

Spring Preregistration Begins December 1st, Lasts 2 Weeks

by George Pantou
News Editor

Preregistration for spring semester will begin December 1 and run through December 15. "All currently enrolled students must preregister during this period or a \$10 late fee will be charged," said James H. Bundy, assistant registrar.

Students should obtain copies of the 1968 spring schedule course booklet from departmental offices beginning next Tuesday. Engineering fresh-

man enrolled in E 100 will pick up their booklets in class. Others may obtain a copy from the Freshman Engineering Office, 239 Riddick Stadium. Students not associated with a department may pick up a booklet at the Registration Office, 11 Peele Hall.

"Complete instructions for the completion of preregistration are found in the course booklet. Students must complete the trial schedule of the courses in the booklet before

reporting to the advisor. After meeting with the advisor and having the courses approved, the student will complete the preregistration schedule cards and return the cards to the Registration Office, 11 Peele Hall," said Bundy.

Late fee policy for spring is the same as for previous semesters:

1. Currently enrolled students who fail to preregister during the official preregistration period who request the

privilege of preregistering late will be charged a \$10 late fee.

2. Currently enrolled students who preregister during the time officially scheduled and subsequently fail to register during the official registration period and who request the privilege of registering late will be charged a \$10 fee.

3. Currently enrolled students who fail to preregister will not be able to complete registration during the official

registration period and will be charged a \$10 late fee for failure to preregister and a \$10 late fee for failure to register, a total of \$20.

"Special care should be made by students so that errors are not made in requesting course on the schedule request card. Each error will lead to possible problems later for the students.

"Most errors will be avoided if the student will be certain not to preregister for courses which do not appear in the schedule booklet and will be careful in listing the courses on the preregistration schedule so that all suffixes are included i.e., ED 503E or Ec 206H," said Bundy.

SG Passes Date Ticket Bill

by Merry Chambers

Athletics was the subject of the two bills passed in Student Government Wednesday night. One was concerned with student date tickets and the other with the Shrine All-Star Game.

The bill on student date tickets, in the form of a recommendation to the Athletic Department, asks that student date tickets be sold at half price (\$2.75) for any non-sell-out game at Carter Stadium and that date tickets for all Homecoming games and season date tickets remain at their present prices of \$2.75 and \$9.00 respectively.

Sandra Shraper (Jr.-PSAM) and Ed Chambers (Sr.-Eng.) sponsored the measure. The wording of the bill was questioned as being too complicated by Art McConnell (Grad), but Miss Sharpe explained that the text evolved from a conference with Roy Clogston of the Athletic Department. Clogston indicated a willingness to accept the recommendation for all home games except for "Big 4" games, according to Miss Sharpe.

Pete Liles (Jr.-Forestry) suggested that if the tickets were left at the higher price, the stadium debt might be liquidated sooner. Miss Sharpe answered that the loss in revenue from the cheaper tickets would be more than compensated for by the increase in concession sales. The bill passed.

Support for the Shrine All-Star Game, sponsored by Paul Smith (Sr.-LA), was passed under emergency legislation. The bill expressed SG's support and encouraged attendance at the game, with copies sent to the local news media and to Shrine Headquarters.

Introduced on first reading was a recommendation for a two-day reading period before exams. Lawton, Chairman of the Academic Affairs Committee, stated that the extra day "wouldn't be subtracted from the number of class days."

The President also reported the following: that a student member would be welcome to attend meetings of the Educational Policy Committee; that the Consolidated University Student Council had met November 12 and the mem-

bers had been sworn in by President Friday, and that discussion was continuing between students, administration, and Athletic Department concerning the cheerleaders getting to games.

From the Campus Welfare

Committee came word that it would probably be more appropriate to put a new monogram at Carter Stadium than to try to move the old one from campus. The rules concerning the painting of the tunnel were also mentioned.

Gentry Concious

Bill Gentry is aware of conversation directed to him and of his location, according to Dr. Robert McQueen, his attending physician at Alamance County Hospital.

Gentry, a State star last year, was stricken with a cerebral hemorrhage September 15 during a high school football game. Dr. McQueen confirmed a report that Gentry had recognized State quarterback Jim Donnan last week.

Several hundred friends and well wishers turned out last week to welcome Gentry to his home in Burlington. His return was made brighter by the success of a marathon conducted by Radio Station WBAG in Burlington. Close to \$12,000 was collected to pay for hospital and medical expenses.

Bob Fahrnich, WBAG disc jockey, broadcasted continuously for 101 hours in the marathon. Other friends around the state have started funds in Gentry's name. A fund at High Point Central High School where he was a football coach has reached \$7,200 and is still growing.

A conservative estimate of what the combined funds would total is over \$20,000 and the money still is coming in.

Dr. McQueen feels that Gentry's present awareness represents a major step forward, considering he was in a coma for six weeks.

Warren Sets NCAA Mark With 17th FG

There was one bright spot in the darkness last weekend at Clemson. That was the toe of Gerald Warren.

Warren set a new national major college record with his 17th field goal of the year, one more than Charlie Gogolak of Princeton and the Washington Redskins. Gogolak's record year was '65.

Warren's two kicks, covering 37 and 47 yards, were his sixth and seventh in a row and his 16th and 17th out of 21 tries. The 47-yarder was his longest successful kick.

The six points scored by Warren gave him 70 points for the year and an eight-point lead over his nearest competitor for the national-scoring-by-kicking-only title.

Threat Of Penalty Prevents Worthless Checks At Bank

The necessity of showing ID cards in order to cash checks at the Student Bank is a long-standing policy and not an outgrowth of a bad check problem.

The policy has been reinforced during the last few weeks due to a single unfortunate incident. "Basically, we don't have any bad check problem," said W. R. Styons, supervisor of student accounts.

Mrs. N C State

Mrs. Paula Miller was named Mrs. N. C. State in a pageant held last Saturday night.

She is no stranger to beauty pageants having been homecoming queen at Louisburg College. She was also Miss Louisburg and Miss Congeniality at the Miss North Carolina contest. For the story see page 3.

"The rule is documented and has been in use over the years but sometimes the cashiers get used to certain students and don't demand the I.D. card. However, the school takes away the student's I.D. card when he withdraws from school.

"One student recently dropped out but the cashiers knew him well. His checks bounced, but we caught him and reinstated the I.D. policy," he explained.

Styons cited the bank's "overpowering" control over the student's finances as the main deterrent to bad checks being cashed.

"We can hold up a student's grades, write his parents, or kick him out of school. In a few cases, when a student bounces a check and doesn't return to school, we have to use collection letters or the attorney general's office," he said.

"Since a person cashing a check must show his identification, no one is able to bounce a check. Someone from the outside, a habitual check-bouncer for example, can't get away with it.

"Sometimes checks from parents for tuition and fees or for dormitory rentals will bounce. Often these are legitimate errors and the checks eventually will go through. If they don't, we have the power to prevent the student from registering or to keep him out of the dorm," he stated.

"If someone wants to write a bad check, he can but he can't get away with it. One small school was going to make all fees payable by certified check or money order but such a plan here would be absurd because we don't have that large a problem," concluded Styons.

Look Back With Pride At A Great Season...

Sometime in midafternoon September 16, Jim Donnan fired a 55-yard touchdown pass to end Harry Martell to ensure a football victory over Carolina.

Thus was State's greatest football season born.

Now ten games later Wolfpack fans everywhere, already beginning to speak of the '67 team in the past tense, are still savoring the accomplishments of Earle Edwards 8-2 club.

White shoes, Astrodome, and Clemson loss are all ancient history now—relics of the Red and White's finest hour to be dragged from attics in years to come when another State squad rises to national prominence. They'll ask when they read old Technicians (remember the red one?) how good Barchuk, Byrd, Combs, et. al. really were.

Only the 57 Kool Kyoties and the 350,000 fans

who saw them play will ever know.

Raleigh residents won't soon forget the post-game hysteria after the Houston win. But more important, every fan knows every minute of the '67 season like the back of his hand; everyone has his own special memory.

Craig Barnes can tell you about his lucky toboggan that helped us win eight times. He slept in it the night before the Penn State loss.

Then there's the WKNC crew that stayed up until midnight waiting for the rankings to come over the teletype.

Or how about the Technician staffers who raided the print shop to set the big blocks numbers proclaiming the 16-6 victory the Pack was to bring back from Texas?

Not to mention Mrs. Earle Edwards, who, we understand, couldn't stand the pressure of radio games and had to turn down the volume on every play.

Glen Yarborough is probably still mumbling about the roar from transistor fans that interrupted his concert.

Tony Barchuk knows what the Penn State goal line looks from six inches away. Fred Combs knows how it feels to ignite Wolfpack rallies with punt returns and pass interceptions. Gerald Warren knows that the toe is mightier than... and Clemson and Penn State know what it means to play tough football. Carolina, Buffalo, Houston, Florida State, Maryland, Wake Forest and Virginia would just as soon forget.

We won't. Not for a long, long time.
—Craig Wilson

Library Series Announced

The program for the second series of library lectures "Adventures in Scholarship" has been announced by I. T. Littleton, Director of State University Libraries.

The lectures this year are presented by: Dr. H. F. Robinson, Administrative Dean for Research; Dr. Abraham Holtzman, Professor of Politics; Dr. Carl F. Zorowski, Associate Head, Department of Mechanical and Aerospace Engineering; and Mr. Duncan R. Stuart, Professor of Design.

Littleton said, "The series was inaugurated last year to provide students, faculty and members of the community with an opportunity to hear the distinguished teachers and scholars from our own campus. On the basis of last year's enthusiastic response, we believe that 'Adventures in Scholarship' meets the oft-expressed need for interdisciplinary dialogue, and we are delighted that we will have four more such distinguished members of our faculty as lecturers this year." Former Chancellor Boston, Dr. Raymond Murray and Dr. Lodwick Hartley spoke last year.

Dr. Robinson will speak on "The University and the World Food Problem" on December 7. In addition to his many duties as Administrative Dean for Research, Dr. Robinson is Director of President Johnson's Science Advisory Committee Panel on World Food Supply.

Dr. Zorowski's subject on February 8 will be "Engineering Design and Society." Dr. Zorowski has established a national reputation in engineering circles through his research while at the same time winning the "Outstanding Teacher" award from his students.

A painter and designer as well as a professor, Duncan Stuart will have as his topic on March 7, "Designing the Designer." Professor Stuart was also chosen for the "Outstanding Teacher" award.

Dr. Abraham Holtzman is one of the most popular teachers in the School of Liberal Arts and has been singled out and recognized by students as "Outstanding Teacher" several times. His major research interests at present center around the effect of lobbying on the legislative process and his subject on April 4 will be, "The Executive Lobbyist in Two Systems."

The lectures will be held in the Harrelson Room—Room 222, D. H. Hill Library. Coffee will be served at 3:30 p.m. and the lectures will begin at 4 p.m. All faculty, students and friends of the University are invited to attend.

Greeks Celebrate Peter Pops Day

Thanksgiving will be a brighter memory for forty-seven Wake County youngsters because of a fraternity's way of honoring an alumnus.

The children, all boys between six and twelve years of age to whom Thanksgiving would have been just another day, were guests of Sigma Pi fraternity for the seventh annual "Peter Pops Day" dinner. After the dinner they were entertained with games by the fraternity members before going home.

The dinner which consisted of turkey, cranberry sauce, mashed potatoes, peas, ice cream and cake, was basically the same meal served back in 1941 when a boy named Peter Pops persuaded his fraternity brothers to start an annual Thanksgiving dinner for underprivileged children. The dinner was discontinued during the war.

Peter Pops, in whose honor the day is named, was a Brooklyn boy who enrolled as a freshman in 1939 and worked his way through college by baby sitting.

With the help of 20 friends and classmates, he was able to develop his part-time job into a thriving business which

attracted nationwide publicity. Raleigh mothers could have their children watched for 25 cents an hour, and if the job was over three hours long, have dishes washed in the bargain. "Call Pops" soon became the cry of mothers in need of a baby sitter.

While doing this he maintained, according to his record, a satisfactory grade average and lettered in track as a runner.

Pops was forced to withdraw from college in 1941 because of illness. In 1942, the brothers of Sigma Pi held the second dinner, and in honor of Pops, called it "Peter Pops Day." The war caused the event to be called off the next year.

In 1963, the fraternity decided to revive the event. An effort was made to try to find Pops, but without success. Finally, last year, it was learned that Pops had died.

Though Pops is dead, the day which is named for him stands as a better monument than stone or metal. The monument is in memory of a happy moment when a group did more than just say "We care."

Mrs. Miller Is Contest Winner

by Joe Hill

Eighteen lovely ladies competed Saturday night as the States Mates Club presented their annual Mrs. North Carolina State Contest in the Union Ballroom.

The title went to 20 year old Paula Justice Miller. Her spicy rendition of "Froggy Went a-Courtin'" brought smiles from everyone. Her second number, "San Francisco," was marred only by the poor quality of the audio equipment.

The contest followed the traditional beauty contest format with one disheartening exception—there was no swim suit competition. Whose idea was this? The girls... or their husbands? What a shame to have omitted what to this writer has always been the most exciting part of any beauty contest.

Of course beauty was not the only criterion being judged. The talent competition featured singing, ballet, piano, pantomime, and more. The six finalists were also required to think on their feet as they answered questions mostly related to being a student wife at State.

Second runner-up was Dee Hudspeth. First runner-up was Jenny Smith. The first place

winner, Paula Miller, was also selected as Mrs. Congeniality by the other contestants. Paula is the wife of David Miller, a junior in Political Science.

Babies crying, movie lights flashing, and a plea for patriotism by Marsha Carrington gave a "Let's return to good old Americanism" flair to the evening. A typically professional job by Emcee R. B. Farrington of WPTF

put the finishing touch on a well staged contest.

Shrine Bowl Is Saturday

Sports Predictions

The Wolfpack and the Blue Devils of Duke each placed eight men on the Shrine Bowl teams that will meet in Carter Stadium Saturday afternoon. Kickoff is set for 1:30 p.m.

Following the Wolfpack on the East team will be Carolina with four and East Carolina with three.

Tied for second place on the West squad are Davidson and Wake Forest, with five each.

West coach Tom Harp, who finished his season 4-6 last week, will join eight of his starters on the West side, as will east coach Earle Edwards who finished his season 8-2 last week. Other West coaches are Homer Smith of Davidson and Bert Piggott from North Carolina A & T. Assisting Edwards on the East staff are Clarence Stasavich of East Carolina and Tom Caldwell of Elizabeth City State.

The East team is composed of:

Lee Johnson, center
Perry Williams, end
Catawba

Ed Koonts, center and line-backer
Lenior Rhyne
Wayne Bell, fullback
Ed Joyner, tackle
Larry Helms, linebacker
Shaw
Willie Jones, halfback
North Carolina College
Thomas Cameron, end

Fayetteville State
Robert Allen, kickoff and punt returns

Members of the West squad are:

Duke
Bob Foyle, guard
Robin Bodkin, guard
Frank Ryan, halfback
Herb Goins, guard
Mike Murphy, center
Jake Devonshire, fullback
Art Vann, cornerback
Dan Brannon, safety

Davidson
Jimmy Poole, quarterback

John Giles, end
Pete Glidewell, end
Walter Green, center
Lewell Bryan, line

Wake Forest
Don Hensley, guard
Bill Decker, end
Bill Overton, tackle
Butch Henry, end
Robert Grant, end
North Carolina A & T
Elvin Bethea, tackle and line-backer

Winston-Salem State
Tim Jennings, end
Livingston
William Boger, end
Appalachian State
Jerry Willis, tackle
Western Carolina
Kenny Lewis, guard
Mars Hill
Bill Dyar, fullback
Guilford
Henry McKay, end
Bill Burchette, quarterback

Tickets for the game are \$5.00 and may be purchased at the Coliseum Box Office. Proceeds from the game go to support of the Shriner's Hospital for Crippled Children.

CLEMSON vs. SOUTH CAROLINA: South Carolina will win to form a three-way tie for the ACC championship.

TENNESSEE vs. KENTUCKY: Tennessee will easily defeat Kentucky on its way to the Orange Bowl.

OKLAHOMA vs. NEBRASKA: Oklahoma will match its Orange Bowl opponents win.

SYRACUSE vs. UCLA: The Bruins of UCLA will spoil Syracuse's chances for a bowl.

TEXAS vs. TEXAS A&M: Texas will win to throw the Southwestern Conference race into a four-way tie.

ARKANSAS vs. TEXAS TECH: Tech will win to keep alive its Cotton Bowl hopes.

RICE vs. TEXAS CHRISTIAN UNIVERSITY: TCU will follow its win over Texas with one over Rice.

PURDUE vs. INDIANA: Pur-

due will spoil Indiana's Rose Bowl hopes with their win.

WISCONSIN vs. MINNESOTA: Minnesota will win both the game and the Rose Bowl trip.

FLORIDA STATE vs. FLORIDA: Florida will continue to win in hopes of a bowl bid.

GEORGIA vs. GEORGIA TECH: Georgia wins as it tries for a bowl.

NOTRE DAME vs. MIAMI: Notre Dame will defeat Miami to halt their bowl hopes.

HOUSTON vs. TULSA: Houston will outscore the potent Tulsa attack.

TULANE vs. LSU: LSU, Sugar Bowl bound, will beat Tulane.

COLORADO vs. AIR FORCE: Colorado will win to improve its chances for a bowl.

PITT vs. PENN STATE: Penn State will continue its winning ways.

GROWTH OPPORTUNITIES ROBERTS COMPANY

NAVAL AIR TEST CENTER • Patuxent River, Maryland 20670 • An Equal Opportunity Employer

Joseph Gardner, Class of '58, Chief Engineer, Naval Electronics Systems Test and Evaluation Facility.

Depends on the giant. Actually, some giants are just regular kinds of guys. Except bigger.

And that can be an advantage.

How? Well, for one thing, you've got more going for you. Take Ford Motor Company. A giant in an exciting and vital business. Thinking giant thoughts. About developing Mustang, Cougar. A city car for the future.

Come to work for this giant and you'll begin to think like one.

Because you're dealing with bigger problems, the consequences, of course, will be greater. Your responsibilities heavier. That means your experience must be better—more complete. And so, you'll get the kind of opportunities only a giant can give.

Giants just naturally seem to attract top professionals. Men that you'll be working with and for. And some of that talent is bound to rub off.

Because there's more to do, you'll learn more. In more areas.

You'll develop a talent for making hard-nosed, imaginative decisions. And you'll know how these decisions affect the guts of the operation. At the grass roots. Because you'll have been there.

If you'd like to be a giant yourself, and your better ideas are in finance, product engineering, manufacturing, marketing and sales, personnel administration or systems research, see the man from Ford when he visits your campus. Or send your resume to Ford Motor Company, College Recruiting Department.

You and Ford can grow bigger together.

What's it like to work for a giant?

I'd like a big job please.
