Orientation Chairman

Tolson Nominated For Student Government Pres.

Norris Tolson recently announced his intentions of running for the presidency of the Student Government in a statement prepared by his campaign manager, Sandy Matthews. In a statement to *The Technician*, Matthews said:

"I would like at this time to endorse as my candidate for the president of the Student Body, Norris Tolson, a rising senior in the School of Agriculture. The 1961-62 school year will be a vital and challenging year for the student body and I want to bring before the students the name and qualifications of the man whom I believe most capable of leading the State College Student Government.

"Norris Tolson is a true leader." (See Tolson, page 4)

Tolson's Statement

Tolson made the following statement concerning his candidacy.

"North Carolina State College has been blessed with excellent leadership in the past and as a result possesses one of the foremost student governments in the country today. In announcing my candidacy for president of the Student Government, I recognize the heritage of outstanding leadership and if elected to office I shall strive to attain the same supreme qualities of leadership that have been displayed by past officers.

"I am firmly convinced that

any man seeking an office on this campus should be service minded, willing to sacrifice in order to serve his school, and mindful of the necessities and

Norris Tolson

obligations of the office he seeks. The man who can offer the above qualities to this student body deserves the vote and support of the students.

"I do now pledge my continued service to North Carolina State College, to the aims and ideals of the student body, and to the complete support of the many programs of the Student Government."

Theta Tau Names Five New Officers; Plans Fair Booth

Rho Chapter of Theta Tau, holding its annual election of officers on March 8, 1961, chose the five men who will lead State's professional engineering fraternity through the next year.

Heading the list is Jim Hackney of Washington, N. C., who was elected Regent. Burke Ellis of Winston-Salem was chosen Vice Regent; Julius Brauer of Norlina holds the position of Scribe. Van Noah of Raleigh is the new Treasurer, and Wendell McGee of Kernersville was elected Corresponding Secretary.

Theta Tau is a professional engineering fraternity of college students; its goals are the stimulation of interest in the engineering profession and the promotion of fraternal fellowship among its brothers. In addition to a number of social functions each year, Theta Tau carries out several projects of service to the school. Projects in the near future include the annual Theta Tau Information Booth at the Engineers' Fair.

Rho Chapter has also selected a pledge class of seven engineering students who will join the brothers later in the spring at a formal initiation. These men represent the qualities which are compatible with the traditionally high standards of character of Theta Tau members.

Theta Tau has enjoyed an excellent year, and it is hoped that an even better one will follow.

Governor Sanford To Speak At Gardner Awards Dinner

Governor Sanford will deliver the first major address on higher education since his inauguration at the 13th annual Oliver Max Gardner Award Dinner in the main ballroom of the North Carolina State College Union Building next Wednesday (March 22) at 6:30 p.m.

The 1961 winner of the Gardner Award also will be announced during the dinner program, which will attract several hundred faculty members from Woman's College in Greensboro, the University of North Carolina in Chapel Hill, and North Carolina State College here.

President William C. Friday of the Consolidated University of North Carolina will preside.

Presenting the award will be former Lt.-Gov. H. P. Taylor of

Wadesboro, chairman of the Gardner Award Committee of the Consolidated University's Board of Trustees.

The invocation will be spoken by Dr. John T. Caldwell, Chancellor of State College.

The entire program will be televised over WUNC-TV, channel 4, from 7:45 until 9 p.m.

The Oliver Max Gardner Award will be presented to the member of the faculties of the Consolidated University of North Carolina who, in the judgment of the Board of Trustees, "has made the greatest contribution to the welfare of the human race" during the current academic year.

The recipient's name is always a closely-kept secret until the time of the presentation.

Under the terms of the will of the late Governor Gardner, the award is given each year to a member of the faculties of the Consolidated University.

The award carries a cash grant from the income of \$25,000 which was placed in trust by Governor Gardner, a 1903 graduate of State College who later earned a law degree from the University in Chapel Hill.

The award was won last year by Dr. Richard Current, head of the Department of History and Political Science at Woman's College, who is a nationally-known Lincoln scholar and Civil War authority.

Other award recipients since the honor first was given in 1949 have been Louise Brevard Alexander, Woman's College, 1949; Robert Ervin Coker, UNC, 1950; Donald Benton Anderson, State College, 1951; Albert Coates, UNC, 1952; Howard Washington Odum, UNC, 1953; Franklin Holbrook McNutt, Woman's College, 1954; Gene Payne Metcalf, State College, 1955; Merib Sthna Mossman, Woman's College, 1956; Dr. Warner L. Wells, UNC, 1957; Dr. C. Horace Hamilton, State College, 1958; and Prof. Gertrude M. Cox, State College, 1959.

SG Committee Announces General Election Rules

General rules concerning the spring elections were announced recently by John T. Kanipe, Chairman of the Campus Elections Committee. Nominations for campus offices are made in room 207 Holladay Hall.

The nominations book should contain the candidate's full name, campus address and home address, curriculum, and the way he wishes his name to appear on the ballot. The book must be countersigned by another State student.

Students may not run for more than one student government office and one class office. All campus positions will be decided by a majority vote except senators, who will be selected by plurality.

A meeting of all nominees will be held April 10, at 7:00 p.m. in the Student Government office in the College Union in

order to have the candidates' position, name on ballot, etc. determined.

The polls will be open from 8:00 a.m. to 6:00 p.m. April 13. Finals will be held April 20. No candidate may campaign

(See Election, page 4)

Yale Scholar Slated For Faculty Lectures

A Yale University theologian and scholar will deliver the annual Faculty Lectures on Religion at North Carolina State College Tuesday through Thursday, March 21-23.

He is Dr. B. Davie Napier, Holmes professor of Old Testament in the Yale Divinity School.

In addition to the three faculty lectures, Dr. Napier will hold three student lectures on the same days at 5:45 p.m., also in the cafeteria.

The faculty gatherings will be luncheon meetings and the student lectures will be dinner meetings. Following all sessions, the speaker will answer questions.

Theme of the faculty lectures is "Man, Time, and Event in the Old Testament." The three subjects to be discussed are "Problems of Approach," "The Nature of the Record," and "Prophet and Prophecy."

"The Nature of Biblical Faith" will be the theme of the student lectures with the individual topics including "Faith and Protestantism," "Faith and Existence," and "Faith and a Broken World."

Dr. Napier, an ordained Baptist minister, joined the Yale faculty in 1949 and was promoted to full professorship in 1956.

In addition to writing and delivering sermons and lectures, the Yale professor has spent some time in Heidelberg, Germany, on a Fulbright Act exchange grant doing research on

form-criticism and on the interpretations of "Genesis".

He spent a month in Palestine visiting several current archaeological "digs" and participating briefly in the activities of the American School of Oriental Research in Jerusalem.

Born of missionary parents in China in 1915, Dr. Napier received his B. A. degree from Harvard College, and B. D. and Ph. D. degrees from Yale University.

He has served as chaplain and chairman of the Department of Religion at Alfred University, later transferring to the University of Georgia in similar capacities.

Dr. Napier has written several articles that have appeared in religious and professional journals.

The Yale professor is married and he and his wife have two children.

The lectures will be sponsored by the Protestant Chaplains' Council and the State College Young Men's Christian Association.

-Notice-

The Technician Staff asks that all campaign speeches and announcements be typewritten—sixty-two character lines, double-spaced. Since the staff is so undermanned, it will not promise to run any article not submitted in this way.

Genetics Meet Planned Here

Some 225 of the world's top quantitative and statistical geneticists, and plant breeders will attend an international symposium on Statistical Genetics and Plant Breeding at North Carolina State College Monday through Friday, March 20-24.

Plans for the symposium were announced Thursday (March 16) by Dr. H. F. Robinson, head of the college's Department of Genetics.

The symposium, sponsored by the Agricultural Board and its Committee on Plant Breeding and Genetics of the National Academy of Sciences, National Research Council, will be followed by a workshop conference, March 27-29, also to be held at the College.

Some 175 of the persons planning to attend the symposium are from outside State College and about 40 of the participants are from foreign countries.

Arrangements for the symposium were made by the Committee on Plant Breeding and Genetics, of which Dr. E. P. Murphy of Cornell University is chairman. Other committee members are Drs. R. A. Brink of the University of Wisconsin, F. L. Patterson of Purdue University, W. R. Singleton of the University of Virginia, G. F. Sprague of the U. S. Department of Agriculture, and Dr. Robinson of North Carolina State College.

As part of its activities, the Committee on Plant Breeding and Genetics is sponsoring this symposium for statistical geneticists and plant breeders.

Primary aims of the symposium are to provide a review of statistical genetics theory and philosophy, the integration of new statistical genetics developments with plant breeding problems and practice, and the development and fostering of an appreciation of the mutual advantages to be derived from a

Army ROTC To Hold Federal Inspection

The annual federal inspection of the ROTC Army Brigade will take place on Monday and Tuesday, March 20 and 21.

The inspectors will arrive at the Department of Military Science at 0800 hours on Monday for a briefing by Col. Merriam, Professor of Military Science, and a meeting of the detachment personnel. During the day, there will be a briefing by the Cadet Brigade Staff, a conference with Chancellor Caldwell, and inspections of Arms, Administration, and Supply activities. On Tuesday there will be an open ranks inspection of the Cadet Brigade and observation of the classes.

joint attack upon problems of major importance.

The symposium will receive financial support from the United States Atomic Energy Commission, the National Institutes of Health, the National Science Foundation, and the Agricultural Research Service of the United States Department of Agriculture.

The first session to be held in Williams Hall Monday (March 20) at 9:15 a.m., will be opened by a welcome to North Carolina State College by Dr. John T. Caldwell, State College Chancellor.

Among the symposium topics are "Modes of Reproduction and Their Genetic Parameters," "Concepts and Definition in Relation to Selection Schemes," "Biological Interpretation of Statistical Genetic Parameters," "Cross Fertilizing Plants," "The Partitioning Method of Genetic Analysis and some Aspects of Its Application to Plant Breeding," and "With Drosophila and Mice."

During the evening sessions several volunteer scientific papers will be presented by members of the group attending the symposium.

The three-day workshop conference will feature discussions of "Problems in Selection," "Quantitative Genetic Studies

(See Genetics, page 4)

A Vital Issue

In several weeks the North Carolina State Legislature will deliberate an issue which is vital to State College students. There is a bill before the Assembly proposing a yearly tuition increase, in all state-supported colleges, of twenty-five dollars for in-state students and one hundred dollars for out-of-state students.

We feel that an increase in tuition would constitute a complete break with the philosophy of state-supported higher education, whose basic purpose is to provide quality education at the lowest possible cost. The land-grant college movement should strive toward the situation in which no student who shows reasonable interest and ability would be refused a college education for financial reasons.

Although State College is in dire financial need in many areas, it cannot afford to add to the heavy monetary burden of the student body. Though the increased intake would be used partly for student financial aid (and partly for teachers' salaries and the library) the overall effect would be to take more from the student financially than he would receive in additional aid.

Of the approximately 1300 students receiving some form of financial assistance from the college, many find this aid inadequate to cover their expenses. There is also a large body of marginal students for whom no aid is available. These students, existing on a strictly nominal budget, would be placed in an untenable position. In addition, a number of prospective new students would be deterred from seeking enrollment at State College. We feel that this loss of both prospective and enrolled students is too great a price to pay.

It seems certain that this proposal, if passed, will set a precedent for further tuition increases in land-grant colleges. We feel that this trend should not be initiated in the North Carolina educational system, that the increased funds should come from sources other than the student.

In our viewpoint on the proposed tuition increase, we are expressing the feelings of the college administration and of the Student Government Legislature, who Thursday night passed a resolution recommending "that all possible action be taken to assure nothing will be added to the present financial burden of the student body."

Off The Cuff

By Sunshine Jack

Allow me to introduce myself: My name is Sunshine. I'M 160 pounds of hell-rell, romping-stompin' Romance; A return of the late Don Q.

I hope all of you will be down at Myrtle for the Sunrise services. Norchit and I are going. Behold, bothus. Yes, verily. We're going to cruise it down there with a couple of mooses. When I say moose, I am not referring to any of those female types here on campus. They are a different type of animal altogether. If I'm lucky, I might even get stepped on by an elephant. Anyway, gather up your palm leaves and come on down Friday.

I just heard that Russia is now claiming the invention of the Cotton Gin. They say that it makes a real wierd martini.

You students over in the graduate Chemistry dept. better quit sneaking that Ethyl alcohol. Everclear is better, and it's sm ooo th. If any of you non Bourbon boys want a dry one . . . that's so dry that you have to dissolve it in water to get it to come out of the bottle. I had

to quit it; it made my legs numb.

New version: Toredoro, Toredoro, Who kicked the hole in the bathroom door? Huh! Norchit. Norchit is really just figment of my distorted mind. I hope that the Judy Board thinks the same.

I understand that the A & P store across from the C. U. is really doing some fine business from the State college wino's. What do you expect for 63¢ a quart?

We've got some real musicians over here on the second floor. Norchit even used to play the organ in church. I always did think the boy was kind of spastic.

A poem . . .

Little boy norchit
put his hand in his porchit
I told you he was spastic.

You people aren't really going to get to read all the choice items of this tale. The Editor made with the shears.

I don't care if you design students go "Where the boys are," but the rest of you come on down to the Pad and let's get amongst them.

NOTICE

Anyone interested in working on either the business or editorial staff for the remainder of the school year and next year are urged to come by The Technician offices in the 1911 Building. Those desiring to work on the paper are requested to come by after 7:00 p.m. any Sunday, Tuesday, or Wednesday night. We hope that those that have had experience in newspaper writing will come see us. However, no experience is needed. We will train the individual.

Several faculty changes and five new faculty appointments were announced by Chancellor John T. Caldwell.

Approval of the changes was made by President William C. Friday and the executive committee of the Consolidated University's Board of Trustees at a meeting in the Governor's office.

During the meeting leaves of absence for five faculty members and the continuation of a leave of absence for a professor were approved. Also four faculty resignations were accepted.

NEW FACULTY MEMBERS

Edward Carroll Sisler, assistant professor of field crops and chemistry; David Harry Timothy, associate professor of field crops; Willard Harrison Bennett, Burlington professor of Physics; Wayne B. Swift, professor of electrical engineering and Paul Zung-Teh Zia, associate professor of civil engineering.

Dr. Sisler, whose duties fall both in the School of Agriculture and the School of Physical Sciences and Applied Mathematics, is a native of Friendsville, Md. He comes to State College from the Smithsonian Institution where he was a biochemist and plant physiologist.

Dr. Sisler, who is single, received his B. S. degree from the University of Maryland and his M.S. and Ph.D. degrees from State College.

Dr. Timothy, a native of Pittsburgh, Pa., will be associated with the School of Agriculture. His B.S. degree was granted from Pennsylvania State University and he earned his M.S. and Ph.D. degrees from the University of Minnesota.

The Pennsylvania native is presently in Bogota, Columbia, where he is an associate geneticist with the Rockefeller Foundation. He is married and he and his wife have two children.

Coming to State College from Washington, D. C., Dr. Bennett will join the School of Physical Sciences and Applied Mathematics. He is currently head of the Atomic Physics Branch and consultant of the Electronics Division of the Naval Research Laboratory.

Dr. Bennett received his B.S. degree from Carnegie Institute of Technology, his Sc. M. degree from the University of Wisconsin, and his Ph. D. degree from the University of Michigan.

A native of Findlay, Ohio, Dr. Bennett is married and he

and his wife have three children.

Dr. Swift, who will be associated with the School of Engineering, is presently an associate professor at the University of Wisconsin.

Born in Lincoln, Neb., Dr. Swift received his B.S. degree from the University of Nebraska, his M.S. degree from Kansas State College, and his Ph.D. degree from the University of Wisconsin.

Dr. Zia, a native of Ciangsu, China, will be associated with the School of Engineering.

He was educated at National Chiao Tung University, Shanghai, China, where he received his B.S.C.E. degree; the University of Washington where he earned his M.S.C.E. degree; and the University of Florida where he received his Ph.D. degree.

LEAVES OF ABSENCE

Charles H. Hill, professor of poultry science, who will be a guest investigator at the Rockefeller Institute.

Emol Atwood Fails, Associate professor of economics, for private research.

Bert Howard Garcia, Jr., associate professor of mechanical engineering, for study towards his doctorate at Virginia Polytechnic Institute.

George Wallace Giles, professor of agricultural engineering, for an assignment with the Rockefeller Foundation.

And Edwin Lawrence Miller, Jr., associate professor of mineral industries.

Jose Oscar Lamml, professor of forest management, was granted a continuation of a leave of absence for work with the FAC in Switzerland.

Resignations accepted include: John Bernard Gartner, professor of horticulture, to accept a position at the University of Illinois.

William Terrell Millis, assistant professor of agricultural engineering who has accepted employment with the Lilliston Implement Company, Albany, Ga.

William Andrews Newell, director of research in the School of Textiles, who has accepted a position with Whittin Machine Works in Massachusetts.

And John Caswell Williams, Jr., assistant professor of field crops, who has accepted a position at the University of California at Davis.

Pack Faces Dartmouth Tues. In Second Game

North Carolina State's 1961 baseball season this afternoon with Dartmouth College. The same two teams will meet tomorrow afternoon on the State diamond.

The probable starting lineup for the Pack will include Roman Gabriel and Ray Perry in the outfield. The other outfield post will go to either Jerry Cordell or Don Montgomery. These two boys are presently first base candidates, but Coach Vic Sorrell said that he would start one

at first, but he wasn't sure which would start where.

At this third base, Sorrell is expected to go with Les Young, a sophomore. Sorrell expressed doubts about Young's hitting strength and said either Ken Easterling or Perry might play some third base.

At shortstop the number one man for the starting assignment is Wayne Edwards. Edwards is a junior and won a letter at this spot last season.

At second base, Vernon Strickland will probably hold down the starting job. Strickland is a junior and lettered at third base last year, but Sorrell moved him to second this year to fill the empty shoes of All-ACC Jim Cox.

At first base will be either Cordell or Montgomery. Behind the plate will be George Hayworth. Hayworth has been very impressive in pre-season drills and Sorrell has termed him as the best sophomore backstop that State has had in sometime.

On the mound for the Wolfpack will be either Joel Gibson or Wilson Carruthers. One of the two was to pitch today with the other to draw the starting nod for tomorrow's tilt.

After the game with Dartmouth tomorrow afternoon, the Pack will be idle until March 29 when they face Colby College. They will play Maryland on the 30th and Ohio University

DiStefano Paces Victory

North Carolina State's Bob "Moose" DiStefano paced the Atlantic Coast Conference All-Stars to a 97-77 win over the All-Stars of the Southern Con-

ference in Richmond Saturday night.

DiStefano tossed in 17 points in the first half and added eight more in the second stanza to pace the ACC scoring with 25 points. In addition to his fine scoring effort, DiStefano pulled down 10 rebounds. DiStefano teamed with Howard Hurt, Carroll Youngkin, Doug Kistler, and John Frye of Duke to run

Thompson. Each umpire will get \$1.50 per game.

There will be a meeting of all persons interested in participating in the N. C. S. Rod-and-Gun meet Tuesday, March 21, at 7:30 p.m. in Frank Thompson Gymnasium. Dates for the meet have been set for April 12, 13, and 14. Skeet, skish, archery, and target rifle competition will be held.

the ragged Southern Conference to death.

On the strength of DiStefano's brilliant burst of points in the first half, the ACC group moved out to a 47-40 halftime advantage and then moved away in the second half to win the game easily.

DiStefano handled the big men of the Southern Conference very well. He outscored both Cris Smith and Jeff Cohen, who are regarded as two of the best in the Southern Conference. The high man for the SC All-Stars was Dick Markowitz with 18 points. Second in the SC scoring was Cohen with 14.

Other big scorers for the ACC were Hurt with 17, Youngkin with 16, and Frye and Kistler with 13 apiece. The leading rebounder for the game was Smith of VPI with 18. Second in this department was Youngkin with 13.

NOTICE

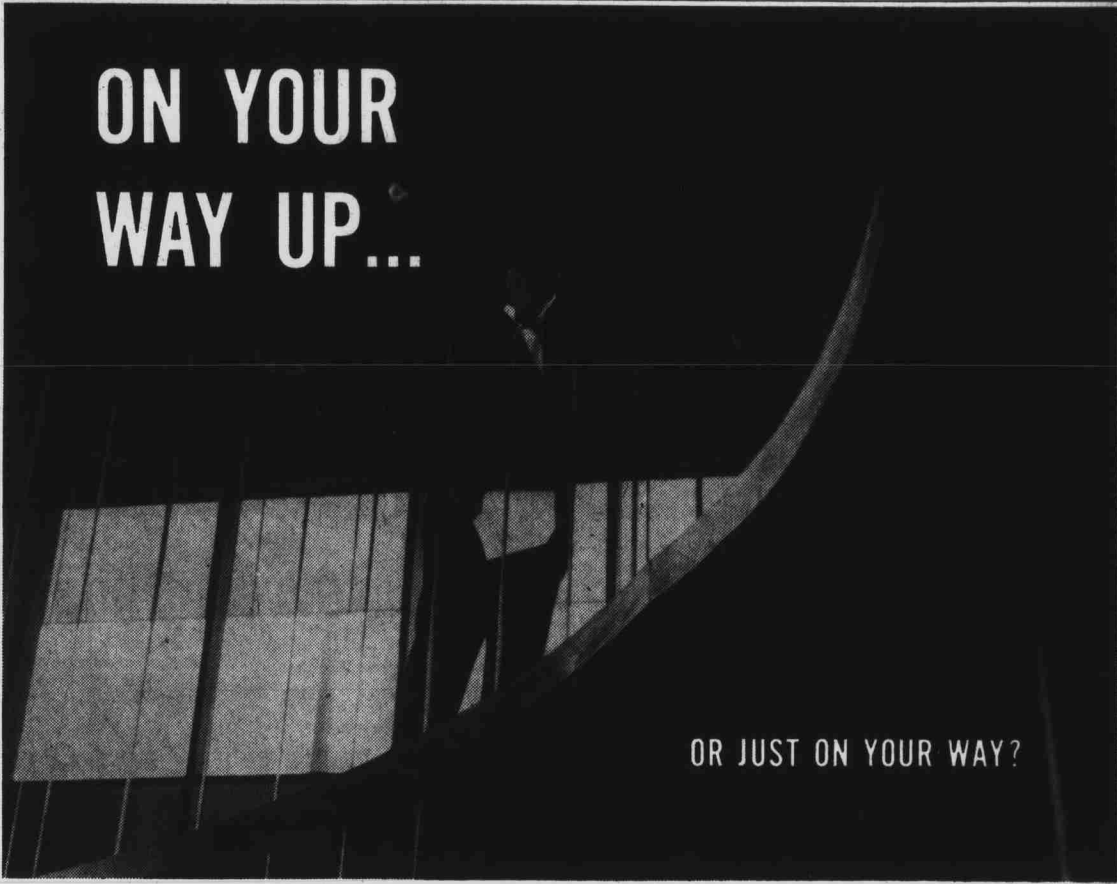

Any student who plays in the softball Open League will also be eligible to play on their dormitory or fraternity team. The games in the Open League will be played on Friday afternoon at 4:00.

Thirty umpires are needed for the intramural softball schedule that opens March 20. All persons how are interested are urged to get in contact with the intramural office in Frank

on the 21st. They will conclude their Easter vacation slate with Washington & Lee and West Virginia on April 1 and 3.

Tolson's Candidacy

(Continued from page 1)

er in every sense of the word; he has proved his outstanding ability as a leader by serving on the student government for three years and being active in his major field of study and its associated activities. As a member of Alpha Zeta, 30&3 leadership fraternity, and the Blue Key National Honor Fraternity, Norris has proved himself a capable student and aggressive campus leader. He has served in the student legislature as a senator from his school and this fall was temporary vice-president of the Student Government in the latter's absence. Having also served on the Student Government Human Relations Committee, Investigations Committee, and Orientation Commission, Norris has gained an immense insight into the Student Government and its action.

"A conscientious student, Norris has been on statewide committees of the Agronomy Club, a member of the State College Agronomy Club, and

has the distinction of representing State College at the National President, State Subdivision, American Society of Agronomy. In addition to this, Norris Tolson has been a representative to the Agriculture Council, a member of the Apollo Club, a cadet in the advanced Army R.O.T.C., and the recipient of an Alpha Zeta scholarship.

"However, I feel that Norris has served State College in a capacity which I hold till last because I feel that in this one area alone he showed more vigor, enthusiasm, and drive for a student endeavor than perhaps anyone I have ever met. This was as the chairman of the Student Commission on Orientation which Norris held for two years. The small group orientation program was a tremendous success in the Fall of 1960, greatly due to the planning and organization of Norris and his commission. The program has achieved great praise throughout the South and because of the type of leadership Norris possesses, the small group plan has become something of which we are all proud. Finally I would like to again

HAVE A REAL CIGARETTE— CAMEL

Roy Woodle, Convair Flight Engineer, supervises an Air Force Atlas Satellite Launch that will relay information from outer space to increase knowledge of the earth and aid weather

forecasting and communications. This brilliant, young space engineer smokes Camels. He says they're the only cigarettes that give him real satisfaction every time he lights up.

The best tobacco makes the best smoke!

Now! Proper Fit Plus Good Looks From Stedman . . .

High Style, Contoured Underwear For Gentlemen

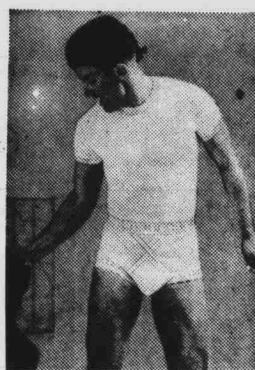

MATADOR MATES
PRAISED BY
TEST WEARERS

Test wearers from coast to coast have heaped praise upon the new, high style Matador Mates. Typical comments have been: "I am more than pleased with this new idea in brief and 'T' shirt comfort. Although they cost a little more, they're certainly worth it! Matador has a new friend and customer." A lady from Richmond, Virginia wrote, "I love my husband in his Matador Briefs." From the deep south comes this comment, "Matadors are the smartest, most comfortable garments I have ever worn. They're a great team." And this abbreviated, but descriptive comment came out of the west, "WOW!"

Student Supply Stores
Features Matadors

Matador Mates . . . New Idea, New Fit, New Support, New Comfort, New Look, New Fabric Plus High Style. Available only at Student Supply Stores.

Matador Name
Chosen From 100s

Naming of this new concept in underwear style and comfort was no easy task. From hundreds of names submitted to Stedman Manufacturing Company, "Matador" was finally chosen.

Results of an extensive survey indicated that the name "Matador" implied virility, good looks and tasteful styling . . . all important factors in the appearance of today's well dressed gentleman. "Mates" was used in conjunction with "Matador" to indicate a matching high style underwear pair . . . the first available on the American market.

MATADOR MATES . . . CONTOURED BRIEF AND MATCHING 'T' SHIRT. AN ENTIRELY NEW CONCEPT!

Through the years styles have changed drastically in men's dress. It took years, but high style finally became the byword in the men's field . . . especially in his outer garments . . . just as it did for women many years ago.

However, underwear for gentlemen has been different. Few changes have come about . . . style-wise . . . since the advent of the droopy, ill-fitting knitted garments of the early 30's. That is, until research, plus the demand of men and women alike, brought Matador Mates onto the American Market.

Matador Mates . . . available exclusively at Student Supply Stores . . . are designed especially for the man who truly cares about his dress—from head to toe, from inside out. It is the first high style, proportionally fitted, matching underwear garment pair ever placed on the market, either here or in fashion conscious Europe.

The high style, contoured Matador Brief has a radically new dimensional pouch that supports gently, but firmly. It supports the way today's athletically minded man wants to be supported. Fits exactly the way a man is built . . . at the waist, in the hips . . . around the legs. Matching Matador 'T' is equally handsome in appearance. Banded collar and sleeves, vented sides and contoured styling help make-up a perfectly fitted — perfectly dressed gentleman's team. Both garments are fashioned from a new waffle-weave knit fabric . . . created especially for these high style garments. They're guaranteed to maintain proper size and fit even after repeated washings.

Advertised in Playboy, Esquire and Sports Illustrated, Matador Mates are a product of Stedman Manufacturing Company's research and development. They are available only at a few fashion conscious men's shops in this country.

Matador Mates . . . Another Exclusive at Student Supply Stores
