By Frosh Diners Student Ultimate Values Discussed At YMCA

By Bill Jackson

The well-worn issue of Liberalism vs. Conservatism was discussed with renewed vigor at a dinner meeting at the State College YMCA last evening. The event was the third meeting of the Freshman Diners' Club members in their 1961 series. On hand to present their views on the topic "The State College Student and His Ultimate Values" were two articulate and perceptive faculty members, Prof. Herbert G. Eldridge, Jr., and Dr. Howard G. Miller. Prof. Eldridge is an assistant professor in the English Department; Dr. Miller is the head of the Psychology Department at State. The moderator for the debate was Tom Johnston, Assistant Coordinator of Religious Affairs.

The speakers were introduced by Jerry Jackson, a freshman from Middleburg, N. C., a member of the "Y" Freshman Council, the sponsors of the discussion series. Each professor presented his own views in a statement, and the floor was then opened to questions.

Prof. Eldridge, taking the side of the Conservative, classified State students as firm advocates of Conservatism principles. His description was based on student activity in several areas: dress, patriotism, and politics. Proper college clothes are generally conservative (remember Dad's hand-painted ties?). The student march supporting Ike's U-2 stand reminds one of "My country, right or wrong." The State students went for Conservative Richard Nixon last November. All of these examples were mentioned by Prof. Eldridge.

State students are not enthusiastic religionists, according to Prof. Eldridge; their suspicion of human nature does not stem from theological sources. The college student ac-

Feed Industry Course Planned By College

The 12th annual short course for field service men of the feed industry will be held March 2-3 at North Carolina State College.

The two-day course will feature latest information on livestock and poultry management, nutrition, disease control and prevention, and discussions of problems encountered by field service men.

Part of the course will be a joint program with veterinarians.

The short course will be sponsored by the Departments of Poultry and of Animal Industry at State College in cooperation with the College Extension Division and the N. C. Feed Manufacturers Association.

cepts without protest the established institutions—the family, the church, the school, and the car pool. To him all men are not created equal. Remember the high school football star and his glory? In college the gray goes to the 3.0+ brain.

Consequently the student's ultimate values are, and quite naturally so with his outlook, a strong desire for order, stability, status quo, social acceptance, and material goods. He is earnest, compassionate on the less fortunate, not overly ambitious and, unfortunately, complacent. Dr. Miller advanced the idea that the State College student is overly influenced by the principles of Conservatism. He was deeply distressed at the general lack of sensitivity on the part of the student and felt that a new liberal movement was greatly needed.

America's continued success since the eventful days of the Revolution were attributed to a strong liberal drive. Dr. Miller listed many examples of new ideas and new principles which had not only founded our country but also maintained its strength and vitality.

The Revolution itself was a product of Liberalism, according to Dr. Miller. The intense desire for individual freedom is one of the main liberal doctrines.

(See Frosh, page 4)

Sigma Pi Celebrates Annual Orchid Ball

By John Gettinger
The men of Sigma Pi Fraternity held their annual Orchid Ball last Saturday at the College Inn in Raleigh. The men started Orchid Ball weekend Friday afternoon and did not stop until Sunday night. A Playboy party Friday night started the festivities off very well, and the men were well on their way to a successful weekend. This was followed up by

to have early breakfast and party far into the morning.

Miss Ila Jean Widenhouse of Raleigh was the highlight of the banquet's program as she was crowned queen and presented with a silver tray and bowl by the brothers. However, there were other highlights such as the presentation of orchids and favors to all the dates present.

Dr. H. G. Kinchloe of the English Department spoke at the banquet and presented the brothers with an amusing story.

The Orchid Ball was termed a success by both brothers and alumni and it was stated that it will be long remembered by the brothers and pledges of Sigma Pi.

Miss Widenhouse

the traditional cocktail party Saturday afternoon at the lodge. Later that night the banquet and the ball were held at the College Inn. After the Ball everyone returned to the lodge

Spring Enrollment Figures Announced By Administration

The spring semester enrollment at North Carolina State College totals 5,949 students, according to the college's Division of Student Affairs.

A total of 209 students were graduated from the college at the end of the fall semester on January 30. Of these students, who will be awarded degrees at commencement exercises May 27, 156 qualified for the bachelor's degree, 42 will receive the master's degree, and 11 earned the degree of Doctor of Philosophy.

Notice

ATLANTIC COAST CONFERENCE TOURNAMENT TRAFFIC: N. C. State College is host to the Atlantic Coast Conference Basketball Tournament to be held in the Coliseum March 2, 3, 4, 1961. The presence of these visitors will add to the pedestrian and vehicular congestion about the campus, particularly on Thursday, March 2 when the only afternoon games will be played. Faculty, staff and students are requested to cooperate in lessening this congestion in all ways possible. It is suggested that you plan to eat the noon meal on campus on March 2 to avoid moving your car and getting involved in the heavy traffic.

NAACP Secretary To Lecture At CU

Mr. Roy Wilkins, executive secretary of the National Association for the Advancement

of Colored People, will speak at the State College Union on Sunday (March 5) at 8 p.m. in the Union's Ballroom.

Wilkins joined the staff of the NAACP in 1931 as Assistant Executive Secretary and while filling that position was also (1934-49) editor of *The Crisis*, the monthly magazine that is the official organ of the NAACP. From 1950 until his election as Executive Secretary, he served as Administrator.

Wilkins was chairman of the National Emergency Civil Rights Mobilization, composed of more than 100 national and local groups who sent 4,218 delegates from 33 states to Washington in January, 1950, in the interest of fair employment practice legislation (FEPC) and other civil

rights bills.

Wilkins was born in St. Louis, Missouri, but grew up in St. Paul, Minn., where he finished the public schools and was graduated from the University of Minnesota.

The NAACP has had an interracial membership and corps of directors and officers since its founding in 1909. The 1950 paid membership was 350,000 located in 1,200 branches and youth groups in 45 states and the District of Columbia.

The general public as well as the students of the schools in this area are cordially invited to attend this lecture by Wilkins.

The lecture is sponsored by the College Union Forum Committee under the chairmanship of Miss Dodie Clark of Garner.

Mr. Roy Wilkins

Citizens Protest School Polio Shots

(Columbia)—Some 35 doctors and mothers appeared at a public hearing of the Municipal and Public Affairs Committee of the House of Representatives in Columbia today to protest compulsory polio shots for South Carolina school children. The committee had reported out to the floor of the House with unanimous approval a bill by a polio victim, Representative Hugh Finch of Spartanburg... and then had it sent back for the public hearing. Several mothers, chiropractors, and the head of the State Board of Health's Division of Disease Control appeared to oppose the measure.

Moslem Nationalist Riot Staged During Strike

Oran, Algeria UPI—A Moslem mob rampaged through the streets of Oran Tuesday in a sudden nationalist outburst of burning and killing.

The rioters burned to death two elderly European women in their own car, killed a Moslem auxiliary policeman, injured three Europeans and set fire to at least four more cars.

Police said the mob deliberately imprisoned the women in their car until they died in the flames. Two male companions escaped, one burned seriously.

Police and soldiers imposed a tight curfew to head off further violence in this tense northwestern Algeria port city.

The outbreak came during a general strike called as a sign of mourning for the late King Mohammed V of Morocco, who was buried Tuesday in Rabat. The idle workers were demonstrating in the heart of the native quarter in support of the rebel Algerian National Liberation Front FLN when the violence erupted.

The crowd had worked itself into great excitement, shouting "Long live Algeria," when European Police Sgt. Antoine Martinez appeared. A Moslem demonstrator grabbed Martinez, ripped his pistol from its holster and shot him in the neck, seriously wounding him.

The shooting sent the mob of about 200 into a frenzy. They attacked the nearest cars on the Boulevard Mascari, setting fire to four that were not occupied.

The rioters hit the vehicle carrying two European women and two men. They overturned the car and set it afire. One of the men managed to get out. The others were trapped by the rioters.

A police patrol, attracted by shouts, rushed to the scene and dragged the male driver from the flames in grave condition but the two women had died in the flames. The victims were said to have been 51 and 55 years old, and their injured male companion 65.

Some reports said the mob carried cans of gasoline which its members used to set fire to the European cars.

The rioters continued their violence by stoning a European youth passing by on a motor scooter, injured a European child and killed a Moslem "Harki" auxiliary.

Helmeted riot police and mobile gendarme reinforcements arrived and battled with the demonstrators, tossing tear gas grenades and using clubs to break up the mob.

UPI News Briefs

By United Press International Ukrainian Communist official.

LEOPOLDVILLE — Three Congolese governments joined in a military alliance against the Community-supported forces of Antoine Gizenga. Congolese Premier Joseph Ileo, Katanga President Moise Tshombe, and south Kasai President Albert Kalonki pooled their 22,500 troops against the threat from Gizenga, successor to slain Patrice Lumumba. They also called for a meeting of all factions, including Gizenga, on Madagascar next month. G. Mennen Williams, assistant U. S. secretary of state for African affairs, called on President Joseph Kasavubu to relay President Kennedy's greetings and reiterate U. S. support of the United Nations in The Congo.

MOSCOW — Soviet Foreign Minister Andrei Gromyko will lead the Soviet delegation to the U. N. general assembly next month. The Tass announcement indicated Premier Khrushchev has given up his plans to visit the United States in the immediate future.

HAVANA — A terrorist bomb exploded in a school in the Vigora working class district, injuring 10 persons. Students immediately demonstrated outside the school demanding execution for the terrorists. Two youths, who apparently tried to assassinate No. 2 Cuban Ernesto Guevara Monday, face possible death penalties for killing a bodyguard.

MOSCOW — Ukrainian Premier Nikifor Kalchenko was removed from his post. He was criticized last month by Premier Nikita S. Khrushchev for agricultural short-comings in the Ukrainian republic. No new post was announced for Kalchenko, whose replacement is Vladimir Shcherbitskiy, a high

JERUSALEM — Premier David Ben-Gurion gave up his efforts to form a new government and asked for new elections. Ben-Gurion had been caretaker Premier since his resignation Jan. 31 over a dispute with former Defense Minister Pinhas Lavon. The elections were not expected before next October.

Comments From The Editor *Two-Party System?*

The spring elections are approaching the students at State College. The primaries are slated for April 13.

During the past five years, the students in the School of Agriculture have controlled the major offices. They have done this by constantly having someone in line for the top positions. We do not condemn the agriculture students for this. However, we think that it is about time for a change.

The two-party system would be a good move for the student body at State College. It would help create interest in campus political activities, and it would also be instrumental in teaching the students how a party system works in a practical sense.

State College is growing rapidly. Many of the colleges and universities the size of State have political parties in existence. These parties can have a definite effect on campus life.

Many of the critics on campus will ask the following question: "Will the party system be successful, or will it cause different groups on campus to form a clique, and be prejudiced against one another?"

The Student Government should look into this matter and consider both sides. We feel that it is time for the party system. Do you?

JB

Let's Cooperate

The Atlantic Coast Conference once again takes place on our campus this year at the William Neal Reynolds Coliseum. This tournament has caused confusion between the students and the fans in the recent years due to the parking problem at the coliseum. This year, the Traffic Office at State College is asking the students to refrain from parking in Coliseum parking lots. The fans that attend the game will not park in the area that is reserved for students around the dormitories.

The tournament belongs at State College, and we hope that you will cooperate with the Traffic Office during this three day period.

We would also like to say that there will be many visitors to our campus. Our actions during this period will be noticed by these outsiders. Let's leave a good impression with them when they leave the tournament.

This is just a reminder. It is not an order. We are proud of State College, and we want everyone that visits us to be proud of our students.

The College Union Scene

By Ann Smith

Summer Incident, a United States Navy film, is being presented in the College Union Theatre as the PANORAMA program for Friday (March 3). The film reproduces the crisis of the Beirut Lebanon incident during the summer of 1958. This is a true film of the men who were involved in the civil war threat to the government of Lebanon.

The College Union Outing Committee is sponsoring the Anniversary Square Dance on Saturday (March 4) at 7:30 p.m. in the College Union Ballroom. This dance will be square dancing only. There will be prizes awarded to the boy and girl who are dressed best for square dancing.

An over-night outing is being sponsored by the CU Outing Committee to Old Brunswick. Old Brunswick was one of the first towns in North Carolina. Some of the foundations of the old houses still stand today. Old Brunswick is located just a few miles north of Southport. Over-night lodging will be at Long Beach. Sign up deadline is noon Friday, March 3. A deposit of \$1 will be paid when you sign up, the balance of \$2.50 will be paid during the trip. Transportation and meals and lodging are included in the price. Please sign up at the College Union main desk immediately.

The week-end movie this week is *Destination Moon*, starring John Archer, Warner Anderson, and Tom Powers. *Destination Moon* is a realistic view of the perils and thrills that will meet those who first reach the moon. It shows the crushing effects that the rocket's rapid acceleration has upon its

human occupants in this thrilling science fiction film.

The CU Photography Committee is presenting a program on *Still-Life Photography for Photoscope* on Wednesday (March 1) at 7:30 p.m. Still-life technique includes most scientific and technical photography, as well as the more familiar pictorial studies printed in photography annuals. Technical photography is a valuable tool in industrial and government work, and engineers should not overlook the possibilities of putting their cameras to use.

Amateur photographers are invited to attend this demonstration.

The N. C. State Saddle Club will hold its monthly meeting Tuesday, March 7, at 7 p.m. in the College Union. Colored slides of horses will be shown and informative talks concerning horses will be given by some of the club members. Club business will also be discussed and reports will be given concerning the trailrides which the club members have recently taken part in. All students interested in joining are invited to attend.

ALL FACULTY AND STAFF MEMBERS of the college are especially invited to

Rambling Round

By Ann Smith

In last week's column, I made a few statements concerning the policy of the Financial Aid Committee located in Holladay Hall. In this week's column, I would like to relate to the students the true picture behind the Committee. Last week's column was written while I was not in the best of moods — I would like very much to apologize to the Financial Aid Committee for the remarks I made.

Financial aid includes *scholarships*—most usually provided by outside donors who frequently set the qualifications for recipients; *grants-in-aid*—funds for which come mainly from State College sources; *long-term loans*—the major fund being the National Defense Student Loan Program; *short-term loans*—usually amounts up to \$50 for thirty days from the Student Government Loan Fund, Engineering Loan Fund, and the Textile Loan Fund; and *part-time employment*.

North Carolina State College—like most other institutions—operates a financial aid program to meet the demonstrated needs of students who have a satisfactory academic and citizenship record.

Each year the college receives a large quantity of applications from enrolled and prospective students. These applications are carefully reviewed against the criteria outlined above. In general, students pursuing a program leading toward a degree, who make clearly satisfactory academic progress, and who have been good citizens in the college community will have their need met in some form.

In determining student needs, the college seeks to ascertain the potential resources of the applicant's family. Likewise, it considers that the applicant is potentially able to assist himself or herself to a certain degree from summer earnings, term-time earnings, or borrowing. If the resources of both the family and the applicant are judged insufficient to meet college expenses, the college will meet the difference in some form—provided the student fulfills all other qualifications. Limited resources prevent offering assistance to all who apply.

Within the limits of their best efforts, the committee seeks to join the club and to go horseback riding with the club. The club is for anyone who likes horses and likes to ride or who wishes to learn to ride.

(See WILKINS TO SPEAK, page 4)

first to determine how best to help each applicant. Any student at any time can apply for financial aid, although it is preferable that they do so well in advance of the period that they anticipate a need.

There may be some misunderstanding on the part of the public concerning the availability of help. The college's resources are modest—quite regularly they are exhausted. During certain periods in recent years, most of the funds regularly were depleted. With this circumstance in mind, the committee hopes all of the students will appreciate the careful consideration any application must receive before an award is approved.

One of the most critical issues facing higher education today is how to finance it. All students are urged to use every resource available, permitting the financial aid program, therefore, to provide aid to some who are incapable of securing all the funds required.

One service which the committee attempts to supply is in the form of counseling. Although it is not possible to offer outright assistance to each applicant, they have met with some success in directing them to other sources whose criteria may differ from the college's.

It remains the aim of the financial aid program to deal equitably with each and every student applicant. Please be assured that every student gains thorough consideration. Within the limitations of the funds available to the college, all sufficiently qualified student applicants receive some form of assistance. The Financial Aid Committee welcomes your interest in and concern for the program.

This information was received from the Financial Aid Office and if any students have any questions they would like to ask pertaining to financial aid, they are invited to take them to the Office in Holladay Hall.

Notice

The Intramural Department has been asked by the new gymnasium contractors to request that students refrain from using any facility in the building until it has been released to the college. This request is a reasonable one, and everyone should honor the wish explicitly by staying away from the building. You will be notified when the facility will be available for usage by the Department of Physical Education.

Cage Playoffs Start; Handball Stars Named

The first round of playoff games in the basketball tournament got underway this week. On Monday night, eight games were played with six of these games being in the open league section. Play will continue through this week, and the finals will be played on next Monday in all three tournaments.

In the first round of dormitory play Watauga stopped Syme 38-26 and Tucker #2 smashed WK4 61-40 to enter the semifinals. King and Yokely each scored 10 points to lead Watauga. Leading Tucker to their victory were Duncan, Lupton, and Daughtry with 16, 14, and 13 points respectively.

The All-Campus teams for both the dormitory and fraternity handball leagues were announced this past week. The dormitory squad consisted of Reynolds and Bushofsky of Bragaw South in singles and Burton and Kale of Bragaw South as the doubles team.

The fraternity selections were Williamson of SAM and Skidmore of PKT for singles, and the doubles team was Cohen and Altman of SAM.

All athletic directors are reminded that Table Tennis will

begin on Tuesday, March 7. The tables will be available for practice at the Frank Thompson gym.

The standings includes games through Monday night. The averages include games through last week but do not include any of this week's matches. To qualify for the top ten average a bowler must have rolled at least six games.

Duke And Wake Forest Top ACC Scoring Race

GREENSBORO, N. C., Feb. 28 (UPI)—Duke and Wake Forest, which enter the Atlantic Coast Conference's championship tournament Thursday as the top favorites, are the highest scoring basketball teams the ACC has produced since 1957 and the best field goal shooting combination in the history of the conference.

The ACC hasn't had a team which has averaged 80 points a game since 1957. Through the 1960-61 regular season, Wake Forest has averaged 81.3 points a game, Duke 81.0.

The ACC record for field goal accuracy over a full-season is 46.0 per cent, set by the Wake Forest team of 1955. And ACC service bureau figures through all regular season games shows that the Blue Devils are hitting 47.8 per cent from the floor,

Wake Forest 46.5 per cent, and both are ahead of the record pace.

Maryland's Terrapins carry the best free throw shooting mark into the title showdown in Raleigh, having made 73.5 per cent from the foul line during the regular season. South Carolina ranks second in free throw accuracy at 72.3 per cent. North Carolina tops defense with an average yield of 65.7 to Maryland's 66.0.

North Carolina State's Wolfpack, which is considered a tournament dark horse, leads the conference in team rebounding with an average of 51.2 recoveries a game. Although not quite as accurate as Duke and Wake Forest from the floor (43.3 per cent), North Carolina State nevertheless has been more accurate from the foul line, making 68.9 per cent to 64.5 per cent for Duke and 67.5 per cent for the Deacons.

Graphic evidence of the improved shooting ability of ACC cagers is the fact that seven of the eight teams completed the regular season with field goal averages of 40 per cent or better. Five of them are hitting 42 per cent or better whereas last season only one ACC team managed to beat that shooting average.

North Carolina, which withdrew voluntarily from the ACC tournament, finished its season with the ACC's best average margin over the opposition, exactly 11 points a game. Duke has outscored its foes an average of 9.3 points a game.

Iowa Set For '65

RALEIGH, N. C., FEB. 28 (UPI)—North Carolina State of the Atlantic Coast Conference today signed to play Big Ten representative University of Iowa during the 1965 football season.

The announcement of the signing for the inter-league game was made jointly today at Raleigh by Wolfpack Athletic Director Roy Clogston and at Iowa City by Athletic Director Forest Evashevski.

The football game will mark the first time the two schools have met in any sports event.

The last time a Wolfpack team played a representative from the Big Ten region was in 1929 when N. C. State lost to Michigan State, ending a three-game series with the Spartans. The Big Ten was not in existence at that time.

Major League Briefs

By United Press International

WEST PALM BEACH, Fla. UPI—Pitcher Ray Herbert finally signed his 1961 contract with the Kansas City Athletics Tuesday after a brief conference with general manager Frank Lane.

The 31-year-old right hander, who had a 14-15 record last year, was the last member of the A's to sign. Terms of the contract were not revealed.

MESA, Ariz. UPI—Ron Santo, rookie find of the Chicago Cubs at third base last year, gave indications Tuesday that he is not bothered by the sophomore jinx.

More than 10 pounds lighter than at the end of the 1960 season he featured the second full squad workout by cracking line drives to all parts of the park.

LAKELAND, Fla. UPI—Veteran outfielder Carley Maxwell signed his contract with the Detroit Tigers Tuesday only an hour before the team officially launched its spring training program under new manager Bob Scheffing.

Maxwell, who will receive the same \$26,000 he got last year, said he didn't sign earlier because he was slightly "confused" by the terms of the contract.

The Tigers opened full scale drills with only one holdout—rookie outfielder George Alusik, who hit .329 at Denver last year. He has turned down three contract offers. Another absentee was shortstop Chico Fernandez, who also missed last year's camp opener.

SARASOTA, Fla. UPI—Luis Aparicio, baseball's greatest holdout siege Tuesday when he signed his 1961 contract for a

five shortstop, ended his brief salary estimated at \$44,000.

Aparicio agreed to terms after a brief conference in the bleacher seats with vice president Hank Greenberg while his White Sox mates already had begun their second day's workout.

Aparicio, who was forced to sit out Monday's opening practice, then donned a uniform and joined his mates. Tony Roig, veteran infielder drafted from Spokane, also straightened out some slight contract differences with Greenberg and followed Aparicio onto the field.

SPACE TECHNOLOGY LABORATORIES

INVITES

Mathematicians & Physical Scientists

TO DISCUSS CAREERS IN

Scientific Computer Programming

WITH STL REPRESENTATIVES, ON-CAMPUS

MARCH 3, 1961

Challenging new problems in the areas of aerodynamics, celestial mechanics, tracking and trajectory analysis, systems simulation, and test evaluation require individuals with more than the usual inclination toward, and qualifications in, computer-oriented mathematics.

Space Technology Laboratories' Computation and Data Reduction Center, located in Southern California, is one of the nation's largest and most advanced computational facilities. Its staff members daily utilize two IBM 7090's and sophisticated data reduction systems to solve problems arising in the Air Force ballistic missile program and space flight studies.

STL offers opportunity for: association with a superior technical staff headed by progressive management; participation in unusually challenging computation and data reduction problems; professional growth; and for advancement within a stimulating and creative environment.

Arrange for an on-campus interview by contacting your placement office, or, address your resume to: College Relations, Space Technology Laboratories, Inc., P.O. Box 95004, Los Angeles 45, California.

Frosh Discuss Values

(Continued from page 1)

The Western Movement was another period of new ideas and new traditions. Out west each man was judged as an individual, not as a product of a fixed social system.

The Civil War was cited as an example of the struggle in our country between Liberalism and Conservatism. The forces of the South, seeking the preservation of the status quo, were in direct conflict with the more liberal ideas of equality and individual dignity.

Immigration, the growth of American business, the development of progressive education—all were listed as products of liberal thinking.

The ultimate values of the State student, then, should be the result of his own thinking and not that of society. As new ideas and viewpoints develop, the individual should act as an individual and adjust his values accordingly, said Dr. Miller.

Everyone present seemed to agree on one thing: that the seriousness of the current world situation provides an excellent stimulus to review carefully the qualities of Liberalism and Conservatism. These lines cross on many issues; the boundaries are not always sharply drawn. Like political parties, both groups believe in progress; the difference lies in the means to the end.

Wilkins To Speak

(Continued from page 2)

The Arts and Crafts Contest is now open to all College Union members and their families. All entries will be in one of four categories — ceramics, metal craft (which includes copper tooling, copper enameling, and metal etching), lapidary, and woodworking.

Craft Shop purchase cards will be given as prizes—three two dollar cards and four fifty cent cards.

Items made for class may not be entered in the contest. The CU Hobby Committee will have the right to reject any item

which does not meet with their approval. Entries should be made as soon as possible to the CU Craft Shop.

Mr. Roy Wilkins, executive secretary of the NAACP will speak at the College Union on Sunday (March 5) at 8 p.m. in the Ballroom. The general public as well as the students of the schools in this area are cordially invited to attend this lecture by Wilkins.

WORDS: THEIR CAUSE AND CURE

Today let us take up the subject of etymology (or entomology, as it is sometimes called) which is the study of word origins (or insects, as they are sometimes called).

Where are word origins (insects) to be found? Well sir, sometimes words are proper names that have passed into the language. Take, for instance, the words used in electricity: *ampere* was named after its discoverer, the Frenchman Andre Marie Ampere (1775-1836); similarly *ohm* was named after the German G. S. Ohm (1781-1854), *watt* after the Scot James Watt (1736-1819), and *bulb* after the American Fred C. Bulb (1843-1912).

There is, incidentally, quite a poignant little story about Mr. Bulb. Until Bulb's invention, all illumination was provided by gas, which was named after its inventor Milton T. Gas who, strange to tell, had been Bulb's roommate at Cal Tech! In fact, strange to tell, the third man sharing the room with Bulb and Gas was also one whose name burns bright in the annals of illumination—Walter Candle!

The three roommates were inseparable companions in college. After graduation all three did research in the problem of artificial light, which at this time did not exist. All America used to go to bed with the chickens. In fact, many Americans were chickens.

Well sir, the three comrades—Bulb, Gas, and Candle—promised to be friends forever when they left school, but success, alas, spoiled all that. First Candle invented the candle, got rich, and forgot his old friends. Then Gas invented gas, got rich, bankrupted Candle, and forgot his old friends. Then Bulb invented the bulb, got rich, bankrupted Gas, and forgot his old friends.

They became fast friends all over again

Candle and Gas, bitter and impoverished at the age respectively of 75 and 71, went to sea as respectively the world's oldest and second oldest cabin boy. Bulb, rich and grand, also went to sea, but he went in style—as a first-class passenger on luxury liners.

Well sir, strange to tell, all three were aboard the ill-fated Lusitania when she was sunk in the North Atlantic. And, strange to tell, when they were swimming for their lives after the shipwreck, all three clambered aboard the same dinghy!

Well sir, chastened and made wiser by their brush with death, they fell into each other's arms and wept and exchanged forgiveness and became fast friends all over again.

For three years they drifted in the dinghy, shaking hands and singing the Cal Tech rouser all the while. Then, at long last, they spied a passing liner and were taken aboard.

They remained fast friends for the rest of their days, which, I regret to report, were not many, because the liner which picked them up was the Titanic.

What a pity that Marlboros were not invented during the lifetimes of Bulb, Gas, and Candle! Had there been Marlboros, these three friends never would have grown apart because they would have known how much, despite their differences, they still had in common. I mean to say that Marlboros can be lit by candle, by gas, or by electricity, and no matter how you light them, you always get a full-flavored smoke, a filter cigarette with an unfiltered taste that makes anyone—including Bulb, Gas, and Candle—settle back and forget anger and strife and smile the sweet smile of friendship on all who pass!

© 1961 Max Shulman

Another peaceful smoke from the makers of Marlboro is the brand-new unfiltered king-size Philip Morris Commandef. Try one soon and find out how welcome you'll be aboard.

One of the best investments you'll ever make...

You know what you invest in advanced ROTC . . . two years of classroom time and outside study.

But just see how handsomely your investment pays off.

First and foremost, there's the proud moment in Graduation Week when the gold bars of a Second Lieutenant are pinned on your Army uniform . . . and deep inside the warm sense of accomplishment at having made it.

There's immediate help in meeting expenses

. . . a subsistence allowance of \$535 for the two-year advanced ROTC course. Uniforms and military textbooks paid for. \$117 for your six-week summer camp training, plus travel allowance. And when you're commissioned, a \$330 uniform allowance.

You discharge your military obligation with the traditional rank, pay, privileges and responsibilities of an officer in the United States Army.

And later, when you're starting your climb

up the civilian ladder, advanced ROTC will still be paying off. Success in the executive areas of business and industry comes earlier and more substantially to the man who can lead. Few are born leaders; but leadership can be learned. And advanced ROTC is a great place to learn it.

Talk with the Professor of Military Science at your school. Learn more about advanced ROTC. Ask particularly about the ROTC course in Leadership, with its practical experience in command responsibilities.
