Phi Eps Announce Sponsors

The sponsors for Phi Epsilon Pi Weekend, the annual festival of Phi Epsilon Pi Fraternity, being held April 28-30 are: Miss Susan Aboulafia, Forest Hills, N. Y., for Lenny Tillman, Woodmere, N. Y., President; Miss Nancy Britton, Roanoke Rapids, for Merrick Barnes, Philadelphia, Pa., vice president; Miss Barbara Segal, Rock Hill, S. C., for Mark Shanker, Woodmere, N. Y., secretary; Mrs. Dennis Miller, Shelby, N. C., for Henry Miller, Winston-Salem, N. C., social chairman; Miss Josephine Pope, Mocksville, N. C., reigning Phi Epsilon Pi Dream Girl, for Robert Shaw, Fayetteville; and Miss Joanna Bolz, Garden City, N. Y., for Gary Banfelder, New Hyde Park, N. Y., publicity chairman.

New Council Plans Elections

The recently formed Science Council, which serves the School of Physical Science and Applied Mathematics in the same capacity as the Engineers' Council serves the School of Engineering, is planning elections for next year.

The following procedure for the conduction of the elections has been adopted by the Council:

1.) Schedule

a) Books will be opened for nomination on Monday, April 24, and will be closed at 12:00 noon on Friday, April 28. Books for nominations will be in each department's office.

b) Ballots will be sent out Saturday, April 29, and may be mailed or taken in person to the

office of the School of Physical Science and Applied Mathematics on or before Monday, May 8.

c) If run-offs are necessary, ballots will be sent out Wednesday, May 10, and will be accepted until Wednesday, May 17.

2.) Nomination

a) To be nominated one must sign the nomination books in his departmental office. He does not need a co-signer.

b) To be eligible for membership in the Council, a student must have at least a 2.5 quality point average.

Represented on the Council

are the departments of Chemistry, Mathematics, Physics and Statistics. The numbers of representatives to be elected from each department for next year are three from the Chemistry Department, five from the Mathematics Department, four from the Physics Department, and three from the Statistics Department.

Presently serving on the Council are Carl Bean, Louise Johnson, and Robert Shaw for the Chemistry Department; Eddie Elkins, Jon Howell, Reid Gryder, and Wayne Philbeck representing the Mathematics Department; Donald Childers, Gus Councell, Bill Lucas, William Michael, Van Noah, and Gerald Moore from the Physics Department; and representing the Statistics Department are Anne Fakler, Charles Hendrix, and Richard Royall.

The officers of the Council are: Van Noah, President; Eddie Elkins, Vice President; Anne Fakler, Secretary; and Phil Nanzetta, Treasurer.

The advisors to the Council are: Dr. A. F. Coats, Chemistry; Dr. A. E. Nolstad, Mathematics; Dr. G. C. Cobb, Physics; and Dr. F. E. McVay, Statistics.

Students who have ideas and suggestions for the Council are urged to contact any member of the Council.

The Council is sending two of its members, Phil Nanzetta and Eddie Elkins, to the Fifteenth Annual Eastern Colleges Science Conference to be held at Syracuse University May 4, 5, and 6. They are to observe the Conference so as to help plan the Sixteenth Conference which State College expects to host next year.

Dr. Truitt Named New Head Of College M E Department

An aerospace engineer and noted author of technical publications has been named head of North Carolina State College's Department of Mechanical Engineering.

He is Dr. Robert W. Truitt, who has resigned as professor and head of the Aerospace Engineering Department at Virginia Polytechnic Institute, Blacksburg, Va., to accept the North Carolina State College position, effective June 1.

Dr. Truitt's appointment to the post—one of the key positions in State College's burgeoning School of Engineering—was announced today by Dr. John T. Caldwell, chancellor of the college, and Dr. J. Harold Lampe, dean of engineering.

The appointment previously was approved by President William C. Friday and the executive committee of the Board of Trustees of the Consolidated University of North Carolina.

Dr. Truitt succeeds Prof. John I. Lee, who resigned to become

president of the State University of New York at Oyster Bay, Long Island.

In making the announcement, Dean Lampe said:

"Dr. Truitt's participation and dedication to basic science and theoretical engineering form the basis of his accomplishments in the recent technologies of the mechanical engineering

field. We are indeed fortunate to have this outstanding educator and administrator join the North Carolina State College engineering faculty, and we look forward to his contributions to the college's engineering education and research programs."

Dr. Truitt has been actively engaged in the research and development of the nation's missile and space programs. His major fields are energy systems for space operations, hypersonic aerodynamics for re-entry space vehicles, and heat transfer problems.

In his present position since 1951, Dr. Truitt has been instrumental in developing the doctoral program in aeronautical engineering at VPI. Prior to this, he was assistant professor of mechanical engineering at North Carolina State College from 1946 to 1951.

Dr. Truitt has served as senior engineer in the aerodynamic and advanced design sections of the Martin Company, Baltimore,

Md. Last summer he was design engineer for the company in the systems engineering department, where he worked on heat transfer problems of the Titan missile nose cone.

As aeronautical research scientist for the National Aeronautics and Space Administration (NASA) at the Langley Field Research Center in the summer of 1953,

Dr. Truitt worked in real gas effects for the design of the Hot-Shot Tunnel. He has also served as aeronautical research scientist in the hypersonic tunnels branch of the National Advisory Committee for Aeronautics.

Currently, the new State College department head is consultant for the Aero-

Physics Section of NASA and educational consultant for the U. S. Army Transportation Corps, Fort Eustis, Va. He is also a member of the Board of Visitors for the Corps' school.

Dr. Truitt has written three widely-used textbooks on aerodynamics for graduate students. In addition, he is the author of over 50 technical publications in subsonic, transonic, and hypersonic aerodynamics.

A native of Greensboro, Dr. Truitt received his bachelor's degree in physics from Elon College. He pursued graduate study in mathematics and engineering mechanics at North Carolina State College and in physics and mathematics at

Duke University and the University of North Carolina.

He was awarded his master's and Ph.D. degrees in applied mechanics at Virginia Polytechnic Institute.

During World War II, Dr. Truitt was an air officer in the U. S. Navy.

A registered professional engineer in Virginia, he is a member of the Institute of the Aerospace Sciences, the American Rocket Society, Sigma Xi, Tau Beta Pi, Pi Tau Sigma, and Sigma Gamma Tau.

Dr. Truitt is married to the former Frances Creaf of Norfolk, Va., and they have two children, Robert and Carol Ann, both born in Raleigh.

Dr. Truitt is the son of Mr. and Mrs. L. O. Truitt of Greensboro, and is well-known throughout the State.

Dr. Robert V. Truitt

Campus Crier

The first of a series of pop concerts by the North Carolina State College Band will be given Saturday, April 29. The concerts, to be held on the College Union Terrace, will feature classical, semi-classical, and popular works of famous composers. The College Union Music Committee cordially invites all students to attend.

The last Starlight Club of the season will be held Saturday April 29 from 8 p.m. to 12 midnight in the College Union Ballroom. This Starlight Club promises to be one of the most elaborate, well-planned dances put on by the Dance Committee this year. The dance, in the night club style, will feature a good atmosphere and music by the Corvettes. Couples only will be admitted; dress will be semi-formal.

All organizations and fraternities are reminded that the dead line for payment of space in the 1961 *Agromock* is now past due. Please send your check to the *Agromock*, Box 5727, N. C. State College, or go by the Publications Office in Room 313 of the 1911 Building.

Water skiing anyone! If so, join April 30 for a water skiing trip to Kerr Lake. The trip is sponsored by the college Union Outing Committee and the Water Skiing Club. Equipment, transport-

(See CRIER, page 4)

Permanent Class Officers Named

Seniors elected their permanent class officers in the General Election recently. From Left to Right: Charles Russel, Vice president of the Student Government; president Sandy Matthews, president of Golden Chain-Secretary; vice president Jay Brame, Editor of *The Technician*-secretary-treasurer. With the newly-elected students is "Pop" Taylor, Director of Alumni Affairs.

Dr. Fails Is Speaker At Theta Tau Banquet

N. C. State's Rho Chapter of Theta Tau was privileged to have Dr. Emol A. Fails as its speaker at a banquet held Wednesday night, April 19, 1961, at Ballentine's in Cameron Village. Dr. Fails, who is on leave of absence from the N. C. State College Economics Department where he is an Associate Professor, titled his speech: "After Technical Competence, What?"

Dr. Fails is a well known economist and accountant. He is a partner in an accounting firm and does management consultant work in addition to teaching at N. C. State. He has a wide variety of experience in speaking; in the last year he has made 168 speeches in 42 states and 3 countries, besides running his own business and teaching school.

The requisites for a successful engineer were divided into

three branches by Dr. Fails, only one of which was technical competence. The second branch was non-technical competence, with a heavy emphasis on economics and accounting. He stated that cost is the governing factor in almost all engineering decisions and that the successful engineer must be competent in this area.

The third major branch was "attitude and personality". Dr. Fails asserted that even though a man might be competent in his field, he is useless if his attitude is poor or if he lacks the ability to get along with people. Hence this is an important requisite for success.

Dr. Fails' talk was entertainingly punctuated with witty comments and analogies. He was warmly applauded at its conclusion by the forty brothers and pledges meeting jointly.

Visiting Committee Points Out
Needed Improvements For State

The Visiting Committee to the Board of Trustees of the Consolidated University pointed out many improvements which are needed here at State.

The first one that was mentioned, the ineffectiveness of the Faculty Program, is one which we had not considered before; but it is an area of student affairs which needs much improvement.

The Visiting Committee made the observation that if this program is handled in the matter which they were told, that is—"If faculty members seek to avoid this function because there is little professional recognition accruing from such counseling assignments as compared to that from research and publishing, then perhaps there should be a reappraisal of the functions of the faculty." The Committee is certainly true in this statement, but we feel that this is not the main reason that students gain so little benefit from the counseling.

How many students have stopped by their advisor's office at the first of the semester, had their roster signed, and then not see him for the rest of the semester? We would make an educated guess that the number of students who do this would be more than half of the student body. How can one condemn a professor for not counseling when he does not even get the chance?

Of course a problem such as this must be two-sided. There are faculty members who do not want to "waste their time" with students, just as students do not want to bother with trying to see their advisors.

If both the faculty and the student body would attempt to make this system work, there could be advantages gained by both sides. Students would have the advantage of taking their problems to someone who could help them very much, and the faculty members could become better teachers by having a more intimate contact with their students.

The other problems which the Visiting Committee pointed out were the facts that there is a great need for coed housing and other facilities for women and that Faculty salaries, sabbatical and study leaves, increased library and research facilities are greatly needed if the best possible faculty is to be obtained.

We will not bother to even comment on these problems. The administration is doing everything within its power to see that these conditions will be alleviated as soon as possible, all that we can do is to hope that the answers to these problems will be found as soon as possible and to urge the administration to even greater efforts. If answers cannot be found, our school will suffer greatly.

ONE OF OUR FINEST FRESHMAN COUNSELORS—SEEMS TO RADIATE CONFIDENCE & TRUST WITH THESE YOUNGSTERS AWAY FROM HOME.

to the Editor:
Election time is over on our campus and campus officials have been elected for 1961-62. I would like to take this opportunity to sincerely thank each and every student on this campus for the vote of confidence and support which you gave me in the election. I humbly pledge to work constantly in an effort to be worthy of this confidence and trust. I shall constantly endeavor to be aware of student needs and desires and to put forth unceasing efforts to fairly represent student opinion in our campus affairs.

There were many candidates in this election and I'm quite certain that not all students were backing the winners. I urge you to support these men who were elected. These men need the support of the entire student body, not just those who supported them in the elections. They will need your unceasing support and cooperation if they are to be successful in their attempt to serve you, the Student Body, during the coming year. I feel that 1961-62 can be one of the most successful years

that your Student Government has ever had on this campus. However, I am convinced that each and every student on this campus should realize that it will require a completely united effort to achieve this goal. Therefore, I do now ask and challenge you, the Student Body of North Carolina State College, to "put your shoulders to the wheel" and help your elected campus leaders make 1961-62 stand out in the history of this college as the most successful year it has ever had or will have.

E. Norris Tolson
President Elect of Student Government

Editor's Letters

We would like to restate our policy on letters to the Editor. We welcome very much any letter which we get from students, and we try to print every one which we receive.

We will not print any letter which is unsigned, but we will be happy to withhold any name on a letter if the writer deems it to be advisable.

Cleveland Playhouse Acting Group To Present
Marlowe's 'Doctor Faustus' At C U

"The Music known of all men's tongues that sing. When Marlowe sang, bade love made heaven of spring; And on his grave, though there no stone may stand, The flower it shows was laid by Shakespeare's hand."

Swinburne.

The legend of a man who sells his soul to the Devil is as old as folklore itself, and is part of the very fiber of the world's great drama. Never has this legend been set down more eloquently than in Christopher Marlowe's "Doctor Faustus", which a Cleveland Play House acting ensemble will present on Friday, April 28, at 8:00 p.m. in the College Union Ballroom.

Although "Doctor Faustus" has a strong philosophic appeal, its enduring strength as a theatre classic lies in the beauty of its language and the power of its drama. Today, in an age when scientific inquiry is greeted with enthusiasm, it is difficult to realize the horror with which the Middle Ages regarded the alchemists who experimented with nature to discover knowledge instead of resting in unquestioning faith.

"Doctor Faustus" reflects the popularity at that time of stories concerning man's contracts with the devil.

Faustus, a doctor of theology in the prime of his life, is willing to sell his soul in order to gain infinite knowledge, probe the mysteries of the universe, and thus attain superhuman power. For this he is willing to pay the price of eventual damnation.

His daring and fearlessly pagan spirit plunges into medieval science and into dangerous experiments with black magic and cabalistic books, all of which belong in the realm of the supernatural. He hopes to achieve a power over the forces of earth equal to that of God.

As the day of reckoning approaches, he demands of Mephistopholis the greatest voluptuous experience his imagination can conceive—union with Helen of Troy, the most beautiful woman of antiquity. His ecstasy at her appearance is contained in Marlowe's immortal lines of incomparable beauty:

"Was this the face that launched a thousand ships, "And burnt the topless towers of Ilium?"
"Sweet Helen, make me im-

mortal with a kiss."

The final scene of terror and damnation follows quickly as the clock strikes twelve and the Devil drags Faustus, vainly appealing to God, off to Hell for "practicing more than Heavenly power permits."

Christopher Marlowe was born in the same year as Shakespeare and was considered the angry young man of his day. He may have been thinking of himself in the role of Faustus, the rebel against conventional learning, when he wrote the classic masterpiece at the age of 24. He was only 30 when he died ignominiously amid the dregs of society on a tavern brawl. This play demonstrates the vastness and intensity of his imagination, the splendid dignity of his verse, and the dazzling brilliance of his poetry. Its theme was used by Goethe in his epic "Faust" and later was the basis for Gounod's beloved opera.

The performance here of "Doctor Faustus" is part of a 38-state tour, made possible by a Ford Foundation grant in 1957. The purpose of the grant was to provide fine live theatre in smaller United States communities.

In preparation for the tour, actors selected by a panel of well-known theatre people spent two years at the nationally-known Cleveland Play House as part of its professional company.

In its 45 years of continuous operation, the Play House has risen to recognition as the outstanding resident theatre in the nation. In addition to operating three theatres, the Play House conducts an apprentice training program with constant emphasis on developing the highest standards of theatre professionalism.

STATEments

The shouting, hurrahs and handshakes are over. State students (a part of them at least) have elected their representatives for another year. A description of the elected officers can be best summed up in the title of a popular book—"A Scent of New Mown Hay".

Congratulations to The Friends of The College, Inc. for giving the students top-flight entertainment this year and for lining up a very good schedule for next year.

Gibson Stops Duke 3-1; State Tied For Second

By Earl Mitchellle
Sports Editor

Durham, N. C.—Joel Gibson hurled a nifty 3-1 victory over the Duke Blue Devils here Tuesday afternoon. Gibson had a shutout going for eight innings after which the Dukes scored one run in the ninth inning.

It was Gibson's fourth start of the season and his fourth victory of the year. His record now stands at 4-1. He got a relief win against West Virginia and lost a close decision to Carolina several weeks ago.

The win moved State into a second-place tie with Wake Forest. Both teams have 4-2 ACC marks and trail Carolina, which is in first place with a 4-0 slate. The Duke loss put them in fourth place.

ACC Standing

	W	L
Carolina	4	0
Wake Forest	4	2
State	4	2
Duke	4	3
Clemson	4	4
Maryland	3	5
South Carolina	2	5
Virginia	1	5

(Does not include Clemson-South Carolina game played yesterday.)

State took the lead in the third inning, when Vernon tripled to right field with one out. Les Young went down on strikes and Wayne Edwards pounded out a single to score Strickland.

In the fourth frame State came back with two more runs to provide the winning margin. Joel Gibson reached first on an error to lead off the inning. Don Montgomery bunted and beat it out for a hit. Jerry Krecicki singled to centerfield to load

the bases. George Hayworth, the Pack catcher, walked to force home Gibson with what turned out to be the winning run. Ray Russell flied to center and Montgomery scored from third. Strickland flied out and Hayworth was caught off first base for the third out and the scoring spree was stopped.

In the bottom half of the ninth frame Ronnie Davis of Duke led off with a double and he was only the second man that Gibson had allowed past first base the entire afternoon. Lynn Fader flied out and then Dean McCracken singled in Davis for the lone Blue Devil run. State got a break on the next play. Bob Rankin hit a grounder through the hole between second and first that was clean single, but the ball hit McCracken, who was going to score for the second out of the inning. On the next play, McKinley grounded out.

It was the eighth win for the Wolfpack in ten starts this season. Duke's overall record is now 6-8. It was the second time this year that the Wolfpack has stopped the Blue Devils. Last Tuesday, State trimmed Duke 5-1 here in Raleigh.

Gibson went the distance despite the fact that he was nursing a broken toe. The State ace was to have pitched against

Wake Forest, but the injured toe prevented him from doing so. In going the distance Gibson spaced eight hits among the Duke batters, and struck out three and walked one. The lone Duke run was an earned run.

Ronnie Kalish went eight innings for Duke and was charged with the loss. Kalish was taken out in the bottom of the eighth inning in favor of the pinch-hitter. Don Altman pitched in the ninth inning for Duke. Kalish, whose 1.61 earned run average tops the Duke pitching staff, seven hits. Kalish walked two Pack batters and struck out five. Two of the State runs were earned runs charged to Kalish. Altman allowed one hit in the ninth inning. Kalish's record now stands at 2-3.

Don Montgomery was the Wolfpack batting star for the day as he picked up three hits in four trips to the plate. Roman Gabriel brought his hitting streak to a halt when he failed to get a hit. Gabriel had gotten a hit in eight straight games before yesterday's game. Gabriel did not play in the Colby game.

The next game for State will be Friday afternoon here against South Carolina. State will play two games against Clemson here on Saturday.

Final Tryouts Slated For Big Four Sports

Final tryouts for the Big Four Sports Day will be held tonight and tomorrow afternoon. The tryouts are being held to select individuals and teams to represent State College in the Big Four competition.

The competition will be held on the State campus this year. A complete schedule of Big Four Sports Days activities will appear in tomorrow night's TECHNICIAN. The real competition between schools will

take place Monday May 1. Sports for this year include softball, horseshoes, volleyball, bowling, badminton, table tennis, tennis, handball, golf, and archery.

The following is a list of the places for tryouts for the different sports.

SOFTBALL—At intramural field #1, Thursday—4:30. The supervisors in this sport are Jay Brame and Curt Eberly.

VOLLEYBALL—On Doak Field Thursday at 5:30. Russ Marvel and Wayne Miller are supervisors.

HORSESHOOES—At the horseshoe pits behind the new gymnasium at 5:45 Thursday. The supervisor is Ross White.

BOWLING—At Western Lanes. The supervisors are Don Wechsler and Bob Long.

BADMINTON—Wednesday night at 7:00 in Frank Thompson Gym. Supervisors are Bruce Hoadley and Charles Ives.

TABLE TENNIS—Wednesday night at 7:00 in Frank Thompson Gym. Supervisors are Eion Faeltton and Bill Hilburn.

TENNIS—On the Tenflex courts beside Alexander Dormitory at 5:15 Thursday. Supervisors are Dennis Daniels and Bost.

HANDBALL—Richie Williamson will hold final tryouts tonight at 7:00 in Frank Thompson Gymnasium handball courts.

GOLF—All interested participants sign up at the intramural office.

ARCHERY—The final tryouts were held this afternoon in Riddick Stadium by supervisors A. Catlett and E. Day.

The tryouts have been going on all this week and the listed schedule is just that part of the tryouts that will come after Wednesday night at 6:00.

All participants in Big Four Day are reminded that they will be excused from their classes from 1 o'clock to 5 o'clock on the day of the events.

All persons interested in participating in archery, skeet, skish, or target rifle events should get in touch with the supervisors of the sports immediately. The supervisors are as follows: Skeet—Bob Gray and John Hatchin; Rifle—Zobie Morris; and Archery—Arthur Catlett.

All persons participating in the archery, skeet, skish, rifle, and archery are reminded that there will be a practice period of approximately one hour before the actual competition starts.

Blue Imps Down Pack Frosh 4-3

The State freshmen baseball team took it on the chin here yesterday afternoon at the hands of the Duke freshmen. Duke won the game 4-3.

Going into the bottom of the ninth inning, State was trailing 4-0 and came up with three runs before the Blue Imps were able to make the final out of the contest. Duke scored one run in the sixth inning and one in the eighth to take a 2-0 lead going into the final frame.

In the top of the ninth Duke pushed across two more runs to push out to their largest lead. State's three runs in the bottom of the ninth were not enough to overcome the Duke lead, however.

Carnival Is Successful; Weekend Draws Many

Carnival Weekend was quite a success. There were approximately 5,000 people there. The most original booth was the dunking booth, sponsored by Tau Kappa Epsilon. The best decorated booth was the States' Mates Cake Sale booth.

Joyce Haynie was elected Carnival Queen Friday night and crowned Saturday night. Her sponsor was Sigma Alpha Mu.

An event which evoked quite a bit of interest was the limbo contest Saturday night. This game was brought back from Nassau by the students who spent their Easter vacations there.

From the Carnival Booths, approximately \$40 will go

into the Student Loan Fund. The organization sponsoring the booth gets the other ninety per cent of the net profit.

Notice

The athletic office announced Tuesday that all students interested in trying out for the varsity polo team should bring their horses to the gym no later than April 28 to have them registered. Freshmen steeds are urged to come out although they will not be permitted to participate this year. All participants are urged to bring their own crash helmets.

ALGIERS—The Algerian insurrection against President Charles de Gaulle collapsed early Wednesday. The head of the insurgents, Gen. Maurice Challe, surrendered to troops loyal to De Gaulle. Rebel paratroopers retreated from Oran and Constantine Tuesday afternoon, then pulled out of Algiers. Last-hour fighting was reported on the streets of Algiers. But the uprising never reached the proportions of a civil war as was feared when it started Saturday.

LONDON—Opposing forces in the Laotian civil war agreed to a ceasefire. The Laotian royal government and the Communist-backed Pathet Lao Rebels announced acceptance of the British Soviet appeal. The rebels said they approached the settlement from "a position of victor." A 14-nation conference will meet in Geneva next month to seek a peace settlement.

VIENTIANE, Laos—Pathet Lao rebel forces increased their offensive to gain as much ground as possible before the cease fire. They were reported in action on four fronts. The final rebel drive brought the loyalist army some of its stiff-

The farther smoke travels Air-Softened, the milder, the cooler, the smoother it tastes

THIS ONE'S THE SATISFIER!

Perfectly in tune with your taste—that's Chesterfield King. Every satisfying puff is Air-Softened to enrich the flavor and make it mild. Special porous paper lets you draw fresh air into the full king length of top-tobacco, straight Grade-A all the way.
