Southeast District CU's To Meet Here

The 10th annual Region IV Conference of the National Association of College Unions will be held at State College today through Saturday.

Approximately 130 delegates from 19 colleges and universities will attend.

Theme of the three-day meeting will be "The Role of the College Union in the Changing Educational Scene."

The delegates will register Thursday morning and will tour the State College campus and the North Carolina Museum of Art Thursday from 2 until 5 p.m.

Group discussion and a stunt night program will be held Thursday night.

Chancellor John T. Caldwell of North Carolina State College will welcome the delegates in a talk Friday at 9 a.m.

The keynote address will be delivered Friday by Dr. Earl E. Harper, director of the Me-

morial Union at the University of Iowa, whose theme will be "A Union Credo." Presiding will be Woody Morcock of Davidson College, conference chairman.

Regional officers, in addition to Chairman Morcock, are:

Region vice-chairman, Richard Mashburn, Florida A. & M. University, secretary-treasurer, Betty Black, North Carolina State College; arrangements chairman, Charlie Selden, State College; parliamentarian, Jack Sites, University of Florida; nominating committee chairman, Stan Timblin, State College; regional funds committee chairman, Betty Black, State College.

Also represented will be New Hanover High School at Wilmington.

A photographic exhibit of the college unions of the United States will be on public display in the South Gallery of the State College Union during the conference.

Frosh Ready For Elections; Nomination Books Now Open

By Bob Linder

Election time is again just around the corner, and before many more hectic days, the State College campus will be decorated with scores of election notices and campaign posters. Yes, it is nearing that time of year when the freshmen rush madly to the polls to cast their votes.

This very day, the books are open for any freshman who would like to run for a class office. Students interested in seeking an office should go by

room 206 in Holladay Hall and sign the nomination book before Friday, October 23.

Murray Rudisill, chairman of the elections committee, has released the rules for the freshman election as drawn up by the Campus Election Committee; these will be printed in full at the end of this article.

The nomination books, now open for signups, will remain open until Friday, October 23. Candidates must sign the book between the hours of 8 a.m. and 5 p.m. Remember, you must

have another student to co-sign with you in order to make it official.

A freshman class meeting is scheduled for Monday, November 2. At this time the voting procedures will be outlined and the candidates for major offices will be given time to make brief campaign speeches.

The primary elections will be Tuesday, November 3; the finals are to be held Thursday, November 5. On poll days, the booths will be open between the hours of 8 a.m. and 6 p.m. These booths will be located at the following sites:

- #1 College Union
- #2 YMCA
- #3 Winston Hall
- #4 Becton-Berry-Bagwell
- #5 Between Alexander and Burlington (White House)
- #6 Bragaw Dorm
- #7 Riddick

Last year, less than half the freshman class turned up at the polls. In contrast to that record, Rudisill and the Campus Election Committee are hoping for a more representative vote from this year's frosh.

Deadline Advanced For Queen Contest

The Blue Key, Honorary Fraternity, urges all fraternities, dormitories, organizations and interested individuals at State College to enter a contestant in the Homecoming Queen Contest!

This will be one of the foremost events on campus this year and should be a very colorful contest. The ten finalist of the contest will ride in the grand Homecoming parade. The winner will be officially declared at the Halftime Ceremonies of the big game. She will be officially crowned Miss Wolfpack on Saturday night in the College Union at the homecoming Dance. There will also be a trophy given to the grand winner.

The pictures of the ten finalist will be displayed in the College Union for several days preceding the Homecoming Day. This will give all students a chance to see just what the ten finalist look like.

The members of the Blue Key will select the ten finalist from

the pictures submitted. The finalist will be formally interviewed by the Judges on Saturday morning, November 1st.

An interesting sidelight is that the pictures and information on the contestants must be submitted to Mrs. Shirley, at the Student Activities Office, Room 206 Holladay hall, not later than 10:00 a.m., Monday, October 26, 1959. This is somewhat before the date that was previously announced as the deadline for contestants.

Any questions concerning the contest may be answered by contacting Phil Carlton VA 8-6382, or Waring Boys TE 2-9484.

A copy of the rules that will govern the contest are as follows:

1. Contestants must be between the ages of 18 and 25, inclusive.
2. Contestants must be single.
3. One full length photograph and one 8 1/2 x 11 portrait must be submitted for judging.
4. The name of the contestant and the name, address, and telephone number of the sponsor should be included with each entry.
5. Pictures and information on contestants must be submitted to Mrs. Shirley, Student Affairs Office, Room 206 Holladay Hall, not later than 10:00 a.m. Monday, October 26, 1959. Any entry that comes in after 5 p.m., Monday, Oct. 26, should be taken to the Student Government Office in the College Union. Pictures will be returned after the contest and may be picked up then at 206 Holladay Hall.
6. Both organizations and individuals at State College are eligible to sponsor a contestant. The contestant need not be a student either at State College or at another school.

RULES FOR FRESHMAN ELECTIONS

1. Nominations will be held by open-book method.
2. Nomination period lasts from October 12th to October 23rd.
3. Nomination books contain candidate's full name, campus address, home address, and be countersigned by interested friend.
4. Candidates for major offices be given opportunity to make campaign speeches during a Freshman Orientation Meeting.
5. All senators be elected by plurality and major candidates by majority.
6. A meeting of all candidates should be held one week preceding the elections so each candidate will have a chance to position his name on ballot.
7. A copy of all campaign rules should be sent to each candidate at least one week preceding the election.
8. One man may run for only one major office and one senatorial position.
9. No election campaign fund may exceed \$25.00. In compliance with this, all candidates must submit an itemized expense sheet within twenty-four hours after final election.
10. No candidate may campaign in such a manner as to disturb classes.
11. Notices must not be tacked or nailed to trees or buildings. String may be used.
12. Each candidate is responsible for seeing that his posters are removed within twenty-four hours after the final election.
13. No campaign will take place within fifty feet of the polls.
14. Sound trucks will not be used during classes nor after six o'clock P.M. Sound trucks may be used during class changes. STRICT COMPLIANCE IS EXPECTED.
15. In case one candidate receives a clear majority in the primary (more than 50% of the total votes) he will be declared the winner without a run-off.
16. Each candidate is held responsible for the actions of his supporters.
17. Any violation of these rules can cause a candidate to be disqualified.

CAMPUS ELECTION COMMITTEE
Murray Rudisill, Chairman

Campus Crier

The Young Democratic Club will meet on October 21, at 8:15 p.m. in the College Union Ballroom. Miss YDC will be selected to represent the club in the Homecoming Queen Contest. All interested students, regardless of membership status, are invited to attend.

Four members of the Pershing Rifles left yesterday for a P. R. convention in Baton Rouge, Louisiana.

The Pershing Rifles company here at State is Company L, Fourth Regiment. In next week's Technician there will be an article about the P. R.'s here at State.

Any organization that is interested in having a picture of their club in the 1960 Agromock, please contact Led Daniels, 2444

Have You Written Home Lately?

Within the next few days, State College students will have an opportunity to lend a helping hand to a proposal which, if carried out, will prove to be of great benefit to State College and every individual student. This proposal is none other than the much talked about State Bond Election.

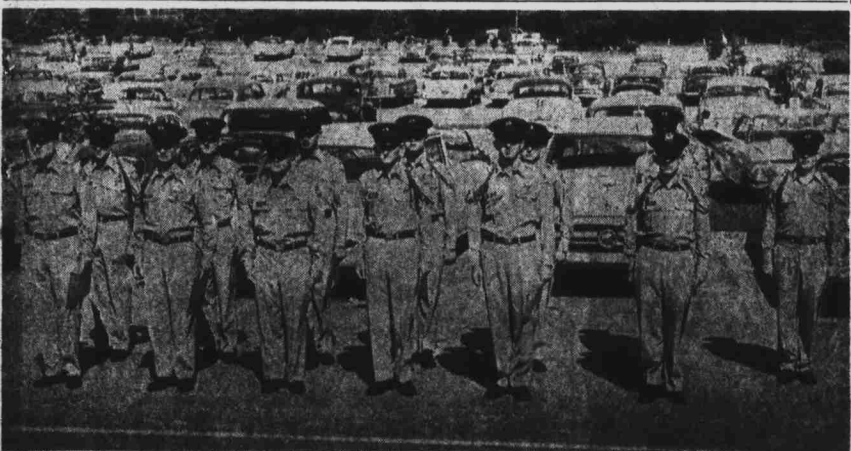

If passed, this bond issue will afford for State College such outstanding additions as a new cafeteria, the popular circular classroom building, a new EE and Physics building, and a new lab building, to mention but a few.

In the near future, every student will be supplied with a postal card, on which will be a short note of explanation concerning the bond issue. Each student is asked to mail this

card to his parents (postage stamps will be attached for mailing) and to urge them to vote YES when they go to the polls.

Students living in dorms and fraternity houses will receive their cards from the respective dorm managers or fraternity officers. Those students living off campus are asked to pick up a card from the College Union main desk or the cafeteria.

The Student Government is sponsoring this campaign and assuming the expense. As students of State College, everyone is urged to support this venture and to back their Student Government. This can be done by mailing the postal cards to all parents and urging them to vote YES for the issue that can mean so much to State College.

These students were selected as Distinguished Military Students, because of their outstanding achievements in both college and military courses, for their displayed leadership abilities, and for their excellent summer camp ratings. If these students retain their D.M.S. rating throughout the

year and become Distinguished Military Graduates, they will be extended the opportunity to apply for a regular army commission.

First row, left to right: Wallace Riddick Baker, Hugh Clements Bennett, Robert Mahon Chiles, Jimmie Solomon Daugherty, William Robert

Guffey, Sam Taylor Smathers. Second row: Bobby Gray Kiger, Theodore Phiness Konkle, Wayne Miller McLaughlin, Jessie Hobson Scott, Jr., Kenneth Edward Steppe, and James Elwin Watson, Jr., Marvin Eugene Howell and Harvey William Sigmon are not pictured.

1,200 Air Force ROTC Cadets Enroll

Approximately 1,200 Air Force ROTC Cadets form the AF ROTC program at State College. This number is an increase over the 1,077 enrolled last year. The cadets receive instruction in the Air Science Programs.

Of the 1,200 cadets enrolled, 1,099 are in the basic course, and 101 are in the advanced course.

The newly appointed wing commander, Cadet Col. Herbert C. Rose, will be assisted in the administration and operation of the Cadet Wing by the following newly-appointed cadet staff officers:

Cadet Lt. Col. William R. Conley of Marion, deputy wing commander; Cadet Lt. Col. James W. Prim, III, of Richmond, Va., wing administrative officer; Cadet Lt. Col. Bobby H. Groom of Zebulon, wing personnel officer; Cadet Major Robert L. Wilkins of Fayetteville, assistant wing personnel officer; Cadet Lt. Col. Mitty A. Courie of Raleigh, wing operations officer; Cadet Major Harold J. Ray of Burnsville, assistant wing operations officer; Cadet Lt. Col. Jerry A. Sawyer

of New Bern, wing material officer.

Cadet Lt. Col. Phillip L. Hughes, of Raleigh, wing inspector; Cadet Lt. Col. Louis R. Kirchdorfer of Raleigh, wing information services officer; and Cadet Lt. Col. Virgil F. Batten, commander of the Marching Cadets.

Cadet Colonel Rose and his staff will direct three subordinate groups, of which each has four squadrons assigned. Recently appointed cadet officers in these units are as follows:

Cadet Lt. Col. Dan Johnson of Rocky Mount, 5951st group commander; Cadet Major James H. Sevier of Asheville, deputy group commander; and Capt. Harold O. Seagraves of Concord, group administrative officer.

Cadet Lt. Col. Roy L. Overton of Raleigh, 5952nd group commander; Cadet Major Henry D. Cranfill of Raleigh, deputy group commander; and Cadet Capt. Clyde W. Davis, Jr. of Pantego, group administrative officer.

Cadet Lt. Col. Jesse F. Mont-

gomery of Smithfield, 5953rd group commander; Cadet Major Ronald C. Spivey of Chadbourn, deputy group commander; and Cadet Capt. Jerry A. Smith of Lenoir, group administrative officer.

Cadet Major Gilbert B. Allgood, of Washington, N. C. 5951st Squadron commander; Cadet Capt. Earl Smith of Hamlet, squadron administrative officer; Cadet Major James C. Edmundson of Pikesville, 5952nd squadron commander; and Cadet Capt. Larry Taylor of Denton, squadron administrative officer.

Cadet Major Howard W. Copenhagen of Morganton, 5953rd squadron commander; Cadet Capt. Gilbert Mayo of Raleigh, squadron administrative officer; Cadet Major Johnnie D. Thomas L. Howitt of Newton, squadron administrative officer.

Cadet Major Richard H. Crockett of Camp Lejeune, 5955th squadron commander; Cadet Capt. Robert H. Myers of Piqua, squadron administrative officer; Cadet Major James D. Samuels of High Point, 5956th squadron

commander; and Cadet Capt. Thomas J. Pone of Valdese, squadron administrative officer.

Cadet Major Leonard G. Freeman of Raleigh, 5957th squadron commander; Cadet Capt. Amiel J. McCall of Maxton, squadron administrative officer; Cadet Major Jack E. Wilkie of Valdese, 5958th squadron commander; and Cadet Capt. Phillip Yarbrough of Lexington, squadron administrative officer.

Cadet Major Edward E. Whaley of Richlands, 5959th squadron commander; Cadet Capt. Richard D. Knox of Raleigh, squadron administrative officer; Cadet Major Paul W. Foley of Charlotte, 5960th squadron commander; Cadet Capt. Joseph

Cure For Major Tobacco Disease Discovered By N.C.S. Scientist

State College reported Monday a major breakthrough in its tobacco research program.

A college scientist, Dr. J. Lawrence Apple, has succeeded in transferring complete black shank resistance to tobacco plants without any apparent effect on the plants' yield or quality.

He used a new source of black shank resistance, found in a wild South American species of tobacco. Dr. Apple says the new source can be transferred easily to any tobacco variety. It gives complete protection.

For example, Dr. Apple can take 402, an old line tobacco variety, and make it completely resistant to black shank. None of 402's desirable characteristics would be changed.

While basic in nature, Dr. Apple's work could eventually affect everything from annual tobacco disease losses to foreign markets.

This is why: Most Tar Heel farmers must grow a variety of tobacco that has at least some resistance to black shank.

Scientists have developed resistant varieties, but only with great difficulty. Their only source of black shank resistance has been Florida 301, a type of tobacco grown for cigar wrappers.

Dr. Apple's work should also mean a reduction in black shank losses. The disease, which is caused by a soil borne fungus, has cost Tar Heel farmers about \$10 million annually over the last three years.

At The College Union

by Oscar Taylor

Mentioned in this issue of *The Technician* is an article about International Week. This is a week during the year when the CU committees sponsor a program schedule to introduce the

students at State to the many foreign countries of the world. These programs are planned with an international scope to enable the student at State to develop a better understanding of foreign students. Make an effort to attend these programs, perhaps you will enjoy the programs and at the same time learn about other countries.

The games committee sponsors the campus wide Fall Table Tennis Tournament on October 27th at 7 p.m. You can sign up

at the main desk or the games desk for this tournament during October 15-October 25. There will be awards presented to the first and second place winners.

Come to the Sock Hop in the CU ballroom following the State-Wake Forest Football game. The event is free to all students and will help to kick-off the football season at State. The dance will be October 17 and will begin at 10 p.m. Dress is informal.

There will be a mask making demonstration in the craft shop on Monday evening, October 19th. The demonstration begins at 7:30 p.m. and will be presented by D. S. Grosch. This will be an opportunity for married students to make masks for their children for Halloween, or for Homecoming participants to learn paper mache for floats.

Panorama this Friday night will present a movie on Bullfights. It is a complete explanation of the art of bullfighting. Each stage is shown in detail and should be of interest to all students. The Movie starts at 8 p.m.

The International Week programs are sponsored by the various committees of the College Union. Of special interest to State Students is the program scheduled for October 20. Averell Harriman will give an address in the ballroom at 7:45 p.m. The program is sponsored by the Forum Committee and the Mayor's Executive Committee for United Nations. All students and faculty are invited to attend.

ESSO RESEARCH works wonders with oil

Hav-a-banana-bunny!

Good eating...good for you...that's a banana! But a fungus growth that attacks banana plants threatened the economy of banana production. Old-fashioned sprays were cumbersome to apply and expensive. Then Esso Research developed a special oil mist that ends this fungus growth easily and economically. People eat better...cars run better...because ESSO RESEARCH works wonders with oil.

IA Seniors Begin Practice Teaching In North Carolina Public Schools

The Industrial Arts Department of State College reported today that 17 of its students have been assigned to 10 weeks of full-time, off-campus student teaching duties in 10 of the State's public high schools.

In making the announcement, Dr. Ivan Hostetler, department head, stated that the teaching work of the seniors "should help to relieve the critical shortage of industrial arts teachers in our State."

He said the group will return to the State College campus for a conference November 13 and 14.

While engaged in student teaching, the seniors are working under the supervision of leading teachers in various public schools.

Following are the students assigned to teaching duties, their hometowns, the schools where they are teaching, and the supervising teachers:

Joseph Wilson Pool, Jr. of Elizabeth City and Jacob Craig Quickel of Charlotte. (Asheboro High School, Asheboro—Blondy H. Scot, supervising teacher).

John Martin Jenkins, Jr. of Greensboro. (Kiser Junior High School, Greensboro—William S. Scarborough, supervising teacher).

Kelly Raygene Crump of Lenoir and Thomas Edward Wallace, Jr. of Raleigh. (Southern High School, Durham—A. N. McKneely, supervising teacher).

Robert Earl Williams of Eagle Springs and Robert Donald Rhyme of Fuquay Springs. (Clayton High School, Clayton—M. A. Sorrell, supervising teacher).

Vernon Ray Stevens of Goldsboro and Augustus Donald Scott of Currie. (Alexander Graham Junior High School, Fayetteville—John K. Lancaster and Milton Bass, supervising teachers).

Edward Rodin Sugg of Smithfield and Gilbert Schwartz of Jersey City, N. J. (Goldsboro High School, Goldsboro—Lloyd B. Stevens, supervising teacher).

Phares S. Nye, Shannon. (LeRoy Martin Junior High School, Raleigh—Wilben Bass, supervising teacher).

Isaac Leroy Bigham of Raleigh and Fred Mac Davis of Franklinville. (Hugh Morson Junior High School, Raleigh—Paul Waldrop and Ralph Rigdon, supervising teachers).

James Dwight Gregson, Jr. of Liberty and William Gardner McCrary of Clyde. (Josephus Daniels Junior High School, Raleigh—Thomas Darrell Spencer, supervising teacher).

Allen E. Edwards of Spring Hope. Needham Broughton High School, Raleigh—Frank Crawford, supervising teacher).

Moravian Candle Tea Opens Christmas Season In W-S

The Moravian Candle Tea will open the Christmas season in Winston-Salem. It will be open to the public during the following times: Wednesday night, December 2 from 7:00 p.m. to 9:00 p.m. and Thursday, December third through Saturday, December fifth from 2:00 to 9:00 p.m. Last year, approximately 7,000 people attended the Candle Tea at the Historic Brother's house, which was built on Salem Square in 1768.

Hostesses in early Salem Cos-

tume will greet guests at the door and guide them through the Candlemaking room. Here, ladies will actually make candles in the same way they were made in early Salem. In the sub-basement two putz will be on display. One section will be the nativity scene, and the surrounding country side of Bethlehem. The other section will be a replica of Salem Square in 1800 with each tiny house constructed to scale of the original

buildings. In one of the sub-basements sitting in front of a huge rock, fire place the guests will be served sugar cake and coffee.

Soft Christmas hymns will be played throughout the tea to add to the atmosphere of spiritual surroundings.

General admission of adults is 50¢. The money will be used to carry on the work of the Home Moravian women of the church.

Student-Designed Homes In National Magazines

Three of American top magazines are carrying features of home designs by State College students.

Last spring students in the School of Design at State College entered a home design competition, sponsored by the Edison Electric Institute of New York and won the majority of awards, including three of the four top honors.

The prize-winning designs of three N. C. State Students have been included this fall in an advertisement that has been or will be run in *Look*, *The Saturday Evening Post*, and *Life*.

The advertisement includes four home designs, including three from N. C. State. The other design was submitted by a student from Penn State.

State College students whose work was featured in the ad were P. Conner Lee of Hamilton; James E. Kluttz of Salisbury; and William C. McGee of Raleigh. Lee and McGee are professional students in design, and Kluttz is a sophomore.

The advertisement was presented in a double-page spread in *Life Magazine* on September 14 as a part of a 30-page advertising section on the Medalion Home.

The Saturday Evening Post carried the advertisement in its October 10 issue.

The *Life* circulation is estimated at 32,000,000 readers and some 4,000,000 reprints will be distributed by utilities and other sponsoring companies addition.

who said it first?

A column of incidental intelligence by Jockey brand

"BITE THE HAND"
Edmund Burke first noted that some men will bite "the hand that fed them". But Mark Twain, in "Pudd'nhead Wilson", refined the observation and made it biting:
"If you pick up a starving dog and make him prosperous, he will not bite you. This is the principal difference between a dog and a man."

"PRAISE THE LORD AND ETC."
Perhaps the most popular remark to come out of World War II is this exhortation made at Pearl Harbor by Lt. Comm. Howell M. Forgy, a Navy chaplain:
"Praise the Lord and pass the ammunition."

"IGNORANCE IS BLISS"
It was Thomas Gray who coined this comforting generalization in behalf of all "D" students. See his "On a Distant Prospect of Eton College":
"...where ignorance is bliss,
'Tis folly to be wise."

Jockey SKANTS' striped brief

"Merely sensational"—that's the judgment of college men who have seen the new Jockey Striped SKANTS. Jockey stylists have taken their own original 100% stretch nylon bikini-style brief (already a national favorite)...added candy stripes...and produced a garment you'll really enjoy wearing.

SKANTS is cut high on the sides with a low waistband and comes in a choice of red, black, green, rust or blue stripes. Look for SKANTS—in stripes, or solids—in the Jockey department at your campus store.

fashioned by the house of *Cosperini*

EDITORIAL COMMENT

Sign Up and Serve

Though still inexperienced in the field of college tactics and expressions, the barely one-month-old freshmen class has already begun an operation that will see several of the individual members reach the college spotlight for the first time.

Last Monday, the sign-up books were opened in Holladay Hall so that interested freshmen could drop by and denote their interest to run for a student government or class office.

With only six days remaining in the sign-up period, a very disappointing number of freshmen have indicated that they want to take part in the government of their class or school for the coming year.

This is the first opportunity to serve the school that the majority of the freshmen have had. Of course, a few have enrolled in professional societies within their schools; but, nevertheless, the greatest number are still "green" when the field of extra-curricula activities is considered.

The Student Government represents an excellent opportunity for students to learn the general procedure by which most governments whether on a local or national basis, are run. This legislative branch of the Student Government system here at State affords each individual member the chance to meet with his fellows and discuss the aspects of State College life which directly influences the students' well-being.

Also the freshmen now have the opportunity to serve their school by running for a class office. The work that one experiences in this field, while working with others in the collection of dues and the selection of dance orchestras, proves invaluable as similar situations arise later in life.

About fifteen members of the freshmen class will come out victorious when the final ballots are counted on November 23; but, because only fifteen can win is no reason for many class members not to sign-up.

All fourteen hundred members have equal chances to hold any of the top offices; the only way that the strong contenders can be set apart is by looking at the way in which the campaigns are conducted in a few weeks.

The Technician is willing to help all candidates for freshmen offices if they will just come by with an article announcing their candidacy. No election can be won by sitting in the dormitory bull sessions night after night. Victory requires a concentrated effort on the part of the candidate and his manager.

Now is the time for the freshmen who plan to take an active part in the student affairs of State to move into action. The first step is now in process; the others will follow. Sign up and serve.

—JM

Hideosities . . .

by Tom Olive

I shot an arrow in the air!

Letter to the Editor

To the Editor:

My roommate and I would like to express our views on the education we are attempting to get, and see if you have a suggestion about the situation. I am in a class of physics of over one hundred students. We have, in our opinion, the world's poorest teacher.

Sometimes, when the bell rings for class dismissal, only ten or fifteen of the class members are present. The others have left from time to time in disgust. Also, when the class starts there are often only ten or fifteen present; others saunter in, and leave just as irregularly.

Then I go to calculus. It is just as poorly taught. A seemingly disinterested graduate student mumbles and talks to the blackboard. In talking with over fifty members of the class, we feel that few of us will be able to pass the final examination.

Another large class of thermodynamics in which my roommate is attending contains about sixty students. He was told that if he wants questions answered, he may go to the instructor's office at his appointed office hours and get the questions answered. He feels that he is learning very little about thermo.

These large classes are a far cry from the instruction our Dads received. They cannot understand why State College has allowed the educational program to be cheapened so much. Do you, as editor, have any idea of how we, as students, can demand and get a better quality of instruction?

Yours for a better State College.

Bill Smith

(Editor's note: It would be rather hard for us to conduct a campaign to overthrow the professors in the Physics Mathematics, and Mechanical Engineering Departments. Not only would it be a difficult task, but there is the probability that we, if we were successful, would cause some of the competent professors in those departments to lose their jobs also.

However, we discern from this letter that the problem of poor professors is not the only reason that it was written. Also, an apparent theme of this letter is that we have overcrowded classrooms, which are exceedingly detrimental to gaining a clear comprehension of a particular course.

If this is an underlying theme of the letter, then we on The Technician, in conjunction (we hope) with the entire student body, are trying to do something about this inconvenience.

On October 27, the people of North Carolina will go to the polls to vote in one of the most important Bond Referendums in recent years. In that Bond Vote is an eighteen million dollar item which will be used for capital improvements in the state's schools of higher education.

State College has a share in this Bond Vote of \$4,799,000. If the Bond Referendum is approved by the people of North Carolina, State's share will go toward the construction of a new Classroom Building, a new Electrical Engineering and Physics Building, and a new General Laboratory Building. With these improved facilities on our campus, a considerable alleviation of the presently crowded classrooms would be effected.)

Campusology

By Nick Ardito

The Technician editorial last week commented about the lack of vitality of our students so far this year. After I read it, I pondered about the subject and came to this satisfactory conclusion: if it is a true premise that a man gets life through his stomach (as somebody said a few centuries ago) then no doubt, we could explain very clearly the "lively" moods of our students by visiting the campus cafeteria. Our readers only have to go there and glance at the "food" served at the cafeteria, and he would understand, with a thought of sympathy, the torment faced by the students who eat there.

If you are one of those who prefer the delicacies of other restaurants, please allow me to mention a few facts about our cafeteria. I know these facts are known to the martyrs of the latter's "food". The motto in the kitchen of that appetite killing building is "Eat Grease, and ye shall be happy". And, by Gosh, the cooks stick to it. The fact that you may order liver, or hamburger steak, or country steak (hamburger steak with more grease) or ham, or any meat could not matter less. All of it will taste the same: like grease, plain and unadulterated.

We understand that the cold season is coming and a great deal of calories are burned to maintain body temperature, but all of these calories do not need

to come from grease. "By Gosh", not even the Eskimos make grease their only plate. But we exaggerate just a little bit. Now, of course, you can take a salad (if you are a vegetarian and do not eat meat) like a slaw, or tossed salad, it does not matter which, either way you will enjoy tasting vinegar and kitchen oil as potent as the best old wood alcohol you ever tasted. If, by chance, the greasy meats have not satisfied your sensitive stomachs (the cooks do not know stomachs and tastes can be sensitive) just order string beans fried in two-inch deep pork grease, and the never-dreamed-of taste of hell will be in your plate. Here again, we exaggerate just a little bit.

During Orientation week, there was a welcoming sigh by the doors of our conspicuous cafeteria building. For a few days we thought that at last somebody was trying to improve the situation. Very soon we found it was a mistake, the food was the same old nondescript compound of grease, vinegar, proteins and carbohydrates—a vitamin molecule now and then. I guess "they" (whoever "they" are at the cafeteria) wanted to make the old collapsing structure with its food one of these cherished traditions of State College. What a sense of humor! Well "old cafeterias never die, they just fade away". And the cook's are sure helping.

Greeks On Campus

By Bill Marley

If you will bear with me, I'd like to express one of my infrequent printed opinions. It is a crying shame that some fraternities must rely on "high-pressure" salesmanship and tactics instead of simple merit to induce rushees into their midsts. This "high-school-harry" idea of waiting on their doorsteps until the rush hours begin, and then chaffing them to the other three required houses is just a little too much for mature (?) fraternity men.

Other ridiculous incidents that I observed during Rush Week was the cute little trick of sending a rushee, who was sold on a particular house, to another fraternity to lure those rushees, in whom the first house was interested, back to that house. Also, the trick of waiting outside of another fraternity house while the "golden-haired" rushee was paying his brief, pointless visit was a slight move that contained little merit for the fraternity system in general.

Really, gentlemen, if these are the methods in which we have to resort in order to snare unsus-

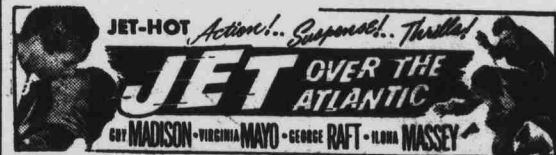

pecting rushees, our system here at State is long overdue for some radical changes. It is very doubtful that any fraternities are in favor of deferred Rush, but, if such crude rushing tactics continue, those fraternities who are presently against deferred rush and are fighting these aforementioned tactics may change their minds in favor of deferred rush. The reason that this deferred rush would be effected is so that the freshmen would have one semester to become familiar with the fraternity system.

Think about it, my Greek friends of both today and tomorrow.

According to Holladay Hall statistics, a grand total of 442 bids has ended an eight-day rush schedule. This compared favorably with the five hundred sent out last year.

Many combos were on hand on the campus on the party nights, Friday and Saturday, and from all reports gathered a rocking good time was had by both rushees and brothers.

CALL TE 3-7701 AFTER 6 P.M.

The thing uppermost in the minds of students all around this week is not themes, not chemistry quizzes, and not even how to pass general math. Instead, it's the North Carolina State Fair which is already well in progress.

The magic world of cotton candy, sawdust, dishonest barkers, fixed games, millions of tired people, fireworks, food at outrageous prices, livestock, and fantastic rides is here again; and try as hard as they will, few people can get it out of their blood stream. Realizing that most of our readers—all 3 of them—will go to the fair, we'll remind you of some of the celebrities who will appear.

They are: Betty Johnson, North Carolina's own; the Everly Brothers; the Crests, Paul Evans and the Curls, Santo and Johnny, the Passions; and a host of others including Red Foley—Pat Boone's father-in-law. These nice people will appear in the arena to provide audiences with much entertainment.

Speaking of singers, The Brook Benton Rock and Roll show was said to be a really

swinging affair this past Monday, and that's nice. Look for more about it in a later column.

DID YOU KNOW that Paul Anka and Annette supposedly have a hot romance going on? This was passed on to one of the WKNC staff members who was interviewing the entertainers when they were on the State Campus a few weeks back. Did you know that Mickey Mozart, who has recorded many instrumentals "Little Dipper", "Pink Parfait" is a pseudonym for a very famous musician who won't reveal his name.

Did you know that the State Room is still in business even after the fabulous Claude J. has abandoned it for greater things? Did you know that Ave Gardner is one of the richest movie stars in the world. She's reportedly a millionaire.

Next week, we'll talk about Modern Radio since so many comments are going around on campus. We'll discuss it both pro and con.

JOKE: New student: "What do you have in the way of entertainment here?" Old student: "The faculty and the administration." That's meant only for a joke. Please, don't take it seriously unless you think it's true.

job in Washington in the latter part of June. He has been doing fine with hopes of moving on to the network at a later date. Bob is also remembered for his wonderful voice on "Starlight Concert", a program no longer heard in this area. This column wishes him all of the luck in the world; he is an all-around nice fellow.

For those of you who stay up during the wee hours of the night, there is now a 24 hour radio station. It's WKIX, 850 on the dial. There is also some discussion about lengthening the broadcast period for our own WKNC at 550 on the dial.

A thought for the near future: Vincent Price, that wonderful man who brings such weird productions to life as "The Fly", "House of Haunted Hill", and "The House of Wax" will appear in the O.U. soon.

Viewing in review: "The Kingston Trio" dialed up a real ringer of a show on "The Telephone Hour". Eve Arden showed up on "The Red Skelton Show" and stole the show. Dinah Shore washed up a good night of fun this Sunday past with Pat Boone, who should return soon.

TV to watch: Jack Webb gets caught in the web on "Person to Person" tomorrow night. The cameras will also go west to visit Mae West in Hollywood.

This is all for now. Suggestions are cheerfully invited to this column. Please send comments, criticisms, and money to The Technician.

State College Team

Wins Fourth Place In Dairy Judging

Fourth place in the Southern Intercollegiate Dairy Judging Contest, held last week at Memphis, Tenn., was won by a team from State College.

Twelve teams competed in the contest. First place went to the University of Tennessee.

State was third highest in Brown Swiss, fourth highest in Jerseys, and fifth highest in Guernseys.

William J. Summey, Route 1, Dallas, ranked fourth highest in individual scoring competition. In individual scoring by breed, Summey also ranked third highest for Holstein. John Etchison, Route 2, Mocksville, was second highest for Holstein.

Other team members taking part in the contest were Joe M. Williams, Route 1, Olin; and Robert M. Pilch, Basking Ridge, N. J.

Dr. W. Ray Murley, associate professor in dairy husbandry, is the team coach.

The State College team is now enroute to Waterloo, Iowa, where it will take part in the national dairy judging contest on Monday.

Science Academy Offers Fellowships

The National Academy of Sciences-National Research Council has again been called upon to advise the National Science Foundation in the selection of candidates for the Foundation's program of graduate and postdoctoral fellowships. The Foundation plans to award approximately 1,100 graduate and 125 postdoctoral fellowships in these two programs during the 1960-61 academic year.

Committees of outstanding scientists appointed by the Academy Research Council will evaluate applications of all candidates. Final selection will be made by the Foundation and awards announced on March 15, 1960.

Open only to citizens of the United States and awarded solely on the basis of ability, the fellowships may be applied to advanced study in the mathematical, physical, medical, biological, and engineering sciences, including anthropology, psychology (excluding clinical psychology), and the following social sciences: geography, mathematics,

tical economics, econometrics, demography, information and communication theory, experimental and quantitative sociology and the history and philosophy of science. They are open to college seniors, graduate and postdoctoral students, and other individuals with equivalent training and experience.

All applicants for graduate (predoctoral) awards will be required to take an examination designed to test scientific aptitude and achievement. This examination, administered by the Educational Testing Service, will be given on January 16, 1960, at designated centers throughout the United States and certain foreign countries. The annual stipends for graduate

Fellows are as follows: \$1800 for the first year; \$2000 for the intermediate year; and \$2200 for the terminal year. The annual stipend for postdoctoral Fellows is \$4500. Limited allowances will also be provided to apply toward tuition, laboratory fees, and travel.

Further information and application materials may be obtained from the Fellowship Office, National Academy of Sciences-National Research Council, 2101 Constitution Avenue, N. W., Washington 25, D. C. The deadline for the receipt of applications for regular postdoctoral fellowships is December 22, 1959, and for graduate fellowships, January 1, 1960.

Space-age thinking and communications

Reach for the stars.

That's what a company like Gen Tel—America's second largest telephone system—must do to find new and better ways to build tomorrow's communications services.

And that's what our large and highly trained staff of scientists and engineers continuously aim at. These are the men and women who are engaged in the development of new and promising techniques in fields such as memory systems, advanced electronics, high-speed switching, and data transmission.

Gen Tel has been research-minded ever since its small beginning. That's one of the

reasons we have grown into a system that has 1,745 exchanges in 30 states, providing modern service for over 3,700,000 telephones. Our lines carry 119 million conversations each week, and we're adding 3,750 new phones every week.

To keep up with our country's growth, we continue to think ahead, plan ahead, invest ahead. In fact, this year, alone, we're investing almost \$200 million in new facilities required to meet the ever-increasing demand for more and better telephone service.

These are typical examples of how we strive—not only to meet today's communications needs but to answer tomorrow's.

Textile, Agriculture Schools Sponsor Booths At State Fair

By Mike Lea

The School of Textiles and the School of Agriculture at State College are sponsoring exhibitions at the State Fair. The pictures on this page show the exhibits which are in the main arena, better known as the "Cow Palace."

The North Carolina State Fair is the biggest fair of its kind in the South. This year it will feature exhibits, the 4-H Clubs of North Carolina, nationally-known entertainers, horse races, North Carolina newspapers, and auto races.

The picture on the top left is of the Agricultural Engineer's exhibition. It depicts a way of harvesting hay in one day by using the most modern methods and machines.

In the middle top, the Textile Booth is shown. This booth tells high school students about the careers in textiles that are open to graduates of State.

A booth describing phases of agriculture that are just coming into being is shown in the top right.

On the bottom, other pictures of the Textile booth and the Agricultural booths are shown.

Prizes totaling more than \$55,000 will be awarded to the winners of the various exhibitions at the fair. The exhibitions range from general exhibits such as 4-H sponsored booths to booths on bees and honey. Farmers and clubs from all over the state have sponsored the exhibits and are competing for the prizes.

The estimate of the number of people who will come to the fair this year is placed at over a half-million.

Formal opening exercises of the Fair were held Tuesday morning in the "Cow Palace." State Agriculture Commissioner L. Y. Ballantine, Dr. J. S. Dorton, State Fair manager, and

Photos By "Sky" Kugler

members of the State Board of Agriculture were the main figures in the opening exercises.

The presentation of \$16,000 for the planting of shrubs around the arena, which were presented to the State by the North Carolina Association of Nurserymen, highlighted the opening.

The fairgrounds opened Tuesday at 8:00 a.m. and will close at 12:00 p.m. on Saturday.

This year, the State Fair will honor the State's 4-H clubs on reaching their fiftieth anniversary. In conjunction with this, the 4-H Clubs will provide much of the Fair's entertainment. The 4-H entertainers will perform before the main grandstand show every evening at 7:00. They will also perform in front of the State Fair Arena every day at 7:00 p.m.

The Tuesday shows featured

an acrobatic act and a baton twirling performance.

On Wednesday night, the 4-H Club members presented a novelty act, a baton act, and a vocal sextet.

Tonight's performances will include a soprano solo, an interpretive dance, and a Highland Fling Dance Group from Robeson County.

A ballet performance, a vocal solo, and a show by the Carson Cloggers of Macon County on Friday night will round out the 4-H Club performances.

Former 4-H club members who attend the fair will be asked to sign the "Big Book" which will be in the 4-H section of the Educational Building. This book will be presented to the D. H. Hill Library at State when the fair is over. The book will be kept in the library as a me-

morial to all 4-H Club members. The grandstand show which will be held every afternoon and evening is the Satellite Review with the Manhattan Rockets.

The State Fair race track will be the scene of auto races and harness racing during the week of the fair.

A country and western style show and a "rock and roll" show are the two shows that will be held in the Arena during the Fair.

"Jubilee U.S.A." with Red Foley, Pat Boone's father-in-law, and Betty Johnson from Charlotte appeared in the Arena on Tuesday and Wednesday, and starting tonight "Rock and Roll U.S.A." with the Everly Brothers and other top singers will present five performances.

The annual Folk Music Festival under the direction of Bascom Lamar Lunsford of South Turkey Creek will be held again

this year. It will consist of folk music groups and soloists from all over the State who will perform three times daily.

The Fair will honor North Carolina newspapers with a full day of emphasis. This is the first time in history that a major American exhibition has paid a tribute to the press. National Newspaper Week starts on Thursday and the Fair is holding the exhibition on Newspapers in conjunction with it.

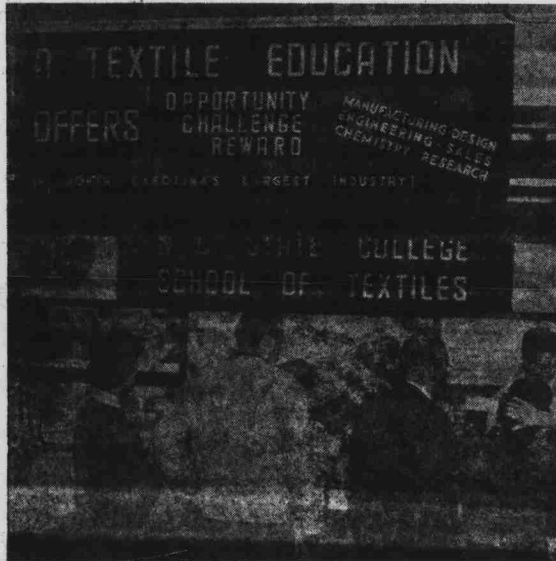

The Fair has set aside a display space 50 by 10 feet in the State Fair Arena for a newspaper display. This display was arranged by Dean Neil Luxton of the University of North Carolina School of Journalism. The display will be managed by University of North Carolina Journalism students.

The familiar side-shows and rides are at the fair again this year, thus insuring people of all tastes an enjoyable and educational time.

Col. Merriam Names Smathers To Head State's R.O.T.C. Brigade

By Mike Lea

A Cadet Colonel Sam Taylor Smathers has been appointed Head of the R.O.T.C. Brigade at State College for the coming year. His selection was announced by Colonel Lauren W. Merriam, the professor of military science and tactics to the college.

Cadet Colonel Smathers is a senior majoring in forestry Smathers, from Canton, North Carolina, is a member of Lambda Chi Alpha social fraternity. During his junior year he was the executive officer in the Pershing Rifles.

Colonel Merriam is head of the Military Science department here. He is responsible for the direct supervision of the department which includes the Military Science program.

Colonel Paul was born in La Grange, Ohio, in 1910, and graduated from the Military Academy at West Point in 1933.

After graduation, he served in the U. S. Army both overseas and as an instructor of French at the Military Academy until the start of the Second World War.

During the War, Colonel Paul served in the European Theater. Initially he was on the staff of a joint U. S. British planning Staff under the direction of Lord Louis Mountbatten, and later he was with the 28th Infantry Division which he joined just before the Battle of the Bulge.

He remained overseas after his division had left, and returned to the States in May, 1947. During this time he was attached to the Information and Education Service in Europe.

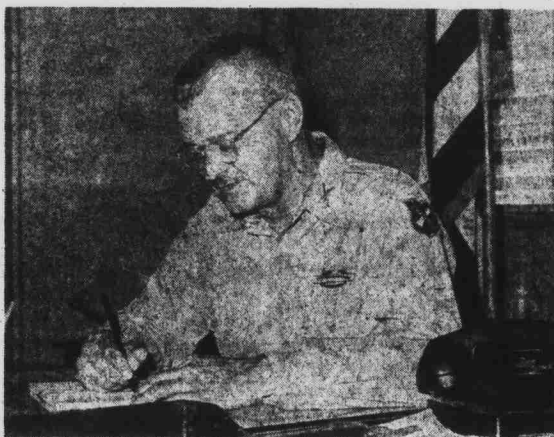

Upon returning to the states, he was a student and an instructor at the Command and General Staff School and served as the commander of a training regiment at Camp Roberts, California.

He was later sent to the French Staff College where he served as an instructor. While he was still in Europe, he served with the 5th Corps in Germany. Colonel Merriam returned to the United States in 1954 and served in the Headquarters of the Continental command until 1957.

In December of 1957, Colonel Merriam took command of the Military Science department here.

State Band To Appear At WF Game

The State College Marching Band will make its first home appearance this year when it comes out on the field Saturday at the game against W. F.

This year's band is the largest band in State College History and is the largest marching band in the state.

For the half time show the band will present a program on the Halloween theme. The Band will move into the field into an entrance formation which spreads from the 10 yard line to the 10 yard line. After a brief fanfare, the band forms a gigantic Pumpkin. At this point the

will carve the eyes, nose, and mouth with his baton as the Band members form after this pattern.

The next formation involves a glass and a little brown jug. The Band actually turns the jug on the field and you will be able to actually see the cider pour from the jug into the glass. The last drop will seem to be a little difficult to get out so the Band will shake the jug and finally the last drop pours down into the glass to prove that this too is "good to the last drop."

At this point, the band will quickly cover the entire field in

12 square dance circles. When the command is given the Band strikes up the familiar "To My Lou", and not only plays this gay music but at the same time engages in an authentic square dance routine. This will be an astounding sight to see as each square dance circle carries out precisely the same movement at the same time.

At the conclusion of the square dance the Band will form to take a bow to the audience and then form the figure which has become familiar to State fans, the beautiful State College monogram formation for the State College Alma Mater.

Omar Khayyám writes a new jingle

Old Omar has come up with another corker of a couplet. Freely translated from the Persian:

**It's what's up front that counts
If it hasn't got it there it hasn't got it.**

True, the lines don't scan. But what do you expect from a tent-maker—the perfect rhyme of "Winston tastes good like a cigarette should"?

We'll admit that something may have been lost in the translation. But when it comes to Winston, nothing is lost in the translation of rich, good tobacco taste. That's because up front of a pure white filter Winston has Filter-Blend—a special selection of mild fla-

vorful tobaccos specially processed for filter smoking. Winston is designed to taste good. Or, as Omar puts it: The Moving Lighter lights, and having lit, Flicks off. Then you draw on IT. And bit by bit smoking pleasure mounts; With Filter-Blend up front, Winston's got what counts!

Pack Battles Deacons In First Home Game

North Carolina State plays its first home football game of the season Saturday night against its oldest foe.

The Wolfpack, snake-bitten in its last two starts, entertains Wake Forest, the Atlantic Coast Conference's leading darkhorse. Game time in Riddick Stadium is 8 o'clock.

A near-capacity crowd is expected for the 53rd meeting of the long-time rivals. The Deacons enter the game with a 3-1 record having disposed of Florida State, Virginia Tech and Maryland. The only loss was a 6-0 tilt to Tulane.

State is 1-2 for the season after consecutive defeats by North Carolina and Clemson following an opening day win over Virginia Tech.

"We have forgotten the Clemson game," Coach Earle Edwards said, "and I hope we won't come up with another performance like that. I thought we played a good first half, but everything we tried in the second half back-

fired. It was one of those days." The State-Wake Forest series has been one of the most colorful in the South. The ancient foes haven't missed playing each other since 1909.

Here is a dot-dash review of the series:

The teams first met in 1895 and the game ended in a 4-4 tie. Of the 52 games played thus far, State has won 26 and Wake Forest has won 20. Six ended in ties. . . The Wolfpack's most one-sided wins were a 76-0 in 1908 and 51-0 in 1914: The Deacons' most decisive triumph was 54-6 in 1943.

State has held the Deacons scoreless 14 times, while Wake Forest has blanked the Wolfpack 10 times. . . The Pack shut-out the Deacons five straight times from 1912 to 1916. . . only three of the 52 games have been 0-0 ties and two of those were in consecutive years, 1932 and 1933.

The 52 games have resulted in 1,219 points, 735 by State and

484 by Wake Forest. . . One point has separated the two teams only twice and the Deacons won both contests, 13-12 in 1934 and 19-18 in 1945. . . the last big upset was in 1949 when the Wolfpack, a three touch-down underdog, triumphed 27-14.

State's longest win streak against the Deacs was 10 in a row from 1908 through 1917. During that time, Wake Forest scored only 15 points and was shutout seven times. The Baptists' longest victory skein was four from 1951 through 1954.

This year's meeting of the Wolfpack and the Deacons promises to be just as exciting as the preceding games between the two schools. This game is a must for the Wolfpack if they hope to have a winning season. Next on the slate for the Pack is a home game with the Duke "Blue Devils" in Riddick Stadium next Saturday afternoon. Following the Duke game the Wolfpack will conclude their home appearances.

Gabriel-Gibson Duo Proves Dangerous

As long as quarterback Roman Gabriel has a strong right arm and halfback Claude Gibson has a pair of swift moving feet, North Carolina State possesses a dangerous passing threat.

The Gabriel to Gibson combination will be mentioned prominently in the scouting report of every Wolfpack foe this year. It's a home run battery which can strike like a coiled rattlesnake.

Gabriel, the 6-3, 205-pound sophomore, isn't the only passer on the squad, to be sure, and Gibson isn't the only receiver. But the twosome must be reckoned with in any opponents defensive plans.

The Wolfpack has effective passers in quarterbacks Gerry Mancini and Ron Wojcicki, and top-notch receivers in halfbacks Bernie Latusick and Ron Podwika, and ends Jimmy Tapp, George Vollmar, Dick Drexler, Bill Harden and Johnny Morris. But the Gabriel-Gibson duo is the hardest to stop.

Coach Earle Edwards hopes both players will be at their best Saturday night when the Wolfpack battles Wake Forest in

Riddick Stadium for an Atlantic Coast Conference.

Gabriel, the only rookie in State's starting lineup, has thrown 36 passes this year and has completed 19 for 192 yards. He has had two aerials intercepted. He's equally effective with long or short passes.

The fastest runner on the team, Gibson uses his speed and a great pair of hands to advantage when he goes out for a pass. In many cases, he simply outruns the defense and Gabriel heaves the pigskin as far as he can, trusting Gibson to get under the ball.

In addition to his offensive talents, Gibson ranks with the best in the ACC as a defensive back. One rival coach has said that Gibson could play pro ball today as a defensive halfback. . . and Edwards agrees.

Come Saturday night, there will be a lot of eyes on Gabriel and Gibson, and it's a cinch Wake Forest's defensive secondary will be among the cautious gazers.

(Continued on Page 10)

Freshman Cagers To Hold Tryouts

Coach George Pickett will begin workouts for the freshman basketball squad Friday, October 16. Any freshman interested in trying out for the team is requested to report to Coach Pickett at this time.

All who are interested should report to Frank Thompson Gymnasium at 7:00 p.m. on Friday, October 16, and again on Saturday, October 17 at 4:00 p.m.

Boys must attend both workouts to be considered for the squad. Please do not come by the basketball office, but report directly to the gym. All boys should bring their own equipment and should be in fairly good shape.

The Wolflets are anticipating a large turnout for the pre-season drills, and everyone who is interested is encouraged to participate. The freshman squad will be going this season hoping to equal or better the 13-4 record set by last year's Wolflet team.

This year's freshman team promises to be a very good team as there are seven boys on basketball scholarships this season.

Meet Dates Set

The 1959 Intramural Track Meet will begin Monday night, October 19, when the dormitories start their preliminaries. The fraternity preliminaries will be held Tuesday night, October 20. Finals for both the dormitories and fraternities will be held October 22.

Field events will start at 7:00 p.m., while running events will be staged at 8:30 p.m. The order of the events will be as follows: 440 yard dash, 100 yard dash, 65 high hurdles, 220 yard dash, 120 low hurdles, and 880 yard relay.

Each organization may enter two (2) men in each event. Limit per person is two running events and relay.

It is very important that the athletic directors turn in their completed entry blanks by 8:00 the night of the preliminaries. Signing up for the field events may be done at the site of the events.

All athletic directors are urged to have their men turn out for this meet. The fraternities and grand participation last year. Let's see both the dormitories and the fraternities turn out in large numbers.

Members of the Varsity and Freshman Track team are eligible to participate in the Intramural Track Meet. The Kappa Sigs and Turlington Dormitory were last year's Team Champions.

Mancini Spots Receiver

Notes From The Wolfpack

John Tobin, the Wyoming line coach who died Saturday, was a close friend of Coach Earle Edwards. The 30-year-old Cowboy assistant played under Edwards at Michigan State.

Edwards and assistant coach Pat Peppier, who also was at Michigan State, expressed shock at the news of Tobin's passing. "He was a fine young man," Edwards said, "and his death was tragic."

Tackle John Lawrence is passing out new plays (he said he couldn't afford cigars) following the birth of his first child, a son, last week.

An example of State's bad luck thus far is shown by the fact that the Wolfpack has lost the flip of the coin three straight times this season.

The Wolfpack's "lost week end" at Clemson was a comedy of errors. In addition to being shut out for the first time since mid-season of 1957, the team had to return from Clemson by bus and arrived in Raleigh at 7:30 Sunday night, 24 hours late.

Bad weather forced the Wolfpack to forsake its chartered plane Saturday night and again Sunday morning. Coach Earle Edwards missed his weekly TV show Sunday afternoon and his press conference that night.

Guard Frank Marocco was the quipster of the week end. After riding a bus all day, Rock said,

"we're travelling about as badly as we played."

Of the 56 points scored against State this year, over half (33) have come in the fourth quarter. Coach Edwards says it is not a matter of conditioning or depth, however. "It's just

H. J. FINCH, PRESIDENT

LUCKY STRIKE presents

Dear Dr. Frood:

Dr. Frood, Ph.T.T.

DR. FROOD'S MORAL OF THE MONTH

Things worth having are worth working for. For example: If you want a football letter, find a football player and ask him to write you one.

Dear Dr. Frood: I'm flunking everything but math. I get D in that. Help me.
(Name withheld by request)

Dear Withheld: Spend less time on math.

Dear Dr. Frood: I have a ravishingly beautiful girl in my class. Sadly, she is witless. Should I flunk her?

Bookish

Dear Bookish: Pass her. Other professors are waiting.

Dear Dr. Frood: I go steady with two girls—one in the dorm, one in the Theta house. Traveling between the two places is making a wreck of me. What to do?
Tired

Dear Tired: Get your girl to get your girl into her sorority.

DR. FROOD AND THE AMAZING NEW FILTER

I had occasion recently to study the remarkable "no smoke" filter made of solid lead. No matter how hard you puff, you get no smoke. Incidentally, a pack of these cigarettes weighs 2 pounds. Luckies weigh less... and you get smoke. The best.

COLLEGE STUDENTS SMOKE MORE LUCKIES THAN ANY OTHER REGULAR!

When it comes to choosing their regular smoke, college students head right for fine tobacco. Result: Lucky Strike tops every other regular sold. Lucky's taste beats all the rest because L.S./M.F.T.—Lucky Strike means fine tobacco:

TOBACCO AND TASTE TOO FINE TO FILTER!

Product of The American Tobacco Company—"Tobacco is our middle name"

Dear Dr. Frood: I am a 35-year-old freshman. Should I wear a beanie?
Worried

Dear Worried: If I were a 35-year-old freshman, I'd wear a mask.

Dear Dr. Frood: Nobody likes me. Girls despise me. Men can't stand me. Profs detest me. Dogs snap at my cuffs. What should I do?
Hated

Dear Hated: Don't ask me. I don't like you, either.

Dear Dr. Frood: I'm a non-conformist. But I smoke what everybody else smokes—Lucky Strike. How can I be different and still smoke Luckies?

I. M. Odd

Dear Mr. Odd: Light both ends of the Lucky and insert a straw into the middle. Sip the smoke through the straw and say "wildsville" after each puff.

THE Penguin's Roost

(Author's note: Since the exodus of "Clean Living", there has arisen among the students a growing unrest, comparable in magnitude to the Russian Revolution. This column is a feeble attempt to satisfy the needs of these intellectuals, moralists, and sex maniacs, and is dedicated to the task of providing reading enjoyment to those hungry souls regardless of class, curriculum, or mental age—

I AM A PENGUIN, and as such I see things in a different light from most of you. For instance a cold beer makes me homesick. You see, the Eskimos have no bathrooms, so they—**CENSORED**—on the ice, and so, you see why a cold beer makes me homesick.

We have been reading so much about the evils of drink that we have decided to give it up... reading, that is.

A State senior went to pick up his date last Saturday. As they got in the car, she asked if he noticed anything different about her.
He: Let's see; new hair-do?
She: No.
He: New dress?
She: No.
He: O.K., I give up.
She: I'm wearing a gas mask!

A State boy and a Carolina boy wandered happily into a girl's dorm at Carolina after the game by mistake. The Carolina boy lost his head and ran; the State boy remained calm and collected.

Another scene after the Carolina-State game: Eight fratern-

Pack Notes

(Continued from Page 9)

the way things have been happening," he said. "We're in good shape physically."
The Wolfpack's field generals, Roman Gabriel and Gerald Mancini, display offensive strength in preparing for the Wake Forest Deacons. Many problems have been ironed out in this week's practice session.

ity men climbed drunkenly into a tiny Renault with a uke and bongos accompanying them. "You drive, George," said one, "You're too drunk to sing."

Next week, Sigma Alpha Upsilon returns to State!

Then there was the Italian prostitute who never let a dago by.

Question to Dr. Fails in the Econ. Department: Why does the girl with the least principle draw the most interest?

Then there was the E. E. student who named his girl "Carbon" because her resistance went down when she got warmed up.

One interesting definition of a Sadist was found by us in University of Missouri Showme: Sadist—a person who locks the fraternity bathroom door on the night of a beer party.

A serious thought for today, Is one that may cause dismay, Just what are the forces That bring little horses If all of the horses say "nay"?
—Mercury—

Cadets Enroll

Weeks of Tarboro, squadron administrative officer; Cadet Major John H. McNeill of Red Springs, 5961st squadron commander; Cadet Capt. Billy J. Boles of King, squadron administrative officer; Cadet Major William K. Bartlett of Raleigh, 5962nd squadron commander; and Cadet Capt. Edgar V. Safrit, Jr., of Salisbury, squadron administrative officer.

Gabriel-Gibson

(Continued from Page 8)

Wake Forest also has a good passer in Norman (Slinger) Snead, who has such fine receivers as ends Pete Manning and Bobby Allen, and halfback Winston Futch. The game could easily end up being one of the finest passing duels of the season.

We'll be back next week in spite of the federal pornography agents who are hot on our tails. Remember, you are the hope of the world for tomorrow (GADS!) so—Don't just do something... Stand There!

Super Sub!

It's been said that the atomic submarine "Nautilus" stays submerged so long that it only surfaces to let the crew re-enlist.

Perhaps for this reason, the Navy has taken valuable space aboard the "Nautilus" for the only soft-drink vending machine in the entire submarine fleet.

Naturally (or you wouldn't hear about it from us) it's a Coca-Cola machine. And not unexpectedly, re-enlistments are quite respectable.

Rugged lot, these submariners. Great drink, Coke!

WKNC Presents Tomorrow

The WKNC Drama Workshop takes to the airwaves again tonight at 9 p.m. with the second presentation of "Exploring the Unknown." The radio adaptation of Philip Wylie's novel "Tomorrow" will be featured in its entirety. This professional play, which stars Orson Welles, was produced for radio by the Civil Defense Administration. Although it is strictly a fictional story, "Tomorrow" does point out very vividly the necessity of effective civil defense. The events that occur in this play could happen to any town or city in the United States.

"The Name It" contest is over. Listen to WKNC tomorrow at 5 p.m. for the announcement of the winner and the winning name for the program.

Why are so many college men switching to pipes?

SEND YOUR ANSWER IN 25 WORDS OR LESS

WIN 4 YEAR WARDROBE

261 PRIZES IN ALL

1st prize—A famous Botany "500" wardrobe every year for 4 years (2 Suits, 2 Sport Jackets, 2 Pair of Slacks, and 1 Topcoat.)

Next 5 prizes—Ultra-precision imported Sony Transistor Radio

Next 5 prizes—World-famous pocket size Minolta "16" Camera

Next 250 prizes—Kaywoodie Campus Pipe

Pick up an official entry blank at your regular tobacco counter, or write Kaywoodie Pipes, Inc., New York 22, for one.

HINTS TO WIN: Why men smoke pipes—There's a rich, fulfilling, "all's well" feeling that a man gets only from a pipe. A relaxed, calm-you-down contentment that's associated exclusively with pipe smoking. And you get all the pleasure of smoking without inhaling.

Why pipe smokers choose KAYWOODIE

Kaywoodie Briar is imported, aged, selected, hand crafted, hand rubbed, tested, inspected, and only then does it earn the coveted Kaywoodie Cloverleaf. That's why Kaywoodie hefts airily light; always smokes cool and sweet. The exclusive Drinkless Filament inside the pipe condenses tars, moisture and irritants as nothing else can. Try a Kaywoodie. One puff is worth 1,000 words.
