Plebescite Decides New Arts Line-up

By Cora Kemp
The list of New Arts performers for the 1964-65 season will depend primarily on the students' preferences. Dave Stuart, New Arts president, has named 47 artists and groups as possible performers for the six programs to be presented by New Arts in the coming season. Students may vote for six artists of their choice. (See page two for the list and details on voting.)

The performers formerly have been selected by the New Arts executives without consulting the students. However, Stuart said, "Since the students are stockholders in the organization, we feel they should have a voice in the programs."

Each ticket purchased by a student entitles him to a share in the corporation. About 4,200 tickets were sold last fall for the 1963-64 season.

Representatives from over 25 schools in North Carolina and seven other Southern states will meet with 11 booking agencies at the Erdahl-Cloyd Union February 28 to discuss "block booking." The final decision on the artists will be made at this time.

Dave Phillips, program director of the Union, said the students' choices will be a major consideration when the negotiations are made.

Under the block booking plan, the different schools agree on mutual dates on a particular artist, Phillips explained. This allows the schools to share the cost of transportation for the artists and sometimes cuts costs, he said.

The block booking idea originated at Duke during the National Association of College Unions Convention in March, 1962. According to Phillips, the progress of this particular

group is being observed nationally. "So far, it has been a success," he said.

Three of this season's six programs were arranged through block booking, Phillips said. He estimated that New Arts is saving \$1,750 on its programs this year because of block booking.

The New Arts Inc. is sponsored by the Erdahl-Cloyd Union and IFC. It is in its second year.

Scholarship Cups Stolen From FH

It takes brains. Ask the men at FarmHouse Fraternity. They know because they have won the scholarship award for the highest grade point average among fraternities every year but one since 1954. The winner for three consecutive years wins a trophy. FarmHouse won the three-year trophy for 1954-55-56 and 1957-58-59. Their string of wins was broken in 1962 but they are off and running again with the 1963 award. That is nine wins in ten years.

Winning the trophies is easy for the FarmHouse men but keeping them is another story.

Last December 16, according to Richard Killough a member of FarmHouse, someone filched the FarmHouse trophies. The men at FarmHouse plan to purchase two more trophies just like the two missing ones but they will be displayed in the new FarmHouse trophy case. It has a lock on it!

Union Directors See Third Constitution

By Grant Blair
The third constitution in a year was proposed to the Erdahl-Cloyd Union Board of Directors last night.

The new constitution was introduced after defeating one proposed constitution which was still under consideration.

This left last year's constitution in effect.

The constitution introduced was drafted last week by David Stuart, new president of the Union; Herb Sanborn, newly-appointed Union vice-president, and David Goddard, Union secretary.

The document is divided into two parts; a constitution proper and by-laws. The present constitution has no separate section for by-laws, but incorporates most of the by-laws into the document. Under the proposed system, amendments to the by-laws could be made by a majority vote of the Union Board of Directors.

The proposed constitution was introduced, according to Sanborn, to clarify changes which have taken place since the adoption of last spring's constitution. Sanborn cited the name changes as examples.

According to the present constitution, the changed constitution will be discussed and amended next Tuesday. Although amendments offered to the constitution may not be adopted at this meeting, Stuart indicated that this may be facilitated by holding two meetings on that night.

Stuart expressed the feeling that "this is a more realistic constitution."

The two constitutions retain generally the same wording, although other changes besides the adoption of by-laws have been proposed.

(See CONSTITUTION, page 6)

Oops! Mistake!

Stop the music! Do not expect to find the *Four Freshmen* in the new Cafeteria from 2 to 4 p.m. on Friday, February 14.

The day for their appearance is *Saturday, February 15*, from 2 to 4 p.m. Similarly, DO NOT expect to find the *Billy Knaufl Orchestra* in the Coliseum for the Saturday night Mid-Winter. The Mid-Winter will be held in the *Erdahl-Cloyd Union Ballroom* from 8 to midnight on Saturday February 15.

'Pep' Program To Be Debated Tonight In SG

All students interested in the reorganization of State's pep program should attend the special Student Government meeting tonight at 7 p.m. in the North Ballroom of the Union.

SG President John Bynum stated that the Investigations Committee has conducted a thorough study of the pep program and will present a resolution at the meeting calling for reorganization of the cheer leading squad and the chain of command in the program.

"We want all students who have suggestions and want to be heard on this matter to come to this meeting," Bynum said.

Frosh Finds Hidden Capsules

There is a treasure hunt well underway on the State campus.

As Bob Alexander, a freshman in engineering, found out late Monday night, WKNC is sponsoring a search for hidden capsules redeemable for prizes. The capsules are one-inch sections of plastic tubing sealed at each end. They contain pieces of paper which announce, "WKNC Prize Capsule No. X" and they are hidden on the campus proper.

Alexander was the first person to turn up with a capsule which he found in front of Killgore Hall, according to Ray McCrary, projects director for WKNC. His prize was a handfull of 45 rpm records, an album, and some theater passes.

McCrary said further that the only way to participate in the treasure hunt is to listen to the campus station. Clues are announced at random intervals and change day-to-day. This week, he said, one of the capsule finders will be rewarded with a six-transistor radio.

Next week another radio will be added to the contest, and a third will follow. Besides the three radios, seventeen other capsules are good for records and passes.

Clues will get easier as the end of each week approaches. The contest will continue until all of the prize capsules have been discovered. McCrary also mentioned that record requests are being taken at any time during regular programming. All types of music may be requested.

Peace Corps Week Called By Bynum

Student Government President John Bynum yesterday proclaimed February 17-22 Peace Corps Week.

Bynum made the proclamation in conjunction with North Carolina Peace Corps week, announced a few weeks ago by Governor Terry Sanford.

In making the proclamation, Bynum said a task force from the Washington office of the Corps would appear on campus to recruit students and administer tests.

Chancellor Caldwell, commenting on the week, urged faculty and staff to cooperate with the special team of Peace Corps representatives.

Lee McDonald, assistant program director for the Union, said an information center would be set up in the lobby of the E-CU. McDonald said the desk would be manned by Peace Corps representatives from 8 a.m. to 10 p.m. during the entire week to answer questions.

Placement tests will be administered at 9 a.m., 2 p.m. and 7:30 p.m. each day of the week in room 220 of the Union.

The on-campus testing will enable an applicant to know within a month his standing and whether or not he is being con-

sidered for a specific project, McDonald said.

In addition to administering the tests, the Washington representatives will speak to organizations and classes while here.

Gene Hunter, a Peace Corps worker who did graduate work at N. C. State, explains his plans for an experimental vegetable crop to Dr. Sessing, head of the St. Lucia Dept. of Agriculture. (Photo by Rowland Scherman—Peace Corps)

Pub Board Withdraws Election Of Editors

The Publications Board voted yesterday to withdraw the election of editors and business managers of the three major campus publications from the general campus elections held annually in the spring.

The new policy provides for the election of editors and business managers by the staffs of the individual publications or by the executive department of the Publications Board. The Board elections will be held at open hearings at which all candidates for the positions will be interviewed.

A committee consisting of five faculty members, the editors and business managers of *The Tech-*

nician, *Agromeck*, and *WKNC*, and the president and vice-president of Student Government will name the new editors and business managers.

March 17 was set for the election meeting.

The previous election procedure for the three major publications has been to elect the new editors and business managers in the general campus elections after approval of all candidates by the Publications Board. A full year of service on a publication staff is a prerequisite for candidacy for a major position, according to Board policy.

UN Seminar Frosh Diners

The State YMCA is arranging a trip to the United Nations and New York City, during the spring break, March 25 through March 30.

The United Nations Seminar will be conducted at the United Nations building at the various embassies of the countries under consideration. There may be a trip to the Russian embassy, according to YMCA officials.

The seminar group will also consist of students from UNC at Chapel Hill, Duke, and UNC at Greensboro.

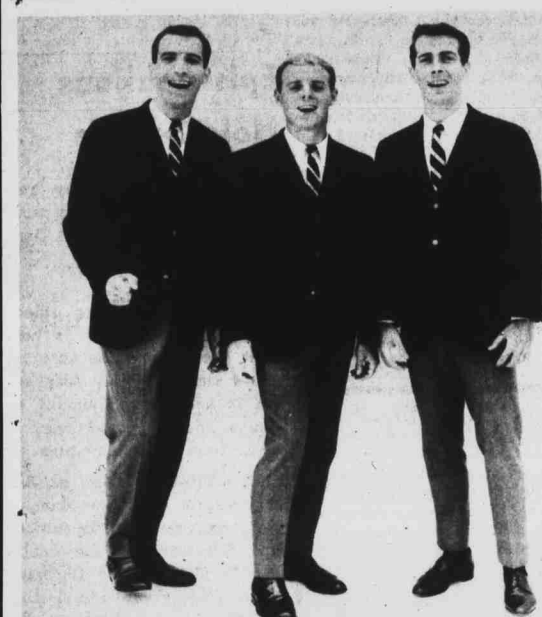

Scholarships are available from the State YMCA for interested persons. Contact Garland McAdoo or Ray Burgess at TE 29339 and TE 27184 respectively, or come by the YMCA office 102.

The Freshman Diner's Club got underway Tuesday night.

Guest speakers for the dinner meeting were Dr. Raymond Murray, head of the Department of Nuclear Engineering, and Hardy Berry, director of the Information Office. They discussed "Materialism — A Sound Motivation for an Education?"

Three more meetings of the club will be held on the next three successive Tuesday evenings.

All meetings begin at 6 p.m. in the basement dining room of the new cafeteria. Freshmen may sign up at the YMCA office. The cost of membership is \$4.50, which covers the price of meals only.

Chad Mitchell Trio

The Chad Mitchell Trio, which will perform in the Coliseum Thursday night under the auspices of the New Arts Inc., originated at Gonzaga University in Spokane, Washington, during the fall of 1959 with a Catholic priest as manager.

Led by Father Beaver for the first year, the Trio sang locally. Their professional careers began when the Father had to go to New York and invited the students to join him. During the six day trip to New York, the Trio had several singing engagements, and when they arrived, offers to perform on the radio, in night clubs, and on television were soon received. After about a year's experience singing together, the Trio became nationally known.

The Trio, consisting of Chad Mitchell, Mike Koblik, and Joe Frazier, makes no claim to be "folksingers" because they do not adhere to folk-type singing, but present songs on a variety of topics.

Three On A Match

Surprises aren't unusual on this campus, but the new constitution proposed to the Board of Directors of the Union last night very nearly came as a shock.

It is the third such document proposed to the board of directors within the past year, and, if adopted, would be at least the fifth constitution adopted during the last ten years.

One primary question occurred to us upon the first consideration of this document.

There has been no apparent indication that over three members of the Union contributed to this document.

There has been no apparent indication *this year* that the committee chairmen, or any member of the Union, with the exception of *The Technician* has been unhappy with the present constitution. When this paper announced its intention to introduce a major constitutional amendment, there was no significant comment from the Union either for or against the proposal; no letters to the editors, nothing in private conversations.

The new constitution does not provide for student election of officers; the board of directors merely has the candidates presented to them and votes upon them.

In other words, the new constitution points up three things:

Something is basically wrong when the Union adopts a new constitution every few years, and runs through three within one year.

Something appears to be wrong when there is no discussion concerning a constitution for nearly a year; then a few members of the Union suddenly decide within a matter of days that there is need for a new one.

A constitution can hardly be called representative if it fails to incorporate the *only* published criticism of last semester.

A final conclusion: Someone had better start finding out what's wrong. —GB

To Promote A Social Thaw

A new experiment in mass social functions is being attempted this weekend in the form of the Midwinters.

The new social affair originated with the class officers as an attempt to replace the poorly attended junior-senior and freshman-sophomore dances which have been held every spring.

The entertainment for the weekend is certainly top-drawer, and the schedule merits a good date. It is hoped that the class officers will receive support for this program from the student body. The officers have organized the weekend with the idea of future expansion if sufficient interest is indicated.

Almost any attempt to get State's divergent student body together is worth encouraging—so it is with the Midwinters. —AL

Reynolds Award Goldwater Caravan Goes To Gerstel

A German-born, United States-educated professor here was named a William Neal Reynolds Distinguished Professor of Crop Science by the trustees' Executive Committee during the semester break.

Dr. Dan U. Gerstel's new title carries with it a \$2,000 annual salary supplement.

He is a world authority on cytogenetics, especially as related to cotton and tobacco. He is listed in American Men of Science and is a member of many scientific organizations.

Gerstel came here in 1949 after having taught and conducted research at the University of California and the California Institute of Technology.

Any State student who is willing to skip his Saturday class has a chance to attend a speech by Senator Barry Goldwater, candidate for the Republican nomination for the presidency.

The campus chapter of the Young Americans for Freedom is sponsoring a "Goldwater Caravan to Greensboro." The caravan will leave the west parking lot of the Reynolds Coliseum at 8:30 a.m., Saturday, February 29, said Tom Buchanan, chairman of the local YAF. Goldwater's speech begins at 11:30 a.m. in the Greensboro Coliseum.

No charge is made for the transportation or speech. For more information, call 828-5334 or 787-1297.

New Arts Suggestions: Take Your Pick

The following performers have been suggested by New Arts Inc. as possible performers for the 1964-65 season. Students may vote for the six of their choice by drawing a circle around the names. They should then cut out, or tear out, this article and deposit it in a box to be set up in the Erdahl-Cloyd Union outside the snack bar or in a box that will be set up at the Coliseum during the New Arts program Thursday night. The votes will be counted February 18.

Campus Comments

Across The State And Beyond

WHAT VALUE TEACHERS?

A group of 116 students participated in an experiment on the campus of the Union College, New York, last spring.

Each of these students attended class only six times during the semester, and then only to take quizzes. The results were that 13 students improved their grades over the previous semester, 31 fell below their previous grade level, and 72 students were able to maintain approximately the same grade level.

The Virginia Tech Virginia Tech

GOLDWYN SCHEDULED FOR VISIT

Hollywood producer-director Samuel Goldwyn Jr. will be at the University of Virginia as visiting artist for the week beginning March 2.

Goldwyn is a 1947 graduate of the University.

The Cavalier Daily University of Va.

MESSY SITUATION

Persons driving by the Alpha Tau Omega fraternity house at the University of Oklahoma might have been shocked to see beer cans completely covering the front lawn.

Actually it was just a cleanup campaign in which members of the fraternity cleaned up all the empties on the campus and surrounding residential areas. Some 70 men gathered 3,193 cans in six hours and staged the heap just to show how messy things had become.

The Gamecock University of South Carolina

NEW COACH WANTS FOUR YEARS

Bill Tate, recently appointed head Wake Forest football coach, has asked for four years to pull his team out of its depression.

Tate said that "our goal is to win an ACC championship in four years." He called for enthusiasm and a sense of pride.

The 32-year-old coach said, "I am looking for a junior college quarterback who will help us next year." He announced he planned to retain two members of the old staff and hire four new assistants. This is one more assistant than Wake Forest had last year.

Beattie Feathers, last year's freshman coach and Bill Sexton, defensive line coach, are the two coaches staying on.

Tate is a former assistant coach from the University of Illinois.

The Old Gold and Black Wake Forest College

Movie Review

Kafka's 'The Trial'

By Dwight Minkler

The Trial, now on at the Variety Theater, is a weird, thought-provoking, different-type movie.

The movie is taken from Franz Kafka's book *The Trial*, and produced by Orson Wells.

My interpretation of the movie is this: A man is fighting against certain aspects of society. He is looking for the law (reason). But he finds that those that control the law and all of society with them are dedicated to the worship of emotionalism. The outcome is indecisive.

Everyone will have a different interpretation, however. The film is teeming with symbols and implications. In every scene I felt like I was missing something, as if something were being insinuated that I didn't get.

Of course, I always get the feeling in these symbolic-type movies that the author may have thrown together a bunch

of weird ideas and implications just make the public think there's something grand and profound about the movie because they can't understand it. But hoax or not, I would have given up my lunch in order to see the film had I known how it would affect me.

Episcopalians Hold Service

The Episcopal Church on campus announces that weekly services are being held in the Danforth Chapel of the King Religious Center.

A service of morning prayer and Holy Communion is held each Sunday morning at 9:15, and a service of Holy Communion is held each Thursday at 7 a.m. for the convenience of students in the Raleigh area.

In addition to these regular services, the Church on Campus is holding weekly study sessions, and discussions of the fundamental ideas of the Christian faith. These groups are meeting on the second floor of the YMCA each Sunday evening at 7 o'clock. Following the study sessions, an open house is held on the ground floor in the North Parlor.

So far this year we have had better attendance by St. Mary's and Meredith students than by the 8,000 students at State College, a spokesman for the Church said. Students are invited to attend a meeting next Sunday night at 8:30 for coffee, snacks, group singing, and a general good time.

State Of The Student Government

The purpose of my report tonight is not to recount the successes and failures of the last semester, but rather to clarify the present position of Student Government in relation to its achievements and setbacks. By indicating our present strengths and weaknesses and focusing on new areas of concern, we will better be able to serve our fellow students in the coming semester.

We have gotten off to a good start with several new programs and basic policy declarations. Let's look at a few of them.

The Student Government Summer Employment Commission is a definite asset to the student body and should offer at least fifty good jobs to our students this summer. I am pleased with the Commission's work and know that only through service to the students will Student Government gain the stature needed to effectively represent our fellow students.

Sigma Kappa Sorority has given of its time to help make our Employment Commission a success. I would like to thank them for their contribution to Student Government. But more than this, they are proving that the women of our campus want and deserve to play an important role in Student Government. I challenge the women of our campus to be more active in student organizations.

This is the first year that the students at N. C. State have been represented at the Raleigh City Council meetings. The Council has been most gracious to allow our representative to sit in their meetings and express the views of our students. This representation can be a meaningful contribution toward maintaining good relations with the City.

The leadership seminar that was co-sponsored by the major campus organizations was very successful. The intercommunication that this seminar created was beneficial to all. More students who are not presently active in our major campus organizations should be invited to our Spring seminar. We all would gain from more participation in student activities.

This is the first year of the Student Activities Joint Banquet. A great deal has been ac-

complished in the realm of closer harmony among the major student organizations. This will, hopefully, lead to sounder programs where cooperation is the key to our success.

Upon the request of the Legislature, the Interfraternity Council has made a thorough study of deferred rush. I have asked their Rush Chairman to speak to you at our next meeting and explain the findings of this committee and the current problems facing the fraternity system.

In the area of Senior privileges, we adopted a new procedure for room assignments in Bragaw and Dorm '62. A change in the regular procedure was necessary to keep many students from standing in front of the Housing Office up to twenty-four hours in advance of dormitory sign-up. Priority will be given to Graduate, Professional, Senior, Junior, Sophomore, Unclassified, and Freshman students respectively. I feel strongly that there is a lack of Senior privileges on this campus and hope that this plan will begin new breakthroughs in this area.

With our many successes, we must also realize that we have not accomplished all that we set out to do. We must face our failures and do our best to correct them.

Student Government took a unanimous stand in favor of our traditional style of diploma last Spring. Early this semester, Benny Phillips and myself were appointed by the Chancellor to a committee to resolve the question of the diploma change. The committee worked diligently for six weeks trying to come to a decision that we could all support. For lack of a better solution, we sent a split committee report to the Chancellor.

The Chancellor felt justified in his decision to adopt the small block print style of diploma because many major institutions had changed to the smaller style and because the faculty representatives favored this position. But were these justifiable reasons to break one of the few traditions N. C. State had been able to maintain for almost fifty years?

We need not align ourselves with other major institutions of higher learning to remain a great institution. No other uni-

versity has a circular classroom building. Why didn't we conform there? I say we can and should afford to be different. The standard Old English diploma will always be good enough for N. C. State.

There are other areas where the students' voice has been heard, but to no avail. It has been several months since the name change became effective, and we became North Carolina State of the University of North Carolina at Raleigh. The alumni and students have not forgotten this incident, and their resentment can still be felt around the State. I urge you to prepare now for the next session of the State Legislature and fight for what we believe to be appropriate. The University has certainly gained from being consolidated, but one name is not necessary. No one is satisfied with the present name of our school. Only one name will do, and that is North Carolina State University.

Some of our committees are not showing their proper initiative in bringing forth new legislation. In fact, the whole Legislature should be more inquisitive about matters concerning it.

We all remember the Liberty Bowl issue of the TECHNICIAN. The paper thanked

Student Government for its financial assistance, but the Legislature made no direct allocation of funds for that issue. Yet, not a single Senator has spoken up to ask why. We have a \$10,000 budget, and it is up to you to safeguard it.

One key criticism of Student Government last semester was aimed at our Election Procedures. Our election procedures do need to be revamped to keep pace with our growing need for more student involvement. We have had some interest in student political parties in the past. We must make our rules fair to both the independent student and the party member. I am confident that a party system would stimulate more interest in Student Government.

Now that we know where we stand on many of our programs, where do we go from here? What will be our goals this semester?

I am concerned about the amount of interest we students have in our many cultural programs. N. C. State undoubtedly has one of the best programs of cultural entertainment in the nation. Our Friends of the College series has been an outstanding success from the outset. I encourage all of you to

take advantage of these opportunities.

A quick decision by this body on our role in N. S. A. is necessary. Let us stop talking about N. S. A. and start using more of the services it offers.

The Faculty Senate has discussed but taken no action on a proposal to revise the school calendar so that final examinations for the fall semester would be completed before Christmas. The recent strain of returning from the holidays to face exams accents the problem of our present calendar scheduling. We must evaluate the good and bad points of this proposal and make our recommendation.

The various pressure groups now forming on our campus can be a true asset and stimulate much thought. But I encourage these groups to use their influence wisely. They could just as easily support sound programs rather than be consistently degrading others.

School spirit and enthusiasm can only be built on a sound foundation, and a good cheer-leading squad is that necessary

foundation. This can only be achieved by hard work and practice. We are more than willing to help improve the present situation. It is our responsibility to see that the squad maintains high standards.

The Legislature would be much stronger and more representative of student views if the President, Secretary, and Treasurer were not considered voting members of this body. Because the President must carry out the mandates of this body, it would seem logical to give him the power of veto. To my mind, this would strengthen the role of the individual Senator while still allowing the President to air his opinion when need be. I urge you to consider this recommendation on its merits.

You can see that we have just completed a very busy semester in Student Government. But the needs of Student Government demand that we do even more this semester if our year is to be successful. I pledge my best effort to that goal. I ask each of you to add your efforts for a better Student Government.

SG Grants \$500 For Lounge Prints

The Student Government Cultural Affairs committee received a grant of \$500 dollars from the Legislature Thursday night to purchase and display art prints in student lounges and libraries.

In making the grant, however, the Legislature stipulated that its funds must be matched by the department or school council involved before a purchase can be made. This means that any department which would like to purchase a print for a student lounge would have to contribute 50 per cent of the purchase price before SG money can be used.

The Legislature made the grant after John G. Stevens, chairman of the Cultural Affairs committee, reported prints could be purchased from the New York Graphic Society for \$40 to \$60 each.

'64 Art Contest Gives More Prizes

The Second Annual Student Art Competition will be statewide this year, according to Carol Johnson, director of Arts and Crafts for the Erdahl-Cloyd Union.

The contest also will include more prizes this year, Mrs. Johnson said. She also announced April 7 as the deadline for receiving entries.

The contest, which was open only to students in the Research Triangle last year, will award a total of nine prizes.

The works will fall into four classifications: Class I, paintings; Class II, sculpture; Class III, prints; Class IV, drawings.

Four awards will be given in Classes I and II—first prize \$35, second prize \$20, third prize \$10, fourth prize \$5.

In Classes III and IV, the awards will include \$15 first prize, \$15 second prize, \$10 third prize, and \$5 fourth prize.

Fifty dollars will be awarded to the best work in the contest.

Mrs. Adelyn Breeskin, director of the Washington Gallery of Modern Art, will judge the entries. Judging will be closed to the public.

About 175 works were entered in the contest last year, Mrs. Johnson said. The Union Gallery Committee sponsors the event.

NOTICE

Coach Kenfield asks all students who are interested in playing freshman or varsity tennis to report to room 213 in Carmichael Gym at 7:30 p.m. on Tuesday, February 18.

UNC Tops Trackmen

The University of North Carolina track teams, freshman and varsity, racked up impressive wins over a scrappy North Carolina State here Saturday.

The Tar Heel Varsity won, 88-16, and the UNC freshmen scored a 70-38 win in the indoor dual meet.

Mel Woodcock finished second for the Wolfpack in the mile. The Wolfpack's only first place came in the mile relay event.

Hugh Cox took a second in the pole vault and third in the broad jump for the Wolfpack. Paul Haskins was third in the 880 and Jim Hamrick was third in the 600-yard run and Dave Ellis copped a second in the shot for State.

Wolflet freshman Clyde Belangia from New Bern took a first place in the mile for the State frosh.

North Vs. South

North Carolina State's next basketball action will be in the North-South double-headers in the Charlotte Coliseum, the scene of some of the Wolfpack's most exciting basketball.

The Wolfpack meets South Carolina on Friday night at 9:30, and then faces Clemson on Saturday in the first game of the second-night double-header at 7:30.

Coach Everett Case's teams have won seven of 10 games in the past five double-headers against its neighboring state rivals, but five of the games were decided by three points or less.

In fact, all three State losses in North-South play were by slender margins. The Pack bowed in double overtime to South Carolina last year, 70-68; lost to Clemson by three points in 1960, and to the Gamecocks by two points the same year.

The Wolfpack has played both of the Palmetto State rivals this year, bowing to each in games that were close almost all the way. South Carolina won 51-44 over the Pack while Clemson netted a 66-52 victory.

Frosh Loose To Va. Tech

State's freshman basketball team suffered its worst defeat of the season last Saturday night, losing to Virginia Tech 78-74. The loss gives the Wolflets a 6-7 record, 1-5 in competition with the Big Four freshman units.

State's Eddie Biedenbach, currently holding an 18 point average, led the Pack with 11 points while Paul Hudson netted 10. The frosh have three games remaining to be played. The only home game will be February 22, with the baby Tar Heels.

Tankers Top Virginia

State's Tankmen won first place in seven of ten events Saturday afternoon to defeat the Virginia mermen 55-39. The win gives the Wolfpack a 6-1 record while Virginia has a 5-3 mark.

Dick Paolette and Bill McGinty each won two events to aid the winning cause. Paolette took first in the 200 yd. backstroke and the 200 yd. individual medley and was also on the Pack's winning medley relay team. McGinty raced home first in the 50 yd. and 100 yd. freestyle events.

Also taking first place positions were Pat Gavaghan in the 200 yd. butterfly, Don Loomis in the 500 yd. freestyle, and Dan Derby in the 200 yd. breaststroke.

The Pack's next meet is in Chapel Hill with the Tar Heels this afternoon. On Saturday, February 15, State will be host to Appalachian and on the 22nd, Wake Forest will visit Raleigh.

Dorm and Fraternity Basketball Nears End

Regular season basketball is coming to an end in the dormitory and fraternity leagues after next week's action.

Sections 1, 2, and 3 in the fraternity league have one round of games left while Section #4 teams have two contests left.

In the dormitory league, all teams have completed regular season action except in Sections #2 and #3. In Section #2, Bagwell and Watauga are tied for second place while Syme and Bragaw South #1 are tied for number two, all four teams have 3-3 records. These play-offs will be held Monday night.

Fraternity

Section #1	Section #2	Section #3	Section #4

Sawhill, 9-1, Leads Pack Wrestlers To 5-4-1 Record

James Sawhill, 177 lb. senior from Ruxton, Maryland has won nine of ten matches this season to lead the 1964 wrestling squad to a 5-4-1 overall record.

With only one month remaining before the Atlantic Coast Conference tournament at College Park, Maryland, the Pack has four more meets. This afternoon, State is host to St. Andrews while the last home meet will be with Virginia on the 18th. On February 14, State will travel to Appalachian before ending the season on the 28th in Chapel Hill.

Wrestling in the ACC has long been dominated by the Maryland matmen. In the past nine years of ACC competition, with ten weight classifications, or a total of 90 titles, Maryland wrestlers have taken 72. Maryland gives full scholarships to its wrestlers while the State players are their own sponsors.

North Carolina State's 1964 Wrestling Squad—
Front Row—Angelo Mitchell, David Jones, Steve Barnes, Keith McBride.
Back Row—Nelson Travis, Robert Brawley, Jim Sawhill, Jeff Fountain, Coach Al Crawford.

The championship tournament in both leagues will begin on February 19. There is a single elimination championship and consolation tournament.

Dormitory

Section #1	Section #2	Section #3	Section #4
Turlington 6-0	Bragaw S#2 4-2	Owen #2 5-1	Alexander 6-0

Berry 1-5	Owen #1 2-4	Tucker #1 1-5	W-G-4th 1-5

THE BELL TELEPHONE COMPANIES SALUTE: OLIVER PORTER, JR.

"Will my first assignment really be a challenge?" is a question that haunts many young engineers.

An affirmative answer to the question was waiting for Oliver Porter, Jr. (B.S.C.E., 1959), when he reported to Southern Bell's Greenville, S. C., office July, 1962.

A week hadn't passed when Oliver became a full-fledged practicing member of the District Engineering group.

In addition to design duties, Oliver was immediately put to work directly serving customers—handling requests

for service or facility rearrangements, advising architects, and acquiring public and private right-of-way.

Oliver found his challenge quickly, and at the same time impressed Southern Bell with his technical engineering proficiency and ability to represent the company.

Oliver Porter, like many young engineers, is impatient to make things happen for his company and himself. There are few places where such restlessness is more welcomed or rewarded than in the fast-growing telephone business.

BELL TELEPHONE COMPANIES

Tankers To Meet Tar Heels

It is unusual when the preliminary event over-shadows the main attraction. But that will be the case when the State and North Carolina swimming teams are in action, Wednesday, at Chapel Hill. With both UNC and State having assembled their best freshman swim teams ever, that 6:00 p.m. meet will be a real splasher. The Carolina varsity, a loser to State the past two years, shouldn't have much trouble with the Wolfpack this time.

North Carolina State freshman backstroke Ron Wirth, Rosemont, Pa., established a new NCAA freshman 200-yard backstroke record when he went the distance in 2:03.4 while swimming "unofficially" in the State-Florida varsity meet.

SUPPLY
STORES

-Campus Crier-

Sunday evening Garland McAdoo will present the Sunday Evening Topic, "The Church in Russia", at 6 p.m. in the West Raleigh Presbyterian Church, 27 Horne St.

Dr. J. R. Mauney, Department of Crop Science, will give a seminar on "The Potential Uses of a Phytotron" at 4 p.m. Thursday.

The American Institute of Industrial Engineers will meet Wed., Feb. 12 at 7 p.m. in Room 248-250 of the Erdahl-Cloyd Union. IBM will present a program in simulation of Management organization.

Lost: Black pocket secretary. Finder may keep money. Return wallet and papers to George Ellinwood, 2514 Clark Ave., TE 2-9148.

Sisters and prospective pledges of the Angel Flight will meet Friday, Feb. 21 at 7 p.m. in room 230 of the Union.

The Spring Photo Contest sponsored by the N. C. State Photography club and the Erdahl-Cloyd Union Gallery committee which was scheduled for March has been postponed un-

til May. Further announcement of the rules will be made later.

Lost: Tan key case on campus somewhere. Contact Ronnie Collins, 316 Syme, phone 832-9222.

Freshmen and Sophomores interested in pledging Alpha Phi Omega, National Service Fraternity are asked to contact

Harvey George in 102-D Bragg or call him at 834-4500.

A meeting of all prospective candidates who plan to run in the Spring general election will be held Thursday, Feb. 13 at 6 p.m. in the Erdahl-Cloyd Union. The nomination procedure and election operating procedures will be explained. THIS

MEETING IS NOT REQUIRED FOR NOMINATION.

Any one desiring to take the written and/or practical exam for a darkroom pass to the Union Craft Shop should come to the Craft Shop in the Frank Thompson Gym Wednesday at 7 p.m.

Constitution

(Continued from page 1)

Some other changes in the constitution are:

The addition of an honorary membership, to be awarded by the Union director.

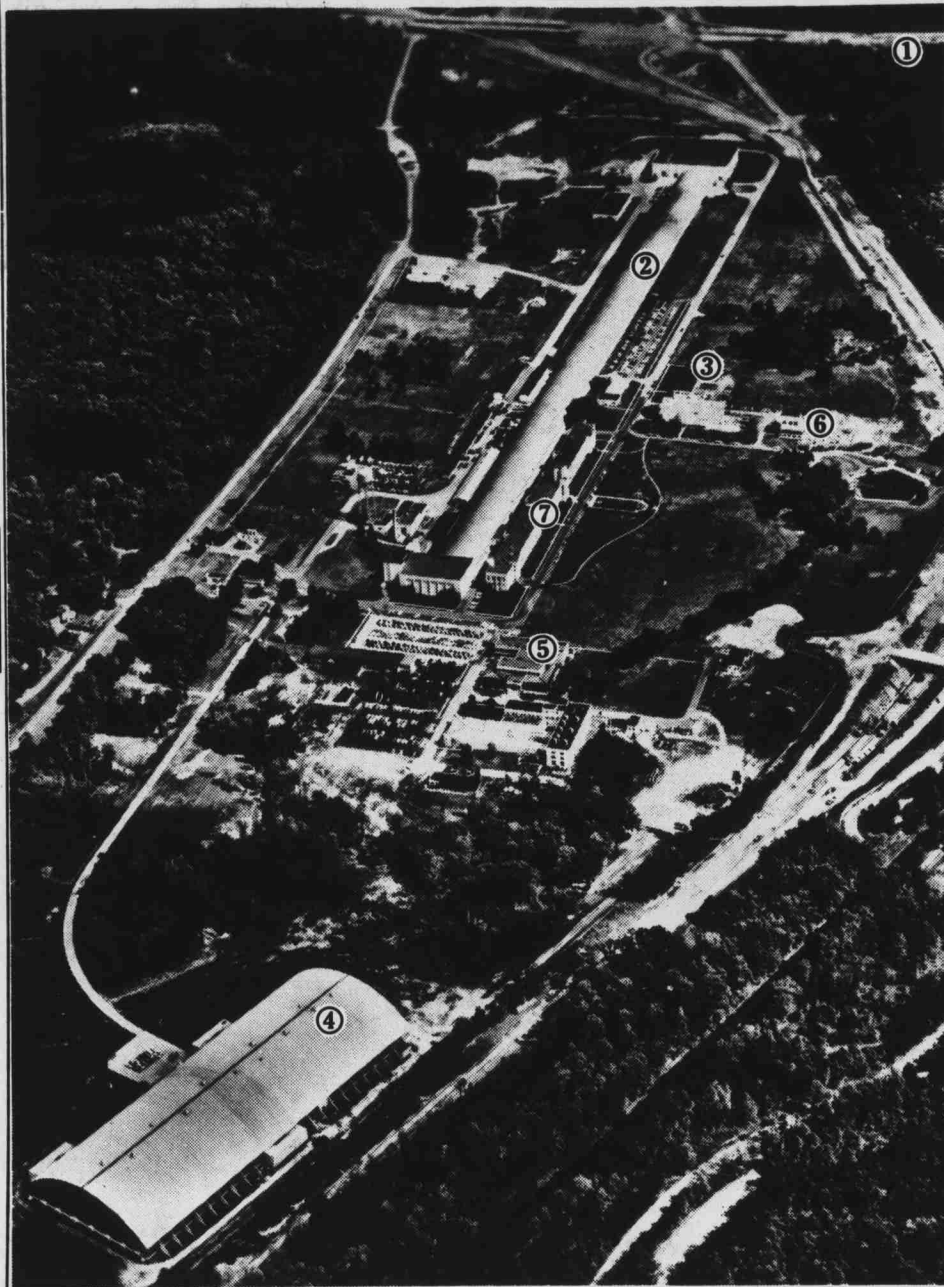

The deletion of a two-thirds majority required to vote on officers and approval of presidential appointees.

Dropping the nominating committee for approving candidates

for major offices: the candidates would be presented to the Board of Directors without recommendation.

Dropping definitions of powers and responsibilities of Union Director and committees.

YOUR SATISFACTION IS OUR FIRST CONCERN

① The Washington Circumferential Highway allows speedy access to best suburban communities in the District of Columbia, Maryland, and Northern Virginia.

② HYDROMECHANICS LABORATORY facilities include this High-Speed Towing Basin almost 3/5 OF A MILE LONG, 50 feet wide, and 20 feet deep. This Laboratory is concerned with speed, stability, control and seakeeping qualities of floating or submerged naval designs, and with fundamental naval hydrodynamics.

③ APPLIED MATHEMATICS LABORATORY facilities include the latest, largest computer systems, and feature the LARG, the IBM 7090, and a 1401. This is BuShips' primary computing facility, working on engineering, research logistics, and numerical methods. Work carried on here involves mathematic simulation of the life cycle of nuclear reactors; automatic calculation of ship lines; and applications of computers to management problems.

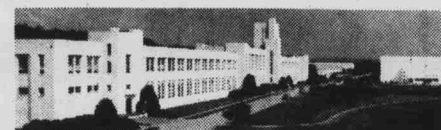

④ In this giant new Maneuvering and Seakeeping facility, both fixed and free-running models may be tested under any sea-state condition. You may also work with the High-Speed Phenomena Division at Langley Field, Virginia.

⑤ AERODYNAMICS LABORATORY facilities include several wind tunnels—ranging from subsonic through hypersonic at Mach 10—which are used to determine and improve static stability, control and heat transfer characteristics of helicopters, VTOL's, supersonic aircraft, missiles, etc. Air flow studies also involve bomb design, bridge structures, aircraft turbulence when approaching carriers, and other government and private problems.

⑥ The unique STRUCTURAL MECHANICS LABORATORY facilities at Carderock are the new pressure tanks which permit the study, by means of large structural models, of the hull structures for deep diving submarines and deep sea research vehicles to reach all ocean depths. Additional Structural Mechanics Laboratory facilities are scattered throughout the 186 acres, and include a tridimensional Static-Load Frame, a Pentagonal Test Pond, Explosion Pits, and a 600,000-Pound Universal Testing Machine. With these facilities, Laboratory scientists and engineers conduct studies aimed at improving the hull structure and increasing the resistance of the Navy's ships to enemy attack. This requires development of fundamental, theoretical approaches of load and response, and development of engineering solutions based on the increased understanding. A substantial portion of the ship protection research is carried out at the Underwater Explosions Research Division of this Laboratory located at Portsmouth, Virginia.

⑦ The ACOUSTICS AND VIBRATION LABORATORY was just established to intensify research and development of ships of improved detection capability, and reduced vibrations and underwater sound output. Fundamental and applied research in hydrodynamics, structural acoustics, mechanical vibrations, and signal processing are supplemented by conduct of acoustic and vibration trials, and development of acoustic and vibration instrumentation.

To staff these five operating Laboratories, we are seeking college graduates with BS, MS, or PhD degrees in Aerospace, Electrical, Electronic, Mechanical or Structural Engineering; in Applied Mechanics, Mathematics, Physics, and Naval Architecture.

Off-Campus

Restricted quarters with an environment conducive to study. Kitchen and parking. Call Ben A. Harris, 103 Chamberlain St. 8348276

What is your motive for charging only 19¢ for your pen, Mr. Bic?

BIC is the world's finest writing instrument—writes on and on—yet it costs only 19¢. Only BIC is guaranteed* to write first time every time. BIC's "Dynamite" Ball Point is the hardest metal made by man. Get a BIC, now at your campus store. BIC "Crystal" 19¢. BIC pens available with blue, red, green, and black ink. Made in U.S.A. *For replacement send pen to: WATERMAN-BIC PEN CORP., MILFORD, CONN.

You are high over the Potomac River just 12 miles from the White House... and viewing 186 acres of extraordinary research activity

Of course, from this height you can't see much detail, which makes the imposing expanse of the two main buildings all the more intriguing. Perhaps you can guess their functions, but it's also what you can't see (and this is summarized in the adjoining column) that makes the David Taylor Model Basin a completely unique fundamental and applied research organization—and a place you should seriously consider for your career as a professional scientist or engineer. As the Navy's advanced facility for research into submarine, surface ship, aircraft and missile design concepts, the Model Basin can offer the young graduate certain specific opportunities hard to find anywhere else.

1. Reach the \$10,000 to \$12,000 level WITHIN 4 YEARS.
2. Take graduate courses for advance degree with Navy help.
3. Gain diversified RDT & E experience with the best equipment and facilities of their kind.
4. Work on research projects of recognized national importance.
5. Attain recognized professional stature sooner, at which point a number of futures are available.

Watch for the David Taylor Model Basin interviewer when he visits your campus, or contact Mr. S. Di Maria directly for information.
