Friends Sponsors Orchestra Here

"Friends of the College" at North Carolina State will present the Royal Philharmonic Orchestra of London, England, as the second program in its series at 8 p.m. tonight in the coliseum.

Since its debut in the U. S. more than a decade ago, the Royal Philharmonic has grown steadily in international stature. This will be its second coast-to-coast sell-out tour in our country.

At home it regularly appears in concert in both the Royal Festival Hall and the Royal Albert Hall, in broadcasts over BBC and in opera at the Glyndebourne Festival.

The Director of the orchestra, Sir Malcolm Sargent, has conducted every major symphony orchestra and choral society in Britain for the last 45 years. Sir Malcolm made his debut in this country in 1945 conducting the NBC Symphony and later the Philadelphia Orchestra.

Press

Ernie McCrary has been appointed Technician elections editor for freshman elections. Any candidate wishing to have material placed in The Technician should get in contact with him.

He will be in The Technician offices in the basement of the King Religious Center Sunday and Tuesday nights, and material may be left in the office for him at any other time.

Effects Of Honor System To Be Studied

By Cora Kemp

The SG Honor Study Commission will begin this week investigating the effects of the honor system here, according to Gerald Hawkins, representative to the commission from the Student Activities Office.

The commission plans to talk with several faculty members and students from each of the 35 academic departments to determine the advantages and disadvantages of the present system, Hawkins said.

Two departments, not yet named, will be looked into on a trial basis this week. The results will be critiqued by the five-member commission before the investigation is continued on a campus-wide basis.

The system now being used was started about seven years ago when the enrollment was about half the size it now is, Hawkins noted.

The system is based upon the honor code and the campus code which state that each student is on his honor to act as a gentleman at all times and not to lie, cheat, or steal. Each student is also required to report violations to the Honor Code or Campus Code Boards.

Each incoming student before he is allowed to register must agree to uphold the honor system.

"This system has been criticized numerous times," Hawkins said.

"The commission will probably alter the system or propose a new one at the completion of the investigation."

(See HONOR, page 6)

Young Americans For Freedom Organize

Ten Young-Americans-for-Freedom members have organized a YAF chapter on this campus.

The new Young-Americans-for-Freedom chapter met for the first time last night and adopted a constitution. Tom Buchanan, organizer of the chapter, was elected chairman, and Carey York became secretary-treasurer.

"The YAF is the fastest growing conservative youth organization in America," said Buchanan. Members of YAF profess that "liberty is the condition that exists under a limited government," he said. Members also profess that the only legitimate functions of government are the maintenance of national defense, security of internal order, and the administration of justice. Buchanan said that when government goes beyond these functions, the result is tyranny.

The chapter members consist of two graduates, three professional students, two seniors, two juniors and one faculty member.

YAF is politically non-partisan.

Welfare Committee To Read YAF Letter

Student Government may boast of its first known lobbyist.

Tom Buchanan, chairman of the newly formed Young-Americans-for-Freedom chapter on this campus, has mailed a copy of *Young Americans for Freedom's NSA Report* to each of the six members of the Campus Welfare

Committee. The Campus Welfare Committee is presently considering the advisability of disaffiliation of State from the National Student Association.

This lobbying movement is a project of the YAF campus chapter. The cost of the materials ran over \$10, the primary monetary sponsor being Willard Preussel, a member of the YAF.

Preussel explained the contents of the report: "It includes a lot of comments on the recent political actions of the organization (NSA), from the communist forces, which tend to favor them, to the conservative forces, which tend to oppose them. The report also takes the NSA strongly to task for its lack of internal democracy, the leftist leanings of its executive board, and its very poor services to the member schools. The report recommends that member schools withdraw from NSA wherever possible."

Three weeks ago a motion to disaffiliate with NSA was brought before the Student Government.

Posters Zilched

No posters on the outside surfaces of buildings are permitted.

This is the essence of a memo sent out to all student-operated campus organizations by the Student Activities Office.

Excepting election periods, a policy of putting posters only on bulletin boards has been maintained between poster-advocates and the Student Activities Office. In recent weeks, the office reported, this policy has been forgotten by some of these information spreaders.

The office emphasized that *The Technician* and WKNC will aid in disseminating information, which eliminates any need for posters, flyers, or handbills on the outside of buildings.

ROTC Sponsors Riflery

By Art Dumont

Riflery at State has taken on a new meaning.

Sgt. George Oakley, coach of the varsity rifle team, was surprised when 150 students signed up to try out.

For several weeks the basement of Frank Thompson Gym has been ringing with the crackling of 22 caliber rifle fire, directed at standard NRA small bore targets with the concentrated determination of each shooter. This resolution is usually accompanied with "verbal English" from the shooter.

(Ladies should knock before entering the rifle range!)

This year the varsity rifle team has 30 matches scheduled. With such students as "285 Goodman" and "Potential 300 Coffey" the outlook is optimistic. Last year's record was 21 wins and 1 loss.

Major Robert Wickham will lead the Army ROTC shooters on what he hopes will be a successful season.

Captain John Swaker, bearing no personal malice towards Major Wickham, intends to "shoot the pants off" the Army ROTC rifle team. Capt. Swaker

is leading the Air Force team. Because the varsity rifle team is a composite of the best Army ROTC, Air Force ROTC and civilian shooters available it saves its energy to out shoot any would-be-questioners on foreign soil—such as Carolina, who suffered a defeat at the hands of the team this past Saturday.

Shooters this year are: V. J. Goodman, G. R. Patton, P. L. Buckingham, C. A. Coffey, T. A.

(See ROTC, page 6)

Grad Money

Seniors and Graduates: The National Science Foundation might award you a fellowship.

NSF plans to award about 4,000 graduate fellowships and 185 post-doctoral fellowships for the 1964-1965 academic year in an effort to promote science. Applications must be in by December 16, 1963.

Applicants must be a citizen of the United States or a native resident of a possession of the United States; must be recognized as having graduate status by an institution of higher learning. Applications must be in by December 16, 1963.

Write to Fellowship Office, National Academy of Sciences-National Research Council, 2101 Constitution Ave., N.W., Washington, D. C. 20418 for more information.

Fitts Resigns To Head Study

Dr. J. W. Fitts has resigned as head of the Department of Soil Science to head a study of soil fertility in Latin America.

The Agency for International Development has awarded State a five-year, \$1,250,000 contract to conduct the study.

The purpose of the program, according to Dr. Fitts, is to bring together all existing information on fertilizer requirements of soils of the countries involved. All Latin American countries except Cuba, the Dominican Republic, and Honduras will be allowed to participate.

Dr. Fitts said all these nations must greatly increase agricultural output, and increase of fertilizer use is one of the methods to achieve this. He noted that most of these countries now use very little fertilizer, and a big part of the program will be soil studies to determine the kinds and rates of fertilizers which should be used. This information will be used by the AID to help pick locations for fertilizer plants in the countries. The study will employ seven full-time field workers. Dr. Fitts will head the program from offices here.

He stated that the AID came to State for the study because of its long experience in soil testing. The Soil Science Department has one of the outstanding soil testing programs in the country, he said.

Campus Coverage

"We must have some more staff writers if we are to continue putting out a first rate paper," says *Technician* Co-News Editor Doug Lientz.

And if his list of open jobs means anything, he is telling the truth.

He stated that he now needs students to cover the Schools of Education, Agriculture, Textiles, and Engineering, Student Government, Dormitories, Religious Activities, and international students.

He said these jobs will be given to any interested students on a first come, first served basis, and that the areas involved will not receive adequate news coverage until the needed staff writers are found.

Stating that no previous experience is necessary in order to get these jobs, he urged all interested students to come to *The Technician's* offices in the basement of the King Religious Center any Sunday, Monday, Tuesday or Wednesday night.

IDC Ball Sponsors

Sponsors for this year's IDC ball are, top left to right: Miss Lois Speaks for James Peate, IDC president; Miss Caroline Clement for Fred Barkley, vice president; Miss Judy Griffin for Jerry Jenkins, secretary; Miss Lynn Mooney for Carl King, social director; Miss Shirley Curtis for Cecil Curtis, athletic director; Miss Brenda York for Jim Gregson, Erdahl-Cloyd National representative to IDC; Martha Rivers for Sam Harrell, Ball Committee; Miss Montine Hall for Bobby Brummitt, Ball Committee; Miss Mary Louise Hanes for George Wallace, Ball Committee; Miss Beebe Stanfield for John McAuley, Ball Committee; Miss Jann Rodgers for Richard Billro, Ball Committee; Miss Nancy Durham for Stencil Roberts, Ball Committee.

On Bulletin Boards

Occasionally a small problem comes up which does not command enough interest to bring forth a solution.

Such a problem presented itself yesterday when confusion arose as to who has the sovereignty over the dormitory bulletin boards. Several candidates desiring to place campaign posters on the dormitory boards have been thwarted by zealous dormitory managers who have insisted that their boards not be used for such purposes. Other dorm managers apparently have consented to campaigning on the bulletin boards.

The consensus is that the dormitory managers have the right to control the board contents as they see fit. This may or may not be a good policy. But as it stands now, there is a great misunderstanding on the part of some candidates as to which bulletin boards can be used and which can not.

If all the freshman candidates choose to place a poster on each bulletin board, chances are that there will be no room for the usual necessary notices. On the other hand one might argue that student elections are as vital a part of campus life as any and deserve the use of the boards.

At any rate someone or something with proper jurisdiction should formulate a uniform policy and disperse the freshman bewilderment.

—AL

Let's Be Fair

Last week, it was suggested that the D. H. Hill Library should carry copies of the Chapel Hill and Greensboro student papers on its newspaper racks.

If the library carried papers from our sister institutions, it would be acting unfairly.

The Technician, a paper of more social significance to the NCS student, is not presently available upon the newspaper rack.

It would be an excellent idea if the respective student papers from our sister members of the Consolidated University were displayed. Students would be provided with available information about what is going on on the Chapel Hill and Greensboro campuses. It would be assumed, of course, that the other campuses would perform similar services.

All *The Technician* asks for is equal representation.

—GB

Can't Make It

Madame Nhu spoke at State, Governor Wallace spoke at Duke.

Carolina has been trying for over a month to get Jesse Helms to speak on their campus.

Some have it—some don't.

Minature Globe Theater Is Now At Home In The English Building

By Cora Kemp
At last the Globe has found its proper place.

The replica of Shakespeare's famous playhouse, situated in the D. H. Hill Library for 10 years, is now in Winston Hall, the English building.

"The model of the Globe Theater is the best south of the Folger Library in Washington. It is one of the best in the entire country," according to Dr. Lodwick Hartley, head of the English Department.

Built by Mrs. Katherine A. Edsall, former head of the Circulation Department at the library, the theater is made of wood and has a thatched roof. It is decorated with colorful curtains and velvet seats.

Mrs. Edsall designed the theater after the specifications set by Dr. J. C. Adams, author of a book on the theater and published in 1943.

She was assisted by several students and two janitors. "I couldn't do all the labor with the wood myself," she said. She began the theater around Thanksgiving in 1952 and completed it at Easter, 1953.

Mrs. Edsall has been a lifelong admirer of Shakespeare.

"When I came to work at the library in 1945, I was delighted to find that the Shakespearean course was being taught (now

English 485)," she said.

"I built the theater primarily for Dr. Hartley and the English students," Mrs. Edsall said.

The model was kept on the third floor of the library. Mrs.

Edsall invited high school and college students to see it.

"The Meredith College girls came by once," she recalled. "They spent hours setting up various plays they had been studying."

Upon retiring in December, 1961, Mrs. Edsall left the theater in the library. "I really hadn't expected it to last but three or four years when I built it," she said.

This summer, Dr. Harlan Brown, director of the library, and Dr. Hartley agreed to move the theater to Winston Hall.

Located in room 12, the theater is now available to all classes in which Shakespeare is taught, according to Dr. Hartley.

The original Globe Theater stood in London from its construction in 1599 until it was burned in 1613 during a performance of Henry VIII. It seated around 2,000 people.

The theater had five stages and a heaven and a hell, all of which are included in Mrs. Edsall's replica.

The admission price of an ordinary peasants' ticket was a penny.

THE GLOBE THEATER

"Cleopatra" Set At RLT

Students may now purchase tickets to the East Carolina Playhouse production of *Antony and Cleopatra*.

The play, to be presented at 8 p.m. on October 26 in the Raleigh Little Theater is the most magnificent of all Shakespeare's plays, critics have said.

The East Carolina Playhouse production will take full advantage of the opulence of the locales in which the various scenes take place.

Special music for the production is being composed by Conrad Soussa, a young composer who has written music for numerous Shakespeare plays.

Interested students may obtain their tickets at the main desk of the Erdahl-Cloyd Union.

Editorial Is Shot At By Prexy, While Gag Law Gets Much Praise

To the Editors:

It would appear that when you write an editorial you would be especially careful of the facts you use. It seems that your chief aim is to gain influence by one minute praising a group and the next minute slandering their every effort to improve or facilitate their operations. I assure you that your present methods are in vain.

Contrary to your editorial, Student Government handled the Wednesday night unguided tour entirely by itself. It is true that administration officials were on hand, but only at the request of Student Government in an observation capacity. I can assure you that there was no active assistance by them.

You seem to delight in exaggerating a situation when you feel that only your side will be heard. The Freshman election books were put at the Union Main Desk because the Student Activities Office in Peele Hall could not handle them with three staff members absent. In fact, the entire Union is officially considered a division of Student Activities.

We in Student Government admit we make mistakes. But it seems that you delight in bringing trifling errors to your editorial page. You should learn to get your facts straight before you lambaste anyone.

You may hide behind the shield of editorial freedom as long as you like, but someday you will have to lay it aside and walk out into the world. Any

announcements that you allow to be printed in *The Technician* necessarily reflect on the caliber of leadership at its helm. Some of your announcements have not necessarily been in the best interest of our University. You, as an editor and campus leader, should use discretion in anything you print, whether by your hand or not.

It seems that when you cannot find enough topics to fill your editorial column, you always turn to Student Government. I can assure you that we can weather your storms of protest. This campus is truly a University, and there are many areas that you could be concerned with that are presently passed over. You have a great opportunity to serve our students. I urge you to use it wisely.

John Bynum
SG President

To the Editors:

After reading the October 16 issue of *The Technician*, and finding no article favoring the "gag law," I assume that I am in the minority as far as views toward the issue are concerned.

For once the legislature passes a bill that is aimed at protecting the people and all at once everyone decides that their rights are being taken away.

Bill 1395 is not a sign of distrust of students or of our educational system; it is not an intrusion into our system; it is

not an effort to limit our liberty in the pursuit of information.

It is simply a measure to help prevent the spread of Communism, a cause that has sworn to eventually overthrow our entire governmental system. This threat is the thing about which we should be concerned. In the first place, the Communists have no business in the United States, and they certainly have no business lecturing here.

Even the freedom of speech can be carried to an extreme, and if allowing an enemy to advance his cause is not an extreme, there is not one. Even if a Communist speaker makes no direct statement concerning Communistic ideas, there is still a silent influence exerted upon the listeners.

It seems to me that the issue is with the principle more than with any particular instance or example. Consider the parable of the bushel of apples. If one apple begins to decay, the apples that are in contact with it will also spoil unless the original bad apple is removed. Bill 1395 is the means by which the legislature intends to remove the "bad apple," or in this case, "bad apples."

I'm glad that there is some action being taken on the state level of government to combat Communism. It appears that the fault lies not in the fact that the bill was passed, but in the fact that it was not passed sooner.

John F. Freeman, Jr.

"Who put that spear in my bed?" wails Corinne Rickert who plays Cleopatra in the East Carolina Playhouse production of *Antony and Cleopatra*.

Concrete Campus Coming Soon

Grass Walking Seems Doomed

By Doug Lientz

Once upon a time somebody made up a joke about covering his lawn with concrete so he would not have to take care of it.

And apparently the Physical Plant read it. At least that has been their solution to several of the cowpath problems on this campus.

The area west of the Student Supply Store was considered to be a sore point on the campus up until two years ago. Now it is covered with brick walks.

Many students think the area around Harrelson Hall is now the worst part of the campus as far as cowpaths and lack of sidewalks are concerned. The Physical Plant announced that

it intends to pave most of this area in a landscaping program to take place later this year. The rest—the few places in this area that the student body has not worn a path across—will be left for grass.

The same plans would appear to be true for the area in front of the new Snack Bar planned for the Berry Bagwell Becton Quadrangle. This is the impression given by the architects rendering of the proposed building.

This is the beginning of what may be the future State University Campus of the future. Solid brick walks may one day surround a School of Agriculture building in which some noted scientists discover a way to keep a grass covered area looking good no matter what treatment it receives.

And this is what could cause the scenes above. Students have a way of trampling down the grass so that not even the Physical Plant can keep it growing.

State Hands Davidson Its First Soccer Defeat, 2-1

By Ismail Misirli
Previously undefeated Davidson became the sixth victim of the State soccer team Monday afternoon. The 2-1 Wolfpack

victory marked the first time in history of N. C. State that its soccer team has won as many as six games in one season. The victory followed a 2-1

loss to Carolina last Friday. Davidson had defeated the Tar Heels last week and were picked as one of the strongest teams in the Southeast.

The Pack started the game with a fast pace and after 7:20 of action, right inside Jaime Ferrand scored the first goal. The quarter ended with the Wolfpack pressing for a second score.

In the second period, Davidson took the initiative and pressed hard for a score. State goalie Halis Alkis played his best game of the season to stop many would-be Davidson scores. The home team did convert in the third period to tie the score at 1-1.

During the final period, both teams tried hard to score against the two strong defensive units. Neither was successful until, with 1:20 left in the game, State captain Benito Artinano connected with the winning goal over the goalie's head.

Finals Near In Fraternity Ball

As regular season action in the intramural fraternity football league nears completion, some teams are still fighting for play-off positions. With one week remaining, only two sections have produced their representatives.

Of the four teams in Section #1, only Sigma Pi is sure that it will not be in the play-offs. In Monday's action, Delta Sigma Phi defeated Sigma Pi 20-0. Tom Bare passed to Ron Steel for all three Delta Sig scores, covering 10, 15, and 19 yards.

In the other Section #1 contests, Pi Kappa Phi defeated Pi Kappa Alpha 12-6. Huggins threw to Martin for the two PKP scores while Morrison tossed to Wrenton for the Pika TD. When the clock ran out, pass interference was called against PKP on a PKA pass into the end zone, no points were awarded and the play is being protested.

Section #2 leader, Sigma Phi Epsilon, suffered its first loss of the season at the hands of an inspired Theta Chi team, 12-0. Dello Stritto threw for both Theta Chi scores, receiving were Kirkman and Wilson. These two teams will represent the section in the play-offs.

Kappa Sigma scored in the final period to take a 7-0 win over Alpha Gamma Rho. The

only score of the contest was a 29 yard pass from Cooke to Seawright.

Sigma Alpha Epsilon remained as one of the two undefeated teams in the league with a 6-0 squeaker over Lambda Chi Alpha in Section #3. Penninger provided the only score of the contest with a one yard plunge into the end zone. Both teams showed strong defensive abilities by holding their opposition at the goal on previous occasions.

The other Section #3 game, Kappa Alpha edged Tau Kappa Epsilon 6-0. KA managed to win the contest with a pass from Ferrell to Barns, only 31 seconds remained in the game. TKE threatened late in the game, but could not score. TKE's Goodnight played outstanding defense. Sigma Alpha Epsilon and Kappa Alpha are Section #3 play-off entries.

In Section #4, Phi Kappa Tau kept its record clean with a 7-0 win over Sigma Alpha Mu. The PKT's are also undefeated in league action. Sigma Chi gained a tie for second place in the section with a 13-7 victory over Sigma Nu. Trailing 7-6 since the first period, the fourth quarter score put Sigma Chi ahead 13-7. PKT and either Sigma Nu or Sigma Chi will represent Section #4 in the play-offs.

Fraternity Standings

SECTION #1		SECTION #3	
Delta Sigma Phi	3-1	Sigma Alpha Epsilon	5-0
Pi Kappa Phi	3-1	Kappa Alpha	4-1
Pi Kappa Alpha	3-2	Lambda Chi Alpha	1-4
Sigma Pi	0-5	Tau Kappa Epsilon	0-5
SECTION #2		SECTION #4	
Sigma Phi Epsilon	4-1	Pi Kappa Tau	5-0
Theta Chi	4-1	Sigma Nu	3-2
Kappa Sigma	2-3	Sigma Chi	3-2
Alpha Gamma Rho	0-5	Sigma Alpha Mu	1-4
		Farm House	0-5

They helped make a major advance in medical technology

...yet there's not an "M. D." in the house

These six men were members of a team that developed an x-ray system so advanced that, even with exposure to x-radiation reduced by 80%, images come out much sharper on the diagnostician's viewing screen. By bringing to the task the unique talents, experience, and educational background of each member, this team of experts has made it possible for radiologists and physicians to do a better job of medical diagnosis.

Of these six men from General Electric's X-Ray Department, Milwaukee, four have degrees in engineering, one majored in physics and math, and the sixth in economics. Not one was trained primarily in medical science—although, of course, their Department works closely with the medical profession. Nor did any of them anticipate, when in college, that their major subjects would be put to use in providing improved tools for diagnostic medicine. But they did recognize—as their record shows—that better-than-average performance could qualify them for challenging jobs with a forward-looking company like General Electric.

There are hundreds of such teams at General Electric today. Their make-up varies, and almost every field of specialization, technical and non-technical, is represented somewhere in the Company. The projects are just as varied: nose cones for missiles, desaliniza-

tion of sea water, computers, or power plants to squeeze more electricity from a pound of coal or a gram of atomic fuel.

The more than 36,000 college graduates at General Electric comprise one of the largest and most varied pools of talent in the nation. But the Company's future is, in many ways, wrapped up in people still in school and college. As projects increase in size and complexity, so will the need for able young people. People who demonstrate, through their college record, the best use of their educational opportunities, who know the meaning of excellence, who understand the differences between specialization and narrowness, breadth and shallowness. Such people, working together, will make up the teams of the future, and be the architects of what we call progress.

The team (left to right): Jerry E. Rich, Georgetown College, Ky., '53; Robert J. Mueller, Marquette, '44; William A. Mayer, Univ. of Calif., '47; John P. Kelley, R.P.I., '47; William G. Waggoner, West Va. Univ., '33, Pratt Inst., '37; Arthur Pruneau, Univ. of Vermont, '52.

Progress Is Our Most Important Product

State, Rossi Lose Ground In ACC Statistics Race

By Martin White

Not only did the Wolfpack lose in every statistic of the Carolina contest (?), but they also lost ground in all of the six major statistics in the ACC.

The biggest loss was in the rushing defense department where the Pack went from fourth place to the number seven position, leading only Wake Forest. In total offense and pass offense, State dropped from third to fifth place.

Things were just as bad in the defensive statistics. In total defense, the Pack fell three notches, from third place to sixth place. In rushing defense, second place gave way to the number four position; and in passing defense, sixth place replaced the fifth position. The Wolfpack simply exchanged

places with the Tar Heels in rushing offense and defense.

State quarterback, Jim Rossi, who led the ACC in total offense and passing during the first four weeks of action, lost these positions in the fifth week. Maryland's Dick Shiner replaced him in both categories as Rossi dropped to second place. Rossi currently has 599 total yards and has completed 46 passes. Shiner has totaled 624 yards and completed 53 passes. Rossi's 58% completion is still high for the conference for backs with more than 25 attempts, Rossi has connected on 46 of 78 attempts.

Prior to the October 19 tragedy, Rossi led the ACC in yards per play with a 5.9 average. This week his average dropped to 4.8 yards per play.

The number one position in this division was taken over by Carolina's Gary Black, currently holding a 6.1 average. State's Pete Falzarano is fourth in the ACC in rushing yardage per play with a 4.7 average.

Statistics from the Carolina game show that the Tar Heels' 31 points was eight more than the 23 points totaled by State's first four opponents.

Open League Football

Defense is the key word to describe the action in open league football action. In the two contests played last week, only one point and 40 yards separated the two winners from the two losers.

The closest of the two games saw McKimmon Village defeat Wesleyan Foundation by 40 yards, the final score being 5-6. Both touchdowns in the contest came in the second period.

In the other game, Pershian Rifle #1 edged by Pershian Rifle #2 by an 8-7 score. Green scored on a one yard run for the #1 team while Moss took a scoring pass from Nance for the #2 team's TD. The tying and winning points for #1 resulted from a touchback when Bridges caught Nance in the end zone. All scoring came in the final period.

Intramural Volleyball Ends Second Round

By Ralph Prestwood
Intramural volleyball moves into its third week of action with last years fraternity champions, Sigma Phi Epsilon, being downed 2-1 by Sigma Chi. In

dormitory games, the reigning champs from Becton opened their season with a two game sweep over Bragaw #1.

Fraternity

In the other fraternity games, Farm House took two games from Alpha Gamma Rho while holding them winless. Delta Sigma Phi won the first and third games in a series with Lambda Chi Alpha by scores of 15-7 and 15-10. Theta Chi romped over Kappa Alpha, 15-1 in the first of two wins. Phi Kappa Tau also took two easy decisions (15-3 and 15-11) from Sigma Alpha Epsilon. Sigma Pi squeezed by a tough team from Sigma Alpha Mu with scores of 16-13 and 15-9 in two of three games. In seven o'clock action Tau Kappa Epsilon won the first two games from Pi Kappa Alpha. Sigma Nu stormed by Kappa Sigma, 15-8 and 15-7, after losing the opening contest 17-15.

Dormitory

In the dormitory league, Watauga tromped Bagwell 15-8 and 15-3 in the first two games. Alexander repeated the action by taking 15-11 and 15-9 decisions over Turlington. Becton followed the action of the night and spiked Bragaw N #1 with scores of 15-8 and 15-3. Owen #1 and Bragaw N #2 fought out three close games with Bragaw emerging the victor. Bragaw S #2 came back to win two straight games from Tucker #1 after being downed 15-13 in the first. Berry won two easy decisions over Syme, 15-5 and 15-10.

Bragaw S #1 showed their power by downing Tucker #2 in the first two games, 15-3 and 15-7. Owen #2, last years runners-up, continued on their winning streak by taking two close decisions from the Welch-Gold-Fourth spikers.

Notices

Registration for physical education courses in the last half of the semester will begin Monday, October 23, for Sophomores and upper classmen; others will register Tuesday and Wednesday. Registration time is from 7 a.m. until 5 p.m.

Creative
ENGINEERS
and
SCIENTISTS
are needed
NOW!

GD/FW is currently engaged in many outstanding projects involving atmospheric and space vehicles and systems. Energetic, creative engineers and scientists are needed now, to help solve the intriguing problems involved in our many ambitious programs. ■ To take advantage of the opportunities offered, contact your Placement Director, to determine when a General Dynamics/Fort Worth representative will be on campus, or write Mr. J. B. Ellis, Industrial Relations Administrator-Engineering, General Dynamics/Fort Worth, P. O. Box 748, Fort Worth, Texas. An equal opportunity employer.

Campus Crier

The Visiting Committee of the Board of Trustees is scheduled to visit North Carolina State on November 1, 1963. Any student who wishes to appear before this Committee in private should see John A. Bynum, President of the Student Body, or come by 204 Peele Hall to make an appointment. All appointments must be made by October 30th.

A bicycle which was lent to a student has not been returned. Anyone who knows about this bicycle please call TE 3-6323. There is a reward offered for finding it.

If any student is interested in having a pretty, red-brown dachshund contact Mrs. Crawford, 2132 Cowper Drive by calling 833-8165. The dog is one year old and has all the proper shots. Mrs. Crawford says that the dog is nervous around children.

The soccer team will play Belmont Abby on Thursday at 3 p.m. on the upper intramural field.

Off Limits

Syme's bulletin boards are "out" for campaigning freshmen.

Bill Bromby, Syme's dormitory counselor, announced last night that bulletin boards inside the dormitory could not be used for campaign posters.

Bromby stated that one candidate had not asked permission in putting up posters in the dormitory, and that he had covered other posters in doing this. "It was decided to not let any posters on the boards", Bromby explained. He added that posters were still allowed on the outside of the dormitory.

Ron Stinner, chairman of the SG Elections Committee, explained that usage of bulletin boards was left up to the individual counselor, school, or owner of the bulletin board. "The candidate has to get permission to use the board before he can do so," he pointed out.

100% CAMEL HAIR

From Scotland comes this luxurious saddle shoulder pure camel's hair sweater. True rich camel color or dyed camel's hair in Navy or wine. 25.95

2428 Hillsboro

A white button-up sweater has been lost by Norwood Thompson. He left it on a car in the parking lot behind the new Cafeteria on October 11. If anyone knows the whereabouts of this sweater, please contact Thompson in 313 A Bragaw or call TE 2-6205.

The Highway Patrol lost a walkie-talkie radio valued at \$650 on Saturday night out by the Fair Grounds. The patrolman put the radio down by the side of the road when he went to assist a motorist. When he returned, the radio was gone. Whoever found it, please return it to:

Capt. Richard H. Chadwick
Patrol Station
Raleigh, N. C.

Lost: one copper colored key to a mail box. Engraved on the key is "St 1." Reward is 50¢. Please contact occupant of Room 1 in the Stadium.

Candidates Disqualified

Twenty-five candidates for the freshman elections have been disqualified.

Ron Stinner, chairman of the Elections Committee, has announced that the following candidates have been subject to disqualification from the fall elections by the Rules Committee of the Student Government. The reason for their disqualification is their absence from the meeting for all candidates which was held on October 21. These prospective candidates failed to present a written excuse for their absences, according to Stinner.

The candidates are: Charles Thomas Miller, Wade Latham Higgins, Joseph Edgar Vinson, Henry Calvin Broadwell, James W. Pfefferkorn, Kenneth L. Kagan, Raymond R. Bouley, Thomas K. Lewenenz, Frank C. Rozzelle, Judy R. Parrish, George B. Butler, Robert J. Latiano, I. Stephen Kutner, Edward E. Evans, Samuel J. Gantt, Richard W. Stenhouse, James M. Ephland, Frank C. Dorman, Charles M. Page, Robert S. Corry, Jeffrey S. Kohl, Kenneth L. Ripley, Rodney T. Farlow, James R. Haviland.

YMCA Conference

The Orange Bowl Game will climax the Southern Student YMCA conference set for Miami Beach during the Christmas Holidays.

The conference will be held in the Di-Lido Hotel from December 27 to January 1. The program for the conference includes a number of speakers, and the Orange Bowl game on January 1, according to YMCA President Garland McAdoo.

For further information contact the campus YMCA. According to McAdoo, the conference is open to all interested students and faculty members.

NOTICES

(Continued from page 5)

State's soccer team will meet Belmont Abby Thursday at 3 p.m. The Wolfpack will be looking for its seventh win of the season to become the first soccer team in the school's history to have a winning season. Their six wins is already a record.

ROTC

(Continued from page 1)

Eaves, E. C. Lee, R. McCoy and M. M. Mottern. All will be trying to break the range record held by Thomas Stanley Bumgarner who scored a 291 last year.

HONOR

(Continued from page 1)

Hawkins encouraged students of all curricula and classifications to contact their department heads or members of the commission concerning their feelings on the honor system.

Pete Lesslie, vice president of Blue Key Honorary Fraternity, is chairman of the commission. The members include Bob Shearon, Honor Code Board chairman; Steve Henderson, Campus Code Board chairman; Cynthia Johnson, Woman's Campus Code Board chairman; and Oscar Walker, student representative.

ARROW buttons-down a student of Oxford

From prof to frosh knowledge gets around... and the latest is the new Decton Oxford by ARROW.
