Drinkers Get C C Probation

By Charles Wood

The Campus Code Board has given three State students probation until the beginning of next year.

In the Thursday night trial the boys were found guilty of drinking and ungentlemanly conduct on campus. They were caught behind the school infirmary in the early morning hours by the Physical Plant Security Officers, who in turn called the city police. The Security Officer reported that the three boys were "unmanageable and uncooperative," when they found them.

The city police booked the three boys on ungentlemanly conduct and public drunkenness on fifty-dollar bond. The students, all three juniors, spent the night in jail.

The boys informed the board that they were aware of the campus regulations against such behavior. The rule is a section of the Honor Code System Regulations that states that the possession of or use of intoxicants in residence halls is prohibited. Students returning to housing units "under the influence of intoxicants are subject to disciplinary action."

Board Delays Decision On Constitution

Constitution controversy has been put off for a while.

The Erdahl-Cloyd Union Board of Directors, meeting last night, voted to create a committee to consider proposed constitutional amendments.

The Board of Directors met two weeks ago to consider the constitution, but was unable to muster a quorum. The meeting was postponed for two weeks.

The committee, to be appointed by the new president of the Union, will have six appointed student members and Dr. Burton F. Beers as a faculty representative.

The committee will meet this spring and summer and present recommendations next fall.

The Board of Directors will meet next Tuesday at 7 p.m. to consider candidates for College Union officers.

Bynum Urges Cooperation

Dear Fellow Students, Many of our parents, alumni, and friends will be on campus this weekend for the ACC Tournament which starts Thursday.

The only afternoon game will be on Thursday, and I encourage you to park away from the Coliseum. I urge you to be as helpful as possible to these visitors and to cooperate in lessening the congestion.

Sincerely,
John Bynum

"All right, we'll form our own folk group and fill the open date," Dave Phillips (center) appears to be saying to Bob Sheheen of Duke (left) and Herb Sanhorn of State. (Photo by Andrews)

New Arts Selections To Be Made Today

The New Arts executives will meet today to select about 12 performers as possible artists for the coming season's program, according to Dave Phillips, program director of the Erdahl-Cloyd Union.

The performers will be selected from a list set up at the block booking meeting held here Friday. The meeting attracted about 30 schools and 10 booking agencies, totaling 96 people.

Phillips said the meeting was such a success that it will be extended over a two-day period next year.

He also said New Arts may be able to contract more than six artists for 1964-65 if the prices are as low as he thinks they will be. The group sold tickets for the six programs this year for \$3 each. Phillips said he does not expect the price of tickets to go up even if the number of performances increases.

Brochures will be sent to all colleges participating in the block booking meeting, Phillips explained. When these colleges decide on the dates and the performers they want, the results will be compiled. Then the New Arts group will decide definitely who they will be able to contract. Phillips said they will probably know by March 16.

Al Hirt, Brandywine Singers, Ferante and Teicher, Odetta, Peter Nero, and New Christy Minstrels, Johnny Mathis, and the Serendipity Singers are some of the performers on the block booking list, Phillips said.

Harrelson May Be Locked Up

Harrelson Hall rooms may close during off-class hours if students continue to clutter and monopolize them.

According to Jim Miller, chairman of the SG Promotions Committee, the powers-that-be have threatened to lock Harrelson class rooms if the abuses continue.

The Student Government, in trying to keep Harrelson rooms open for study, directed the Promotions Committee to use its power to correct the situation.

Lit Magazine Almost Ready

State's first literary magazine will soon be sent to the press.

The *Windhover*, a magazine which is produced from student fees from the Union, is scheduled to be sent to the campus print shop around April 1, according to Roy Colquitt, editor-in-chief.

The literary and arts magazine will run student work including short stories, poems, and art work. Colquitt said that more student contributions are being sought.

Poetry editor is Irene Jones, a junior English major, and fiction editor is Virginia Farnell, another junior English major. The office is located in the Union.

Dr. Guy Owen, an English professor, is advisor for the publication.

Kiosk Backer Has No Gripe

By Grant Blair

Art Mattox, vice-president of the Senior Class said last night that he had "no argument" with the design students' opinions of the proposed kiosk.

In fact, Mattox said, the design was given to "the top senior in design as selected by the dean," because we recognized the Design School's eminence in the design field.

"We realize that students in the Design School will criticize such a project because they are trained to do so," Mattox continued.

"We felt that the students we represent would like to have this building," explained Mattox. "We will look to the vote on March 12 to give us this feeling. We're not trying to railroad this gift through." Mattox pointed out that classes had banded together in a combined gift before. He cited the bell tower as an example.

Mattox gave a statement concerning the history of the project as follows:

"Traditionally, each graduating class leaves a gift to the school as an attempt at helping the school obtain something it might not otherwise have, as well as an attempt at leaving a permanent record of that class's attendance.

In our search for this year's gift, we found that for six hundred dollars there is very little we could give that would reflect our feelings toward State. This led to the idea of combining funds of all the classes in a gift of major consequence. This gift manifests itself in the information kiosk.

The proposed location of this kiosk is the proposed center of the State campus of the future. If approved, this gift would stand as a memorial to the combined efforts of all classes 1964-

1967. It is a gift none of us could give individually.

After we explained the project to the officers of the Junior, Sophomore, and Freshman classes, they were wholeheartedly in favor of it. All of us are very optimistic about the success of the project."

Posters Have Been Molested

By Rich Bell

A number of election posters around campus have been torn down or removed, according to Jim Ferguson, chairman of the Election Committee.

He stated that some candidates have complained about the removal of posters. The destruction or removal of posters is a violation of the campus code, he said.

Celia Parson, candidate for NSA representative and secretary of the sophomore class, said that about 40 or 50 of her posters have been defaced or removed.

Steve Johnston, candidate for Student Government president, stated that the candidates encounter this same problem every year because some students find the displays objectionable. He said that he did not feel that any action should be taken against the students involved. Johnston went on to appeal to the student's sense of fair play and ask that they leave the posters alone since elections would be over in a few days and the posters taken down.

- Campus Crier -

Students who had ID cards made at the February registration may pick them up at Room 7-A Peele Hall.

The Christian Science Organization will meet Thursday at 7:15 p.m. in the E. S. King Religious Center.

The Ag Ed Club will meet March 5 at 7 p.m. in Tompkins 114. The program will be especially for freshmen and sophomores.

There will be a meeting of the Math and Science Education Club tonight at 7:30 in the Erdahl-Cloyd Union. Dr. R. L. Dough will speak on the PSSC Physics Program.

The ASME will meet March 10 at 7 p.m. in Broughton 111. A film on hydroplane, automobile, and motorcycle racing will be shown and refreshments will be served.

Mrs. Robert Jones at Peace College wants two men to try out for their production of *Picnic*. She may be contacted at TE 2-2881 or VA 8-8316.

Julian Meadows lost his wallet between the Student Supply Store and Bragaw Thursday. Anyone finding this wallet may contact him at 828-5698. A reward is offered.

The main floor of Carmichael Gymnasium will be closed from 7 a.m. until 1 p.m. Saturday due to a Track Clinic which is being held in the gymnasium.

Students Learn Karate

By Arthur Dumont

The sport of "empty hands" is being taught to State students.

This reporter ventured into the Bushido School of Karate for his first (and last) lesson in

the world's deadliest form of self defense.

Bob Looper, who holds the "brown belt" in the sport, demonstrated the various forms of defense against an opponent.

YAHHHHHHH! And then there were none. The two opponents are Fred Storaska and Bill Fairchild. The man in the middle is Bob Looper who is administering a back thrust kick to Fred's solar plexus and a shuto blow to Bill Fairchild's neck.

I attempted to attack the instructor with all the cunning of a fox, the swiftness of a lightning bolt, the courage of a thousand lions and promptly got a better view of the ceiling in the Bushido school. I then attempted to use a knife, a very sharp ball point pen in this case, and assumed the same restful position as before.

The feet are used more than the hands in this sport which refutes the popular notion that a person must weld his hands into a veritable "singing sword" before he can learn Karate.

Karate, according to Looper, teaches the student the meaning of respect for the rights of others by developing the confidence and physical capability of defending himself. A student can become proficient at the "martial art" in a few months but years of constant study are required before such levels as the "black belt" can be reached.

According to Looper, "Karate will teach you how to avoid trouble, which is the outstanding characteristic of this sport."

A Good Mag

This may be a week of bragging about what great place this is, but the latest issue of the *Textile Forum* deserves passing comment.

This issue would, in our opinion, be one which a professional magazine would be proud to publish. The writing is excellent and the content is fascinating.

We have watched with some interest the growth of the *Forum*. Two years ago, the magazine was literally on the rocks. Advertisers were nonexistent and subscribers were few. The magazine was something you just didn't talk about. Thanks to support of the Tompkins Textile Council and editors who were willing to work, some remarkable changes have taken place. This success, if nothing else, shows what student support behind a project can do.

The *Textile Forum* is only one of the number of student publications published on this campus. The *Southern Engineer*, the *Ag Student*, the *School of Design Publication* are all excellent publications worthy of praise.

Congratulations

In appreciation for the fine cigar we received tonight, we wish to congratulate Henry Bowers, director of the Erdahl-Cloyd Union on the birth of his new son.

—GB

The Food Stink

Many of the candidates for spring elections have stated in their platforms that they intend to do something about the "food situation" or more specifically, the Slater Food Service.

Obviously, the campus has become food conscious. If this is a direct result of poor service, we feel that it is high time something was done to correct the situation.

There is no excuse for poor service. Surely, the Slater Food Service knows that many students don't have time to leave campus for every meal. They eat at the Slater-run cafeterias for lack of choice.

If the students don't like it, they should complain and make themselves heard. Talking among themselves won't solve any problems.

The Cafeteria Advisory Committee was set up for the purpose of establishing communication between the students and the management. The students have been asked to submit their complaints to the committee.

If these candidates are concerned about the situation, they can do something about it. They can contact the members of the committee and if this isn't successful, they can appeal to Student Government and if necessary to the administration.

—CK

NSA Candidates Announce Stands

Six of the 12 candidates running for National Student Association delegates in the March 12 general elections are campaigning on a joint platform.

The "conservative candidates," as they call themselves, include Henry Shackelford, Jim Daughtry, Charles L. Williams Jr., Walter Turner, Willard G. Preussel Jr. and Mike Scofield.

In their "statement of principles," the conservatives state "that NSA must, in the future, concern itself exclusively with matters affecting students as students and student governments, and that all delegates to NSA's policy-making conventions must be directly elected by the students they represent."

The statement continues, "Therefore, we pledge to do the following if elected:

1. "To strongly oppose any and all proposed radical, left-wing resolutions.

2. "To work for a change in NSA's anti-fraternity policies.

3. "To support resolutions designed to remove NSA from some of its more controversial socio-political activities and to encourage the national office to put more emphasis on improving services to students and student governments.

4. "To keep NSA on record as supporting a plan similar to the defeated Ribicoff Amendment which would have granted tax relief for students and their parents.

5. "To back, and if necessary to introduce, a measure (along the lines suggested by a recent resolution of our student government) to compel election of all delegates to the National Congress.

6. "To give the students at N. C. State their money's worth in full representation and services.

"We challenge any and all of our opponents who may disagree with the above-outlined program of action to a public debate on the points of contention."

Two other candidates, Doug Lientz and Celia Parsons, have issued independent statements.

Miss Parsons said, "As a candidate in the NSA delegation, I pledge myself to be a representative of the students and our government association on issues concerning the campus as a member of this organization. With all sincerity and consideration, I want to represent you, the student."

Lientz said, "For NSA Delegation my views fall at both ends

of the political spectrum, with very little in the middle. I am opposed to social security, farm price supports, segregation, the Gag Law, Communism, any new laws that would increase the power of the government,

and government deficit spending.

"My past experiences in student organizations include work as news editor of *The Technician*, secretary of the Erdahl-Cloyd Union Theater Committee, and secretary of the Student Government Rules Committee."

Candidates For Class Officers, Senators,

On these next few pages, *The Technician* has attempted to familiarize the students with the names and platforms of most students running for minor campus positions.

No favoritism has intentionally been shown to these candidates. The statements printed were deposited by candidates at our office; the pictures are of candidates willing to pose for our photographer. For the simple reason that these candidates were willing to go to this extra trouble in an attempt to be elected, we urge you to give them special consideration. In our opinion, the person willing to put forth this extra effort is the type of leader this campus needs.

Because of space limitations, some of these platforms have necessarily been altered. In order to get every candidate's platform in this issue, we attempted to eliminate anything which was superfluous.

We urge you to read these next few pages carefully to determine the positions of the student leaders you will be voting for March 12. Then vote for the candidate which is, in your opinion, the best.

The Editors

ED BAILEY—President

I welcome this opportunity to express my appreciation and gratitude for the trust you have placed in me as president of the Junior Class.

Some of the accomplishments this year by the Junior Class and its officers were (1) a new ring design with our new name was introduced and accepted with the idea of it becoming State's traditional design; (2) Mid-Winters, a weekend social available for the whole campus, was introduced and directed by the Junior Class officers; (3) this year more blazers, with our University crest, were sold than any time before.

You can be confident that I will put forth my full effort to give our Class of 1965 (1) a diploma that would do honor to what you have accomplished at State; (2) an even bigger and grander Mid-winters; (3) to be available and open for suggestions that will benefit State and the Senior Class.

Ed Bailey

MIKE SCOFIELD—VP

During the past year I have been honored to serve as secretary of the Junior Class.

Mid-Winters has been one of the most popular social events of the year. The Junior Class Ring Committee, of which I was chairman, selected the ring design which will set the tradition for all class rings in the future. This year's blazer sale was the best yet.

I am in favor of the "Old English" style diploma and, if elected, will work for its return. I will also work for better communication between the class officers and the class members.

Our most outstanding project for next year will be the selection of a class gift. I will work with the other class officers to select a gift which will make our class one of the most outstanding.

Senior Class

BOB PRESLAR—VP

The primary function of the vice president of the Senior Class should be advisory. The vice president should help the president in any way possible. He should present his views on matters pertinent to the Senior Class and back the president completely in all his efforts.

I personally feel exam exemptions is a privilege seniors deserve. I would express this view to any responsible individual who would listen. I would make every effort to insure seniors of the right to exemptions on finals.

Bob Preslar

DOUG LIENTZ—VP

My platform for Senior Class vice president is the abolition of class dues, which I feel places an unfair share of the expenses of the various classes on the students who are also doing the most work to make class projects a success. The less active students are also the ones who hold back from paying their class dues in most cases.

Chan Prince
Vice President, Forestry Senator

MARTIN WHITE— Textile Senator

As a student at this university, I feel a responsibility towards the student body as much as any singular school. To have a position in Student Government as a Textile Senator carries not only the duties of representing and informing Textile seniors in the affairs of government, but working towards goals that are in the best interest of the campus as a whole and the 7,500 individuals that live here.

Through my experience as sports editor of *The Technician*, I have become familiar with

many of the problems of this campus, from cafeteria foods to student seating at athletic contests.

As a Textile Senior Senator, I would welcome the opportunity of working with the Tompkins Textile Council and other Textile Senators in the interest of the School of Textiles and the University.

CHARLES J. STEENBURGH— Engineering Senator

My platform is a straightforward one—active and responsible representation of all students in the School of Engineering. I am not now and will not become aligned with any group that does not represent the best interests of each and every engineering student. I intend to develop my own individual policies as outlined by the wishes of those whom I represent. I would like to take this opportunity, also, to extend my thanks to those who have already pledged their support and to those who will support me in the election.

DOUG LIENTZ— PSAM Senator

My platform is continued work for campus beautification, student rights, and smoother internal functioning for Student Government.

During the past year in Student Government, I have written seven bills and introduced four. All of these have passed. I think this is noteworthy, as the legislature has passed only forty notable bills this year, and has fifty to sixty members.

CARLOS WILLIAMS— Secretary, HCB

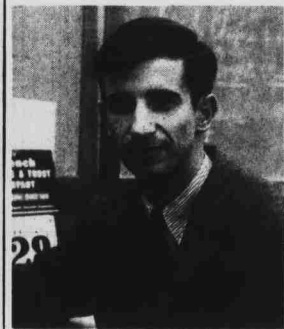

I have entered this campaign with very definite ideas concerning the offices in which I would like to serve, these being senior representative to the Honor Code Board and Senior Class secretary.

First, let me say that I feel that the Honor Code is fundamental to our system of education. I am sure that I can give fair and unbiased opinions on violations, relying to a great extent on my experience on the SG Traffic Committee and my belief that the Honor Code, as it now is or as it may be revised, should be enforced without injustice or bias.

I believe that each officer must carry his part of the load, and, as Senior Class secretary, will do just that.

Carlos Williams

Bill Marshall

BILL MARSHALL—Treasurer

Never in the past has the financial standing of the class been known to more than just a few individuals. If elected, I would make it a point to see that a statement is issued periodically concerning the financial situation of the Senior Class. With graduation approaching, it is more important than ever for the finances to be handled carefully and wisely.

Martin White

WALTER E. RICHARDSON— Liberal Arts Senator

School spirit is not what it should be at N. C. State. I believe that an active interest in the Student Government could encourage a higher interest in the school and its functions.

I believe that it should be a major concern of a senator to keep his electorate informed. If elected, a concerted effort to keep the students in my school informed of Student Government activities will be my main concern.

As a student in the School of Liberal Arts majoring in Political Science, I am very much interested in government and politics. If elected senator, I would work toward the forma-

(Continued on page 4)

Zan Smith—Treasurer

ROBERT E. COLE— Education Senator

Upon entering the School of Education at the beginning of this semester, I was immediately appointed to fill one of the vacancies of our school in Student Government. Since then I have been serving on the Elections Committee.

If I am re-elected, I will attempt to give our school the best representation in Student Government.

Two main points for which I will work are restoration of senior exemptions and having final examinations before the Christmas holidays. This can be accomplished by the tri-semester plan or by two semesters and two eight-week summer sessions.

I will also work toward improving eating conditions on campus, obtaining ten-minute parking places at Holladay Hall for students on business, and improving coordination between the units of the Consolidated University. I am last on the ballot, but first in experience and interest.

Robert Cole

FERMAN WARDELL—VP

The junior year in a college man's career at State is perhaps his most indicative and developmental. It should be upmost in every sophomore's mind to prepare himself for a beneficial and meaningful junior year. One method for securing a prosperous year is to vote for a capable leader to spearhead the class and move it forward.

If elected, I will try to progress and spur the general flux

of social, individual, and scholastic congruity to a never-before-realized ideal.

I am presently in Student Government, a member of the Campus Welfare Committee, and a staff editor of *The Agromech*.

I would like to form a Junior Class Campus Beautification Committee, lower Junior Class dues, try to obtain nude models for Junior Class Design students, and make Mid-Winters better and more entertaining.

Ferman Wardell

LEROY HITE—President
If you do not want action from the president of the rising Junior Class then don't vote for me. One of my opponents is running on the platform of "Let's keep

the Mid-Winters." The Mid-Winters is simply a merger of the "Freshmen-Sophomore" and the "Junior-Senior" dances. I feel that the "Junior-Senior" should definitely be reinstated next

year. We would be able to attend the "Junior-Senior" with a greater feeling of pride and accomplishment if the "big dance" of the year were for the upper-classmen only.

I will also pursue a policy of forcing Slater Food Service to improve drastically or be replaced. I will undertake all possible steps to rename our school—North Carolina State University.

Junior Class

JOHN NEWLIN—President
In the past, aspirants to Student Government and class offices have made such a fantastic number of entirely unfulfilled campaign promises that the average student today tends to look with distrust and scorn at campus politics and candidates.

This view is harmful to the University but is certainly not unwarranted.

I promise only one thing—a sincere and honest attempt to provide responsible class leadership. No real promise stated with any truth can go beyond this.

John Newlin

BETTY VAN DYKE—WCCB
As a present member of the Women's Campus Code Board, I have been able to do active work in planning a handbook for the women of State. It will serve as a guide to the new coeds. Because of this experience, I feel that I am qualified to serve again on the Board. I would very much like the opportunity to continue serving my class in this capacity.

Kirby Distributing Company has openings for part-time sales work. All leads furnished. For evening appointment call — Dave Stewart, Kirby Company, TE 4-3705 for information.

JOHN L. SULLIVAN JR.—President

I welcome this opportunity to state my platform. As you know, this year the junior and sophomore class officers combined the Freshman-Sophomore and Junior-Senior dances into one big Mid-Winter weekend. Many people have said that this was the most successful dance ever held at State. If elected, I will work to again make the Mid-Winters weekend the most successful activity of the season.

If elected I will support the proposed Kiosk, cooperate wholeheartedly with the administration to repeal the speaker ban law and work diligently with the students to improve Slater Food Service through responsible student action.

As I did in the past, I will again work for close class cooperation, improved student participation, and more and better activities.

John L. Sullivan

ROSINA COBURN—Liberal Arts Senator
I plan to correct the situation that presently prevails in the Student Government Legislature; that is, the Senators make little or no effort actually to represent their constituency. It is a Senator's duty not only to be well-informed and to keep his or her school well-informed

(Continued on page 5)

WALTER RICHARDSON
(Continued from page 3)
tion of a political party structure for campus elections. Some sort of party structure is necessary if our elected officers are to be responsible.

I am in favor of an investigation of the cafeteria facilities as long as there is a legitimate basis for complaint. The idea of a student member of the Raleigh City Council is a forward movement and actions in that direction should continue. A thorough investigation of the printing and distribution of the student telephone directories should be undertaken since the present methods are very unsatisfactory.

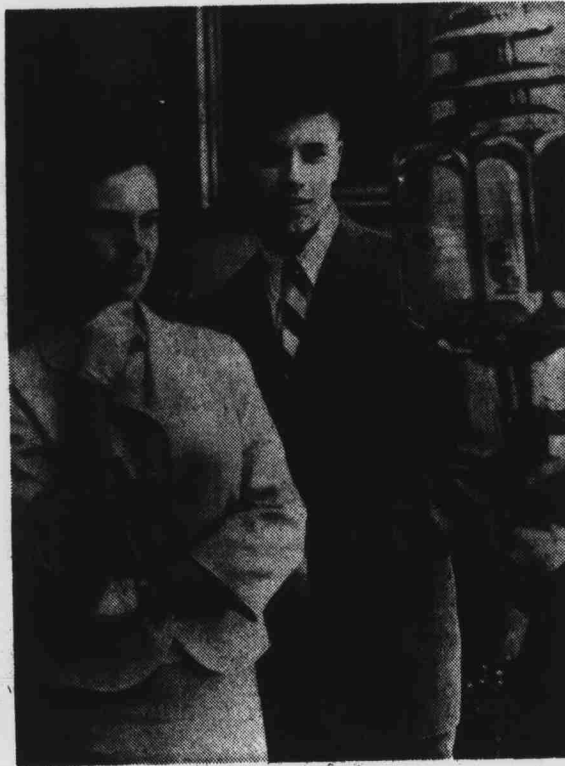

The use of study rooms in some of the classroom buildings for night study should be increased and better administered. The Library does not provide adequate facilities. These are some of the programs I would work towards if elected.

I believe that I have the experience, time, and interest to serve well as Senior Liberal Arts Senator. I feel that I can meet the challenges on this office and serve the seniors in the Liberal Arts School well. I urge your support.

To Serve And Stress Past Programs,

FRAN MAYTON—VP

My interest and participation in the activities of the School of Education will lend prestige to the office of vice president of the Junior Class.

Positions of leadership such as secretary of Student NEA my freshman year, vice president of Student NEA, and secretary of the Math and Science Ed Club emphasize my desire and capability to represent my class.

While active in the Woman's Chorus and Woman's Association, I have been appointed SG senator from the School of Education. Instituting more student participation and unity for State are two of my major concerns.

Fran Mayton

**RUDY PARTIN—
Liberal Arts Senator**

There are two subjects of utmost importance in my mind. First, I believe that one of the biggest problems here is the apathy of the student body. This problem is readily seen in the low voting percentage and the light attendance at such functions as pep rallies and lectures. I would very much like to help initiate some concrete program which would alleviate this condition.

Second, I think that all liberal arts students should strive in every possible way to make the School of Liberal Arts grow to be one of the most respected schools on our campus. We, the students, must contribute our assets, and I assert that I will do more than my part as a senator in Student Government.

Having served in the legislature this year, I am familiar with the duties and demands of the office of senator. Last weekend I gained invaluable experience in legislative affairs by attending, as a delegate, the State Student Legislature at the Capitol.

Rudy Partin

WILLIAM SCHWARTZ

Textile Senator

A candidate for Textile Senator should be concerned with the growth of his school and take an active part in its organizations. He should also be willing to serve his fellow textile students at all times.

If I am elected, I will try to measure up to these standards. My chief goal will be to keep you informed of what is happening in Student Government and in the School of Textiles. My other goal will be to persuade you to take a greater interest not only in the Textile School, but in all campus affairs.

PHIL ATKINS—

Textile Senator

Since I entered State, I have attended many Student Government meetings to familiarize myself with the procedures used. If I am elected to be your representative, I pledge to be the best of my ability:

- (1) to work in every way possible to promote school spirit through Student Government;
- (2) to work with the Tompkins Textile Council in promoting its interest;
- (3) to work with interested parties toward improving eating conditions on campus;
- (4) to cooperate fully with other campus organizations, and communicate with my Textile classmates.

Joy Johnson (from left), Gail Fitchett (Secretary, WCCB)

**JOY JOHNSON—
Secretary**

My campaign platform consists only of a single promise. That promise is to continue with the efforts that I have made for our class, as a class officer, since I have been at State.

I can see that, in the last year especially, we have made progress. The presentation of the Mid-Winters by all four classes has made possible an affair which is not only larger, but also more worthwhile to you, the student. And while putting on a larger affair, we have also made an effort to spend your money wisely.

This year, for example, we saved \$220 by making the decorations for the dance ourselves. Now that we have an idea of the reception of this type of weekend, we hope to put on a Saturday-Sunday affair next year. I sincerely believe that this is possible only if we keep some of the same officers that we have this year.

ROSINA COBURN
(Continued from page 4)

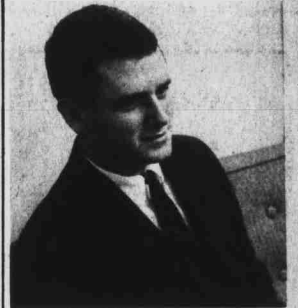

but also to encourage, and indeed "sound-out," opinions of proposed legislation and of other campus happenings.

Student Government should also take the initiative in spearheading such drives as attacking apathy on campus and improving school spirit so that in the very near future N. C. State will truly be the best university in North Carolina.

**PRESSLY GILBERT—
IFC Secretary**

The year 1964-65 will be perhaps the most important one in recent IFC history. There is a definite challenge in scholarship which we must accept. I would like to see IFC become a primary force in improvement in this area.

I think that there is due cause for an increase in the power of IFC; perhaps even substantial judicial power. I would welcome the chance to be a functioning part of next year's IFC and to help in the coordination of this extremely important transitional phase of our fraternity life.

More Informed Student Body

TERRY G. SPARKS—
VP, Engineering Senator
If elected, I will introduce a more responsible program concerning class functions and projects such as the ridiculous proposed Kiosk.

Although I am not in Student Government, I have attended several meetings and am familiar with its functions. I have a knowledge of the issues and problems facing our campus. I will back a policy of active representation of and for the student in Student Government.

My platform includes vigorous support for all student cultural activities such as Frank Thompson Theater and an objective evaluation of our present utilization of NSA's services.

Also, I believe there should be a reappraisal of the budgeting policy of Student Government for the betterment of the entire student body.

Celia Parsons

CELIA PARSONS—VP
N. C. State University is a growing institution. With the increasing number of coeds, a more extensive academic program, and the establishment of a School of Liberal Arts, there

Sophomore Class

BERNARD L. SMITH—
AG Senator

Since I was elected agriculture senator last fall, I have become familiar with many problems here on campus. I was appointed to serve on the Academic Affairs Committee.

I have and will continue working for a future name change for our University, and for better cafeteria service on campus. Being one of the two candidates running for Sophomore Agriculture Senators, I will represent my school and the student body of North Carolina State University to the best of my ability.

is an increasing trend for student interest in campus officers and politics.

This trend emphasizes the importance of an informed student body with conscientious leaders. The offices of Sophomore Lib-

WYANT BOLICK—

President, Engineering Senator

To make the student the voice in class activities and to advise the students of any activities carried out by the officers or the entire class is the essence of my campaign.

This year's freshmen class knew nothing of the activities of the officers or the class. I would like to see State's campus social

life improved by having more interesting activities, this would include bringing more girls on campus. This campus has too few social activities.

eral Arts Senator and vice-president of the Sophomore class are positions through which the students should be able to voice their views and opinions. It is vitally important that these offices make information on current campus issues readily available to the students. In these positions, I would give consideration to the student voice and represent the students fairly.

BRYAN L. BOULIER—
PSAM Senator

There are certain recurrent problems which this government or, for that matter, any student government must face. Chief among these is the relationship of the government to the individual student. It is obvious that State has a problem in that respect. Perhaps the trouble lies in inadequate publicity or in the fault of some of the legislators to contact the members of their schools. I will wholeheartedly attempt to see that a solution to this problem can be found, for the Student Government can never be strong without such a solution.

One of the other problems which State faces is the inability of its present Honor Code to function effectively. In intent, an Honor Code is the greatest system under which a university such as ours can operate. It can be stated that the N. C. State Honor Code does not work. However, the faults of our Honor Code can be corrected.

All in all, what I urge is a closer relationship between the Student Government and the individual student. Only in this way can the student body fully exert its will on issues. With a closer relationship, the Student Government can grow and aid in the development of our University.

DEVELOPMENT OF MANAGEMENT IS OUR MOST IMPORTANT FUNCTION

At the 1963 stockholders' meeting, Arjay R. Miller, President of Ford Motor Company, emphasized the Company's far-sighted recruitment program and its accent on developing management talent:

"Obviously, our long-run future will be determined by the development of our management. Here, every one of us—at all levels of supervision—recognizes this as his most important function. Since 1946, the Company has recruited widely varied talent—talent that can be blended to give us the required combination of tight administration and creative scope.

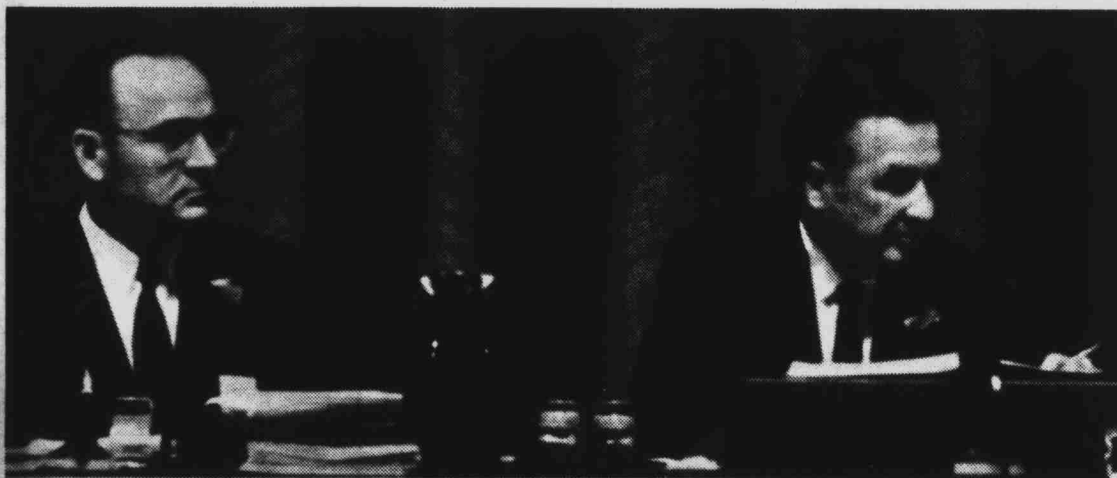

"Under a carefully conceived management development program, we try to recruit the best personnel available, both in training and experience. Once we get them, we have a program for giving them varied opportunities and increasing responsibility. This program is in force in all parts of the Company—in manufacturing, finance, styling, engineering and marketing.

"The program is paying off. We have developed a real depth of management talent in the Company, and we are dedicated to seeing it continued and reinforced. Because of this, I feel not only very fortunate in being associated with this management group, but also very confident of its long-run success. We know our goals and how to achieve them."

MOTOR COMPANY
The American Road, Dearborn, Michigan

Those interested in a career with a future are invited to register at the Placement Office for an interview with Ford Motor Company representatives, who will be on campus soon.

Arjay R. Miller, President of Ford Motor Company, and Henry Ford II, Chairman of the Board, at 1963 Annual Stockholders' Meeting.

Duke Heavily Favored By State Students

After the first 24 hours of *The Technician Sports Contest*, 97.8 per cent of those entering have picked Duke to win the Atlantic Coast Conference Tournament. The actual number that have favored Duke is 44 out of 45. The only other first place vote went to State.

Majority rule in the opening round of the tournament gives victories to Duke, 44-1 over State; UNC, 26-19 over USC; Wake Forest, 39-6 over Virginia; and Clemson, 36-9 over Maryland. Assuming the majority is right and these four teams do win, Duke would meet UNC and Wake Forest would

take on Clemson in the semi-final round.

Of the 26 people that picked Duke and Carolina to reach the semi-finals, all 26 picked Duke to win. In the other bracket, 35 picked Wake to meet Clemson; 28 voted for Wake, seven polled for Clemson. Again assuming that the majority will be right and Duke is to face Wake in the finals, 30 of 30 voted for Duke to win.

In the contest's tie breaker on the State-Duke game, the average score was State-52 and Duke-70. State was picked with a low of 39 and a high of 62. Duke's score ranged from 59 to 98.

Handball and Table Tennis Play-Offs To End Soon

Competition in both the dormitory and fraternity handball and table tennis play-offs reached the final rounds of action this week.

The dormitory handball tournament has in Bragaw North #2, its only undefeated team as winner's bracket champion. Berry, Bragaw North #1, Tucker #1, and Owen #2 are the once-beaten teams competing for another chance at the crown.

Sigma Alpha Mu and Sigma Phi Epsilon have reached the finals of the winner's bracket in fraternity handball. Pi Kappa Alpha, Phi Kappa Tau, Tau Kappa Epsilon, Theta Chi, and Lambda Chi Alpha will fight it out in the loser's bracket.

Sigma Phi Epsilon and Delta Sigma Phi are the only undefeated teams in the fraternity table tennis tournament. In the loser's bracket, PKT, SAM, Sigma Nu, Sigma Chi, Farm House, and LCA are the once-beaten teams in competition.

In action next week, Alexander and Bragaw South #1 will vie for the winner's bracket championship in dormitory table tennis.

Phi Kappa Tau and Turlington Are '64 Basketball Champs

Phi Kappa Tau completed a perfect season last night in the finals of the Fraternity Intra-mural Basketball Tournament by defeating a stubborn Kappa Alpha team, 50-45. The PKT's season record, including the tournament was 9-0.

The victors trailed at the end of the first quarter, 12-11; but outscored KA 10-5 in the second period to take the lead for good, leading at half time by a 21-17 score. KA reduced this margin to three points in the third quarter and then to only one point in the final minutes of action. The PKT's however ended in a flurry to end the KA rally and win by five points.

McClenny with 15 points and Thorn with 14 were the high scorers for the new champions, while Thompson had 14 to lead KA. Brackett added 11 for the losers.

Turlington won the dormitory championship in basketball for the second straight year by downing Bragaw N #2, 71-58.

Except for the second quarter in which Turlington outscored Bragaw 21-7, both teams played

on an even basis. The first quarter ended 16-16 and the third quarter showed Turlington ahead 53-41.

All five starters for Turlington scored in the double figures. Pope and Carter led the way with 15 points each, followed by Broughton and Guin with 14 and Fowler with 10. Montgomery, Stanley and Atkins were the only three to score over ten points for Bragaw with 19, 16,

and 10 respectively.

Turlington out rebounded Bragaw by approximately 35-24. Carter pulled in 13 while Pope was getting 9. Montgomery and Atkins each had 9 rebounds for Bragaw.

Turlington's victory could be credited to their defense which stole the ball 13 times. Guin, Carter, Fowler and Broughton had 3 each while Montgomery had 2 for Bragaw.

Theta Chi and Owen No 1 Are Consolation Champs

Theta Chi and Sigma Phi Epsilon held a defensive battle to decide the consolation championship in fraternity basketball with Theta Chi doing a little better for a 34-28 victory.

The two teams battled to a 5-5 tie in the first period before Theta Chi took the lead at half time, 17-15. The champs held a 22-15 lead at the end of the third period as the Sig Eps went

scoreless. Dellostritto and Swain

led Theta Chi with eight points each. Owen #2 took a six point lead, 10-4, in the first period of its championship battle with Berry to lead all the way for a 45-36 victory. Bill Ellen paced both teams with 16 points with Overcash and Farel adding eight and nine points.

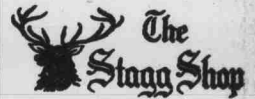

Pearson paced the losers with 10 markers while Young scored nine.

THE BELL TELEPHONE COMPANIES SALUTE: CLEM PATTON

From the time he joined Southern Bell in Nashville, Clem Patton (B.S.E.E., 1958) has continually impressed his management with his engineering ability.

Given the job of designing telephone cable connections between the central office and new residential subdivisions, Clem found ways to design connections that expertly met the engineering problem, and yet, kept costs to a minimum. Because of such creative engineering talent, Clem was

selected by his company to attend the Telephone Operating Engineers Training Course at Bell Labs. On completion of the course, Clem will return to Southern Bell and the increased responsibilities that await him there.

Clem Patton, like many young engineers, is impatient to make things happen for his company and himself. There are few places where such restlessness is more welcomed or rewarded than in the fast-growing telephone business.
