## Dr. Frank Graham Speaks To Delegates

Dr. Frank Graham is shown in the CU Ballroom as he delivered a speech Thursday night on world problems and the UN to more than 300 college students who attended the CCUN meeting on the State College Campus last week.

## Woman's College Plans Dance For CU Day

A twist contest will be one of the highlights of the fun-filled day to be held at Woman's College in Greensboro this Saturday. The event was planned under the direction of the Consolidated University Student Council, and State College students are invited.

Introducing the night of dancing and merry-making will be an open house held in the Mendenhall-Ragsdale Dormitory Ballroom from 7 'til 8 p.m. Following this everyone will gather in Elliot Hall's Cone Ballroom for a dance with music pro-

(See TWIST, page 4)

## Nilsson, National Symphony Slated For Raleigh Premiere

By Allen Lennon  
"At the Metropolitan in New York next week it would cost you at least ten dollars, but tomorrow night State students can see it free," said Dr. John Lambert publicity director for The Friends of the College, Inc.

Dr. Lambert was speaking of the Tuesday evening performance of Birgit Nilsson and the National Symphony Orchestra. Lambert was quick to point out that the concert is free for all State students and their dates, as are all Friends of the College presentations.

Miss Nilsson will be singing here in Reynolds Coliseum on her way back to the Metropolitan Opera for an already sold-out performance next week. Both Miss Nilsson and the National Symphony will be making their premiere performances in Raleigh.

The program as announced will include the following selections:  
Overture to Oberon by Weber performed by the National Symphony.

Two selections featuring Birgit Nilsson:  
"In Questa Reggia" from Turandot by Puccini; and

"Pace, Pace, Mio Dio" from La Forza del Destino by Verdi.

Two more orchestral selections:  
Daphnis and Chloe Suite #2 by Ravel; and Barber's Symphony #1, Opus 9.  
"Immolation Scene" from Wagner's Die Gotterdammerung featuring Miss Nilsson again.

The performance will be held at 8 p.m. Tuesday, February 20 in the William Neal Reynolds Coliseum.

## Model UN Bills Top Soviet Bloc

Cubans in fatigues, Russians serving spiced (Russian) tea, and Red Chinese trying to become members of the United Nations invaded the campus for four days last week.

There was no malice intended in this invasion as the visitors peacefully discussed their differences in the model United Nations Assembly which was held here Wednesday through Thursday.

The model assembly passed five resolutions, most of them over the strong protest of the Soviet Bloc of nations. These resolutions concerned international control of outer space, support for De Gaulle's handling of the Algerian policy,

strengthening of the International Court of Justice, collection of United Nations dues, and a censure of South Africa for its policies in southwest Africa.

The resolution concerning control of space stated that all heavenly bodies should be considered international territory and that all space shots should be announced in advance.

The action of the International Court of Justice stated that no member nation could be self-judging. A self-judging nation

is one which restricts the right to judge itself if it disagrees with the International Court. The United States is a self-judging nation while Russia is not a member of the Court.

In the resolution concerning Algeria, the assembly stated complete agreement with the policy of France.

A resolution that was bitterly fought by the Soviet Bloc, one concerning the policies of payment of United Nations fees, was passed by a large majority and the resolution on South

(See CCUN, page 4)

## Murray Makes TV Debut As ABC Tours Reactor

A nation-wide television audience toured Burlington Laboratories yesterday.

Directing this tour was Dr. Raymond L. Murray, head of the Department of Physics, who was being featured on the ABC-TV series "Meet the Professor." The program was shown in this area by WUNC-TV from 7:00-7:30 p.m.

The camera first focused on Dr. Murray as he pointed out

the need for accuracy in research during an interview with a graduate student. Dr. Murray also told of the importance of checking on previous research.

Dr. Murray then led the camera to a lecture hall where he lectured a class on the general theory of nuclear fission and the nuclear reactor.

Once again the camera's eye followed Dr. Murray as he walked from the classroom toward

(See REACTOR, page 4)

## Fraternity Cook Arrested Here For Larceny

John W. Buccannon, assistant cook of the Sigma Alpha Mu Fraternity was arrested on charges of larceny Friday, February 16.

Buccannon, age 30, was apprehended by Detective R. L. Bunn, and when searched, found with an I.D. bracelet. Upon searching Buccannon's apartment, police found approximately \$200 worth of articles which had been stolen from the fraternity. The articles included coats, record albums, and radios.

Buccannon is being held at City Jail under \$1000 bail.

## Campus Crier

Class rings will be fitted Monday-Wednesday, February 19-21, from 10 a.m. to 5 p.m. at the CU. A five-dollar deposit is required, and the purchaser must be a second-semester Junior with a

## Adlai To Lecture At Diamond Jubilee

Preparations for the day-long celebration of State College's 75th anniversary on March 7 are well underway, Chancellor Caldwell announced yesterday.

A Diamond Jubilee Convocation to be held in Reynolds Coliseum will highlight the Founder's Day program. Former Virginia Governor Colgate W. Darden, Jr., will deliver the main address. The convocation, which is scheduled for 3:30 p.m., will feature a colorful academic procession. Honorary degrees and special awards to alumni will be presented.

Preceding the convocation at 2:15 p.m. will be the dedication of Harrelson Hall, State College's unique circular classroom building. Honored guests of the college, including relatives of the late Colonel John W. Harrelson, former State College chancellor for whom the new building was named, will be special guests at a luncheon prior to the dedication.

Adlai Stevenson, United States ambassador to the United Nations, will deliver

the first Harrelson Lecture at 8 p.m. in Reynolds Coliseum. The lecture will begin a continuing series of lectures to be made on the State College campus by distinguished scholars and world leaders. The lecture will be open to the public without charge.

## Sigma Kappas Climax Rush With Party

The Sigma Kappa sorority climaxed its two weeks of spring rush with an informal party Saturday afternoon.

Rushees and sisters met at the home of Helen Wigg, publicity chairman for the sorority. Mrs. Irvin Eaves, an alumna from Raleigh, also attended the get-together.

The Sigma Kappas will send out bids today and will begin Pledge Week the following Monday.

## DMS Award Presented To Three

Colonel Lauren W. Merriam presents DMS certificates to James A. Hackney, III, Richard H. Blackwell, Jr., and Ronald L. Boger. These MS IV cadets were classified Distinguished Military Students yesterday on the merits of the leadership, scholarship, and military science accomplishments.

## New Ag Publication Announced

By Jerry Jackson  
The N. C. STATE AG STUDENT will soon make its appearance on the State College campus.

Sponsored by the Ag Council, the new student publication will serve to report student activities in the School of Agriculture and the Department of Agricultural Education, according to Ervin Lineberger, managing editor.

Scheduled to make its first appearance this semester, the new magazine is designed to replace the AGRICULTURIST, which was discontinued in 1960. It will

be published once each semester and will be distributed to students and faculty of the School of Agriculture and the Department of Agricultural Education.

In charge of the new publication will be Bobby Shepherd of Deep Gap, N. C., as editor; John Blakely of Ellerbe, N. C., will serve as assistant editor; managing editor will be Ervin Lineberger of Dallas, N. C.; and M. C. Howell of Wadesboro, N. C., will be business manager.

Advisors to the publication will be Professor M. E. Gardner of the Horticulture Department

and Rone T. Lowe of the Agricultural Information Department of the Agricultural Extension Service. Also, assistance in layout and proofreading will be provided by Mr. Lowe and the Agricultural Information Department.

The size of the magazine will be 8 1/2 by 11 inches and will include approximately thirty pages of articles and pictures. No advertising is scheduled to appear in the first issue of the STUDENT. Material for the publication will be submitted by reporters of the various departmental clubs of the School of Agricultural

Education and the Department of Ag Education.

The N. C. STATE AG STUDENT is the result of a resolution adopted by the Ag Council, May 23, 1961. The planning was carried out by a committee composed of Professor Gardner, Elbert Reid of the Agricultural Information Department, Wilbur Webb, and Lineberger, who served as Chairman.

Funds for the publication are derived from the money each agricultural student pays to the Ag Council through his school fees.

Managing Editor Lineberger  
(See AG MAG, page 4)

## Look It Over

Why won't it work?

Classroom teaching is the most important single event which takes place on this campus. Why should it not be supervised closely?

The learned faculty at State College deserve a great deal of credit and recognition. As a group they possess splendid records of academic accomplishment, educational background, and years of teaching experience.

But this isn't enough.

It is not easy to be a good teacher; success in the classroom can not be measured by the number of publications or the amount of research done by a faculty member. College administrations in general have been known to encourage publication and research as an aid to college prestige while forgetting the main idea of the institution's existence: education.

The theme "publish or perish" does not exist on this campus, thank God. Such extra-curricular activities undoubtedly enter the picture when promotion time rolls around, though. Aside from his sense of humor, other personal qualities, and the number of courses he teaches, little else is known about the professor.

One possible objection to the idea of supervision might come from professors who feel that they should be given free rein as far as teaching methods and course content is concerned; this is certainly a valid feeling. It should be pointed out that the basic material included in a course has already been generally defined by the department or the school. An occasional twenty-minute visit to a class by the supervisor could hardly lead to censorship or dictatorship of teachers of controversial or opinionated subjects.

Everyone in the State College community wants good teaching, but what is being done to maintain all over the campus the high standards of performance set by the majority of our fine professors? The past two senior classes have instituted a program of recognizing a few of the good teachers each year; there are weaknesses in the idea, to be sure, but at least the program is an honest attempt to remedy the situation.

If the department head takes the opportunity of visiting briefly one or two classes each semester of the teachers in his department, a number of valuable things might occur. The supervisor will be more aware of the abilities of each of his teachers, the teachers may receive suggestions and pointers to make their classroom performance a better one, and the better teachers may receive the recognition they deserve.

Classroom instruction should not be standardized; it should, however, be criticized.

—WMJ

Tom

### Letter To Editor

## Platter Party Defended

To The Editor:

Miss Kemp, I could not let your excellent column of Wednesday February 14, 1962 pass by without some comment. Your column took issue with the practice of the Infirmary of keeping persons in the Infirmary no matter what the illness the person has. You also mentioned the lack of facilities for our coeds (God Bless 'em). With both of these issues I heartily agree. While absences from class for medical reasons are excused, the work missed in some cases can not be made up; in all cases work is very hard to make up for anyone, no matter how much of a "brain" he or she is. On your other topic, since the Infirmary is "billed" as the "Student Health Service", and coeds are students, then the Infirmary should be able to take care of them with equal facilities as male students.

In both of these points I am in complete agreement with you, however, in making your points you took another, and I think rather unnecessary, "dig" at the "Platter Party". I have put some time and effort into the "Platter Party" working with the College Union Dance Committee, and for the Student Broadcasting System; at all

times trying to do my best to see that the "Party" was as good as it could possibly be, under the circumstances that we (the C.U. & C.B.S.) were working under.

With these facts in mind, I feel that if you have any suggestions that would improve the "Platter Party" you and any other students who have suggestions for the improvement of the "Party" should make them, either verbally or written, to me. Unlike a rather famous general who said, "I am open to suggestions, just so long as they agree with me", I am completely open to any suggestion for the improvement of the "Platter Party" so that I may better serve the students of North Carolina State College. After all, as Master of Ceremonies, so to speak, of the "Platter Party", that is my only purpose; doing what the students want (with-in reason) me to do. If anyone has any suggestions (for the "Platter Party") I can be contacted, through the Student Broadcasting System, at TE 2-7861 or Box 5748 at any time. Please feel free to do so.

With this, then; I close, "If you can't improve it, please don't knock it."

Gil Stamper

## Crit

Dean G. E. Clight  
Head, School of—etcetera  
Dear Dean Clight,

Since I assumed office, I have observed many inconsistencies between the educational goals of our university system and the structure and policy of this branch of the university, many of which seem to come to a climax in the school of which you are head. You no doubt know what I refer to: highly structured courses taught by mediocre, disinterested, and often incompetent professors; an overpowering course load on a below average college group; and an overall failure to imbue students with a desire for education.

This cannot fail to be discouraging to a true educator.

Therefore, I have, after consultation with other members of the administration, decided to request from you a thorough study, with emphasis upon the following points:

1. A re-examination of the degree-granting program which existed when you assumed office, which consisted of four years of a basic program, and one year of specialization thereafter if desired. (The general notion that the first two years are the same in all branches of your school is fallacious; not even all the first years contain the same chemistry courses.)
2. A decrease in course load for the individual.
3. The causes and means of correcting such mediocrity as exists.

Your school has the reputation of being one of the best in the nation—but at what price? and for how long?

Consider these things. Expecting to hear from you, I remain

Sincerely Yours,  
Cauldron, etcetera.  
etcetera . . .

Dr. T. Fitzgerald Cauldron  
President, etcetera . . .  
Dear President Cauldron,

I was very much shocked at your rash statements about the school which contains, as you know, over one half the student body. Everyone knows that our school gained its reputation by hard work and a superior faculty, many of whom have been here much longer than I. I cannot therefore give any consideration to your suggestion that my faculty may be incompetent. Likewise, as anyone will tell you, our first two years are al-

most exactly the same; except for two curriculum courses (the difference in chemistry courses is negligible), they are identical. At worst, anyway, a second year student changing branches only has to stay in school one more year.

We in the department favor the following tentative program to correct this:

1. Stop giving credit for P.E.
2. Cut off one semester of English.

This, as anyone can see, decreases hour requirements eleven hours overall. Besides, not many schools give credit for P.E. anymore; they just require it. Also, one semester of freshman English is easily sufficient for any English grammar needs.

These decreases will allow for advanced courses to be pulled down into the first two years.

These changes, I hope, will satisfy you and the rest of the administration.

Respectfully yours,  
G. E. Clight, and so forth

Dr. T. Fitzgerald etcetera . . .  
Dear President Cauldron,

It has come to my attention that the school of ——— intends to cut one semester of English out of its curriculum. The school seems to assume that the students were learning enough English as it is.

Be aware that if Clight's school cuts out one semester of required English, we will institute a requirement of one semester (with no credit) of remedial English for everyone scoring below 500 on the College Board exam for English. This will affect at least two-thirds of the student body.

As things now stand, the school of ——— brain-washes its students out of all interest in the humanities, which thus become an insufferable bore. Only the gifted emerge with some true education.

Obviously, Clight wants to satisfy the letter of the law (assuming your word to be law), whereas English strives constantly to fulfill the spirit of the law, which is education. It may be interesting to note that those who are interested solely in teaching the student something are widely recognized as forming one of the college's finest departments.

Sincerely,  
F. F. Chart  
Head, etcetera . . .

LEADING MAN'S SHAMPOO

# Wolfpack Take Second Place In Conference

Red-hot N. C. State won its sixth and seventh straight conference contests this weekend in the North-South doubleheaders in Charlotte. Although the Wolfpack did not play as well as in the past few contests, their efforts were good enough to win squeakers over South Carolina 77-76 and Clemson 73-71.

The two wins boosted State into second spot in the conference with a record of 10-3 with one game remaining against Wake Forest Wednesday night. Wake is the leader with a 10-2 record, and a Wolfpack win Wednesday night would place them in the top spot.

If State wins, and the remainder of the conference games of Duke and Wake Forest go as they are favored, the conference will have three teams tied for the top spot. However, the number one spot for the tournament will go to Wake Forest since they are defending champs.

Against South Carolina the Wolfpack ran into a hot ball club which ran up a 14 point lead on State in the opening minutes of the second half. Slowly the Casemen chopped away at the lead until they found themselves with a five point lead with a little over a minute to play. A couple of bad busses gave the Gamecocks a chance to pull to within one point, but time ran out.

The big man for the night was Jon Speaks with 28 points while Russ Marvel added 18. Speaks was evicted from the game with 1:12 to play after a scuffle with USC's Bobby Robinson.

John Punger won his second game of the season with a last second basket against Clemson in the Saturday night game. State blew a seven point lead in the last to allow Clemson to tie the score at 71 all with two minutes remaining.

State held the ball for one shot which Rohloff missed. The rebound resulted in a jump ball which State controlled and called time with three seconds left.

## Notices

There will be a meeting of all persons interested in forming a cricket league at the new gym Wednesday at 5:30. The plans are for a four team intramural league plus one team to be selected to compete against other schools. Everyone is invited to play in the new league.

There will be a meeting of all fraternity and dormitory athletic directors at the gym Wednesday at 5:00. Twenty points will be awarded in intramural standings for attendance.

All freshmen interested in trying out for the freshman baseball team are requested to attend a meeting with Coach Jim Edwards at the gym on Thursday evening at 7:00 in room 11.

## Campus Crier

(Continued from page 1)

minimum of a 2.0 average with Junior class dues paid.

A class ring from Elizabeth-town High School has been found and turned in at the CU.

The out of bounds play was made to Punger in the corner who sank the basket as the buzzer sounded.

Speaks was again the high point man with 28 to give him a two night total of 51 points. Three other State players also hit in the double figures.

## State Keglers Topple Wake

The first match in a new intercollegiate sport, bowling, was won by State in a 2502 to 2275 total pin verdict over the Wake Forest keggers yesterday at Western Lanes.

Leading the way for State in a well-balanced scoring was Pete Poteat with a 534 series for the three games, followed by Terry Phillips with a 200-530 set, and Don Wechsler with 509. Stig Nissen was high man for Wake with a pinfall of 528.

The State bowlers had little trouble in building up a lead in the first game with an 826 to 728 margin. From there the lead increased with the team finishing with an 877 for the day.

The match was the first in a series of matches to be held this spring among members of the Big Four. The State team is comprised of Poteat, Phillips, Wechsler, Don Dwore, Bill Grant, Ron Lipsius, and team captain Richie Williamson.

## Tankmen Stop Pitt In Final Meet

The Wolfpack swimmers completed the regular season with a 50-44 victory over Pittsburgh Saturday afternoon before the local television cameras. The intersectional meet provided good action in a rivalry of close meets between the two schools.

Two new pool records were set during the afternoon, one by Ed Spencer of State and one by Ron Levine of Pitt. Spencer, swimming the butterfly for the first time at home, recorded a time of 2:08.3 for the 200 yards. Levine posted a pool record of 2:11.5 in the 200 yard backstroke.

Once again the State freestyle relay team had to pull out the victory in the last event as Pitt lead 44-43 going into the race. But the relay team, holders of the conference record set Wednesday against Carolina, had little trouble in taking the first place to win the meet.

Double winners for the afternoon were Pete Fogarasy in the individual medley and breaststroke plus

## HOW TO BE A BWOC

Ladies, let me be frank. The days of the college year dwindle down to a precious few. And some of you—let's face it—have not yet become BWOC's. Yes, I know, you've been busy what with going to class and walking your cheetah, but really, ladies, becoming a BWOC is so easy if you'll only follow a few simple rules.

The first and most basic step on the road to being a BWOC is to attract attention. Get yourself noticed. But be very, very careful not to do it the wrong way. I mean, any old girl is bound to be noticed if she goes around with a placard that says, "HEY! LOOKIT ME!" Don't you make such a horrid gaffe. On your placard put: "ZUT! REGARDEZ MOI!" This, as you can see, lends a whole new dimension of tone and dignity.

Once you have been noticed, it is no longer necessary to carry the placard. It will suffice if, from time to time, you make distinctive noises. If, for instance, every three or four minutes you cry, "Whippoorwill!" you cannot but stay fresh in the minds of onlookers.

We come now to clothes, a vital accessory to the BWOC—indeed, to any girl who wishes to remain out of jail. But to the BWOC clothes are more than just a decent cover; they are, it is not too much to say, a way of life.

This spring the "little boy look" is all the rage on campus. Every coed, in a mad effort to look like a little boy, is wearing short pants, knee sox, and boyshirts. But the BWOC is doing more. She has gone the whole hog in achieving little boyhood. She has frogs in her pockets, scabs on her knees, down on her upper lip, and is followed everywhere by a dog named Spot.

All this, of course, is only by day. When evening falls and her date comes calling, the BWOC is the very picture of chic femininity. She dresses in severe, simple basic black, relieved only by a fourteen pound charm bracelet. Her hair is exquisitely coiffed, with a fresh rubber band around the pony tail. Her

Don't you make such a horrid gaffe.

daytime sneakers have been replaced by fashionable high heeled pumps, and she does not remove them until she gets to the movies.

After the movies, at the campus cafe, the BWOC undergoes her severest test. The true BWOC will never, never, never, order the entire menu. This is gluttony and can only cause one's date to blanch. The true BWOC will pick six or seven good entrees and then have nothing more till dessert. This is class and is the hallmark of the true BWOC.

Finally, the BWOC, upon being asked by the cigarette vendor which is the brand of her choice, will always reply, "Marlboro, of course!" For any girl knows that a Marlboro in one's hand stamps one instantly as a person of taste and discernment, as the possessor of an educated palate, as a connoisseur of the finer, loftier pleasures. This Marlboro, this badge of savoir-faire, comes to you in flip-top boxes that flip, or in soft packs that are soft, with a filter that filters and a flavor that is flavorful, in all fifty states of the Union and Duluth.

BWOC: Buy Marlboro On Campus. Buy them downtown, too. Either place, you get a lot to like.

## CCUN Meet Termed Successful

(Continued from page 1)  
Africa asked the Union of South Africa to give independence to a province that is presently considered a colony.

Thursday night, Dr. Frank Graham, a former president of the Consolidated University and a special mediator of the United Nations, spoke before the assembly. His speech dealt on the topic of world problems and the success of the United Nations as a force for solving them.

The Assembly selected the University of North Carolina as the site for the 1963 model assembly. Hugo Spiegler of UNC was named Secretary General for the coming year and Duke Marsland of Duke, president.

The delegation from the Air Force Academy which represented Great Britain was voted as the outstanding delegation, and Karen Rawling of Catawba who represented Yugoslavia was named the outstanding delegate to the assembly.

Two State students, Jerry Hutchens and Stan Nemmers, were named to the Continuities Committee of the CCUN. This committee carries on the business of the organization between the annual assemblies.

Dodie Clark and Eddie Elkins of State College are the present Secretary General and Regional Director, respectively, of the CCUN in this region. Dieter Mahne of Carolina presided over the Assembly.

## Ag Mag Begins Publication

(Continued from page 1)  
berger said of the project, "This will give students an opportunity to develop writing ability and experience in working with publications. It will also give all agricultural students information on the activities of students in the School

of Agriculture and the Department of Agricultural Education."

Lineberger also stated, "We are interested in recruiting and training students for positions on the staff next year. These staff members will be elected during the latter part of this semester."

## Reactor Tour Stars Murray

(Continued from page 1)  
the nuclear reactor room. What seemed to be a tail dragging from beneath his jacket proved to be the trailing cord of the physicist's microphone.

As Dr. Murray and the camera reached the nuclear reactor room, the television audience saw the interior of the reactor through a mirror suspended over the reactor. Dr. Murray then guided the camera into the control room.

Back in the classroom Dr. Murray answered questions concerning atomic energy, then led the camera back to his office.

The program featuring Dr. Murray was the seventh in a series of twenty-five programs on professors to be telecast this year. Dr. Murray is one of five professors to represent the South in the series. He was

chosen from more than fifty well-known instructors in this area who were personally interviewed by the television personnel.

## Twist Contest Highlights CU Day

# Girl Watcher's Guide

Presented by Pall Mall Famous Cigarettes

Diamond-Studded Starlet

## LESSON 8- Becoming a specialist

Experienced girl watchers, for whom routine watching has lost some of its excitement, often become specialists. (This is definitely not recommended for beginners. However, it may be practiced as a change-of-pace by more advanced students.) They may spend an entire field trip concentrating on one part of a girl. This tends to step up

activity, since it does not require that the whole girl be beautiful. For example, if you decide to specialize in knees, you watch only beautiful knees. (The doorman above appears to be an ankle specialist.) Whatever your watching specialty, make sure your smoking specialty is Pall Mall's natural mildness—it's so good to your taste.

### WHY BE AN AMATEUR? JOIN THE AMERICAN SOCIETY OF GIRL WATCHERS NOW!
