Technician To Print Literary Supplement

By Joel Ray

There is now being waged on our campus a campaign to eliminate the stamp of "assembly-line production" from our educational process. Through coordinated and dedicated efforts of interested parties, including college personnel and community members, this heretofore justified description of State College is slowly but surely becoming more vague and unfounded.

One of the most important contributions toward this goal is being made in the field of arts. Taking into consideration that State is a technical institution, it is literally becoming a veritable hotbed for outstanding attractions in the arts.

A few examples: the recently formed "Friends of the College" initiated a series of four excellent attractions last year and will continue this year with such features as the New York Philharmonic with Leonard Bernstein and Archibald MacLeish's highly acclaimed Broadway play, "J. B."; the Appollo Club has presented highly competent lecturers speaking on a wide variety of non-technical topics; the Library Committee Inc. will present a series of four lectures in the arts by such literary giants as John Dos Passos, author of "U. S. A.," and Lawrence Ferlinghetti, poet-leader of the "west-coast movement."

These welcome additions to State College life have been and will continue to be supported with vigor and enthusiasm as the trend toward a more well-rounded education gains momentum. You will have to agree that these attractions provide stimulating relief from the Physics Book and the Slide Rule.

Please note, though, that these presentations have required very little student participa-

tion aside from the relatively simple act of spectating.

So, in an effort to provide the student with a sounding-board for his talent, *The Technician* is planning to publish, sometime in January, its first LITERARY SUPPLEMENT. It will be, in effect, the artistic voice of the STUDENT.

This will be no small task, of course, at a technical school such as ours. But there is definite evidence of worthy artistic talent at State in creative writing, art, design, music, etc. And most of these talents have no suitable outlet at the moment. This is your chance to be heard.

In case you are wondering how you will be heard outside of our little college realm, pay heed to the following information: The SUPPLEMENT, once published, will be sent to large publishing houses (Bantam Books, Grove Press, J. B. Lippincott, and Doubleday & Co., to name just a few), a representative cross-section of the best libraries in the U. S., all newspapers in the state, and many colleges in the U. S. In these areas, there are always people on the lookout for new talent in the arts.

It is hoped that the publication will feature not only creative writing, such as poetry, fiction and essays, but will include such things as book and record reviews, designs and paintings, and papers on religion, psychology, philosophy, politics, world affairs, and travel. And this is by no means a complete scope of possibilities for publication; there are many more.

If you feel that you have a flair for creative work and would like to contribute something for publication and/or work on the staff of the SUPPLEMENT, please contact Joel Ray at TE 3-4522 immediately for further details.

State's Enrollment Reaches All-Time High This Term

By Mike Lea

According to figures recently released by State College's Division of Student Affairs, the attendance at the college for the fall semester has reached an all-time high. Six thousand five hundred and ten students enrolled for classes this semester. This figure includes graduate students, unclassified students, and students taking the special two-year Agricultural Institute program.

The total number of undergraduate students is 5,755;

while there are 755 graduate students enrolled.

The number of Coeds enrolled also reached a new and dazzling total of 186.

Approximately a third of the enrollment this semester is made up of students who are new to the campus. One thousand four hundred and ninety freshmen began their education this fall, while five hundred and twenty-eight students elected to switch from other schools and universities all over the nation.

An interesting statistic in the break-up is that there are more

seniors enrolled than either juniors or sophomores. The seniors lead the other classes with 1318. There are 1,171 and 1,117 sophomores and juniors, respectively. The total number of freshmen is 1,810.

The famed School of Engineering had the top enrollment in the college for another year with over three thousand students. Second was The School of Agriculture, which was followed closely by the school of Education. There are 766 agricultural students; while there are 640 in the School of Education.

Four hundred and twenty-nine are studying textiles, 417 students are enrolled in The School of Forestry, and the new

school of Physical Sciences and Applied Mathematics has attracted 414.

The school of Design has 300 students this year.

Two hundred and forty-three foreign students from fifty-one countries and one possession give State a cosmopolitan aspect, and its 530 veterans of the Korean and Second World Wars gives it an experienced look.

Approximately a third of the students are Baptist, and another fourth are Methodist.

Only 423 students were dropped this year for scholastic deficiencies. This showed a marked decrease from the nearly a thousand that were dropped last fall semester.

By Administration Grad Tuition Announced

On May 23, 1960, the Board of Trustees adopted unanimously a resolution setting tuition charges for students enrolled in the Graduate School, effective with the beginning of the Fall Semester, 1960, applicable only to the semesters of the regular academic year and not applicable to the summer sessions. The following statement of tuition and fees supersedes and previously announced or published schedule and became effective with the fall term registration.

TUITION

North Carolina residents—\$8.00 per semester hour of enrollment up to and including 9 semester hours. If enrolled for 10 semester hours or more, \$75.00 per semester.

Non-resident—\$26.00 per semester hour of enrollment up to and including 9 semester hours. If enrolled for 10 semester hours or more, \$250.00 per semester.

Tuition for the summer sessions remains as heretofore.

FEES

Incidental fees and charges are levied for purposes and serv-

ices available to all graduate students in residence whether or not the student takes advantage of them. The full amount of incidental fees and charges will be collected, notwithstanding the number of semester hours credit for which the student may enroll.

For the academic year 1960-61, fees are as follows:

First Semester \$71.00 (Academic fees \$33.00; non-academic fees \$38.00)

Second Semester \$65.00 (Academic fees \$33.00; non-academic fees \$32.00)

In cases of occasional or part-time students not in residence, application for cancellation of non-academic fees may be made if it is clear that the student could not use the services covered. Application forms are available in the Graduate and College Business Office.

Full-time faculty members of instructor level or above may be permitted to take one course per semester at a flat rate of \$15.00 per semester or to audit one course without charge, in either

(See TUITION, page 8)

YDC Endorses Sam Johnson

The North Carolina State College Young Democratic Club met Wednesday night in the College Union. At this meeting the club unanimously endorsed Sam Johnson for President of the Young Democratic Clubs of North Carolina.

Mr. Johnson has practiced law for eight years in Raleigh, and is a member of the Executive Committee of the Wake County Bar Association. He is also a

member of the N. C. Bar Association, and the American Bar Association. He received his education at Pfeiffer College, and the University of North Carolina, where he earned an LL.B. degree.

Sam is a Presbyterian, a Lion, and a Jaycee. He has served as Chairman of the finance Campaigns in Wake County for the Boy Scouts of America and the March of Dimes.

He is a native of Sampson County and is married to the former Anne Latham of Rose Hill. They have one daughter.

Campus Crier

A film of Senator John Kennedy's appearance before three hundred Protestant ministers in Houston, Texas, will be shown in the College Union Ballroom Thursday (October 6) at 7:30 p.m.

The program is mainly for Student Wives, but everyone is invited to attend. Babysitters will be provided for the children.

A Sock Hop will be held immediately following the State-Maryland game on October 8. The Hop will be held in the College Union Ballroom. Those not attending the game are invited to come at 8 p.m.

An overnight camping trip at Kerr Lake will be held October 15 and 16. Meals, transportation, and sleeping bags will be furnished. Fishing can be enjoyed by those who bring their own fishing tackle and license. There will be swimming also. Sign up at the College Union main desk by twelve noon, Friday (October 14).

Graduate students may register for one course as an audit

in any semester without charge when the audit is certified by the Dean of the Graduate School as a part of course work for which tuition charges are made. While audit registrations are evaluated for purposes of determining permissive course loads, the Business Office considers all audits, excepting the one permitted free of charge, in terms of full credit value in calculating the fees for graduate students.

All graduate students holding college appointments of 1/3 service obligation or more and receiving a regular monthly salary check are charged the resident or "in-state" rate of tuition.

A non-resident student holding a non-service grant paying him at least \$1000 for nine months is entitled to a special tuition rate: \$180.00 per semester.

Graduate students who are in residence for the purpose of writing a thesis or dissertation may register for thesis preparation. The tuition charge for this registration is \$15.00. Students registering for this preparation will pay all non-academic

National News

U S Orbits 500-lb. Satellite

By ALVIIN B. WEBB
United Press International
CAPE CANAVERAL, Fla. UPI—The United States Tuesday orbited a 500-pound military communications satellite—the forerunner of an espionage-free communications system—which promptly received and relayed a message from President Eisenhower to Secretary of State Christian A. Herter.

The launching from the Cape Canaveral space center was the nation's 28th and most complex success since Russia orbited its first sputnik exactly three years ago.

U. S. scientists and military officials said the successful orbiting of the "Courier" satellite, which can receive and record high-speed radio-teletype and voice messages from one station and relay them to another, represented the first step in a plan to provide free world military forces with an

instantaneous and unjammable communications system.

Transmission of the message from Eisenhower to Herter between U. S. Army ground stations at Fort Monmouth, N. J., and Salinas, Puerto Rico, via the satellite, was announced in Washington by Richard S. Morse, director of Army research and development.

The message was flashed to the satellite at the rate of 68,000 words a minute as the 51-inch sphere shot above the horizon on its first pass around the earth. From Puerto Rico, it was relayed by radio to Herter at the United Nations in New York.

Contents of the message were not disclosed immediately.

Morse, who called the satellite's performance "excellent," said a message from Army Secretary Wilbur Brucker, which had been carried aloft by the radio satellite, also was beamed back successfully.

Jubilant officials announced the orbit had been attained two hours after an 80-foot Thor-Able-Star rocket carried the ball-shaped orb off its launching pad in a burst of orange flame at 1:49 p.m. EDT.

The basic function of the Courier satellite is to receive and record high-speed radio-teletype and voice messages from one station and relay them to another when triggered by coded signal. The satellite, hurtling through space at 20,000 miles an hour, has the capacity to memorize and transmit in 10 minutes wordage equivalent to the 773,693-word standard version of the King James Bible.

The satellite's instruments are designed to operate for one year, but they can be shut off at any time from command signals from the ground. Courier itself will continue to orbit for many years.

Tuesday's shot, a repeat of an abortive launching attempt last

Aug. 18 when the rocket exploded, was aimed toward an orbit 650 miles high and as close to the equator as possible.

Describing Courier's performance as excellent, Morse said the satellite's highest point of orbit was 658 miles and its lowest point 502 miles.

He said it was orbiting the globe once every hour and 46.7 minutes but that because of the earth's rotation is actually would take Courier about 115 minutes to make a complete circuit.

WASHINGTON, UPI—The complete text of the U. S. Constitution was transmitted 650 miles into outer space to the Courier satellite Wednesday and then radioed back to earth.

The Constitution was part of 1,500,000 words sent to and from the 24-hour-old satellite during the day.

In addition news items about a dog, a truck and an empress

Comments From The Editor Take Notice

It was with considerable interest that we read recent letters to *The Technician* concerning our Honor System. The men whose opinions were published in our paper had different points of view; in their discussion of the situation they presented some ideas well worth considering. The encouraging fact was that these students were interested enough in the Honor System to express themselves.

The history of the State College Honor System is comparatively short. Since tradition can sometimes play an important role in the success of such a system, its status at State is surprisingly good. Today we are establishing the pattern for our system to follow in years to come—and our pattern is a good one.

Let's not overlook the failings of the Honor System, however: In a group as large as the State student body, it is not surprising that some individuals lack respect or knowledge of the Honor System. We have read of these in a recent issue of *The Technician*. It is an unfortunate story.

A successful Honor System depends upon several factors: student acceptance, faculty cooperation, and the administration.

Student organizations, as well as individual students, have been working long and hard to make our system even more effective and more valuable for all of us. The improvements which they, in association with the faculty and administration, have produced are very promising of the things to come.

The students at State themselves established the Honor System several years ago, realizing the values and advantages such a climate would provide. Since that time, the overall attitudes of the men of State have become increasingly favorable. This is natural, too. From the beginning of his freshman year each student quickly notices that he is treated here as an adult, with a mature sense of judgement and personal responsibility. He soon learns to exercise his judgement.

The faculty and administration have stamped their approval on the Honor System first of all by creating the atmosphere of trust which generally exists on the State campus. By cooperating closely with the judicial department of Student Government, they have contributed greatly to the system's advancement.

We can be proud of the Honor System at State College and the way our students are responding to the personal obligations placed upon them by the system. And the student body is demanding strict adherence to the ethical code of our Honor System. If you are not very familiar with your responsibilities under the Honor System as a student, you had better find out. The stakes are too high.

LITTLE MAN ON CAMPUS

"ONE THING—PROF SNARF TEACHES YA TO THINK FOR YERSELF—I'VE JUST DECIDED TO DROP THIS COURSE."

Fraternity Flashes

By Ed Puckhaber

For you social-minded Greeks, all 800 or more of you, here is that promised dope on the Fall IFC.

Some moans and groans expressing disappointment over the entertainment for the weekend have been heard. I can understand the disappointment some have experienced upon learning that Duke Ellington will not be here as planned earlier. However, the dance was originally scheduled for November 5th, but had to be moved up to October 29th due to a conflict in dates here at the school. That is, a higher priority organization also had scheduled an event for November 5th, so the dance date had to be changed. Due to this last minute change, we had to cancel the Ellington engagement and try to locate another band. The band now under contract is the Erbie Green orchestra.

In addition, we also have under contract one of the nation's leading female vocalists. I am sure all disappointment will be gone after we enjoy the singing of Chris Connor at the concert and dance.

The concert is planned for 2 p.m. to 4 p.m. on Saturday the 29th with the dance following at 8:30 that night. Both events will be held in the coliseum. Miss Connor will entertain for one hour at the concert and will appear as featured vocalist at the dance.

Alan Altman has asked me to remind all houses that manpower will be needed on Friday afternoon and Saturday morning of IFC weekend to help with the setting up of tables and preparations for the dance. Also, Alan would like to plan a different type of presentation ceremony for the IFC officers, house presidents, and the social committee. The idea is to come up with some plan which would break away from the usual figure-type presentation. Anyone having a new or better plan for the presentation, please contact Alan Altman at the Sigma Alpha Mu house.

President Cooke Appoints Students To Traffic Board

Bob Cooke, Student Government President, announced today that the following students will serve on the 1960-61 Student Government Traffic Committee:

Donald D. Blizzard, Chairman; Van D. Sherrill; James F. Page; G. Rex Barker; Talmadge T. Brown, Jr.; James E. Ingram; Thomas H. Stevens; Maurice B. Phillips.

Members of the student committee also serve on the College Traffic Committee which formulates rules and regulations governing the flow of traffic on campus and the use of parking facilities.

The SG traffic committee is charged with the responsibility of hearing appeals from students who feel they have been unjustly ticketed for traffic violations. The committee will meet each Monday at noon in room 109 Pullen Hall to hear appeals.

"The experience and mature judgment possessed by the members of this committee will be important factors in the manner in which traffic problems are handled. The student body is indebted to these men for their conscientious approach in meeting a situation which is continually more complex," President Cooke declared.

Letters To The Editor

To the Editor of *The Technician*:

The day has been hot; and the professor lectured on something unfamiliar, because you hadn't bought a book. A lack of money, no; a lack of books, YES! Your 11:00 A.M. class ends; and you walk out of a small room, and turn the corner to get something to eat. Five hundred other students are standing in line; you join them. Lunch is being served from a room at the front of the line. The room is two meters by three meters in size, where one man is serving the entire student body. Could you eat a meal here in relative comfort, sitting on the sand in the direct sunlight, knowing that your education is of the same caliber?

Masa Nishihara, a graduate of UNC from Japan, told the Campus Chest Drive, Coordinators that this type of eating facility is very common at Universities in Indonesia. Indonesia is one of many countries which receive annual funds from the World University Service. WUS is to be one of the recipients of this year's Campus Chest Drive, from October 31 through November 5. World University Service is an international organization supported by forty-one countries, with headquarters

in Geneva, Switzerland. Its purpose is to meet basic needs of universities; promote sharing of knowledge; and to develop an international understanding of good will among students.

Each year, delegates of an international committee assemble in a designated country to discuss the countries which will receive support during the coming year. This year's contributions will go to India, Indonesia, Africa, and earthquake stricken Chile. The funds collected are not turned directly over to the students; but are used to set up student cooperatives, university communities, hospitals, health centers, student emergencies fund, and educational facilities. One college in the far East received a mimeograph, so students could print their own texts.

Since 1919, WUS has been helping countries in academic work. Fortunately, the United States has been on the giving end, and has not required funds. It is therefore hard for us to realize the value in this type of help to other students. Americans can not say that they have discovered every end. Some discoveries have been made by former students from other countries, which have received our aid.

LET'S HELP AGAIN THIS YEAR!

Jim Spotts

To the Editor of *The Technician*:

Members of the junior class are strongly opposing a Student Government ruling of May, 1960, which states that class rings are not to be ordered until the second semester of the student's junior year. An increasing number of State College juniors, unaware of the resolution before it passed last spring, are demanding public opinion on the matter.

In the past, juniors received class rings in December. As the ruling now stands, juniors will get class rings in May. A real shaft to some students.

As Junior Class President my duties require me to represent the Junior Class as a whole in such matters. Within the next week each junior will have a chance to sign a petition concerning the repealment or amendment of the resolution. The petition will circulate through the dormitories Thursday night. Off campus students will have a chance to sign the petition at the College Union Main Desk.

My wholehearted support and effort will be behind the results of the petition.

College Releases Car License Data

Information for out-of-state students concerning the operation of motor vehicles in North Carolina has been released to *The Technician*. The regulations are as follows:

1. Students attending North Carolina colleges who have their private passenger vehicles properly licensed in their state of resident and who do not become gainfully employed in North Carolina or establish a residence in North Carolina may operate their vehicle with their home state license plates. This applies whether the student is single, living in the dormitories or married and living in an apartment with his wife.
2. A non-resident student, if at least 16 years of age, having in his immediate possession a valid operator's license issued to him in his home state or country, may operate a motor vehicle in this State only as an operator. His home state driver's license would be sufficient for driving his out-of-state car. The same would apply to temporarily driving an automobile registered in North Carolina.
3. The fact that a student's wife is working in Raleigh does not affect the student's position in respect to license requirements if he is owner of the car. However, if the

automobile is owned by his wife, the fact that her husband is a student would not exempt her from North Carolina registration requirements while she is residing and working in North Carolina. A student's wife working in Raleigh would not affect the student's position in respect to driver's license.

4. As long as the student remains a non-resident, he may drive a car, registered in North Carolina, with his home state driver's license. This would also apply if he owned a car registered in North Carolina or his home state. If the car is registered in his home state and the driver's license issued in another, he would either have to obtain North Carolina's driver license or secure one from his home state.
5. The above exemption from registration for out-of-state students does not extend to members of the faculty who are gainfully employed in North Carolina.

Any out-of-state students who may have questions regarding registration matters should consult Miss Fay Ingram, Director of Department of Motor Vehicles Registration Division.

S G Announces Rules For P A Systems

John Kanipe, Chairman of the Student Government Rules Committee, in a release to *The Technician*, reported on the use of the recently-purchased mobile public address system belonging to the student body.

"At the close of the spring semester last year the Student Government approved the purchase of two portable, battery-powered megaphones — units which have a range of one-half mile. These public address systems belong to the student body as a whole, and are for the convenience of State College students and student organizations."

Rules governing the use of the public address systems are the following:

1. Not to be used in the academic areas from 8:00 A.M. to 12:00 noon, or from 1:00 P.M. to 5:00 P.M.
2. Not to be used in the dormitory areas before 7:00 A.M., and not after 7:00 P.M.
3. Not to be used in the dormitory (dormitories) at any time.
4. Not to be used by candidates for election to campus offices.
5. Not to be used off campus at any time.
6. There shall be a two (2) hour limit on use by students and organizations.
7. Person (S) checking out the megaphones shall be held responsible for any damages which might occur.
8. There shall be a rental charge of fifty cents (.50) per hour.
9. Only one megaphone is to be checked out for use at pep-rallies. This one is to be checked-out by the head cheerleader.
10. The megaphones are to remain at the College Union main desk and to be checked-out by the College Union Staff.

Kiwanis "Circle K" Club Formed By NCS Students

Twenty-two students have signed up for the Kiwanis "Circle K" Club on the campus. Temporary officers of the club will be elected tonight at a 7:30 meeting in the College Union.

Any other students interested in joining the club are welcome at tonight's meeting. It's unnecessary that you be connected with Kiwanis in any way, or even know anything about this civic organization.

L. L. Ivey, member of the Raleigh Kiwanis Club and manager of the Student Supply Store, will be at the meeting along with other representatives of the Raleigh and Capital City clubs. They will explain the operation of Circle K clubs.

Circle K is a college organization which takes on civic projects—on campus and off—and fosters fellowship among its members. It's similar in organization to the Kiwanis Clubs.

Jimmy Brooks of the Capital City Club believes the Circle K

Club will appeal to all students, but especially to former members of the Kiwanis Key Clubs in high school.

CU Films To Show Kennedy Speech

A film of Senator John Kennedy's appearance before three hundred Protestant ministers in Houston, Texas, will be shown Thursday (October 6) at 7:30 p.m. in the College Union Theatre.

After the film, there will be a short discussion between two ministers on the topic, "The Place of Religion in Politics".

Ballots will be handed out before and after the film for you to show your response to the film.

This program is directed mainly to the Student Wives, but anyone is welcome to come.

Wes Roberts can tell you:

"THERE'S NO CEILING FOR A SELF-STARTER IN THE TELEPHONE BUSINESS"

When Wes Roberts was nearing the end of his senior year at San Jose State College, he was looking for a job with a wide open future. He found it when he joined Pacific Telephone in San Francisco.

Here's how Wes tells it: "I remember one of my first jobs. The boss said, 'Wes, I want you to work out a plan showing where we'll need new field operating centers to keep up with Northern California's growth over the next 10 years.' I didn't know whether I was more happy or scared."

Wes didn't tell us (but his boss did) that he handled the report like a pro. And today, as a

division supervisor, he's holding down a key telephone job.

Wes Roberts' story is not unique in the Bell Telephone Companies. The telephone business is growing fast—and men are needed who can grow just as fast.

Wes can tell you: "We get good training. But no one nurses you along. We hire managers—not errand boys. So far as I can see, there's no ceiling for a self-starter in this business."

If you're a guy like Wes Roberts—if you like to bite off more than you can chew and then chew it—you'll want to visit your Placement Office for literature and additional information.

"Our number one aim is to have in all management jobs the most vital, intelligent, positive and imaginative men we can possibly find."

FREDERICK R. KAPPEL, President
American Telephone & Telegraph Co.

NORTH CAROLINA NATIONAL BANK

Member F. D. I. C.

Member Wolfpack Club, Too!

At The College Union

By Ann Smith

A SOCK HOP will be held in the College Union Ballroom immediately following the State-Maryland football game, Saturday (October 8) from 8 til 12 p.m. Those not attending the game are invited to come at 8 p.m.

THE STARLIGHT CLUB will be held in the College Union Ballroom from 8 til 12 midnight Saturday (October 15). This dance, in the night-club style, is for couples only. Light snacks will be available.

Music will be provided by The Chorveta.

AN OVERNIGHT CAMPING TRIP will be held October 15 and 16 at Kerr Lake. Meals, transportation, and sleeping bags will be furnished. Fishing can be enjoyed by those who bring their own fishing tackle and license. There will be swimming also. Sign up at the College Union main desk by twelve noon, Friday (October 14).

The schedule for next week is as follows:

THURSDAY

7:30 p.m. Bridge Lesson. College Union
7:30 p.m. Ceramics Class. College Union Craft Shop
8:30 p.m. Social Dance Lessons. College Union

FRIDAY

8 p.m. PANORAMA. College Union Theatre. The film is on Horse Racing.
8 p.m. Platter Party. College Union Snack Bar.

SATURDAY

8-12 p.m. Sock Hop. College Union Ballroom
1, 3, 5, 7, & 9 Week-end Movie. This week's movie is "The Lavender Hill Mob" starring Alec Guinness, Stanley Holloway, Sidney Jones. In this academy award winner, Mr. Holland, quiet, trusted supervisor of bullion at the bank, is a dreamer. His dream is an ambitious one to appropriate a million pounds in gold bars. He succeeds, but how to dispose of the gold is another matter. The first chapter of the serial, "Flying Discmen from Mars" will be shown. Another chapter will be shown each week.

SUNDAY

2 p.m. Duplicate Bridge. College Union.
2 p.m. Sunday Afternoon Record Concert. College Union.
1, 3, 5, 7, & 9 Week-end movie.

MONDAY

7 p.m. Photography Beginner's Course. College Union
7:30 p.m. Chess Club. College Union.

TUESDAY

7:30 p.m. Metal Craft Workshop. College Union Craft Shop.

State Pershing Rifles Plan Active Year

The National Society of Pershing Rifles is a national fraternal organization which stresses, along with the social and fraternal aspects of college life, a sense of duty, honor, and respect toward our flag and country. It is also a military honor society which has, as a function, the training of men in precision drill and exceptional skill in the manual of arms. The society was originated in 1894 by the late General of the Armies, John J. Pershing, at the University of Nebraska. It has since grown until there are two hundred and eight units throughout the country. Company L-4 was founded at N. C. State College in 1953, and it has since grown to an active strength of thirty brothers and sixty pledges. The State College unit specializes in fancy drill movements and participates in many shows, parades, and drill competitions each year. In the school year 1959-1960, Company L-4's rifle team placed first in the Fourth Regimental match and first in the Pershing Rifles national rifle match.

Public Relations Group For State College Groups

A wide range of topics claimed the attention of the Public Relations Committee of the State College Development Council at a meeting in Holladay Hall at the college yesterday.

The committee, which advises the college's Development Council on various functions of the institution, is headed by Mose Kiser of Greensboro.

Other committee members are Charles F. Crutchfield of Charlotte, executive vice president

of the Jefferson Standard Broadcasting Company; Elon Borton of Chapel Hill, retired president and general manager of the Advertising Federation of America; John Gordon of Raleigh, Southern advertising director of The Progressive Farmer; and Herbert E. O'Keefe of Raleigh, editor of The Raleigh Times.

Working closely with the committee are L. L. Ray, director of development and foundations at State College; and Rudolph Pate, director of the College News Bureau.

FRIDAY! THE GREATEST SIXTY-ONE DERFUL CHEVROLET

Here's the car that reads you loud and clear—the new-size, you-size '61 Chevrolet. We started out by trimming the outside size a bit (to give you extra inches of clearance for parking and maneuvering) but inside we left you a full measure of Chevy comfort. Door openings are as much as 6 inches wider to give feet, knees, and elbows the undisputed right of way. And the new easy-chair seats are as much as 14% higher—just right for seeing, just right for sitting.

Once you've settled inside you'll have high and wide praises for Chevrolet's spacious new dimensions (in the Sport Coupes, for example, head room has been upped as much as 2 inches, and there's more leg room, too—front and rear). Chevy's new trunk is something else that will please you hugely—what with its deep-well shape and bumper-level loading it holds things you've never been able to get in a trunk before.

Yet, generously endowed as this car is with spaciousness and clean-etched elegance, it holds steadfastly to all the thrifty, dependable virtues Chevrolet buyers have come to take for granted. Your dealer's the man to see for all the details.

There's never been a trunk like it before! The floor's recessed more than half a foot and the loading height is as much as 10½ inches lower.

INTRODUCING THE '61 CHEVY BISCAYNE 6

the lowest priced full-sized Chevy with big-car comfort at small-car prices!

Chevy's new '61 Biscaynes—6 or V8—give you a full measure of Chevrolet quality, roominess and proved performance—yet they're priced down with many cars that give you a lot less! Now you can have economy and comfort, too!

IMPALA 4-DOOR SPORT SEDAN—one of five Impalas that bring you a new measure of elegance from the most elegant Chevrolets of all.

NOMAD 9-PASSENGER STATION WAGON. You have a choice of six Chevrolet wagons, each with a cave-sized cargo opening nearly 5 feet across.

BEL AIR 2-DOOR SEDAN, like all '61 Chevrolets, brings you Body by Fisher newness—more front seat leg room.

Biscayne 4-Door Sedan

MEN'S WEAR

Hillsboro at State College

Dave Guard Heads Kingston Trio

An art gallery, a library, or a second-hand record shop is where you are most likely to find Dave Guard during his leisure hours when the Kingston Trio is traveling. And this may be where Dave feels most at home, because his home in Palo Alto, California, has some aspects of each of these places.

Modern Art Fan

Dave and his wife, Gretchen, are avid collectors of modern

paintings, and valuable works of contemporary artists hang on almost every available foot of wall space in their home.

Dave is also a voracious reader; and as a serious student of musicology, he has shelves of recordings by obscure instrumentalists and all-but-forgotten singers, drawers of out-of-print songbooks and manuscripts, and boxes of file cards that cross-index his research.

Crack Scholar

All of this would seem to indicate a pedantic, withdrawn personality. Nothing could be further from the truth. Although Dave Guard is a crack scholar (B average at Stanford, recipient of many scholarship awards), he is also an outgoing, fun-loving person, and an athlete who loves basketball and baseball and has lettered in football and track. He's an ex-

pert body-surfer, a skindiving enthusiast, and a very good amateur photographer.

Dave was born in Honolulu, October 19, 1934. He attended Honolulu's Punahou School where he met Bob Shane. They both graduated in 1952.

Studied Business

Dave's father, a civil engineer and a colonel in the Army Reserve, thought his son's aptitudes indicated a business career

and Dave agreed. He enrolled in Stanford University and supported himself by washing dishes, waiting on table, and ultimately entertaining in a Bavarian type restaurant. After receiving his B.A. in Economics in 1956, Dave entered Stanford's Graduate School of Business.

While attending graduate school, Dave met a young Stanford co-ed from Los Angeles named Gretchen Ballard, and

what began as a campus romance became a lifetime partnership when they were married the following year.

Their first child, Catherine, was born June 1, 1958.

Principal Arranger

Although Dave is the principal arranger for the Kingston Trio and a fine musician and singer, he is almost entirely self-taught. His only formal musical training has been vocal lessons with the Trio's voice coach, Judy Davis.

Dave is the acknowledged leader of the Kingston Trio and often their spokesman as well. His speech is a colorful combination of musician's jargon and expressions that sound lineally descended from the Encyclopedia Britannica. In this dividualistic argot, anything in which he finds pleasures is "nutty." When it becomes superlative, it is "right off its knob."

Dave's home, his family, and singing before a receptive audience as one-third of the Kingston Trio—all are "right off their knob" for Dave Guard.

SHOW ON WORTH!

NEW '61 CHEVY CORVAIR

More space . . .
more spunk
and wagons, too!

The newest car in America: the CORVAIR 700 LAKEWOOD 4-DOOR STATION WAGON.

CORVAIR 700 CLUB COUPE. Like all coupes and sedans, it has a longer range fuel tank.

CORVAIR 700 4-DOOR SEDAN. Provisions for heating ducts are built right into its Body by Fisher.

Here's the new Chevy Corvair for '61 with a complete line of complete thrift cars.

To start with, every Corvair has a budget-pleasing price tag. And Corvair goes on from there to save you even more. With extra miles per gallon . . . quicker-than-ever cold-start warmup so you start saving sooner . . . a new extra-cost optional heater that warms everyone evenly. Riding along with this extra economy: more room inside for you, more room up front for your luggage (sedans and coupes have almost 12% more usable trunk space).

And our new wagons? You'll love them—think they're the greatest thing for families since houses. The Lakewood Station Wagon does a man-sized job with cargo, up to 68 cubic feet of it. The Greenbrier Sports Wagon you're going to have to see—it gives you up to 175.5 cubic feet of space for you and your things.

Corvair's whole thrifty lineup gets its pep from a spunkier 145-cu.-in. air-cooled rear engine. Same rear-engine traction, same smooth 4-wheel independent-suspension ride. See the polished and refined 1961 Corvair first chance you get at your Chevrolet dealer's.

Spare tire is in the rear in coupes and sedans—leaving more luggage space up front.

Even middle-seat passengers sit pretty, thanks to Corvair's practically flat floor.

Now in production—the GREENBRIER SPORTS WAGON with up to twice as much room as ordinary wagons (third seat optional at extra cost).

Campus Code Board Reprimand Students For UNC Stad. Entry

The Campus Code Board of the Judicial Department of N. C. State College handled one case involving violation of the College Campus Code during September.

Five State students were apprehended by Chapel Hill law enforcement officers for illegal entry of Kenan Stadium at the University Friday evening preceding the State-Carolina football game, with the intention of painting "Go State" on the press box. Although the intentions of these spirited State students were not necessarily bad, they should have considered the possible consequences of such an act. This incident has brought bad publicity to our institution.

The five students appeared before the Campus Code Board and were found guilty as charged, specifically branding them with conduct unbecoming a gentleman. They received a reprimand, which consists of a letter home to their parents and an entry in their permanent record of the case. The students will also appear in Chapel Hill City Court with the possibility of further penalty.

This should serve as a reminder to all State students that at any time, any place, he is a representative of his college. We should strive at all times to represent our institution as gentlemen.

STATELINE

By
EARL MITCHELLE

Fogaraszy Number One In Carolinas

Peter Ivan Fogaraszy was named the top amateur athlete in the Carolinas Monday by the Carolinas Amateur Athletic Association. The title of "Athlete of the Year" awarded to Fogaraszy was voted to the N. C. State swimmer in the Monday meeting of the convention.

Fogaraszy is the current holder of four United States records and won the national 200 meter breast stroke championship in the outdoor events this summer a week before the Olympic trials. In winning the national distance he beat Olympic gold medal winner Bill Mulliken. Fogaraszy did not go to the Olympics this summer because he is not a citizen of the USA yet. Fogaraszy has beaten Mulliken several times before in this breast stroke distance.

Fogaraszy was one of three freshmen stars that dominated the ACC in the first year ranks. Teaming with Ed Spencer, butterfly and freestyler, and Smokey Ellis, freestyler, he dominated the ACC freshman championships last spring. Spencer was also a high finisher in the nationals this summer. The tall Philadelphian finished eighth in the butterfly event.

With these three boys on the varsity this year, the chances of State winning the ACC swimming title this year are very strong. If they plan to win the title they must knock off a powerful Maryland team in the process. With State going off probation this fall, the Pack tankmen should make a good showing in the NCAA meet on the west coast next spring.

The freshman ranks are filled with more talent. Two boys who will make big names for themselves at State before they leave are Bill McGinty of Charlotte and Dan Derby of Greensboro.

—oO—

Terps Offer Next Challenge

The Pack will end their home schedule Saturday night in Riddick Stadium with the Maryland team. This is a must game for the Wolfpack if they plan to climb into first place in the ACC. This is possible since Duke the only other contender is not playing in the ACC this weekend. Maryland started out the season with a win but have not been able to get their marbles together since then.

State has won three in a row and will be looking for win number four Saturday night. Edwards tabs this game as the "look and see" game. Edwards feels that he will be able to say something definite about his team after he sees them in action against the Terps.

We believe that the Pack will show Edwards what he's looking for Saturday. The Pack will win this one.

—oO—

Intersectional Battles Featured

Big intersectional battles are in store for Carolina and Duke. Duke travels out to the Big Ten to take on Michigan. Carolina is host to Notre Dame.

The Duke team has showed a surprising amount of offensive punch in trouncing South Carolina 31-0 and Maryland 20-7. Michigan on the other hand was handed a 24-14 setback at the hands of Michigan State last week.

This is going to be a close ball game, but we give the nod to Michigan to halt the Blue Devils.

Carolina and Notre Dame have both had their troubles this season. The Tar Heels were dropped by State, 3-0 and by Miami, 29-12 on two successive weeks. Notre Dame suffered the worst defeat in the history of modern Irish football when archrivals Purdue stomped them 51-19.

Carolina has always had trouble with the Irish and they are going to have trouble with them again Saturday afternoon. Notre Dame gets our vote to win this one.

In other ACC action, Wake Forest faces VPI and Clemson faces Virginia, who is currently on a 20-game losing streak. The Deacons and Clemson should win their games. South Carolina is idle this week.

Terps Face Undeclared Pack In Conference Night Battle

By Earl Mitchell

North Carolina State can take over sole possession of first place in the Atlantic Coast Conference with a win over the Maryland Terrapins in Riddick Stadium Saturday night. The Wolfpack is currently in a tie for first place with the Duke Blue Devils.

The North Carolina State team is in the middle of the longest Wolfpack winning streak since 1957 when the Wolfpack won four games before battling to a scoreless tie with Miami. If the Pack can win the Maryland game they will tie this winning streak record. Before 1957 this record was tied back in 1946 when a State team won four games in a row in one season.

In addition to tying the 1957 mark of most wins in a row in one season, the Wolfpack will be able to step into first place in the conference with a victory. The Duke team will be playing Michigan, an intersectional foe,

and it will be impossible for them to add to their conference mark for this season.

Pack in Home Finale
The Wolfpack will be playing their final home game of the 1960 season when they face the Terrapins Saturday night. After the Saturday battle the Pack seutive games before the seawill hit the road for six con-

Coach Earle Edwards terms the Maryland game as a real test for the State eleven. Edwards feels that his team has not played up to their potential in winning three games this season. Edwards feels that after seeing his team play both Maryland and Duke, he will be able to make some definite statement about the Wolfpack's chances for the rest of the season.

Wild Battle In '59

There's not a football scholar in these parts that doesn't remember the State - Maryland game last season. Roman Gab-

riel set a bushel of passing records and the Wolfpack scored more points than they had scored all season and still lost by five points. State outscored the Terrapins in first downs, 24-15. The passing of Gabriel rolled up 292 yards and two touchdowns, but the Wolfpack still tasted defeat for the ninth and final time of the '59 season.

So far in the series, State has won five games with eight going to Maryland and three ending in ties. The last time that the Pack won a game in the series was back in 1957 when they trounced the Terrapins 48-13 in the second game of the season.

Maryland coaches felt that the team could continue their winning ways when the 1960 season rolled around, but after the first game this prediction fell through. After beating West Virginia in the opener, the Terps fell to Texas and Duke on successive weekends. Tom Nuggent, head Terp coach,

always has a bag full of tricks for all of his opponents including many offensive formations. Last year Nuggent brought back the I formation to battle some of his foes.

Terps Feature Four QB Lettermen

The University of Maryland is unlike many other teams in this part of the country in that they have four lettermen at quarterback. Dick Novak and Dale Betty handle most of the action from the signal calling slot, but the Terps also have Jim Davidson and Ken Psira, '59 lettermen, to back up Betty and Novak at quarterback. The halfback chores will be handled by a quartet of lettermen in the persons of Dwayne Fletcher, Joe Mona, Everett Cloud, and Bob Gallagher. The fullback post will be held down by Pat Drass and John Forbes.

In the line the Terps have ten lettermen. At center Nuggent will be counting heavily

STUDENTS SUPPLY STORES

Runners Open Slate Sat. With Duke and Wake Forest

By Richie Williamson

The cross-country season for the North Carolina State harriers opens this Saturday in Durham with a triangular meet against Duke and Wake Forest. The four-mile cross-country run gets underway at 11 a.m. Also, the State freshman team will meet the frosh teams from Duke and Wake Forest at the same time.

This meet is the first of seven competitive meets for the distance runners on this fall's schedule. The slate has State meeting Virginia on October 14 in Charlottesville, the Tar Heels of North Carolina on October 19 in Chapel Hill, Clemson and South Carolina in a triangular meet for the home opener in Raleigh on October 21, and ends the regular season on October 29 against Maryland in College Park.

The first two weeks of Nov-

ember sees the team entered in two championship meets against the top harriers in the area. The first meet is on Nov. 7 in the State Championship to be held in Raleigh. Last year with nine schools competing and representing the colleges and junior colleges throughout the state, N. C. State finished third behind Duke and High Point. Then, on Nov. 14, the big Atlantic Coast Conference meet at College Park, Md., will climax the season. State also finished third in this meet which is a very respectable finish considering the competition.

Returning from last year's team which posted a 5-2 record in dual meets will be six lettermen. These boys will form the nucleus for this year's eleven-man squad. Heading up the team will be co-captains John Davis, a senior from Greensboro, and Jerry Fincher, a junior from

Charlotte. Others who return from last year include senior Dean Reber from York, Pa., and three juniors; Dick Wilson, Morganton, Marvin Beatty, Charlotte, and Jim Joyner of Jacksonville Beach, Fla.

The letter winners are being pushed hard for their spot on the starting lineup by Frank Greene, Jimmy Tyson, Bob Long, and Robert Smith who came up from the freshman team and newcomer Charles Lamm, all of whom are sophomores. Time trials are being held this week to determine the seven men who are official entrants in the meet although all eleven men will run in the four-mile race. The top five finishers are the ones that figure in the point tabulation with the school with the lowest score getting the victory.

Coach Paul Derr is very optimistic about the prospects for this season even though he lost three men from last year's team.

Pack Drops Second; Terps Here Saturday

The North Carolina State soccer team tasted defeat for the second time in as many games Wednesday afternoon when the booters from Fort Bragg stopped the Wolfpack 4-0. This marked the second defeat that the Fort Bragg team has handed the State team this season.

State opened their season with Fort Bragg last Saturday night and was defeated 4-1. The loss puts the Wolfpack's season mark at 0-2. As yet the Pack has not played a conference match. The next match for the State team will be Saturday afternoon when they face the powerful Maryland Terrapins. The Terps are defending ACC champs and they have suffered only one defeat in the last couple of years and this came in the NCAA playoffs by a 1-0 margin.

The win boosted the Fort Bragg season mark to a very respectable 3-0. Other than the two wins over the State booters,

the Army team has defeated the University of North Carolina, another ACC soccer power. Before the season began Coach Bill Leonhardt said that many of State's opponents this year would meet a much stronger Pack team that they met last year. Fort Bragg fielded a very strong team this year and did not allow the Pack to get off to a good start.

Fort Bragg scored in all four periods with the scoring being divided between three players. Leading the scoring was Dieter Fisher with two goals. His goals came in the third and

fourth quarters. Other goals were scored by Victor Kostelanski in the first period and John Dennigan in the second period. The State team had 15 shots at the goal and failed to score.

The Fort Bragg booters had 30 shots at the goal and hit on four.

The Maryland team should offer the Wolfpack a run for their money in Saturday's match. The Terrapins boast a lineup of top performers and they should cause a great deal of trouble for the Wolfpack team.

Wolfpack Faces Terps

(Continued from page 6)

on monogram winners Bob Hacker and Leroy Dietrich. The guard slot is the weakest as far as experienced hands is concerned. Pete Bonis is the only man back from the 1959 team and he is a senior. The rest of the group of guards are sophomores. Heading this group are Joe Hrezo, Gary Jankowski, and Tom Broumel.

Collins Heads Ends

Gary Collins, an All-American candidate, leads the ends. Collins is counted on heavily by Nugent to anchor the Terp line. Other experienced hands at the ends are Norman Kaufman, Vincent Scott, and Henry Poniatowski. The tackle chores will be divided between Dick Barlund, Bill Kirchiro, and Tom Sankovich.

The Wolfpack will counter with a forward wall made up of Jim Tapp and John Gill at the ends, Collice Moore and Dick Reynolds at tackles, Alex Gil-

leskie and Joe Bushofsky at the guards, and Bill Hill at center. The second forward line for the Pack will probably consist of Dennis Kroll, Bert Wilder, Harry Puckett, Jim Fitzgerald, Jake Shaffer, Graham Singleton, John Morris, going from left end to right end. End George Vollmar and Nick Maravich, a tackle, will also see a great deal of action in the State line.

Gabriel Heads Backs

The signal calling chores will go to Roman Gabriel with Tom Dellinger taking his place on defense. Bill Kriger, a wizard with the option play, could also see action at quarterback. Claude Gibson, Al Taylor, John Stanton, and Randy Harrell will be the halfbacks seeing action. Jim D'Antonio and Roger Moore will hold down the fullback post.

The kickoff is set for 8:00 Saturday night in Riddick Stadium.

Judgement & Justice

This is especially addressed to all of the new students who may or may not be acquainted with the following. Perhaps the facts listed below could be considered a part of N. C. State College as the Bell Tower or the Pullen Parking Lots. Well, so be it. But of course everyone knows:

That the Student Supply Stores does make a profit!

That Miss Alice Shirley (Student Activities Office) is one of the nicest people on campus to deal with.

That the speciality of the M & O is fencebuilding.

That working is easier than going to school.

That the College Union can spend more money and get less done than any organization that we know of except the United States Government.

That UNC has more girlish boys than State has boyish Co-eds.

That the Agromeck is controlled by one of the local social clubs.

That the sharpest Co-eds on campus are Sigma Kappas.

That all English Professors are really frustrated novelists.

That anyone who flunks out can always go to Carolina.

That the Campus Cops are not alumni who could not get jobs.

That everyone is voting for free love and nickel beer.

That the realization that all things seen on campus are not to be accepted as real, especially if they are on Co-eds.

That all Carolina students are alcoholics and not very good ones at that.

That not all of the Raleigh Police Force hated State College just one Lieutenant and a Sergeant.

ed on the fact that it will cost a student \$4.50 to get a date ticket for the State-Maryland game. That prediction is that the crowd will be less than three-quarters as large as it was for the Homecoming game. Also, three cheers to the Wolf-pack Club for giving the students such good seats, after all we're only students.

We just received this letter in the mail this morning.

Dear Sirs:
I am interested in State College because it is such a great military institute. All my friends tell me that the ROTC program is wonderful at State College. I want to study to become a great general.

Fidel Castro
P. S. May I bring my two playmates, Niki and Raul, with me?

He: You look like a million dollars.

She: Yes, and just as hard to make, too.

During the Virginia game the PA system blared out, "The officials are taking time out to measure." Then my date, a little startled asked, "Measure WHAT!"

The J & J Award for the finest Homecoming Float goes to the Veterans Association. The Title . . . "Ain't it a BITCH?" It was! We consider it to be imaginative and hilarious! !

First Goldfish: "Do you believe there is really a God?"

Second Goldfish: "Certainly! If there wasn't, who'd change the water?"

Only Sixty-nine (69) shopping days until Christmas! !

(Continued from page 1)
fees (athletic fees are optional). by the Publications Office, 313-1911 Building and get one.

Graduate students, not in residence, who have completed all requirements for the degree sought including the thesis and final examination will be required to register for "degree only" in the semester in which the degree is awarded. The charge for this registration is \$10.00.

Anyone who feels a mistake has been made in his bill may discuss the matter with the Business Office. Any further appeals should be made to the College Committee of Refund of Fees. Forms for this appeal may be obtained at 101 Holladay Hall.

If you have not received your space contract for space in the 1961 AGROMECK, please call

WKNC has announced its latest addition to its programming line-up. It is a one hour show, called Campus Roundtable. On Campus Roundtable the students are allowed to call up during the show and express their opinions, complaints, ideas and comments over the air. The show will begin at 8:00 P.M. every Thursday.

The Program was run for the first time this year last Thursday. The response of the listeners was very encouraging. Up for discussion was the Student Supply Store, the College Union and other subjects.

Any comments that the listeners may wish to offer may be phoned in during the show WKNC at TE-27861.

"YOUR SATISFACTION IS OUR FIRST CONCERN"

Even though modern electronic computers work at almost unbelievable speeds, the scientist is way ahead of them.

Put quite simply, scientists have been thinking up complex problems faster than even the fastest computers could handle them. To close this gap, IBM created STRETCH, the world's fastest, most powerful computer.

The first STRETCH system will go to the AEC at Los Alamos to aid in nuclear reactor design. This goliath can do a million additions or subtractions a second. It can "read" the equivalent of four million characters per minute from magnetic tape. It can print the equivalent of three good-sized novels every hour. It can perform all these operations simultaneously, and if necessary

pause midway in the problem and tackle a more important one.

Creating such tools and putting them to work for science—or for business, industry, or government—is exciting, important work. It calls for talents and skills of every kind, from liberal arts to Boolean algebra to astrophysics.

So whatever your particular talents and skills, there may be just the kind of job at IBM you've always wanted. The IBM representative will be visiting your campus this year. Why not ask him about it? Your placement office can make an appointment. For further information about opportunities at IBM, write, outlining your background and interests, to:

IBM

Manager of Technical Employment
IBM Corporation, Dept. 887
