifted from end to tackle on State's third unit. "We feel he is better equipped to play tackle," Coach Earle Edwards said.

Tackle John Lawrence, a senior from Heidelberg, Pa., is sweating out a visit from the stork. "My wife didn't come down with me when school started," Lawrence said, "and the baby is overdue now. Man, I'm all shook up. I've been expecting

a call every day for the past two weeks."

Reviving an oldie: Ever wonder which is the most important, the line or the backfield? In a recent poll by the Wolfpack's first team the line won. The vote was 7-4.

A Raleigh radio station has a "secret word" each day. If the station calls a local residence and the person answering the phone knows the secret word, a prize is given. One day last week the secret

Quarterback Roman Gabriel will have to average better than 15 pass attempts per game and seven completions if he tops the all-time school passing record.

Ed Mooney attempted 150 and completed 65 for 811 yards in 1950. All three are school records. In two games, Gabriel has completed 12 of 24 for 122 yards.

Sophomore Al Taylor of Henderson must be the most versatile player in the Wolfpack backfield.

Student Affairs Bulletin

STUDENT INSURANCE—Deadline for enrollment is Oct. 16th. Enrollment forms available at the College Infirmary or the Counseling Department, 201 Holladay Hall.

JUNIORS — SUMMER EMPLOYMENT—Those 3.0 average or in top one-fourth of class have opportunity for next summer employment with U. S. Government at approximately \$400 a month. See Dr. Kingston Johns, Jr., 207 Holladay Hall.

SENIORS — PERMANENT EMPLOYMENT—All interested in employment with Federal Government should apply for Federal Service Entrance Examination immediately. See Dr. Johns, 207 Holladay Hall, for applications prior to Oct. 29th. Average starting salary \$450 a month.

WOODROW WILSON FOUNDATION FELLOWSHIPS—Students considering a college teaching career in the natural and social sciences or in the humanities are eligible for nomination, by members of the faculty, for competition for one of the 1,000 fellowships for first-year graduate study offered annually by the Woodrow Wilson National Fellowship Foundation. These fellowships carry a stipend of \$1500 plus full tuition and fees and a dependency allowance for married students. Interested students should see either their faculty advisers or the Campus Representative, Dr. John R. Lambert, Jr., 220 Winston Hall. All nominations must be submitted to Dr. Richard Bartholp, Box 5095, Woman's College, Greensboro, N. C., prior to Oct. 31, 1959.

DANFORTH CHAPEL SERVICES—This Sunday Rev. O. B. Woodruff will be the speaker at the Sunday Chapel Worship Services at Danforth Chapel. The service is at 11:00 a.m. Coffee and doughnuts served prior to the service beginning at 10:00 a.m. All students and their friends are cordially invited to attend.

ID PHOTO CARD—New students may pick up their ID Photo Cards at the College Union from 1:00 to 4:30 on Tuesday and Wednesday Afternoon, Oct. 13 and 14.

DORMITORY OCCUPANTS—Next week is State Fair Week. During these periods in the past two occupants have had their pocketbooks taken from unlocked rooms. This is to remind all occupants to keep their rooms locked at all times.

FULBRIGHT AND OTHER SCHOLARSHIP OPPORTUNITIES FOR STUDY ABROAD—Interested American students should obtain applications at once since the deadline for consideration for the 1960-61 academic year is Nov. 1. Most programs are for graduate study. Information and application forms at 201 Holladay Hall.

NATIONAL SCIENCE FOUNDATION GRADUATE FELLOWSHIPS—Initial application material now available at the Counseling Department, 201 Holladay Hall, and at the Graduate Office, 145 Gardner Hall. Citizens of the U. S. with demonstrated ability and special aptitude for advanced training in the sciences are eligible for awards. Competition is open for the 1960-61 academic year, both to those already engaged in graduate study and college seniors who expect to receive a baccalaureate degree during 1959-60. Fellowships support study at the institution of higher education in the U. S. or abroad, chosen by the recipient. Stipends: First Year Fellows, \$1,800; Intermediate Fellows, \$2,000; and Terminal Year Fellows, \$2,200. Additional dependency allowance of \$500 for each dependent. Also, allowance made to cover tuition and fees. Closing date for receiving applications, Jan. 1, 1960.

Civil Service
Now Accepting
Applications

The U. S. Civil Service Commission has just announced that applications are now being received for the 1960 Federal Service Entrance Examination.

Those who successfully pass the test are placed on a register from which all government departments and agencies select their technical and administrative employees.

The beginning salaries for these positions range from \$4040 to \$5985 a year.

All seniors who are interested in securing employment with the Federal Government should apply for this examination immediately, since it is advantageous to the applicant to gain early listing on the Commission's register.

The necessary forms and additional information can be secured from Dr. Kingston Johns in the Student Employment Office, 207 Holladay Hall.

Tuxedo Rental Plan
Set For IDC Ball

The IDC has arranged a tuxedo rental plan for the IDC Ball on October 24. Two plans are offered: (1) Tony Martin type tuxedo with all accessories including shirt, tie, suspenders, and cummerbund—\$6.50. (2) Plan 1-less shirt and jewelry—\$5.50. If interested, contact your dormitory manager for an application form. All orders must be in by noon, Tuesday, October 13.

Students will also be permitted to wear their ROTC uniforms to the dance. The formal military uniform consists of the regular uniform worn with a white shirt and black bow tie.

The IDC Ball is free to all dormitory resident. Bids may be picked up from the dormitory managers.

The Tommy Dorsey Orchestra under the direction of Warren Covington has been engaged to play for the Ball. The annual dance which is the highlight of the dormitory social season is sponsored by the Inter-Dormitory Council.

STUDYING CAN BE SCREAMS

If studying is bugging you, try mnemonics.

Mnemonics, as we all know, was invented by the great Greek philosopher Mnemon in 526 B.C. (Mnemonics, incidentally, was only one of the inventions of this fertile Athenian. He also invented the staircase which, as you may imagine, was of inestimable value to mankind. Before the staircase people who wished to go from floor to floor were forced to live out their lives, willy-nilly, on the ground floor, and many of them grew cross as bears. Especially Demosthenes who was elected Consul of Athens three times but never served because he was unable to get up to the office of Commissioner of Oaths on the third floor to be sworn in. But after Mnemon's staircase, Demosthenes got up to the third floor easy as pie—to Athens' sorrow, as it turned out. Demosthenes, his temper shortened by years of confinement to the ground floor, soon embroiled his countrymen in a series of senseless wars with the Persians, the Visigoths and the Ogallala Sioux. He was voted out of office in 517 B.C. and Mnemon, who had made his accession possible, was pelted to death with fruit salad in the Duomo. This later became known as the Missouri Compromise.)

...he was unable to get to the third floor to be sworn in.

But I digress. We were discussing mnemonics, which are nothing more than aids to memory—catchwords or jingles that help you remember names, dates and places. For example:

*Columbus sailed the ocean blue
In fourteen hundred ninety-two.*

See how simple? Make up your own jingles. What, for instance, is the important event immediately following Columbus's discovery of America? The Boston Tea Party, of course. Try this:

*Samuel Adams flung the tea
Into the briny Zuyder Zee.*

(NOTE: The Zuyder Zee was located in Boston Harbor until 1904 when Salmon P. Chase traded it to Holland for Louisiana and two outfielders.)

But I digress. To get back to mnemonics, you can see how simple and useful they are—not only for history but also for everyday living; for instance:

*In nineteen hundred fifty-nine
The smoke to look for is Alpine.*

"Why Alpine?" you ask. Taste that fine, fresh flavor. Enjoy that subtle coolness. Until Alpine you needed two cigarettes to reap the benefits of Alpine—one for flavor, one for high filtration—and smoking two cigarettes is never graceful; in fact, with mittens it is nigh impossible. Now you need only one cigarette—Alpine. Get some. You'll see.
