Golden Chain To Add New Links

Top NCS Rising Seniors To Be Tapped In Stadium

The Golden Chain Senior Honor Society will hold its annual spring tapping on this Thursday, May 11, at 12 Noon. The tapping, being held in conjunction with the Golden Chain Alumni Banquet, will mark the 35th anniversary of the society. All rising seniors will join together and form the traditional circle around the society's sundial. From the Class of 1962 there will be chosen twelve "Links" to compose the membership of the 1961-1962 Golden Chain.

Membership into Golden Chain is the highest honor that a student can achieve at State College for excellence in leadership, service, and scholarship. The links form a segment in the never ending chain of State College leaders, and the society serves to bind each individual closer to his Alma Mater.

The ceremony will be held in Riddick Stadium, but in case of inclement weather, it will be held in the Coliseum. The tapping will be introduced by a short musical offering by the State Band and then Jimmy Futrell, President-elect of the Class of 1962, will call for the juniors in attendance to form the circle around the sundial. After the 12 Links are tapped, several members of the State College community will be tapped into honorary membership. All members of the Faculty and Staff are also invited to attend the ceremony along with the entire student body. As usual the ROTC units will form part of the audience, and this year delegations from each Fraternity are expected.

The members of the 1960-1961 Golden Chain have sought to serve the student body by spon-

soring Parents' Weekend, with special emphasis on dormitory and fraternity participation; and the final undertaking of the year will be the special Alumni Banquet to be held on Friday night at which time the new members will be initiated. In every way this year's Golden Chain has sought to serve the student body and N. C. State College. The banquet will tend to draw many of State's leaders closer together and create stronger alumni ties.

The members of the 1960-1961 Golden Chain who will participate in Thursday's ceremony are Sandy Matthews, Arch-Regent Ron Shearon, Regent; Joel Ray, Scribe; Tom Eck, Treasurer; Bob Cooke, Dick Currie, Frank Madren, Charlie Russell, Lad Daniels, Kent Watson, Roger Mazingo, and Don Blizzard.

YMCA To Open Center For Foreign Students

North Carolina State College's International Student Center in the college's YMCA Building will be formally opened by Chancellor John T. Caldwell at 4 p.m. Thursday (May 11).

The center is located in the basement of the building.

The 240 foreign students attending State College will meet in the South Wing of the building to hear talks concerning the purpose of the center.

Oscar A. Wooldridge, Jr., Coordinator of religious activities at the college, is director of the center, and Dr. Roy N. Anderson, head of the Department of Occupational Information and Guidance, is campus-wide foreign student adviser.

Wooldridge said with the increasing number of foreign students who are being invited to the United States, State College has found it is necessary to establish a center to assist per-

sons from abroad arriving on the campus.

Problems arising from housing, curricula, invitations to appear before local organizations, and personal family problems are anticipated as some of the areas in which the center can benefit the foreign student by referring him to the proper persons on campus for assistance.

The center will house a lounge area with office space for files and records. For entertainment, a television set will be available in the room.

Program activities will not be a responsibility of the center, but will continue to be carried on by the International Committee of the College Union and the International Club, sponsored by the local Young Women's Christian Association.

Encouraging compliance with regulations required of inter-

(See Foreign, page 4)

First Alumni Banquet To Feature Dave Morrah

David W. Morrah, Jr., newspaper columnist and author, will be the featured speaker at the Golden Chain Alumni Banquet on Friday, May 12. Mr. Morrah, whose books and articles appear under the pen name, Dave Morrah, graduated from N. C. State in 1935 with a B.S. degree in Architectural Engineering. While at State, Morrah was an outstanding campus leader and was one of the twelve "Links" in the 1935 Golden Chain. It is therefore appropriate that such a dynamic individual should return to the college for the first Golden Chain Alumni Banquet and be the after-dinner speaker.

Morrah, who is the Director of Public Relations and Promotion at Guilford College, is a native of Greensboro, and he and his wife and daughter still reside there. Morrah is well known for his humorous writings which appear in the Saturday Evening Post, Parade, and American Legion Magazine to name a few. He is the author of many books including Cinderella Hassenpfeffer, Fraulein Boepepen, Sillynynms, Heinrich Schnibble, Alice in Wonderbarland, and Who Ben Kaputen Der Robin?

While a student at State College, Morrah was a member of Blue Key, Tau Beta Pi, Phi Eta Sigma, 30 & 3, the Monogram Club, the swimming team, and the wrestling team. He was captain of the wrestling team his senior year, and was also Southern Conference champion in his weight division. He later served as wrestling coach at N. C. State. Morrah also served as editor of the *Watasagan*, the campus humor magazine. After graduation, he did post-graduate research in the life of Leonardo da Vinci.

The Alumni Banquet is the first of its kind to be held by the Golden Chain since its founding in 1926. Many of the Alumni of the society will be present at the tapping on Thursday, May 11, and a large turnout is expected at the banquet. Noteworthy also is that this gala evening marks the 35th anniversary of Golden Chain. Many long hours have gone into the planning of the occasion, and it marks the close of one of the most fruitful years of the senior honor society. Parent's Weekend, sponsored by the Golden Chain, was a tremendous success from every aspect; and the forthcoming alumni gathering should be one of the highlights in Golden Chain history.

NCS May Train Peace Corps

A study is underway at North Carolina State College of the possibility of establishing a Peace Corps Training Center at the institution, Chancellor John T. Caldwell announced today.

If established, the center would be a training area for students who will participate in President Kennedy's unique Peace Corps throughout the world.

Chancellor Caldwell has appointed an ad hoc committee of faculty members to formulate a program proposing the Peace Corps headquarters that a training center be set up at the college.

Dr. Abraham Holtzman, pro-

fessor of history and political science, is committee chairman.

Other members are Dame G. Hamby, professor of textiles; Dr. Howard G. Miller, head of the Department of Psychology; Charles Smallwood, Jr., professor of civil engineering; J. A. Rigney, head of the Department of Experimental Statistics; and Dr. F. V. Cahill, dean of the School of General Studies, ex officio.

The chancellor's action closely follows a resolution adopted by the State College Student Government and subsequently endorsed by the Faculty Senate that the college administration invite the United States Government to use State College as a training school.

The Student Government also sent a delegation of two students to the National Planning Convention on the Peace Corps, held at the American University in Washington, D. C.

Dr. Holtzman declared, "State College is admirably set up for conducting training of Peace Corps participants."

Peace Corps policy-makers have designated five aspects of training that potential training centers must fulfill.

These are: (1) to develop necessary skills to be used by participants in the country in which they will serve; (2) to train participants in American government, history, and culture; (3) to teach the language of the country to which a participant will be assigned; (4) to teach the history and culture of the country; and (5) to conduct rigorous physical training of participants.

Dr. Holtzman continued that State College already is geared to fulfill almost every function required of a training center.

"With just a few modifications and the addition of a few

faculty members we'd be all set to go," he said.

Chancellor Caldwell has indicated the College would probably need some supplementary housing.

A Sky-Divers organizational meeting will be held in the College Union on Thursday, May 11, at 8:00 p.m. All persons who may be interested in Sports Parachuting are invited to attend.

Movies will be shown and instructors from the Fort Bragg Parachute Teams will be present to answer questions.

An Insurance Program will be given Wednesday, May 10, at 7:30 p.m. by representatives from the State Insurance Commission. These men are not salesmen. Any interested persons are invited to attend this program in the College Union. Coffee will be served after the program. This discussion is sponsored by the College Union

House Committee.

Notice to the holders of College Union Carnival Night Door Prize Tickets. The winners are requested to bring their stubs to the College Union Activities Office before May 12, 1961, and pick up their prizes. The winning numbers are: 1062, 1129, 1528, 1561, 1593, 1607, 1671, 1761, 1902, 1927, and 1970.

A white Manstyle (London Fog type) jacket was left in Room 5 of Winston Hall at 11 o'clock Saturday morning. It contained a key case with four keys, including a room key to 314 Becton. Charles Gary Fisher would be very grateful for the return of these items. Telephone TE 2-9372.

Pachner Art Exhibit Planned In C U Gallery

A retrospective exhibition of paintings and drawings by William Pachner, well-known Florida artist, is being shown in the College Union Gallery at North Carolina State College through May 20.

The exhibition includes 35 works selected by Kenneth Donahue, director of the John and Mable Ringling Museum of Art in Sarasota, Fla. The works are on loan from private collectors, museums, dealers, and the artist himself.

The retrospective is being shown under the auspices of the American Federation of Arts under provisions of a grant from the Ford Foundation. It represents a part of the Foundation's program in the humanities and the arts to increase opportunities for the U. S. public to view works of established artists.

Representative works from

Pachner's entire career to date are being shown in the retrospective. Early works include "Maternita," 1943; "German Train," 1944; and "Figure in Prayer," 1947. Later works include "Negro Pieta," 1950; "Space, Time, Embrace," 1955; "Night Scene," 1958; and four drawings entitled "Lovers," 1951-54.

Kenneth Donahue, in his essay for the retrospective catalogue, states that Pachner had "... a firm determination to keep alive the consciousness of brutality and inhumanity existing in our time and to plead for humanistic values."

Pachner was born in Czechoslovakia in 1915. He came to the United States in 1939 and worked as a commercial artist for six years. In 1945 he decided to devote himself to serious painting, following confirmation

(See Pachner, page 3)

College Future Plans Aired

North Carolina State College will have an enrollment in the realm of 12,000 students by 1970, the college's campus planner reported Tuesday.

A glimpse of the burgeoning institution as it will take form in the next decade was given by Prof. Edward Waugh, the campus planner, in a speech at a luncheon session of the City-County Subcommittee of Commerce's Planning Committee.

How State College will cope with its greater teaching and research loads can be met, in part, by physical planning, said Waugh.

"The other part must come from better fiscal support of the faculty," Professor Waugh added.

A rising campus skyline—plus "technological space platforms"—and larger classes will characterize the State College of the future, Waugh predicted.

He said physical planning can help shape the expanding campus with these solutions:

"a. By using larger classes.
"b. By saving land and tightening up the campus so that it becomes more efficient in its operation.

"c. By building high-rise dormitories to put all students within walking distance of their academic and research activities on the campus.

(See Future, page 4)

Why is This Required?

For the last few weeks, we have heard many comments from students who feel that they should not be forced to march in the Graduation Parade on the Saturday before exams; and that the threat of failure of their R.O.T.C. courses if they do not march is very unfair.

We would be inclined to agree with this stand for two reasons.

The first is because exams are always so difficult that any time which can be begged, borrowed, or stolen to prepare for them is welcome; and this parade will bite into the insufficient time students have for exam preparation.

If a student does not have any Saturday classes and has an exam on Monday morning of exam week, he has two and a half days to prepare for the start of his exams. This would give him twenty-nine hours of study time at the very most to prepare for his Monday exams. Anyone who has been through an exam week knows that he can accomplish very little in the way of study during the week; so this twenty-nine hours is very important as study time. The taking of exams, eating, sleeping, and the barest kind of review is all that the crowded schedule can bear. When one looks at these factors, the three or four hours which the students will sacrifice for preparation for the parade and the parade itself will be much greater than it appears out of context.

Secondly, the whole idea of filling class requirements after classes are officially closed goes against the concept of schooling. Anything which contributes (or detracts) from a grade should be offered during class time.

Of course we should not be too critical of this one case because the R.O.T.C. courses have a history of doing such things. We will not take the space to name any, but anyone who has been in contact with R.O.T.C. is familiar with the extra requirements one must fill to pass the courses.

Why can these quasi-academic departments exert such control over the students? The answer is simply that since R.O.T.C. is a required course, the students have no other choice than to take anything the departments dish out.

The part that seems most unfair to us is that although compulsory military training is required on this campus, it does not necessarily have to be. The act which placed military departments in Land Grant Colleges, in effect, says that military training will be offered in these colleges, and that is exactly what we recommend. If military training is offered but not required, the students who feel that this training will be beneficial to them can take the courses; and the people who do not want to participate in the program can take courses which they feel will help them more.

Military training can be a benefit to the students, but we feel that if it were offered on an elective basis, many of the injustices which the departments permit would be wiped out. Without these injustices, military training would prove to be a much greater help than it is under the present system.

The Glass Menagerie
Set For College Union

"The Stage and Script Society" of Atlantic Christian College will present "The Glass Menagerie" by Tennessee Williams in the College Union this Thursday evening, May 11, at 8:00 P.M., it was announced by the College Union Theatre Committee today.

The play takes place in an alley and run-down apartment in St. Louis in 1935 and 1945. The characters are: Amanda Wingfield (the mother): a woman of great but confused vitality, clinging frantically to another time and place; Tom Wingfield (the son): the narrator of the play. A poet with a job in a warehouse, to escape from a trap he has to act without pity; Laura Wingfield (the daughter): a girl like a piece of her own glass collection, to exquisitely fragile to move from the shelf; and Jim O'Connor (a gentleman caller): a nice ordinary man.

Amanda Wingfield is a faded tragic remnant of Southern gentility who lives in poverty in a dingy St. Louis apartment. With her are her son Tom and her daughter Laura. Amanda strives to give meaning and di-

rection to her life and the lives of her children, though her methods are ineffective and irritating. Tom, however, is driven nearly to distraction by his mother's nagging, and he seeks to escape in alcohol and the unrealistic world of the movies. Laura also lives in her illusions. She is crippled and this defect, intensified by her mother's anxiety to see her married, has driven her more and more into herself. The crux of the action comes when Tom invites a young man of his acquaintance to take dinner with the family. Jim, the caller, is a nice ordinary fellow who is at once pounced upon by Amanda as a possible husband for Laura. In spite of her crude and obvious efforts to entrap the young man, he and Laura manage to get along very nicely, and momentarily Laura is lifted out of herself into a new world, but this crashes when, toward the end, Jim explains that he is already engaged. The world of illusion which Amanda and Laura have striven to create in order to make life bearable, crashes about them. Tom, too, at the end of his tether, at last leaves home.

Educational Television
Proves Popular In South

ATLANTA, GA. — Southern states have pioneered in development of one of the nation's chief weapons against an overburdened educational system — educational television. Since 1952 these states have been developing the medium as a teaching tool, the Southern Regional Education Board reports in the current issue of its newsletter.

The Oklahoma and Alabama legislatures became the first in the nation to appropriate state moneys for building ETV facilities. In Texas, the University of Houston was the first ETV station in the nation to go on the air, the SREB said.

In 1954-55 Alabama built and operated the first state-wide educational television network in the nation. In 1960 Texas began operation of the first closed circuit TV network in the nation used exclusively for higher education, and Florida boasts the largest number of ETV stations in a single state in the nation.

Of 54 ETV stations in the United States, 21 are located in the South, SREB reports. Thirteen colleges and universities in the region are using open-circuit telecasting facilities, to varying extent, for presentation of college credit courses.

The ETV stations are owned and controlled locally by colleges and universities, by public

schools, state-administered ETV commissions or community, non-profit corporations, in about equal proportions. Most of the stations are located on university-college campuses or in public education buildings.

Today Alabama has the only true microwave ETV network in the country, but many other states have ETV facilities with the characteristics of networks. Florida's five stations, for instance, operate with many characteristics of a network.

The Alabama Educational Television Commission's network was established in 1953 by the state legislature with \$500,000 appropriated for constructing three stations.

The nation's first closed-circuit ETV network devoted exclusively to higher education was activated in February when a microwave network went into operating linking three Texas University campuses. Students at all three institutions began courses in "The Great Plains" and "Introduction to Psychology." By fall of 1961 the network

will expand to include eight other colleges and universities.

Other "networks" are in Oklahoma and Florida. Oklahoma has three stations with two of them interconnected. These two, one an ultra high frequency (UHF) and one a very high frequency (VHF) station, are in Oklahoma City.

Florida has ETV stations operating in Miami, Jacksonville, Tampa, Gainesville and Tallahassee. The Jacksonville and Gainesville stations are interconnected by microwave, as

are the two studios of the Tampa station.

The five ETV stations are all on VHF channels. Each is locally owned and operated, one by the University of Florida; one by Florida State University; one by a community foundation and two by public school systems.

South Carolina's closed-circuit educational network is being used to teach several hundreds of pupils simultaneously in 31

Tar Heels Hold Lead With Win Over State

The big bat of Jim Mooring paced the Carolina Tar Heels to a 4-2 ACC decision over the State Wolfpack here Tuesday afternoon. The game was called in the ninth inning on account of rain and darkness.

Pack Out

The loss dropped the Wolfpack completely out of the ACC flag race. On the other hand, Carolina took a stronger hold on first place with an 8-2 record as a result of the win over State. Duke is tied with Wake Forest for second spot in the league, each having 9-3 conference marks. Duke and Wake Forest met this afternoon in Winston-Salem in a rematch of the thriller that the Blue Devils won in Durham on Monday.

ACC Standings

	W	L	W	L
Carolina	8	2	12	4
Duke	9	3	11	8
Wake Forest	9	3	22	5
State	7	5	11	5
Clemson	6	8	10	9
Maryland	5	8	8	12
Virginia	2	7	5	8
South Carolina	1	11	3	14

Mooring, who now leads the ACC batting race with a .466 average, had three base hits in three times at bat and knocked in two runs to spark the Carolina win. Mooring had another base knock, a triple, marked out in the ninth inning when the game was called.

In the first inning after Paul Swing had grounded out, Tommy Camp rapped out a single. Ferg Norton followed him with a single and then both Camp and Norton advanced one base when there was an error on the

relay into the infield. Mooring then smacked out his first hit of the afternoon to plate Camp.

In the bottom of the second inning State tied the score when Roman Gabriel hit a booming 360-foot home run over the centerfield fence with one man out.

Carolina Adds One

In the third inning, Camp led off with a single and Norton popped out to Vernon Strickland at third base. Mooring got a single and then after catcher Carroll Boliek had struck out, Len Delloio lashed out a single to score Camp.

State came back with a run in the bottom of the seventh to tie the game. Wayne Edwards singled and Roman Gabriel grounded out to advance Edwards to second. Bobby Connor, who relieved starter Joel Gibson, singled in Edwards with the lone tally.

In the top of the eighth inning, Carolina scored the deciding runs. Heyward Hull slashed out a triple and then came home on a double by Larry Neal. After Nick Warren, the winning UNC hurler, fied out to deep right, Neal scored when Swing reached first on an error.

Warren posted his sixth win of the season and his ninth win of his collegiate career. Warren has never been beaten in college competition, but the Wolfpack has come close to beating the Durham ace this year. Warren won a 4-3 decision over the Wolfpack earlier in the season. Warren gave up five hits while fanning four and walking one.

Gibson started on the mound, but was replaced by Connor in

the third inning. While he was in the game, Gibson gave up six hits and two runs. Connor gave up five hits and two runs before he was relieved by Wilson Carruthers in the eighth inning with two men out. Connor was charged with the loss and his record is now 3-1 on the season.

State's next home game will be Saturday afternoon at 2:30 when they face the Cavaliers of Virginia. The Pack stopped the Cavaliers last weekend in Charlottesville 19-3.

of news that his parents and brother had been killed in Nazi concentration camps.

The artist has won many prizes and honors, including first prize in the Art Association of New Orleans 57th Annual Spring Exhibition—for "The Gate," number 29 in the exhibition; first prize in the Florida State Fair Fine Arts Exhibition, 1958; and first prize in The Butler Institute of American Art 24th Annual Kid-year Show, 1959—for "Variation on the Avignon Pieta," number 33 in the exhibition.

Today he heads the William Pachner School of Art in Clearwater, Fla.

The retrospective exhibition at State College is part of a nation-wide tour.

Teams Advance In First Round Of Softball Playoffs

The first round of the intramural softball playoffs were played on Monday afternoon in both the fraternity and dormitory leagues. Four games in each league's playoffs were battled with the winners meeting in the semifinal round on Wednesday. The finals are slated for Monday.

In the fraternity section, PKT overcame an eight-run lead of Sigma Chi's to pound out a 15-8 victory. Sigma Chi had scored its eight runs in the first three innings with the aid of home runs by Everett Norton and Wilbur Moxingo before PKT got in the run column. In the next three innings, PKT collected 18 hits and 15 runs to wrap

up the contest. Jerry Williams and Bob Thorn hit homers for PKT.

SPE scored in every inning as they stopped Farm House 14-4. Joel Baucom held Farm House scoreless for four innings while his teammates were building up an eleven-run lead. Mike Clark with two triples and a double, and Dan Wherry with 3 for 3 paced SPE at the plate.

Lambda Chi Alpha broke a 1-1 tie with Theta Chi with an 8-run outburst in the last inning for a 9-1 win. LCA used eight hits and a walk to get the runs after being held to four hits in the first six innings.

In the other playoff game for the frats, AGR downed Delta

Sig 11-6. AGR scored five runs early in the game and then held the lead the rest of the way. Allen had three hits for the winners.

In the dorm playoffs, Berry had to eliminate Becton before qualifying to meet Turlington in the same afternoon. However, Turlington stopped Berry's bid for a double victory. Berry scored seven runs in the first inning to pave the way for a 10-5 win over Becton. In their second game, Turlington edged out a 6-4 verdict. Bob Koontz smashed a homer with a man on in the fourth inning to provide the winning runs. Paul Shelton's three run homer in the first was

Future Plans Aired

(Continued from page 1)
"4. By investigating the application of technological advancement to help faculty avoid unnecessary duplication of course material."

Waugh added:
"In academic and research buildings, the solution is to build

structures of large spans which the College administration has decided to call 'Technological Space Platforms.' The idea is that such platforms would make it possible to pipe in any kind of service — electrical, electronic, water, gas, etc., and to change from one to the other readily as advances are made."

munications centers to prevent interference by Leopoldville authorities.

MIAMI — The Cuban press said thousands of Russians have volunteered to help Premier Fidel Castro build a "Stalingrad defense" against possible American invasion. Castro, in a speech to cadets, also said he would put political instructors in the Cuban army on the lines of the Soviet commissar system.

PARIS — French warships sailed from the Mediterranean naval base of Toulon for an undisclosed destination. There were signs that the tension among settlers in Algeria had reached the point at which a show of government force was warranted. The ships included the carrier Lafayette and the cruiser De Grasse.

Teams Advance

(Continued from page 5)
the big blow for Berry. Syme squeezed by Alexander in a close but wild contest, 15-13. Syme grabbed a 10-3 lead in the second inning, fell behind 13-11 in the fifth, and then scored four runs in the sixth for the win. King and Small paced Syme with four hits apiece.

Television

high schools in seven areas.

The University of North Carolina ETV station is fed from three studios—one at the University of North Carolina, Chapel Hill; one at North Carolina State College at Raleigh and one at the Woman's College of North Carolina in Greensboro. The three studios are connected to a 100-kw transmitter located at Chatham, via microwave relay links. Commercial stations in six North Carolina cities are also rebroadcasting the eighth and ninth grade science and math series of the ETV station.

Pi Tau Sigma Inducts

(Continued from page 1)
N. C.; Jesse R. Mills, Raleigh, N. C.; Robert H. Trammou Jr., Wilkesboro, N. C.; and George H. West, Kinston, N. C. Following the initiation ceremony the annual spring banquet for all members, their dates, Mechanical Engineering professors, their wives, and guests of the fraternity was held at the Charcoal Steak House. The speaker for the evening was Mr. E. L. Cloyd, who will be remembered as Dean of Students at N. C. State for many years. His humorous talk was well received by all present. Membership in Pi Tau Sigma

is the highest honor that can be obtained by a mechanical engineering student in his field. He must maintain a very high scholastic average in order to be eligible for membership. This is by no means the only requirement, for selection is also based on social adaptability, honesty, personal cleanliness, neatness.

UP News

OSLO, Norway—The United States will offer to consult its NATO Allies before making decisions on international problems, U. S. sources said Sunday. They said the American offer would be made by Secretary of State Dean Rusk during the 15-nation NATO conference opening Monday. Such consultation would strengthen NATO politically, they said.

LEOPOLDVILLE—The Congolese central government announced it will try Katanga President Moïse Tshombe for high treason. The charges included the murder of former Premier Patrice Lumumba, who was killed in Katanga. Tshombe was being held at Coquilhatville by Leopoldville troops. In Katanga, it was reported Tshombe's government was threatening to destroy dams and com-

Foreign Center Planned

national students in this country will be a concern of the center, as well as assisting students with renewal of visas and the fulfillment of alien requirements.

In addition, State College's School of General Studies will establish a new course planned to acquaint foreign students with American customs and political life.

Also, center officials have worked with the college's admissions office to provide a condensed catalogue designed for

overseas distribution. Following the opening exercises Thursday, refreshments will be served by the College Union's International Committee.

LUCKY STRIKE PRESENTS:

DEAR DR. FROOD:

DR. FROOD'S THOUGHT FOR THE DAY: Don't let exams upset you. After all, there are worse things—distemper, hunger, insatiable thirst.

Dear Dr. Frood: Shouldn't we spend our millions on education instead of a race to the moon? *Taxpayer*

DEAR TAXPAYER: And let the Communists get all that cheese?

Dear Dr. Frood: What would you say about a rich father who makes his boy exist on a measly \$150 a week allowance? *Angered*

DEAR ANGERED: I would say, "There goes a man I'd like to call Dad."

Dear Dr. Frood: How can I keep from bawling like a baby when they hand me my diploma? *Emotional*

DEAR EMOTIONAL: Simply concentrate on twirling your mortarboard tassel in circles above your head, and pretend you are a helicopter.

Dear Dr. Frood: A fellow on our campus keeps saying, "Bully," "Pip-pip," "Ear, ear," "Sticky wicket," and "Ripping!" What do these things mean? *Puzzled*

DEAR PUZZLED: It's best just to ignore these beatniks.

Dear Dr. Frood: What's the best way to open a pack of Luckies: Rip off the whole top, or tear along one side of the blue sticker? *Freshman*

DEAR FRESHMAN: Rip? Tear? Why, open a pack of Luckies as you would like to be opened yourself.

FROOD REVEALS SECRET: After exhaustive study and research, Dr. Frood claims to have discovered the reason why college students smoke more Luckies than any other regular. His solution is that the word "Collegiates" contains precisely the same number of letters as Lucky Strike—a claim no other leading cigarette can make!

CHANGE TO LUCKIES and get some *taste* for a change!
