## World Famous Group

### Roger Wagner Chorale To Perform Here Tuesday

The Roger Wagner Chorale, which has toured Europe, Canada, and the United States, will appear at State College Tuesday night as the third attraction this season of the "Friends of the College."

The Chorale, which will sing in the Coliseum at 8 p.m., was invited in 1953 to appear in London by the County Council of London as part of the Coronation season. The group has sung in London's Royal Festival Hall, at Paris' Salle Gaveau and in both Amsterdam and The Hague. The Chorale has been broadcast on the BBC, Radio Paris, and the Dutch radio. A reporter for the London Musical Times had this to say:

"There can be few if any small choirs in the country [England] which can come anywhere near to this choir's quality in matters of balance, dynamic range, rhythmic precision and accurate intonation."

The Chorale has made five tours of the United States and Canada. Last season under the auspices of President Kennedy's Special International Program for Cultural Presentations, the Chorale visited ten South American and nine Central American and Caribbean nations.

In 1958 the Chorale was presented the "Grammy," highest award of the recording industry, by the Academy of Recording Arts and Sciences for its album, "Virtuoso!," which has been called by the Academy the "best performance in the

field of operatic and choral music on all labels."

The program Tuesday night will feature Miss Salli Terri, a soprano soloist, who has been singing ever since her college days. Her activities are not restricted to music, however; she has taught school, written a newspaper column on education, and worked as a maid. She, with guitar accompanist Laurindo Almeida, has won two "Grammys" herself

College Union officials have announced that there will be no tickets sold for this event. Only season ticket holders and State College students will be admitted.

## Proposed Faculty Recreation Center Contract Awarded

The Special Committee of the Z. Smith Reynolds Foundation has named T. A. Loving and Company of Goldsboro as the prime contractor for the Faculty Recreation Center.

The Z. Smith Reynolds Foundation made a \$500,000 grant for this purpose to the North Carolina State College Foundation.

T. A. Loving and Company will handle all construction phases of the entire project.

Architects for the building are Guy E. Crampton and Associates, Raleigh. The planner for the outside facilities is the Allen Organization of Bennington, Vt.

The members of the Special Committee are Richard J. Reynolds of Sapelo Island, Ga., chairman and president of the Foundation; Mrs. Nancy Reynolds Verney, a member of the Board of Trustees of the Foundation; and H. W. Taylor, Director of Alumni Affairs, at State.

## Leazar, Honor Code Under Study By S G

The Honor Code and the cafeteria are under investigation, the Investigation Committee revealed at the Student Government meeting last Thursday. According to the Committee Chairman Robert Whitaker, other schools are being consulted to obtain information concerning their honor systems.

The Cafeteria Advisory Committee, headed by Jerry Puckett, reported that the cafeteria is being investigated to ascertain if there is some way to help the students eat more cheaply.

It was also reported that groups will no longer receive their financial allocations in one lump sum. Instead they must file a voucher for each major item of expense. According to

Treasurer Woodrow Taylor, if any groups are not aware of this procedure, they should contact him if they expect to receive their allocations.

President Norris Tolson reported that there was a good turn-out for the Peace Corps representative, Mr. James Lay, on October 30-31.

In other action, the Campus Welfare Committee brought up a resolution passed last year concerning a training program for newly elected senators. This program is designed to acquaint the new senators with the legislature so that they do not spend their first year in idleness. The plans for this program are nearing completion and will be presented at the next general meeting.

## Four Fearless Frosh To Fight To Finish

Four Freshmen will slug it out in a run-off for the job of Freshman Class President, while five will battle for the Vice-Presidency.

These nine contenders led a field of 32 candidates in yesterday's student elections.

The total vote—954—was the highest ever registered for Freshmen Elections, according to David Worsley, Chairman of the Elections Committee.

Six freshmen also were elected to Engineering Senator posts—Zell Porter, Gene Eagle, Skip Cole, Mike Kennedy, David Leonard, and Frank Dorn.

In the run-off next Tuesday, November 21, the candidates for President will be Ed Bailey, Jim Julian, John Atkins, and Ashley Morris. The slate for the Vice-Presidency includes Mike Scofield, Allen Tothill, Carl Kingson, Wade (Butch) Fields, and Zell Porter. A run-off will take place in the Secretary race between Donna Pecht and Gene Eagle. Frank Dorn and Glenn Chappell will vie for the office of Treasurer.

David Worsley, Chairman of Elections Committee, stated that, "We were very pleased with the election as a whole.

Approximately fifty per cent of the total Freshman Class took part in the voting, and this is well above the average participation in past years."

The eleven candidates in the Presidential race not making the run-off were Byrd 72, Scott 22, Leonard 35, Cole 68, Spainhour 19, Pugh 52, Wilkes 46, Williams 66, Rudasill 7, Brewer 16, Gayton 17, and two write-ins, Parker 3, and Lisk 1. Candidates for Vice-President not in the run-off are Harper 53, Gregory 24, Kennedy 51, Gross 28, Teer 64, Stewart 18, Wyeche 56, Bowers 49, Ewald 11, and Colquitt 48.

Thompson won the Senatorship for the Design school while Richard Smith won in the School of Education race. In the Forestry race Hight took the Senate over Gregory by a one-vote margin; Fred Pugh won the Agricultural Senatorship by two votes over Smith. In the Physical Sciences and Applied Math contest Jones took the election over Goddard with a five point margin. In Textiles, Kingson slipped by Scofield by only one vote.

The cluttered entrances to all campus buildings, such as Leazar Hall above, will be partially cleared this week, as the field of Freshman candidates for Student Government has been considerably narrowed in the primary.

## Campus Crier

Harrelson Hall will be open to the public November 18 and 19.

The building will be open from 12:30 to 4 p.m. Saturday and from 1 to 4 p.m. Sunday.

Guides will be provided by the State College chapter of the Circle "K".

A K&E slide rule in a black case was lost Friday in a student's car. The name on the case is M. C. Fowler. If this slide (See CRIER, page 4)

## Noted Calif. Prof Named Dept. Head

Richard Alan Moore, a practicing landscape architect, will be the new head of the Department of Landscape Architecture.

Moore, who is a faculty member at California Polytechnic College, was named to the position Monday by Chancellor John T. Caldwell

and Dean Henry L. Kamphoefner of the School of Design.

Prof. Moore will assume the position on January 3, releasing Dean Kamphoefner from duties he has held since 1952 in addition to the responsibilities as dean of the school. At the present time Kamphoefner will continue as acting head of the Department of Architecture.

Kamphoefner's announcement included the fact that, "an all-college faculty committee conducted a nationwide search for more than one year to find the best person available for the position. We feel fortunate that the position has been accepted by a young man of energy, enthusiasm, and talent." The committee referred to by the Dean includes representatives from the other seven schools at the college.

The 31-year-old Moore is a native of St. Louis, Missouri. He did his undergraduate work at the University of Missouri and received the master of landscape architecture degree from the University of Oregon.

(See MOORE, page 4)

## Phi Kappa Phi Inducts Top Students

Fifty-six State College students have been tapped for membership in Phi Kappa Phi.

Membership in Phi Kappa Phi is the highest academic honor a State College student can attain. Phi Kappa Phi in technological colleges is equivalent to Phi Beta Kappa in liberal arts schools.

Of this group 46 are seniors and 10 are graduate students. New senior members are: Charles Norman Adair of Burnsville; Allen Joseph Barwick of Grifton; Donald Lentz Cline of Gold Hill; Bobby Nelson Lancaster of Rocky Mount; Robert David Mustian of Kittrell; Jimmie Hildred Caldwell of Thomasville; Carlton Baxter

Carver of Roxboro; William L. Darracott of Raleigh; James F. Daughtry, III, of Raleigh; Phillip N. Nanzetta of Winston-Salem; Donald Schermerhorn of Fort George Meade, Md.; Samuel Devon Scott of Fair Bluff; Henry F. Tisdale of Raleigh; Robert E. Williams, Jr., of Clinton; and Maurice Gene Radford of Kenly.

Also, Dayne Herbert Brown of Raleigh; Donald Duane Childers of Kannapolis; Gerrard Edmond Raymond of New Orleans, La.; Richard Wayne Bullock of Zebulon; Dutch Jones Caldwell of Jacksonville, Fla.; John Stanley Christenberry of Garner; Frances Lee Goodwin of Apex; John Cecil Adams, Jr. of Gibson; Jerry Michael Allen of

Forest City; Richard Hobson Blackwell of Charlotte; Henry Wayland Blake of Winston-Salem; Wiley Ray Bland of Edward; Ronald Lee Boger of Winston-Salem; Wallace Carlyle Bradley of Gerton; Julius Paul Brauer of Norlina; and David Eugene Fetherston of Largo, Fla.

Also, Benny Joel Furr of Albemarle; Robert Wayne Guy of Fayetteville; Harold Paul Hamrick of Shelby; James Clifton Hart of Winston-Salem; Leland Kitchen McDowell of Tarboro; Jesse Reid Mills of Burlington; James Edward Peterson, Jr., of Charlotte; Mohamed B. Smires of Casablanca, Morocco; Larry Wayne Sink of Lexington; Thomas Manly Smith of New Bern; George Blount Taylor of

Rocky Mount; Richard Carter Woodman of Villa Park, Ill.; Joel David Artman of Norris, Tenn.; John Amos Toms of Forest City; and Yalman I. Balta of Ankara, Turkey.

New members from State College's Graduate School are: Charles Edward Siewart of Louisville, Ky.; William D. Stanley of Bladenboro, N. C.; Jasper V. D. W. Jooste of Williston, S. Africa; Hanson Huang of Hong Kong; Earl Ryan Thompson of Raleigh; Robert Lee Chaplin of Ridge-land, S. C.; Homer Buford Goff, Jr., of Columbia, S. C.; Chimanlal H. Doshi of Surendranagar, India; Faysal Said Keblawi of Lebanon; and John Gilbert Alphin of Mount Olive.

## State Freshman Receives Injury In Cycle Mishap

Charles Larry Roberts, a State College freshman, was injured when his motorcycle fell on top of him yesterday.

Roberts, a civil engineering major from Rutherfordton, was trying to avoid a car making a turn into a parking space when his motorcycle swerved out of control and fell on him. The accident occurred in the parking lot near Owen Dormitory. Robert Hamlet Wright, Jr., a junior in Industrial Arts was the driver of the car.

Roberts was taken to Rex Hospital where he is now receiving treatment for a broken right leg.

## Wrong Impression Left

Sometimes one attempts to leave one impression and inadvertently leaves another. This is what happened to us in our last issue.

We are afraid that our editorial titled "Students Shortchanged" could easily be interpreted as a charge of lack of discretion in management of student money by the college Business Office. We certainly did not intend the article to have this connotation and are sorry that it did.

We were not asked to run this apology. We are doing it on our own initiative.

## University—But Not In Name

Last year both the Student Government and the Faculty Senate passed resolutions asking a change of name for State College. Both of these bodies felt that the term "college" did not give a true description of our institution, and that the term "university" would be much more fitting. We feel that this is certainly true.

A few months ago we read a book describing all the institutions of higher learning in the United States, and, of course, we looked up State to see what was said about it. There were two references to our college. One gave the regular data on degrees offered, etc. The other was more interesting because it said that there are some institutions classified as colleges, that because of size and curricula, deserve the term "university." The book went on to say that a notable example of this is North Carolina State College in Raleigh, which offers innumerable degrees and has more than six thousand students.

When the Visiting Committee of the Board of Trustees came to this campus earlier in the year, one of the recommendations made by the faculty was that consideration be given to the changing of the name. We feel that this shows the sentiment on campus for the change.

We realize that there are disadvantages to this move. This school is already associated with the Consolidated University of North Carolina and the University of North Carolina. Adding another University — North Carolina State — to this system will cause confusion and call for more paper work by administrators.

We feel that this possible confusion is overridden by the high sentiment on campus demonstrated by the Student Government and Faculty Senate resolutions and by the fact that State College is already a university in everything but name.

## Letters To Editor

# ROTC Comments; Nudes In Politics

To the Editor:

I wonder if Mr. Kellogg Fleming is against R.O.T.C. or just anything to do with the military. Having spent time in the military program I can not help but wonder if I am included in the group of "smug, enterprising military." If I am in this group, I am proud to be a member of it. I only hope that those men who lost their lives in World War I and II, in Korea, and now during the Cold War do not feel slighted by being called "aspiring disciples." I imagine that these lost men wish, if they could, the only suffering they did was walk those difficult, jungle infested miles to the fair grounds.

As for compulsory R.O.T.C., I am not qualified to say "yea or nay." I can only say the training and discipline received, if taken seriously, will be very valuable in time of war or when the draft notice arrives. Every bit of training and knowledge learned by the cadet will be needed when that active duty time is here.

With all the fuss made about a few hours a week for R.O.T.C. I wonder what will happen when these men are put on active duty? When they kiss their wives good-bye again for another long assignment, will they shout "unfair," or will they do their jobs without a word and come back alive to fight again? Time will tell!

M. T. Vanecsek

To the Editor:

I would like to compliment Mr. Kellogg Fleming on his recent letter to the editor of *The Technician* concerning ROTC.

Having expressed my opinions in a previous letter to the editor, I would like to say that I am very well pleased with the response coming from the students on this issue and that I am in no way connected with or influenced by the Communist Party of any leftist movements.

Also, I would like to know why some college administrative official does not issue a statement explaining why the college "cannot" change its policy on "compulsory" ROTC and follow the example that other schools have already set. Could it be that there is no reason not to change?

Paul Smith

To the Editor:

Since I am not running for an office, I really haven't any grounds for griping about the type of politics used on this campus; however, since some people must stoop to such unscrupulous methods as printing campaign cards with obscene pictures on them, something should be done about it. Perhaps this would sway some oversexed male students' votes, but most of the freshmen here

are adult enough to realize that they should be voting for the man who is best qualified for the job, not the one who can spend the most money on his campaign material.

In the past, candidates' campaign funds have been held to a maximum of much less than the \$75 of this year. I believe that this should be set at its previous maximum of \$25. This would prevent the campus from being so cluttered with obscene posters and cards.

All is fair in Love, War, and Politics, but let's keep our politics clean.

William W. Boykin

To the Editor:

Two freshmen candidates for student government office have passed out cards with their names on one side and a semi-nude girl on the other. Is this the accepted manner in which to campaign for office?

A person is supposed to vote for the candidate who has the best qualifications for the particular office. The voter is not supposed to vote for the best nude picture.

Campaigns such as these are very childish and definitely do not help the voters to assume the responsibility of electing competent leadership.

I am not affiliated with any candidate.

Bill Fishburne

To the Editor:

I have just finished reading the "Letter to the Editor" on page two of *The Technician*. Although I do not sympathize with Mr. Fleming, I do understand his feelings.

I do not understand, however, his insinuation that everyone at State College feels as he does. He reasoned that proof of this "fact" is evidenced by the small percentage of basic cadets that go into the advanced course. He does not mention the Marching Cadets, The Drum and Bugle Corps, or the Pershing Rifles. These commendable organizations are comprised mostly of freshmen and sophomores. Strange, isn't it, Mr. Fleming?

R.O.T.C. training is altogether within the bounds of reason. The military program at State College can be understood only by those mature enough to appreciate the need for discipline as it is practiced on the two drill fields, as well as a need for the military enlightenment that can be had in an R.O.T.C. classroom. Those for whom responsibilities are a burden will find R.O.T.C. to be a burden, also.

Mr. Fleming specifically attacked the march to the fair-ground by the two R.O.T.C. detachments. Let it be clearly understood that the march was not

meant to be enjoyable. It was a duty—a mission to be performed, and its accomplishment was accompanied by laudatory remarks from some very influential people.

I am emphatically in favor of a compulsory two years of R.O.T.C. here at State College, and although I know Mr. Fleming has his following, I am sure Mr. Dumont and I have our following, too. Those who can appreciate the need and purpose of R.O.T.C. classroom instruction and drill have graduated from the Mickey Mouse Club into manhood.

S. Gayle Blackburn

To the Editor:

I have just finished reading the latest remarks concerning compulsory ROTC, written by one Kellogg Fleming. I would like to take the liberty of pointing out a few fallacies in Mr. Fleming's discussion.

First, I do not believe that Cadets are "stoolies" for non-commissioned officers to bark at; on the contrary, these men are trying to complete successfully the task of turning a large group of young boys into something that remotely resembles men. They should be envied that their success in the past has been so good. Anyone who doubts that they have been successful might recall that we won the last two World Wars.

These men should be treated with all due respect and courtesy, for, no matter which branch of the United States Armed Forces they represent, they may have occasion to defend the lives of the American

people as their predecessors have done.

My second comment involves the statement that "Mr. Dumont's patriotic attitude is heartwarming but fearfully lacking in depth." It appears to me that Mr. Fleming does not find Mr. Dumont's attitude the least bit heartwarming, but rather is indulging in the way one would a foolish child. In my estimation, Mr. Dumont's attitude is sensible and very realistic, while to one who has spent over two years on active duty Mr. Fleming's complacency is not only astonishing but rather frightening.

It would be a sad thing indeed if all the people in this country loathed military service as much as Mr. Fleming appears to; indeed, there would probably be no military power of any kind in this country if such a thing were true. Fortunately, such is not the case.

In closing, I invite Mr. Fleming to clarify the platform which he represents; non-compulsory ROTC, or abolishment of the U. S.'s military power.

Paul H. Bock, Jr.

## Not Too Snobby

Commenting in a recent article that "Harvard's blood is not as blue as it used to be," AP correspondent Hugh A. Mulligan cited the case of author John P. Marquand (A.B. 1915), who could look back on his Harvard career and recall:

"The place was not nearly so snobby as I had been led to believe. I was on the crew and, by my senior year, everyone in the boat spoke to me—except the No. 6 and No. 8 oar."

# Sigma Nu Wins Grid Crown

By Richie Williamson

Sigma Nu captured its first fraternity football title in several years by nipping Sigma Phi Epsilon in the finals Monday afternoon. In one of the closest and hardest fought battles of the season in a game which pitted two very evenly matched teams, the Nu's squeezed out a 14-13 victory to complete an undefeated season.

The Nu's capitalized on an intercepted pass late in the fourth period to score the winning points. After Sig Ep's Preston Hodges had stopped a Sigma Nu drive with an intercepted aerial in the end zone, Wink Wilson grabbed off Jerry Huffman's first toss on the SPE 19 and raced to the three. Herman Snyder tossed a quick one over the middle to Bob Blanchard for the TD. Then Snyder hit John Baughn for the extra point for a 14-7 lead.

With time running out, Huffman found Jimmy Hooks open for a 23-yard gain to the Nu's 17. Three plays later Dale Baucum took a pass in the end zone to make it 14-13. On the extra point attempt Huffman passed perfectly to Baucum, but the SPE end could not hang on to it. This was the last time that the Sig Eps had their hands on the ball as the Nu's ran the clock out.

The game featured two things, a fine aerial display by both quarterbacks and a constant closeness throughout. Both teams scored in the second period and again in the fourth. At the end of the third quarter, the score was tied and so was the total yardage gained. As for passing, Snyder connected on 15 of 30 for 140 yards through the air. Huffman was just as sharp in completing 10 of 17 for 94 yards.

The big difference in the game

was the fact that Sigma Nu had more ball control and ran more plays. Also, they intercepted three passes at crucial times to stop the SPE drives.

The Sig Eps drew first blood in the opening seconds of the second quarter after a 15-yard holding penalty placed them in scoring position. Huffman then hit on successive passes to Baucum for 15 and 6 yards, the last one being a touchdown. The point after was scored on a Huffman to Gary Pendergraft pass.

The Nu's came back from the kickoff to drive 57 yards for the tying score. Snyder hit on 5 of 7 passes in this drive, the big play being a 25-yarder to Maurice Benbow which carried to the three. Snyder then found Doc Williams in the end zone for the tally. A pass to Steve Henderson for the extra point tied the score.

The annual Intramural Dixie

Classic Basketball Tournament gets underway in the new gymnasium on Thursday night with 65 teams already entered and more expected to enter before the deadline. This year's tournament appears to be scheduled as the best in history with the new gym facilities being able to better handle the enormous number of games required to finally determine the champion.

Once again the Tri-State open league will be entered to defend their title which they have won for the past three years. The team remains virtually the same club which has joined to monopolize the tournament play in the past. However, there are several teams that have strengthened in efforts to stop the Tri-State team.

Although complete pairings have not been announced, play will begin Thursday at 5:00 p.m., with five courts being used to play the games. Open league teams will be scheduled to play the first night, and their team

## Gabriel Still Leads Total Offense

As the ACC season rolls into its last two weeks of football, Roman Gabriel continues to dominate the offensive statistics. Gabriel leads in total offense with 843 yards in eight games for a per game average of 105.4 yards.

"Gabe" also leads in passing with 73 out of 147 passes completed good for 711 yards. His completion record is almost exactly 50%.

Gabriel has passed for six touchdowns, which puts him second in the conference in this phase of the game. Dick Shiner, Maryland quarterback, passed for a touchdown in the State-Maryland game to put him one ahead of Gabriel with seven.

"Gabe" has a comparatively low interception rate with only six passes intercepted in 147 attempts (3.3%).

The rest of the State team

has not fared so well in the statistics department. The Wolfpack does not have a single player in the top 10 in the conference in rushing. This lack of a consistent runner to take the pressure off Gabriel has kept his passing record from being better than it is.

The Wolfpack does have a few players who have good records (statistically) in other phases of the game. Tackle Jake Shaffer has connected on 10-10 extra point attempts to put him among the ACC leaders in this department.

Fullback Dave Houtz keeps astounding opponents with his long punts. Houtz has kicked 49 times for 1918 yards which gives him a 39.2 average. This kicking percentage ranks Houtz among the best in the nation.

In the team statistics department the Wolfpack has not done so well. The Pack is number one in the con-

ference in pass defense, but this is the only department in which they have truly excelled. The Wolfpack is fifth in the conference in pass offense, sixth in total defense, but last in rushing defense, rushing offense and total offense.

### Career Cues:

"This age of specialization opens special opportunities for the well-rounded man!"

Robert Saudek, President  
Robert Saudek Associates, Inc.

"The more specialists society creates to cope with its complexities, the easier it can be for a non-specialist to achieve success.

If that seems paradoxical, look at it this way: the more men who go out for specific positions on the ball club, the more chance you have to wind up as manager!

Today's world — in government, business, the arts, even science — needs the well-rounded man. He's the man who

captains are requested to check find out what time their team with the intramural office to will play.

## Six Faculty Additions For NCS Reported

Six professors, two formerly students here, have been added to the State College faculty. The changes, announced by Chancellor Caldwell

earlier this week, have been approved by the executive committee of the Board of Trustees for the Consolidated University.

### Brought Results

In a magazine picture-story of student life at Rutgers, a casual shot of a typical fraternity-house room brought unexpected and almost instantaneous reader response:

An irate Camden, N. J., merchant wanted his sign back, or \$15 in cash. The Hudson River Day Line demanded the return of a life preserver from the Peter Stuyvesant. And the Standard Oil people thought it only reasonable if the student would come across pronto with the Esso globe hanging from the ceiling!

Readers Digest

### Moore

(Continued from page 1)

Before joining the faculty at California State in Pomono, Moore was associated with the Lane County, Oregon, Planning Commission. He and Mrs. Moore have four children.

### DIAMONDS

Joseph Ira Lee, Jr.  
Certified Gemologist  
American Gem Society  
TE 4-6713

### Johnson's Jewelers

Other action by the board included promotions for two men presently on the State faculty. Frederick Russell Cox and Edgar Walton Jones have both been named assistant professors in the School of Agriculture.

The additions to the staff included four new faculty members for the School of Agriculture, one for the School of Textiles, and one for the School of Physical Sciences and Applied Mathematics.

The Textile School will obtain the services of Odus Lee Moore, who has been named extension assistant professor. Moore is a native of Gastonia and a recent graduate of State College.

Dr. Roger Gene Petersen, who received his doctorate from State, will become an associate professor in the Institute of Statistics.

Joining the Ag School are Dr. Maurice Gayle Cook, who has been a graduate teaching

assistant at VPI, assistant professor of soils; Dr. Almon Suthpen Fish, Jr., assistant professor of horticulture, who received his doctorate from the University of California; Dr. Roy Axel Larson, also an assistant professor of horticulture, who remained on the staff of Cornell University after receiving his Ph.D. degree there; and Dr. Morley Richard Kare, also from the Cornell staff, who will become a professor of poultry science.

### POVERTY CAN BE FUN

It is no disgrace to be poor. It is an error, but it is no disgrace. So if your purse is empty, do not skulk and brood and hide your head in shame. Stand tall. Admit your poverty. Admit it freely and frankly and all kinds of good things will happen to you. Take, for instance, the case of Blossom Sigafos.

Blossom, an impecunious freshman at an Eastern girls' college, was smart as a whip and round as a dumpling, and scarcely a day went by when she didn't get invited to a party weekend at one of the nearby men's schools. But Blossom never accepted. She didn't have the rail fare; she did not have the clothes. Weekend after weekend, while her classmates went frolicking, Blossom sat alone, saved from utter despair only by her pack of Marlboros, for even an exchequer as slim as Blossom's can afford the joys of Marlboro—joys far beyond their paltry price: rich, mellow tobaccos, lovingly cured and carefully packed, and an exclusive selectrate filter. Croesus himself could not buy a better cigarette!

However, Marlboro's most passionate admirers—among whose number I am paid to count myself—would not claim that Marlboro can entirely replace love and romance, and Blossom grew steadily moroser.

"Accept these gifts from Tom."

Then one day came a phone call from an intelligent sophomore named Tom O'Shanter at a nearby men's college. "Blossom," said Tom, "I want you to come down next week for the barley festival, and I won't take no for an answer."

"No," said Blossom.

"Foolish girl," said Tom gently. "I know why you refuse me. It is because you are poor, isn't it?"

"Yes," said Blossom.

"I will send you a railroad ticket," said Tom. "Also a hard-boiled egg in case you get hungry on the train."

"But I have nothing to wear," said Blossom.

Tom replied, "I will send you one suit of cashmere, two gowns of lace, three slacks of velvet, four shoes of calf, five socks of nylon, and a partridge in a pear tree."

"That is most kind," said Blossom, "but I fear I cannot dance and enjoy myself while back home my poor lame brother Tiny Tim lies a-bed."

"Send him to Mayo Brothers and put it on my tab," said Tom.

"You are terribly decent," said Blossom, "but I cannot come to your party because all the other girls at the party will be from rich, distinguished families, and my father is but a humble woodcutter."

"I will buy him Yosemite," said Tom.

"You have a great heart," said Blossom. "Hold the phone while I ask our wise and kindly old Dean of Women whether it is proper for me to accept all these gifts."

She went forthwith and asked the Dean of Women, and the Dean of Women laid her wise and kindly old hand on Blossom's cheek and said, "Child, let not false pride rob you of happiness. Accept these gifts from Tom."

"Oh, bless you, Wise and Kindly," breathed Blossom, dropping grateful tears into the Dean's reticule. "I must run and tell Tom."

"Yes, run, child," said the Dean, a smile wrinkling her wise and kindly old eyes. "And ask him has he got an older brother."

### COMPUTERS CAN NOW TRADE DATA COAST TO COAST OVER TELEPHONE LINES

IBM has developed systems of computer-to-computer communication, which foretell the greatest advances in data processing since the introduction of the stored-program computer. These Tele-Processing\* systems greatly extend the useful range of data processing—putting their power at the disposal of businessmen and scientists located miles away.

Now it is possible to transmit data between two computer installations at speeds up to 62,500 characters per second via broad-band communications channels. Any number of computing systems can be linked in this way in order to exchange information or feed it to a data processing center. As a result, although they may be separated by a continent,

computers can bring their capacities to bear on a single massive problem or operation.

There can be an exciting future for the graduate at IBM. The choice of jobs is wide. Advancement potential is excellent. All qualified applicants will receive consideration for employment without regard to race, creed, color or national origin. Whatever your talents and skills, there may be just the job you've always looked forward to after college. Why not find out by talking with the IBM representative when he next visits your campus? Or write, outlining your background and interests, to: **Manager of Technical Employment, IBM Corporation, Dept. 896, 590 Madison Avenue, N. Y. 22, N. Y.**

You naturally have a better chance to grow with a growth company
