UN Model Assembly Speakers

Frederick H. Boland (center) and Arthur Larson (right) were principal guest speakers for the student United Nations Model General Assembly at Duke University. Larson, director of the World Rule of Law Center in the Duke Law School, spoke this morning and Boland, president of the United Nations General Assembly, addressed the student meeting Thursday night. They are pictured with Bob Cooke of N. C. State College, president of the Model General Assembly.

Young Republicans Hold Convention

The 1961 State Convention of the North Carolina Federation of young Republicans was held at the Jack Tar Durham Hotel in Durham, N. C. Three hundred and fifty people, representing the different county and college clubs, were present for Friday and Saturday sessions.

Colleges present included Duke, Western Carolina, Louisville, UNC, Atlantic Christian, Pfeiffer, and N. C. State.

Officers elected to serve on the College Council were: President, Bill Patterson, UNC; Vice President, Bob Johnson, Western Carolina; Recording Secretary, Johnny Moore, N. C. State; Corresponding Secretary, Buddy Broom, UNC; Treasurer, Tommy Hayes, N. C. State.

The keynote address at the convention was given by Dr. Dan McFarland, Professor of Political Science, Atlantic Christian College. Guest speaker for the banquet was Congressman William O. Kramer, of Florida.

AUSA Announces Monthly Meeting And Discussion

N. C. State College Company, Association of the U. S. Army held its monthly meeting in Reynolds Coliseum at 7:00 P.M. on 22 February 1961. At the conclusion of the business session conducted by Cadet Captain Harry Mullis a very interesting and informative program on the situation in the Laos and Viet Nam area was presented by Lt. Col. Willey and Major Smith, who have recently returned after serving tours of duty with the Military Advisory Group to Viet Nam. The geography, resources, political situation, and military situation were discussed and several reels of movie film which were taken by Col. Willey during his duty and travel missions through these countries, Thailand and Hong Kong were shown.

Four new advanced course cadets were elected to membership in the Company. They include Homer Biggers, David Whitesides, Richard H. Blackwell and Baxter L. Thomas. The next meeting will be held in the Downtown S & W Cafeteria private dining room on 22 March 1961 and will feature a talk by Fort Bragg Officers on Special Warfare and Special Forces activities and operations. The Scabbard and Blade, Pershing Rifles, Arnold Air Society and the N. C. State College Company, AUSA will be joint hosts for this program.

Boland Notes Power Shift At Duke Model Assembly

Over two hundred students from 40 colleges gathered at Duke University last week to participate in the United Nations Model General Assembly.

State Professor Wins Top Award In Teaching Field

A North Carolina State College professor has won the South's top annual teaching award in the field of horticulture. He is Prof. M. E. Gardner, a member of the college faculty for 34 years.

Prof. Gardner was selected for the "L. M. Ware Distinguished Teaching Award" over teachers from 13 Southern states. The honor carries with it a plaque and cash award.

The award is presented annually by the Southern section of the American Society of Horticultural Science in honor of Dr. L. M. Ware of Auburn University.

A native of Virginia, Prof. Gardner was in charge of the Horticulture Department at State College for 25 years.

In 1956, he stepped down, however, to return to his first love—students and teaching.

Prof. Gardner is known to thousands of North Carolinians through his column "Garden Time," which appears in the weekly press.

He also has served as N. C. State Fair judge for 32 years, a record not equalled by any other person.

Prof. Gardner makes his home at 2708 Bedford Avenue, Raleigh.

The highlight of the event was an address by Frederick H. Boland, president of the United Nations General Assembly, from Ireland.

State College student body president Bob Cooke was the president of the Model General Assembly. Other Students from State represented the countries of India, Poland, and Sweden.

The conference opened on Wednesday evening, February 22, and was adjourned on Saturday afternoon. The schedule included general assembly meetings and small committee sessions.

Boland spoke to the convention after the Thursday evening banquet at the Duke Union Ballroom. The President of the UN spoke on "The Change in the New World."

In the rapidly shifting political tide of the modern world, the smaller countries of the world could have an increasing effect on the success or failure of the United Nations, Boland said. By banding together, the smaller nations could easily join together to outvote the majority of the more powerful countries.

Such moves would probably cause several of the world pow-

ers to withdraw from the international organization, thereby seriously weakening the strength of the UN.

The UN President cited as an example the ever-growing number of African and Asian nations, which has shifted the voting strength from the Western powers. This trend places more significance on the wishes of these countries.

Many crucial issues, such as the standing of UN Secretary-General Dag Hammarskjold, may be decided by these smaller nations, Boland said. "It's up to the smaller countries to stand firm in defense of the independence of the position of the secretary-general," he stated.

The foremost problem facing the UN today was, in Boland's opinion, the current chaos in the Congo. Whether the UN can restore order in the strife-torn African sector could well determine the effect the UN will have in future international crises, Boland predicted.

The Wednesday session featured an address by Dr. Arthur Larson, Director of the Duke World Rule of Law Center. His lecture was "Towards A Structured Peace."

Larson, the former director of the United States Information Agency, classified world peace as a fixed structure, the main part being a framework of law. Since legal disputes are at the core of most international issues, they could best be handled in the UN International Court of Justice, Larson commented.

Dr. Larson, a world renown figure, stated that the UN Charter plainly defines the jurisdiction of each of the international agencies; legal disputes, therefore, belong in the courts.

Dr. Larson was of the lecturers featured in the fall 1960 series of the State College Apolo Club, sponsored by the YMCA.

The countries represented at the conference and their sponsoring schools are as follows:

Argentina, Montreat - Anderson College; Belgium, Duke University; Brazil, University of West Virginia; Canada, Catawba College; Chile, Duke; China, Duke, Congo, Sacred Heart Junior College; Cuba, Guilford College; Dominican Republic, University of South Carolina; Ethiopia, Charlotte College; France, United States Military Academy;

Ghana, Warren Wilson College; Guinea, Duke; Hungary, Appalachian State Teachers College; India, North Carolina State College; Indonesia, Hollins College; Ireland, University of Virginia; Israel, Asheville-Biltmore College; Japan, Hampton Institute; Jordan, St. Mary's Junior College; Laos, Madison College; Liberia, North Carolina College; Mexico, Sweet Briar College; Morocco, Tennessee A & I State University;

Nigeria, Boston University; Pakistan, St. Augustine's College; Panama, University of North Carolina; Philippines, Meredith College; Poland, N. C. State; Sweden, N. C. State; Tunisia, A & T College; Turkey, United States Naval Academy; United Arab Republic, Wake Forest College; Union of South Africa, UNC; United Kingdom, Duke; United States, United States Air Force Academy; USSR, UNC, and Venezuela, Hollins College.

YMCA Plans Retreat For Engaged Students

The North Carolina State College YMCA is undertaking a unique project for the spring of 1961; during the week-end of April 8-9, 1961, it will hold a retreat for a select group of North Carolina State College students engaged to be married sometime in the near future. The retreat is to be held at Camp New Hope, near Chapel Hill, N. C., and is designed to help each couple involved achieve a deeper insight into certain aspects of marriage, and to help the boy and girl attain a fuller understanding of the other's personality.

Much work has gone into the planning of the retreat, and it is hoped that it will be a meaningful experience for all attending. The theme is intended to cover topics which would probably be overlooked by the individual couples. Adequate adult leadership has been obtained, and certain preparation is required of all attending.

In the interest of providing the maximum benefit for those attending, the number of couples has been limited to twenty. At present almost half of these have been selected. However, there are still several openings for interested couples, and an application for attendance may be obtained from Tom Johnson at the King Religious Center (campus YMCA).

The retreat will start on Saturday afternoon and will end Sunday afternoon, allowing ample time on both days for the boys to get the girls to or from home. The cost of the retreat will be \$10 per couple,

which will include three meals, lodging for the night, and appropriate preparation material, including a rather informative book. Primary qualifications are that the couple definitely be engaged, preferably with the date set, and that they be interested enough in participating to read the preparation material.

Theta Chi Crowns Miss Cox Queen

Theta Chi Fraternity, at their annual Dream Girl dance and banquet, crowned Miss Dorcas Ann Cox as their 1961-1962 Dream Girl. Miss Cox, who is a junior at Flora Macdonald College, will go to the Regional Theta Chi Mason-Dixon Jubilee in Winston-Salem on March 11 as the Delta Rho chapter's candidate for Regional Dream Girl.

- Campus Crier -

Tuesday, February 28

All EE Students are invited to attend the AIEE-IRE Joint Student Branch meeting at 7:00 p.m. in Riddick 242.

The annual student's papers contest will be held and refreshments will be served. Please be on time so that all may leave early.

The American Society of Civil Engineers will meet at 7:30 p.m. in 436 Mann Hall. New officers for the coming year will be installed.

Guest speaker for this meeting will be Mr. D. N. Harrington of Cast Iron Pipe Research Association. He will present slides on the manufacture and the laying of cast iron pipe.

All members and interested persons are invited to attend.

Wednesday, March 1

The Math and Science Education Club will meet in the College Union at 7:30 p.m.

The Electrical Engineering Wives' Club will meet at 8:00 p.m. in rooms 256-258 of the College Union.

Guest speaker will be "Growing Better Varieties of African

Violets." AIEE student and faculty wives are invited to attend.

The Photo Committee of the College Union is presenting a program on Still-life Photography at Photocope on Wednesday night at 7:30.

Such still-life technique includes most scientific and technical photography as well as the more familiar pictorial studies printed in photography annuals. Technical photography is a valuable tool in industrial and government work, and engineers should not overlook the possibilities of putting their cameras to use.

Amateur photographers are invited to attend this demonstration, which will be given by John Mattox of the Visual Aids Department. All students are invited to bring their cameras and to participate in the program.

There will be a meeting of the Checkers Club on Monday (February 27) at 7 p.m. in the College Union. All CU members who like to play checkers are invited to attend.

Thieves Strike At Fraternity Over Weekend

Property valued at approximately \$100 was stolen from the chapter house of the Phi Epsilon Pi fraternity at State last Saturday night. Missing items included gold trophies, decoration mugs, and fraternity insignia.

Chief suspects or the theft were a group of strangers who entered the house on Saturday evening posing as pledges from another college. The event is under investigation by the authorities.

Other fraternities should take warning from the theft to prevent further losses from the same group.

Comments From The Editor Support The A.C.C. ... And The Wolfpack

The Atlantic Coast Conference Tournament comes to Raleigh this week, and for the first time in its history, there will be only seven teams in the field. The University of North Carolina dropped out of the tournament about three weeks ago since they were ineligible to participate in the N.C.A.A. tourney.

The ticket sales for the three day dribble derby are far below the normal amount of sales at this date. Many feel that the reason is due to the Tar Heels dropping out. Whether this is true or not, we do not know.

There have also been gripes in local newspaper editorials towards the handling of the seating. One of the newspapers called the affair a private club. Another reporter stated that he tried to buy tickets, and was terribly disappointed when he found his seats in the end zone. Some of the writers have blamed the Coliseum Box Office for not selling good seats.

We would like to state that the tournament is not a private club. Secondly, all the seats on the side court never go on sale. The A.C.C. allows each institution three hundred tickets. These tickets are distributed anyway that the school feels fit. Most of these tickets to faculty members, the administration, members of the athletic department, and alumni.

The box office then releases a notice to the public press the first week in February about sending in mail orders for tickets to the tourney. The tickets do not go on sale across the counter at the office until two weeks later. People sending in mail orders can request any section they so desire as long as it is in the end zone. The box office tries to fill these orders the best they can. However, everyone can not have a seat on the first row in section 12.

The box office handles the sale of tickets as a favor for the A.C.C. since the tournament is played here, and the A.C.C. offices are in Greensboro.

Since the ticket sales are not going so good, everyone thinks that he or she should get a good ticket.

The ticket sales are not as bad as everyone believes they are, and we will bet there will be capacity crowds at the Coliseum for the semifinals and the finals.

This marks the first year that the Wolfpack has been eligible to go to the N.C.A.A. playoffs in the last five years. The student body, alumni, faculty, and loyal Wolfpack fans should turn out and root them on to the A.C.C. championship. Not only does the Wolfpack need the support of everyone, but the A.C.C. needs it even more this year if a tournament is to stay in Raleigh. LET'S GO WOLFPACK!!

Greek Theatre Classic To Be Presented At WC

The theatre of Woman's College will present a classic of the Greek theatre, *The Alcestis* of Euripides on March 1, 2 and 3 in Aycock Auditorium. Curtain time is 8:00 p.m. This production will serve as the opening event of the Annual Arts Festival at the woman's college.

The Alcestis is being directed by Miss Kathryn England whose work is well and widely known in this area, including in recent years the direction of *Good Woman of Setzuan* and *The Importance of Being Earnest* at woman's college. The designer, Ray Smith has said that in designing the setting he has made an attempt to eliminate the picture frame of the Proscenium Arch and to integrate the stage with the auditorium in an attempt to produce the same connection between audience and actor that existed in open-air classical Greek theatre. The formal architecture of the Greek stage will be maintained but its expression will be executed in terms of modern materials available to us. The costuming, under the supervision of Mr. Marty Jacobs, is the result of research into the archaic periods of history combined with the imagination of projecting the style into perhaps even the 25th century.

Special music has been commissioned from Mr. M. Thomas Cousins, well known composer of Brevard College, and is under the supervision of Dr. Harold Luce and will be conducted by Mr. Richard Cox during performance, both of whom are

members of the school of music. Miss Virginia Moomaw of the Department of Physical Education will design the choreographic movement.

ADMISSION prices for the *Alcestis* are: Adult \$1.50, college students \$1.00, high school student \$.50. Information concerning group rates and theatre parties can be obtained by writing or phoning Aycock Auditorium, BR 5-9371, Extension 233.

Notice

The research effort being carried out by the Japanese textile industry is formidable, William A. Newell of Whitinsville, Mass., told members of the Research and Technical Services Committee of the American Cotton Manufacturers Institute meeting at the School of Textiles at North Carolina State College.

Newell, former director of the Research Center at the State College School of Textiles and who has recently returned from Japan where he inspected textile plants and research facilities, said the low salary scale paid Japanese scientists gives that country a great advantage in its research efforts.

A review of textile education offered at the Textile School was given by faculty members prior to Newell's report.

Parents' Weekend To Be Held By Golden Chain

Golden Chain, Senior Leadership Honor Society, is again sponsoring the annual Parents' Weekend which is to be held in conjunction with the Engineers' Fair, April 13, 14, and 15. Plans for Parents' Weekend include registration of the parents, a Saturday afternoon tea, Openhouse in the Fraternities and Dormitories, the College Union Carnival, several dances, and an All-campus Sing on Sunday afternoon. Invitations are to be sent to all the parents and a personal invitation from the Deans of the various schools are to be sent to the parents of the students who are in the respective schools.

Sponsoring Parents' Weekend is an annual function of the Golden Chain and it is hoped that through this article the student body will understand a little more about the organization which is sponsoring this large event. The Golden Chain was founded at N. C. State College in 1926 through the efforts of several students and the campus newspaper. The name was chosen to symbolically represent the linking together of men outstanding in the college community and the further linking of these men to their Alma Mata.

Each year 12 members of the rising senior class are chosen to compose the active membership for their senior year. These men, through their years at N. C. State, will have demonstrated outstanding qualities of leadership, scholarship and service. No one qualification is singled out, but rather, it is felt that all areas of the college experience are equally important. It is, in this respect, the highest honor a student can obtain while at State College.

The Chain is increased each year never to be broken—and it is hoped that in time the Chain will extend to all parts of the world, binding each individual link to N. C. State College.

The list of Alumni which compose the membership of Golden Chain tells the story of the organization and exemplifies the type of men who are worthy of such an honor. The list includes many individuals who serve the state and nation with excellence in the field of education, architecture, textiles, and the sciences. This includes several college administrators, chancellors, and presidents. Then, too, there are men who are outstanding members of their community both in business and industry. It is almost

evident that the members for the school year 1960-1961 will continue the living traditions of Golden Chain. These members include the officers: *Sandy Matthews*, President; *Ronald Shearon*, Vice-President; *Joel Ray*, Secretary; and *Tom Bok*, Treasurer. The remaining eight members are: *Bob Cooke*, President of the Student Body; *Lad Daniels*, Editor of the *Agromeck*; *Dick Currie*, President of the Consolidated University Student Council; *Kent Watson*, Station Manager of *WKNC Radio*; *Charles Russell*, Vice-President of the Student Body; *Roger Mazingo*, President of the Senior Class; *Frank Madron*, President of the Engineers' Council; and *Donald Blizzard*, January Graduate in Forestry, active in the YDC and Student Government.

Not only through the plans of the Golden Chain but through all their activities, each of these members is proving to the campus that his selection was a wise one. They, as all the others, will be linked to each other and to State College by the ties of fellowship and loyalty and it is hoped by all the members of Golden Chain that the entire student body will remain linked to State College by these same ties.

From The Files

One Year Ago

The Student Government advised a change in the Student Supply allotments. The change called for 60% for academic scholarships and 40% for athletic scholarships.

Chancellor John T. Caldwell commended the ROTC modification. The change called for substitution of regularly scheduled courses for certain phases of the ROTC training work.

Coach Everett Case's basketball team lost two games in Charlotte to assure Case of his first losing season.

Five Years Ago

The Senior Class decided that its gift to the school would be landscaping beside the 1911 Building.

Dr. C. Addison Hickman was named head of the School of General Studies.

State's basketball team was rated fifth in the nation.

Soph Team Paces Pack In ACC Meet

By Earl Mitchell
Sports Editor

The fabulous sophomore team of Ed Spencer and Peter Fogarasy led North Carolina State to six individual titles in the Atlantic Coast Conference individual championships over the weekend in Chapel Hill.

Spencer and Fogarasy won

two events each and then swam on the victorious 400-yard medley relay team for State. Smokey Ellis picked up the other blue ribbon for State College.

State College led the three-day event in the winning of first places with six out of a possible 15. North Carolina won five, while Duke and Maryland

each won two.

On Friday, Spencer got the State cause off to a good start with a record win the 200-yard butterfly race. The lanky State speedster covered the distance in a new ACC time of 2:06.3. This topped the old mark of 2:09.7 held by Vince Simon-ton of Carolina. Two other State tankers, Jim D'Anna and John

Wilcox, finished fourth and fifth respectively in that same race.

Fogarasy, a Hungarian refugee and freedom fighter, provided the next win for State when he won the 200-yard breaststroke in a very convincing manner. In the preliminaries, Fogarasy set a new record for the event of 2:24.2 which topped the old mark set by Dick Fadgan of State of

2:28.9. In the finals of that event, the State star swept top honors by winning the event in 2:20.7. This bettered his previous mark in the trials by three and a half seconds.

In other action for State on Friday, Ellis picked up a second place in the 50-yard freestyle, Guy Griswold finished sixth in the 200-yard breaststroke, and the State relay team copped a third place in the 400-yard free-style relay.

In Saturday's action, State swimmers took four firsts. Again it was the record breaking efforts of Fogarasy and Spencer that led the way. Fogarasy grabbed off top honors in the 100-yard breaststroke in much the same manner as he did the 200-yard event. In the trials, Fogarasy set a new mark of 1:05.8 which was one second better than the old record of 1:06.8 set

by State's Fadgan in 1956. In the finals of the breaststroke Fogarasy cut even more time off his mark as he turned in a time of 1:05 to win the event.

Spencer slipped through the water in the trials of the 400-yard freestyle in a time of 4:10.6 topping the mark that he set earlier this year of 4:21.8. In the finals of the event, Spencer turned in a time of 4:14.9 in win-ning.

State College's 400-yard med-ley relay team posted a new time of 3:50 in winning that event. The State record topped the old mark of 3:51.1 set by Carolina earlier in the season. It was this same North Carolina team that downed the Pack when the two schools met several weeks ago. Swimming on the winning team for State were Ellis, Fogarasy, Wilcox, and Spencer.

Moe Heads All-ACC Team Selected By Technician

By Richie Williamson
Associate Sports Editor
Carolina's All-American candidate Doug Moe was named the mythical captain of the TECH-

NICIAN's All-Atlantic Coast Conference basketball team. Moe, a senior from Brooklyn, beat out Duke's Art Heyman by two points as the top vote-get-ter.

John Pungner, Art Whisnant of South Carolina, and Doug Kist-ler of Duke.

Moe collected 28 out of the possible 30 points to earn the top spot on the team. The former Erasmus High star proved invaluable in leading Carolina to first place in the conference with his 20.4 scoring average. Moe was also the top rebounder in the league, pulling down an average of 14.2 rebounds a game.

Sixth-ranked Duke was con-tinually sparked by their amaz-ing sophomore, Art Heyman, who hails from Rockville Cen-tre, N. Y. He averaged 25 points a game, second best in the con-ference, in his first year with his highest one-game output being 36 points in his last regular sea-son game.

The third man on the team, Chappell, a junior from Portage, Pa., also had his best game at the end of the season with 42 points. Len carried off the scor-

ing title with a 25.8 average and was second in rebounding with 13.1 recoveries a game.

York Larese, known for his excellent shooting and fast free-throw shots, joined Moe on the first team to keep the L & M twins together. The Brooklynite averaged 23.1 points per game. Rounding out the first five is the Deacon's junior backcourt man, Billy Packer. Packer, a Bethlehem, Pa., native, poured through an average of 19 points a game. This average, combined with Chappell's provided Wake with 57% of their total points and won the best two-man aver-age contest over Larese and Moe.

The ten man squad was domi-nated by the Big Four schools with only South Carolina's Whisnant breaking the mono-poly. Whisnant was also the only North Carolinian and only southerner on the team. The squad was composed of four

seniors, three juniors, and three sophomores.

State placed its two soph stars on the second five in Pung-ner and Rohloff. Both men came to be top ballplayers in the lat-ter part of the season after get-ting valuable experience under their belts.

The All - Conference team, school, and point total in the voting:

- First Team
Doug Moe, N. Carolina (28)
Art Heyman, Duke (26)
Len Chappell, W. Forest (25)
York Larese, N. Carolina (23)
Billy Packer, W. Forest (15)
- Second Team
Howard Hurt, Duke (14)
Ken Rohloff, State (13)
John Pungner, State (8)
Art Whisnant, S. Carolina (6)
Doug Kistler, Duke (3)

State Faces USC; Duke and UVA Meet

The parings for the Eighth Annual Atlantic Coast Conference Tournament were announced on Sunday.

Wake Forest won the bye by placing second during the regular season play. In the 2:00 p.m. game Maryland will face Clemson and then at 4:00 p.m. N. C. State will take on South Carolina. In the lone night game, Duke will play Virginia at 8:00 p.m.

In the Friday night action, Wake Forest will play the winner of the Clemson-Maryland game and the winner of the Duke-Virginia game will play the winner of the State-South Carolina clash.

On Saturday night the winner of those two games will meet to determine the conference champion and the ACC's representative to the NCAA tournament. The ACC representative will face St. John's in Madison Square Garden on Tuesday night following the ACC tourney.

Joining Moe and Heyman on the first team were Carolina's York Larese and Len Chappell and Billy Packer of Wake Forest. Of the best first five, only Packer was in trouble of making the top five as he edged out Howard Hurt of Duke by one point. The other four men were easy choices since each one has very good possibilities of being selected as an All-American.

The mythical squad was selected by the three man sports staff of the TECHNICIAN. Each member of the board voted for the top ten men in the order that they felt the player ranked in the conference with points being awarded on the basis of ten points for first choice, nine for second choice, etc.

The second best five in the conference was headed by Hurt. He was joined on the team by N. C. State's Ken Rohloff and

Scientific Computer Programming

WITH STL REPRESENTATIVES, ON-CAMPUS

MARCH 3, 1961

Challenging new problems in the areas of aerodynamics, celestial mechanics, tracking and trajectory analysis, systems simulation, and test evaluation require individuals with more than the usual inclination toward, and qualifications in, computer-oriented mathematics.

Space Technology Laboratories' Computation and Data Reduction Center, located in Southern California, is one of the nation's largest and most advanced computational facilities. Its staff members daily utilize two IBM 7090's and sophisticated data reduction systems to solve problems arising in the Air Force ballistic missile program and and space flight studies.

STL offers opportunity for: association with a superior technical staff headed by progressive management; participation in unusually challenging computation and data reduction problems; professional growth; and for advancement within a stimulating and creative environment.

Arrange for an on-campus interview by contacting your placement office, or, address your resume to: College Relations, Space Technology Laboratories, Inc., P.O. Box 95004, Los Angeles 45, California.

UPI News Briefs

WHALE OF A PROBLEM

HATTERAS, N. C. UPI—Burial and cremation haven't worked and residents of this North Carolina Outer Bank community are getting desperate.

Their problem is how to dispose of the carcass of a 47-foot whale which washed ashore a week ago. The whale was a curiosity a while, but now the residents want to get rid of it, especially before the wind changes.

TAKEN FOR RIDE

MILWAUKEE UPI—Roger Eckhardt took his dog for a ride and ended up with a bill for \$400 damage.

Eckhardt parked outside a store for a few minutes and left his German shepherd alone in the car. The dog jumped onto the front seat, kicked the auto into gear and sent it smashing through the store window.

GUNMAN REVIVES VICTIM

CHICAGO UPI—A gunman administered smelling salts to Mrs. Mildred Blake when she fainted after he had announced a robbery at her trailer park.

After reviving Mrs. Blake, the gunman asked where the money was.

"In the refrigerator," replied Mrs. Blake, who watched helplessly as the young robber fled with \$750.

HAS LITTLE CHANCE

TELL CITY, Ind. UPI—A farmer of this area may have difficulty convincing a court it wasn't his fault when his tractor crashed into the rear of a car.

The car was driven by a judge and the accident was witnessed by two Indiana state police troopers.

QUOTES FROM THE NEWS

NEW YORK—Police Commissioner Michael J. Murphy, on the man sought for the sex-slaying of 4-year-old Edith Kiecorius:

"No effort will be spared to bring this vicious degenerate to justice."

UNITED NATIONS, N. Y.—Congoese President Joseph Kasavubu, in a message to Rajeshwar Dayal of India, Secretary General Dag Hammarskjold's

personal representative in the Congo:

"He can place no credence in the integrity and honesty on which you pride yourself in view of the discreditable maneuvers in a message to Rajeshwar Dayal of India, Secretary General Dag Hammarskjold's personal representative in the Congo:

"We can place no credence in the integrity and honesty on which you pride yourself in view of the discreditable maneuvers in which you are continuously engaged and in view of the inaction of United Nations troops."

WASHINGTON—Speaker of the House Sam Rayburn, on President John F. Kennedy:

"President Kennedy has demonstrated that he can make decisions and make them quickly. He's already a young man of destiny. I think he's going to

Two Southern senators took opposing views Sunday on the question of whether President Kennedy's aid to education proposals will result in federal control of local schools. Sen. Allen J. Ellender, D-La., said his experience has been that controls gradually tighten as the federal share of money increases in big programs. He said federal aid also might be a foot in the door for classroom desegregation.

On the other hand, Sen. Ralph Yarborough, D-Tex., said local control of schools will be safeguarded under the Kennedy program for school construction

make a wonderful president. I really do."

NEW YORK—Magistrate Herman Weinkrantz, at the arraignment of former New York Giants baseball star Hank Thompson on armed robbery charges:

"You are a very serious disappointment to thousands of baseball fans in this city."

Kennedy Proposals

Education Issue Heats Up

The two southerners expressed their views on what may be the most hotly contested single issue of the Kennedy education program in broadcasts to their constituents.

A northerner, Sen. Harrison A. Williams Jr., D-N. J., took another tack in supporting the Kennedy plan to give states the option of spending aid for new buildings, higher teachers pay, or both.

Restricting aid to construction, he said, would be a form of indirect control that would rob states of the right and obligation to determine their own

and teacher pay increases. An even more basic issue—the question of extending aid nationwide rather than on a selective basis—was debated by Sen. William Proxmire D-Wis., and Arthur Motley, president of the U. S. Chamber of Commerce, on a television program.

Motley, publisher of Parade magazine, questioned the "shotgun approach in education." He suggested the government might handle the problem of needy school districts the way it helps areas hit by natural disasters, such as floods.

Proxmire said the platforms

of both parties agreed on a national education aid program. He said even well-to-do states had trouble raising taxes for schools because other states seeking industries often point to such increases in their sales pitches.

Ellender also raised the question of some aid going to all states, regardless of need. Kennedy proposed a basic payment supplemented by more money to states where more help is shown to be needed.

"In my humble judgment, any payments must be based upon need," Ellender said. "No state should receive federal funds if that state is capable of providing needs through taxation."

Lawrence Wolfe Receives Award From Borden Co.

Lawrence A. Wolfe, Jr., son of Mr. and Mrs. L. A. Wolfe of Bessemer City, has been awarded a \$300 Borden scholarship at North Carolina State College.

Wolfe is a senior in the School of Agriculture, majoring in agricultural business.

Dr. E. W. Glazener, director of instruction for the school, says Wolfe was selected for the scholarship because he has the highest scholastic average of any senior taking at least two courses in dairying.

562 PROGRAMS, PROJECTS & STUDIES AT HUGHES

THE DIVERSITY OF ELECTRONICS ACTIVITY AT HUGHES PROVIDES AN IDEAL ENVIRONMENT FOR THE GRADUATING ENGINEER OR PHYSICIST. THESE ACTIVITIES INCLUDE:

- Command Control and Information Processing
- Micro-Electronics
- Linear Accelerators
- Gamma Rays
- Nuclear Fission
- Remote Handling Devices
- Photoconductive Materials
- Electroluminescence
- Solid State Display Devices
- Terminal Communications
- Line-of-Sight UHF and VHF Relay Systems
- Air Traffic Regulation and Landing System
- Pincushion Radar
- Logi-Scale General Purpose Computer
- Radar Closed Loop Tester
- Missile-Range Ship Instrumentation
- Precision Trajectory Measurement System
- Space Vehicle Subsystems
- Telemetering Systems
- Radiation Sources, Detection, Handling Equipment and Effects Analysis
- Inertial Missile Guidance Systems
- Machine Tool Controls
- Microwave Tubes
- Transistors and Diodes
- Rectifiers
- Thermal and Magnetic Relays
- Crystal Filters
- Digital Components and Devices
- Plasma Physics Research
- Polaris Guidance Development
- Army/Navy Computer Systems
- Space Ferry
- Fixed Array Antennas
- Fire Control Radar Systems
- Pulsed Doppler Radar and Anti-Submarine Warfare
- Naval Tactical Display Systems
- 3-Dimensional Radar
- Air-to-Air Missiles
- Space Propulsion Systems
- Tunnel Diodes
- Infrared Devices
- Satellite Active Repeater Development
- Wide Band Scanning Antenna Feed Systems
- Microwave Antennas and Radomes
- Guidance and Navigation Computers
- Satellite Communication Systems
- Satellite Reconnaissance Drone
- World-Wide Communications Networks

ELECTRICAL ENGINEERS AND PHYSICISTS B.S., M.S. and Ph.D. (June and Summer Graduates)

Members of our staff will conduct

CAMPUS INTERVIEWS

MARCH 2, 1961

Find out more about the wide range of programs, unique Professional Register, advanced educational programs and relocation allowances offered by Hughes. For interview appointment or informational literature consult your College Placement Director. Or write Hughes College Placement Office, P.O. Box 90515, Los Angeles 45, California.
