## Stan Adds To Margin

Stan Niewierowski puts in two of his 20 points against George Washington in Saturday night's game. State topped the Colonials for the eighteenth straight time that the two teams have met. (Photo By Hoey)

## Niewierowski Big Man

# Pack Cagers Take Two Straight

By Earl Mitchell  
Sports Editor

N. C. State eliminated some of the mystery about themselves Saturday night when they defeated a strong George Washington team by an 88-68 margin. The Colonials were rated as one of the strongest teams in the Southern Conference before coming to Raleigh last Saturday.

State took the lead at 6-4 and never got behind. The Pack built up a margin of 27 points on two occasions in the second half in grabbing their second win of the young campaign. Their first win came on last Thursday when they dropped Southern Illinois 88-69. In that game Stan Niewierowski dropped in 20 points to lead the State scoring while sophomore ace Ken Rohloff canned 18. Russ Marvel had 12 points while Terry Litchfield, Bob DiStefano, and Anton Muehlbauer each had ten in the initial game.

On both nights Case opened the game with Rohloff and Muehlbauer at the guards, Niewierowski and Marvel at the forwards and DiStefano at the pivot post. Case also cleared the bench during both contests. Niewierowski was again the big points through the hoop giving him a 20 point-per-game average for his first two outings. DiStefano had 15, while Litchfield had 14 to round out the double figure scorers.

State took an 11-point lead at halftime and stretched this into a 20 point lead by the end of

the contest. Jon Feldman of the Colonials traded baskets with State's Niewierowski at the start of game to even the count a 4-all. Muehlbauer dropped in a bucket to move the Pack into the lead to stay. Marvel, the 6-6 junior from Gary, Indiana, proved his worth in gold in the Pack's first two games as he grabbed off 12 rebounds in both of the games. DiStefano was also a valuable man under the

boards as he pulled down 20 rebounds in the first two games.

The Wolfpack hit very well from the floor in both games. In the Southern Illinois clash, they hit on over 47% of their shots from the floor, while against the Colonials they dropped in close to 40% of their attempts.

The Wolfpack will face their first conference foe tomorrow night when they journey down

(See NIEWIEROWSKIP, page 3)

## Automatic Programming Developing At WKNC

Today at 11 a.m. WKNC began a special mid-day program service featuring Christmas and album music. This program, called "Music from the Console", will be featured each week day until Christmas vacation, running from 11 a.m. until 2 p.m.

This special program service is made possible through the use of the "WKNC Tape Control System." This device was designed and built by the WKNC technical department with C. Roy Griffin and R. S. Downs as consulting engineers. This invention allows the complete automatic use of the studio tape recorders. Up to 5 hours of programming can be run with the tape control system without an engineer or announcer on duty. This automatic programmer is believed to be the only one of its

kind in operation at any college station in the South.

Plans are being made to utilize this new automatic feature to extend WKNC's present daily programming into the wee hours of the morning. Stay tuned to WKNC following the holidays for more information. Also watch "The Technician" for an announcement concerning this extended programming.

The final WKNC staff meeting before the holidays will be held tomorrow night, December 6th, at 8 p.m. in the station lounge. Complete instructions on the use of the automatic programmer will be discussed along with the possibility of extended programming following the holidays. All regular and apprentice staff members are urged to be there and on time.

# Fraternity Row Assured; Federal Loan Is Approved

The announcement in Washington yesterday (Thursday, December 1) that the Community Facilities Administration has approved a loan of \$1,800,000 to North Carolina State College will make a long-cherished dream a reality.

College officials said the loan will be used to build 13 units in a modern fraternity housing project. The facilities will accommodate 500 students who now reside in fraternity houses located in Raleigh's residential areas.

The housing units will be built on State College land, south of Western Boulevard in the vicinity of the College Inn Motel. The wooded area of about 16 acres will be attractively landscaped.

J. G. Vann, business manager of State College, said the college has been working toward obtaining the loan for about two years.

After the 12 initial units are constructed in the project, plans call for the erection of at least 10 more units in future years.

G. Milton Small and Associates, Raleigh architects, have been commissioned to design the fraternity center, which State College has planned for several years.

It will mark the first time that the college's 12 social fraternities will be located in the

same general location and will have adequate housing facilities.

Of the college's 18 fraternities, 16 had indicated interest in moving to the new development.

The 12 fraternities that are planning to build are:

Alpha Gamma Rho, Kappa Alpha, Kappa Sigma, Lambda Chi Alpha, Pi Kappa Alpha, Phi Kappa Tau, Sigma Alpha Epsilon, Sigma Alpha Mu, Sigma Mu, Sigma Chi, Sigma Nu, Sigma Phi Epsilon, and Tau Kappa Epsilon.

The State Board of Higher Education and the Advisory Budget Commission approved the financing plan and the construction of the units in a meeting Friday, November 13, 1959.

College authorities pointed out that the fraternity construction will not cost the institution or the State of North Carolina a single cent. It will be a self-liquidating project that will be amortized over the years by members of the fraternities themselves.

Fire and health departments have characterized the present fraternity houses, now located in several sections of the city, as hazards to both fire and health.

Fraternity housing long has been the chief bottleneck to student welfare activities at State College.

In 1938, a group representing the National Interfraternity Council, acting at the request of State College, surveyed the college fraternity situation and reported the fraternity members were "living in unsafe and unsanitary conditions."

The survey group stated that "nothing short of rebuilding most of the houses would prove completely satisfactory" and recommended that the college build special units for the fraternities.

In 1946 a report from the dean of students to a college personnel committee indicated that one of the most serious problems in the area of student welfare was the fraternity hous-

ing situation. The report said, in part:

"The houses occupied by our fraternities were all built for family occupancy. Consequently, they are poorly suited for fraternity use. Most of them have inadequate plumbing facilities and in many cases have only one bathroom for 20 or more occupants. In some instances, the electrical wiring is a serious fire hazard because of overloading and improper insulation. Kitchens are inadequate or too small for the groups eating in some fraternity houses."

An amendment was made in 1952 to the Raleigh Zoning Ordinance prohibiting fraternities from renting or building houses in residential areas adjacent to State College. However, the fraternities then in existence were allowed to continue in their present locations.

Dean J. J. Stewart, Jr., in a 1956 report to the State College Development Council and the visiting committee of the Consolidated University's board of trustees, again cited the fraternity housing problem. The report stated, in part:

"All houses now occupied are to some degree fire hazards; electrical wiring has been extended and repaired with little consideration of the code; exits are not planned for group living; all of the houses are of the fire-hazardous type of older residential construction."

The go-ahead signal for the fraternity row project was received joyfully by State College fraternity men.

John Hardage of Norlina, president of the college's Interfraternity Council, declared, "All of the fraternities involved are very happy . . . it is something we have looked forward to for a long time. As far as the IFC is concerned, we feel fraternity row will enable us to become more united."

In 1957, a letter from the Fire Prevention Bureau of the City of Raleigh list five code violations common to all fraternities,

and added:

"This matter should be taken care of before something happens that would be a bad mark on State College and the Raleigh Fire Department."

Three years earlier in 1954, State College officials and groups had begun plans to build an adequate fraternity housing center. The State College Development Council, acting on a 1954 request of the Division of Student Affairs, adopted an on-campus fraternity housing proposal as a project and unanimously agreed to sponsor it.

In December, 1954, the College Building and Grounds committee (See FRATERNITY, page 4)

## Campus Crier

There will be a combined meeting of all textile students in the Textile Auditorium on Thursday, December 8, 1960, at 1 p.m.

The N. C. State YDC is meeting Wednesday, December 7, in the College Union. On the program is the election of officers for the coming year.

The Young Republican's Club will meet in the College Union Wednesday, December 7, at 7:30 p.m.

For rent: Garage Apartment. Extra large rooms. Quiet. Four blocks from campus. Stove-Refrigerator-Water. Available January 1. TE 2-8357.

The Math and Science Club will meet at 7:30 p.m. on Wednesday, December 7, at the College Union. Agromock group pictures will be made at the meeting.

The State College Saddle Club will meet Tuesday, December 6, at 7:00 p.m. in the College Union Theatre.

## "Devil" Comes To YMCA

Stephen Vincent Benet's "The Devil and Daniel Webster" will be presented by the Bishop's Company on Tuesday, Decem-

ber 6, at 8 p.m. in the Danforth Chapel of the E. S. King Religious Center, North Carolina State College.

The Bishop's Company now is in its eighth year of touring coast to coast.

"The Devil and Daniel Webster" is one of six works to be staged by the company.

Founded in 1952 by Phyllis Benbow Beardsley, the Bishop's Company has toured more than 600,000 miles, playing in 48 states and Canada. The company has appeared as part of the program of the Second Assembly of the World Council of Churches at Evanston, Ill., at Yale Divinity School, Princeton Theological Seminary, Rutgers University, Whittier and Carleton Colleges, and many other colleges and universities.

Many churches have acclaimed this unusual touring company which is currently featuring two traveling units.

Santa Barbara, Calif., is the permanent headquarters for the group.

The Bishop's Company, which will present "The Devil and Daniel Webster" here are shown on their coast-to-coast tour.

# Comments From The Editor Let's Break Ground

With the announcement that the Community Facilities Administration has approved a loan of \$1,800,000 to State College for the building of the new fraternity row brought many smiles to many of the Greeks' faces on campus this week. Many fraternity men have spent many hours in past years trying to make a dream come true, and with this approval it seems that their dream will come true very soon.

The present fraternity houses on campus are ancient compared to the new fraternity homes that will be built. The question remains as to when the breaking of ground will begin.

We had heard that work was suppose to begin on the project this past fall, but no work has taken place in the area where the houses are to be built.

It was understood by the IFC that work would begin next fall.

We, like everyone else, would like to see the fraternity row construction begin sooner as it appears all the committees and proper authorities have approved it.

The planning of the new fraternity row has been in the planning for a long time, and we hope that it will not take as long to break ground as it did to approve the new row. State College's fraternity members have been waiting a long time for this improvement, and it appears that they will probably have to wait a little longer before the actual work begins.

Let's hope that they will not have to wait too long . . . as it appears that there is nothing to stop us from breaking ground now since we now have the loan. LET'S BREAK GROUND!

## A Serious Matter

We received word from the Student Affairs office this past week that the chain letter operated by the Ten Pen Sales Corporation out of Charleston, S. C. which involves the sale of ball point pens has been declared an illegal activity.

Anyone participating or connected in the operation of this these chain letters is liable for prosecution by the Federal Government.

The Student Affairs office feels that this warning is sufficient enough. Anyone caught in this operation is subject to action by the Honor Code Board.

—JB

## Grant Awarded For Genetic Studies

A \$25,000 grant has been awarded to North Carolina State College by the National Science Foundation for genetic studies on the nematode, college officials reported Saturday. The nematode is an eel-like microscopic animal that attacks plants and is an economic threat to several North Carolina crops.

The grant was awarded for a two-year period.

The genetic studies will be directed by Dr. Anastasios Christos Triantaphyllou, assistant geneticist in the State College Department of Genetics.

Dr. Triantaphyllou, a native of Greece, was graduated in 1950 from Athens Superior School of Agriculture and received his Ph. D. degree in plant pathology from State College in 1959.

From 1950 to 1959, Dr. Triantaphyllou was a plant nematologist at Bensi Phytopathological Institute, Greece, and for a short period following he was director of the Section of Nematology at the institute.

### Contest Ends

The Philip Morris Company has announced the closing time for this year's "empty pack" contest. All empty packs must be turned in in front of the Student Supply Stores at 1:00 p.m. on December 13, 1960.

The three students having the most empty packs of Marlboro, Philip Morris, Parliament, and Alpine cigarettes will each win a Decca Stereo set.

Any additional information may be obtained from Tom Michaels, campus representative for Philip Morris, at TE 4-8227.

## Gift Increase Seen By Alumni And Friends

In growing numbers, alumni and friends of North Carolina State College are designating an increasing volume of gifts for North Carolina State College in their wills.

This was reported by speakers addressing a five-county meeting of State College bequest committees at the College Union Building Thursday afternoon (December 1).

Alumni and friends attending the meeting heard talks indicating that the bequest program, which was launched six years ago, gives promise of additional support totaling millions of dollars to State College in the years ahead.

Such support, officials said, will enable State College to reach an ever higher level of excellence in its vast teaching and research programs.

Bequest committee workers from Durham, Guilford, Mecklenburg, Wake, and Wayne Counties heard an address by Dr. John T. Caldwell, chancellor of State College.

Presiding was James M. Poyner, Raleigh attorney and chairman of the Wake County State College Bequest Committee.

In reviewing the past year's activities of the college's bequest program, speakers cited the decision of the late Chancellor John W. Harrelson to leave more than \$100,000 to State College in his will as an example of support now being received by the institution. Announcement of Chancellor Harrelson's bequest was made earlier this fall.

A talk on estate planning, wills, and trusts was given at the meeting by R. F. Clodfelter of Winston-Salem, trust officer of the Wachovia Bank and Trust Company. He was introduced by Lee Parker of Raleigh, estate

consultant and assistant trust officer of the Wachovia Bank and Trust Company.

Short talks were made by C. W. Tison of Durham, general chairman of the college's bequest program and president of the North Carolina State College Foundation, Inc., and John Arey of Raleigh, retired college staff member.

County bequest committee chairmen who attended the meeting in addition to Poyner, were Roderick D. Adams, Durham; Elbert F. Lewis, Greensboro; David W. Harris, Charlotte; and Raymond A. Bryan, Goldsboro.

Following the session, the group attended a dinner and were guests of the college at the Southern Illinois-N. C. State basketball game in the William Neal Reynolds Coliseum Thursday night.

### Cheerleader Notice

Many people have been wondering about the cheerleading situation, and there should be an announcement in Wednesday night's edition as to what has happened behind the iron curtain.

We hope to have an announcement for the student body concerning cheerleader tryouts that should take place either at the end of this week or the first of next week. It is hoped by many that we will have cheerleaders for the Wake Forest basketball game December 14.

# Pack Swimmers Halt Terps; Faces Blue Devils Saturday

The North Carolina State swimming team got the season off with a bang by defeating defending ACC champs Maryland by a 56-39 count. The setback was the first loss that the Terps have suffered in the ACC in about three years. The last loss came at the hands of Carolina during the '58-59 season.

Five new ACC marks were set in the meet, with four new record holders being in the State ranks. Sophomore Ed Spencer got his name into the record book twice as he set new times in both the 200 and 400 yard freestyle events. Both of these events are new in the ACC this year and Spencer was the first one to swim the event, but these times are very good and will probably stand for sometime. Spencer covered the 200 yard distance in 1:55.4 and the 400 yard distance in 4:26.7.

The State 400 yard medley relay team of Jim Cutter, Peter Fogarasy, Jim D'Anna, and John Wilcox set a new mark of 3:56.8 to top the old mark of 4:02.4. Fogarasy set a new 200 yard breaststroke mark when he posted a time of 2:23.8 compared with old mark of 2:28.9. The final record of the day went to Terp's Ted Lupine in the 200

yard individual medley relay. Lupine won this race in a time of 2:13.8 with the old mark being 2:14.7.

Smokey Ellis was the other double winner for the Pack swimmers as he took both the 50 and 100 yard freestyle events. Wilcox took the 200 yard butterfly, while the team of D'Anna, Wilcox, Spencer, and Ellis won the 400 yard freestyle relay.

In addition to Lupine's first

place the Maryland team got only two other blue ribbons. Tom Wingate won the 200 yard backstroke and Jerry Jennings won the diving event. The Terps topped the Wolfpack in second places 5-4 and took all nine of the third place awards.

The next meet for the State swimmers will be next Saturday afternoon when they journey to Durham to face Duke.

## Gabriel Makes Look AA

New York—North Carolina State's versatile quarterback Roman Gabriel and Duke's pass-snaring end Claude (Tea) Moorman have been named to the 1960 Look Magazine—Football Writers Association All America, it was disclosed today.

Selection of the Atlantic Coast Conference's top offensive stars by the 1063-member Football Writers Association will be announced in the issue of Look out Tuesday.

Hailing Gabriel as a dangerous runner as well as a sharp-shooting passer, Look notes that

the Wolfpack star's quick hands and split-second reactions have pro scouts comparing him with Johnny Unitas.

**FURNISHED ROOM**

## Niewierowski Tops Pack Scoring

(Continued from page 1)  
to Clemson, South Carolina, to take on the Clemson Tigers. The Wolfpack holds a definite edge in the series with 32 wins to only seven victories for the Tigers. The Tigers opened their season this past weekend with a trip to the Kent Invitational Tournament.

The Tigers will throw a team against the Wolfpack that is supposed to be an improved one over last year's group. Heading the Tiger's attack will be scoring ace Choppy Patterson

and Tom Mahaffy, a 6-7 front court ace. The other starters will probably come from a list of four made up of Earle Maxwell, Bob Benson, Ed Krajack, and Bill Warren.

Coach Pres Maravich also has a quartet of fine sophomores to cause the Wolfpack trouble.

Larry Seitz, Chuck Narvin, Speight Bird, and Carl Ward were listed as promising rookies in pre-season drills.

Coach Case will probably go with the same five who have started the last two ball games.

On Campus with Max Shulman  
(Author of "I Was a Teen-age Dwarf", "The Many Loves of Dobie Gillis", etc.)

### 'TIS THE SEASON TO BE JOLLY

If you have been reading this column—and I hope you have; I mean I genuinely and sincerely hope so; I mean it does not profit me one farthing whether you read this column or not; I mean I am paid every week by the makers of Marlboro and my stipend is not altered in any particular by the number of people who read or fail to read this column—an act of generosity totally typical, you would say, if you knew the makers of Marlboro as I know the makers of Marlboro; I mean here are tobaccoists gray at the temples and full of honors who approach their art as ingeniously, as eagerly, as trustingly as the youngest and most innocent of practitioners; I mean the purpose of the Marlboro makers is simply to put the best of all possible filters behind the best of all possible tobaccos and then go, head high, into the market place with their product, confident that the inborn sense of right and wrong, of good and bad, of shoddy and meritorious, which is the birthright of every American, will result in a modest return to themselves for their long hours and dedicated labors—not, let me hasten to add, that money is of prime consideration to the makers of Marlboro; all these simple men require is plain, nourishing food, plenty of Marlboros, and the knowledge they have scattered a bit of sunshine into the lives of smokers everywhere; if, I say, you have been reading this column, you may remember that last week we started a discussion of what to give our friends for Christmas.

The first president with power steering

We agreed, of course, to give cartons of Marlboro to everyone we know or would like to know. Today let us look into some other welcome gifts.

Do you know someone who is interested in American history? If so, he will surely appreciate a statuette of Millard Fillmore with a clock in the stomach. (Mr. Fillmore, incidentally, was the only American president with a clock in his stomach. James K. Polk had a stemwinder in his head and William Henry Harrison chimed the quarter-hour, but only Mr. Fillmore, of all our chief executives, had a clock in his stomach. Franklin Pierce had a sweep second hand and Zachary Taylor had seventeen jewels and Martin Van Buren ticked, but I repeat, Mr. Fillmore, and Mr. Fillmore alone, had a clock in his stomach. Some say that Mr. Fillmore was also the first president with power steering, but most historians assign this distinction to Chester A. Arthur. However, it has been established beyond a doubt that Mr. Fillmore was the first president with central heating. No wonder they called him Old Hickory!)

But I digress. To get back to welcome and unusual Christmas gifts, here's one that's sure to please—a gift certificate from the American Chiropractic Society. Accompanying each certificate is this fetching little poem:

Merry Christmas, Happy New Year,  
Joyous sacro-iline!  
May your spine forever shine,  
Blessings on your aching back.  
May your lumbar ne'er grow number,  
May your backbone ne'er dislodge,  
May your caudal never dawdle,  
Joyeux Noel! Heureux massage!

© 1960 Max Shulman

And greetings of the season from Marlboro's newest partner in pleasure, the unfiltered, all-new, king-size Philip Morris Commander. At Yuletide, at any tide, welcome aboard!

# Fraternity Row Loan Approved

(Continued from page 1)

tee approved the Development Council project and designated the site. Two months later the board of trustees approved the project and cleared the site for building purposes. Small was picked as the architect. The trustees visiting committee endorsed the project in its report of 1954, 1955, 1956 and 1957.

The obstacles in the way of the project from the outset have been financial and legal problems. College officials, students, alumni and friends have worked at the task but were unable to get final approval until November 13, 1959.

Dean Stewart cited the work of a number of individuals and groups that contributed to final approval for the project.

Organizations he listed included the college's public relations committee, headed by Mose Kiser of Greensboro; the college's development council, headed by C. A. Dillon of Raleigh; the

State College Foundation, headed by C. W. Tilson of Durham, and two committees of the board of trustees.

Stewart said the trustees visiting committee has been a strong advocate of the project. Committee chairmen or sub-chairmen since 1953 have included Victor S. Bryant of Durham, D. L. Ward of New Bern, William P. Sanders of Southern Pines and Raleigh, and Bill Yarborough of Louisburg.

A special trustees committee also working on the proposal was composed of George Watts Hill, Durham; G. N. Noble, Trenton and Reid A. Maynard, Burlington.

Stewart said several of Raleigh's leading citizens have put their shoulder to the wheel to help the college get the fraternity housing. These men, he said, include Editor Herbert E. O'Keef of The Raleigh Times; James M. Poyner, Raleigh at-

torney; J. W. York, president of Cameron Village; R. D. Beam, executive vice president of the First Federal Savings and Loan Association; George P. Geoghegan, Jr., regional vice president of the Wachovia Bank and Trust Company; and Ed Rochelle, mortgage loan department, State Capital Life Insurance Company.

Among State College and Consolidated University officials working on the project have included President William C. Friday; W. D. Carmichael, Jr., vice president and finance officer of the Consolidated University; Chancellor John T. Cald-

well; former Chancellor Carey H. Bostian; L. R. Ray, director of foundations and development; J. G. Vann, business manager and others.

Among students working on the project have been the presidents of the Interfraternity Council since 1953, including Vernon L. Jackson of Benson, 1953; Larry Pety of Gastonia, 1954; Andrew Hinton of Raleigh, 1955; Henry Pickett of Durham, 1956; William Green of Greensboro, 1957; George Howard of Charlotte, 1958; Larry Carter of Winston-Salem, 1959; Bob Davis of Salisbury, 1960; and Peyton Neal of Greensboro,

housing committee chairman. College officials said the units in the fraternity housing center are being built in such a way that they may be used by all types of student organizations including graduate students clubs, religious groups, and professional fraternities.

For the past six years, groups of trustees, student organizations, alumni, foundations, and other friends of the College have called on the College and the Consolidated University Administration to take action to remedy what has been termed "a deplorable and dangerous housing situation."

The initial major step toward building the units was taken by trustees' committee on real property, headed by John W. Umstead of Chapel Hill, which set aside this portion of the college campus for the purpose of housing student organizations several years ago.

## ENGINEERING NOTICE

The Martin Company of Middle River Maryland — A Leader in the Missile, Nuclear and Electronics Field seeks M.S. and Ph.D. (Mid-Year & June Graduates)

Our Needs For Graduate Students Are:

**Electrical and Physicists**—Infra-Red Research, Solid State, Energy Conversion, Anti-Submarine Warfare (Sonar), Power Systems for Missiles, Computer Design, Advanced Guidance Systems, Systems Analysis, Communications Plasma Dynamics.

**Nuclear**—Advanced Nuclear Reactor Programs, Nuclear Isotopic Power Generator Research Programs, Reactor Systems Evaluation, Reactor Design, Direct Conversion Reactor Effort, Liquid Metals, Hi-Temp Systems, Conceptual Design Studies Particularly on Compact Liquid Metal Systems.

**Mechanical**—Structural Analysis and Design of Advanced Missiles, Ground Support Systems, "Fire-in-the-hole" Firing Problems of Large Missiles, . . . Mechanical analysis of Structures at Elevated Temperature, Mechanical Support Systems, Analysis & Design of Fluid Systems, Terminal Ballistics, Propulsion, Thermodynamics.

**Civil**—Structural Analysis & Design Problems of Advanced Missiles and Nuclear Reactors, Elevated Temp. Struct. Problems, Plate Theory, Random Loading, Experimental Stress Analysis.

**Metallurgy, Physical Chemistry or Ceramics**—Reactions of inorganic materials at hi-temperature, reaction kinetics, refractory oxides, theory of failures, research in developing ceramic-to-metal seals, new manufacturing processes.

**Applied Math**—Experienced in Programming on Digital Computers, Analysis of Reactor Problems, Trajectory Calculations.

**Statistics** (ph.D only)—Statistical Approach to Experimental Engineering Programs.

Members of our Staff will be

On Campus—December 13

For Interview Appointment, please consult your Placement Director or write to D. S. Reed, Asst. Director, College Relations, The Martin Company, Baltimore 3, Maryland.

## Announcing

the Formal Opening of

Sharpe's

"LARGEST IN THE SOUTHEAST"  
FORMAL WEAR FOR MEN

503 Hillsboro St. TE 4-8804

Raleigh, N. C.

RENTALS and SALES  
By

Sharpe's Formal Wear is proud to announce the opening of Raleigh's exclusive Formal Wear Shop for Men, featuring formals for every occasion in rentals and sales . . . Tuxedos, Full Dress, Cutaways, Strollers, Dinner Jackets, Ring Bearers and Accessories. . . Specializing in Weddings, Junior-Senior Banquets and Debutant Balls.

Visit our shop Monday and Tuesday, December 5th and 6th and register for free prizes.

- 1st. prize . . . Stagline Tuxedo by After Six
- 2nd. prize . . . Stagline Dinner Jacket by After Six
- 3rd. prize . . . Tuxedo Shirt by After Six
- 4th. prize . . . Cummerbund and Tie Set by After Six

Nothing to buy . . . you do not have to be present to win

Open til 9 P.M.

Raleigh, N. C.

Columbia, S. C.

Long Sleeve

India Madras Sport Shirts
