Engineering Cuts Six Required Courses Off

The School of Engineering is presently cutting the number of credits needed for graduation in all Engineering curriculums.

According to Dr. R. G. Carson, director of instruction for the School of Engineering, these changes are being made as a result of an order issued by Chancellor Caldwell last spring. This order was for a general reduction of credits required for graduation in the school; it did not indicate a specific number or group of courses to be dropped.

The first course cut from the graduation requirements was MA 101, Algebra and Trigonometry. This change has already been approved. This course or its equivalent is still required as a prerequisite for MA 102.

Also, at the present time, a committee is studying the possibility of combining ME 101 and ME 102, Engineering Graphics, into one course. So far no definite action has been taken on this.

The Mechanical Engineering Department has cut its required Engineering Mechanics sequence from four courses total-

ing eleven hours to three courses totaling nine hours. Other departments are considering similar changes in their Engineering Mechanics sequences, according to Dr. Carson.

The school has also considered the possibility of dropping one of the two required freshman composition courses, but according to Dr. Carson, this change will probably not be made.

According to Dr. Carson, the average number of hours required for graduation in an engineering curriculum was formerly 147 hours. It is now down to about 141 hours.

Course In Selling Planned For Students

A course designed to help students get and hold Christmas jobs will be offered by the College Student Employment Office.

However, a minimum of twelve applicants is required for the course to be held, according to Miss Louise Wooten, student employment director.

The four two-hour classes will be conducted next Monday through Thursday. The wives of students may also attend. Those interested in this course should sign up in 202 Holladay Hall by Friday of this week. The Wake County Distributive Education Service will conduct the program, and Mrs. Anne Berry will instruct the class, according to Miss Wooten.

Subjects included in the course are job application, requirements for job success, training with the cash register, selling fundamentals at Christmas time, stock keeping, and packaging and wrapping. A certificate will be awarded

Nominations Due For Blue Key By Tuesday

Nominations for membership in Blue Key, a national leadership honorary fraternity for juniors and seniors, will be accepted this week.

According to Blue Key President Frank Smith, members of the junior and senior classes who have an average higher than all-men's may pick up nomination blanks at the College Union main desk or in Room 206 Holladay Hall.

The completed nomination blanks are due in the Student Activities Office, Room 206 Holladay Hall, by noon Tuesday, November 13.

Frosh Fight Fouled By Printers Error

Freshman elections would have been a lot simpler if it hadn't been for the printer.

A printer's error was responsible for the omission of two candidate's names, according to Floyd McCall, Student Government president. One of the candidates was running for Freshman Class vice-president and the other candidate was vie-

ing for treasurer.

McCall stated that the misprinted names would be included on the run-off ballots, below the top candidates which are in the run-off.

Candidates eligible for run-off are, for Freshman Class President, Tommy Edwards and John L. Sullivan. For Vice-President, Rex Kelly, Chip An-

draws, Ferman Wardell, and Walton W. Rogers. For Secretary, Theda Bundy and Joy Johnson. Treasurer, Sylvia Williams, Jackie Mitchell and Stephen Landvoigt.

Three Engineering Senators, Jim Miller, Chip Andrews, and Stephen Landvoigt were elected. Stated for run-offs are Roger M. Collins, Charles Williams, Steve Lanier, Don Dwiggins, John Norris, and Bob Williams.

In the General Studies school, two candidates slated for senator run-offs are Robin Chandler and Billy Koonce.

Senators elected were: Agriculture; Richard McLawhorn and Tommy Daniel.

Design; "Goose" Halldorson and Howard I. Price, II.

Education; James Edward Gribble and Henry A. Pasour.

Textiles; Bill White and Henkel Hutchens.

Forestry; Charles Gurkin and Douglas McDonald.

General Studies; Dick Moore, Sophomore Senator, and Pete Pundo, Junior Senator.

Graduate School; Jim Barr and Richard A. Cowman.

From the School of Physical Sciences and Applied Math; John Piaski and Phillip McGuffey.

Run-offs are to be held Thursday, Nov. 8.

Argentine Politician Says Instability Is Problem

By Doug Lientz

State College would be a wonderful addition to Buenos Aires.

Or at least this was the view expressed by Dr. Mario Amadeo in his talk in the College Union Ballroom last night.

Dr. Amadeo is a former foreign minister of Argentina. He resigned his post in protest when the military recently seized control of the government.

In his talk he said that the primary problem in Latin America is the decline in influence of the educated ruling class coupled with the lack of social stability and the political awakening of the mass of the people.

He said that this problem can lead Latin America to take one

of three courses: Castro-type communism, in which control is definitely in the hands of Russia; nationalistic communism, in which the country taken over is praised while its government changes hands; or a course in which economic development is stressed.

He said he would like to see the course of economic development of Latin American resources be developed through the use of Latin American capital. As an example of a plan which follows this general course he mentioned the Alliance for Progress.

He also said that one of the big things that would help is the addition of a number of technical institutions to provide trained men for the development of industry.

Trio Talks To Technician Reporter

Less Than A Trio

Discuss Formation Of Group, Addition Of John Stewart

By Charles Williams

"It's bad when there's dissention in a group like we had when Dave Guard was with us," said Nick Reynolds of the Kingston Trio. "But John Stewart has fitted in real well," he added. "John had been writing music for us for about two years and when Dave left, John was perfect for the job. Audience reaction has even improved, as demonstrated here tonight."

Reynolds was referring to the split-up of the Trio two years ago when Dave Guard left and formed his own group, The Whiskey Hill Singers.

Reynolds made the comment after the Trio's performance Thursday night at the Coliseum. The three men had met in one of the Coliseum's offices for an interview with this reporter and a WKNC staff member.

Asked about how they met, Nick replied, "I met Bob Shane in an accounting class and that night we went out and got juiced and decided to form a singing group. About two years ago I met John in a bar and he's been writing songs for us ever since."

John said he has written such songs for the group as "Portland Town", "Chilly Winds", and "One More Town".

Technician staff writer Charles Williams (left) and WKNC apprentice reporter Richard Hertzler (far right) interviewed the Kingston Trio Thursday night following their performance in Reynolds Coliseum. (See review on page two.) Shown in this picture are John Stewart (center left) and Nick Reynolds (center right). (Photo by Andrews)

The trio explained that they chose the songs for Thursday night's performance for variety, choosing such old favorites as "When the Saints Go Marching In", some of their popular hits such as "M.T.A." and adding a few solos including "She Was Too Good for Him".

When asked about the phe-

nominal success of the trio, Nick explained, "We worked in a night club in San Francisco for seven or eight months, so when we came out with our records, we had thirty or forty well-developed songs, whereas the average popular singer only has about one or two that he can do."

The future for the Trio includes about nine months on the road, a few television variety shows, and a new album coming out soon called "The New Frontier". It will include some of the songs they sang Thursday night, such as "Greenback Dollar" and "Yippie Ta Yay Ta Yo".

Campus Crier

The IDC meets at 6:30 tonight in the CU.

Annual pictures for the AICHe will be taken at the next meeting which will be held in room 113 Riddick at 7:10 p.m. on Tuesday night.

The Forest Products Research Society will meet Tuesday night at 7:30 in the CU.

The deadline for entry blanks for Homecoming floats is Nov. 12. No more than \$75 should be spent on the floats.

(See CAMPUS CRIER, page 4)

Campus Chesters

Labs For Liberal Arts

Have you ever wondered if all the liberal arts in the world could not possibly be put in a test tube of some kind?

If so, you are in good company.

Last year the English Department set up a section in an article writing course for members of the staff of *The Technician*.

This year Rom Linney is trying to get a similar course set up for students interested in acting.

These are lab courses, just like the ones offered in chemistry or physics. And, according to some authorities on education, they work.

If this is so, why do we not have more courses of this type offered at State College.

The College Union wants to publish a literary magazine. The English Department has a course in creative writing. Why not combine the two, so that students interested in creative writing can see their work in print and get credit for it too.

The Economics Department has a course in advertising and the publications have advertising staffs. Combining these two might give a better course.

The possible combinations of this type are limitless.

Strengthened liberal arts programs and improved students activities would result from using them.

DL

Can You Count?

We've seen a lot of things on this campus that we liked, and we've seen a lot of things that we disliked, but foremost among the latter is the general ignorance of the majority.

Now by this we don't mean that the students as a whole are stupid, quite the contrary, most of them are pretty smart—what we do object to is the fact that an engineer doesn't know anything but engineering, a chemist doesn't know anything but chemistry, a zoologist doesn't know anything but zoology, *ad infinitum*. Oops, we beg your pardon, you probably did learn a couple of things in high school.

The sad thing about this situation is that it is not the fault of the student, but an appalling lack of action on the part of most of our administrators. In their preoccupation with the production of technicians they have neglected the fact that a technologist is not an educated person, but a specialist who knows nothing but what he has been trained in.

I can't count from one to ten, I'm specialized.

Perhaps the most sensible answer to this problem is twofold—cut out the duplication in our curricula, and—as horrible as it may sound—go to school for five years.

We don't say that there aren't people on this campus who aren't trying to remedy the situation—there are, but the fact remains that they are either not trying hard enough, or that they are fighting against a solidly entrenched opposition too blind to see the gap in our "higher educational system," an opposition which is determined to produce a graduate who can't count from one to ten.

Profile . . . Massed Scots Bands

The massed bands, pipes, drums, and dancers of the Royal Scots Greys and the Argyll and Sutherland Highlanders will appear in the Coliseum Wed. night at 8 p.m.

Both units are Scots regiments famous in British history. The Royal Scots Greys, formed in 1678, have their headquarters in Edinburgh Castle, while the Argyll and Sutherland highlanders, established in 1750, are based in Sterling Castle.

For many years, both units used the various highland dances which they perform in the show instead of calisthenics.

Queen Elizabeth II is the

Colonel-in-chief and patron for both regiments.

The two units first appeared together at the world trade fair in Stockholm, Sweden. Then they returned to Scotland to appear in the Edinburgh Festival during August and September. After this, they flew to Hollywood Bowl in Los Angeles, for the beginning of their tour of the United States.

The total strength of the two touring groups is about one hundred men. Its repertoire includes music, song, and dances typical of Scotland.

The performance is sponsored by the "Friends of the College." Students will be admitted free.

Letters To The Editor:

Praise For IFC Ushers; A Slice At The Editor

To the Editor:

On behalf of the Board of Directors of The Friends of the College, Inc., I should like to publicly thank the men of the Interfraternity Council for the splendid job they have done in ushering at the last two con-

certs. They have performed this difficult job with such tact and care that the whole atmosphere of the concerts has been immensely improved.

All of us in the community and at the College are most grateful to them for this service.

Ben Williams, President,
Friends of the College, Inc.

Publication Policy

All unsigned editorials are by the Editor and all others will be signed with the initials of the writer.

We invite letters to the editor, but reserve the right to edit or not to print any letter received. All letters to the editor must be signed, and names will only be withheld in cases in which the writer's grades may be affected.

Deadlines for issues are 7:00 p.m. the night before the issues are delivered. Anyone wishing to have a story or notice printed in *The Technician* should drop it by the offices in the basement of the Y.M.C.A.

A Review

The Kingston Trio

By Charles Williams
The Kingston Trio gave a performance Thursday night to a loudly applauding audience of 6,000 people in Reynold's Coliseum.

The Trio got off to a slow start when the "G-string" broke on John Stewart's guitar. This was no indication of how the evening was to go, however.

The Trio started picking up with their versions of the popular favorites: "The Good Reuben James" and "They Called the Wind Mariah".

A demonstration of the Trio's humor was given with the introduction to the next song, "Opus Mary". Nick Reynolds stated simply "And as they say in the Virgin Island; 'Well, I never'."

It was at this time in the performance that the audience noticed the loud whirring noise coming from the spotlight on the right side of the Coliseum. The noise ruined a solo by John Stewart, and Nick Reynolds then asked that the spotlight be turned off and the audience started to applaud, but this was not done. During intermission the spotlight was moved to the rear of the audience.

After the intermission the Trio got going with renditions of "The Lion Sleeps Tonight" and their hit, "M.T.A."

The Trio slumped again with a trite cowboy song, "Whoopie Ta Ya Ta Yo". This was followed by a bit of humor ("Remember only forest fires can prevent bears.") and another hit, "Tijuana Jail", which was a tremendous success.

Then followed a spiritual, "You Can Tell It On A Mountain", which was well-received, and "When the Saints Go

Credit Omitted

The review of the Leningrad Philharmonic Orchestra in last Thursday's issue was written by Halit Zafer Dokuzoguz. We regret that credit for it was not given at that time. Dokuzoguz was extremely well qualified to write this review, since he has studied the violin for about ten years.

Marching In." When the Trio left the stage, the audience demanded more, forcing them to come back. They then sang "Where Have All the Flowers Gone?", which they said was taught to them by Peter, Paul, and Mary.

Oh Hell, Out'a Fluid!

Massed Scots Band To Appear Here Wednesday Night

State Ties Georgia

By Carlos Williams

Saturday the Wolfpack gave the Georgia Bulldogs their third tie of the season in the fourth quarter after holding them to 10-0 through the first half.

State, having lost three games in the last seven minutes this season, came out determined to run up a safe lead early in the game and took over complete command of the game in the first half.

During the first quarter, the Bulldogs never progressed beyond their own twelve-yard line. Their total yardage profit for the half was a mere thirty yards, including only one first down which resulted from a penalty.

The first Wolfpack TD came as the result of a drive launched by Rossi from the Georgia 47. Eleven plays later Koszarsky crossed into the end zone from the two for State's first six.

Sasser made the conversion for a 7-0 lead.

Forty-six seconds before half-time, Sasser had his first successful field goal in six tries as he kicked from the 33-yard line. Score: State 10, Georgia 0. Sasser's goal came as the result of an unsuccessful Wolfpack drive from the 47. Scarpati caught a fourth down pass for 12 yards and a first down on the Georgia 10. He then dropped a TD pass from Rossi. Rossi fumbled back to the 13 and drew a penalty for an illegal pass. As time ran out, State had no choice but to try for 3.

The third quarter was a different situation for State. Georgia then made its first venture into State territory as Rakestraw passed for 41 yards to the State 10. State held the Bulldogs for the next three plays forcing them to a field goal try, good for 3 points, bringing the score

to 10-3, State.

Georgia continued their comeback in the fourth quarter, the quarter in which State lost to Clemson, Nebraska, and Duke. State lost a Rossi fumble on the State 30 paving the way for a Georgia TD which combined the passing and running abilities of Rakestraw as the Bulldogs moved toward the goal. After the TD, the Bulldogs elected to try for only one point tying the game at 10-10.

State lost their only chance to un-tie the game. After a bril-

liant 25 yard kickoff return by Clark, the Wolfpack went on to the Georgia 28. Moore then carried for a first down and fumbled on the Georgia 21. Georgia, unable to go for the first-and-ten, punted to State on the State 38. State then went for the long one only to be intercepted on the Georgia 14. Georgia then punted again and Scarpati fumbled the return on the 45. The Bulldogs made one last effort but time ran out leaving the game tied at 10-10 and Georgia undefeated by the ACC.
