Tex School Pondering Own Cheating Rules

By Curtiss Moore
Textile students may establish a self-policing system aimed at cheaters.

According to a reliable source in the Textile School, the Tompkins Textile Council considered a motion to set up a board, similar in nature to the Honor Code Board. The proposal was made, according to the source, as a student action designed to enforce the faculty's recent crackdown on cheating in the school.

In last Monday's meeting of the council, the motion was presented and tabled until the

plan could be discussed with administrative sources.

Banks C. Talley, director of student activities, when asked whether he had been approached concerning the possibility of setting up another board, stated that he had not been consulted.

Tompkins Textile Council President Stuart Jenkins pointed out that the original action by the council which resulted in the new rules against cheating was in part, to initiate a campus-wide effort to eliminate cheating. In a special statement to *The Technician*, Jenkins commented:

"In the article 'Textile School Acts to Control Cheating' which appeared in the February 13 edition of *The Technician*, the impression was left that the Tompkins Textile Council's action was due solely to 'an alarming increase in cheating in the school of Textiles'.

This, however, is incorrect. The council was not concerned with the Textile School alone, but with the campus as a whole. The Council's purpose was to get more co-operation between the students and faculty in an effort to eliminate cheating. We feel that if this co-operation could be achieved it would be the first step in eliminating cheating campus-wide."

The problem of cheating had been broached at a meeting of the council approximately a year ago, but had been carried no further. The matter was reintroduced this year, and Tom

(See CHEATERS, page 2)

Senior ME Labs Under Close Study; Changes Pending

The senior labs in mechanical engineering are about to be reorganized for next year.

According to Dr. Robert W. Truitt, head of mechanical engineering, the National Science Foundation grant entitled *Disciplinary Study of the Course Content in Experimental Mechanical Engineering* was extended until December 31, 1963. The purpose of this program is to determine whether the senior ME labs need to be reorganized in their course content.

The present program, led by Dr. Truitt as director and Prof. B. H. Garcia as associate director, is involved in actual research by the students. Several students are assigned to one specific project which usually is a sponsored project of a faculty member. This system is being compared to a series of short experiments with a lab manual as is the usual practice. Dr. Truitt stated.

Mistake Not Ours

The print shop inadvertently ran a picture of Byron Janis in a picture in which a picture of Norman Thomas was supposed to be run. Janis is appearing with the Minneapolis Orchestra here tonight, and Thomas is speaking in the CU Sunday night.

Minneapolis Symphony

The Friends of the College will highlight Valentine's day tonight with the Minneapolis Symphony Orchestra, conducted by Stanislaw Skrowaczewski, who created a strong impression in his American debut in 1958, according to critics.

Bryon Janis will be the featured pianist with the orchestra. Janis has appeared before audiences all over the world. He has been credited with receiving the best reception in Russia of any American artist.

Computer Installation To Begin Monday

Bouncing balls and whirling tapes, flashing lights and heavy weights will soon meet.

The new 1410 computer, due to arrive Monday, will be installed in the basement of Carmichael Gymnasium in what was to be the bowling alleys. According to Dr. A. C. Menius, dean of the School of Physical Sciences and Applied Mathematics, 1410 was originally designated for the basement of the future General Laboratories building but due to insufficient space and lack of room for future expansion, the temporary quarters of the 1410 will be in the gym.

The IBM 1410, a digital computer with a core storage of 40,000 characters and six tape units, will replace the obsolete 650 which will be shipped back to IBM when the 1410 is ready. Although the rent is greater, over \$6,000 per month compared to \$1,600 for the 650, the 1410 is nearly 10 times as fast and

CU Preparing International Night

Authentic Arabic food, entertainment, films and exhibits will be featured Sunday at the third International Night.

The events will get underway at 6:30 in the College Union Ballroom.

Tickets are on sale at the College Union Main Desk at \$.75 per person. Students and faculty who are interested in attending this program may purchase a ticket before 6 p.m., February 22.

College Union Plans Broad Reorganization

By Doug Lients

The College Union is working on a plan to reorganize the structure of the CU.

If the proposals which have been brought up thus far go through, there will be extreme changes in the constitution of the Union. A meeting of the Board of Chairmen was held in the CU theater last night to discuss this.

The reorganization is being made, according to CU sources, to correct the difficulties which have arisen since the reorganization which took place last year. Several people connected with the Union have said that they hope that this reorganization will be the last one needed for a number of years, and that it will provide a broader structure for the CU in which other campus organizations can work.

A paper prepared by the social staff of the Union to serve as a basis for the Board of Chairmen to work from in their planning the new structure was released to *The Technician* yesterday.

This paper lists the problems of the CU as a lack of complete knowledge of the CU by the Board of Chairmen, a lack of flexibility of action in the CU structure, confusion of the roles of the Social staff and the students in the Union, and inadequate functions for some committees in the Union.

The paper followed this list with a number of suggestions of ways to solve the problem. It recommended that the CU Board of Directors be the basic policy making body of the Union and that it be made up of representatives of all areas connected with the College.

The paper also suggests that

the Board of Chairmen be reduced in number, and that it have the definite responsibility for planning and initiating CU programs. It would also prepare the social budget.

It further suggests that there be six standing committees. These would be named Music, Gallery, International, Recreation, Social Activities, and Club Coordinator.

Two Grad Students Tie For Award In Textile School

Dual awards have been presented to two State graduate students in the School of Textiles.

Tom McCall and Marvin Hicks shared the award Tuesday for the best student paper written on textile quality control when the judges could not decide which paper was better. Each student received twenty dollars from the Textile Division of the American Society of Quality Control.

Tom McCall, a first semester graduate student in textiles, has had four years of undergraduate work. He has also had some practical experience in working with textiles. The subject of his paper was cotton roving variations.

Marvin Hicks, a textile student from Charlotte, is also a first semester graduate student in textiles after having had four years of undergraduate work. He has had practical experience from summer work with textiles. His subject was yarn variations.

Both students are here on scholarships from the Lowenstein Foundation, and neither has had previous experience in writing.

WKNC To Push Contemporary Music

WKNC last night announced a complete overhauling of its programming.

Station Manager Lewis Nelson and Program Director George Heeden revealed plans to shift the station's programming toward the contemporary.

Commenting on the change Nelson and Heeden said, "WKNC believes that its listeners are desirous to broaden their musical interests and it is felt the modern music will offer an excellent chance."

The programming will feature jazz and folk singing. The new scheduling calls for big band music, a campus news program, and jazz in the early hours of broadcasting and quiet music will be presented in the middle portions of the night.

A feature of the new scheduling will be a musical analysis type show which will explain and play the music of artists and composers. From 9:30 p.m. until 11 p.m., jazz and folk music will be played and from 12 midnight until 3 a.m. soft jazz will be featured.

The new programming also includes a special program on

Redskin Coming; Help Peace Corps

Norman Snead, former Wake Forest and Washington Redskins football ace, and Paul Daly, southern regional representative for the Peace Corps, will shortly appear on campus to recruit recreation and agriculture students.

According to Bill Bromby, APO Peace Corps coordinator for the campus, recreation students will help the small countries of Africa and the Far East to form Olympic teams.

Snead joined the Peace Corps last year and is with the University Division. Daly and Snead will be on campus February 19-20.

Any group who wishes these men to speak to them Tuesday night can contact Bill Bromby.

Two State Students Challenge Carolina To Race To WC

Can State outwalk Carolina? Garland McAadoo and Tom Bentley, two energetic State students, apparently think they can, for they are challenging the University of North Carolina to a 55 mile walkathon.

If the challenge is accepted, they plan to leave UNC Saturday afternoon, March 2, at 2 p.m., hike all night, and arrive at WC at 10 Sunday morning. "We think that State students have had more walking experience than Carolina students," claims Bentley.

Professors, staff, students, male and female, are invited to participate in the 20 hour hike, according to McAadoo. The winner will be determined by the team that has the greatest percent of starters finishing within the 20 hour limit.

"We will be expecting to hear from Carolina soon," says Bentley.

Campus Crier

A reward is offered by Ed Moyle to the person returning a wallet which he lost. He can be reached at 834-5817.

The Electrical Engineering Wives' Club will hold a meeting Friday at 6 p.m. in rooms 256-258 of the CU. There will be a Valentine party for the children of the Methodist Home. All EE students and faculty wives are invited to attend.

An AICHE meeting will be held February 19 at 7:30 p.m. in 242 Riddick. The program will be the election of officers and appointment of committees for the Engineer's Fair.

Dr. Sidney W. Fox of the Institute of Space Biosciences at Florida State University will speak February 18 at 4 p.m. in the auditorium in Williams Hall. The title of his speech is "Scientific Considerations on the Origin of Life." The lecture is being co-sponsored by the Departments of Botany and Bacteriology and Chemistry.

'Honor Proctoring'

The School of Textiles has recently proposed a plan whereby students accused of cheating by two or more members of the student body may be taken before a Textile "Honor Court."

The School excuses this action and its newly established policy of "honor proctoring" by saying that there is an alarming increase in cheating among members of the student body.

As for the Honor Code, one member of the Council states that we are faced with a system that is not working anywhere, and that the members of both the faculty and the students of the school decided to do something about it. As if this excused their setting up something that is little more than a monitor system veiled in a thin mask of "Honor Code."

Says the world-famous School of Textiles, "a pen or a pencil is the only thing in way of working materials a student will have when he takes his chair." Says the illustrious Textiles School, WE DON'T TRUST THE STUDENTS!!! WE WANT OUR PROCTOR SYSTEM BACK.

Now we are not going to bicker with these fine and wonderful gentlemen in the School of Textiles who think that the Honor System is not working here. That is not for us to decide. As a matter of fact, it is not for the Textile School to decide either. We challenge them to show us evidence of some student having cheated on a quiz that wasn't caught. And when they do we want to know why our fine friends felt above reporting this student to the Honor Code Board.

And while we're at it, where do they think that they get the power to establish a system completely contrary to the one now in existence? If they are of the opinion that the honor system is not working here, why don't they either try to make it work or go through channels to do away with it. We haven't noticed any members of the other schools trying to set up a proctor system.

Yes, dear Textilites, we may sound bitter here and if we do it is because we are. If you and the other members of this school were to take any interest whatsoever in this college and its affairs and work as hard supporting it as you do bragging about what a fine name and reputation you have, we might have a few things working around here like they should.

If a few profs would stop acting almighty and report a few cheating cases to the Honor Code Board instead of trying to handle them themselves, the system might work. If a few students would quit shirking their duty and act like adults, the system might work. But. . .

CM

'Let Man Live'

By Dwight Minkler

"We accuse! We accuse! We accuse!"

The above excerpt from "Let Man Live" by Par Lagerkvist expresses cursorily a portion of the complete theme of the play.

The play, conducted by Rom Linney, was presented over Channel 4 as a theatre workshop production last Friday night at 9:30 p.m.

Among the players are Francois, hanged because he stole a shoulder of mutton; Giordano Bruno, a scientist, burned at the stake for heresy; Richard, executed by the Nazis because he

owned a transmitter; Joe Brown, a Negro, lynched in Columbia, South Carolina in 1922; an Inca chief; Judas Iscariot; Socrates; and Jesus.

The general theme of the play, man's inhumanity to man, is expressed almost entirely by monologues.

Each player, except Jesus, accuses the audience of cruelty and inhumanity, of bestial actions. Judas and Francois reveal the fact that man is human, that man is an animal. Socrates, on the other hand, brings out the divinity in man. Jesus accuses no one, but he does say that man is just one big mess, that he has not done his best.

Publication Policy

All unsigned editorials are by the editor and all others will be signed with the initials of the writer.

We invite letters to the editor, but reserve the right to not print any letter received. All letters to the editor must be signed, and names will only be withheld in cases in which the writer's grades may be affected.

All letters to the editor must be typed on a sixty-two space line, double spaced. No letters will be printed in cases in which this is not done.

Deadlines for issues are 7 p.m. the night before the issues are delivered. Anyone wishing to have a story published in The Technician should drop it by the offices in the basement of the campus YMCA.

Letter To The Editor

Cage Team Commended

The men of State College can walk a bit taller now. After watching the Wolfpack's last two games it is plain to see that the Wolfpack is coming of age.

This season has not been one of our better ones. Ineffective offense, coupled with a lid on the basket have been the Wolfpack's major problems. Last Saturday night the lid came off the basket and Duke was the first to feel the effect. Words cannot express my feelings about the game with Carolina last Tuesday. The referees have a difficult job in calling a big game like that but this time I think that the job was sloppily

executed. All points considered, the Wolfpack did an excellent job.

The most important improvement in the Wolfpack has been the spirit to win. This spirit was not obvious at the beginning of the season. Now that they have the spirit to win the Wolfpack will be a team to be reckoned with.

I would like to take this opportunity to wish the best of luck to Coach Case and the Wolfpack in the coming contests. Give em' hell State!

Arthur Dumont

Review

'Fail Safe'

By Cora Kemp

What happens if a nuclear attack is accidentally set off against Russia?

Fail-Safe answers this question in explicit details.

Based on de-classified information, the novel takes place in 1967. On an otherwise normal day, something happens only the reader is sure just what. A unit of six jet bombers, each carrying two twenty-megaton bombs, is suddenly sent flying through its "fail-safe" point. Its target: Moscow. Not even a command from the President himself can stop the fatal flight.

What happens to the men involved in this wild entanglement? How can the President prove that the attack is acci-

dental? Can Russia defend itself?

Meet the President's amazing young translator who knows Russian immaculately, the astute German professor who thinks of war in terms of military strategy rather than bloodshed, the pilots who leads the attack on Russia, and many more.

Fail-Safe is now available at the Student Supply Store.

STATEments

One student we know is expecting to receive a pair of shorts with hearts on them for a valentine's gift from his girl. We can't help but wonder how she'll know when he's wearing them.

We noticed the crowd around the contemporary valentines was much bigger than the crowd looking at the "sweet" ones. We hope that this is a sign that the overpopulation problem is well on its way to being solved.

Cheaters

(Continued from page 1)

Hester, a member of the council, discussed the matter with the faculty and asked for their aid in eliminating the problem.

In response, one of the faculty members came up with some "ground rules" from his textile chemistry course. These rules were considered by the faculty, expanded, and approved by the Course and Curricula Committee of the School of Textiles.

John Cameron, chairman of the Honor Code Board, had no comment on the action.

Coeds' Views Favor Dormitory

Cora Kemp and Billie Darden means of financing State College's first coeds' dorm will be in the hands of the General Assembly this afternoon.

State College's plan is to ask the General Assembly for a \$415,000 appropriation and a loan for the same amount for the construction of the coeds' dorm.

The Advisory Budget Committee, however, will be recommending to the Assembly that State receive a loan for the total cost of the dorm—\$830,000.

According to J. G. Vann, business manager for State College, the Advisory Budget Committee is against appropriating funds for the construction of the proposed dorm.

A survey of about half of the coeds at State was made by *The Technician* during spring registration to give the coeds an opportunity to express their views on coeds' housing. One hundred and one coeds of an estimated 225 enrolled for the semester completed a questionnaire.

The chart to the right shows the breakdown of the tabulations taken from the questionnaire.

The tabulation of rent showed that apartments cost an average of \$33.80 per month per person. Rent for private rooms runs about \$28.00 per month. On the average, coeds live at a single location for six months.

Less than half the coeds indicated that they had trouble finding a place to live. Friends were the main source of information concerning housing. A smaller number relied on the College Rental Office and newspaper ads.

In general, the coeds' comments were highly in favor of a dorm. They stated that living in private homes often does not provide the college-like atmosphere that students want. Apartments near campus are too hard to find, and frequently people prefer to rent to boys because they tend to feel a sense of responsibility for girls, it was pointed out.

"I don't know but three or four of the coeds here. I'd like to see them at least once in a while," one coed explained.

"It would probably attract more girls to State," several said.

"I believe it would improve the standards of the girls," another commented.

In opposition, most of the coeds commented that they did not want to lose their "freedom."

"I like living off campus. I don't want anyone telling me what time to come in," one coed stated.

"I don't want a roommate," another protested.

"I'm married," several pointed out.

Another merely explained,

"I'm a design student."

Commenting on the survey, Mrs. Julia Miller, advisor to the coeds expressed considerable interest in the coed housing situation.

"I would definitely like to have a coed dormitory here," she said. "The girls here are forced to find a place to live in a strange community. Very few of them know any other girls here when they enroll, and they have a limited number of opportunities in which to develop friendship ties with each other. They are being deprived of the social atmosphere that exists in a dorm. To a certain extent,

they are almost completely isolated from the other girls on campus."

Mr. N. B. Watts, director of Student Housing, stated that the College is well aware of the coeds' housing problem. "We are constantly trying to get accommodations for all students on campus," he said.

He pointed out that the college explicitly indicates to all women students that there are no accommodations for them on campus when they enroll.

Mr. Watts explained that all efforts to get the coeds on campus in the past have failed. He cited a specific example of this

that occurred several years ago. The top floor of the Alumni Building was converted into housing quarters. In order for coeds to use this building, all the rooms had to be filled. All coeds were notified. However, only thirteen indicated interest in the rooms. This was ten short of the necessary twenty-three. The area is now occupied by male students, faculty, and staff.

Mrs. Miller and Mr. Watts

both indicated a desire to get the coeds on campus.

"If this falls through, we'll just have to make the best of what we have," Mr. Watts surmised.

Tomorrow's job satisfactions...through today's job decision

If your concept of job satisfactions includes responsibility for results, individual recognition, and continuing opportunities for creative contribution, professional careers at Air Products and Chemicals, Inc. will interest you.

Air Products successful record of growth from sales of \$3 million in 1949 to over \$100 million in 1962 results from pioneering advances in cryogenics, leadership in chemical processing, and aggressive marketing.

Our Career Development program places you in a series of responsible positions vital to the Company's continued expansion. In this way, you will have a sound basis for selecting your long-range career interest. Specific assignments in this program include: Engineering, Research, Technical Marketing, Advanced Product Development, Operations, Computer Center, Sales, Finance, and Administration.

Air Products is located in Eastern Pennsylvania within short driving distance of Philadelphia and New York. Advanced personnel programs include graduate study under a tuition refund plan at excellent nearby universities.

Wildcard League Sees 4-Way Tie

By Jim Olson

The Wild Card League passed the half-way point in its basketball schedule last Thursday night with all four of the section championships still open to all comers. In Section #1 the Stragglers, Alexander, and Owen Basements are in a tie for first place with 2-1 records. In Thursday's action, the Stragglers defeated Delta Sig 59-41 and Alexander beat Owen Basement 47-33. Nordan had 23 points for Delta Sig while Clark had 20 for Stragglers and Cartwright had 16 for Alexander.

In Section #2, the Shot Guns maintained a precarious hold on first place with a 3-0 record by downing the Country Boys 46-39. Brown scored 14 points for the Shot Guns in the only Section #2 action of the night.

The Grads likewise moved into first place in Section #3 with a 65-47 victory over Owen #1 for their third straight vic-

tory without a defeat. Cato of the Grads and Montgomery of Owen each scored 17 points. In the other game, the Ragged Wolves beat Knapps Gang 48-30.

In Section #4, the Hot Rods and the Gunners are tied for first with 2-1 records. In Thursday's action, the Gunners beat Owen A. S. 47-34 and The Red Necks defeated the Hot Rods 61-54 in overtime.

In the Open League, the Hot Rods lead Section #1 with a 4-0 record. The Trotters lead #2 with 3-0, The Flunkies lead #3 with 3-0, the Cardinals head #4 with 3-0 and the PR #2 tops #5 with 4-0. The Hot Rods, The Flunkies, and PR #2 have clinched at least ties for the championships in their sections.

In Monday night's action, The Country Boys defeated PR #1 57-48, the Hot Rods squeezed by the Outcasts 44-43, PR #2 beat the Rebels 43-39 while Theta Tau and the O. Clowns won by forfeit.

SPE And PKA Top Frat Bowlers

By George Setser

The regular season in fraternity bowling ended last week with SPE (24-4) and PKA (27-5) winning their respective sections and drawing first round byes in the playoffs.

Quarter final action at Western Lanes pitted Delta Sig against Lambda Chi and PKT against Sigma Chi.

The PKT's (26-6) charging quintet led the way to the semifinals as they soundly beat S. Chi in a high pinfall match. The PKT's started with a good 803 game followed by a fine 831 and rounded out their series with a solid 786 for the win. Sigma Chi was close at the heels of PKT in all the games with 788, 769, and 775.

Team leaders for PKT were Phillips with an excellent 222, 207, 166 series and Scarace with 195-529. The PKT team bowled especially well under pressure when they needed the pins. As a team the Sigma Chi's rolled better than their season's average. Griffith spearheaded S. Chi's offense with 194-537.

The big upset of the night

came when Lambda Chi Alpha (15-13) rolled past Delta Sigma Phi (26-6). The Lambda Chi's were fired up for the match and jumped to an early and decisive lead with 797 in game one; followed with a mediocre 724, which also gained pins; and held on for dear life with a 694 in the third game for a 2215 series. The Delta Sig's rolled 736-695-752-2183. Their third game drive pulled them virtually even with the struggling L. C. A.'s through eight frames, but a rash of splits in the final two frames squashed their victory hopes. The D. Sig's had the misfortune of being without the services of their two leading bowlers for the night. Boyd led L. C. A.'s determined bid with 200-509. Baré was D. Sig's inspiration with a 209-535.

Wednesday night's schedule in semi-final action calls for Sigma Phi Epsilon to meet upset-minded Lambda Chi Alpha, and Pi Kappa Alpha to go against the high-flying Phi Kappa Taus. The winners will meet next Monday night at 9:00 in the final match.

Technician Sports

Bragaw; Turlington Lead Dormitories

Dormitory basketball moved toward the season's end Monday night with one team in three of the four sections clinching at least a tie for first place.

In section #1, Bragaw South retained its undefeated record and assured itself of at least a tie for first place by edging Bagwell 63-59. The game was close all the way with South leading 15-11 after one quarter and Bagwell enjoying a 39-38 half-time advantage. Bob Brummitt contributed heavily to the South win, scoring 21 points. High scoring honors went to Homer Parker of Bagwell with 22.

In other Section #1 action, Bragaw North clobbered Syme 43-27.

In Section #2 Turlington also kept a clean slate by defeating Owen #2 60-45, giving it a 4-0 record and assuring them of at least a tie for first place. Turlington jumped off to an early lead, and withstood an 11th hour rally by Owen and then staged some of their own heroics to give them a substantial margin. Trailing by 19 at the end of the third quarter, Owen began its comeback, reducing the margin to 7 points with about two minutes to play. Turlington then scored eight straight points for the final margin of fifteen points. Coy Fink, David Carter, and John Marshall had 17, 16, and 15 points respectively to pace Turlington. Chuck Laird had 15 in the losing cause.

Tucker #2 scored the largest margin of victory Monday night

in extending their record to 4-0 by beating Berry 57-27. Tucker also clinched a tie for the Section #3 crown. The game was never a contest as Tucker used a well-balanced scoring attack to completely demolish the Berry team.

In the other Section #3 game, Becton eked out a close 50-47 win over Tucker #1, for their first win of the season. The game was close all the way with Becton moving out to a four-point advantage at half time and then hanging on for the win. Michael Hendrix led Becton scorers with 21 points while Edgar Powell added 15. John Daughtry had 17 for Tucker.

The Section #4 race is still up for grabs with their season only half completed. Watauga gained a firmer hold on first place with a 3-0 record by lambasting winless Welch-Gold-Fourth 46-26. Vann Baucom had 18 points for the winners.

Dormitory Handball and Table tennis will start Wednesday night with all teams except the defending champions in each sport seeing action. Bragaw North is defending champion in Handball and Alexander in the defending Table Tennis champion.

Soccer Awards

During intermission of Saturday night's basketball game with Duke, two State College athletics were named to the NCAA all Southern District Soccer Team. Vello Kuuskraa, co-captain and right halfback for the 1962 team, and Raymond Rudell, left halfback, were presented the awards by Roy B. Clogston, State College Athletic Director.

Get Lucky Play "Crazy Questions"

(Based on the hilarious book "The Question Man.")

50 CASH AWARDS A MONTH. ENTER NOW. HERE'S HOW:
First, think of an answer. Any answer. Then come up with a nutty, surprising question for it, and you've done a "Crazy Question." It's the easy new way for students to make loot. Study the examples below, then do your own. Send them, with your name, address, college and class, to GET LUCKY, Box 64F, Mt. Vernon 10, N. Y. Winning entries will be awarded \$25.00. Winning entries submitted on the inside of a Lucky Strike wrapper will get a \$25.00 bonus. Enter as often as you like. Start right now!

RULES: The Reuben H. Donnelley Corp. will judge entries on the basis of humor (up to 1/4), clarity and freshness (up to 1/4) and appropriateness (up to 1/4), and their decisions will be final. Duplicate prizes will be awarded in the event of ties. Entries must be the original works of the entrants and must be submitted in the entrant's own name. There will be 50 awards every month, October through April. Entries received during each month will be considered for that month's awards. Any entry received after April 30, 1963, will not be eligible, and all become the property of The American Tobacco Company. Any college student may enter the contest, except employees of The American Tobacco Company, its advertising agencies and Reuben H. Donnelley, and relatives of the said employees. Winners will be notified by mail. Contest subject to all federal, state, and local regulations.

NORTH CAROLINA STATE
Raleigh, N.C.

State Tankers Dunk Heels

By Gene Cherry

Smokey Ellis and Ed Spencer erased a Carolina lead in the last event of the night, the 400-yard freestyle relay, to enable State to defeat the Tar Heels 53-42 in an ACC dual meet in State's Swimming Stadium last night.

State held a narrow 46-42 advantage going into the thrilling relay, but needed a win to sweep the meet. With a screaming crowd of 1800 watching, the Wolfpack team not only won the event, but established a new State College record in the time of 3:21.9 to repeat last year's victory in the last race.

The Wolfpack's Harold Senter grabbed an early margin over Carolina's Larfy Roberts. However, Roberts pulled ahead to give the Tar Heels a short lead at the end of the first 100-yards. In an exciting battle between Bill McGinty of State and Thad Adams, McGinty closed the gap as the two swimmers finished in an almost dead tie after 200-yards of the relay.

This set the stage for Ellis, who quickly pushed the Wolfpack ahead, but could not gain a comfortable lead on Carolina's Harry Bloom. In a tremendous duel with Thompson Mann, Spencer, who earlier had won the 200-yard butterfly, increased the span to about two feet at the finish to give State the meet.

Harrison Merrill, UNC's sensational sophomore freestyler, captured the 100, 200, and 500-yard freestyle events as the meet's only triple winner. State's Pete Fogarasy paced the Wolfpack with wins in the 200-yard individual medley and the 200-yard breaststroke.

The victory was State's ninth straight as Carolina lost its fourth meet in 13 appearances. The Wolfpack are now 5-0 in the ACC while the Tar Heels are 4-1.

Coach Willis Casey's swimmers travel to Duke Friday afternoon and meet Maryland here February 23 in their final ACC meets.

Results:

400-yd. Medley Relay—1. N. C. State (Dick Paolletti, Pete Fogarasy, Ed Spencer, Harold Senter), 2. North Carolina. Time—4:00.2.

200-yd. Freestyle—1. Harrison Merrill, UNC; 2. Thad Adams, UNC; 3. Gerald Peck, NCS. Time—1:57.9.

50-yd. Freestyle—1. Bill McGinty, NCS; 2. Smokey Ellis, NCS; 3. Howard Come, UNC. Time—22.6 secs.

200-yd. Individual Medley—1. Pete Fogarasy, NCS; 2. Dick Paolletti, NCS; 3. Barry King, UNC. Time—3:12.5.

1-Meter Diving—1. Ernie Carr, UNC; 2. Jerry Morrow, NCS; 3. Harold Senter, NCS. Points—140.9.

200-yd. Butterfly—1. Ed Spencer, NCS; 2. Bill Bloom, UNC; 3. Harry Schiffman, UNC. Time—3:10.0.

100-yd. Freestyle—1. Harrison Merrill, UNC; 2. Thompson Mann, UNC; 3. Bill McGinty, NCS. Time—49.6 secs.

500-yd. Backstroke—1. Dick Paolletti, NCS; 2. Scott Smiley, UNC; 3. Russell Redding, UNC. Time—3:12.7.

200-yd. Freestyle—1. Harrison Merrill, UNC; 2. Frank Lee, UNC; 3. Joe Moore, NCS. Time—3:17.5.

200-yd. Breaststroke—1. Pete Fogarasy, NCS; 2. Pete Swift, UNC; 3. Dan Derby, NCS. Time—3:25.3.

400-yd. Freestyle Relay—1. N. C. State (Harold Senter, Bill McGinty, Smokey Ellis, Ed Spencer), 2. UNC. Time—3:21.9.

Bowlers Begin Finals

Fraternity bowlers climax their regular season as play-offs get under way. The new champion will be decided in the finals next Monday night.

Pete Fogarasy, N. C. State All American swimmer, placed first in the 200 yd. freestyle and the 200 yd. breaststroke to pace the State tankers over the Carolina mermen in last night's dual swim meet.

Frosh Whip Tar Babies

State College freshmen helped to even the score against Carolina Tuesday night by defeating the UNC freshmen 83-55 just before the Wolfpack lost the varsity event to the Tar Heels.

The Carolina freshmen have suffered only one other loss this season and was to Duke. They have beaten the Wolflets twice earlier in the season.

Forward Ray Hodgdon was high scorer for State with 27

points. Bill Moffitt, guard, was second to Hodgdon with a 19 point total.

High scorers for Carolina were Yorkly and Bennett with 12 and 11 points each respectively.

THE CURSE OF THE CAMPUS: NO. 1

Hate me if you will, but I must speak. We college types are far too complacent. Sure, we've got plenty to be proud of. We've got atom smashers, we've got graduate schools, we've got new peaks in scholarship, new highs in academic honors. And yet, in the midst of these triumphs, we have failed dismally to make any progress in solving the oldest and most horrendous of all campus problems: we've still got roommates.

To be sure, all roommates are not bad. There is the well-documented case of Hilquit Glebe, a student at the Manhattan College of Agriculture, majoring in curds and whey, who admitted publicly that he actually liked his roommate—an odd admission when you consider that this roommate, Mervis Trunz by name, was frankly not too winsome a fellow. He practiced his tympani in his room, he kept an alligator, and he collected airplane tires.

But, on the other hand, Mervis bought two packs of Marlboro Cigarettes every day and gave one of them to Hilquit and—I ask you—who can stay mad at a man who gives you Marlboro Cigarettes? Who, upon tasting that flavorful blend of Marlboro tobaccos, upon drawing through that pure white Marlboro filter, upon exulting in this best of all possible cigarettes, Marlboro—who, I say, can harden his heart against his neighbor? Certainly not Hilquit. Certainly not I. Certainly not you, as you will find when you scurry to your nearest tobacconist and buy a supply. Marlborsos come in soft pack or Flip-Top Box. Tobacconists come in small, medium, and large.

Today Molly is paying off her debt...

But I digress. Roommates, I say, are still with us and I fear they always will be, so we better learn how to get along with them. It can be done, you know. Take, for instance, the classic case of Dolly Pitcher and Molly Madison.

Dolly and Molly, roommates at a prominent Midwestern girls' school (Vassar) had a problem that seemed insoluble. Dolly could only study late at night, and Molly could not stay awake past nine o'clock. If Dolly kept the lights on, the room was too bright for Molly to sleep. If Molly turned the lights off, the room was too dark for Dolly to study. What to do?

Well sir, those two intelligent American kids found an answer. They got a miner's cap for Dolly! Thus, she had enough light to study by, and still the room was dark enough for Molly to sleep.

It must be admitted, however, that this solution, ingenious as it was, had some unexpected sequelae. Dolly got so enchanted with her miner's cap that she switched her major from 18th Century poetry to mining and metallurgy. Shortly after graduation she had what appeared to be a great stroke of luck: while out prospecting, she discovered what is without question the world's largest feldspar mine. This might have made Dolly very rich except that nobody, alas, has yet discovered a use for feldspar. Today Dolly, a broken woman, squeezes out a meagre living making echoes for tourists in Mammoth Cave.

Nor has Molly fared conspicuously better. Once Dolly got the miner's hat, Molly was able to catch up on her long-lost sleep. She woke after eight days, refreshed and vigorous—more vigorous, alas, than she realized. It was the afternoon of the annual Dean's tea. Molly stood in line with her classmates, waiting to shake the Dean's hand. At last her turn came, and Molly, full of strength and health, gave the Dean a firm handshake—so firm, indeed, that all five of the Dean's knuckles were permanently fused.

The Dean sued for a million dollars, and, of course, won. Today Molly, a broken woman, is paying off her debt by walking the Dean's cat every afternoon for ten cents an hour.

We, the makers of Marlboro and the sponsors of this column, will not attempt to expertize about roommates. But we will tell you about a great pocket or purse mate—Marlboro Cigarettes—fine tobacco, fine filter, fine company always.
