Top Eng. Senior Named IE-ME Major Receives Watch

Jim Hackney was named "Outstanding Senior in Engineering" Saturday evening at the annual St. Patrick's Dance in the College Union.

Announcement of selection of Hackney to receive the honor was made by Dr. J. Harold Lampe, dean of the college's School of Engineering, at the annual dance for engineering students, faculty and their guests.

Hackney, who received a B. S. degree in mechanical engineering last spring, will receive a B. S. degree in industrial engineering in June. The fifth-year student has maintained a high scholastic record through his college years and has a grade point average of 3.8 out of a possible 4.0.

He has participated in the college's Superior Student Program and is a member of the Engineering Honors Program.

Hackney has also been awarded the High Honor Award by Phi Kappa Phi, national scholastic society. He is a member of Golden Chain, senior leadership society considered one of the highest honors a State College student can achieve. He is also a member of the Blue Key, national leadership society.

Hackney is married to the former Constance Garrenton of Bethel.

Commenting on the award, Hackney said, "I am honored to have been chosen for this award. State College has meant a lot to me in the few years I have been here, and I have tried to do my best in making it

Band, Glee Club Offer Records of 'Earth and Atom'

The North Carolina State College Band and Glee Club are producing phonograph albums of music presented on their recent 1962 tours.

"Of Earth and Atom," a composition commemorating the Diamond Jubilee of State College, is included in each album.

The records will be made available to faculty and staff members as well as other interested persons.

The Men's Glee Club album, one long-playing record, is priced at \$3; while the Symphonic Band album, two long playing records, is priced at \$5.

The records may be purchased through the college's music office, 104 Pullen Hall, State College.

Jim Hackney

a better place for future students.

"I wish there were a way to pay equal tribute to many other seniors in engineering who have also done an outstanding job. It has been a wonderful experience to work with them, and I will always remember them when I think of this award."

Engineers Knighted At St. Pat's Dance

Twenty-five outstanding engineering seniors at State College were knighted into the Order of St. Patrick, honorary leadership society, Saturday evening during the intermission of the annual St. Patrick's Dance sponsored by the Engineers' Council.

In addition, 17 engineering freshmen were dubbed Companions of St. Patrick, one of the highest honors bestowed upon outstanding freshman engineering students.

The Order of St. Patrick was named for the legendary saint who, in chasing the snakes from Ireland, "invented the first worm drive" and thus became the patron saint of engineers all over the world.

Presiding over the traditional ritual was Burke Ellis of Winston-Salem, Council president. The honor students, chosen for their scholastic and leadership records, were presented with golden keys and green carnations.

Knights of St. Patrick are: Ronald L. Boger, James C. Hart, Charles E. Powell, William H. Slack, Jr., Charles C. Randall, Noland E. Wiggins, David E. McCombs, Wiley Ray

Sick, Sick, Sick

People confined in the infirmary yesterday were Butch Watkins, 318 Becton; Doug Brackett, 123 Becton; Hartley Causey, 1108 Clanton St.; "Yogi" Denson, 211 C Bragaw; Henry Thompson, Delta Sigma Phi house; and Martin Sasser, 322 Turlington.

Phi Kappa Phi Taps Students For Top Honor

Thirty-nine State students have been elected to membership in Phi Kappa Phi.

Phi Kappa Phi is the highest academic honor that students of this campus can attain. It is equivalent to Phi Beta Kappa in liberal arts colleges.

Included in the list were 28 seniors and 11 juniors. The seniors are Miss Jamie Cornwell (the only woman on the list), Edgar Calloway, Thurman Burnette, Charles Little, Clay Sams, Smedes York, Malcolm Judkins, Thomas Ward, William Deal, Blake Hildreth, Robert Steljes, William Brantley, Louis Rader, Charles Dunning, Hung Duong, Edward Franklin, Bohun Kinloch, Thomas Miller, Reese Scull, Hoang Vu, Richard Baer, Charles Bostian, David Miller, Tommy Sharp, David

Four NCS Swimmers Place In Regionals

By Richie Williamson

A four man swimming team proved good enough to place fourth in the Eastern Regionals in competition with many full size teams, and two of these men set new meet records in the process.

The team was from State, which compiled 42½ points in the meet, while the record breakers were Pete Fogarasy and Ed Spencer.

Coach Willis Casey was well pleased with the performance of his small, but powerful, contingent, as only full sized teams from Yale, Harvard, and Princeton were good enough to outscore his four men. In all, the team won three first places, two seconds, and two thirds in the meet.

Bidding to repeat their All-American honors were Fogarasy and Spencer. Fogarasy was a double winner for the meet, winning the 100 and 200 yard breaststroke events. He set new pool, ACC, and Eastern Regional records in both events. Spencer won first in the 100 yard butterfly and placed a close second in the 220 yard freestyle while setting new records.

Sophomore sprinter Bill McGinty added to the point total with a third place in the 50 yard freestyle on Friday night and then finished second in the 100 yard freestyle on Saturday night. The State medley relay team composed of these three and backstrokeer Smokey Ellis placed third in that event in cutting 3.6 off their best previous time.

Fogarasy eclipsed his own record in the 200 breaststroke with a time of 2:18.0, which was one tenth of a second better than the time he set last year. In the 100 yard event he not only set a record but also gained a personal revenge in beating Gardner Green of Princeton, the man he lost to in this event last year. His time was 1:02.2 as compared to Green's old mark of 1:02.9.

Spencer missed by one tenth of a second in tying the national record; he took the butterfly in 53 seconds flat. He was the defending champ in this event as well as in the 200 fly. However, he chose to pass up the 200 fly and swam in the 200 freestyle. He broke all the records for the meet with a time of 2:03.0, but it was only good for second place.

The relay team recorded a time of 3:44.1 in placing third in the event. This was good enough to set a new conference record previously held by the same men. McGinty turned in his best time of the year with a 49.5 in winning second in the 100 yard event.

These same four men will continue their training in preparation for the NCAA meet to be held March 30-31 on the Ohio State campus in Columbus, Ohio.

Partial Integration Becomes Effective At Varsity Theater

Partial integration of the Varsity Theater has been in effect for over a week.

According to Raleigh Mayor W. G. Enloe, the manager of the theater chain to which the Varsity belongs, Negro students at State College have been allowed to attend the Varsity since March 8.

Enloe stated that he was "glad, although not surprised, that the integration of the theater which began eleven days ago was carried out without incident of any kind."

The Carolina Theater in Chapel Hill, which belongs to the same chain, began integration for Carolina students last August and recently announced that it had begun total integration.

Carnival Night Applications Near Deadline

Organizations interested in sponsoring booths for Carnival Night, April 6 and 7, in the College Union should put in their applications soon, according to Mac Lattam, chairman of the Social Committee.

Carnival Night will be held in conjunction with the Engineer's Fair. Organizations which sponsor booths are entitled to ninety per cent of the profit made. The remaining ten per cent will go to the Student Loan Fund. Several colleges, including Woman's College, U.N.C., and several girl's schools, have been invited to participate in this event.

Each organization entering a booth may also enter two contestants for the Carnival Queen contest which will be held on Friday, April 6. The Queen will be presented at the dance on Saturday night, April 7. She will preside over the presentation of the trophies for the best decorated and most original booths.

Harvard Dean To Visit Here

Dean J. Leslie Rollins, Assistant Dean at the Harvard Graduate School of Business, will be at State College Tuesday, March 20, to interview students interested in graduate study.

Appointments to see Dean Rollins may be made through the office of Dr. Lyle B. Rogers, director of counseling.

Phi Eta Sigma Initiates Fifty - Three Top Frosh

"The Peace Corps is the spearhead of not only a new frontier, but a new American."

Dr. J. Leon Helguera, assistant professor of history and political science, made this statement at the Phi Eta Sigma initiation banquet held at Balentine's Friday night.

Dr. Helguera was the director of the Latin American course of study for the Peace Corps at Rutgers University last summer. He spoke of his experiences and remarked that the Peace Corps is succeeding "much better than expected."

Phi Eta Sigma recognizes the freshman students with the highest averages each year. The following fifty-three freshmen were inducted into the organization Friday:

Norman Andrews, William

Thirty And Three Applications Due

Applications for membership in Thirty and Three, are due this week.

The Order of Thirty and Three is a leadership honorary society open to members of the sophomore class.

Applications may be made in the Student Activities Office, in Room 206 Holladay Hall.

Angel Flight Meeting

The Angel Flight will meet at 7:30 Tuesday night in the YMCA.

How Many Pushups?

Physical training programs at State College are superb, and that is as it should be.

The beautiful new gymnasium, as spacious as it is, is seldom deserted at any time during its long hours of operation. In addition, the dormitory and fraternity intramural participation on this campus is hard to beat.

The one disturbing factor in the otherwise glowing picture is that academic credit is given for athletic ability in the two years of required physical education courses.

Immediately those who fare well in the various sports taught at the college will jump to the defense of PE credit. Likewise the less coordinated will be quick to press for discontinuance of the PE grading system—particularly if they have a semester of two of gym classes left.

Consequently, such matters should be relegated to competent but impartial hands—in our case faculty and administration officials. It is encouraging to note that at least one school at the present time is seriously considering omitting physical education quality points and hours from the official curricula, but retaining the PE requirement.

This is not to imply in any way that physical education is anything other than an essential part of the college. In the vigorous world of today, men and women with healthy bodies and minds are a precious commodity. The advancement of a multitude of labor-saving devices has done little for the development of physical stamina in modern society; exercise is a necessity for body vitality.

Sports and other athletic endeavors play a significant part in the contemporary American scene. The introduction to participation in these activities provided by physical education is therefore of benefit to the student in this way, also.

A possible source of objection is the physical education department itself, which might feel that little control could be exerted upon the students without the grade book. Competitive spirit cannot be taught in a single course; however, it is certainly reasonable to set standards of competence for the fulfillment of the physical education requirement.

Additional incentives could be instituted within the department, also, such as restricting below average athletes to the basic courses which might do them more good. PE credit, like any other, should not be handed out on a silver platter.

Would removal of the grade system cause disinterest in physical training? The number of students who spend free time in the gym on their own or on an intramural team leads one to believe that the gymnasium's booming business would not suffer.

In Lumberton

First Design Alumna Practicing

By Cora Kemp

"My working hours can vary from two hours to sixteen, but never have I put in the hours that I put in at State College." These are the words of Miss Elizabeth Lee of Lumberton, State College's first coed to graduate with a degree in architecture, when asked about her profession.

Although she was not the first coed to enter this field, Miss Lee was, in 1952, the first to graduate. At the present time, she is the only woman practicing architecture under her own name in North Carolina, and with the exception of one woman who is retired, she is the only woman in this state licensed to practice. She was recently elected secretary-elect of the North Carolina Chapter of the American Institute of Architects, the first woman to hold this position.

Miss Lee, a slender woman of medium height with dark blue eyes, light brown hair, and a husky, but friendly voice, has her own private office adjoining her father and brother's law office in Lumberton. She works alone but hires a draftsman and a secretary.

Even though her desire to be an architect was not a life long one, Miss Lee says that she actually does not know what inspired her to be one. "I did, however, decide that it would be a good combination of what little talents I had and also would be a profession which I would enjoy."

She attended Salem College for two years before entering State in 1947. Here she earned a letter in cheerleading and was on the Student Government Council for one year.

"I am not sure what the attitude of the other students was toward me, but they appeared to accept me, and many of them today are my dearest friends," she commented.

Dean Kamphoefner, who is a close friend of Miss Lee's, related an incident that occurred

shortly after the School of Design was officially established in 1948. Miss Lee was a sophomore in engineering. The dean asked her if she was going to enter the new school because so many students were flunking out. "Of course, I am," asserted the determined young lady." If

Miss Elizabeth Lee

you want to get rid of me, you'll have to flunk me out." Four years later when she graduated, she ranked third scholastically in a class of twenty-three.

"She was a good all around student," commented the dean. "Her best subjects were math and mechanics, areas in which most women students are usually weak. Quite often she helped the men students with their work in mechanics and structures."

The faculty voted Miss Lee second in all around ability when she graduated. She received the American Institute of Architects Book Award in recognition of this fact.

Miss Lee served her apprenticeship, immediately after graduation, in Kingston, working for W. A. Coleman for three years. In

1955 she received her license on the basis of her experience and a written examination.

A ten week trip to Europe was next on Miss Lee's agenda. The independent young woman made the trip alone, visiting ten countries. Upon returning to the United States, she worked for Skidmore, Owings, and Merrill in New York for six months before opening her own office in Lumberton in September, 1956.

Although she is competent in all phases of architecture, Miss Lee caters to the traditional styles. Her past accomplish-

'Friends' Member Drive To End Next Week

"The Friends of the College, Inc., presents the people in the Raleigh area with opportunities in top-flight entertainment that exist nowhere else in the United States."

This statement was made last night by Henry Bowers, director of the College Union, as the "Friends" moved into the final week of their drive.

Bowers also noted that the Leningrad Philharmonic, which is touring the Western Hemisphere for the first time, will make its North Carolina debut in Raleigh. David Oistrakh, the Soviet Union's most celebrated violinist, will also appear with the Leningrad. The only other place that Oistrakh will be appearing with the Leningrad in its tour of the Western Hemisphere is New York City.

The Hague Philharmonic, a famous orchestra from the Netherlands, will begin its first American tour by appearing in Raleigh.

"The Friends of the College, Inc., has meant a great deal to many State College students and to

Notices

ments include many types of buildings and she is presently working on residences and a private club.

The School of Design has graduated only three other coeds, two in architecture and one in landscape architecture.

many people in the Raleigh area since it began to operate three years ago. The only thing that will guarantee the continuing success of this organization is the continued interest of students and other people in the Raleigh area."

This statement by Bowers was made in reference to the present membership drive of "The Friends," which ends Monday, March 26. They are trying to hit the 9000 mark in membership this year.

The price for a season membership for any six or more people coming in together is \$7, for two through five people coming in together the price is \$9, and a single membership is \$12. Any State senior who will be in the Raleigh area next year and wants a season membership can obtain one for \$7.

Wolfpack Hosts Dartmouth In Season Opener Tomorrow

Bobby Conner Will Pitch First Game

North Carolina State's baseball team will open a 21 game schedule tomorrow afternoon at 3:00 on the State diamond. The opponent will be Dartmouth, which will play a two game series with the Wolfpack. The second game will be played Wednesday.

Starting his 17th season as head coach of the baseball team is Vic Sorrell. Coach Sorrell has one of the strongest teams on hand to start the fight for the conference crown with the exception of pitchers.

State will play another two game series against Kent State on Friday and Saturday in Raleigh. They will host Yale next Monday before starting into conference contests.

Drawing the starting assignment for tomorrow's contest will be Bobby Conner. The senior from Wilmington is the only moundman with any experience as he posted a 3-1 record last season. He pitched 33 innings, yielding an earned run average of 1.90 and issued only six walks.

The bulk of the attack will be based on the complete return of last year's infield. Heading the list is all-ACC performer Vern

Strickland who was the top hitter for the team and second in the conference with a .371 average. Vern will return to his spot at third base.

Another two year veteran is shortstop Wayne Edwards. He has batted over .300 in the past two seasons plus getting 23 RBI's in those seasons to lead the team. At second base will be Ray Russell, a junior, who batted .250 last season and is a good spray hitter. The first baseman will be junior Jerry Cordell who has been hitting well in spring practice.

One of the big drawbacks will be in the outfield where two lettermen return, Don Montgomery and Les Young, but neither have been able to get in much practice due to spring football practice. These two will be slow in getting into top form at the early part of the season. Montgomery posted a .313 average as a sophomore. Young was an alternate outfielder last season.

The other outfield spot will be manned by Warren Lineberger, a sophomore. He led the freshman team in batting while playing second base but has been switched to outfield for this season. Backing up this unit in the outfield will be Ron Erb who hit .294 as a frosh and led the team with 7 RBI's.

The catching spot will be handled by junior George Hayworth who caught every inning last year. George, a strong hitter, batted .234, mainly due to a slump at the end of the season.

The utility replacement for the squad will be Tom Hines, a member of the Wilmington Junior College national champions last year. He can hold down third or second base or will relieve Hayworth at catcher.

Since there will be four games in the first week, Coach Sorrell will get a good chance to see what his inexperienced pitching can do. Conner is slated to work again on Saturday. The starting assignment for the other two games will probably fall to George Allen and John Boughan. Both were on the squad last year but saw very limited action.

The top relief man is Doug Harris, a junior who played two years at Louisburg Junior College. He has good control and a good curve ball. The other four men on the pitching staff are all sophomores, but Sorrell will call on them if necessary. This group includes lefthanders Bob Levenson and Frank McGirt, and righthanders Mike Pellegrino and Joe Coors. Levenson recorded the only freshman win last season, while McGirt was 0-2 and Pellegrino was 0-1. Coors did not play on the freshman team.

LUCKY STRIKE presents: LUCKY TUFFERS "SPRING MADNESS"

"O.K., girls. When they reach the third floor, we let go with the fire hose."

"You guys go wherever you want. I'm going where the girls are."

"When I was a freshman, the seniors won. When I was a sophomore, the seniors won. When I was a junior, the seniors won. Now this."

GO NEAR THE WATER. Spring is the time when students start thinking about water fun. We say: Splash up a storm. Have a lark. But please be careful. Each year, a few careless students get water on their Luckies. Imagine their remorse! Imagine yours if you were to spoil a Lucky—that great cigarette that college students smoke more of than any other regular. So have a swell time at your favorite watering hole this spring. And keep your Luckies dry.

CHANGE TO LUCKIES and get some taste for a change!
