History Professor Publishes New Book

A North Carolina State College professor, Dr. William J. Block, has written a book which was published in September by the University of Illinois Press.

Dr. Block is an associate professor in the Department of History and Political Science at State College.

Dr. Block's book is titled "The Separation of the Farm Bureau and the Extension Service: Political Issue in a Federal System."

The recently published book is generally concerned with an effort to break the relationship of a public educational agency, Agricultural Extension Service, from an organized clientele group, the County Farm Bureau.

According to the author, the book was originally his doctoral thesis which was expanded by research and re-writing in 1958-59. Dr. Block explained that he was aided in obtaining the additional material through a grant from the Faculty Research and Professor Development Fund.

The sources for the material in the book include the files of

the late H. P. Rusk, a former dean of the College of Agriculture at the University of Illinois; office files of the National Farmers Union, National Grange, and the Missouri Farmers Association; and letters from and personal interviews with officials of state farm bureaus; farmers' union, and granges, as well as farm writers, and federal and state officials of the Agricultural Extension Service.

Dr. Block joined the State College faculty in 1957, coming here from the Citadel where he was a member of the Political Science Department faculty.

The associate professor received his B.S. degree from Eastern Illinois State College and his M. A. and Ph. D. degrees from the University of Illinois.

A native of Illinois, Dr. Block is a member of the American Political Science Association, the Southern Political Science Association, and the American Society for Public Administration.

Literary Supplement Deadline Set; Contributions Asked

Plans for State College's first literary publication, the LITERARY SUPPLEMENT TO THE TECHNICIAN, have begun to take definite and encouraging shape since the first announcement concerning it appeared in this paper about a month ago. About ten students have promised to submit examples of their talent for possible publication; these contributions will range from poems to a short story to a picture sequence on processing sculpture.

However, in order to publish a SUPPLEMENT of good quality, the staff must receive even more contributions. If you feel that you have talent in this area, please contact Joel Ray at TE 34522. The deadline for contributions is Dec. 1 and the tentative date of publication is Feb. 8.

WC Likes Jack

GREENSBORO, N. C., Nov. 2 (UPI) — Students at Woman's College chose Democratic presidential nominee John Kennedy over Republican Richard Nixon today, 676-460, in a straw vote.

The 1,136 students casting ballots used three city voting machines on the campus which was divided into three precincts.

In the gubernatorial race, Democrat Terry Sanford defeated Republican Robert Gavin, 591-443.

Ros Flubs Lines

NEW YORK, UPI—Rosalind Russell, veteran stage and screen star, fluffed her punch line Wednesday when she exhorted the Republican rally in Herald Square to "get out and vote for Kennedy."

Realizing what she had said, she gasped, fluttered like Auntie Mame and shouted: "I mean, let's vote him back into the Senate."

Chancellor Is Guest Speaker

Chancellor Caldwell was the guest speaker at the Dewali celebration sponsored by the Special Committee of the India Association last Saturday evening. The meeting was held at West Raleigh Presbyterian Church. Approximately 100 persons attended the reception, Indian-style dinner, and the special program about India. (Photo by Khosla)

'Science And Business' Theme of Open House

On Saturday, Nov. 5, the School of Agriculture will throw open its doors "to show what goes on behind the bricks and mortar."

The school will hold its second annual Open House. The theme will be "Science and Business in the '60's."

Hundreds of high school students — both rural and urban — parents, prospective employers of agricultural graduates and other interested people are expected.

Dean H. Brooks James has extended an invitation to all

students and faculty members at State College.

"As agriculture progresses, career opportunities change and expand," Dean James said. "We believe that our Open House will vividly show many of the present opportunities in agricultural business and science. We also believe," he added, "that we will give visitors an insight into new careers that will be opening up in the 1960's."

Prof. G. W. Giles, who is in charge of the event, pointed out that the production, processing and marketing of food provides

careers for over one-third of the American people.

"Certainly," Prof. Giles added, "agriculture is one of the most challenging, and I might add, essential fields for man's future."

Guided tours of laboratories and demonstrations will be the chief Open House feature. Each of the 14 departments in the School of Agriculture will participate. The School of Education and the Department of Chemistry and Experimental Statistics in the School of Physical Sciences and Applied Mathematics will have exhibits, also.

Registration will get under way at 8 a.m. in William Neal Reynolds Coliseum. Dean James will preside over "extra-curricular" activities until 10 a.m.

Included in these extra curricular activities will be a "chat" by Chancellor Caldwell, a talk on college experiences by Bobby Cooke and a preview of the 1960-61 basketball team by Coach Everett Case.

Tours of exhibits and demonstrations will be held from 10 a.m. to 5 p.m. Here are some of the things visitors will see:

How radioisotopes help animal researchers; how agricultural science, business and technology helps both the farmer and consumer; how scientists control plant diseases; and how crop plants evolved.

Also on display will be high-speed electronic computers being used in today's agriculture, new kind of fishes, poisonous plants, a panoramic display of North Carolina soils and revolutionary methods for harvesting and curing tobacco.

In all, there will be 17 categories of exhibits and demonstrations.

Lunch will be served by the Animal Industry and Poultry Science Clubs.

Campus Crier

The Student National Education Association organizational meeting will be held in Room 242, Riddick Building, Monday, November 7, at 7:30 p.m. All Education majors are urged to attend.

The Young Republican's Club of N. C. State and the Young Republicans of Wake County are planning a joint motorcade and picnic Saturday Nov. 5. The motorcade will meet at the parking lot of the Coliseum between 8:30 and 9:30. The cars will be decorated and the motorcade organized. The food will be pooled and the picnic site agreed upon.

All Y. R. C. members, Republicans, and Democrats for Nixon-Lodge and/or Gavin are invited to attend. Get a couple of sandwiches and a "6 pac" and join in on the fun!

PR's To Appear Friday At Frosh Grid Game

Friday night when the N. C. State College Wolflets meet the freshmen from the University of South Carolina, the PERSHING RIFLES along with the Drum and Bugle Corps will entertain at half time.

Under the leadership of 2nd Lt. Preston Hasson, the crack drill platoon will provide the spectators with fifteen minutes of precision movements and coordinated marching. State College students last saw the PERSHING RIFLES perform for the Homecoming Parade and during the halftime ceremonies at the game.

This performance of the Pershing Rifles follows closely the joint meeting held last week with the Scabbard and Blade, and the Arnold Air Society at the S & W Cafeteria. At this joint meeting Capt. Waterman, of the AFROTC department at State College, spoke on his eighteen months service with the 322nd Air Cargo Squadron in Europe.

Regimental Assembly
The Fourth Regiment of PERSHING RIFLES held their annual Regimental Assembly October 29th at Clemson College. The company commanders of the Fourth Regiment spent Saturday planning the events for the coming year. Company "L" from State College was well represented with four delegates attending the assembly.

The fifteen companies of the Fourth Regiment cover the states of North Carolina, South Carolina, Tennessee, Georgia, and Alabama. Representatives at the assembly were from Clemson A & M College, Clemson, S. C.; Wake Forest College, Winston-Salem, N. C.; Georgia Institute of Technology, Atlanta, Ga.; Auburn University, Auburn, Ala.; N. C. State College,

Raleigh, N. C.; University of Georgia, Athens, Ga.; Furman University, Greenville, S. C.; Georgia State University, Atlanta, Ga.; and Vanderbilt University, Nashville, Tenn.

During the meetings various issues were decided for the coming year such as policies and special events. The date of the Regimental Drill Meet, which is an inter-company drill competition, was set for the first week in May at Fort McClellen, Ga.

The delegates representing N. C. State were Capt. Jim Jones, LTs. Dale Strawn and Barre Mitchell, and Sgt. Jack Jordan. These four men left Raleigh early Saturday morning and returned late that night.

Comments From The Editor Aid Vitally Needed

A half pint of milk for lunch . . . many people sharing one textbook . . . Tuberculosis running rampant in the too crowded and unhygienic living quarters . . . almost no aids to education such as laboratory equipment.

A full stomach full of appetizing and nourishing foods . . . a regular hospital just for student needs . . . five or ten textbooks per person . . . clean and comfortable rooms . . . a nuclear reactor-complete lab equipment.

There is a vast difference between these two descriptions, but they both depict the same institution—Education. The geographical scene has only been shifted from southeast Asia or India or Greece or parts of Europe to this campus.

People living under intolerable conditions will turn to help from anyone who will offer it, whether the intentions of the benefactors are a desire to help someone less fortunate than themselves or merely a subterfuge to indoctrinate the people with certain ideologies.

The Communist Bloc intends to rule the world, and one of the ways which it can do this is to aid the students, the future leaders, of these underdeveloped countries. An empty stomach will be loyal to anyone who feeds it.

These countries and their students need help from us, not only because of the vast difference between our standard of living and theirs, but also so that they will not fall under the influence of the Communist Bloc. American students have set up an organization to give them this greatly needed aid called the World University Service. This organization is supported by American college students through campaigns such as the Campus Chest Drive which is now going on here.

We, with our full stomachs and our easy living should stop and think of these other students whose place we, ourselves, could easily be in. When someone asks us to help with the campus Chest Drive, we should consider the need of these other students and the implications of aid from other sources which could prove disastrous to us all in just a few years.

—ML

Special Issue

This issue is being sent to the faculty members in order that you may be able to vote in the straw vote that is to be held tonight and Friday. The printing charges were paid by Dr. Holtzman's political members that they might subscribe to *The Technician* for the remainder of the school year for \$2.75.

We hope that all faculty members will take part in this election. The results will be announced in Monday night's *Technician*.

Letters To The Editor

To The Editor of The Technician:

This is the only time during the year that State students are given the opportunity to donate to a charity drive as students. The goal for the Campus Chest Drive has been set high since this is the only authorized charity drive on campus.

Last year's total was 138% greater than the previous year's contributions. Again this year we should improve by at least 100%. If this is attained, each of you can be justly proud of your school and school spirit.

The Raleigh United Fund and the World University Service will receive equally from the drive.

The members of the Student Government voted 100% in favor of the Campus Chest Fund, and they urge each of you as students to contribute.

Allen Kimbrell
Student Government Affairs

To The Editor of The Technician:

"Help others help themselves". This is effect is what Campus Chest Collectors are meaning when they ask you to give generously to the Campus Chest Drive. Help students throughout the world in their labor for opportunities similar to ours here at State College by giving to this drive, fifty per cent of which will be given to the World University Service.

Is there a better red-blooded citizen than the one who helps the Cerebral Palsy Hospital, the American Cancer Association, the National Polio Foundation, and the Heart Fund? The answer can only be found in the eyes of a person stricken by one of these diseases. The other fifty per cent of your donation goes to these institutions by way of the Raleigh United Fund, the Campus Chest Drive.

Give to a good cause. Give to
Ervin Lineberger
Junior Class President

To The Editor of The Technician:

Wednesday of last week, in *The Technician*, the CHIPMUNK acknowledged receipt of an invitation extended to him by one of the members of the College Union Board of Chairman. He was invited to come to the College Union and discuss completely the C.U. budget. The

CHIPMUNK, fellow students, could only reply that I would show him a second set of books. Perhaps when the auditor comes and takes \$375.00 of your money for checking the books we show him that "second set of books".

Let's be reasonable my striped friend. I extended that invitation in an effort to point out the facts and figures on the C.U. to you—and possibly you would pass this information onto the student body at large. You have, however, shown that your real interest lies in causing a disturbance of one kind or another and not in realizing the facts of the matter.

To you, the students of N. C. State College, I extend a warm invitation to come to the College Union Activities office at ANY time and discuss the budget in whole or in part with the staff, the president or vice-president, or any member of the College Union Board of Chairman.

Bob Binns
Chairman—Dance Committee

The C U Review

By Ann Smith

From now on, this column will replace "At the College Union." Follow-ups of the College Union events will appear in this column to stimulate interest in future events of the same type. Since the column is new, future announcements will be featured this week.

The week-end movie will be shown on Friday nights starting this week at 9:15. This week, the times for the movie are 1, 3:30, 6, 8:30 on Saturday and Sunday.

The movie is "Northwest Passage" starring Spencer Tracy, Robert Young, and Ruth Hussey. It is about the exciting adventures of an interpid group of men known as "Rogers' Rangers" in an attack against the Abernathy Indians during the *Seven Years' War*. The fifth chapter of "Flying Discman from Mars" will also be shown.

On Thursday, November 3, the College Union Travel Committee will hold a meeting in the CU Theatre at 7 p.m. to further explain the New York trip which will be during Thanksgiving holidays. At that time a movie on New York will be

By Ed Puckhaber

The other day I ran across the following article written by William E. Reber, a student at the University of Ohio. The article brings out some points which you may find of interest.

When asked the inevitable question which comes to every pledge, "What makes a good Fraternity man?", we falter a minute, and then rattle off a few observations such as dependability, willingness to work, social skill, pleasant personality, and character. Each of these is a valid comment on a quality which goes into the make-up of a good fraternity man—yet it is too often the case that they are practiced too much in the singular, or not at all. For the sake of the Fraternity I think these qualities deserve closer examination than they usually get during the pledge examination.

Dependability is an important word to a fraternity—and to a fraternity man. It means that a man may be depended upon to arrive at meetings on time, ready to share with the group, to join with his Brothers in seeking solutions to their common problems. He is willing to assume a job and do it punctually, and neatly, leaving no "loose ends" to be tied together by someone else. He may be relied upon in times of stress and emergency. He is able and willing, even eager, to accept responsibility and meet it wisely, correctly and with dispatch. The dependable fraternity man is the backbone of his organization—his fraternal superiors know that if given a job he will complete it, giving them confidence in their organization and relieving them of much of the burden of office.

Willingness to work in an essential for a fraternity man. The good fraternity man gives all he can for the organization—he works for the welfare of his Brothers and the fraternity. He participates eagerly in the special events and activities of his Chapter and shows enthusiasm when called upon to give of his time and labor. In addition he labors mightily to fulfill his function as a student, because the good fraternity man realizes that his single achievement joins with the whole to produce an acceptable standing for his organization.

Grades have ruined many a fraternity man. The good fraternity man maintains a better than average scholastic standing. Many fraternity men become so engrossed in the social aspect of the fraternity that they forget their prime purpose at college—to become educated. A good fraternity man puts scholarship first. His grades, as a reflection of his interest and ability as a student are a permanent personal record. The accumulative grades of a fraternity chapter are a criterion of that chapter's worth as an adjunct to the college. A chapter with a high scholastic rating will always receive a commensurate overall rating. A high academic rating demonstrates that a group of college men though involved in social activities without number still remember their principal purpose—education.

Social skill also is a must for the good fraternity man. He practices good manners so as to reflect creditably upon himself and his home, as well as the Fraternity. Good manners are the mark of a good fraternity man—and he practices them automatically. It should be brought to mind that manners are not confined to table etiquette.

A good test of manners and social grace is how well does one take care of his room. A clean and well kept fraternity house is an indication of the type men it houses. A good fraternity man takes pride in his college home and shows it by keeping his room clean and by respecting the property. He does not drop ashes on the floor, leave Coke bottles on the furniture, nor place his feet on the nearest chair of coffee table. He should be able to invite his friends, parents and associates into the house at any time without fear of embarrassment.

A good fraternity man is well groomed. Clothes to not make the man, but they certainly give the impression of the man. It is not important to dress expensively, as long as one dresses tastefully. Good taste, wise selection and neatness are far more important to appearance than the cost of the wardrobe. In a way, the appearance of the fraternity man is a reflection upon his organization.

The good fraternity man has a pleasant personality because he feels secure in possession of the other attributes—dependability, willingness, and social skill. He is able to carry on conversation in any company, without fear of giving offense. He is friendly and shows interest in others. He is tolerant, understanding and helpful.

The column beside this article contains the ballot for the State College straw vote. Please clip the ballot from the paper, mark the boxes for the candidates of your choice, and deposit the ballot in one of the boxes.

Location of Ballot Boxes
Dormitory residents may deposit their ballots in boxes located in the dormitory manager's room. Fraternity men may deposit their ballots in boxes at their house. Off campus students may vote at any of the following locations: College

Union main desk, Library circulation desk, Student Supply Store, and Winston Hall. There will also be a box in front of the dining hall from eleven until one Friday.

Results

The results of the straw vote, sponsored by the Political science classes, will be published in the TECHNICIAN on Monday, November Seventh. Please vote only once, in order that the poll may be an accurate measure of students and faculty opinion.

Freshmen Textile Enrollment Jumps 100% From Last Year

The freshman enrollment in the School of Textiles at State College this fall represents a 100 per cent increase above last year's class, Dean Malcolm E. Campbell reported today.

Freshmen enrolled in textiles this fall total 148 as compared with 74 who registered last fall.

Dean Campbell said the total enrollment in the college's School of Textiles reflects a 24 per cent increase this year and currently stands at 435.

Dr. Campbell attributed the big enrollment increases to improved conditions in the textile industry, several new scholarships that have been presented to the School of Textiles since last fall, and to concerted recruitment program headed by G. H. Dunlap, director of the school's Placement Bureau, who was assisted by Prof. W. E. Smith.

Director Dunlap and Professor Smith visited a total of 126 high schools including three in Virginia and two in Tennessee during the past year and explained to high school seniors in these schools the academic programs offered at State College and career opportunities in the textile industry.

Last March 154 high school students attended a day-long program at the School of Textiles and were guests of the North Carolina Textile Foundation at a barbecue luncheon.

Dean Campbell said 47 of the students in the total enrollment come from 17 foreign countries. Another 48 students represent 11 other states. In the student body, there are eight coeds. Married students make up 20 per cent of the enrollment, and nine per cent are veterans of military service.

Graduate students enrolled in textiles total 48.

State College's School of Textiles attracted the attention of thousands of visitors to the International Textile Machinery Exposition in Atlantic City, N. J., last May with a booth depicting the school's training programs and opportunities for employment in the industry.

The administrative staff and

Animal Industry Club Makes Profit From Fairs

By Buck McColl
Gross profits for the A.I. Club during this year's N. C. State Fair Week were \$1100.75.

Bill Summey, in charge of showing dairy animals at the fair reported a total of \$545.00 in prize money. Thirty-three dairy animals were shown from the college herd. Roger Collins did a lot of work in helping to fit the animals for the show.

Winings for the showing of sheep totaled \$179.00, \$67.00 of which was won at the Winston-Salem Fair. Charles Mann and Ted Luther who were in charge of the sheep that week showed the Reserve Champion Ram and two first place winners at the State Fair and three second place sheep in Winston.

A.I. Club members worked 398.75 hours in the Dairy Bar. At the rate of a dollar per hour this brought the club \$398.75. David Stadler was chairman of the Dairy Bar this year and Gordon Neville was co-chairman.

Norwood Potter did a good job on the A.I. Club fair booth. The booth placed sixth among the other booths representing the various phases of the School of Agriculture.

The annual Breeders' Barbecue, which was held in the pavilion at the State College Dairy Farm, was host to some two hundred men.

STATELINE

By
EARL MITCHELLE

Football will be filling the air at Bowman Gray Stadium this Saturday afternoon when Roman Gabriel and Norman Snead take the field for their respective teams. These two players are rated as two of the best passers in the nation. Going into the Deacon clash, Gabriel is leading the Atlantic Coast Conference in total offense with an average of 5.1 yards per play. Snead is in second place with a 4.5 average.

Gabriel has picked up a total of 959 yards in 189 plays in seven games for his loop-leading mark while Snead has racked up 773 yards in 172 plays in six games for his second place mark. In the passing department, Gabriel again has an edge on the Wake Forest ace. Gabriel has completed 72 passes of 128 attempts for 854 yards and six touchdowns. Snead has hit on 66 aeriels out of 138 that he has tried for 764 yards and five touchdowns. Gabriel, who was the NCAA's most accurate passer last year with a .604 mark, has completed over 56% of his tosses this year. Snead, on the other hand, has completed about 48% of his attempts. Snead has had seven aeriels intercepted while Gabriel has had only five stolen from his teammates.

From the statistical viewpoint Gabriel has a definite edge on "Slinger" Snead. In the team leadership department, both of these boys are real standouts. Gabriel has put fire in the Pack more than one time when they were behind. In the Maryland game after the Terps had scored a touchdown with less than nine minutes left in the game to take the lead, Gabriel took charge and drove the Pack 68 yards in less than four minutes to score the winning touchdown. In that 68 yard drive, Gabe accounted for all of the 68 yards covered except five yards which one of the other backfield men covered. If that isn't team leadership there's no such thing as leadership.

Looking back to the Carolina game we find another place where Gabriel was the "Rock of Gibraltar" and the man of the hour. It was his interception that stopped a Tar Heel drive late in the fourth period to put the candles on the cake as far as the Wolfpack was concerned. While falling to the ground he reached out with one hand and caught the ball.

Snead, on the other hand, is co-captain of the Deacons and has been team leader all year. He is a veteran on the gridiron and has been an important cog in the Deacons attack for the past two and a half years.

Digging back into the 1959 records we found that what is true of this year's ACC statistics was not true at the end of last season. Snead was the number one offensive leader in the ACC and was also the top passer in the conference. Gabriel was third in total offense and second passing at the end of the '59 season.

When the 1960 season rolled around this fall, most of the writers were leaning to Snead and his Deacon teammates to be one of the top contenders in the ACC. State and Gabriel were left out in the cold or rated as darkhorses. But as the season got into full swing, the tables were turned and the Pack went to the top of the heap and stayed there until another outsider, Duke, took over the loop lead. While all this was going on Wake Forest was sinking lower and lower in the loop rankings.

The game will be very important to Gabriel as far as his making All-American are concerned. Making All-American will not be on Gabe's mind when the game starts Saturday, but it will be on the mind of his followers and fans. Last week Gabriel clashed with Bill Kilmer in what the West Coast sports scribes billed as the battle of All-Americans. Gabriel played a good game, but when his wife was expecting a baby back in North Carolina it was probably hard to give the game his undivided attention.

This will also be the last time that State will appear this year in North Carolina.

Pack Seeks Sixth Win Of '60; Snead-Gabriel Duel On Tap

After a trip to the West Coast, the State Wolfpack will return to North Carolina to take on Wake Forest in Winston-Salem this Saturday afternoon at 2 o'clock in Bowman Gray Stadium.

This will be the next to last ACC game that the Wolfpack will play this year. Earle Edwards will be looking for his team to take their sixth win of the year and their fourth loop win. Wake Forest, one of the leaders in the ACC in preseason polls, has had a real rough time this year. Under their new coach, Billy Hildebrand, the Deacons have won only two games this year. They beat Carolina by a 13-12 count and then held off a determined Virginia team last week to win 28-20.

The real feature attraction of this game will be the meeting of two of the conference's outstanding passers and offensive leaders. Norman "Slinger" Snead and Roman Gabriel will be throwing footballs all over the field before the afternoon is over. Like the Bill Kilmer-Gabriel match of last week, the Snead-Gabriel match this week will be a battle of great ball players.

Wake Forest has lost some

real close ones this season with the exception of the Clemson game. Losses came at the hands of Florida State, 14-6, Virginia Tech, 15-6, and Maryland 14-13. Two of their setbacks came by the margin of only one point.

State, on the other hand, has lost only two games this year. The first loss came to the Duke Blue Devils, 17-13, and last week they were edged by highly rated UCLA, 7-0. The Pack has wins over Virginia Tech, North Carolina, Virginia, Maryland, and Mississippi Southern.

This year's meeting of the two Big Four schools will be the 58th game of the series. The Wolfpack hold a 26-21 edge on the Deacons in the series with six games ending in ties. The Deacons won the last game last year by a 17-14 margin. It was the field goal that put the Wolfpack behind the eight ball in this game as it did in several games last year.

Heading the starting lineup for the Deacons will be Snead at the quarterback post. Backing up the senior co-captain will be Chuck Reiley and Leon Brogden. Flanking Snead at the halfbacks will be Bobby Robinson and Jerry Ball. Other halfbacks that will figure in the Wake

attack on Saturday are Bill Skippon and Alan White. The fullback post will go to Joe Bonecutter with Bruce McDonnell seeing a lot of action also.

Bill Hull and Bobby Allen will head the list of targets for Snead's aeriels at the end positions. Henry Newton and Bill Ruby will also see some action at the ends. At tackles, Hildebrand will probably go with Bob Smith and Wayne Wolf with Bob McCreary and Al Conover heading the list of substitutes. At the guards you will probably find Bob Irwin and Paul Martineau. Top subs at these positions will be Jim Pierce and Bennett Williamson. At center will be either Jimmy Lanier or Kent Martin.

The Wolfpack will counter with Al Taylor, John Stanton, and Roger Moore surrounding Gabriel in the backfield. Claude Gibson, Tom Dellinger, and Stanton will be the top defensive secondary for the Pack.

Jim Tapp and John Morris will probably be the ends and they will be backed up by John Gill, Dennis Kroll, and George Vollmar. Punting specialist Collice Moore and Tiny Reynolds will probably be going at tackles with Bert Wilder and Graham Singleton seeing a lot of action.

Nick Maravich will also see a great deal of action at the tackle slot.

The number one guards for the Pack will be Alex Gilleskie and Joe Bushofsky. Jake Shaffer, the place-kicking guard, will probably miss the Deacons game because of an arm injury. Harry Puckett, Kent Morton, and Skip Matthews will be the top subs at the guards. The center job will be divided between Jim Fitzgerald and Bill Hill.

Going into this game, Gabriel and Snead rank one and two respectively in the total offense and passing departments in the ACC. In team passing offense, the Deacons are rated number one in the ACC.

- rich tobacco taste
- modern filter, too

Unbeaten Wolflets Meet USC Frosh

By Richie Williamson
The future starters for N. C. State will take the field for the first time this season on Friday night in Riddick as the State Wolflets play host to the freshman Gamecocks of South Carolina. Kickoff is slated for 8 o'clock.

The Wolflets will be gunning for their fifth straight win of the season and their first undefeated season since Earle Edwards arrived at State in 1954. One thing for sure about this year's team is, regardless of the outcome of this game, that it is probably the best in the school's history.

Already this season the Wolflets have knocked off all opposition by large scores. They opened the season by crushing a powerful Carolina team 28-14. From there they picked up steam to stomp Wake Forest 34-8. The third game of the season gave the State fans one of the greatest offensive shows ever seen in Riddick Stadium as Duke fell to the side by a 62-28 count. Two weeks ago in Charlottesville the Virginia frosh were mauled 29-8.

Coach Johnny Clements feels that the big difference lies in numbers. "We have 30 scholarship boys, which is more than

we've ever had before," says Clements. From these numbers, Clements has been getting terrific results including a few individual standouts.

The offense has been equally strong on the ground and in the air. Quarterback Jim Rossi of Asheville has been the team's triple threat as he excels in his passing, running, and punting. The 5-10, 160-pounder has been extremely accurate with his passes and also directs the team with smooth generalship.

The club's running sensation is Tony Kozarsky, a small 163-pound halfback. However, what

he lacks in weight is made up for in speed as he has been compared to State's Dick Christy as a break-away runner. The Bridgeville, Pa., boy is a good all-around football player.

Running at the other halfback slot is Carson Boshier, 5-8, 185-pounder from Chester, Va., who provides a great deal of the scoring punch. He usually runs from the wingback where he excels as a pass receiver. Boshier also does the kicking off and extra-point placements. He kicked eight of nine in the Duke game.

Rounding out the backfield is

Peter Falzarano at fullback. Pete has been used effectively in picking up the short yardage when necessary. He is 5-10 and 198-pounds and hails from Stirling, N. J.

Up front at the end positions are two top-notch pass receivers in the Martin boys, Whitey and Dan. The tackle spots are held down by a couple of big boys in 230-pound Rawley Speir and 212-pound John Turco. At the guards are Bob Bussard and Bill Sullivan. The center is 185-pound Vance Cockerham.

Clements uses his second team mainly on defense which con-

sists of ends Bob Royer and Bob Landis, tackles Rosario Amato and Doug Brackett, guards Golden Simpson and Silas Snow, center Gerald Topinka, quarterback Ron Skosnik, halfbacks Charlie Thompson and Joe Scarpati, and fullback Nick Jessen.

Friday night should complete an undefeated season for the Wolflets so the fans will probably see a terrific offensive show. Remember that these are the nation's future stars and the kickoff sets them in action at 8 o'clock Friday night.

Crystal Ball Corner

The Crystal Ball corner got off to a rousing start this past week with only one big upset throwing a clog into the works as the once powerful Clemson Tigers fell to the wayside in losing to Vanderbilt 22-20. Richie Williamson came out on top after the first week's predictions with a 5-1 record for 80% right. Earl Mitchell hit 67% right with 4-2, while Jay Brame had only half right for 50%.

This week the trio has decided to expand their selections to include not only the ACC but also some of the leading games across the country. The games for this week really proved to be tough ones, and only Saturday will decide how the trio does.

The predictions for Saturday, Nov. 5:

Clemson vs. UNC	Brame	Mitchelle	Williamson
State vs. W. Forest	Clemson	Clemson	UNC
Duke vs. Navy	State	State	State
Maryland vs. Penn St.	Duke	Navy	Navy
USC vs. LSU	Penn St.	Penn St.	Penn St.
Iowa vs. Minnesota	LSU	LSU	LSU
Baylor vs. Texas	Minnesota	Iowa	Iowa
Syracuse vs. Army	Baylor	Texas	Baylor
Oregon St. vs. Wash. St.	Syracuse	Syracuse	Syracuse
Tenn. vs. Ga. Tech	Oregon St.	Wash. St.	Oregon St.
	Tenn.	Tenn.	Tenn.

Gabriel First In Two ACC Depts.

In the latest Atlantic Coast Conference statistics, Roman Gabriel is the number one passer and the top offensive player in the loop.

Al Taylor is the number four rusher in the ACC with an average of 3.3 yards per carry.

Taylor has picked up 226 yards in 69 carries to compile his average.

As a team State, now stands in the number two spot in both the pass defense and the total defense rankings. In the rushing defense department, the Pack is in fifth place.

The Wolfpack rank fifth in total offense and third in passing offense. The State team now stands in the cellar in the rushing offense standings. The Pack is the fifth team in the rushing defense.

The following is a complete list of the ACC facts and figures through last Saturday's games:

THE PARABLE OF THE FIFTY GORILLAS

And lo, it came to pass that in the faraway land of West Raleigh a herd of gorillas took refuge. All saveth a few were righteous, but these few, seeing that goodness draggeth and that corruption swingeth, proceedeth to vex the many who were upright. And the change cometh about, and or'v the keen were sad, and the ke-n were few, and the keen grew fewer at the eleventh hour of each sixth day. And each gorilla was indiscernible from the others, so that they all swingeth by a different color rope. But they all swingeth alike and gasseth one another.

One black day a great one of the village becometh consumed with a fire in his breast and hicketh the bucket. There reigneth much rueful mourning, even until the day of rites, when the whole village diggeth and weepeth and drinketh and diggeth and drinketh and drinketh, etc.

And there ensueth a procession of high solemnity which passeth over the countryside near and afar. The body of the great deceased gorilla layeth in stillness upon the bamboo dray, while a more jovial member of the village playeth "Trailgate Ramble" upon the dolcimer.

After which the procession returneth to their village for the rites of burial. There cometh from the dray a casket of great weight to be interred in the black earth, upon which there was suddenly much dancing and revelling, for Lo! the great gorilla hath been transformed into wine (canned yet-!)

And the swingers ever swingeth and the non-swingers appeareth not on the scene. Deep into the night grins continueth far away at the jungle water hole. And there was rejoicing in bountiful plenty, and thirst of great magnitude.

At about the second hour of the second day of rejoicing,

there at the feast appeared, twelve in number, a tribe of chi mpanzees to join the celebration, but alas—they were met with consternation and revilement. The wrath of the gorillas descendeth upon them like unto a plague. Therefrom evoketh the sound of hammering chests and cursing of great volume which turneth the sky blue. The chimps gazed upon the angered countenance and comprehendeth it not, for they were meek and innocent. But the gorillas, great in wisdom, comprehendeth for all of them, saying, "Take thee away, for thou art in the land of thine enemies."

And there cometh to the gorilla village an host of enterprising young baboons, who knoweth not the alertness of the occupants therein. Alas, the cage door openeth and gorillas poureth therefrom in great mul-

Notice Engineers

The only formal dance on campus that is held exclusively for engineering students, the Engineer's Ball, has been set for Saturday, November 19, at 8 o'clock in Reynolds Coliseum. Music will be provided by the Duke Ambassadors.

All engineering students, and faculty of the Engineering school are cordially invited to attend this event.

Attitude. "Woe be unto us," sayeth one of the baboons, "Flee we must." And flee they did. All escapeth by the skin of their teeth—save one who laggeth and falleth behind, whereupon an outraged gorilla floggeth him and rendereth him unconscious. And the tribe falleth upon him in great haste and there in the roundabouts tooketh place a strange ritual. And the baboon's fur becometh null and void, and the rape of the lock is complete and causeth much happiness among the gorillas and much weeping and wailing and gnashing of teeth among the baboons. And the baboons beateth their ploughshares into swords, but attacketh not, for

WISDOM IS BETTER THAN WEAPONS OF WAR.

C E Graduate Student Receives Fellowship

An Engineering Foundation fellowship has been awarded to James A. Merricks of Reidsville, chemical engineering graduate student at North Carolina State College.

The fellowship is for the current academic year.

Announcement of the award was made by Dr. J. Harold Lampe, the college's dean of engineering, who said that the Engineering Foundation fellowships are for talented engineering students who exhibit outstanding academic and scholarly achievement during their undergraduate engineering training. The fellowships were estab-

lished by the North Carolina Engineering Foundation, headed by R. Walker Martin of Raleigh.

The awards carry a stipend of \$2,500 and are available to North Carolina natives who enroll for advanced study, professional or graduate, in the areas of engineering. They were established to be awarded to qualified and gifted students interested in engineering teaching or research as a career.

Young Merricks, son of Mr. and Mrs. Emmett C. Merricks of Reidsville, received a Bachelor's degree in chemical engineering last June. He has a minor in mathematics.

Edwards To Speak To Wake Alumni

Members of the Wake County State College Club will hear a talk by Earle Edwards, North Carolina State College head football coach, at a dinner meeting of the group Thursday, November 10, at 7:30 p.m.

The meeting will be held at the State College Cafeteria.

James F. Kelly of Raleigh, club president, will preside.

Club officers, in addition to Kelly, are J. McCree Smith of Route 1, Cary, first vice president; J. Finley Boney of Raleigh, second vice president; Robert N. Wood of Raleigh, secretary-treasurer and Rudolph Pate, also of Raleigh, reporter.

STU'S EXPLAINING HOW MACHINES WILL SOME DAY "OUTTALK" PEOPLE

"Stu" Smith graduated from Southern Cal with a powerful yen for excitement. His kind of excitement—Engineering.

He got what he bargained for (and a little more) when he joined Pacific Telephone. One of Stu's early assignments was to find out how existing Long Distance networks could be used to pipeline high speed "conversations" between computers in distant cities.

The fact that he did a fine job did not go unnoticed.

Today, four years after starting his telephone career, Senior Engineer Stuart Smith heads a staff of people responsible for telegraph and data transmission engineering in the huge

Los Angeles area. As a pioneer in this new data transmission field Stu predicts data processing machines will some day do more Long Distance "talking" than people.

Stu contacted 12 other companies before joining Pacific Telephone. "I don't think there's any limit to where a man can go in the telephone business today. Of course, this isn't the place for a guy looking for a soft touch. A man gets all the opportunity he can handle right from the start. He's limited only by how well and how fast he can cut it."

If Stu's talking about the kind of opportunity you're looking for, just visit your Placement Office for literature and additional information.
