Freshman-Soph. Bids Available Till Friday

The Freshman - Sophomore class officers announce the Freshman-Sophomore Ball, to be held Saturday night, May 6. The ball will serve as a reminder that, in 1861, just 100 years ago, the Confederate States of America were born. The ball will be held at the College Union, which will be decorated as a Southern plantation.

Upstairs in the main ballroom Jan Garber and his Orchestra will provide music for your dancing pleasure. Garber, though comparatively unknown in this section of the country, is a big name on the West Coast and around the Chicago area. In 1959 the Ballroom and Night-club Operators of America voted it the top dance band in the country. He records on RCA Victor records. Downstairs in the snack bar the music will be

furnished by a yet-to-be-determined Rock and Roll group.

All Freshmen and Sophomores who have not picked up their bids to this affair are requested to pick them up at the C.U. by Friday, the 28th of April. The receipt given when class dues were paid is necessary to obtain these bids. Additional dues will be collected at this time.

Dress for the ball will be formal, and the ball will run from 8 till Midnight. "Last year this ball was one of the social highlights of the school year. This year it will be bigger and better than ever," said Floyd McCall, president of the Sophomore class. Jim Braddock, Freshman president is quoted as saying, "We have provided two top-flight musical organizations to appeal to every mood and taste."

Sigma Chi's At State Plan Sweetheart Ball Festivities

By Allen Lennon

The Brothers and Pledges of Delta Epsilon Chapter of the Sigma Chi Fraternity are busily planning and eagerly anticipating their Annual Sweetheart Ball which will be held this weekend at Litchfield Inn, a swanky new vacation spot on the South Carolina coast below Murrell's Inlet. The weekend

activities which are under the supervision of Bill Adams and social chairman George Hammett mark the high spot of the social year for the Sigs on campus.

The Sigs, their dates, and the chaperones, including Mr. and Mrs. Archie Futrell and Professor Lindsay Whichard of State College faculty, will in-

vade Litchfield Inn during the day Friday. The festivities will get under way Friday night with a patio combo party featuring the frantic sounds of the Vibratones. Saturday's daylight hours will find the Sigs enjoying an elaborate breakfast, beach party, and afternoon social hour.

The weekend's climax will come Saturday night at the Sweetheart Banquet. Outgoing president Jim Wood will preside and introduce the Master of Ceremonies Ed Summers, who will in turn present Ray Lancaster, the guest speaker for the evening. Ray, a State College alumnus and a Sigma Chi, is presently engaged in graduate work at Chapel Hill under a Woodrow Wilson Fellowship.

At the close of the banquet, the new Sweetheart of Sigma Chi for 1961-62 will be crowned. Her identity having been kept a secret until this time, she will be presented and crowned by this year's Sweetheart, Miss Jenny Temple of Lake View, S. C. The new Sweetheart will be presented the traditional white roses and will be serenaded by the Sigs with the world famous "Sweetheart of Sigma Chi." The new Sweetheart will be announced from the following court: Miss Carol Barney-castle of Raleigh, Miss Judy Crippen of Jacksonville, Fla., and Miss Sylvia Nash of Raleigh.

Another combo party will follow the banquet and serenading of the pin-mates. The Sunday beach party will bring to a close another great Sweetheart Ball Weekend for the Sigs at State.

The sponsors for Sigma Chi's annual Sweetheart Ball are (top row, from left to right) Miss Carol Barney-castle, of Raleigh, for Jim Wood, president of Delta Epsilon Chapter; Miss Judy Crippen, Jacksonville, Fla., for Bill Adams, Sweetheart Ball Committee; Miss Marilyn Leet, of Montclair, N. J., for Joel Ray, vice-president; (bottom row) Miss Sylvia Nash, of Raleigh, for Bill Morrison, secretary; Miss Mary Neal Scott, of Murfreesboro, for Mike Word, treasurer; and Miss Jenny Temple, of Lake View, S. C., the Sweetheart of Sigma Chi at State College, for George Hammett, Sweetheart Ball Committee. "The Sigs plan a gala weekend at Litchfield Inn, near Murrell's Inlet."

William Pachner Art Works Slated For CU Exhibition

throughout the country.

In his essay in the catalog for the exhibition Kenneth Donahue states that Pachner had "... a firm determination to keep alive the consciousness of the brutality and inhumanity existing in our time and to plead for humanistic values. To accomplish these objectives he had to work out over the years his own means of visual and intellectual communication. The exhibition records the process of the artist's growth from his

early dependence on subject alone, through his increasing consciousness of the expressive qualities of form and colors, his rejection of his early style, his years of experimentation and the beginning of his mature style within the past three years."

Notable among the many prizes and honors Pachner has received are the awards of: first prize, Art Association of New Orleans 57th Annual Spring Exhibition for "The Gate" (No.

29 in this exhibition); first prize, The Florida State Fair Fine Arts Exhibition, 1958 and first prize, The Butler Institute of American Art, 24th Annual Mid-year Show, 1959 for "Variation on the Avignon Pieta" (No. 33 in this exhibition).

William Pachner was born in Czechoslovakia in 1915. He studied drawing and fashion design at the Kunstgewerbeschule in Vienna, Austria. From 1933 to 1938 he was a staff artist on periodicals in Prague. He arrived in the United States in 1939 to apply for a job on *Esquire* magazine. The art director who did not hire him was replaced by Pachner in 1940. He had his first one man show in 1948. From 1951 through 1952 he taught painting and drawing at the Gulf Coast Art Center in Clearwater, Florida. He became curator of the Art Program there in 1953 and in 1955 he became Director. Since 1957 he has headed the William Pachner School of Art in Clearwater, Florida.

Textile Group Awards 'Man Of The Year' Title

Kappa Tau Beta, fraternity of knitting technology and science in the School of Textiles at North Carolina State College, has named Jacob A. Goldfarb, president and chairman of the board of Union Underwear Company, its "Man of the Year" for 1961.

Goldfarb received a plaque and a citation from John E. Goforth of Rutherfordton, president of the fraternity, at the Underwear Institute Banquet held in Atlantic City, N. J., Tuesday night.

Kappa Tau Beta annually presents its "Man of the Year" award to a man in the knitting industry who has done outstanding work in his field. The recipient is chosen by popular vote of fraternity members.

Goldfarb is also chairman of the board and president of Fruit of the Loom, Inc. He is president of Goldfarb Investing Corporation, a trustee of Grand Street Boys Foundation, a member of the executive committee of the Underwear Institute, and a trustee of Brandeis University.

He established and supports an annual senior scholarship and an annual graduate research fellowship in the North Carolina State College School of Textiles.

Kappa Tau Beta is a professional fraternity founded by students and professors at State College in 1952 to promote interest in knitting technology.

The Underwear Institute Banquet was held in conjunction with the Knitting Arts Exhibition in Atlantic City.

Spring Banquet Held By Eta Kappa Nu

On Friday evening, April 21, Beta Eta Chapter of Eta Kappa Nu, Electrical Engineering Honor Fraternity, held its annual Spring Banquet at Balentine's Restaurant in Cameron Village.

The guest speaker was Mr. Clayborn Smith, Planning Engineer for the System Performance Department of Western Electric Company in Burlington, N. C. Mr. Smith spoke on "Electrical Engineering Today." Following has most interesting talk, he showed a film, "Seconds for Survival," which illustrated the importance of communications as a part of our National Defense.

Also as a part of the evening's program, Beta Eta Chapter's seven new members were honored. These new members are: James O. Chatham, Alan M. Chedester, Harold L. Hamrick, Joel V. Perry, William D. Stanley, Fredrick L. Thurstone, and Trilochan S. Wadhwa.

Also recognized were the newly elected officers for the com-

ing year. They are: Bayne Steele, president; Tom Smith, vice president; Herbert Pass, corresponding secretary; Oscar Garcia, recording secretary; Harold Hamrick, treasurer; Eddie Stubbins, Bridge correspondent; and Professor Norman R. Bell, Advisor.

The last Starlight Club of the season will be held Saturday, April 29, from 8 p.m. to 12 midnight in the College Union Ballroom. The Dance Committee is going all out on this dance—it promises to be one of the most elaborate, well planned dances put on this year. The music will be furnished by the Corvettes. Couples only will be admitted to the Starlight Club; dress will be semi-formal.

The first of a series of pop concerts by the North Carolina State College Band will be given Saturday, April 29, at 7 p.m. The concerts, to be held on the College Union Terrace, will feature classical, semi-classical, and popular works of famous composers. The College Union

NCS Mechanics Head Elected to VP Spot Of ASEE District

Dr. F. H. McDonald, Jr., head of the Department of Engineering Mechanics at North Carolina State College, was elected to the vice presidency of the Southeastern Section, American Society for Engineering Education, at the 1961 convention held at the University of Mississippi.

Dr. McDonald was named vice president and chairman of the research unit.

L. R. Schoonmaker, associate professor of electrical engineering at the University of Florida, was elected president, succeeding Dean Walter J. Seeley of Duke University.

The Ole Miss School of Engineering was host to the 1961 convention.

The new president announced that next year's convention will be held at Vanderbilt University, Nashville, Tenn.

Music Committee cordially invites all interested students to attend

Don't forget to attend the meeting of the Water Skiing Club! Anyone who is interested in the club is invited to come Thursday, April 27, at 7:30 p.m.

The North Carolina State College Saddle Club will hold its monthly business meeting Tuesday, May 2, at 7 p.m. in the College Union. All members are urged to attend this meeting as important plans concerning the Club's picnic and all-day ride will be discussed. The Club's constitution must receive final approval at this meeting, and officers for the coming year will

(See CRIER, page 4)

We recently received a new release from a newly formed organization, "Students Committed to Accurate National Representation." The organization was formed at Northwestern University and its aim is to fight for reform within the National Student Association. Since State is a member of the N. S. A., we feel that a study should be made to determine if the aims of S. C. A. N. R. are worthwhile and the claims that it has made are valid.

We feel that this new organization has a very good point in trying to reform the National Student Association; for from our observations; we had independently felt that N. S. A. misrepresented students to a great extent.

This misrepresentation is the biggest fault which the S.C.A.N.R. has found with the National Student Association. As the National Chairman of the new organization Kay Wonderlic of Northwestern University, stated; "Not only are most students unaware that N.S.A. claims to represent them in every resolution, but it does not accurately represent those students who are familiar with the Association."

Miss Wonderlic also charged that N.S.A. stifled minority views expressed by its delegates, that minority reports are not printed with the official policy statements of N.S.A. conventions, and that the minutes of a meeting where dissents "are buried" are impossible to obtain.

The Northwestern Senior gave as proof of this statement the manner in which the recent N.S.A. sponsored conference on the Peace Corps was handled. She stated that although the invitation that was sent to delegates said that the conference would be a "serious perusal of all important aspects of the Peace Corps", it ended up being a "pep rally for the Peace Corps." She felt that N.S.A. was in favor of the Peace Corps and it therefore set up a program for the conference which was slanted entirely towards its advantages.

She also pointed out that nearly two thirds of the resolution in the N.S.A. policy book were passed by the National Executive Committee of thirty-five members and that this "oligarchical method" exemplified "the way a small group of self-perpetuating officers uses your name, your school, and your number to lend strength to their own whims."

We agree that N.S.A. needs reforming if things are the way in which S.C.A.N.R. described them. This new organization has a good point, and we hope that it will be successful in its efforts.

Rambling Round

By Ann Smith
Well, I'm back. I haven't quite figured out where I've been, but I hope that I enjoyed myself. I probably did.
I take it that most of my readers attended the New York Philharmonic on April 19. If you didn't, you certainly missed a great performance. Many people thought that the playing of "Dixie" detracted a little from the concert; but personally, I like "Dixie" played anywhere by the Philharmonic.
After the concert, I heard one student ask another student if he had been over to hear the "string band." Oh, well, to each his own. I thought it was a geiss concert.
I wonder how many of you guys have ever been on a geology field trip. If you haven't, you should take the Introduction to Physical Geology course just to get to participate in one

of these classic trips. You get to climb over fences into pig pens, climb up sheer rock walls, ride around in a bus that looks as if it has been used to haul dust and sand (it probably has). After two such trips, you get to write a report on your findings. In these reports, however, you must not put your feelings on the trip. It would make very much harder for you to pass the course. Really, they are nice trips and you get to see many nice Raleigh geiss rocks.
I have noticed that M & O is back on the job dismantling the roof of the 1911 Building. To any geology student, this is a very good example of mass wasting.
Thank goodness the elections are over. It got so there for a while you couldn't see buildings for the posters. I must say, however, that some of the art
(See RAMBLING, page 6)

Fraternity Flashes

The fraternity forces on the State Campus are slowly beginning to recover from their annual Spring Greeks Week.

Although there had been considerable apprehension for the success of the weekend, it is safe to say that all of the IFC planned functions came off far better than anyone anticipated.

If a vote were to be taken today, I am sure that a majority of the fraternity men would be in favor of holding the future fall and spring dances in the College Union. Not only did the College Union lack the armory-like atmosphere which is inherent to Coliseum, but it also provided facilities for two different moods of entertainment.

A part of Greek Week which is probably overlooked by most of the fraternity men is the Field Day which was held last Friday. However, it seems that there is one house which did not overlook the Field Day events, but participated in them very actively. The Pi Kappa Phi fraternity swept the honors this year as they have for the past three years. By taking first place again this year, the PKP's have obtained permanent possession of the Field Day Trophy. The Delta Sig's were in second place with the Sigma Chi's following in third.

The incoming officers of the IFC have a big job ahead of them for the next twelve months. The fraternity row project looks like it is finally beginning to pick up some momentum. It will be the responsibility of the new officers to get behind fraternity row and make sure that the project does not bog down as has been the tendency for the past few years. This is not to infer that

Letters To The Editor

IFC Veep Answers Questions

To the Editor:
Much comment has passed about the campus concerning the events involving Joni James' appearance and her contract for the Interfraternity Council Spring Greeks.

After re-reading and re-interpreting the contract that the IFC had with Joni James, I must apologize to the council for my own error in incorrectly interpreting it.

The contract states to the effect that "... as a VOCALIST consisting of ONE persons, at the KIDD BREWER ESTATE, COLLEGE UNION, in the city of RALEIGH, NORTH CAROLINA for a period of ONE DAY (1) ONE (1) shows April 22, 1961..." I was under the impression that ONE show consisted of performing at Kidd Brewer's and the College Union, and as I have since learned the contract means ONE show at either Kidd Brewer's or the College Union and not both. Therefore, for misleading the fraternity men through my error I apologize.

My error, however, does not condone the actions of the fraternity men who so discourteously received Joni James at Kidd Brewer's. If this is going to be the manner of reception for all entertainers, then attractions such as Chris Connor, Joni James and June Christy have had their fill of fraternity at N. C. State, and those fraternity men who enjoy this type of music will be forced to concede to the minority and accept rock 'n roll. However, even if the fraternity men are interested only in a rock 'n roll concert and dance, this is no justification to conduct themselves in the crude manner that they exemplified at the concert.

If rock 'n roll will satisfy the fraternity men of State for an IFC weekend, then the new Vice-President of the IFC ought to provide this music rather than suffer the consequences of attempting to raise the standards of entertainment among fraternity men.

An interesting sidelight to the weekend is the disappearance of forty candelabras from the IFC semi-formal dance. The decorator has informed me that these items cost \$2.50 each and as part of our agreement, the IFC is responsible for them. Most likely they were taken as souvenirs since at 11:30 p.m., Saturday night, the door guards began to collect them and not one could be found. This will increase the most of decorations by \$100.

Again, I want to sincerely apologize to the IFC for my error. The Spring Greeks, 1961, is history now, but may be it has awakened many fraternity men to the reality of our situation and quite possibly, for that alone, it should be looked upon with reverence.

Alan Altman
Ex-Vice-Pres. of the IFC.

To the Editor of the Technician:

It was with a great deal of pleasure that we of Phi Epsilon Pi Fraternity were given the honor of meeting and escorting Miss Joni James to the IFC

Help Needed

Anyone interested in working for *The Technician* next year may come by our office in 139 1911 Building either Sunday, Tuesday, or Wednesday night. There are going to be some openings on the staff next year, and some of which receive a small salary.

We hope to have a *Technician* which is better than ever next year, but we cannot do this unless students show a greater desire to help us. Anyone who enjoys writing or any other phase of journalism will find that work on *The Technician* can be one of the most fascinating things which they have ever done.

It's very difficult to stress the importance of the summer straw, especially when worn at the beach with the brim turned down

Stuart Named Winner Of Teacher Award In Design

(This is the second article in *The Technician's* series featuring the seven teachers who last year received the Distinguished Classroom Teacher Award from each of the seven existing schools.)

By Bill Jackson

Mr. Duncan R. Stuart, a native of Des Moines, Iowa, is one of the outstanding professors in State's internationally-known School of Design. Last year Mr. Stuart was recognized by the senior class for his classroom performance and awarded the Distinguished Classroom Teacher Award.

This award was instituted last year in an effort to show the competent and qualified instructors at State College the appreciation of the student body for their dedication to the teaching profession. The project is not designed to pick out the outstanding man each year, but rather to recognize one of the many deserving staff members in each school. The program will only succeed, in this reporter's eye, when this point is made clear to faculty men and students alike.

This view has been expressed by each of the award recipients who have been interviewed by *The Technician*. Mr. Stuart stated, "I certainly was very happy to receive this award.

However, I confess that I don't exactly like the idea of it. Not only are there difficulties that face the student in making decisions as to who is a distinguished teacher, but also there is the problem that, as time goes by, it will tend to be a depression of the activities of the teacher."

"It could degenerate into a popularity contest. I don't think it was last year, but it could easily become one." Mr. Stuart added. He then stressed the point that the award was not for an outstanding individual, but rather a recognition of a person to represent the sincere and capable instructor in his school.

Mr. Stuart then remarked that "Usually the teaching profession has its own rewards. We don't really need this sort of thing." Mr. Stuart was quick to admit, however, that more thought should be directed toward teaching.

It had previously been pointed out to this reporter in interviews that an evaluation of teaching, like any other art, is a haphazard project at best. "I'm afraid that at the college level teaching is the last thing the administration concerns itself with—primarily because it is so difficult to evaluate. The number of committees a teacher is on,

the number of books he publishes—these are concrete things. But it is impossible to look into the classroom and evaluate the teacher." Perhaps the award program

Mr. Duncan R. Stuart

can at least direct some additional attention to this critical part of our society—education. But, in gratitude for the efforts of the students at State in at least originating such a program, Mr. Stuart warmly said, "I'm quite happy to have received it."

Mr. Stuart attended high

school in Oklahoma City, Oklahoma. He then pursued his education at the University of Oklahoma, Chouinard Art Institute, and Yale University.

Since 1942 he has been engaged in the practice of teaching. He was an instructor at the Waterbury Art Institute in Waterbury, Connecticut, an Assistant Professor at his old Alma Mater, the University of Oklahoma, and a visiting lecturer at the University of Michigan. In 1948 he joined the State College staff as an Associate Professor in the School of Design. He has also served as Vice-President of the Skybreak Carolina Corp. in Raleigh.

Other activities Mr. Stuart has engaged in include membership in the North Carolina Art Society and the Fuller Research Foundation. He has been a consultant with A. G. Odell and Associates on Laurinburg College.

Mr. Stuart's exhibitions have been seen in the New Arts Gallery, Atlanta, Ga.; the N. C. State Museum, Raleigh; the Mint Museum; Washington Lee University; Person Hall Gallery, Chapel Hill; Witherpoon Gallery, Greensboro; the Annual Arts Festival, Greenville, N. C.; and the Carnegie

(See *STUART*, page 6)

National Study Board Makes James A Member

Dr. H. Brooks James, dean of agriculture at North Carolina State College, has been appointed to the advisory board of the National Agricultural Extension Center for Advanced Study.

Dean James, who will represent deans of agriculture on the board, was appointed by Dr. John A. Perkins, president of the American Association of Land-Grant Colleges and State Universities.

The center, located at the

University of Wisconsin, was established in 1954 under the sponsorship of the W. K. Kellogg Foundation. It trains extension administrators and potential administrators to identify and attack problems which limit the effectiveness of extension work.

Dr. Robert C. Clark, director of the center, recently expressed his appreciation for "... the excellent support which North Carolina has provided in the development of the Center..."

Chem. E's Take Prize In Papers Contest

Chemical engineering students from North Carolina State College won first place in a Student Technical Paper Competition held last week during the annual Southeastern Regional Conference of Student Chapters of the American Institute of Chemical Engineers at Tulane University, New Orleans, La.

The winning paper was co-authored by Kenneth Jolls of Raleigh, Donald R. Paul of Bath, and Wilbur J. Privott of Tyner. Its topic covered the re-

sults of original research conducted by the students on a method for separating two materials which could not be separated by conventional methods.

Seven papers were entered in competition.

Presiding over the three-day conference, which attracted student chapter representatives and faculty members from 15 major engineering schools in the Southeast, was Jim Keistler of Great Falls, S. C., a State Col-

British scientists says

Cancer And Sputnik Spur U S Research

The dread of cancer and Russia's Sputnik triggered off a heavy investment in both basic and applied research in the United States, a top British scientist said at North Carolina State College recently.

Dr. Christopher Jolliffe of London, deputy director of the United Kingdom's Department of Scientific and Industrial Research, said the impact of the Soviet Union's first satellite and cancer is evidenced in American scientific activity.

No such reaction has been noted among British scientists, Dr. Jolliffe remarked at a luncheon given in his honor by Chancellor John T. Caldwell of State College.

Dr. Jolliffe praised the National Science Foundation, the National Institutes of Health, and the U. S. Naval Laboratory for their work in the advancement of science.

Traveling in the United States under the auspices of the National Science Foundation, Dr. Jolliffe spent Wednesday at North Carolina State College and visited Duke University Thursday. He toured the University of North Carolina in Chapel Hill Tuesday.

After a whirlwind visit to State College scientific laboratories, the English scientist declared, "This is a stimulating way of improving one's own job."

He said he was "full of admiration" for the research and teaching work at State College

and UNC and said he was "overwhelmed by the friendliness and warmth of welcome" which he received at the two North Carolina institutions.

Representing Chancellor Caldwell, Dean John W. Shirley welcomed the visiting dignitary to State College. Attending the luncheon in his honor at the college were deans of State College's major schools and other officials of the institution. His schedule to the college was arranged by Dr. W. J. Peterson, dean of the Graduate School.

Dr. Jolliffe will return to London May 8 after visiting the National Science Foundation's headquarters in Washington, D. C., and Harvard University and the Massachusetts Institute of Technology.

At North Carolina State College, he was greeted by a fellow scientist, Dr. Ian N. Sneddon of the University of Glasgow, now a visiting professor at the college.

Summer Basketball for Players
May be Restricted by NCAA

WASHINGTON UPI — The National Collegiate Athletic Association Council Tuesday voted to draft legislation to stop college basketball players from playing with organized summer teams.

NCAA executive director Walter Byers said the council voted to adopt in principle the recommendations of a special committee on summer basketball competition.

(See BASKETBALL, page 6)

Engineering Education

"Engineering Education for the Sixties" was discussed recently during the annual spring meeting of the State College School of Engineering's Advisory Council.

The meeting was held on the State College campus with Albert Jones, Council chairman, as moderator of the panel discussion. Jones is vice president of Carolina Power and Light Company, Wilmington.

During the discussion, Dr. J. Harold Lampe, dean of engineering, brought out that the college's School of Engineering is placing greater emphasis on

its doctoral programs in order to give greater opportunities to students, gifted in the direction of design and research and development, for additional training and specialization.

Special guests for the program were North Carolina school superintendents.

Dr. R. G. Carson, director of instruction at the school, told the group that course revision goes on constantly at the School of Engineering and will always continue in order to meet the needs of today's technological developments.

A new curriculum—Engineering Operations—designed to aid both small and large industries in the State and which is now in its planning stages was reviewed by Dr. W. C. Bell, head of the school's Industrial Extension Service.

Dr. P. H. McDonald, head of the Department of Engineering Mechanics, in discussing engineering for research and development said that students with interest in design and research and development must be thoroughly grounded and prepared to enter a graduate program in order to serve industry in these areas.

Following the panel, a discussion

Honors Haitovsky

The State College chapter of Gamma Sigma Delta presented its Senior Certificate Monday night to Yoel Haitovsky for having the highest grade average of all seniors in the Schools of Agriculture, Forestry and Education.

Haitovsky, who is from Haifa, Israel, has a grade average of 3.83. He is majoring in agricultural economics and statistics.

The senior certificate was presented at Gamma Sigma Delta's annual banquet in the College Union. Harry B. Caldwell, master of the State Grange and chairman of Secretary of Agriculture Freeman's Farm Advisory Committee, was principal speaker.

New officers elected for the society, which is an international organization of agricultural scientist and educators, were Dr. W. M. Lewis, president; Dr. D. F. Matzinger, vice president; and Dr. M. H. Farrier, secretary-treasurer.

New initiates included one alumnus, five faculty members, 18 graduate students and 24 seniors.

The alumnus was E. Y. Floyd of Raleigh, director of the North Carolina-Virginia Plant Food Institute, Inc. The faculty members were Drs. Carey H. Bostian, Richard A. King, James G. Lecce, William E. Splinter and Bruce J. Zobel.

Graduate initiates were David A. Adams, Raleigh; Mrs. Opal G. Brendle, Raleigh; Adam C. Davis, III, Greenville; Bobby R. Eddleman, Goodnight, Texas; James F. Coggans, Lennox, Ga.; Howard W. Hjort, Medicine Lake, Mont.; Warren E. Johnston, Winters, Calif.; Jasper Jooste, Union of South Africa; Paul D. Legg, Cary; Norman E. McGlohon, Auburn, Ala.; Everett R. Mitchell, Itasca,

Texas; R. James Peeler, Jr., Raleigh; Henry E. Schaffer, Yorktown Heights, N. Y.; Blair J. Smith, Belle Vernon, Pa.; John M. Soileau, Washington, La.; Mitchell H. Thomas, Jr., Mullins, S. C.; Clas M. von Ramm, Germany; and Jerry M. Young, Mulberry, Tenn.

Senior initiates from the School of Education were Walter A. Edwards, Marshville; Edwin P. Elkins, Jr., Clarkton; Alfred L. Elmore, Dunn; Richard T. Liles, Zebulon; Benjamin G. Potter, New Bern; and James F. Wilder, Tabor City.

Senior initiates from the School of Agriculture were Wayne M. Brooks, Raleigh; Chusak Chavengsakongkram, Thailand; Donald L. Clifne, Gold Hill; Worth F. Cone, Spring Hope; John L. Edwards, Jr., Clyde; Yoel Haitovsky, Israel;

On Campus with Mr. Sabin
(Author of "I Was a Teen-age Door", "The Many Loves of Dobie Gillis," etc.)

A ROBE BY ANY OTHER NAME

As Commencement Day draws near, the question on everyone's lips is: "How did the different disciplines come to be marked by academic robes with hoods of different colors?" Everybody—but everybody—is asking it. I mean I haven't been able to walk ten feet on any campus in America without somebody grabs my elbow and says, "How did the different disciplines come to be marked by academic robes with hoods of different colors, hey?"

This, I must say, is not the usual question asked by collegians who grab my elbow. Usually they say, "Hey, Shorty, got a Marlboro?" And this is right and proper. After all, are they not collegians, and, therefore, the nation's leaders in intelligence and discernment? And do not intelligence and discernment demand the tastiest in tobacco flavor and smoking pleasure? And does not Marlboro deliver a flavor that is uniquely mellow, a selectate filter that is easy drawing, a pack that is soft, a box that is hard? You know it!

"What has Mr. Sigafos got that I haven't got?"

But I digress. Back to the colored hoods of academic robes. A doctor of philosophy wears blue, a doctor of medicine wears green, a master of arts wears white, a doctor of humanities wears crimson, a master of library science wears lemon yellow. Why? Why, for example, should a master of library science wear lemon yellow?

Well sir, to answer this vexing question, we must go back to March 29, 1844. On that date the first public library in the United States was established by Ulric Sigafos. All of Mr. Sigafos's neighbors were of course wildly grateful—all, that is, except Wrex Todhunter.

Mr. Todhunter had hated Mr. Sigafos since 1822 when both men had wooed the beautiful Melanie Zitt and Melanie had chosen Mr. Sigafos because she was mad for dancing and Mr. Sigafos knew all the latest steps, like the Missouri Compromise Mambo, the Shay's Rebellion Schottische, and the James K. Polk Polka, while Mr. Todhunter, alas, could not dance at all owing to a wound he had received at the Battle of New Orleans. (He was struck by a falling praline.)

Consumed with jealousy at the success of Mr. Sigafos's library, Mr. Todhunter resolved to open a competing library. This he did, but he lured not a single patron away from Mr. Sigafos. "What has Mr. Sigafos got that I haven't got?" Mr. Todhunter kept asking himself, and finally the answer came to him: books.

So Mr. Todhunter stocked his library with lots of dandy books and soon he was doing more business than his hated rival. But Mr. Sigafos struck back. To regain his clientele, he began serving tea free of charge at his library every afternoon. Thereupon, Mr. Todhunter, not to be outdone, began serving tea with sugar. Thereupon, Mr. Sigafos began serving tea with sugar and cream. Thereupon, Mr. Todhunter began serving tea with sugar and cream and lemon.

This, of course, clinched the victory for Mr. Todhunter because he had the only lemon tree in town—in fact, in the entire state of North Dakota—and since that day lemon yellow has of course been the color on the academic robes of library science.

(Incidentally, the defeated Mr. Sigafos packed up his library and moved to California where, alas, he failed once more. There were, to be sure, plenty of lemons to serve with his tea, but, alas, there was no cream because the cow was not introduced to California until 1931 by John Wayne.)

State Hosts Fifteenth Annual Big Four Sports Day Monday

By Richie Williamson
Associate Sports Editor

North Carolina State College will host to the fifteenth annual Big Four Sports Day and the fifth annual Big Four Rod and Gun Meet on Monday afternoon. This event is the annual competition among the best intramural athletes in nine different sports and four different rod and gun events.

The program of events gets off to an early start on Monday with the first round of golf beginning at 10:30 a.m. at the Wildwood Golf Course. The remaining eight events will all start at 1 p.m. in the gymnasium and various athletic fields with the second rounds of play beginning around 3 p.m. All of the events in the Rod and Gun meet will commence at 2 p.m.

At the end of the afternoon the presentation of awards will be made at 5 p.m. in front of the Frank Thompson Gymnasium. There will be given the Sports Day trophy to the school that has accumulated the most overall points for finishes in each of the nine sports. Also, there will be given an individual trophy to the winners of the skeet, skish, archery, and target rifle events in the Rod and Gun part of the meet.

The Sports Day trophy is a rotating trophy which requires that a school win the meet three times before retaining permanent possession of the trophy. State has won two legs on this current trophy while Carolina and Wake Forest have each won one leg. Carolina was the winner last year as they edged out State 24-23 in total points. Also, Carolina has previously retired two of the Sports Day trophies.

Besides the golf at Wildwood Course, handball, table tennis, and badminton will be held in Thompson gym; softball and horseshoes on the intramural fields; volleyball on Doak Field; tennis on the upper tennis courts; and bowling at Western Lanes. The rod and gun events will have the skeet at the Sir Walter Gun Club, skish in the Pullen Park Lake, archery in Riddick Stadium, and target rifle on the R.O.T.C. rifle range in Thompson Gym.

The State intramural department has been holding tryouts each day this week in selecting the best teams in a big effort to retire the trophy this year. These contestants will meet with the other athletes from Carolina, Duke, and Wake Forest at the

gymnasium at 12:30 where pictures will be taken.

In last year's meet at Carolina, State won first places in softball and horseshoes; second place in badminton, table tennis, volleyball, and tennis. The handball team picked up a third place while the golf team was the only event that State finished last. State won the Rod and Gun meet last year taking first

in the target rifle and archery and came in third in the skish event.

This year there have been two new events added to the program, bowling to the Sports Day and skeet to the Rod and Gun meet. These events will add more participants to the ever growing event which will bring about 400 top intramural athletes together.

Hurlers Set For Test

North Carolina State's pitching staff, which has a combined earned run average of only 1.49 runs per game, will be put to a severe test when the Wolfpack hosts South Carolina, Friday, and Clemson, Saturday, in a 1:00 p.m. double-header.

Bobby Conner, who has the Atlantic Coast Conference's top earned run average of 0.79, will be on the mound for the Wolfpack against South Carolina in the 3:00 p.m. game.

Coach Vic Sorrell will then have the ACC's number two ERA man Joel Gibson, Gastonia senior, work the first game against Clemson. Gibson has started and completed four games and has allowed only 1.02 earned runs per game.

Completing State's "Big Three" mound staff is Wilson Carruthers, Greensboro senior, who will pitch the second game against the Tigers on Saturday. Carruthers has a 2.55 earned run average.

These three righthanders have gotten all the decisions in State's 8-2 overall record and 4-2 ACC mark. Gibson has won four-of-five games while striking out 28 batters; Conner is undefeated in two decisions; and Carruthers is 2-1 thus far.

Conner, a Wilmington junior, has been extremely effective. He has faced 41 batters this year, striking out 14, walking but one man, and allowing only six hits in his 11½ innings on the mound. Bobby is also hitting .429 with three hits and three runs-batted-in.

"This has been the most effective pitching staff I've had in my 16 years at State," noted Sorrell, a nine-year veteran for the Detroit Tigers.

Netters Smash ECC; Deacs Here Friday

Coach John Kenfield's netters smashed East Carolina Wednesday afternoon 7-2 here on the State courts. The next match for State will be tomorrow afternoon when they face Wake Forest College.

The Pack swept through the matches they won with relative ease. State's number one man, Mustaq Saigal, was forced to go into the third set to win his match in the singles competition.

Elton Roberson scored the only East Carolina victory in the singles when he downed Doug Cooper 1-6, 6-3, and 6-3.

The win for State pushed their overall record to 8-3. A match that was scheduled with North Carolina last Monday was moved up until next Tuesday afternoon on the Tar Heel courts.

Summaries from the East Carolina match are as follows; Singles

Mustaq Saigal (S) over Harry Felton, 1-6, 6-2, 6-4.

Phil Jacobs (S) over Blarney Tanner, 6-1, 6-2.

Jim Spence (S) over Jerry Muecke, 6-2, 6-2.

Jim Hart (S) over Al Webb, 6-2, 6-0.

Elton Roberson (ECC) over Doug Cooper, 1-6, 6-3, 6-3.

Jim Skidmore (S) over Jim Brown, 6-3, 6-4.

Doubles

Jacobs and Spence (S) over Felton and Tanner, 6-2, 6-3.

Saigal and Hart (S) over Webb and Muecke, 6-4, 6-0.

Roberson and Stafford (ECC) over Charles Duke and Walt Brown, 6-2, 2-6, 8-6.

State Frosh Dropped, 10-5

The North Carolina State freshmen baseball team fell to the Carolina frosh Wednesday afternoon 10-5. The State freshmen have managed to win only one contest so far this season.

State got off to an early lead, but the Tar Heels plated six big runs in the third inning to lock the game up. State came back with two in the bottom of the third frame and one in the seventh, while Carolina scored three in top of the ninth to complete the scoring for the afternoon.

Carolina scored their ten runs on 13 hits and with the help of four State errors. State picked up their five runs on eight hits. Carolina made only one error.

Dave Willard was the winning Tar Heel pitcher, while he pitched only two and two-third innings. Ron Skosnik was the losing hurler for State.

George Lockhart led all hitters in the game with four hits in five time at bat. Lockhart collected two doubles and two hits in addition to having two rbi's to his credit. Charles Mulchi and Ron Erb led the State hitters with two hits in four trips to the plate apiece.

NCS 202 000 100-5 8 4

STATELINE

By EARL MITCHELLE

There Were Changes For Duke

Coach Vic Sorrell threw a new lineup at Duke Tuesday and it might have had a direct bearing on the outcome of that contest. Les Young, who started the season at third base, was put in rightfield where he made several fine catches despite the gusty wind that blew all afternoon. Roman Gabriel moved into first base from the outfield and Jerry Krecicki, who has seen only limited action this year, played in Gabriel's place.

Just last week Coach Sorrell revised his initial infield to provide a tighter defense. Vernon Strickland was moved back to his old position at third base from second base and sophomore Ray Russell was tapped as the number one second sacker. Since the new infield combination was installed the number of State errors decreased tremendously. Russell is a little light with the stick, but his good fielding makes up for this shortcoming at the plate.

At shortstop Wayne Edwards has turned in top performances all season in the defensive game of the Wolfpack as well as leading the State hitters. Edwards is very good in his movement to the right and he is a good double play man. Edwards and Russell team together to make slick double play combination around second base.

Things May Be Different Next Year

After five years, Frank McGuire's pet subject is going to get serious consideration by the Atlantic Coast Conference. McGuire, the Carolina cage coach, wants to have the NCAA representative of the ACC to be determined by the regular season play instead of the post-season tournament. This among other items will be on the agenda for the ACC meeting which begins next Friday.

Among the other proposals that will be up for discussion will be one concerning summer leagues and all-star games. The proposal, if passed, would eliminate any summer league or all-star play for basketball players having any eligibility the following year. This proposal, if passed, might cause a slight decline in the class of basketball played in the ACC. The summer league provides an ideal place for the ACC basketball player to improve himself and tryout new ideas and movements.

Another proposal up for discussion concerns teams on probation playing in the annual tournament. The new rule would not allow any team on NCAA probation to play in the ACC tournament. This proposal is probably the best of the whole bunch. It is just not fair for a team, which is on probation, to knock a team out of the running that is eligible for championship play.

This idea has a parallel in the other method of determining a conference representative. If the champ is to be decided by regular season play, would it be fair to count the games that each team plays against the team on probation? Some would say no and some would say yes. Those who would want to keep the probation team out of the tourney would probably want to keep the same team from having a bearing on the conference race.

If we had to vote we would vote to keep the tournament as a means for determining the NCAA representative, to allow summer league play, and to keep teams on probation from having any bearing on the determining of the champion of the conference.

—oOo—

Big Four Sports Day

State College will be host for annual Big Four Sports Day to be held on May 1. Teams from North Carolina, Duke, and Wake Forest as well as State will meet in nine sports. The Sports Day will feature the best athletes in the intramural programs of the different schools.

State needs to win only one more overall championship to gain permanent possession of the team trophy. For a more complete report of the activities read the article on this page.

Animal Industry

The annual Animal Industry Club Livestock Day will be held Saturday, April 29, 1961, at the State College Dairy Farm Pavilion beginning at 9:00 a.m. Throughout the morning there will be showing contests for swine, sheep, beef, and dairy animals. After lunch, judging contests in each of these same divisions will be held at the College Livestock Farm.

Advisory Group

(Continued from page 4) A discussion session was led by Nello L. Teer, Jr., vice chairman of the council.

More than 100 council members, school superintendents, and college staff attended the morning program. Following a luncheon at the college cafeteria, they adjourned as a group to the formal opening exercises of the 8th annual Engineers' Fair.

(Continued from page 4)

The proposed legislation would make violating players permanently ineligible for further college competition during the remainder of their days in school.

Byers said the council had numerous reasons for stopping the summer basketball competition.

He said some of the summer basketball leads players to making "undesirable contacts not in the best interest of the athletes or athletics."

L&M UNLOCKS CAMPUS OPINION

#4 in a series of polls conducted by L&M student representatives in over 100 colleges throughout the nation.

Light up an L&M, and answer these questions. Then compare your answers with those of 1,383 other college students (at bottom of page).

Question #1: In your opinion, who is the greatest living American?

Answer: _____

Question #2: Should the college curriculum, taking note of the growing importance of science, require more science courses for non-science majors than at present?

Answer: Yes _____ No _____

Question #3: When you kiss your date, do you close your eyes?

Answer: Close my eyes _____ Don't close my eyes _____
Can't remember _____

Question #4: In your opinion, which of the following types of filters gives the best connotation of purity? (CHECK ONE)

Answer: A filter which is white inside and is wrapped in colored paper _____
A filter which is dyed a color and is wrapped in white paper _____
A filter which is white inside and out _____

L&M Campus Opinion Answers:

Answer, Question #1: Six highest scoring individuals: 1. Kennedy - 2. Eisenhower 3. Stevenson - 4. Schweitzer - 5. Frost 6. Sandburg
(This question was asked February 1961. Note: Dr. Schweitzer is not an American.)

Answer, Question #2: Yes 30% - No 70%
Answer, Question #3: Close my eyes 76%
Don't close my eyes 11%
Can't remember 13%

Answer, Question #4: A filter which is white inside and is wrapped in colored paper 21%
A filter which is dyed a color and is wrapped in white paper 5%
A filter which is white inside and out 74%

L&M was first to offer you a pure white modern filter — the famous Miracle Tip — pure white inside, pure white outside. And L&M's modern filter enables you to fully enjoy the rich flavor of golden ripe tobaccos. So reach for flavor... reach for L&M.

The L&M Campus Opinion Poll was taken at over 100 colleges where L&M has student representatives, and may not be a statistically random selection of all undergraduate schools.
