# **Business Declines As Fair Hits Town People Save Money To Spend At Fair**

RALEIGH, N. C., Oct. A (UPI)—"Capital City merchants sales suffer setbacks when the are always happy when State fair comes to town. Fair week has come and gone," And indications are that the says Wesley Williams, executive secretary of the Raleigh Mer-chants Bureau. A **CODE 3.000 Mile Stage** Shows and midway attractions shows and midway attractions williams is quick to point out Williams is quick to point out that the State Fair probably helps Raleigh in the long run because it "shows people the way" to the city and keeps it as a center of the state.

RALEIGH, N. C., Oct. 14 Williams explains that retail areas from which thousands of UPI)—"Capital City merchants sales suffer setbacks when the persons flock to see the exhibits,

Thursday, Oct. 13, 1960

But for about a week before Third T V Debate Tonight But for about a the fair reaches sales begin to de town, retail sales begin to decline. And a week after the exhibitors return home and the entertainers hit the road, the effect is still felt.

"I guess people are saving their money to spend at the fair for the week before it opens," Wil-liams adds. "Then they have to recuperate in the week follow-ing the fair."

Once the individual family reaches the fairgrounds, all sense of value apparently dis-appears. The father pays 35 cents for a pack of cigarettes, the mother pay \$1.98 for jewelry which unrully is traced 09 cents which usually is tagged 98 cents, except at the State Fair.

Soft drinks are priced up to 15 cents and hot dogs sometim cost as much as 35 cents.

an important issue in the con-troversy over the offshore is-lands of Quemoy and Matsu. And then there's the midway which takes its share of the money through games of chance. The children in the family have to try to win a kewpie doll which usually ends up costing twice as much as it would if purchased elsewhere.

And while mom takes the chil-dren to ride the hobby horses, pop takes in a girlie show. Each year the fair comes and goes. And each year the crowd gets larger. Everyone seems to be thoroughly entertained even be thoroughly entertained, even the state highway patrolman who sends a car into a parking lot only to see it turn around and come right out. "The driver didn't mind fol-

lowing the line of traffic even when the cars turned into the parking lot, but he was going to New York, not to the State Fair," the trooper said.

#### "Specs" Flunks License Exams

BOSTON, UPI — Joseph J. O'Keefe was denied a drivers license Tuesday by Motor Ve-hicles Registrar Clement A. Riley, who said O'Keefe was "an improper person to hold a license."

O'Keefe, better known as "Specs" O'Keefe, broke the \$1,-219,000 Brink's robbery of 1950 by turning informer. He said he wanted to be a chauffeur.

### **Death To Two Americans Planned By Cuban Court**

death

HAVANA UPI—The govern- raro, who identified himself as ment Wednesday demanded a "a Federal Bureau of Investi-firing squad death for one gations" agent, a New York American soldier-of-fortune and policeman and a U. S. Navy a 30-year term for a second veteran, was denounced by the second of seaking to evertury presention it was described as a 30-year term for a second veteran, was denounced by the accused of seeking to overthrow prosecution. It was described as the regime.

### THE TECHNICIAN Cruising ...

There has been much discussion about the Student Activity Fee in recent years. Some organizations on campus feel that other organizations get more money than they really need. Other organizations have to uggle on the small fee that they receive from each student for the school year. The Technician happens to be one of these organizations.

We receive \$1.15 from each student for the school year. It is hard to publish 84 issues per year on this small fee. The student receives The Technician for approximately \$.013 per copy.

We are publishing 27 more issues this year than we did last year ... . and yet, we are getting the same fee that we did last year when we published two issues a week

For those of you that don't know how the fees are allocated, here is the list:

	Intramural Athletics \$1.50
Technician \$1.15	Physical Education \$17.00
WKNC \$0.65	Student Activities \$1.00
College Union \$15.00	(Generally alloted by the
	Student Gov't)
The Tower \$0.25	Reserve \$0.15

These fees total up to \$43.00 for the school year. We would hate to see these fees go any higher since it would mean a hardship on many students. Therefore, we would like to see a reallocation. That would mean reducing some of the organizations present fees and giving the amounts left over to others. There would definitely be some gripes by these organizations, and we feel that they would probably have a right to gripe.

As it appears at the present, The Technician will probable be unable to send issues to off-campus students due to the fact that the money is not available. We would like to apologize to the students, but there is not a thing that we can do about it. If you want to gripe about not getting a paper, go see Dean Talley or Dean Bowers in the Student Affairs office. They will explain the situation to you.

If The Technician becomes a daily newspaper in the future, the off-campus circulation will have to cease anyway .... so there is no time like the present to cease this operation. It costs The Technician approximately \$2,000 dollars to mail the copies to off-campus students for the school year. This is a very big expense as you can SPP

If the student body wants The Technician mailed to off-campus students, there is going to have to be a reallocation of the Student Activity Fees. This would take very much time of some individuals. There would have to be a thorough investigation of all these organizations that none of them would be cheated out of some money that they deserved.

Of course, if The Technician does become a daily newspaper in future years to come . . . and we hope that it does since a school this size could use one J. . there is either going to have to be an increase in the Student Activity Fee or a reallocation of the fees.

It is going to be up to the proper authorities to look into this situation and come up with some answer.

If it is not possible for a reallocation, then an increase in the Student Activity Fee will definitely be necessary.

We would like to see a study made of these fees by the people that are responsible for them . . . not for our sake . . . but for all the organizations involved. We will definitely get some comment from all the organizations involved, from different students on campus, and probably from some of the faculty members.

We want to hear from all the sides on this matter as it is one of definite importance. If you don't think that we are right let us know how you feel about it . . . because we feel that something should be done concerning this matter immediately! !

I will attempt to ceptance. present with brevity and can-dor a glimpse of the areas in Student leaders endeavoring which the Student Government to create a greater political has functioned since your last awareness succeeded in bringing visit.

A high calibre of leadership, North Carolina. Our stude a favorable climate of opinion, conducted themselves in a m and determination to succeed ner that reflected credit u have resulted in the continuation of a responsible, responsive student government charged student government charged with the promotion of the inter-ests of the State College com-munity. A consideration of a wide variety of concerns, touching upon a full spectrum of islature debated intelligently problems which affect us either issues such as: participation in directly or indirectly is banal. activities by students on aca-Through an effective commit-tee system, student needs can be accurately analyzed and solu-tions recommended.

A systematic approach to the distribution of student activity fees has been developed. Conferring of a Goodwife Diploma upon the wives of graduating students has been established as a tradition. Last spring a cam-pus charities drive was con-ducted which raised 300% more money than the previous year's efforts produced. Among other things, the Consolidated Unithings, the Consolidated Uni-versity Student Council made studies of faculty salaries and presented a report to the Executive Committee of the Board of Trustees

An atmosphere of mutual trust and respect for personal integrity has been the goal of our efforts in seeking ways to establish the Honor System as a more meaningful part of the lives of the 6,500 student citithe zens of our academic communi-

encourages us to increase our efforts to improve student ac-

Student Legislative Assembly of conducted themselves in a manner that reflected credit upon them and the college. A healthy respect for the N. C. State Col-lege delegation was shared by the other colleges of North Carolina.

The Student Government Legactivities by students on aca-demic probation, protest to the disclaimer affidavit of the National Defense Education Act of list includes the more mundane problems too.

The Student Government has demonstrated an interest in emphasizing the educational goals of the college. The wholehearted endorsement of the conference on Climate of Learning to be held October 22, 23 is indicative of the commitment to help provide an environment which will be most conducive to intellectual growth of the student body. Encouragement of general excel-lence in classroom teaching was the motivating factor for the initiation of the "Outstanding Classroom Teacher of the Year" award which is presented during **Commencement** Exercises.

Orientation was conducted again this year with the aid of the upperclassmen. The one hundred upperclassmen who agreed to return to serve as counselors reaffirmed my con-fidence in the responsible, ma-

ture character of the student leadership. In a word, student government's program is aggressive.

your attention to matters which will enhance the current pro-gram and future growth of this institution - already one of the ing, within financial means of leading colleges of its types.

I. The Faculty Advisory System

There is a definite need for increased and more effective counseling. Sometimes "advis-ing" consists of nothing more than signing a printed course schedule. Too often students feel as if they are being treated as mere mechanical entities without due regard for their individ-uality, granted that efforts to correct this have been made, much is still to be desired.

#### II. Honors Program

The Board should, I think, encourage further development Rights, and distribution of stu-dent scholarship monies. The Student Program in all schools.

Additional opportunities for depth in intellectual inquiry and encouragement of the participant are a result of this stimulus.

#### III. Library

A concerted effort must be made to increase the library's book collection. According to the latest figures available the D. H. Hill library contains 212.000 books placing us 20th relative to other research institutions in the South (21 institutions compared).

#### IV. Housing for Women Students

The urgency for adequate supervised housing facilities for women students has been com pounded by the increasing en-

#### V. Social Programming

An acute problem of obtainstudent organizations, adequate facilities for social and cultural events was pointed out last year very succinctly by THE TECH-NICIAN. The only logical facility for large events such as The Friends of the College, and major dances, such as Interfraternity Council and Interdormitory Council, is the Coliseum. A request for an appropriation to subsidize the use of the Coliseum has been included in the college budget proposal. Your support will help rectify the situation.

This is the B-52. Advanced as it may be, this airplane has one thing in common with the first wargalleys of ancient Egypt ... and with the air and space vehicles of the future. Someone must chart its course. Someone must navigate it.

For certain young men this presents a career of real executive opportunity. Here, perhaps you will have the chance to master a profession full of meaning, excitement and rewards... as a Navigator in the U.S. Air Force.

To qualify for Navigator training as an Aviation Cadet you must be an American citizen between 19 and 261/2-single, healthy and intelligent. A high school diploma is required, but some college is highly desirable. Successful completion of the training program leads to a commission as a Second Lieutenant ... and your Navigator wings.

If you think you have what it takes to measure up to the Aviation Cadet Program for Navigator training, see your local Air Force Recruiter. Or clip and mail this coupon.

#### EARL MITCHELLE

STATELINE

#### Will String Be Broken?

The Duke Blue Devils must have some mysterious over over the State College Wolfpack. The Pack has been able to defeat the Duke team since way back in 1946 when they barely squeezed by the Dukes 13-6. This was the year that the Wolfpack went to the Gator Bowl a played Oklahoma. Under the direction of Beattie eathers, the Pack went through an 11 game season and on eight of these contests.

The series has been filled with many great battles nce 1946. In 1948 the two teams battled to a scoreless the and in 1946, the championship year for the Pack, the two teams fought to a 14-14 deadlock. In 1958 the Blue Devils edged by the Pack 20-13 and the following year, last year, the Dukes slipped by again. This time the margin was only two points.

The series stands at 26 wins for Duke and seven for the Pack with two ending in ties. The State-Duke game this year is a very unusual one this year. In the prethis year is a very unusual one this year. In the pre-season polls, neither of the two teams were given much of a chance to cop top honors in the ACC. All the sports scribes, including myself, were going with Clemson, Wake Forest, and North Carolina. The Deacons and Tar Heels got off to very bad starts, while the Tigers, under the able leadership of Frank Howard, pulled to the front of the pack of the pack.

The Tigers are now having to share the limelight with Duke and State, the two teams that nobody thought about. Going into Saturday's games State is in first place, while Clemson and Duke are sharing second spot. Carolina and Wake Forest are down in the list in a fourth place tie.

The Clemson Tigers will be playing in College Park this weekend and should win that game with the Maryand Terrapins. This win would put the pressure on the Wolfpack to such an extent that it would push them out of first place unless they beat Duke. A Duke win over State and a Clemson win would put the two schools in a tie for first with State outside in the cold.

The battle between the two schools should be a great one. State will be shooting for five wins in a row and the Blue Devils will be trying to get back on the winning trail after a 31-6 setback at the hands of Michigan of the Big Ten. Duke had always done very well in the Big Ten, but Saturday was not their day in the big conference

The kickoff is set for 2 o'clock in Duke Stadium.

After all is said and done we think that the Wolfpack has the slight edge in this one. That edge is very slight, however.

#### **Big Game At The "Hill"**

Over in Chapel Hill Saturday there is also going to be a real exciting ball game. The winless Wake Forest Deacons with Norman Snead and Co. will take on the twice beaten Tar Heels. The Carolina team scored the first win over Notre Dame in the history of the present series last Saturday before 40,000 wet fans. The Tar Heels showed a lot of authority in taking their first win of the season after dropping contests to State and Miami.

Wake Forest has really had the tough luck this year. Under their new coach, Billy Hildebrand, the Deacons were supposed to win the ACC title, but so far this year they have come up with only three loses and are in a tie for fourth place in the conference. Last week the Deacs were beaten by VPI, a team that scared the pants of Frank Howard and his Tigers before going down to defeat. The Deacs will be looking for revenge when they face the Tar Heels in Kenan Stadium, but they won't find it there.

We pick the Carolina team to grab their second win of the season.

Clemson travels to Maryland to play what promises to be a good game. The Tigers have had a lot of trouble in their last two games. The week before last the Clemson team had to go all out to whip VPI and last week had to come back in the late stages of the game to beat off a determined Virginia team.

Maryland will be on the rebound after falling to State, but Clemson will win this one.

In other games we pick Miami to stop South Carolina and VMI to hand Virginia their 22nd straight loss

Remember: Duke and State tangle at 2 o'clock Satur-

day.

STATE STATE

When the State Wolfpack tangles with the Duke Blue Devils on Saturday, the Pack will be looking for their first win over Duke since 1946 when the State team turned the trick by a 13-6 margin. The Pack came close last year, but were edged 17-15 in a real wet ball game.

EARL MITCHELLE

The last time that the Pack has come close to beating the Blue Devils was back in 1957 when the two teams battled to a 14-14 deadlock. This was the year the Wolfpack won the At-lantic Coast Conference championship. If the State beats the boys from Durham it will be first time that the Wolfpack has won five games in a row in one season since 1927 when the team lost only to Furman and won nine gam

The lead in the Atlantic Coast Conference is also in the bal-ance depending on the Duke game. Clemson will be playing at Maryland and if they should win and the Wolfpack should lose, the Tigers would step into fast place is the ACC should of tose, the figers would step into first place in the ACC ahead of the Wolfpack. Duke would also step ahead of the Pack into a tie for first with Clemson.

A win for the Pack would give A win for the Pack would give Earle Edwards' boys a little breathing room. Clemson and Duke will tangle the following Mississippi Southern, a non-conference foe. The ACC battle between Duke and State is exheduled to get underway in scheduled to get ûnderway in Duke Stadium at 2 o'clock. This will be the final game that State will play in this area for two weeks. After going to Missis-sippi Southern next week the Pack will travel out to the West Coast to face UCLA.

There is no use to say that the State team wants this win real badly. They want to stay on top in the ACC and they also want to break the 14-year fam-ine of wins over Duke. Duke will be plenty tough this weekend. After getting their season off to a blazing start, the Dukes off to a blazing start, the Dukes came to a screeching halt last weekend at the hands of Michi-gan. The Big Ten team trounced Duke by a 31-6 margin. State beat Maryland 13-10 last week with the entire Duke coaching staff looking on The Blue Devil staff looking on. The Blue Devil staff flew to Raleigh immediate-ly after their game to get a first hand account of the Wolfpack team in action.

Before the season started, these two teams, Duke and State, weren't even given good outside chances to win the ACC title, but after four games have gone by in the schedule these two teams are fighting it out for the conference leadership with Clemson, a preseason favorite. The Duke team will throw an offense at the Wolfpack that is

FOR THE BEST IN SPORTING GOODS Guns, Fishing Tackle, **Bicycles and Hobbies Bicycles** Repair and Accessories HILL'S INC. 1720 North Blvd. or

U. S. 1 North

not characteristic of Blue Devil not characteristic of Bue Devil teams of the past. Duke has been a team of grinding out the yardage on the ground before this season, but things have changed. Duke's offense now includes an array of dazzling pass plays that caught South Caro-lina completely by surprise and gave Maryland a lot of trouble also. Michigan didn't seem to have any trouble with the Duke team as they scored only once against the Wolverines.

If Duke continues their passgame and Roman Gabriel, State quarterback, continues his passing feats, this game could turn into a real aerial circus. Gabriel has hit on 55.7% of his passes this year and has had only one intercepted in four games. Don Altman, the Blue Devil signal caller, has come through with some sterling performances this season in the first three games. Last year Altman was running number two behind George Harris. Alttwo behind George Harris. Alt-man threw a 59 yard touchdown pass against South Carolina for his first completed pass last season. He hit 60% of his passes in 1959 and most of these went for good yardage.

Duke's offense will feature the pass catching ability of Tee-Moorman at one end and Bob Spada at the other end. At the tackles, the Wolfpack can expect to find Dave Bosson, the only Blue Devil tackle with much plaving experience, and Dwight playing experience, and Dwight Bumgarner, a lineman who played end last season. Jean Berry, a highly rated sophomore, will team with Art Brown-ing to fill the guard slots. The center position will probably go to Butch Allie, a boy who was hurt part of last season.

At quarterback will be the har quarterback will be the baseball ace Don Altman. Flank-ing him at halfbacks will be Joel Arrington and Jack Wilson, a Raleigh Raleigh product. At fullback will be the twin brother of Mike McGee, All-American guard at Duke last year, Jerry McGee, a

senior.

The Wolfpack counter with Jim Tapp and John Morris at the ends, Tiny Reynolds and punting specialist Collice Moore, will be at the tackles, and the guard slots will probably go to Alex Gilleskie and Joe Bushofsky. Bill Hill or Jim Fitzgerald will get the nod at center.

SPORTS

The backfield will be led by All-American candidate Roman Gabriel, the NCAA's most accurate passer of 1959. The ace State quarterback almost personally accounted for the Pack's win over Maryland last week-end. He passes to end John Morris for one touchdown and covered all but five yards on the last drive with his passing and running.

In that starting backfield with Gabriel will be Claude Gibson and John Stanton at halfbacks and either Jim D'Antonio or Roger Moore at fullback. Also slated to see a great deal of ac-tion in the Pack backfield is Al Taylor and Randy Harrell. Tom Dellinger will step in to handle the defensive quarterback

The series with the Blue Devils has not been what could

The Varsity Rifle Team will meet at 7 o'clock Monday, Octo ber 17, at the rifle range in the basement of Frank Thompson Gymnasium (the ROTC supply Gymnasium (the ROTC supply room). All members and pros-pective members are urged to attend. There will be tryouts and election of officers. Former experience for prospects is desirable but not necessary.

be called a very successful one as far as Pack rooters are con-cerned. The State team has won only seven of the meetings while Duke has taken 26 wins with two ending in ties. Coach Bill Murray picks out inexperience in his interior line as the main team weakness. Murray also stated that he felt that the line did have great potential for this season.

See Pack, page 6

# **Statistics Prove Air Attack Keys Victory**

By Richie Williamson The statistics of the first four games of the Wolfpack show that it has been the strown straight victories. Gabriel has used Gibson, Taylor, Moore, in the comparison department, This offensive attack has State has rolled up 58 first on the touchdowns, seven extra ponents, by means of 31 rushing, gone to the air 61 times and has hit his receivers for 34 com-pletions and a net gain of 367 yards thrown three touch Roman a 55.7% accuracy mark, and he has thrown three touch down passes. Defensively, the State backs **By Richie Williamson** 

down passes. Defensively, the State backs six points after touchdowns and thrown by their opponents and returned them for 176 yards. This has proven to be a big factor in keeping the opposi- a big role in the State strategy factor games. At the same time, only one of State's passes has punts for an average of 38.3 yards per kick. Roger Moore

ed the ball for 107 yards and 3.8 yards per carry. Roger Moore has averaged 2.4 yards, Claude Gibson has 3.2, and Jim D'Antonio has 3.2, and Jim D An-tonio has 2.6 yards per carry for backs with over ten running plays. Also, Tom Dellinger has carried the ball twice for 21 yards and Billy Kriger has averged 9.1 vards in five carries.

Gabriel has completed passes to ten different players with his favorite target being Johnny Morris. Morris has hauled down eight passes for a gain of 102 yards. Stanton is close behind with seven receptions for only 38 Vollmar has covyards. George ered 76 yards on six passes, Randy Harrell 62 yards on four catches, and Jim Tapp 37 yards

# **U. Of Hawaii Offers Summer Session**

How would you like to spend your summer in Hawaii enjoy-ing a summer vacation filled with travel, study and Island fun? You can find out how in the article on Summer Sessions at the University of Hawaii.

Program to beautiful University of Hawaii in Honolulu, Hawaii, is now open for enrollment, Dr. Robert E. Cralle, Director, University Study Tour to Hawaii, announced today.

Summer Session in Hawaii offers an unusual opportunity for students and teachers to enjoy a wonderful summer vacation of travel, study and Island fun.

A full 6 weeks (45 days) Program rates start from as little as \$555 for students and \$569 for teachers and include: round for teachers and include: round trip transportation by major air and steamship lines, Waikiki Beach hotel and hotel-dormitory accommodations, Island sight-seeing trips, colorful Hawaiian social and leisure functions ... 22 exciting events in all. Trans-portation from the campus to portation from the campus to living accommodations is also a free service of the Program. Over 215 courses in 39 fields

offered in the Summer Sesare sion's curriculum, taught by a distinguished visiting faculty from Europe, the Orient and the United States. Cost of the Pro-gram is tax deductable, Dr. gram is tax deductable, Dr. Cralle states, when teachers are

# earning in-service requirements

earning in-service requirements for professional advancement. Extra credits earned by under-graduate students are transfer-able to nearly all colleges and universities.

Recognized as the finest Sum-mer Session Program offered, complete information including 20 page Bulletin and Applica-tion Form is available by writ-ing to: Dr. Robert E. Cralle, Director, University Study Tour to Hawaii, 2275 Mission Street, San Francisco 10, California. **Advisory Group To Meet** 

The Advisory Council of State College's School of Engi-neering will hold its fall meet-ing Thursday and Friday in Burlington.

In Burlington

Hosts for the two-day event will be the Western Electric Company, Burlington Industries, Inc., the Burlington Chamber of Commerce, and the Nello L. Teer Company.

Attending the meeting, in-addition to the advisory group, will be members of the college's administrative staff and of the engineering faculty.

### AFROTC Announces Staff Additions

The following Air Force of Military Institute with a BS sers and airmen have recently Degree in Civil Engineering. ficers and airmen have recently been assigned to the AFROTC Detachment at State College, it was reported today by Colonel Robert C. Paul, Professor of Air Science.

Ir Science. Major Earl R. Dickey, who reviously served as a Communication Officer for an Air Division in Japan. He is a grad-Division in Japan. He is a grad-uate of the University of Mary-land with a BS Degree in Elec-trical Engineering. He lives with his wife, Alice and their two children at 1427 Curfman Street.

Another addition to the AFROTC Staff is Capt. Gerald L. Waterman, who before coming to the college, was a mem-ber of the Air Force Equipment Review Board at Hqs. USAF in Europe, located in Germany. He is a graduate of Virginia

versity of North Carolina freshmen 28-14 and following up with a win over the Wake Forest freshmen last week at Ahoskie by a 34-8 count.

Duke also looked very impres-sive in their opener with Vir-ginia. Pack Coach Johnny Carginia. Pack Coach Johnny Car-son will certainly have the 0 sparkle of revenge in his eye when his team takes the field Friday night. Last year the Blue Imps trounced the Wolf-pack 45-6.

With the two games on tap

Degree in Civil Engineering. Capt. Waterman is an active member of The National Rifle Association, The Society of Engineers, and The America Engineers, and The Boy Scouts of America. He lives with his wife, Lidmila and their

A native North Carolinian, Capt. William S. Clarke, Jr., from Seaboard, has also become member of the Air Force ROTC Staff at State College. Prior to arriving in Raleigh, he was an F-86 Fighter Interceptor Pilot with the United States Air

Force in Germany. He and Mrs. Clarke and their on, William, reside at 1418 son, William, Powell Drive.

T/Sgt. Robert A. Hall, previ-ously serving as a supply officer this weekend, there is plenty of football for everybody. The combined records of the freshman and varsity team now stands at 6-0. This is a far cry from last year when the two teams combined didn't win but two games all season.

The two-day program will pen with a business meeting at the Alamance Country Club at 2:30 p.m. Thursday. Presiding will be S. C. Donnelly, assistant works manager, Western Elec-tric Company, Burlington.

The afternoon's topic of dis-cussion will be "Student Guid-ance-Counseling." Speakers will be Miss Lucille Browne, di-rector of Guidance Services, Greensboro City Schools, and William B. Hight, Jr., Director of Guidance-Counseling, Burl-ington City Schools.

At a dinner meeting that evening, Timothy E. Shea, vice president of Engineering, West-ern Electric Company, New York, will address the group. Friday's program will include breakfast at Elon College and

tours of the Kayser-Roth Hosietours of the Kayser-Roth Hoste-ry Company, Inc., the Burling-ton Hosiery Company Research Center, and the Western Elec-tric Company.

for the St. Mary Air Defense Sector at K. I. Sawyer AFB, four children at 5148 W. Lake-side Drive. Michigan, has become supply officer for the State College A native North Carolinian, AFROTC.

He has over 10 years service in the Air Force; and, has recently been chosen as Treas-urer of the newly established Raleigh Cokesbury Methodist Church.

# **Kingston Trio's Nick Reynolds Considered 'Sparkplug' Of Group**

A crowded night club was the tting in which the Kingstons' Nick Reynolds met Joan Har- and

least among her reasons was the carefree appeal of the one mem-ber introduced by his colleagues as "the runt of the litter."

Meanwhile Nick had dropped in at a nearby night club and become so attracted by the gamine comedienne that he soon found himself watching her per-form at least every evening.

#### **Married** Entertainer

The two-member mutual admiration society ultimately con-vened in joint session and since that time has seldom adjourned.

Nick is the only member of the Kingston Trio not raised in Hawaii. His father, a captain in Hawall. His father, a captain in the U. S. Navy (now retired), took his family traveling through much of the world. Nick, who was born in San Die-go on July 27, 1933, was an ex-perienced voyager before he reached his teens.

reached his teens. During the war years Captain Reynolds left his family in Cali-fornia, but when he returned from periodic sea duty he brought with him the songs of the lands in which his ship had made port. Nick and his two older sisters were soon joining Captain Reynolds ("Dad playse a very swinging guitar," says a very swinging guitar," says Nick) in international family Savs ongfests

to enter. 6. All entries become the property of the sponsor, and none will be returned. Winners will be notified by mail. A complete list of winners is available to anyone sending a stamped, self-addressed envelope to the address below. 7. This contest is subject to all Federal, state and local laws and regulations contests and their validity.

When you walk into the de in Bob Shane's attractive Tiburon home, it's as if you've been transported to the arsenal of the Alamo.

Along one wall is a mounted collection of antique firearms of the Old West: finely engraved six-shooters, tiny derringers, long buffalo guns, and curious custom-made weapons fancied by the gamblers and confidence men who once swaggered on San Francisco's Barbary Coast.

Antique firearms is just one of the hobbies of the talented Shane. He is a skiing enthusiast and has an extensive record coland has an extensive record col-lection which runs heavily to his favorites: Harry Belafonte, the Weavers, and Frank Sinatra. Bob loves swimming and diving and recently had an exotic Japanese pool installed at his home. In contrast to Bob's in-terest in historic guns, his wife is proficient with modern fire-arms: she has an impressive arms; she has an impressive collection of trophies attesting to the fact that she is a crack sive pistol shot

Bob was born in Hilo, Hawaii, on February 1, 1934. His father, a very successful wholesale dis-tributor of toys and sporting mode in the Harming Intender tributor of toys and sporting goods in the Hawaiian Islands, made plans for Bob to take over the business when he retired. So, although Bob sang in the Glee Club, and appeared in several school plays and operettas during his high school days, en-tertainment was only a leisure-time activity.

Bob met Dave Guard in a high school variety show and they became close friends. They took their ukuleles to the beaches of Hawaii and learned songs of the Polynesian Islands from vachtsmen and travelers.

After graduation from Hono lulu's Punahou School in 1952, Bob came to the Majnland to study at the Menlo Park School of Business Administration in of Business Administration in Menlo Park, California. He graduated in 1956 and returned to Hawaii to learn the ropes of the retail business at Sears Roebuck.

During his college days Bob had entertained in campus shows, so it was natural that he expand his interests in this direction in Hawaii. He began working in his off-hours at Honolulu night spots, doing impersonations, meanwhile trying to find his own voice and style.

Bob soon found himself so Bob soon found himself so much in demand as a performer that he was devoting more time to entertaining than to retail-ing. It was then that he decided to return to California, where he joined Dave and Nick to form the group that became the Kingston Trio.

During the Trio's trip to Hawaii, Bob met Louise Brandon of Atlanta, Georgia. They werrengaged on Christmas Day, 1958 and married the next March in and married the next March in a wedding that was one of the major social events of the year in Washington, D. C. Bob and Louise live in a beautiful set-ting near San Francisco and devote as much time to their home as the Kingston Trio's busy schedule allows.

Despite his many inter-Bob's main hobby remains same as his vocation: play and singing. Whenever he find someone with whom he swap songs or harmonice, will unpack his guitar or h and begin singing.

big doings down at the Design NEGLECT YOUR APPEAR-School about five nights ago, ANCE." Seems that the boys were stand-ing in line until assis is the other wending much ing in line until early in the morning just to get their pro-jects done. The professors must be mighty cruel to make the boys line up for this sort of thing. Research with the History Department showed us that the Porners hed nething on these ans had nothing on these boys.

News Item: Last Tuesday morning an elephant escaped from the State Fair grounds from the State Fair grounds and was captured a few hours later near the State College Campus. Tuesday morning while walking through Page Hall, I heard one of the secretaries talking on the phone. The con-versation went something like this:

Secretary: I tell you, Officer, that an animal is here standing out side my window pulling up the M & O's fences with his tail and you'll never guess what it is doing with them.

Nun overhearing conversa-tion: Well, why don't you two gentlemen go to hell, there are no Catholics there. I don't know if the elephant knew what he was doing with the fences or not but I cer-Contrary to popular belief, God's last name is not DAMN. tainly have a suggestion as to what the M & O should do with

### **Playboy Seeking Campus** Assistants

Playboy is accepting applica-tions for a student to represent the magazine at N. C. State College, the Playboy College Bureau recently announced. More than 500 such campus representatives at colleges across the country regularly do representatives at college's across the country regularly do public relations work for the magazine, such as conducting subscription and campus retailer promotions, pretesting cloth-ing and other merchandise for national advertisers, and serv ing as liason men at campus Playmate appearances.

Interested students should clip this notice and send it with name and address to the Play-boy College Bureau, 232 East Ohio Street, Chicago 11, Illinois.

Playboy's other activities on campus include providing party decorations kits for fraternity parties and many kinds of col-lege social events. According to the Daniel Starch Report on Consumer Magazines, an aver-age issue of Playboy is read by 51.1% of all college men, representing the highest male college readership of any magazine.

### 8,000 Management Opportunities!

That's right. There will be 8,000 supervisory jobs filled from within the Western Electric Company by college graduates in just the next ten years! How come? Because there's the kind of upward movement at Western Electric that spells executive opportunity. Young men in engineering and other professional work can choose between two paths of advancementone within their own technical field and one within over-all management.

Your progress up-the-ladder to executive positions will be aided by a number of special programs. The annual company-wide personnel survey helps select management prospects. This ties in with planned rotational development, including transfers between Bell Companies and experience in a wide variety of fields. Western Electric maintains its own fulltime graduate engineering training program, seven formal management courses, and a tui-

tion refund plan for college study. After joining Western Electric, you'll be planning production of a steady stream of

Opportunities exist for electrical, mechanical, indus-trial, civil and chemical engineers, as well as physical science, liberal arts, and business majors.
