## From Ex-Chancellor Harrelson

### NCS Receives Grant

The North Carolina State College Foundation, Inc., has received a bequest exceeding \$100,000.00 under the will of Col. John William Harrelson, who died on March 12, 1955.

Colonel Harrelson was State College's Chancellor from 1934 until his retirement in 1953. He left his property in trust for the benefit of his wife for the term of her life with the remainder to the North Carolina State College Foundation, Inc.

Announcement of the receipt of the bequest was made today by college officials, who termed the gift as "an outstanding contribution of the late Colonel Harrelson toward the continuing advancement of his alma mater."

The bequest, in accordance with the late Chancellor's wishes, will be used to support a top-level program of lectures and to acquire books for the D. H. Hill Library, works of art, and markers for various college buildings. Commenting on the bequest, President William C. Friday of the Consolidated University of North Carolina, said:

"Colonel Harrelson gave practically all of his adult life to the advancement of State College. This expression is truly indicative of his abiding love for his alma mater and his faith in its future progress.

"His bequest making possible the Harrelson Lectures is a truly significant development for State College."

Chancellor John T. Caldwell of State College declared:

"Chancellor Harrelson's name is conspicuous in the recent history of the College. The bequest and the terms of it speak eloquently of his love for the institution and his hopes for its cultural excellence. Our gratitude will be expressed in the effective use of this fund over the years."

**Bequest Statement**  
Sometime before he died, Colonel Harrelson made the following statement:

"I am interested in every move

that will benefit State College. The recent decision concerning my will is based on that interest. "I hope my modest estate can be used in two areas that have long been neglected at State College:

"(1) Toward securing outstanding mathematical works for the library and distinguished scholars for visiting lectures, such as the Weil and McNair lectures at Chapel Hill.

"(2) Possibly toward securing some paintings for certain areas of the campus, such as the library and the College Union.

"My decision to bequeath the remains of my estate to State College development was certainly not made to influence anyone in that direction. But if it does give any of our fellows an idea, then more power to them and to our Alma Mater."

Colonel Harrelson's widow, the former Miss Elizabeth Connor, daughter of Judge and Mrs. George W. Connor, died earlier this year.

**College Executive**  
The beloved chancellor was State College's sixth chief administrative officer. He was the first alumnus to head his Alma Mater and served in the college's top office longer than any of his predecessors. At the time of his death, he was an outstanding figure in the public life of North Carolina.

(See HARRELSON, page 4)

## State ME Dept. Head Named New York University Pres.

Prof. John F. Lee, head of the Department of Mechanical Engineering at North Carolina State College, has resigned to become president of the State University of New York on Long Island.

A native of Boston, Mass., Professor Lee has been a member of the State College faculty for the past eight years and head of the Department of Mechanical Engineering since 1958. He will depart for his new duties February 1.

The State University of New York on Long Island, now temporarily located on the former Coe Estate at Oyster Bay, is building a \$250,000,000 permanent campus at Stony Brook, Long Island. Chairman of its board of trustees is David Sarnoff, chairman of the board of RCA.

### —NOTICE—

All State College Coeds interested in representing State this Saturday as our contestant in the competition for Consolidated University Day Queen, should come by the Student Government Offices in the College Union tonight at 7:00 p.m. Three girls will be selected to represent State at that time by the State Delegation to the C.U.S.C.

The university, which Professor Lee will head, embraces a Graduate College as well as Colleges of Science and Mathematics, Arts and Letters, Engineering, and associated divisions.

An internationally-known educator, Professor Lee was the first engineer and the sixth American to be invited to give the Curie Lectures at the University of Paris last spring, has been closely affiliated with the Research Triangle, and has been active in Governor Hodges' program to attract industry to North Carolina.

President William C. Friday of the Consolidated University of North Carolina, expressing his regret at the forthcoming loss of Lee, said:

"The University and State College deeply regret the loss of Professor John Lee to the presidency of the State University of New York on Long Island. Professor Lee is a most capable person. His leadership at the College and in the work of the Research Triangle will be greatly missed. We wish him every good fortune in his new administrative work."

Chancellor John T. Caldwell of State College declared:

"Professor John F. Lee has been a distinguished member of this faculty since he joined it in

1952. He has given guidance of an imaginative quality to the Department of Mechanical Engineering which will serve the College for many years. There is no doubt but what his superb relationships with industrial and political leadership have also been an asset to the State and to the College. Not only will miss him but also his lovely wife and family. The State of New York has acquired a superb leader for its young university and one who undoubtedly will carry it into a position of prominence soon. It is not surprising to those of us who know him well that he has been summoned to a top administrative position in a university. His going is a real loss to the institution here."

Professor Lee was born in Boston, Mass., on September 19, 1918, and attended Boston Latin School. He was graduated from The Citadel with a B.S. degree in civil engineering in 1941.

A veteran of World War II, Professor Lee worked before and after the war with Stone and Webster Engineering Corporation of Boston. In 1948, he was awarded a Master of Science degree in mechanical engineering by Harvard University.

From 1948 to 1952, Professor

Lee was a member of the faculty of the University of Maine, rising from assistant to associate professor. He joined the faculty of North Carolina State College in 1952 as an associate professor.

Professor Lee has authored more than 60 publications and has received world-wide acclaim for his contributions to the science of statistical thermodynamics. He is a junior author of a book on the subject written with Dr. Francis W. Sears, head of the Physics Department at Massachusetts Institute of Technology. In addition, the two men have co-authored a book on classical thermodynamics.

Special assignment given Professor Lee include:

Member, Carnegie Fund Study Commission on Thermodynamics (1957), U. S. member, International Electrotechnical Commission (1956), invited lecturer, Massachusetts Institute of Technology, (1953), invited lecturer, Northwestern University (1956), Air Marshal Sir Frank Whittle Lecturer, Cambridge University (1955), Curie Lecturer in Statistical Thermodynamics, University of Paris (1960), adviser, National Science Foundation Research and Educational Support Programs (1959), adviser, National Science Foundation and National Academy of Sciences on Scientific Exchanges with other nations (1959), and adviser, National Science Foundation on support of delegates to foreign scientific congresses (1959).

Professor Lee is a member of the American Society of Mechanical Engineers, American Society for Engineering Education, Harvard Engineering Society, Sigma Xi, Pi Tau Sigma, Tau Beta Pi, American Association for the Advancement of Science, American Standards Association, and the American Rocket Society.

The newly-named university president is married to the former Helene Zinka Cohen. The Lee's have three children, Anee-Marie, 14, Robert Paul, 13, and Virginia Louise, 11. They reside at 3212 Beaufort St., Raleigh.

Several prominent North Carolinians expressed regret at Professor Lee's decision to leave State College.

Watts Hill, Sr., of Durham, chairman of the board of the Durham Bank and Trust Company, a member of the executive committee of the Consolidated University's board of trustees, and a key figure in the Research Triangle said:

"John Lee has been one of the most effective workers for the Research Triangle from the early days. His going is a great loss to the Triangle effort as well as to State College."

Dr. J. Harold Lampe, dean of State College's School of Engineering, stated:

"It is with a feeling of regret and of pride on our part that we note the appointment of Professor Lee to the presidency of the State University of New York."

(See LEE, page 4)

## Kingston Trio To Appear In Coliseum Next Month

The Kingston Trio, currently America's top balladiers, will appear at the William Reynolds Coliseum in Raleigh, N. C. on October 21, 1960 at 8:30 p.m.

The Kingston Trio was recently awarded a plaque by the Ballroom Operators of America as "the best show attraction of the year" and coveted "Grammy" (a gold gramophone), the record business equivalent of

the Hollywood "Oscar".

Time Magazine recently reported that the Kingston Trio are currently selling 12% of Capitol's L.P. records. One month after the release of their fourth album, the trio was claiming four out of the first eight of the national album sales charts. Tickets are now on sale in Raleigh at the Coliseum box office, Womles and Kerrs Rexall Drugs; in Chapel Hill at the Kempes Record Center; and in Durham at the Walgreen Drug Store.

## Campus Building Cited By Vogue

### Design School Praised

The September issue of Vogue Magazine, published in New York with American, French, and British editions, praises State College's School of Design as "one of the most lively architectural centers in the South."

In an article, entitled "North Carolina in the Fall," Vogue says, in part:

"In Raleigh there is still, of course, the hundred-and-twenty-year-old capitol building, with its screen of leafy greenery, its monuments to the native great. But spreading out from that are

a number of contemporary buildings, as well as the nucleus of a first-rate state museum.

"The most spectacular building in Raleigh is clearly the Livestock Judging Pavilion, built for use during the North Carolina State Fair (October 11-15, this year). Like a giant mathematical twist, the Pavilion is basically two soaring concrete arches, crossed and anchored at each end, strung between with steel cables which support the roof, all completely walled with glass.

"North Carolina State College in Raleigh has, besides its own boom of clean, bright, new buildings on campus, an extremely progressive School of Design, one of the most lively architectural centers in the South. Working with Dean Henry L. Kamphoefner, its faculty set up a building plan for the North Carolina public school system, which has spent, during the past ten years, \$125,000,000 on freshly conceived school buildings.

"From the College's School of Design, too, came some of the force behind Synergetics, Inc., a Raleigh firm founded by Buckminster Fuller. Now headed by James W. Fitzgibbon, an ex-faculty member, Synergetics has built, among other geodesic astonishments, the "Tensegrity mast" exhibited in the garden of the Museum of Modern Art in New York.

"A good example of the way North Carolina does things in the North Carolina Museum of Art, near Capitol Square in Raleigh.

## - Campus Crier -

Any organization interested in entering a contestant for Homecoming Queen may pick up a copy of the rules at 206 Holladay Hall or the College Union Main Desk. The deadline for entering is Wed., Sept. 28, at 5:00 p.m. Entries should be turned in to the Blue Key mail box at the College Union.

Seniors are reminded to have their yearbook pictures made at the College Union between the hours of 9-5 for the remainder of this week. Freshmen who have not had their pictures made may have them taken during the same hours at the C.U. Please wear coat and tie.

The faculty of the School of Engineering will hold its first meeting on Sept. 22 at 4:15 p.m. in room 242 Riddick Hall. Dean Lampe urges all members to be present.

There will be a Freshman-Transfer party at Meredith College this Friday night at

8:00 p.m. Entertainment and refreshments will be provided. All Baptist freshmen are invited.

The Electrical Engineering Wives' Club will begin the season with a tea for all student and faculty wives on Sunday, September 25, from 4 to 5 p.m., in rooms 256-258 of the College Union. All E. E. Student and faculty wives are cordially invited to attend.

Republican gubernatorial candidate Robert L. Gavin will speak to a noon luncheon of the Young Republican Club on Friday, Sept. 23. The meeting will be held in the Ballroom of the College Union. Everyone who is interested in meeting Mr. Gavin is invited to attend. Tickets for the luncheon may be obtained from the College Union through Thursday night.

Off campus students can pick up a copy of The Technician at the College Union.

## AFROTC Commissions Cadets

Air Force ROTC Senior Cadets, who are graduates of State College, received commissions in the United States Air Force as 2nd Lieutenants recently at the College.

Seen congratulating them is Colonel Robert C. Paul, Professor of Air Science. From left to right are 2nd Lieutenants Thomas L. Hewitt of Newton, N. C.; Louis R. Kirchdorfer of Roseboro, N. C.; Roy L. Overton of Kinston, N. C.; and, Jack E. Wilkie of Newton, N. C.

## Comments From The Editor Congratulations

We would like to congratulate I.F.C. President John Hardage and Rush Chairman Grady Ferrell for the fine job they did in conducting the most successful Rush Week that has ever been held at State College.

We stated in last Thursday's Technician that there was some poor planning in the fall rush program. We still feel that the hours were long, that rush should have ended on Saturday night, and that the girl's schools should have been contacted well in advance so that they could have planned their fall Orientation program along with State College's fall rush.

The fraternities attracted more rushees than was expected. This undoubtedly was due to the fact that school was not yet in session. The rushees did not have to worry about classes and quizzes the following morning.

This was the first time that fraternities had held Rush Week during Orientation Week. Last spring, we did not know whether rush during Orientation Week would work or not. We felt that a big rush was necessary since twelve of the fraternities on campus planned to go on Fraternity Row in the fall of 1962.

Probably the main objection to the early rush was the fact that it was a big decision for a freshman to make to decide on a fraternity before he had even attended a day of classes at State. Many fraternity men wondered if a student, just three months out of high school, was mature enough to become a member of a social fraternity. We feel that the fraternity itself will have to iron that problem out by watching their new pledges closely during pledge training.

We feel that the I.F.C. was very successful in overthrowing the old system of rush, and that with a little more planning next year, early rush will be conducted jointly in the years to come with Orientation Week.

—JB

## Help Wanted

The staff of *The Technician* is looking forward to another year of service to the student body of North Carolina State College. Expanded facilities have increased the paper's capacity from two to three issues a week, covering both national and campus news.

The switch has, of necessity, brought about changes in staff organization. Openings on both the business and editorial departments must be filled. Those of you who are interested in joining our group may either stop by *The Technician* office Sunday, Tuesday or Wednesday night, or drop a note in the news box outside the door.

We can serve you only as long as you are willing to do your share. We'll be glad to have you with us.

—BJ

## LITTLE MAN ON CAMPUS

"I ALWAYS GIVE THAT KID TOP PRICE FOR HIS BOOKS— I DON'T THINK HE EVER OPENS THEM."

By Ann Smith

Contrary to popular belief, the College Union had not planned to import several bus loads of WC girls to the Get Acquainted Dance last Saturday. The rumor was started elsewhere and caused some ill feelings toward the Union. I think that it would be wise if the people who thoughtlessly start rumors of this type would either look into plans already made or not say anything at all.

If you were in the Union last Tuesday night (September 13), you would have been able to see a movie being shown in three places in the building at the same time. The name of the movie was "For the First Time". The schedule of events at the Union for next week is as follows:

- |                  |  |
|------------------|--|
| <b>FRIDAY</b>    | 8 p.m. Platter Party. CU Snack Bar   |
| <b>SATURDAY</b>  | 1 p.m. Students leaving on Beach Trip are to meet at the CU Main Desk.   |
|                  | 8 p.m. Starlight Club (night club type dance) CU Ballroom. Music will be furnished by the Chor-  |
|                  | 1, 3, 5, 7, 9 Weekend movie. "Tammy and the Bachelor" starring Debbie Reynolds,  |
|                  | Leslie Nielson, Walter Brennan. CU Theatre.  |
| <b>SUNDAY</b>    | 2 p.m. Sunday Afternoon Record Concert. College Union.   |
|                  | 2 p.m. Duplicate Bridge. College Union   |
|                  | 1, 3, 5, 7, 9 Weekend movie. "Tammy and the Bachelor"  |
|                  | 1 p.m. International Picnic. Umstead Park. If you need a ride, meet in front of the Union at noon.                                     |
| <b>MONDAY</b>    | 7 p.m. Photography Beginner's Course. College Union  |
|                  | 8 p.m. Square Dance Club. College Union  |
| <b>WEDNESDAY</b> | 7:30 p.m. Duplicate Bridge. College Union  |
|                  | 7:30 p.m. Lapidary Class (stone-cutting). CU Craft Shop  |
| <b>THURSDAY</b>  | 7:30 p.m. Bridge Lessons. College Union  |

|                  | 8:30 p.m. Social Dance Lessons. College Union  |
| <b>FRIDAY</b>    | 8 p.m. Sadie Hawkins Dance. CU Ballroom. (Please come in appropriate costumes). Music will be furnished by Russ Olson & his Orchestra. |
|                  | 8 p.m. PANORAMA. CU Theatre.   |

## Letter to the Editor

To the Editor of *The Technician*: cars parked in faculty spaces— again, some with old stickers.

I note with sadness, the number of uncooperative students on our campus. Every year, the Traffic Committee makes a special effort to educate freshmen about our campus traffic rules and regulations. Every time new students register we give them copies of the traffic rules booklet. I honestly believe the big majority of the freshman class intends to abide by the rules and regulations.

The people who defeat our purpose are our own uncooperative, thoughtless upperclassmen. We tell the freshmen, "Any car you operate or park on campus must be registered and display a current sticker." Every day these freshmen see upperclassmen ride through campus with an old sticker in the windshield or no sticker at all. We also tell the freshmen, "You are not to park in classroom areas during class hours (8-5 M-F, 9-12 Sat.)" Yet when one walks behind Winston or Tompkins he sees student

We ask you to respect our rules to save yourself costly fines. Driving a car on the State College campus is a privilege, not a right. We don't have to ask you to cooperate: we can compel you to.

Donald D. Blizzard  
Chairman, Student Government Traffic Committee

## Attention All Freshmen

By Richie Williamson  
I.F.C. Publicity Chairman  
The Interfraternity Council voted Monday to make a couple of changes in the rush week rules concerning silent period. Each freshman should be sure that he understands these changes and also the proper method for accepting and rejecting bids. Silent period has been extended until noon Friday. During this time no fraternity man may have contact with a rushee, whether the rushee has accepted his bid or not. The reason for this extension is to give the rushee more time to make his decision without being under the pressure of a fraternity.

Most of the bids should have been received in today's mail. In a few instances the bids may not arrive until Thursday's mail. The rushee will have until Friday noon to make his decision and return his bids to room 206, Holladay Hall. All of the bids received by the rushee should be properly marked and returned at the same time. Each rushee should carefully consider the merits of each fraternity that he visited before making his final decision.

The preceding rule changes do not apply to upperclassmen rushees since they are considered open rush. They may go to the fraternity house as soon as they accept their bid. All students become open rush after noon Friday.

## Rambling Round

By Ima Slob

Ge, it finally happened! It didn't rain registration day! This is the first time in ages that this has happened.

If you are standing in line waiting to register early Friday morning, you would have heard a voice broadcast over a loudspeaker that Saturday's football game was to be played in the Coliseum. I can tell that his mind was not on his work, maybe a coed walked by.

I can't complain about M & O this week. I can't see that they have done anything.

Speaking of being corrupt, have you heard some of the latest nursery rhymes? Here are two that are good for a chuckle (or something).

Four and twenty blackbirds baked in a pie  
When the pie was opened,  
All the birds were dead

Mary had a little sheep;  
Mary took the sheep to sleep;  
The sheep turned out to be a ram;  
Mary had a little lamb.  
Enough of that.

What do you all think about instructors who keep their students in class the full time on the first day of classes? I don't like it. I think that the first day should be devoted to making certain that everyone knows which room, book, and professor he has for the course along with a general idea of what the course is about. All this should take approximately thirty minutes.

Have you noticed? The College Union Snack Bar now has several quiet busboys. I wonder how long they will last? Usually they throw the silverware (?) into the trays and toss

# ACC Prime For Openers; Wolfpack Stresses Defense

DURHAM, N. C.—Duke's Blue Devils staged a short but varied workout today getting ready for the season's opener against South Carolina.

Coach Bill Murray split his emphasis evenly between the offensive and defensive departments, timing and blocking assignments. A session on goal line defense featured the defensive side of the workout.

Time was also spent on the kicking game with punters and extra point men getting in valuable work.

COLUMBIA, S. C.—South Carolina worked on its passing offense and defense Tuesday but engaged in little contact work for its Saturday night football opener with Duke here.

Coach Warren Giese said the squad was in good physical shape and noted that both the Gamecocks and Duke will have had nearly four weeks rather than the usual three to get ready for the season opener this year.

"We each will have had about 26 practice sessions and both should be ready," Giese said.

The Duke team is scheduled to arrive in Columbia Friday in time for a Friday night workout under the lights of Carolina Stadium.

CHAPEL HILL, N. C.—North Carolina's Tar Heels received a scare Tuesday when fullback Joe Davies received a hard smash on the nose during practice.

Examination showed however, that there was no break. Coach Jim Hickey gave his squad very little rough work in a closed

practice putting finishing touches on preparations for the North Carolina State game Saturday. The offense ran plays against dummies representing Wolfpack defenders.

Quarterback Ward Marslander, Ray Farris and John Flournoy directed the running and passing attacks. The defense concentrated primarily on State pass patterns. Center Rip Hawkins did most of the signal calling for the defenders.

Hickey will begin tapering off Tar Teel practices with one and a half hour sessions slated Wednesday and Thursday.

CHARLOTTESVILLE, Va.—The University of Virginia Cavaliers concentrated on defense drills Tuesday in preparation for this week's clash with William and Mary.

Bobby Freeman, a Sophomore from Richmond, Va., and a potential starter, worked out with his first offensive backfield unit.

WINSTON-SALEM, N. C.—The Wake Forest Deacons worked on the running game in dummy scrimmage Tuesday.

The kicking game also came in for some attention. Tackle Wayne Wolff, top punter in the ACC last season, got off several fine kicks to feature this part of the practice.

Coach Billy Hildebrand said halfback Allan White and fullback Craven Williams, both of whom were moved into the starting backfield last week, continued to look good in running the ball. Quarterback Norman Snead and halfback Bobby Robinson are the other two members of the no. 1 backfield.

Hildebrand said he plans no personnel changes this week.

# Fraternity Grid Loop Starts Play Monday

By Richie Williamson

The State College Intramural program falls into full swing for the new year on Monday with the fraternity football slate getting underway. The defending champs are the gridders from Sigma Chi who defeated Kappa Alpha in last year's final. Only the opening round of games has been announced by Art Hoch, director of intramurals. Monday's schedule calls for eight games with the field number also given:

- #1—Sigma Chi vs. PKP
- #2—PKA vs. Delta Sig

- #3—KA vs. TKE
- #4—Kappa Sig vs. SAE
- #5—SPE vs. Farm House
- #6—PKT vs. AGR
- #7—Sigma Nu vs. PEP
- #8—SAM vs. LCA

Hoch also announced that the first athletic directors meeting of the year would be held at 8 o'clock at the Gymnasium. At this time the remainder of the fraternity football schedule will be ready. The dormitory schedule will be announced later this week since the number of teams has not been decided yet. The dormitory teams begin their season on Wednesday.

Other items on tap for the meeting will be an evaluation of the past year's program and discussion of the proposed program for the 1960-61 year. This will include discussion on this year's changes and also the dates for

volleyball, pitch and putt, track, and bowling. The introduction of the I. D. C. athletic director will be made along with an explanation of their duties. Also, the duties of the 34 athletic directors will be explained.

## Notices

Art Hoch has announced that the first athletic directors meeting of the year will be held at 8 o'clock Wednesday, September 21, at the Frank Thompson Gymnasium. All athletic directors are asked to be present for this very important meeting concerning intramurals for the coming school year.

Coach John Kenfield, head State tennis coach, requests that all varsity and freshmen candidates for the two tennis teams report to the Frank Thompson Gymnasium on Tuesday, September 27, at 7:30. Coach Kenfield stated that this meeting will be a very important one.

Art Hoch has called a meeting of all boys who would like to officiate intramural football games this fall. This meeting will be held at the Frank Thompson Gym at 7 o'clock tonight. Officials pay will be \$1.50 per game.

RALEIGH, N. C.—North Carolina State's Wolfpack held a spirited workout today stressing offense against North Carolina defense alignments.

Passing of quarterback Roman Gabriel highlighted the two hour drill. State, fresh from a 29-14 triumph over Virginia Tech, meets the Tar Heels Saturday at Chapel Hill.

Gabriel's top receivers were ends George Vollmar and John Morris.

## Lee Named Head

(Continued from page 1)  
Professor John F. Lee to the presidency of the State University of New York on Long Island. Professor Lee has outstanding talents and has grown and developed as a member of the staff of the North Carolina State College School of Engineering. Just two years ago, he was appointed head of our Mechanical Engineering Department and has given dynamic leadership to this engineering education and research activity. His accomplishments have been creative and outstanding. We shall indeed miss Professor Lee.

"The challenge, prestige and rewards of the presidency of the New York Institution are great and it is with pride that I note Professor Lee's joining the ranks of former members of the Engineering School's staff who have moved to the presidency of educational institutions."

George R. Herbert, president of the Research Triangle Institute, said:

"From the earliest days of the Research Triangle effort, John Lee has contributed tremendously to the success of the program, and the loss of his personal counsel and assistance will be keenly felt. While we should be proud that a member of our university community has been

selected for this challenging and responsible position, we here would do well to remember the extent to which our area needs the vitality and ability represented by the John Lees of the university faculties. If our universities are to be strong, they must be in a position to hold and attract outstanding talent. I am confident that Dr. Lee's new post will provide the opportunity for him to take an increasingly important role in national academic and engineering activities, and I congratulate the Trustees of the State University of New York on the wisdom of their choice."

Professor George L. Simpson, Jr., first executive director of the Research Triangle and a faculty member at the University of North Carolina, stated:

"John Lee joined the Research Triangle effort as consultant for engineering three and a half years ago, in the earliest stages of active work. Grasping immediately the fundamental importance of the idea to North Carolina he became invaluable to all phases of the developing program. He became a full partner in creating and planning the idea as well as in its execution. The present success of the Research Triangle is due in a large measure to his work. He will be surely missed."

## Harrelson Bequest

Chancellor Harrelson was born into a farm family June 28, 1885, in the Double Shoals section of Cleveland County, the son of the late Mrs. Ellen Williams Harrelson and the late John H. Harrelson.

He entered State College in 1905 and was graduated with the Bachelor of Engineering degree four years later as valedictorian of his class. He was awarded an honorary degree of Doctor of Laws by Wake Forest College on June 2, 1941. State College awarded him an honorary degree of Doctor of Education in 1954.

After his graduation from State College, young Harrelson remained at State College as an instructor in the Department of Mathematics and in 1933 he became head of the department.

From 1929 to 1933, he served as director of the North Carolina Department of Conservation and Development.

In 1934, Colonel Harrelson was appointed dean of administration at State College. His title was changed to chancellor of State College and vice president of the Consolidated University of North Carolina in March, 1945.

State College is currently erecting a giant classroom building costing more than \$2,000,000 and will dedicate the structure to the memory of the late Chancellor Harrelson. The building, to be known as Harrelson Hall, will be one of the most modern classroom buildings in America and will seat 4,500 students in scores of lecture halls.

## Rambling

Continued from page 2

plates and such into the cart. It all makes for very much noise.

Congrats to the football team and Coach Edwards. We won the first one, fellers, now don't do like you did last year. Win another one—PLEASE!

I have it on good authority that the College Union Theatre Committee is going to buy out the house at the Raleigh Little

theatre for its Sunday performances. The first production is the musical "Paint Your Wagon," opening October 17. The show is free to State students. For more information, you should go to the Union.

While in my room, I heard a gurgling sound coming from the direction of the head; I trotted in to investigate. There way my roommate—his face was flushed, but his broad shoulders saved the him.

## ONCE MORE UNTO THE BREACH, DEAR FRIENDS

Today, if I am a little misty, who can blame me? For today I begin my seventh year of writing columns for the makers of Marlboro Cigarettes.

Seven years! Can it be possible? It seems only yesterday I walked into the Marlboro offices, my knickers freshly pressed, my cowlick wetted down, my oilcloth pencil box clutched in my tiny hand. "Sirs," I said to the makers of Marlboro—as handsome an aggregation of men as you will find in a month of Sundays, as agreeable as the cigarettes they make—mild yet hearty, robust yet gentle, flip-top yet soft pack—"Sirs," I said to this assemblage of honest tobaccoists, "I have come to write a column for Marlboro Cigarettes in college newspapers across the length and breadth of this great free land of America."

We shook hands then—silently, not trusting ourselves to speak—and one of the makers whipped out a harmonica and we sang sea chanteys and bobbed for apples and played "Run, Sheep, Run," and smoked good Marlboro Cigarettes until the campfire had turned to embers.

"What will you write about in your column?" asked one of the makers whose name is Trueblood Strongheart.

"About the burning issues that occupy the lively minds of college America," I replied. "About such vital questions as: Should the Student Council have the power to levy taxes? Should proctors be armed? Should coeds go out for football?"

"And will you say a kind word from time to time about Marlboro Cigarettes," asked one of the makers whose name is Honor Bright.

"Why, bless you, sirs," I replied, chuckling silverly, "there is no other kind of word except a kind word to say about Marlboro Cigarettes—the filter cigarette with the unfiltered taste—that happy combination of delicious tobacco and exclusive selectrate filter—that loyal companion in fair weather or foul—that joy of the purest ray serene."

There was another round of handshakes then and the makers squeezed my shoulders and I squeezed theirs and then we each squeezed our own. And then I hid me to my typewriter and began the first of seven years of columning for the makers of Marlboro Cigarettes.

And today as I find myself once more at my typewriter, once more ready to begin a new series of columns, perhaps it would be well to explain my writing methods. I use the term "writing methods" advisedly because I am, above all things a methodical writer. I do not wait for the muse; I work every single day of the year, Sundays and holidays included. I set myself a daily quota and I don't let anything prevent me from achieving it. My quota, to be sure, is not terribly difficult to attain (it is in fact, one word per day) but the important thing is that I do it every single day. This may seem to you a grueling schedule but you must remember that some days are relatively easy—for example, the days on which I write "the" or "a". On these days I can usually finish my work by noon and can devote the rest of the day to happy pursuits like bird-walking, monopoly, and smoking Marlboro Cigarettes.

© 1960 Max Shulman

The makers of Marlboro are happy to bring you another year of Max Shulman's free-wheeling, uncensored column—and are also happy to bring Marlboro Cigarettes, and for non-filter smokers—mild, flavorful Philip Morris.
