Senior Army ROTC Cadet Leaders

The senior cadets who will lead the Army ROTC Brigade this year are shown with Professor of Military Science Lauren W. Merriam. They are (front row): Cadet Major Norris Tolson, Command and Control Battalion Commander; Cadet Major Ted McCall, 2nd Battle Group Commander; Cadet Major Bill Jackson, Brigade Executive Officer; Cadet Lt. Colonel Jim Jones, Brigade Commander; Colonel Merriam; Cadet Major Milton Spain, 1st Battle Group Commander; and Cadet Major Dick Williamson, 3rd Battle Group Commander. The Brigade staff consists of (back row) Cadet Captain Lamar Thomas, Brigade S-2; Cadet Captain Rufus Smith, Brigade S-3; Cadet Captain George Lester, Brigade P-10; and Cadet Captain Walter Cummings, Brigade S-1.

Pershing Rifles Offers Opportunity To Freshmen

Freshmen who did not sign up for the Pershing Rifles on registration day and who are interested in joining may do so by reporting to their platoon leaders.

No special drill ability is required, and members of both the ROTC and AFROTC are eligible to join. Pledges will be taught the basic drill movements at an accelerated rate, and those showing ability will be taught fancy drill movements and be given the chance to join the crack drill team. As Pershing Rifles Brothers, new members will have the opportunity to attend several parties and dances sponsored by the Company, in addition to marching in parades and performing at basketball and football games.

New Department Begins Year Under Dr. Harold A. Lamonds

The newly established Department of Nuclear Engineering opened this week with 260 students. Two hundred and twenty are undergraduates and forty are graduates.

Dr. Harold A. Lamonds, former coordinator of the college's nuclear engineering program, is the head of the new department.

Created from the Physics Department, this department provides a unique program geared to meet the needs of industry and is expected to grow rapidly. No new staff members have been appointed yet. Classes are now being taught by instructors from other related departments.

Upon the announcement of Dr. Lamonds as head of the department, Dean of Engineering J. H. Lampe said:

"With the creation of the new Department of Nuclear Engineering and with the addition of new staff members, we at the School of Engineering look forward to the accelerated growth of our teaching and research activities in this vital area of technology."

Dr. Lamonds has been associated with the college's nuclear reactor since 1952. He was graduated with a B.S. degree in nuclear engineering from N. C. State College at the top of his class of ap-

proximately 600 members. Awarded his M.S. degree in nuclear engineering in 1954, he completed his doctorate in engineering physics in 1957.

Dr. Lamonds is currently chairman of the Subcommittee on Relations with the Atomic Energy Commission of the American Association of Land-Grant Colleges; chairman of the nuclear Congress and Nu-

clears Committee of the American Institute of Electrical Engineers; and vice chairman of the Technical Committee on nucleonic and Radiation Instruments of the AIEE.

Honorary societies to which he belongs are Tau Beta Pi, national engineering society; Phi Kappa Phi, national scholastic society; and Sigma Pi Sigma, physics society.

Tryouts For Cheerleaders Friday

Tryouts for this year's cheerleading squad will be held on Friday, September 22, at 4 p.m. in the vestibule of the Coliseum. All interested students, freshmen and upperclassmen, are urged to be present. This will be the only tryout session, so please make every effort to attend.

New Brigade Officers Named

Cadet James B. Jones has been appointed as this year's ROTC Brigade Commander.

Cadet Col. Jones is the son of Mr. and Mrs. Frank L. Jones of 2910 Royston Road, Charlotte, N. C. He is a senior in Civil Engineering, former Commander of the Pershing Rifles, and was President

of the Military Ball Association last year.

Serving on Colonel Jones's staff will be Cadets Walter B. Cummings, Baxter Lamar Thomas, Rufus K. Smith, and George B. Taylor. Cadet William M. Jackson will serve as Brigade Executive Officer and George W. Lester II will be

Public Information Officer.

Cadets Milton F. Spain, Thomas E. McCall, and Richard H. Williamson have been named Battle Group Commanders. Edward Norris Tolson has been named Commander of the Command and Control Battalion.

The appointments were made by Colonel L. W. Merriam, Professor of Military Science and Tactics at N. C. State College.

Sigma Kappas Gain 11 New Pledges

RALEIGH, N. C., Sept. 20—Eleven coeds at North Carolina State College have pledged Sigma Kappa sorority following a week of rushing.

The sorority is the only national social sorority with a chapter on the State College campus.

New pledges are Lynda Smith of Mt. Holly, Edna Suggs of Route 2, Rocky Mount, Alice Herter of Route 2, Lincolnton, Mary Belanga of Norfolk, Va., Harriette Williams of Valdese, Karen Schmidt of Decatur, Ala., Patsy Mitchum of Lenoir, and Anne Parker, Ann Kirkpatrick, Faye Fakler and Becky Shankle, all of Raleigh.

Miss Betty Harris of High Point, who will be a senior in engineering mathematics next year, is the president. She succeeds Mrs. Dee Clark Blankford of Beaulaville, only graduating senior member of the sorority.

The first vice president is Miss Iona Evans of Winston-Salem. Miss Peggy McConnell of Pittsburgh, Pa. is the second vice president.

Other new officers include Miss Flora Lester of Pine Hall, recording secretary; Miss Fronny Ward of Raleigh, corresponding secretary; and Miss Ann Fakler of Raleigh, treasurer.

Committee chairman for

this year are Misses Joyce Mears of Raleigh, membership, Helen Wigg of Wilmington, social and publicity; Lane Davis of Mount Ulla, registration and history; and Sara Norman of High Point, scholarship and philanthropy.

This year marks the third year of existence for the State College Chapter of Sigma Kappa, although the officially chartered chapter was installed in April of last year.

A small group of then freshmen coeds took the first step in the spring of 1959. They wanted something to provide more camaraderie among the distaff members of an overwhelmingly predominately male student body.

In the fall of 1959 national Sigma Kappa representatives visited the State College campus to talk with interested girls. Initial response was good and weekly meetings were scheduled. The coeds petitioned the college for recognition in November of that year. The national headquarters of Sigma Kappa made them a pledge colony in February, 1960; and the national president officially installed the Gamma Phi chapter in April, 1960.

Meantime, Sigma Kappa alumnae in the Raleigh area formed an alumnae chapter and offered invaluable assistance.

During the year just ended, the students held their first

rush. They met each Monday evening for a business meeting and general gossip—woops, gab—sessions. They held their own Christmas Dance, Pledge Dance, and Initiation Banquet.

The Raleigh Alumnae Chapter feted the girls once each month to such diversions as bridge parties, dinners, a picnic, and a Brunswick-stew dinner.

Sorority Projects
But social affairs were not the only areas in which the girls were active.

One of their big projects was sending Christmas and birthday cards to all the retired folk at the Johnson Home for the Aged.

The girls call this phase of their work "gerontology"—but theirs is more than any cold, deliberate study of old age. The big plans for this year's work call for visiting homes for the aged in the Raleigh area giving what one of the girls called "sunshine programs"—with songs, games, and gifts.

Also planned are visits to orphanages and the State School for the Blind in addition to continuing the happy practice of sending cards.

High on the list of important items for themselves are the girls' plans to buy a sorority house. "Year after next might be the year," said Miss Harris,

the new president. "We haven't had enough members to support a house, but by the fall of 1962 I feel sure we could have enough."

The 1961-62 year will see positive investigations into the matter of a house, Miss Harris said.

"In a house of our own we could really attain full benefits of living together, really share companionship with each other," she said.

Social Calendar

The tentative social calendar for next year includes a tea, picnics, banquets, parties, and two dances.

The calendar, by month, is as follows:

September 23, 1961: Informal tea with the Alpha Psi Chapter from Duke University.

November 4, 1961: Founder's Day—banquet and party for members and alumnae.

December 9, 1961: Christmas Dance for members, pledges, alumnae, faculty, and friends.

February 17, 1962: Pledge Dance for new pledges.

May 5, 1962: Picnic for members, alumnae, dates, and special friends.

Also announced is the outline of next year's standards program. It follows:

October: Sigma Kappa standards and ideals—social aspects, personality, responsibility, and leadership.

November: Chapter relationships with alumnae—weekly (See SIGMA KAPPAS, page 4)

State College Coed of the Week

The Technician's choice for Coed of the Week is Miss Ann Kirkpatrick, a lovely Raleigh lass who evidently appreciates the finer things in life. Ann is a sophomore in the School of General Studies and is one of the new Sigma Kappa Sorority pledges. In addition to her studies, Ann is quite active in the College Union activities. (Photo by Justice.)

Campus Crier

The first meeting for this semester of amateur radio club W4ATC will be held in room 307 of the 1911 Building at 7 p.m. on Thursday, September 21. Old members and interested new students are invited to attend. Jim Lewis, K4SAM, will preside. Plans for the year will be discussed.

The Electrical Engineering Wives' Club will start the season with a tea for all student

and faculty E.E. wives on Sunday, September 24, 1961, from the hours of 3:00 to 5:00 p.m. in rooms 256-258 of the College Union. Freshmen wives are especially invited to attend.

If you have not already done so, go by Window #2 at the Coliseum and obtain your General Admission coupon to the State-Carolina game. The last day for picking up the coupons is Friday, Sept. 22.

A Well-Rounded Education

A phrase which contains much truth and value can be repeated so often that when one hears it, it leaves no impression. We are afraid that this is what has happened when students hear "a well-rounded education" described.

"A well-rounded education" is, however, much more than an often repeated phrase that has no meaning. The first question that will be asked is, "What does this phrase mean?" We think that it means an education which covers more than the dry facts covered in classes. It means learning to act, think, and to rely upon yourself in whatever you undertake. It means to learn to live with your fellow students and your fellow man. In short, it means to become more mature.

At this school, the best way that one can gain the sort of education which we are advising is to take part in the extra-curricular activities. There are so many different organizations and activities on this campus that anyone can find some that will be interesting and beneficial to him.

If one feels that he wants to "stick to his own field," every curriculum has some technical society or club which provides students with insights or contacts in his own chosen field.

The YMCA carries on a wide range of service, study, and religious activities which appeal to many State students.

In the College Union, almost any student will find something which appeals to him. The committees and the club formed with College Union support run the range from billiards to jazz.

Social Fraternities can also add much to a student's search for a well-rounded education. The opportunities for social development and the close fellowship which a fraternity provides can be very helpful in learning to live with your fellow man.

These are only a few of the many activities which students are invited to take part in.

The argument that students have always used against their participation in outside activities is that this school is so difficult, all of their time must be spent in study; but this is a slightly unrealistic approach. If one wants to be mercenary about the matter, it is known that interviewers weight the activities of a student very heavily when they are considering him for a job and that a man's future advancement may hinge on how well he can meet and work with others. Meeting and working with others cannot be learned in a classroom, but must come from associations which one has had previously.

This is not to say, of course, that extra-curricular activities are all-important. The most important part of gaining an education is to become proficient in your chosen field, but outside activities do form an invaluable portion of any worthwhile and beneficial education.

"FUNNY, BUT EVERY TIME WE HAVE A 'BULL SESSION' HERE AT WORTHAL'S THE DISCUSSION ALWAYS GETS AROUND TO GIRLS"

Parents!

Dear Parents,

Each year we find that we have many requests from parents of State College Students for a subscription to our college newspaper, THE TECHNICIAN. Realizing that all parents are interested in their son or daughter, and his or her associates, we should like to take this opportunity to enable you to subscribe to our paper.

We are currently publishing three times a week with a four-page edition on Monday and Wednesday, and from a four to eight page edition on Thursday. For the school year of 1961-62 we shall publish 83 issues. Included in the paper are a sports section, columns, an editorial page, photography and campus features, and coverage of all other campus activities and news.

The price of a subscription for a full year will be \$4.00. If you are interested, please fill in the blank below and remit with your check or money order.

We are looking forward to serving you in 1961-62.

Sincerely yours,
David Cribbin

Letter To Editor

To the Editor:

Every year, when I receive my first issue of *The Technician*, I anxiously scan the paper hoping to see some improvement in the quality of it. This year, as usual, I was disappointed.

Although the paper has a better appearance than in years before, the quality of its coverage and writing is no better.

Besides the sports section, there is little of interest to the student. The articles do not really say anything, and the features are repetitions of features which we have all seen before.

Some of the stories were appalling in their lack of content and interest to the student.

I once read a letter to the editor saying approximately the same thing, and he made a statement something like, "Where are the people who once stood on the steps of the dormitories waiting for *The Technician*." I can remember no people waiting on any steps for *The Technician*, and if it continues in its present ways, I do not contemplate seeing any.

To close, I would like to state that I have never seen a paper with so many grammatical errors, and misspellings. Since you staff members are working with the written language, the least you can do is to respect it.

Name Withheld by Request

Editor's Note: Surprisingly, we were glad to receive this letter (See ANSWER, page 4)

The eighteen social fraternities on State College campus held their fall rush this past week. Rush began on Wednesday afternoon with smokers going through Thursday night followed by parties on Friday and Saturday night. The rush officially ended Sunday night much to the happiness of the many tired brothers throughout the various fraternities.

The incoming Freshmen and transfer students participated in rush this year with surprising interest and a realization of what it means to belong to a social fraternity on a (nearly) all-male campus. The individual fraternities also looked forward to rush with greater enthusiasm than has been displayed in many years. The reason for this enthusiasm was probably because of membership needed to enter Fraternity Row. Therefore, this fraternal enthusiasm and the student interest has brought, in general, a very successful rush to all the fraternities. I am glad to see the Freshmen finally real-

ize the need for social fraternities. Whether their interest was instilled by either summer rush programs or the fraternities' reputation spreading throughout our high schools, it has brought about a more selective rush which should build up the fraternity system on campus.

In order to make this a successful column, I will need the help and cooperation of all fraternities. Ed Puchhaber, who had this column last spring, was held back by lack of material. The Fraternity Beat will be printed once a week in Wednesday's edition of *The Technician*. The dead line for material will be on Monday night. I'm sure you realize the value of this column for your fraternity. When you have an outstanding party, event of any kind, elections, get-togethers with other chapters, or if you want to recognize a member for personal achievement, please don't hesitate to write an article and send it to me. Your fraternity publicity chairmen can reach me at the Theta Chi Fraternity.

The fall portion of the intramural sports program gets underway this coming Monday afternoon when the fraternity football players take the field. That action will begin a jam-packed intramural program that will continue throughout the entire school year.

Besides football, heading up the fall program will be volleyball, pitch and putt golf, and swimming. These sports are only four of the thirteen competitive sports offered to the dormitory, fraternity, and off-campus leagues plus numerous other special events.

Eight games will be slated for Monday, Sept. 25, in the fraternity section. The dorm gridders begin their slate on Wednesday, Sept. 27. These leagues will continue through six weeks of regular season play, being followed by the playoff games to determine the champions.

The dormitory volleyball league swings into action in

Notices

The first soccer practice will begin on Tuesday, Sept. 19 at 4 p.m. Every boy interested please report to Coach Nelvin Cooper at the new gym or to the varsity soccer field which is located on the upper level of the intramural field.

There will be an athletic directors meeting tonight at the new gym at 7 o'clock. Both dormitory and fraternity athletic directors are urged to attend since the whole program for the coming year will be discussed.

Anyone interested in trying out for the positions of infielder, pitcher or catcher on the Wolfpack baseball team, please see Coach Vic Sorrell in Room 122 in the Coliseum before next Tuesday. Fall baseball practice for infielders, catchers and pitchers will begin next Tuesday.

the following week with their first round of play coming on Monday night, Oct. 2. The fraternities start on Wednesday, Oct. 4.

At the same time, the dorm pitch and putt tournament at Par Golf starts on the 2nd, while the fraternities play their first round on Tuesday, Oct. 3. In connection with this tournament, the intramural department has obtained special rates at Par Golf for practice rounds. Students will be able to practice between the hours of 11 a.m. to 6 p.m. Monday through Friday prior to the tournament at 40¢ per round. To take advantage of this rate, one must pick up a special intramural practice round card from either the intramural department or your athletic director.

The first college in North Carolina to initiate an intramural athletic program, State College has developed this

program into the most valuable extra-curricular activity on campus. Under the direction of Art Hoch, who begins his eighth year as head of intramurals, the program has reached an all time high in participation with over 50% of the student body competing. This number is expected to increase greatly this year with the new gymnasium being open for its first year.

Highlights of the intramural program center around the numerous special events on the calendar. The first of these comes in December with the Intramural Dixie Classics. Last year 72 teams competed for the coveted basketball championships. In the spring comes the annual N. C. State Rod and Gun meet with events in archery, target rifle, skish, and skeet. The winners in these events represent State in the Big Four Rod and Gun meet

QUICK QUIZZ

ON MONEY MANAGEMENT—

This questionnaire was especially designed for North Carolina State College students by Wachovia Bank and Trust Company, your convenient bank in Raleigh.

Take this easy test...find out how you *now* rate...and discover how easy it is to improve your money-managing ability!

1. Do you ever forget which bills you've paid...and which you still owe? Can you *prove* you've paid your bills? Yes No
2. Can you pay all your monthly bills in just a few minutes instead of several hours? Yes No
3. Do you find it easy to plan your budget and keep track of expenditures? Yes No
4. Do you run the risk of losing cash? Yes No
5. Do you keep enough money on hand to tide you over a sudden emergency—to allow you to take advantage of an unexpected trip or some unusual opportunity? Yes No
6. Do you keep these extra funds in a Savings Account where they're 100% safe and earning DAILY INTEREST...yet are quickly available? Yes No

FIND THE ANSWERS...

at Wachovia's West Raleigh Office, right across the street from State College. (Cameron Village Office is just a short walk from the campus.)

Wachovia Special Checking Accounts

Pay bills by mail with an economical Special Checking Account at Wachovia. Your name and address are imprinted on each check and deposit ticket. Open your account with any amount...no minimum balance required...monthly statements furnished.

Wachovia DAILY INTEREST Savings Accounts

Put your extra cash to work in a Wachovia Savings Account. Earn full-time DAILY INTEREST—from the first day of deposit to day of withdrawal! Wachovia pays maximum bank interest—3% per year, compounded and paid 4 times a year.

Comm:

spelling and the grammatical errors. While we will admit that we are not perfect, we only know of one instance when a mis-spelling left our offices. That time, of course, was inexcusable;

but most of the errors of this sort come from the hurried way in which the paper is put together. As we have said before, it is not actually anyone's fault; but a fault of the system we

must use. Any good, constructive criticism of this sort will be appreciated. We are not too proud to admit that we are beyond error, and if we get good crit-

icism, maybe there will come a time when students will again be waiting on steps for The Technician to arrive. This is what we want and will continue to strive for.

Answer

(Continued from page 2) because it was filled with very perceptive and accurate criticisms. Most of the faults that are mentioned are, we are sorry to say, true. After taking a good look at the papers, we are inclined to agree on many of the points.

While we are not trying to make excuses, we will say that many of the points which you have mentioned are beyond our control at the time, but that we will try to correct them as soon as it is possible.

The point on the content was very well taken, but there is only one way in which we can improve our content. That is, to have a staff large enough to do a better job of covering the campus. We have so few people working with us now, that it is impossible to do more than put the stories that are directly pointed out to us into the paper. All of our time is spent in the pursuit of enough copy to fill the newspaper and the actual making up of the pages.

If we can get a larger staff, it will be possible for us to go in search of stories that stu-

Sigma Kappas

(Continued from page 1) musical programs by members and alumnae.

December: Open.
January: Scholarship.
February: Review and final examination on standards and ideals.

March: Sigma Kappa Triangle — weekly discussions of other chapters' work and how North Carolina State College members can increase their work.

Intramurals

(Continued from page 3) later in the spring. The biggest day of the year is the Big Four Sports Day which brings together the best intramural athletes from State, Carolina, Duke, and Wake Forest in competition in nine different sports. The entire year is climaxed in May with the Awards Day where presentation of team and individual awards are made.

FLASH! TO ALL STUDENTS OF

CAN YOU USE A HUNDRED BUCKS?

THAT'S WHAT YOU CAN WIN IN EVERY ONE OF

VICEROY'S Big College Football Contests

IT'S EASY! Just pick the ten winning teams, predict the scores—and you're in the money!

FLASH! ONLY STUDENTS ON THIS CAMPUS ARE ELIGIBLE!
FIRST CONTEST OCTOBER 7TH

All you have to do is clip the coupon, pick the winners and predict the scores—then figure out how you're going to spend that hundred bucks! It's easy . . . just clip the coupon below or get an entry blank where you buy cigarettes and fill in your predictions of the ten game scores. Then mail it with an empty Viceroy package or a reasonable rendition of the Viceroy name as it appears on the package front to Viceroy at the Box Number on the entry blank or drop it in the ballot box conveniently located on the campus.

Open only to students and faculty members. Enter as many times as you want. Simply send an empty Viceroy package or reasonable rendition of the Viceroy name with each entry.

Entries must be postmarked or dropped in the ballot box no later than the Wednesday midnight before the games and received by noon Friday of the same week. Next contest will be on games of October 21—when you'll have another chance to win.

DON'T SMOKE ANOTHER CIGARETTE UNTIL YOU LEARN WHAT VICEROY'S Deep Weave Filter CAN DO FOR YOUR TASTE!

It can do plenty. Here's why: the Viceroy filter starts with pure, safe vegetable material, made into the same straight filter strands as most good filters. But here's the twist: Viceroy weaves those tiny strands into the special Deep-Weave Filter . . . and that's the filter you can trust to give you the good taste of Viceroy's rich tobacco blend. The fact is . . .

Only Viceroy's Got It . . . At Both Ends! Got The Filter . . . Got The Blend!

*Reg. U.S. Patent Office

HERE ARE THE CONTEST RULES—READ 'EM AND WIN!

1. Any student or faculty member on this campus may enter except employees of Brown & Williamson, its advertising agencies, or members of their immediate families. All entries become the property of Brown & Williamson—none will be returned. Winners will be notified within three weeks after each contest. Winners' names may be published in this newspaper. You may enter as often as you wish, provided each entry is sent individually. Contest subject to all governmental regulations. Entries must be postmarked or dropped in ballot box on campus no later than the Wednesday midnight before the games are played and received by noon Friday of the same week. The right to discontinue future contests is reserved.
2. Entries must be in contestant's own name. On the coupon in this ad or on an Official Entry Blank or piece of paper of the same size and format, write your predictions of the scores of the games and check the winners. Enclose an empty Viceroy package or a reasonable rendition of the Viceroy name as it appears on the package front. Mail entry to Viceroy at the Box Number on the entry blank or drop in Viceroy Football Contest Ballot Box on campus.
3. Entries will be judged by The Reuben H. Donnelly Corp. on the basis of number of winners correctly predicted. Ties will be broken on the basis of scores predicted. Duplicate prizes awarded in case of final ties.
4. Winners are eligible for any prize in subsequent contests.

LOOK!
HERE ARE ALL THE PRIZES YOU CAN WIN!

- 1st PRIZE \$100
- 2nd PRIZE \$50
- 3rd PRIZE \$25

PLUS

5 OTHER PRIZES OF \$10.00 EACH

And a free carton of Viceroy's to every contestant who names all ten winning teams—REGARDLESS OF THE SCORES!
