IFC-SG Dispute On Candidates Brews

By Ernie McCrary
The Interfraternity Council and the Student Government are engaged in a controversy over the slate of candidates for IFC offices, according to Bill Watson, president of the IFC.
The SG Election Committee has changed the slate originally approved by the IFC Council. The IFC approved Bob Steinberg (Sigma Alpha Mu) as an uncontested candidate for vice-president and Brian Howell (Kappa Alpha), Billy Lane (Sigma Nu), and Charles Wilson (Sigma Chi) as candidates for secretary. Wilson later switched to the vice-presidential slot, and was approved by the SG for this position. The SG election committee also disqualified Steinberg and Dick Bradshaw (Tau Kappa Epsilon), a candidate for treasurer, for failure to attend last week's candidate's meeting.
In a meeting yesterday the IFC Council failed to approve this changed slate, according to Watson, and plans to appeal to the SG at a meeting tonight to

retain the original IFC-approved list of candidates.

The slate the IFC approves is:

President—Jack Watson (Sig Ep)

Vice-president—Bob Steinberg (SAM)

Secretary—Brian Howell (KA)

Billy Lane (Sigma Nu)

Charles Wilson (Sigma Chi)

Treasurer—Joe McCall (Kappa Sig)
Dick Bradshaw (TKE)

The SG-approved slate drops Steinberg and Bradshaw and moves Wilson to vice-president.

According to unofficial but reliable sources the IFC has threatened to pull out of the SG election and hold its own election if its original slate is not approved at the meeting tonight.

ROTC cadets will have a chance to show their best girls their pretty little ribbons at the annual Military Ball Saturday.

Formal dress will be worn at the Ball which will be held in the CU.

There will be an orchestra playing in the CU Ballroom and a rock and roll band in the snack bar. The orchestra will be Bobby Harrison, and the band is B. S. Plairs.

The Ball begins at 8 p.m. The sponsors are: Mrs. Gerald Moore for Gerald Moore, Mrs. Omar Wiseman for Omar Wiseman, Miss Susan Proud for Ronald J. Reynolds, Mrs. W. C. Brown for W. C. Brown, Miss Sue Ingram for Jack Jordan, Mrs. George B. Williams for George B. Williams, and Miss Gail Fitchette for Robert Carnes.

Friends Of College Offer Bernstein

A free show will be presented on campus April 1 and 2.

The Leonard Bernstein Gala, a collection of the famed composer's best known works, will be open to all students. It is set for the Coliseum at 8 p.m. April 1 and 2.

The program for the concert includes *Fancy Free*, a ballet written by Bernstein and Jerome Robbins. Also included in the program are *Trouble in*

(See FRIENDS, page 4)

All Campus Sing Plans Announced

Next time you're in the bathtub, think about the All Campus Sing to be held soon in the College Union ballroom.

Interested organizations may enter under the fraternity, dormitory, or open divisions. The performance will be March 31 at 2:00 p.m. in the College Union, and the deadline for entries will be March 25 at 2:00 p.m. To enter, turn in the name of the organization and the numbers to be sung to the Student Activities Office, 206 Holladay Hall by that date.

All recognized student organizations are eligible to participate, except for the musical organizations. Only piano accompaniment can be used, and each group must have a minimum of twelve singers, not including the accompanist. All persons singing in each group must be a member of the organization represented by that group.

New Faces On Campus

The ladies above are not coeds. Rather they claim to be Ice Capets here this weekend with the Ice Capades. Unfortunately they declined to give their names to the photographer, so we can't tell you whom to look for if you go. It is rumored, however, that Ice Capade girls have not been entirely oblivious to dates with State men during their stays in Raleigh.

(Photo by Jackson)

Eckard, Stewart Named To Head College Union

Alan Eckard was named College Union president at a CU Board of Directors meeting last night.

The re-organization which the College Union has been undergoing was also completed at the meeting.

The Directors selected Eckard president, David Stewart vice-president, and David Goddard secretary.

Eckard said that his aims as president were, "closer work with other campus organizations, the initiation of a leader-

ship program, better coordination between College Union committee chairmen, and more effective staff-student coordination and communication."

Eckard is a rising senior in nuclear physics, and Stewart and Goddard are rising juniors in Applied Mathematics.

Eckard is a past vice-president of the College Union, Stewart is a member of the Board of Directors, and Goddard is a committee chairman.

Terry Lowder was the other candidate for the presidency, Goddard also ran for the vice-presidency, and Rosina Coburn

opposed Goddard for the secretarial position.

Proposals which dropped the number of standing College Union Committees from twelve to seven were also passed.

Under the new organization, the committees will be: Social Activities, Gallery, and Recreation, which includes a special subcommittee on films, performing arts, lectures, international, and leadership training. The position of club coordinator to assist College Union affiliated clubs was also established at the meeting.

Military Ball Sponsors Named

Three NC Authors In Tonight's Forum

Three North Carolina authors will speak at the Eighth North Carolina Literary Forum on Thursday, March 28, at 8 p.m. in the College Union Ballroom.

"The Materials of a Writer," the Forum topic, will be discussed by Richard McKenna, Russell Brantley, and Bernice Kelly Harris. Sam Ragan, editor of the *Raleigh News and Observer*, will act as moderator.

McKenna, from Chapel Hill, has written *Sand Pebbles*. The *Education of Jonathan Beam* is the controversial work of Russell Brantley, a member of the Wake Forest College faculty. Bernice Kelly Harris' latest work is *The Very Real Truth About Christmas*; she has also written *Folk Play of Eastern Carolina*, *Sage Quarter*, *Janey Jeems*, and *Hearthstones*.

Admission is open to everyone. The forum is jointly sponsored by the CU Library Committee, the Raleigh Woman's Club, and the Raleigh Junior Woman's Club.

Job Poop Seminar To Be Held Soon

Those students wishing to make an effective appearance when applying for a job will have a chance to learn how next Wednesday.

Dr. Fred MacIntosh, associate professor of English at UNC, is presented jointly by the Student Government, the CU, and the Student Employment Office in a two-session seminar on "How to be an Effective Job Applicant." The topics covered will be the preparation of personal data sheets and suggestions for writing job application letters.

Students, faculty, and staff members wishing to attend these seminars must sign up in the Student Employment Office, 202 Holladay, by March 25. The seminars will take place in 302 Harrelson at 7:30 p.m. on March 27 and April 3.

State Will Be Host To Chem Conference

State College will play host to Chemical Engineering students from throughout the Southeast April 4-6.

The local chapter of the American Institute of Chemical Engineers expects about 150 students from the 15 student chapters in the conference, according to Dr. E. M. Schoenborn, head of the Chemical Engineering Department.

The theme of this year's conference will be "Continued Learning—Key to Excellence in Chemical Engineering."

This year's conference will start with registration at 2:00 p.m. on April 4, followed by a

get-acquainted party at 7:00 p.m.

At 9:30 a.m. on April 5, Dr. J. H. Koffolt, Department of Chemical Engineering, Ohio State University will speak on "Continued Formal Education." "Continued Learning in Industry" will be presented at 10:15 a.m. by Dr. E. P. Bartkus, Manager, New Products Development, Engineering Research Department, E. I. du Pont de Nemours and Company, Wilmington, Delaware.

On April 6, the conference will hold its business meeting and adjourn at 12:30 p.m., Schoenborn added.

CU Photo Contest Is Now Underway

Shutterbugs to arms! The annual Spring Photo Contest, sponsored by the College Union Photo Club, is underway. All entries must be in the CU Activities Office no later than 8 p.m., Friday, March 29.

Anyone may enter; each person may enter no more than ten prints or ten color slides. No prints which have previously won a prize at the CU may be entered.

First, second, and third prizes will be awarded in each of five categories; the awards are \$10, \$5, and \$2, respectively.

The categories include portraits, candid photos (children, people, animals), news (action and sports included), landscapes, marine, and architecture snapshots, and an open designation.

Prints and slides may be picked up at the Activities Office from May 4 to May 17.

Judging will occur on Sunday, April 7 at 2 p.m., to be followed by individual print criticism for any interested persons.

Rules for the contest are available at the CU Main Desk and in the Activities Office.

PE Registration Strenuous

By Dick Paschall

In the spring a young man's fancy turns to romance and . . . But in this instance, many "young men" were interested in golf; the result was a "hell of a mess" last night at the first evening registration for physical education in Carmichael Gym.

Beginning at 7 p.m. in the student lounge, registration for the many courses offered by the PE department didn't proceed as smoothly as department officials expected. Nine instructors were available to register sophomores, for the final eight weeks of PE. The majority of the students jammed into one line, the line for golf. In complete contrast, the aquatics and developmental lines were extremely small.

cal education in Carmichael Gym.

One instructor commented, "I don't think much of this system of registration. I thought they (the students) were going through the glass. We should have had the registration in the rooms."

At the beginning of the registration, the student lounge was packed. Only an hour later, five students and nine instructors were the only occupants of the large room.

Music Organization Sells Records

High fidelity phonograph records of the State Symphonic Band and the Men's Glee Club, which include selections from the 1963 concert tours, can be purchased from the musical organizations in the Music Office in 104 Pullen Hall, the Music

Department announced in a bulletin to *The Technician*.

Orders will be received until March 29 for a Symphonic Band Album (two twelve-inch records for \$5.00), and a Men's Glee Club Album (one twelve-inch record for \$3.00), the bulletin added.

What To Do?

Tonight Student Government is meeting to consider two problems which have arisen as a result of elections.

Because of the actions of two candidate approval boards, the Judicial Candidate Approval Board and the IFC Nominations Board, questions have been raised concerning the relative powers of the Student Government and the respective boards.

The issue in the IFC controversy asks the question: Who has the final say-so in disqualifying candidates; the Student Government or a board making the nominations?

The appeals which the disqualified candidates, Curtiss Moore and Mark Shanker are making asks the question: Upon what basis does a nominating board judge a candidate? Should the board consider only his record and his experience, as most boards profess to do, or do they also have the right to sit in judgement upon a person's character and integrity?

Who does have the final say-so in judging candidates? Supposedly the Student Government, as the supreme governing body on the campus, has the right to disqualify a candidate.

But it would appear that an unopposed, approved candidate doesn't even need to fulfill the same requirements that the opposed candidates do. If he is disqualified, then an open position is created which must be filled.

The IFC is filling this position by renominating the boy who was disqualified. If this precedent is to be established, then it might as well be carried to its logical conclusion. That is, simply letting any approval or nominations board have the final say-so on the unopposed positions, since there is no need for an unopposed candidate to attend a compulsory meeting, or for that matter, to have his name on the ballot. It doesn't really make any difference whether the student is disqualified or not, or whether he gets a single vote, because he is the only candidate approved and available.

Upon what basis does a nominating board judge a candidate?

The Judicial Candidate Approval Board states that it has the right to judge a candidate on his integrity.

How do you judge integrity?
Can you say that a person who is willing to publicly criticize something doesn't have integrity?

Can you judge a person on the basis of the fraternity with which he is associated?

Can it be guaranteed that personal feelings won't enter into any judgment which isn't based on cold, hard facts?

Wouldn't it be possible for a small clique of students to gain control of these boards, and disapprove anyone outside their clique on the basis of "integrity"?

We agree that the student body is disinterested in political matters, but we can't see how these boards will do anything to promote interest.

Student Government faces a hard decision tonight. They must consider not only the individual cases which are being presented, but they must also be aware of the precedents which they are setting.

We don't envy them.

GB

Letters To Editor

Honor Code; Broken Showers

To The Editor:

It seems to me that when a student is old enough to come to college he no longer needs

to be "spoon fed" by his mother OR the professors. Professors are here to give the students the subject matter of the courses.

Should they constantly be reminding the classes that they should obey the honor system, they would defeat the very purpose you propose they support. Only recently these students (and you, too) have probably rebelled against parents for treating them like babies. It most certainly is well within the duty of the student paper, however, to harp on this subject again and again—but please, let's be grown men about it and don't put the blame on "mama" or "teacher."

Nellie Waltner

To The Editor:

The boys in Bragaw who were griping the other week in

this column because their shower drains were stopped up should come over to the third floor of Owen. Our drains work fine—but in the shower on the back hall, we haven't had any water in four days, since sometime Friday to be exact.

It sure seems that our hard-working M & O dept. could at least give a reason for the situation.

There is one bright spot in all of this, at least the other sanitation facilities are working. What if they also should become mysteriously inoperable? Then Owen would be brought to everyone's attention.

Minute Courses

Military Science

By Herb Allred

Hello again out there! Tonight's goody is military science, known to many as ROTC. Many of you were probably in the Boy Scouts or Explorers when you were younger. Same thing.

On Tuesdays, you will dress up in your pretty, green uniform and go to the drill field. Here you will meet your platoon leader who will be a friendly sort, and even willing to help you with your physics homework, if you ask him nice.

When the weather is bad, you will meet in the Coliseum and watch Bugs Bunny cartoons. Refreshments will be served afterwards.

In the classroom portion of the course, you will learn how to kill the enemy, a person who might have been your friend if you had met him under different circumstances. Also, should you get killed, you will learn how to die gracefully.

If you go advanced, you will learn how to scream indistinct orders and give demerits. This is known as leadership.

There are tremendous advantages in going advanced. If you don't go advanced, you will be drafted after graduation and sent way the hell to Vietnam where you will be shot at by Viet Cong . . . all for seventy-two dollars per month.

However, should you go advanced, you will be given a commission upon graduation and sent way the hell to Vietnam where you will be shot at by Viet Cong . . . all for seventy-five dollars per month.

QUESTIONS

1. Your platoon leader likes you to look nice at drill . . . right? Wear a coat and tie to drill one day and pick up a few extra merits.
2. Draw a diagram of a battle-field. Don't forget to put in lots of dead human beings.

Cell: No Easy Math Answers

By Dwight Minkler

"If the darn quadratic factors, you ought to go find your mistake!" Cell was emphatic.

Dr. John W. Cell, head of the Mathematics Department, talked tirelessly about answers to mathematical and physical problems. He emphasized that students are often led to believe that answers to mathematical and physical problems are, in real life, simple. But, Cell added, even-or-integer answers are nil in actual, everyday life.

To factor an equation, thus arriving at a simple answer, is to waste an enormous amount of time, Cell insisted.

After demonstrating some problems on his office blackboard, Cell sprang into a story. "At the University of Illinois I remember a situation vividly," he said. A problem, taken from an actual construction job, had been given to a student. The

student had derived a quadratic over which he was very hesitant. "The piker was trying to factor it!" Cell suddenly exclaimed. "He was wasting all sorts of time!"

Cell was asked how he would arrange types of problems in a book if he were to write one. He deftly pulled two books from a shelf, *Analytical Geometry* and *Engineering Problems Illustrating Mathematics*, which he had written. The problems in the book were of two varieties—problems with simple answers and problems with "messy" answers. Cell qualified his position by saying, "You can't give all problems with messy answers because of the sheer lack of time. Students just have so much time."

Cell began to elaborate: "At the freshman and sophomore levels I would give some problems with nice simple answers

and some problems with nice messy answers, so the student won't get the wrong psychology. Problems at the junior and senior levels in certain advanced courses of physics and mathematics should begin to demand electronic computer solutions. Otherwise the problems are two trivial! This couldn't be done many years ago, but since we have the computers now, let's use them."

"If problems always have simple answers such as integers, students build an incorrect psychology about the working of engineering and physical problems," Cell summarized his stand.

Cell's wife is an English teacher at St. Mary's; his daughter, a freshman at Catawba; his older son, finishing his Ph.D., an instructor at Duke; and his other son, a graduate student in philosophy.

Glee Club Tour Termed 'Smooth'

By Dick Paschall

"Smooth as silk" is the way to describe the recent tour of the North Carolina Piedmont made by the State College Symphonic Band.

An annual activity, the tour usually begins around the first of March. This year, the band left the State College campus

at 6 p.m. on March 11 for an 8 o'clock concert in Durham the same evening. Parents of Durham High School band members housed the NCS boys for the night.

Burlington, Lexington, and Southeast Guilford were the stops on the second day of the tour. Spending the night in the homes of Southeast Guilford High band members gave the State students an opportunity to attend a dance in their honor at the school.

Wednesday morning found the band in Kings Mountain for a mid-morning concert. That afternoon the band performed in Mount Holly, before returning to the State College campus.

"Six concerts in two days involved quite a lot of playing and gave us no opportunity for free time," commented Richard Freeman of Charlotte, president of the band.

"You get on a bus . . . you ride . . . you get off and play a concert. It's not dull—there's something new every minute," added Freeman.

Commenting on the tour, Donald Adcock, band director, stated that the tour ran very smoothly with no delays or inconveniences. "Audiences were very receptive. We enjoyed playing for them," he added.

Open League Bowling Boasts Campus First

By Jim Olsen

The main attraction in Open League Bowling Monday night was the "anchor man" for the Fraternity All Stars in the last game, Peggy McConnell. Miss McConnell is the first member of the fair sex to compete in intramurals. Her score of 152 was second highest in the game.

The Playboys and the All Stars continued their domination of Open League Bowling by taking all four points from their opponents. The Playboys are in front with a 19-1 record and the All Stars are right behind with a 17-3 record. The two teams will meet Monday night in the final match of the season.

Ron Lipsius led the All Stars to their 4-0 sweep over the Lucky Strikers with a 612 series. Phil Hansen added a 567 set while Lenny Feiner contributed 505 pins to the All Stars' total. Lipsius and Hansen are the only Open League bowlers to break the 600 series mark.

The Playboys won their match with the Holly Rollers with four bowlers having sets of over 500. Ron Mann led the Playboys with a 222 game and a 548 set while Bob Long had a 542 series. Other 500 series bowlers were Henry Griffin,

533; and Roger Bailey, 519.

The New Yorkers put on a fine performance in taking three points from the Strikers, 889-815-955-2659 to 733-859-726-2318. Paton led the way for the New Yorkers with a high game of 255 and a 597 series. George Matuza helped in the victory with 566 pins and Alen Aitken added a 588 series.

In the other Open League game, the Fraternity All Stars split 2-2 with the Twisters.

Gunners Win Title In Wildcard Basketball

The Gunners put on a rally in the last of the fourth quarter to go ahead and defeat the Grads 54-48. The game had been postponed from last week.

(Photo by White)

Track Season Begins

Four dual meets, two triangular meets, and three relay carnivals are on the schedule for North Carolina State's 1963 outdoor track team.

The Wolfpack will be host to an April 20 triangular meet with East Carolina and Campbell College; and in dual meets with Wake Forest, April 27;

and Virginia Tech, May 4, in addition to the annual Carolinas' AAU title meet here May 18.

The schedule, announced by Athletics Director Roy E. Clogston, opened with a dual meet against the University of North Carolina at Chapel Hill yesterday.

On Campus with Max Shulman
(Author of "I Was a Teen-age Doctor", "The Many Loves of Dobie Gillis", etc.)

AMONG MY KINFOLK

My favorite cousin, Mandolin Glebe, a sweet, unspoiled country boy, has just started college. Today I got a letter from him which I will reprint here because I know Mandolin's problems are so much like your own. Mandolin writes:

Dear Mandolin (he thinks my name is Mandolin too), I see by the college paper that you are writing a column for Marlboro Cigarettes. I think Marlboros are jim-dandy cigarettes with real nice tobacco and a ginger-peachy filter, and I want to tell you why I don't smoke them.

It all started the very first day I arrived at college. I was walking across the campus, swinging my paper valise and singing traditional airs like *Blue Tail Fly* and *Death and Transfiguration*, when all of a sudden I ran into this here collegiate-looking fellow with a monogram on his breast pocket. He asked me was I a freshman. I said yes. He asked me did I want to be a BMOC and the envy of all the in crowd. I said yes. He said the only way to make these things happen was to join a fraternity. Fortunately he happened to have a pledge card with him, so he pricked my thumb and I signed. He didn't tell me the name of the fraternity or where it is located, but I suppose I'll find out when I go active.

She carried me to a chic French restaurant

Meanwhile this fellow comes around every week to collect the dues, which are \$100, plus a \$10 fine for missing the weekly meeting, plus a \$5 assessment to buy a headstone for Spot, the late, beloved beagle who was the fraternity mascot.

I have never regretted joining the fraternity, because it is my dearest wish to be a BMOC and the envy of all the in crowd, but you can see that it is not cheap. It wouldn't be so bad if I slept at the frat house, but you must agree that I can't sleep at the house if I don't know where the house is.

I have rented a room which is not only grotesquely expensive, but it is not at all the kind of room I was looking for. I wanted someplace reasonably priced, clean, comfortable, and within easy walking distance of classes, the shopping district, and San Francisco and New York. What I found was a bedroom in the home of a local costermonger which is dingy, expensive, and uncomfortable—and I don't even get to use the bed till 7 a.m. when my landlord goes out to mong his costers.

Well anyhow, I got settled and the next thing I did, naturally, was to look for a girl. And I found her. Harriet, her name is, a beautiful creature standing just under seven feet high and weighing 385 pounds. I first spied her leaning against the statue of the Founder, dozing lightly. I talked to her for several hours without effect. Only when I mentioned dinner did she stir. Her milky little eyes opened, she raised a brawny arm, seized my nape, and carried me to a chic French restaurant called *Le Clipjoint* where she consumed, according to my calculations, her own weight in chateaubriand.

After dinner she lapsed into a torpor from which I could not rouse her, no matter how I tried. I banged my glass with a fork, I pinched her great pendulous jowls, I rubbed the legs of my corduroy pants together. But nothing worked, and finally I slung her over my shoulder and carried her to the girls dorm, slipping several discs in the process.

Fortunately, medical care for students is provided free at the college infirmary. All I had to pay for were a few extras, like X-rays, anaesthesia, forceps, hemostats, scalpels, catgut, linen, towels, amortization, and nurses. They would not, however, let me keep the nurses.

So, dear cousin, it is lack of funds, not lack of enthusiasm, that is keeping me from Marlboro Cigarettes—dear, good Marlboros with their fine blend of choice tobaccos and their pure white Selectrate filter and their soft pack and their flip top box.

Well, I must close now. My pencil is wore out and I can't afford another. Keep 'em flying.

Yr. cousin Mandolin Glebe

Skip the sulphur and molasses— get a CHEVROLET SUPER SPORT

Chevrolet Super Sports* have a charm that soothes your springtime yen for romantic adventure as fast as you can slip into a bucket seat. (Especially the Impala's, with its adjustable new Comfortilt steering wheel*.) Front bucket seats are a great start, but Super Sports also feature plush all-vinyl interiors, special interior-exterior trim in tasteful touches, and a veritable feast of goodies we call performance options*. Chevrolet and Chevy II Super Sports invite adventure in convertible or coupe form. That same Super

Sport zing applies to the Corvair Monza Spyder, very breezy with its air-cooled 150-horsepower rear-mounted engine, and 4-speed shift*. Ditto for the new Corvette Sting Ray, a magnificent thoroughbred among pure-blood sports cars with not a single sacrifice in comfort. Both Spyder and Sting Ray come in coupe or convertible styles. All Chevrolet Super Sports are like spring days—you've got to get out in them to savor them. So catch yourself a passing zephyr and waft on down to your Chevrolet showroom.

*Optional at extra cost.

Models shown clockwise: Corvette Sting Ray Convertible, Corvair Monza Spyder Convertible, Chevrolet Impala Super Sport Convertible, Chevy II Nova 400 Super Sport Convertible. Center: Soap Box Derby Racer, built by All-American boys.
