Oh, Really?

Here Saturday

Shelley Berman To Appear

Scarcely two years ago the name of Shelley Berman was known only to a handful of people—a discerning but not a very big handful. He had been struggling for a decade to be a serious actor while scratching out a living at such varied pursuits as cab driver . . . teacher in an acting school . . . dancing instructor . . . and assistant to the assistant manager of a drug store.

Then the frustrated dramatic actor turned a weebegone face toward comedy. With only a sketchy sort of audition act, he accepted an engagement at Mister Kelley's in his home town of Chicago. He could have stayed forever but about that time television, through the instrument of Jack Paar, discovered Shelley.

Since then it has been one mad scramble with clubs, theatres and television. And—highly unusual for a non-singing artist—recording companies have clam-

ored for the services of this bright new star. He made 2 smash albums—"Inside Shelley Berman" and "Outside Shelley Berman" and now has added another "The Edge of Shelley Berman."

Shelley has graduated into the top bracket of show business personalities, as a performer capable of carrying a full evening's concert type production. In leading cities, from coast to coast, he is appearing in "All Sides of Shelley Berman" affording the legion of Berman fans the chance to spend a whole evening savoring his merry monologues and satirical sketches.

His local appearance is booked for Raleigh at the Memorial Auditorium. There will be one performance only with seats reserved. Sharing the spotlight for the evening will be "The Cumberland Three."

Campus Crier

Anyone interested in skeet shooting, target rifle, archery, or skish (bait casting) is urged to contact either Art Hoch or John Brady at the Intramural Office in Thompson Gym. Call Extension 218 or 496.

The States Mates Club will hold its annual February "Sweetheart Dinner" Monday night at the College Union Ballroom at 6:30 p.m. Husbands are invited to attend. A program has been planned to entertain the guests; the dinner, dancing will be offered. All members are requested to bring a covered dish.

The North Carolina State College Dames Club will meet Tuesday, February 14, at 8:00 p.m. in Room 256 of the College Union. Mrs. Lillie B. Little of the State College Extension Service will tell about making new furniture from old.

The Air Force Officer's Quali-

fying Test (AFOQT) will be given at 7:25 a.m. on Saturday, February 18, 1961, in Room 242 Riddick. All eligible persons who are interested in entering the AFROTC Advanced Course beginning in September, 1961 must successfully complete this test before taking the physical. This test will require about eight hours to complete and will not be given again until October, 1961. Individuals desiring to take the AFOQT on 18 February should enter their names on the AFOQT roster in the basement of Pullen Hall no later than 1600 hours on Wednesday, February 15.

Lighting techniques—flash, flood, and daylight will be the subject discussed at the Photo-scope program on Wednesday, February 15, at 7:30 p.m. All campus photographers are invited to attend this program to be held in the College Union Theatre.

(See Crier, page 8)

CU Is Accepting Committee Head Applications

The College Union wishes to announce that it is accepting applications for College Union Committee Chairmen. Anyone wishing to apply for one of these offices may fill out the application form in the College Union Activities Office. Deadline for committee applications is March 3, 1961.

The College Union Committee Chairmen hold very important jobs within the College Union. The Chairman is responsible for training committee members in leadership so as to provide them with experience in program planning, dealing with people, and accepting responsibility. The Chairman must see that the work of the committee is carried out and he accomplishes this by delegating authority to the right people.

The job of College Union Chairman is a rewarding one to a person who is interested in his work. The College Union Committees are: Activities, Dance, Film, Forum, Games, Gallery, Hobby, Hospitality, House, International, Library, Music, Outing, Photography, Publicity, Social, Special Events, Theatre, Travel.

All interested students are encouraged to apply.

CU Plans Nassau Trip Over Easter Holidays

Due to the tremendous success of the Nassau trip last year, the College Union Travel Committee has planned a similar trip for Easter holidays this year. Through careful planning the committee has been able to double the time in Nassau with only a slight increase in cost.

This year's trip will be from March 30 through April 4 with 3 days and 3 nights in Nassau. East Carolina, Woman's College, and Peace have been invited to participate.

On Thursday, March 30, the group will leave Raleigh by chartered bus for Daytona Beach where they will spend the night at the Lido Motel. The bus will leave on Friday morning for

Literary Supplement Contributions Asked

The Literary Supplement of The Technician has not thus far received a sufficient number of contributions from the student body. All students who are interested in contributing to this supplement are urged to submit their poems, essays, or short stories as soon as possible. Interested students should mail their contributions to Joel Ray, c/o The Technician or call him at TE 3-4522.

West Palm Beach where the group will board a plane at noon for an hour's flight to Nassau. The Beautiful Montagu Beach Hotel will be headquarters for the group until the afternoon of April 3 when they will fly back to West Palm Beach. From there, they will motor to Daytona Beach for another night at the Lido Motel. On Tuesday, April 4, the group will return to Raleigh by chartered bus.

Included in the cost of the trip will be all transportation, two

nights at the Lido Motel at Daytona Beach, and three days and three nights at the Montagu Beach in Nassau where breakfast and dinner will be included.

Circle Tours, Inc. has planned a Get-Acquainted Party for the group at Daytona Beach on the evening of March 30.

The cost for the above will be \$115.00. Reservations may be made in the College Union Activities Office before February 28. A \$75.00 deposit is required and will not be refundable.

PR's Make New Plans For Spring Semester

By Gerald Moore

The members of the Pershing Rifles, National Honorary Military Society, held their first meeting of this semester on Tuesday, February 7, at 5:45 P.M. in the MSI classroom. The meeting was called to order by the Commanding Officer, Capt. James B. Jones, and business was begun immediately. A review of last semester's events was called to the attention of the members, and an outline for coming events was presented.

Some of the activities which Company L-4 participated in last semester include the follow-

ing: (1) homecoming parade, (2) half-time show at homecoming game, (3) China Grove parade, (4) escort for Miss America in the Salisbury parade, (5) Fuquay parade, (6) half-time show at Carolina-State basketball game, and (7) films for television. In addition to these, the Company sent representatives to the National Assembly, which is held in New York, and to the Regimental Assembly, which is held in Clemson, South Carolina.

The beginning of second semester once again finds the Pershing Rifles in high gear. The staff has been reorganized so as to obtain the maximum amount of efficiency. Because of expansion, three new officers have been added to the staff: Gerald N. Moore, Jack P. Jordan, and Arthur Dumont. Capt. Jones feels that he now has a reliable and capable staff which will lead the Company to the most successful year in the history of the Pershing Rifles at State College.

Just a few of the major events on the calendar for this semester are the following: (1) formal initiation of new brothers February 24, (2) a dinner followed by a party on February 25, (3) regimental inspection, (4) regimental drill meet, (5) big-four drill meet, and (6) the Cherry Blossom Festival drill meet and parade. The Company has also received invitations to participate in numerous parades throughout the state; but as of now, no definite plans have been made.

It can readily be seen that this semester is going to be a busy one, as well as an outstanding one, for Company L-4. The Company's office, located in the Coliseum, is being decorated; new uniforms are being issued (our red uniforms are being retained for special performances); jackets, which have our colors and emblems, have been ordered. The Pershing Rifles are expanding—both militarily and socially; its members are bound together in fraternal friendship.

Choral Festival Planned Here

An intercollegiate choral festival will be presented in the William Neal Reynolds Coliseum at State College Saturday, February 18, at 8 p.m.

Plans for the choral program, to be given as a feature of State College's fourth annual "Fine

Arts Festival," were announced today by J. Perry Watson, director of music at the college and chairman of the intercollegiate choral festival committee.

Conductor of the festival will be Dr. Knud Anderson, chorus master of the New Orleans

Opera Association, who will direct the massed chorus composed of 425 voices and a 40-piece concert orchestra.

Participating in the event will be 10 North Carolina colleges. They are Western Carolina, Meredith, Appalachian State Teachers', High Point, Saint Mary's School and Junior College, Atlantic Christian, Woman's College, Peace, and North Carolina State College.

Composing the orchestra will be 40 musicians, including local artists, about one-fourth of whom are State College students.

The program will be open to the public, free of charge. Sponsor of the event will be the State College Union.

Serving with Chairman Watson on the choral festival committee are Geraldine Cate of Saint Mary's School and Junior College, Harold Luce of Woman's College, and J. Fryhover of High Point College.

The program to be presented follows:

"Awake, Draw Nigh The Break of Day"—Wagner; "Rio Grande"—Lambert; "Christ, To Thee Be Glory"—Sagittarius; "Glorious To Thy Name, Almighty Lord"—Mozart; "The Little White Hen"—Scandello; "Pueri Hebraeorum"—Randall Thompson; "Lasciate mi morire"—Monteverdi; "Danza, Danza Faciulla"; "Come Sweet Death"—Bach; "The Angler's Song"—Laws; and "Sweet Love Doth Now Invite"—Dowland.

PLAN CHORAL FESTIVAL AT N. C. STATE—Miss Geraldine Cate of Saint Mary's School and Junior College and J. Perry Watson of State College, members of planning committee for the inter-collegiate choral festival, work on plans for the festival to be staged in the William Neal Reynolds Coliseum at State College Saturday, February 18, at 8 p.m.

MISS FITT

Comments From The Editor

One More Line

We are glad that we will not have to go through the registration line as we did last Friday again. We are sure that many of the seniors that graduate this year are also glad that they will not have to go through lines again. Of course the student had time enough to leave his studies during exam week to pay his tuition did not have to stand in the two lines.

It was well worth the experience to stand in both lines to see how ridiculous the Business Office at State College really was.

When we arrived at Frank Thompson Gym last Friday morning, it appeared that at least half of the student body had not been fortunate enough to pay their bills during exam week. The Business Office did not want to send the bills to the students as they had done in the past. The obvious reason was to save money on the hiring of extra help and the money on postage.

Bob Cooke, President of the Student Government, did a tremendous job in securing the week during exams for some students to pay their bills at the Business Office. However, there were some that were unable to pay their bills during this period. They had to suffer the standing in the line just as we did.

While we were there, it appeared that some of the Business office employees were not exactly happy about getting up that early in the morning to go through the long ordeal. We know that these employees are not responsible for the actions of the top brass in the Business Office. As one of the workers put it: "We don't make the rules... we just carry them out."

The top brass was not standing in line at Frank Thompson Gym. We are sure that the top brass knows who we are talking about. We won't name any individual, but we certainly hope that the same policy will not be employed by the Business Office next year.

If the old system of sending the bills to the students can not be employed, we are sure that a better system can be devised by next fall to better the one that was used last week.

The registration in the Coliseum is improving each semester. The new IBM cards that were issued this semester also made it easier for the students. It appears that State College will have pre-registration soon where the student will register all of his courses through his department. Some of the departments have already adopted this procedure. Maybe some day there will not be the standing in line in front of the Coliseum to register. Let's hope that the Business Office does not foul this up by continuing with the same procedure that was employed last week.

The C U Scene

By Ann Smith

The College Union would like to welcome all incoming students to N. C. State College. May your stay be a pleasant one.

There will be a six weeks course in Ceramics for beginners starting Thursday, February 16, at 7:30 p.m. in the Craft Shop. This course will include some instruction in various decorating techniques as well as the basic knowledge needed for slip casting.

Anyone having previously done ceramics may come and work at this time.

All College Union members interested in learning photography, or interested in obtaining a pass to use the CU Darkroom will meet Monday, February 13, at 7 p.m. in the College Union.

Those interested in the Beginners Course will have an organization meeting. After completion of the course you will be eligible for a darkroom pass.

Those who already know how to process and print a picture are eligible to take the written test and make arrangements to take a practical test on printing a picture and use of the darkroom. You should read the book of rules pertaining to the darkroom procedure which is kept at the Main Desk of the College Union.

For further information contact the Photography Committee advisor in the Craft Shop.

The apex of the CU International Committee presentations will be a banquet on February 14 at 6:30 p.m. in the CU Ballroom. Exotic dishes of international flavor will grace the banquet and provide a new taste treat for you.

The highlight of the festivities will be an address by Chancellor Caldwell, which should prove to be very stimulating and interesting. Every-

one is cordially invited to attend this delightful excursion into the pleasures of rare dishes from far-away lands.

All interested persons please inquire at the CU Main Desk by noon of February 12.

The CU Hospitality Committee, in conjunction with Ellisberg's and Norman's of Raleigh, will present its annual Spring Fashion Show on Friday (February 10) at 8 p.m. in the Ballroom.

Fifteen models from State College, Rex Hospital, Peace College, St. Mary's College, Meredith College, and Needham Broughton High School will model spring outfits from Ellisberg's. Eight State College men will model the latest fashions from Norman's.

There will be an intermission during which entertainment will be provided. The public is cordially invited to attend.

NOTICE

Speakers from the North Carolina State College Agricultural Extension Service and the college's Agricultural Economics Department will appear on the program of a management and marketing clinic February 14-15 at the Hotel Charlotte in Charlotte.

Assistant Director George W. Smith of the college's Agricultural Extension Service will give the welcoming address. E. M. Stalling, grain marketing specialist, will state the purpose of the clinic.

Other speakers include R. D. Dahle and R. S. Boal, marketing specialist; J. M. Curtis, head of extension marketing and Dr. C. E. Bishop, head of the college's Agricultural Economics Department.

OPEN EACH NIGHT 'TIL NINE

Fraternity Flashes

By Ed Puckhaber

Tonight is the second night of the IFC's spring rush week. It is hoped that the foul weather this week will not discourage any rushes from visiting the various houses. Although there hasn't been any major effort on the part of the IFC to publicize rush, most of the fraternities on campus anticipate a good turnout.

Spring rush is not limited to scheduled hours as was the case during fall rush week. Therefore, upperclassmen and second semester freshmen are encouraged to visit houses at any time tonight, Friday afternoon and evening, and Saturday afternoon and evening.

Alan Altman has asked me to mention the following information about the Spring IFC Weekend. The dance and concert will be held the weekend of April 22nd. The social committee has contracted Joni James to appear as feature vocalist at the concert and possibly the dance. The dance music will be provided by either Les or Larry Elgart. It has been suggested that the outdoor concert be held on a grassy hillside on the site of the proposed new fraternity row. Alan would like to know how the different houses feel about having the concert across Western Boulevard instead of going out to Kidd Brewer's hillside. If anyone has any opinions or other ideas which might be helpful in the planning of the weekend, please contact Alan at the Sigma Alpha Mu house.

New School Song To Be Introduced

In an attempt to help stimulate some more school spirit, a new school song has been written by J. Perry Watson, Assistant Director of Music at State College. This new song will be introduced at the State-Maryland game next Monday night. They will also be printed in the game program. It is hoped by Mr. Watson that this song will strike the student body better than the last one. The song appears below:

THE RED AND WHITE FROM STATE

We're the Red and White from State and we know we are the best.

A hand behind our back, we can take on all the rest. Come over the Hill, Carolina.

Devils and Deac's stand in line.

The Red and the White from N. C. State (yell) GO STATE!

Words and music by: J. Perry Watson Assistant Director of Music N. C. State College

Earn \$135 weekly during summer traveling overseas. MUST BE U. S. CITIZEN. Complete details furnished. Send \$1.00 Lending Information Service, Dept. E-13, Box 74, New York 61, N. Y.

The Theta Chi Fraternity initiated six pledges into the brotherhood last Monday night. Receiving the rites were Ernest Sapp, Winston Salem; John Day, Durham; Ronnie Cloer, Gastonia; Thomas Church, Gastonia; Lloyd Eward, Kingsport, Tenn.; and Ralph Hart, Lansing.

The Aftermath

Twas early Tuesday even'n, The rain was coming down, The wolf was hid in Raleigh, For the Devil was in town.

The Devil was a mighty man, A mighty man was he, Both A.P. and U.P., Had called him number three.

The wolf was a swettin', And trying to hide his fear, And licking off the wounds, Received from the Mountaineer.

But meanwhile old Blue Devil, Had reason proud to feel, For down he had just knocked, The mighty warrior, Tar Heel.

At 8:15 the stage was set, The folks they few did come, For Wolfers had reason plenty, For feeling mighty glum.

O! Charlie threw the leather, And the battle was twas begun, And twenty minutes later, Poor Art! He had but one.

But all his fellow warriors, Were but just three points shy, And Wolfers sat on the edge of seat, Reluctant to feel high.

For battle was not yet over, O! Devil was plenty, Remember how over at Durham, The Wolf, he finished so bad.

But Case sent his warriors back, They would not be denied, And at the end, O! wolf could smile, Poor Devil, he ran to hide.

Big Litch' had sunk a long one, The wolf come back alive, The teacher taught the pupil well, In lesson number five.

And now all over Tarheelia, You'll find both glum and shine, The story is all on paper, Sixty-one to fifty-nine.

MEN'S WEAR

Hillsboro at State College

Foreign Student Reviews College

By Carlos Platschek

Please let me introduce myself. I am one of these foreign students and though I do not wear a turban or a long beard, considered equally exotic by the good people of Raleigh. It so happens that I came from a little South American country, very difficult to locate by the average American; and very often I have to make the choice between being nice, or being very impolite and make clear to my interlocutor that Uruguay is not in Africa.

But anyway, the reason for writing this letter is quite different, I just want to express my feelings, which might be only important for me, but since I am leaving the United States in a very short period of time, I thought that some of my thoughts might be at least interesting.

I arrived in North Carolina at the Raleigh-Durham airport one lovely morning in the fall of 1959. From the very beginning I was very much impressed by the beautiful countryside that surrounds the high-way from the airport to Raleigh. My first contact with American students took place in the Tucker Dormitory of the North Carolina State College, where I survived one whole semester. As everybody else, I also had some prejudices, referring to such unimportant things as the volume of noise after 7 p.m., firing of fire crack-

ers, or other manifestations of the newly acquired independence from Daddy's lap. I was very careful not to judge all the American students according to the specimens I met, and was very much surprised that after some time the noise turned out to be Elvis Presley played on 30 Watt Stereos at full volume or sometimes Johnny Cash played under the same conditions. Even the fire-crackers did not bother me too much. This was the time when I started to get acquainted with the "leaders of the band". Of course my English had improved quite a bit, and I just had gone through a course in public relations. But I did not have time to make eternal friendships or to learn how to fire the fire-crackers most efficiently as the semester came to an end, and I moved out of campus.

This first period of adaptation to the surrounding, could be characterized by a strong dedication to study, but nevertheless, I got involved in some extra-curriculum activities. Every Friday night, a group of students of the most different countries, would meet at "The Cross Road" and hold very important conferences, and of course, try to find out the difference between the Schlitz beer and other brands. We still are trying. Well this was the first group of friends I made in Raleigh, and I will never forget them. Who could forget old man Fritz, the crazy German, who never got a traffic

ticket, because when-ever he was caught in a traffic-violation, he would explain to the police-man in his broken German-English that "he no spoke English and nicht know was were happening". Or Chris from Switzerland, Jorge and Jose from Mexico, Homer and Bob from the U.S.A. and many others.

On the second semester, I took some time to get to know more about the United States, but still the farthest away I got from Raleigh was Greensboro. But I learned a lot of these little things, that can make you very happy or curse for a week. What I never really found out, is how to get my tickets for the foot-ball or basket-ball games. Whenever I went to the Coliseum to get my ticket, it was not necessary to get one, and of course, when I decided to go to a game, I needed the ticket. But the peak came, when one day I got it right, but couldn't get my ticket because my pink card had not been punched. I guess the only way to get in without problems is to join the team, . . . or just be plain lucky. And now I have a suggestion to make. I think that it is really important to introduce a new subject in all curriculums, which can be called "Introductions to the registration procedures at State College" or "20 good ways to get away from the 20 lines at registration day."

At the end of this second semester, I already knew every single foreign student, had learned how to play bridge and knew the differences between the Republican and Democratic

Party. I also had become acquainted with a marvellous system of grading, called "curving", but cannot explain how it works. It is a special combination of ingredients, which adapted to the bell shape curve is supposed to evaluate the knowledge of each individual student. Well, at this stage I was ready to get to know some other parts of the U.S.A. During the summer session and the Fall Semester, together with other three boys, we visited the southern part of the United States and Mexico. We stayed in Houston, Texas for two days. I liked Texas very much, but was quite disappointed to find out that people in Texas just look like everybody else in the U.S.A. I might write a letter to Hollywood, asking what went wrong during my visit. When we came back to Raleigh, we had broadened our knowledge, and added 7000 miles to the tachometer of our car. Shortly before this trip, I had a chance to talk to my parents for almost two hours, thanks to my friend Bob who operates an amateur radio station. I was very much impressed by this achievement, which I considered something extraordinary. Bob just looked at me pitifully, and told me that if I ever wanted to talk again to Uruguay, the only thing to do was to pickup the microphone and call this country. Well I did it, and once again talked with my country.

Shortly after our return from Mexico, my roommate bought a T.V. set. I really enjoyed the various programs and had the opportunity to raise my cultural

status from the "Piggie Wiggle Quiz" to the carefully selected statements issued by the boys of Madison Avenue. I sure would like to see one of these fellows and find out how they look like.

If anybody in Uruguay (this is my home country and is located in South America) will ask me how the average American behaves, and how the country looks like, and in general what do I think about it; I will have to answer him that I do not know. The best way to find out is to go yourself. But I can sure tell him what I have obtained here. Not only the college education counts, but I have learned to understand the American way of doing things, and have made friends. This goes for you Bob, and Homer, for you Leroy and Penny, for Ben and Doug, Guy and Jaudy, Roy and a lot of Americans whom I will not forget. The average American does not exist, as the average of everything is only a mathematical abstraction which so often leads us to very deep mistakes. If we want to understand something related to the behavior of human beings, we have to get to know them personally.

I will be leaving the campus at the end of this semester. And I do not want to miss the opportunity to show my appreciation to all the staff and professors of the Textile School. Maybe I can spread in my country the reputation of the State College, and show my understanding of the United States. I wish that something could be done, so that Americans do not consider us foreigners as exotic individuals only worth to appear as villains on "made in Hollywood" movies. We also have our pride, and wonder how little Americans know about us.

Chemistry Head Picked To Study Rocked Propulsion

Dr. Ralph C. Swann, head of the Department of Chemistry at State College, has been appointed to the Technical Advisory Board of the Thiokol Chemical Corporation, one of the nation's leaders in rocket propulsion.

(See CHEMISTRY HEAD, page 6)

Statistics Dept. Gains Renowned Visiting Prof.

Dr. Michael R. Stampford, senior scientific officer in the Agricultural Research Council Unit of Statistics at the University of Aberdeen, England, will be visiting professor in State College's Department of Experimental Statistics for the next six months.

Dr. Stampford was selected by the Agricultural Research Council of England as a recipient of their Kellogg Foundation fellowship this year.

He is a well-known author in the field of design of experiments and sampling in biology.

His assignment at State College was announced today (Thursday, January 19, 1961) by prof. J. A. Rigney, head of the Department of Experimental Statistics.

STATELINE

By
EARL MITCHELLE

Carolina's decision to drop out of the Atlantic Coast Conference tournament brought varied comments from people.

The motive for the University's dropping out of the tournament according to UNC officials was for the promotion of good sportsmanship. The Tar Heel group felt that since their team could not enter the NCAA tournament then they should not beat out some team that could go to the national event.

Since this decision came right on the heels of the one year probation handed Carolina nearly everyone was willing to accept this reason for the UNC departure from the annual event. After a little time had passed, another idea began to creep into the mind of Joe Dribble, average basketball fan. Frank McGuire, has for sometime, voiced the opinion that the ACC tournament should not decide the conference representative to the national tournament. McGuire has offered that the winner of the regular season championship should represent the conference.

McGuire's reason for not wanting the tourney winner to represent the conference could be based on any number of things. The year that the Tar Heels won the national championship they were almost eliminated in the second round of the ACC tourney by Wake Forest. Only a three-point play by Lennie Rosenbluth in the closing seconds pulled the game out of the fire. Carolina had just about the best team in the nation that year and the fact that the best team was almost knocked out of the running may have prompted the Tar Heel mentor to wage a battle for conference reforms in this department.

Whenever possible, McGuire has cut down the conference tournament through newspaper comments and the like. After the Carolina team dropped out of the tourney, people began to wonder if this was not a McGuire move to try to break up the tourney. This opinion has been expressed by many, including the leading weekly sports magazine.

Another possible motive of the Chapel Hill crew could be that they are trying to find out just how much of a drawing card they are in the tournament. If this is their motive then we can expect them to come out with some statement, if the tournament is not as successful as in the past, amounting to "I told you so." The men on the Hill must remember that there are other teams in the conference who have supporters. Between the fans supporting the three area schools, Duke, State, and Wake Forest, in addition to the other four ACC schools, there should be a very fine turnout come March 2.

A local writer, who seems to have inside contacts at Carolina predicted the withdrawal of the Tar Heel team before the withdrawal occurred. The writer said that they were dropping out of the tourney to enter the AAU tourney. This reason also seems within the bounds of possibility. With the fine team that Carolina has this year it doesn't seem like they would just quit at the end of the season without some bid for national honors. If you just face facts you will see that Carolina is not going to be the world-beater next year that they are this year. They will lose the great pair of Doug Moe and York Larese and when they are gone there isn't going to be anybody to take their place completely.

Which of the three reasons is the real one? It's hard to really say at this time. The answer ought to come by the middle of March in some form. In some way, Carolina will probably commit itself and then everybody will know the real reason for their withdrawal.

In our opinion, the reason for the Carolina move was to bust up the March tournament. With nothing to lose and the possibility of throwing a monkey-wrench into the March gathering, the UNC officials at the request of McGuire asked that Carolina be allowed to drop out of the tournament.

Coach McGuire might be right in his idea that the tournament is not the right way to decide the conference representative, but refusing to support a conference activity is not the way to change the situation.

Rebounding Action In Duke Game

Salem

 refreshes your taste
—air-softens every puff

Take a puff...it's Springtime! Yes, the cool smoke of Salem refreshes your taste just as springtime refreshes you. And special High Porosity paper "air-softens" every puff. Get acquainted with the springtime-fresh smoke of Salem and its rich tobacco taste! Smoke refreshed... smoke Salem!

Intramural Action Hits Fast Pace

By Richie Williamson
Associate Sports Editor

The intramural action picked up its rugged pace once again after a two week layoff for the exams and intersession. The Frank Thompson gym hosts five games a night in basketball as

the teams have reached the point where every game is a big one since it could decide whether the team makes the playoffs. The handball action has already reached the final stages with the championship matches scheduled for Tuesday

night. In bowling which just got underway before the break, both the fraternities and dormitories resumed their league play.

The double elimination handball tournament comes to a close on Tuesday night for both the dorms and frats as the defending champions attempt to hold to their title. Bragaw South swept through four opponents with little trouble to gain the finals in quest of their second straight championship. They will be opposed by Berry who lost their first round match to Becton but came all the way through the loser's bracket and now need two wins over Bragaw South to win the tournament.

In the fraternity tournament Sigma Alpha Mu, unbeaten in four matches, goes after its tenth handball championship in twelve years. The Sammies op-

ponent for the finals will be determined tonight as Sigma Alpha Epsilon meets the winner of last night's contest between Phi Kappa Tau and Sigma Nu. The team that comes out of the loser's bracket will need a double victory to dethrone the Sammies.

The dorm basketball league, divided into two sections with the three top teams in each section qualifying for the playoffs, saw action Monday night with Bagwell upsetting Watauga, the defending champs; Owen #2 getting its first win of the season by stopping Bragaw North; Becton topped winless Turlington; Bragaw South remained unbeaten in winning over Tucker #1; Syme defeated Owen #1; and Berry had little trouble with Alexander.

Bragaw South has a commanding lead in one section with four wins and no losses. WG4 has a 2-1 record for second place, and Berry holds third with a 3-2 mark. In the other section, Tucker #2 is on top with three games without a setback. Bagwell's 3-1 record leaves them in second, and Watauga and Becton are tied for third with 2-2 records.

Fraternity action on the courts resumed last night with results coming in too late for this edition. Their league is divided into four sections with two top teams from each section making the playoffs. There are several teams that have not been beaten including Sigma Nu, SPE, PKT, and LCA. All four of these teams have sewed up playoff berths along with once-beaten SAE and KA.

Six matches were rolled in the fraternity bowling league at Western Lanes on Monday night and six matches in the dormi-

tory league on Tuesday night. The big match Monday night was between SPE and Delta Sig as they vied for the leadership in their division. However, they split the match 2-2 so SPE remained one game in the lead. Delta Sig took the first game by a large margin so that, even though they lost the last two games, they took total pinfall. PKA increased their lead in the

other division as they took PEP 4-0. Robin Best of PKA was high man of the night with a 202 game and a 546 series.

NOTICE

All persons who have experience in target rifle, skeet, skish, and archery are asked to contact John Brady at the Intramural Department at the gymnasium.

Is your future up in the air?

As the communications needs of our nation become steadily greater and more complex, the Bell Telephone System is continuing its pioneer work in microwave by "taking to the air" more and more to get the word across.

To this end, Western Electric—the manufacturing arm of the Bell System—has the monumental task of producing a large part of the microwave transmission equipment that knits our country together by shrinking thousands of miles into mere seconds.

In spite of its great technological strides, the science of radio relay is a rapidly-changing one. And new break-throughs and advances are common occurrences. A case in point: our Bell System "TH" Microwave Radio Relay. This newest development in long-distance telephone transmission will eventually triple the present message-carrying capacity of existing long-haul radio relay installations. A full-scale system of 6 working and 2 protection channels can handle 11,000 telephone messages at the same time.

To make microwave work takes a host of special equipment and components: relay towers, antennae, waveguides, traveling wave-tubes, transistors, etc. But just as important,

it takes top-caliber people to help us broaden our horizons into such exciting new areas as communication by satellites!

And microwave is only part of Western Electric's opportunity story. We have—right now—hundreds of challenging and rewarding positions in virtually all areas of telephony, as well as in development and building of defense communications and missile guidance systems for the Government.

So, if your future is "up in the air," you owe it to your career to see "what's up" for you at Western Electric.

Opportunities exist for electrical, mechanical, industrial, civil and chemical engineers, as well as physical science, liberal arts, and business majors. For more information, get your copy of "Western Electric and Your Career" from your Placement Officer. Or write College Relations, Room 6106, Western Electric Company, 195 Broadway, New York 7, N. Y. And be sure to arrange for a Western Electric interview when the Bell System recruiting team visits your campus.

Principal manufacturing locations at Chicago, Ill.; Kearny, N. J.; Baltimore, Md.; Indianapolis, Ind.; Allentown and Laureldale, Pa.; Winston-Salem, N. C.; Buffalo, N. Y.; North Andover, Mass.; Omaha, Neb.; Kansas City, Mo.; Columbus, Ohio; Oklahoma City, Okla.; Engineering Research Center, Princeton, N. J.; Teletype Corporation, Skokie, Ill.; and Little Rock, Ark. Also Western Electric distribution centers in 33 cities and installation headquarters in 16 cities. General headquarters: 195 Broadway, New York 7, N. Y.

Crystal Ball Corner

After a three week layoff, the men of the Crystal Ball Corner have polished off the tarnish on their magic glass and hazily seen through it to come up with this week's forecast on the basketball action. However, it might be better if we said that a few of the forecasts were more like guesses after losing contact with the results of the teams for the past weeks. Anyhow, we are glad to welcome you back to following the nation's leading teams and following the TECHNICIAN'S leading forecasters.

Going into this week's predictions, Richie Williamson holds a slim lead in the overall average with Earl Michelle and Jay Brame battling for the second spot. The three are bunched up so that it would take only one week for the entire picture to change. To add to the complications this week, we have added five more games to the list bringing a total of 30 games under consideration.

Vaseline
HAIR TONIC

how to win by a head

Winning glances that lead to romance(s) are easy to come by if you go buy 'Vaseline' Hair Tonic—made specially for men who use water with their hair tonic. 'Vaseline' Hair Tonic is 100% pure light grooming oil—replaces oil that water removes. 'Vaseline' Hair Tonic won't evaporate, stays clear and clean on your hair. And just a little does a lot!

IT'S CLEAR 'N'
IT'S CLEAN 'N'

VASELINE HAIR TONIC

N. C. Island Utilized For Research Program

By Mary N. Yionoulis

A North Carolina island will be the test site for a State College engineering research project.

More than 800 concrete specimens reinforced with various types of steel will be transported from the campus to Harbor Island in order to determine the relative amounts of corrosive growth on the reinforcements in a coastal environment.

Conducted by the college's Department of Engineering Research, the investigation is sponsored by the International Nickel Company.

The preliminary work of casting, curing and testing the specimens is being done in the department's research laboratories by civil engineering research assistants.

Project Director R. H. Bigelow, civil engineering professor, said that the specimens will include four different combina-

tions of concrete and ten different combinations of steel. Approximately 200 concrete specimens have already been cast by the project staff.

Civil Engineering Professor E. P. Brantly is associate director of the project; John Johnson of Raleigh, graduate assistant; and Bruce Weaver of Raleigh and Tom Marrow of Goldsboro are undergraduate assistants.

In order to establish a record of variables for accurate studies, each steel bar is carefully weighed, concrete mixtures controlled, and each specimen color-coded for content.

The approximate weight of each specimen — six inches square by two feet long in size — is 75 pounds.

As the concrete specimens are completed they will be moved to the shores of Harbor Island in the Wrightsville area to be exposed to the coastal atmosphere. One-half of all the specimens will be placed out on the beach;

the remaining half, over the water. At high tide, half of the latter group will be under water.

Following a period of coastal exposure, the specimens will be returned to State College, where they will be broken open for investigation of corrosive growth.

A sample of each steel bar will be re-weighed. Evaluations will then be made on the amounts of corrosive growth on the reinforcements.

The project directors pointed out that the results of the research project could lead to a change in some concepts of reinforced concrete design for coastal use which will prove more economical. It is also hoped that more basic research may be done in the future in this particular area.

The use of student assistants on projects such as this is part

Announcement of Dr. Swann's appointment was made by Dr. H. W. Ritchie, vice president of Thiokol's Rocket Operations Center, Ogden, Utah, and president of the American Rocket Society.

The eight-member board is composed of scientists from throughout the country who are outstanding in the rocketry field.

Thiokol Corporation has made major contributions to the propulsion systems of the X-15, Minuteman, Pershing, Nike-Zeus, Bomarc B, Mace, Little Joe, and the Falcon.

A native of Barboursville, W. Va., Dr. Swann is a graduate of Morris Harvey College and earned his Ph.D. degree in organic chemistry from the Massachusetts Institute of Technology.

of the Engineering Research Department's integrated program of education and research which offers students the opportunity to gain basic knowledge and experience in their chosen engineering fields.

Ag School Initiates 'Honors' Program

State College's School of Agriculture in keeping step with top-flight educational projects has in progress a program designed for the superior college student.

School of Agriculture juniors and seniors who have earned a 3.0 quality point average are eligible for participation. Seniors invited to participate in this accelerated program follow:

Charles Harvey Little of Route 1, Kenly; Wayne Maurice Brooks of Raleigh; John Lester Edwards, Jr., of Waynesville; Robert Penn Webster of Stoneville; Wade Thomas Mills of Route 2, Farmville; Worth Frederick Cone of Route 1, Spring Hope; Sidney Edward Law of Pelham; Darrell Sparks of Route

4, Bakersville; Lawrence A. Wolfe, Jr., of Bessemer City; Charles Fredrick Mann of Route 1, Canton; Talmage Thurman Brown of Raleigh; and Chusek Chavengseksongkram of Bangkok, Thailand.

Members of the junior class asked to participate are;

Yoel Haitovsky of Jordan Valley, Israel; Horace Thomas Bone of Raleigh; Bobby Nelson Lancaster of Rocky Mount; Donald Lentz Cline of Gold Hill; Allen Joseph Barwick of Route 2, Grifton; James Andrew D'Anna of Clearwater, Fla.; Stuart Alexander Marks of Route 2, Wilmington; Charles Norman Adair of Burnsville; Harold Braughon Williford, Jr., of Godwin; and Robert David Mustian of Kittrell.

Design Students Score In Mobile Home Contest

Two students in the School of Design at North Carolina State College have won awards in a national competition on an evolving housing form—the mobile home park.

They are Robert Phillips of High Point, who won a \$100 cash fourth prize; and Robert E. Cole of Raleigh, who received honorable mention and a \$50 award.

The students worked under the supervision of Lewis J. Clarke, associate professor of landscape architecture in State College's School of Design.

Competing in the event were students in landscape architec-

ture, architecture, and city planning at American colleges and universities.

Economics Head Addresses Raleigh Engineers Club

Dr. Ernest W. Swanson, head of the Department of Economics at State College, will be the principal speaker at a dinner meeting of the Raleigh Engineers Club at the downtown S & W Cafeteria Monday at 6:30 p.m.

"Science and the Future of Our Economy" will be his topic.

Charles Burleson, club president, will preside.

Dr. Swanson, who formerly was senior research scientist at Georgia Tech's Engineering Research Station, became head of State College's Economics Department on February 1, 1960.

A native of Ashtabula, Ohio, Dr. Swanson has a broad background of experience and is the author or co-author of various books and reports in his field.

Dr. Swanson was assistant professor, Drake University,

1934-35; in charge of a survey of consumer demand for electrical appliances for the Federal Power Commission, 1934-35; assistant to associate professor, Washington State College, 1936-41; assistant professor, City College of New York, during the summers of 1939-40.

In addition, he was research director, Inland Empire Economic Survey, 1940-41; permanent lecturer, American University, 1942-47; senior and principal analyst, Bureau of the Budget, Washington, D. C., 1941-44; research economist and assistant director of economic research for the committee on business statistics of the U. S. Chamber of Commerce, 1944-47.

He was also professor of economics, Emory University, 1948-

56; and has been senior research economist of Georgia Tech's En-

gineering Experiment Station since 1956.

Dr. Swanson was editor of The Southern Economic Journal, 1954-58; first vice president, Southern Economic Association, 1953-54; president of the Southern Economic Association, 1954-55; chairman of the sub-committee on public finance, Atlanta Chamber of Commerce, 1954-60; interim consultant, Lockheed Aircraft Corporation, 1953-60; on board of editorial consultants, Journal of Public Law, 1955-56; and a member of the Inter-university Committee for Economic Research on the South, 1958-60.

He is co-author of "Economic Stagnation or Progress," published by McGraw-Hill, 1945; "Public Education in the South, Today and Tomorrow," Univer-

sity of North Carolina Press, 1955; and "Georgia's New Frontier," 1957.

In addition, he has written numerous articles, booklets, and book reviews.

Humble Oil Interviews

HOUSTON, TEXAS—Representatives of Humble Oil & Refining Company will visit the North Carolina State College campus February 27 to interview students who will graduate in chemical engineering during 1961.

Prospective graduates in chemical engineering at all degree levels will be interviewed for permanent employment with the company.

For additional information contact William H. Simpson, Placement Officer, School of Engineering.

N. C. Design Competition Won By State Students

Three students in the School of Design at State College were named January 23, as winners in a design competition initiated by the Governor's Coordinating Committee on Aging in cooperation with the School of Design, under the supervision of Prof. Edward Waugh.

Winners and their prizes are: Alex Carter, son of Mr. and Mrs. Edward H. Carter of Route 1, Indian Springs, Tenn., first prize, \$75; Merry Lane Davis, daughter of Mr. and Mrs. C. W. Davis of Mt. Ulla, N. C., second prize, \$50; and Wilson Jones, son of Mr. and Mrs. W. W.

Jones of Rutherfordton, third prize, \$25. The Governor's Committee donated the prizes.

Purpose of the competition was the design of a comparatively low-cost community of individual living arrangements for retired persons. The project

was based on a plan whereby the residents could buy into partial ownership of the living accommodations prior to retirement.

The winning design combined 12 apartments into eight buildings. There were four efficiency apartments, four one-bedroom units, and four two-bedroom units. In addition, there was a community building, hobby shop, store rooms, guest rooms, central heating plant, and a superintendent's house.

Buildings were grouped around a court taking full advantage of the sloping tree-covered site. Each apartment had sun windows opening on private terraces.

Twelve students in the third year class in the School of Design entered the competition.

The designs were judged by a jury composed of Turner C. Williams, Raleigh Architect, chairman; and Professors Brian Shawcroft, John Shaw, and Cecil Elliott, all of the college's School of Design.

Agronomy Club To Head Awards For National Group

The State College Agronomy Club has been selected to head the National Achievement Award Contest of National Society of Agronomy for 1960-61.

Roy Walton Mazingo, a sophomore in the School of Agriculture at the college, will serve as contest chairman.

Young Mazingo is the son of Mr. and Mrs. Roy Mazingo of Route 1, Kenly.

The State College Club also was in charge of the contest last year at which time Williams H. Tharrington, another School of Agriculture student, was chairman. He is the son of Mr. and Mrs. M. S. Tharrington of Route 2, Battleboro.

City Planning Expert To Lecture Here

A noted American authority on city planning, Mrs. Chloethiel Woodard Smith, a Fellow of the American Institute of Architects, will be the fourth visiting lecturer in the State College School of Design's current lecture series.

Mrs. Smith will give a public lecture at 8 p.m. (Monday) Feb-

ruary 13 in the School of Design Auditorium, Brooks Hall, on the college campus.

Topic of Mrs. Smith's lecture will be "City Design for City Life." No admission will be charged.

Mrs. Smith is no stranger to the State College scene; in 1950 she was visiting lecturer in the School of Design. She has also lectured at Duke University in architecture and city planning.

Mrs. Smith was graduated with honors from the University of Oregon with a Bachelor of Architecture degree; she received her Master of Architecture degree from Washington University.

Mrs. Smith has written a number of articles for professional journals. She served as chairman, Division of Pan American Affairs, AIA; as U. S. Delegate to the VII Pan American Congress of Architects.

In association with various private firms, Mrs. Smith has done distinguished work in community and city planning, apartments and development housing, laboratories, hospitals, clinics, offices, clubs and community facilities for clients ranging from The United States Government to small municipalities.

A native of Peoria, Ill., Mrs. Smith now resides in the nation's capital.

Opening lead: 5 of diamonds

North ducks with the 9 of diamonds, and east trumps with the 2 of hearts. East returns the 8 of clubs, surmising partner has ace: south ducks and west wins with the 10. He returns diamond deuce—east trumps again with the three of hearts, leading back a low club. West cashes in with jack and again leads low diamond. South ruffs high on board with jack and East over-trumps with heart Queen. East returns club king and partner wins with ace. West then leads heart singleton, thinking it the only safe lead. South wins in dummy, and then cashes in his two spade tricks, ending up in his hand with the ace. South then lays down solid hand, claiming rest of tricks with Glances to his right and screams, "misdeal," suddenly realizing that east has only 3 cards. West retorts, "Well you dealt it, dammit." South then notices that one of east's remaining cards is a dia-

mond. He then snarls, "You renege on the opening lead." West, defending partners honor, cleans south with Duplicate Card holder.

Duplicate players, perturbed at commotion, request silence.

At this, North wraps folding chair around West's head.

Again other players request silence.

Meanwhile East, attempting to retire from scene unnoticed, is being closely pursued by North.

At this, Author, who had been kibitzing, moves on. Trips over recumbent South, evoking a resounding thud.

Once again, other players ask for SILENCE!

(advertisement)

A demonstration in copper tooling will be given by Mrs. Ella Chalfant. Mrs. Chalfant is skilled in many types of metal crafts and is well known in this area. She has recently studied at Penland.

The program will be Tuesday, February 14, at 7:30 p.m. in the Craft Shop.

You and your girl may reign as King and Queen of hearts at the annual Valentine's Dance to be held on February 11 from 8 until 12 p.m. in the College Union Ballroom.

From among the couples attending the Valentine's Dance, the CU Dance Committee will select a King and Queen of Hearts to be crowned at intermission and reign for the remainder of the dance.

The dress will be semi-formal. Couples only will be admitted.
