Honor Study Halts Probe Temporarily

The SG Honor Study Commission will temporarily wind up its investigation of the honor system next week.

The commission will hold meetings with the Departments of Sociology, Physical Education, and Philosophy and Religion prior to final exams. The meetings will be resumed in February.

Tentative plans call for concluding the campus-wide investigation in early spring. Following exams, the commission will have to investigate departments in two more schools, the Schools of Engineering and Agriculture, according to Gerald Hawkins, assistant director of Student Activities.

The schedule for the remainder of the semester is as follows:

Thursday, January 9	Department of Sociology
7:30-8:30 p.m.	Erdahl-Cloyd Union
Friday, January 10	Department of Physical Education
9:00-10:00 a.m.	Carmichael Gym
Tuesday, January 14	Department of Philosophy and Religion
3:00-4:00	Room 343 Harrelson Hall

Senators To Resume NSA Debate Tonight

Student Government debate on the National Student Association will resume tonight after a lapse of one month.

Student Government was in the midst of debate on NSA December 12 when Senator French moved that further discussion be deferred until January 9. The body had been debating for one hour at the time of French's motion.

When French made his motion, Terry Lowder, NSA Coordinator, and Beckton James (Sr., Eng.), were embroiled in a floor discussion with Treasurer Herb Goldston and Steve Johnston (Jr., PSAM) as to whether or not the Coordinator should be elected. The former pair wanted to leave selection of the NSA head up to the stu-

Ten Non-credit Courses Given By Extension

Ten non-credit courses will be offered by the Division of General Extension during the spring semester.

The courses will include art painting, estate planning and taxation, interior decorating, income tax, photography, speed reading, woodworking, glass blowing and a review class for the North Carolina Engineering Registration Examination.

Registration will be in the Extension Office in the 1911 Building prior to the spring semester.

Caldwell Fund Aided By Creole Foundation

The Creole Foundation has awarded State a grant of \$500 in recognition of the attendance of a Venezuelan student at the institution.

The Creole award will be applied to the Catherine Zeek Caldwell Memorial Fund to provide small grants and loans to deserving foreign students who encounter unexpected financial difficulties, according to Chancellor John T. Caldwell.

The foundation is providing a scholarship at State for Pablo F. Schick, a senior in mechanical engineering from Caracas, Venezuela. Schick ranks in the top four per cent of his class at the University.

The Creole Foundation was established in 1956 by the Creole Petroleum Corporation, an affiliate of the Standard Oil Company of New Jersey, to support educational, scientific and cultural activities in Venezuela.

Four Nominated To Fill IFC Vice Presidency

The Interfraternity Council yesterday nominated four replacements for Bob Steinberg, present vice president who will resign at the end of this semester.

The election meeting is scheduled for next Wednesday at noon. "An election during the middle of the year was necessary because Steinberg will graduate at the end of this semester," said Jack Watson, IFC president. The four names which were submitted were Allen Tottill (Delta Sigma Phi), Bill Lane (Sigma Nu), Chet Penninger (Sigma Alpha Epsilon), and Nubby Coleman (Kappa Sigma).

The newly elected officer serves on the IFC Executive Committee and is responsible for heading up plans for Spring Greeks, by far the most important social event under the auspices of the IFC.

Physicist Manring Joins NCS Staff

Dr. Edward R. Manring, a member of the staff of the Geophysical Corporation of America and outstanding scientist who gained international fame for his studies with great sodium vapor clouds in the upper atmosphere, joins the NCS faculty this month.

Dr. Manring's appointment brings the total Ph.D.'s in the department to 17 out of 25 full-time faculty members, and follows by about four months the appointment of Dr. Dudley Williams as head of the department. Both Williams and Manring worked together at Ohio State University during the 1950's. Williams joined the State faculty September 1, coming from Ohio State University.

As a chief physicist for the Geophysical Corporation, Manring made the first satellite studies of micro-meteorites with the launching of the United States' first satellite, the Explorer I. Dr. Manring's work involved the development of instrumentation to accumulate meteorite data from Explorer I and to record it.

Dr. Manring obtained his Ph.D. from Ohio State University in 1953 and joined the Air Force Upper Atmosphere Research Center at Cambridge, Mass., and was in charge of its observatory at Sacramento Peak in New Mexico for a number of years.

His studies with sodium vapor clouds were for tracing and obtaining data on the winds of the upper atmosphere.

He is a member of the American Physical Society, the American Geophysical Union and the American Men of Science.

Tobacco Bowl Site To Be Named Later

The Tobacco Bowl Association has expressed confidence in its plans to institute a major post-season bowl game in this area.

The first such game is scheduled for December 19 of this year at a site to be determined later, according to Rev. Wayman Pritchard, treasurer of the association board of directors.

The Raleigh Times quotes Pritchard as describing the new

venture as "a good, sound, logical endeavor."

Pritchard, William J. Johnston, and Lewis Patton, all of Raleigh, and John I. Barnes of Clayton represented the TBA at the NCAA meeting held this week in New York and received NCAA approval for the game. The TBA now reportedly has the backing of both the ACC and the NCAA.

The NCAA specified that \$100,000 in ticket sales must be on deposit 30 days prior to the game for the protection of the participating teams. Each participating team is to be guaranteed \$50,000 for playing in the bowl.

The association figures that only 20,000 tickets need be sold to cover the minimum, and estimates a total draw of around 60,000 for the game.

Television bids for the game will be taken in March with the prospects of a national participation by a national network good, according to Pritchard. The NBC contract with the Liberty Bowl expired this year.

Pritchard has indicated that a decision on a site for the game will be forthcoming within the next month following discus-

sions with the Big Four schools for the use of their facilities.

State Athletic Directory Roy Clogston and Sports Information Director Frank Weedon were unavailable for comment last night on the possibilities of State's participating in the new bowl and the possible use of State's proposed new stadium for the event.

The Tobacco Bowl Association will apparently seek an Atlantic Coast Conference team to play host for the event, although no definite agreement has been made. Pritchard has indicated that the TBA will "seek the best teams to participate, but since this will be a North Carolina event we want to stick close to home in selecting one team."

Starlite Club To Stage Dance Before Finals

The Starlite Club, State's equivalent of an on-campus night club, will stage a pre-exam dance Saturday night at the Erdahl-Cloyd Union Ballroom.

A dance band, yet to be named, will be on hand, according to Rosina Coburn, chairman of the Union Social Activities Committee.

Couples only invited to attend the semi-formal affair. The club will open at 8 p.m.

The Starlite Club is sponsored sporadically throughout the school year by the Social Activities Committee.

'Young Alum Award' Initiated By Alumni

The Alumni Association has established an "outstanding young alumnus award" to be presented for the first time in 1964.

According to Alumni Association President M. Edmund Ay-

cock, the award will be presented to an alumnus under the age of 36 who has contributed to his community, profession and to the general welfare of the country.

Aycock said any State alumnus will be able to nominate candidates for the award. A committee named by the Association will make the final selection from the nominations made.

In announcing plans for the award, Aycock noted that more than half of the State alumni are graduates of the past 14 years and that it was felt that programs should be initiated to create more interest among this group in the activities of the association.

Business Office Appoints Two

The Business Affairs Office has announced two new appointments to the Contract and Grant Offices here.

Dr. W. L. Turner announced the appointment of G. E. Musser as the contract and grant officer in the Office of Business Affairs at North Carolina State. Musser is a Raleigh resident who graduated from the University of Pittsburgh and is a CPA.

Also announced was the appointment of B. E. Kent as contract and grant accountant. Kent is a graduate of Wichita Business College where he majored in business administration and accounting.

According to Dr. Turner, the dollar value of contracts and grants now in force at the University is \$10,861,000. He said most of this is federal money, coming from such agencies as the Defense Department, Public Health Service, National Science Foundation, Atomic Energy Commission, National Aeronautics and Space Administration and others.

Windy City Dance

A dance troupe from the "Windy City" will appear here Wednesday courtesy of the Friends of the College. See story, page two for details.

Teaching Exam Date One Week Away

The deadline for prospective teachers who plan to submit applications to take the National Teacher Examinations February 15 is just a week away.

The applications are due January 17, according to Dr. L. B. Rogers, director of Counseling. The applications should be submitted to the Educational Testing Service, Princeton, N. J.

The one-day testing session has two phases: the common

examinations which include tests in professional information, general culture, English expression, and nonverbal reasoning and the optional examinations which are designed to testing on a particular subject.

Candidates for new or raised North Carolina teaching certificates are required to take both the common exams and one of the optional exams if one is offered in his field.

Throckmortimer

One Lens Rose, The Other Brown

The beginning of a new year and the ending of a semester is probably the best time to look back over both the semester and the year and to offer some comment on the direction in which the campus seems to be heading. This movement comes as a result of goals set by individuals and trends which occur, both of which shape the eventual result.

This will be a discussion of two of these overall changes as they affect the student body, the faculty, and the administration. A subsequent editorial will discuss the student leaders and organizations and their roles in shaping these changes.

The student body; as a whole appears to be willing to shoulder more and more responsibility. Two glaring exceptions this semester were the irresponsible actions which occurred during the first New Arts concert and the "bomb scares", one of which happened while the peace marchers were here.

The acceptance of New Arts, the following of the football team, and the high overall interest in all campus programs indicates that students more and more are not merely content to sit in their rooms and study until the weekend comes, then pack their bags and go home. This recognition of another side of life which is commonly termed the "fine arts", seems to indicate that we can anticipate technical graduate in the future who will be capable of understanding his role in government, and can appreciate the fine arts to the fullest of his abilities.

With the eventual growth of a liberal arts school at State will come the responsibility of graduating liberal arts students who are aware of the role of the technician in our society. The fulfilling of both of these roles is a challenge which the university must meet in order to become a true university.

This continuing growth is something which the administration and faculty are coming to terms with. The expansion of facilities, the institution of pre-registration, the constant changing of curriculums, shows that the University is anticipating and coping with these problems.

Yet, with every expansion and every change comes a greater dehumanization of the administration and faculty. The student is no longer an individual, but a face in a long line of other faces, a name in a gradebook, a certain amount of money in the Business Office.

This lack of individuality has long been accepted as inevitable. But in accepting this, we are violating the principles upon which this institution was founded. The training of the individual to the best of his individual ability is the paramount objective of any school and is particularly that of a state school.

A solution to this problem might begin if the administration were to look at what might be demanded of them if they were in a highly competitive business, and if the faculty were to look beyond the advisor system which we presently have.

There is no easy answer to this problem, and the responsibility is not just up to the administration and faculty, but should be the concern of every student, because it is the student who loses the most by this arrangement.

Represented for National Advertising by NATIONAL ADVERTISING SERVICE, INC., College Publishers. Representative, 18 E. 50th Street, New York, N. Y.

Entered as second class matter, February 15, 1920, at the Post Office at Raleigh, North Carolina, under the act of March 3, 1879. Published every Monday, Wednesday, and Thursday by the students of North Carolina State except during holidays and exam periods. Subscription rate is \$5.00 per school year.

Circa 1935
Alumni Protest Bell

In 1935, about the time that the Techs of North Carolina State College were preparing to meet the rampaging Tar Heels of UNC, alumni of NCS were up in arms over the possibility that the steam plant whistle might be replaced by bell.

THE WINNAH!

The controversy arose when Col. Bruce Magruder, commander of the State ROTC inquired into the possibility of obtaining the U. S. S. North Carolina's bell for use here. Magruder got the bell and a heap of trouble with it.

When word spread among the alumni that the steam plant whistle, used at that time to signal the end and beginning of classes might be supplanted by a bell, their shrieks of anguish were heard far and wide. Comments ranging from "the College whistle has something he-mannish about it" to "change from whistle to bell would mark the retrogression of the institution's rating from that of an outstanding college to grammar school status" were heard. As Hall Morrison, Jr., managing editor of *The Technician* put it, "The burning question among students and alumni alike is, Which shall it be, whistle or bell?" But, just as pickets could not retard progress last spring, the

alumni could not stop the bell, because today it is perched atop Withers Hall. Or at least, most of the oldtimers believe that it is the same bell—nobody knows for sure.

BSU Party Funds To Help 'Listen'

The State Baptist Student Union will sponsor a "Party for LISTEN" Saturday night.

There will be a three-dollar cover charge per couple which will go directly to the "Love Impels Sacrifice Toward Every Need" fund, according to Maurice Todd, BSU publicity director.

The party will be held in the lower level of the home of F. Carter Williams, a Raleigh architect, Todd said. A stereo system will be available for dancing and two folk singers will be in attendance.

The party begins at 7:30 p.m. Leroy Richardson, BSU chaplain in the YMCA, will arrange transportation for those who need it, according to Todd.

"I'LL BE GLAD WHEN IT'S OVER..."

The tension mounted among both the old and the young during the double overtime game that sent the Wolfpack to a close defeat from the Italian Olympic team Monday night. For details on the latest defeat, see page three.

Peaches 'N' Cream

Symites, what's with you? Why the sudden crush on sliced peaches and cracker jacks? Or is this your regular diet?

Photographer Bill McCallister, who lives in Syme Dorm, discovered the stack of boxes in the hall early one morning, wasn't sure he was awake, so he snapped the photo with his trusty camera, and sure enough, his 2 a.m. vision wasn't fooling him.

What really bothered him was that empty box of Ajax. He wants to know who's been eating his cleanser.

(Photo by Sudy McCallister)

A TASTE OF 'CARMEN'

This scene from Ruth Page's adaptation of "Carmen" is typical of the offerings being brought to the State campus next week as the Friends of the College present the Chicago Opera Ballet. There will be two performances in the Coliseum Wednesday and Thursday evenings. Students whose last names begin with letters A-M may attend the January 15 performance free with their dates. Students whose last names begin with the letters N-Z may attend the January 16 performance.

Pack Loses Third In Row To Virginia

By Martin White

The Wolfpack lost its third straight contest Wednesday night by dropping a 66-53 score to the Virginia Cavaliers.

State, winless since returning after the holidays, led only once in the contest at 19-17 midway in the first half. The Cavaliers quickly overcame this deficit and went on to take a 12 point lead at halftime, 37-25.

During the first five minutes of action in the second half, the Wolfpack rallied to close the gap to five points at 41-36. The next eight minutes of play saw the Cavaliers build their lead back to eight points and the Pack bring it back down to four points at 50-46 with 6:05 to be played. This was as close as State would ever get.

During the final six minutes of action, the Wolfpack tallied

only three field goals and one free toss while the Virginia team was hitting 14 free throws and one basket for the final 66-53 score.

Virginia was able to tally only five field goals in the last half of the contest while the Pack picked up 13 two-point baskets. The difference came on the free throw line where the Cavaliers spent most of their time, picking up 19 points while the Pack netted only two.

Larry Lakins led the State team with 15 markers, while Pete Auksel netted 12. The next highest was Hal Blondeau with seven points.

The loss gives the Wolfpack a 5-3 record in overall competition and a 1-3 record in conference competition. On January 11, State will travel to Columbia, South Carolina to meet the Gamecocks.

Wolfpack Leads ACC In Shooting

According to the basketball statistics through games of Saturday, January 4, the Atlantic Coast Conference Service Bureau places the Wolfpack first in the conference in the fields of team shooting, both field goals and free throws. In team scoring however, the Pack holds fourth place.

In the field goal department, State has a .496 pct while its

closest rival, Duke has a .472 pct. In the free throw department, the Pack holds a .760 pct while Duke, again the closest rival has a .713 pct.

State offensive average is 71.1 points per game, fourth behind North Carolina, Duke, and Wake Forest. In defensive average, State leads the conference by allowing its opponents only 57.2 points per game.

Intramural Notices

Open League Bowling will begin on Tuesday, February 4. The league will be handled as it was last year with the first ten teams to apply being accepted. The intramural office asks that team cards be filled in and returned as soon as possible. The cost will be 40¢ per line; five trophies for first place team and high average trophy will be awarded at the end of the year.

Handball and Table Tennis will begin on Monday, February 10; swimming will be held in March.

Intramural Cage Season Resumes

Intramural basketball got back into action Monday night after the Christmas and New Year's break with 11 games being played in the Dormitory League and Open League. Action in the Fraternity League and Wildcard League began Wednesday night.

Seven games were played in the Dormitory League and one contest was a forfeit with Bragaw South #1 getting a 1-0 win over Tucker #1. Scores and leading shooters are listed below:

- Alexander 71—Farrish 32
Tucker #2 47—Sassaman 17
- Becton 42—Lovelace 16
Berry 25—Pearson 10
- Bragaw North #2 78—Montgomery 22
Welch-Gold-Fourth 32—Hughes 14
- Turlington 46—Guin 14
Bragaw North #1 39—Doughton 18
- Owen #2 55—Cresmore 13
Syme 41—Rhyne 18
- Bagwell 51—Byrd 15
Bragaw South #2 33—Gardner 10
- Owen #1 44—Davis 16
Watsuga 33—Marshall 10

The four Open League games and the top scorers in each contest are listed below.

- Wesleyan Foundation 57—Griffith 25
Persian Rifles #1 42—Cecil 25
- Bombers 67—Donnan 25
Cow Punchers 42—Henson 15
- Cardinals 59—Moneyhan 19
Persian Rifles #2 38—Robertson 12
- Outcasts 36—Williams 17
Vikings 30—Anderson 14

John Lauritzen wanted further knowledge

He's finding it at Western Electric

When the University of Nevada awarded John Lauritzen his B.S.E.E. in 1961, it was only the first big step in the learning program he envisions for himself. This led him to Western Electric. For WE agrees that ever-increasing knowledge is essential to the development of its engineers—and is helping John in furthering his education.

John attended one of Western Electric's three Graduate Engineering Training Centers and graduated with honors. Now, through the Company-paid Tuition Refund Plan, John is working toward his Master's in Industrial Management at Brooklyn Polytechnic Institute. He is currently a planning engineer developing test equipment for the Bell System's revolutionary electronic telephone switching system.

If you set the highest standards for yourself, both educationally and professionally, we should talk. Western Electric's vast communications job as manufacturing unit of the Bell System provides many opportunities for fast-moving careers for electrical, mechanical and industrial engineers, as well as for physical science, liberal arts and business majors. Get your copy of the Western Electric Career Opportunities booklet from your Placement Officer. Or write: Western Electric Company, Room 6405, 222 Broadway, New York 38, N. Y. And be sure to arrange for a personal interview when the Bell System recruiting team visits your campus.

Tucker, Syme Named For Lawyer, Engineer

Tucker Hall (1947)
Named for TUCKER, Irvin Burchard, 1878-1943

A boy who achieved outstanding prominence in his own community was Irvin B. Tucker, of Columbus County. Born there in the period of Reconstruction, he attended the local schools and entered State College in the mid-nineties. Feeling that his abilities lay in the legal profession rather than in technology, he left the College without a degree in the spring of 1899, and entered the law school of the University at Chapel Hill. He obtained his license the following year and returned to Whiteville for more than four decades of private law practice and public office.

By political preference a Republican, he held many offices and appointments under national administrations of the party. In 1902 he was appointed as U. S. Commissioner for his district, and in 1910 served as U. S. Supervisor of the Census. With the Democratic return to office under Wilson, he left his national appointments, but served with distinction as mayor of Whiteville, and with the Columbus County draft board during the first world war.

In the political campaigns of 1920, he was candidate for lieutenant governor on the Republican ticket.

With the consolidation of the university system, he was appointed to the Board of Trustees, and was president of the General Alumni Association in 1936-37.

Syme Hall (1915)
Named for SYME, George Frederick, 1878-1933

A local man who came to be widely recognized as an engi-

neer was George Syme, who graduated at State College in civil engineering in 1898, just a year before his brother finished in chemistry.

For a brief period after graduation, George Syme was acting city engineer for Raleigh, but left that work for a more attractive position as locations engineer with the West Virginia Central Railway, with headquarters at Franklin. This experience in the mountainous terrain of that state was most valuable in his practical development.

Just at that time, however, the federal government was seeking treaties with Central American countries for the building of a canal to connect the two oceans. One of the routes under consideration was that across Nicaragua, which would provide for a sea-level route without the expense and hazard of locks.

In company with another young engineer, C. L. Mann, Mr. Syme journeyed to Nicaragua to begin the survey; but the heat, the insects, jungles, and the inhabitants were not to his liking, and he hurried back to North Carolina for residence for the remaining part of his life.

As a highway and bridge design specialist he did many services to his state, among which was an 18-month stay in Mecklenburg County for repairs to bridges destroyed by the floods of 1916, and later a different assignment to the re-checking of the southern boundary of the state for eight miles inland from the coast. He served the College in many ways, including that of treasurer of the memorial tower committee.

The name is pronounced SIM.

Campus Crier

The Mrs. N. C. State preliminaries will be held Sunday at 7 p.m. in the Union Ballroom. Finals will be held Monday at 8 p.m. in the Ballroom. The contest is open to the public.

The Young Democrats Club will meet Thursday at 8 p.m., in the College Union.

The Institute of Electrical and Electronic Engineers will meet Monday at 7 p.m. in 242 Riddick. New officers and council members will be elected. Dr. Hoadley will be available to

answer questions and to discuss the EE curriculum.

Lost: one full length, chocolate color overcoat in the new cafeteria last Tuesday. Finder contact Sam Okonkwo, 257 Gardner Hall. The coat had a pair of gloves in one pocket and earmuffs in the other.

CORE will meet Thursday at 8 p.m. in the Union Theater. A film and a speaker on voter registration from the Raleigh Citizens' Association will be presented.

The Veterans' Club will meet Friday at 7:30 p.m. in the Union Ballroom. Guest speaker will be Jack Riley, public relations director for Carolina Power and Light Co.

The Baptist Student Union will meet Friday at 5:45 p.m. in the King Religious Center. There will be a readers presentation of *Billy Budd*.

Applications for married students graduating in January are available at the main desk

of the Union. Deadline for making application is January 15.

The Snow Skiing Club will meet Wednesday at 7 p.m. in 113 Harrelson Hall. Organization for the trip to New Hampshire over the semester break will be discussed.

McKimmon Village occupants who expect to vacate apartments at the end of this semester are required to submit thirty days written notice to the Housing Rental Office in Leazer Hall.
