Atkins Wins Top Post In Run-off Election

John Atkins won the presidency of the Student Government in the run-off election held Thursday.

The voting turnout, which was even lighter than that of the first election, totaled 1,717.

Atkins, who led the ticket in the first election, defeated Steve Johnston by a count of 970 to 583. Joe Peoples, running as a write-in candidate, collected 159 votes.

Atkins asked that all students take an increased interest in their Student Government. "I want to thank my supporters for allowing me the year of opportunity that lies ahead. This will be a year of building Student Government and building student enthusiasm. I intend to encourage more student participation in Student Government activities," Atkins said.

In the contests for Senior Class offices, Mike Scofield defeated Bob Preslar for vice president; Carlos Williams defeated Ronald Steele for secre-

Students Picket Local Restaurant

Honaker's Luncheonette closed temporarily last Saturday afternoon.

According to Fran Netter, chairman of the NCS CORE chapter, students from State, St. Augustine's, and Ligon High School picketed the downtown Raleigh establishment Saturday afternoon from 4:30 to 5:30. "The establishment closed as soon as we began picketing," Miss Netter stated.

The picketing is sponsored by the Raleigh Student Movement, an organization of students from "various schools in Raleigh," according to Miss Netter. She went on to say that picketing will continue this week and during Easter vacation.

Netter urged State students and faculty to participate "in these legal demonstrations." She urged students interested in joining the picket line to meet Tuesday night at 7:30 in 163 Harrelson.

Campus Crier

The Agronomy Club will meet Tuesday night at 7 p.m. in the McKimmon Room of Williams Hall. The Peruvian Mission will be discussed.

The ASAE-ATE clubs will meet in the Agricultural Engineering classroom at 7 p.m. Tuesday night. Guest speaker will be U. S. and foreign patent attorney John G. Mills.

Jimmy Tate, has lost a key chain with his mailbox, room, and car keys on it. The finder is asked to return it to him at 307 Syme.

The Animal Science Club will meet at 7 p.m. in Polk Hall Tuesday night.

tary 221 to 209; and Bill Marshall defeated Zan Smith for treasurer.

For Junior Class offices, John W. Newlin topped John L. Sullivan 313 to 281 for the presidency; Hal Blondeau won the vice presidency over Fran Mayton; Gail Fitchett topped John Allen for the office of secretary; and Ray Hodgdon defeated Adele Jones for treasurer.

At the Sophomore Class level, John L. Sullivan was elected to the vice presidency over Celia Parsons, and Webb Langford topped Judy Raye Parrish for the office of secretary.

Women's Campus Code Board

members elected were Anne Marie Parker, senior representative, and Gail Fitchett, junior representative. Bill Fletcher won the sophomore membership on the Men's Campus Code Board while Joe Scarpati won the Alumni Athletic Trophy.

Elected as senators were Paul Heilig, sophomore, Design; Mike Stenhouse, John Yarbrough, and Gene Eagle, seniors, Engineering; John Hawkins, sophomore, Engineering; William C. Schwartz and Edwin R. Scott, Jr., juniors, Textiles; Bob Harrison, senior, Forestry; and Johnny Handal, Sophomore, Textiles.

Heels Fail To Show For Kite Contest

By Bill Fishburne

According to WKNC Projects Director Ray McCrary, Carolina students are flunks.

The reasoning behind this statement can be found in the results of Saturday's kite-flying contest, McCrary said. Twenty-five entries were received from State students; none from Carolina.

The contest was won by Mike Todd with a gigantic seven-foot kite made of muslin and fir. The kite was of standard diamond shape and used bailing machine twine for string.

Some of the kites were less than totally successful, as exemplified by the entry sponsored by *The Technician*, and also McCrary's WKNC entry. The contest between these two was marked by bitterness and mudslinging, and was concluded when McCrary's disintegrated upon contact with the air. The *Technician* kite, constructed by Bill Fishburne, attained an altitude of 50 feet before crashing to the ground.

All entrants received free passes to the Varsity Theatre and the top prize, going to Todd, was a six-transistor radio.

Kite problems? But who wouldn't with those monstrosities? Grant Blair (from left) and Bill Fishburne struggled with *The Technician's* kite while Bob Hart, George Wilson, Joe Clendenin, and Ben Harris battled with the House of Horrors entry. (Photo by McCallister)

Sanford To Recruit 100 State Students

State students were scheduled to have the opportunity to be among Governor Sanford's select 100 today.

James T. Beatty, director of the North Carolina Volunteers was scheduled to talk to students in the Erdahl-Cloyd Union today.

Beatty explained in an interview last night that the Volunteers are attempting to recruit 100 college students from Universities and Colleges all over the state to work in 10 experimental projects in North Carolina. He explained that the North Carolina Volunteers was sponsored by the North Carolina Fund, a non-governmental agency set up by Governor Sanford.

The North Carolina Volunteers, stated Beatty, will conduct an attack on poverty within the State. Students volunteering are asked to pledge themselves to be available during an 11-week period, from approximately June 10 until August 26. The accepted volunteers will train for one week, then enter their project somewhere in North Carolina. The exact projects will not be decided until the Volunteer's director's meeting in April.

Students accepted as volunteers will receive \$250, carfare, and living expenses. Commented Beatty, "This is probably the greatest single challenge and

Three Candidates To Speak Here

The three major Democratic gubernatorial candidates have accepted an invitation to speak at the Erdahl-Cloyd Union April 5 at 3 p.m.

Candidates I. Beverly Lake, Dan Moore, and Richardson Preyer were invited by a group of Presbyterian students from State, UNCCH, and Duke. The meeting is open to the public.

Each candidate is scheduled to speak for 15 minutes with an hour of questions and answers to follow.

The Rev. Don Shriver will be moderator for the speeches. Shriver is the Presbyterian minister to State students.

Campus Chest Change Proposed

The last Student Government meeting saw the revamping of the Campus Chest organization on campus and the formalizing of plans to revitalize the annual drive.

In a proposal to the legislature, Dave Goddard (Jr.-PSAM) emphasized the worthy nature of the Campus Chest Drive and outlined the work that needs to be done to make the drive effective. The resolution adopted is aimed at solution of the problems Goddard mentioned.

The resolution recognized the following problems: that there is presently no formal CC organization, that CC is not realizing its potential, that the failure of the drive is due to a lack of communication, and that the CC suffers from a lack of on-campus leadership.

To remedy these problems the SG proposal set up a six-member

executive committee to be appointed by the president of the student body with members of leading campus activities to be chosen. Further plans outline functions of the committee, including its purpose and goals.

According to Harvey W. George, last year's chairman of the Campus Chest Drive, "The lack of a formal organization for the Campus Chest and of communication between the various segments of the campus organizations involved has been a real hindrance. The actions of SG form a commendable effort towards the remedy of these problems."

Harlem Lawyer To Speak At YMCA

A Harvard-trained lawyer who practices in New York City's Harlem will be the speaker at the Eighth Annual Raleigh Inter-Collegiate Conference.

The conference will be held at the YMCA April 4-5. The purpose of the gathering, according to YMCA President Garland McAadoo, is to discuss matters growing out of a common religious faith.

The principal speaker will be William Stringfellow. McAadoo says that Stringfellow is engaged in a lay ministry for the church and his law practice brings him in close contact with some of the worst social problems of the nation.

The theme of the conference will be "The Church, Social Action, and Me—the College Student." All faculty and students may attend.

Student Caught For Copied Report

A senior in Chemistry pleaded guilty to a charge of cheating on a lab report in action before the Honor Code last week.

The student was placed on two semesters probation by the board.

The student copied another student's lab report and submitted it as his own report, according to board officials. The violation was reported by the professor.

Rent Set For Coed Dorm

State coeds planning to live in Watauga Hall next fall should expect to pay somewhat more than the boys now living there.

The rent will be \$135 per semester, according to Housing Director N. B. Watts. This is \$35 more per semester than the boys pay.

Watts said the high cost will compensate for reducing the present capacity of the dorm now occupied by boys from 108 to 90. Also, he said the rates would pay part of a "housemother's" salary.

The dorm will undergo a minimum amount of renovation, which will be financed by loans, according to Watts. Watts said some of the present rooms will be torn out to make a lounge area, the housemother's living quarters, and laundry rooms.

New furniture, including box beds, 54-inch double dressers, desks, and chairs, will be put in each room. The rooms already have a lavatory and two closets each.

In addition, a stair tower will be built at the rear of the dorm, Watts said. The dorm now has only one entrance.

CARavan To Be Here April 10

Ticket sales got underway today for the Ford Motor Company "CARavan" to be here April 10.

The show begins at 8 p.m. in the Coliseum.

Tickets are available for \$1.50 each at the Erdahl-Cloyd Union Main Desk, the Village Pharmacy, and Theims Record Shop, according to Dave Phillips, program director of the Union.

The caravan will feature Herbie Mann, the Rooftop Singers, the Moonshiners, and Ron Elliron, Phillips said.

Ticket stubs may prove to be valuable to some lucky students, according to Phillips. When the show completes its campus tour, probably the last of April, a drawing will be held to give away five Fords, he explained.

Phillips said as far as he knows this is the only school in the South on the tour. He also said he expects the performers to give away some free records to the audience here.

Gardner Award Made Sunday

This year's Oliver Max Gardner Award of about \$1,000 was bestowed on Walter Reece Berryhill last night in the Union ballroom.

Berryhill, dean of the School of Medicine at UNC, received the award for making the "greatest contribution to the welfare of the human race" of all the faculty members of the Consolidated University, as judged annually by the Board of Trustees.

About 450 faculty members of the Consolidated University attended the presentation and accompanying banquet. Shrimp cocktail was one of the side dishes.

High Finances-The Univ. Way

The high cost of living becomes more obvious as the days go by. The latest example is the outrageously high room rent to be charged to coeds next fall.

We realize that a dorm is being renovated for the coeds and that facilities should be in fairly decent condition when the coeds move in, but is it worth \$135 per semester? The present rate for room rent is \$100 per semester for male students so the coeds will be paying \$35 more per semester or better yet, \$70 more per year. To most students, \$70 is no mere drop in the bucket.

Presumably the girls will be paying for something more than a room since the Housing Department has made it clear that they will not be using the rent to pay for the renovation. One of the reasons given was because a smaller number of girls will be living in the dorm, 90 to be exact. In other words, the coeds living in the dorm will be paying for not only for the privilege, if it can be called that, of living in the dorm; they are paying for 18 students not living there. We realize that the University cannot afford to lose money in the Housing Department. It is already up to its neck in debt. But at the same time, this is no reason to slap the students with a fee for someone who isn't there.

The other reason for the high rent is that a house-mother will be living in the dorm. Since this woman is, in a sense a counselor, we suggest that the Counseling Department consider her a full-blooded member of their department and allow her to deal primarily with dorm problems which are bound to arise in the future. As it appears, the coeds who will live in the dorm will be paying for counseling services already provided to all the students at no extra cost.

It is not unusual for girls to get stuck with higher room rent than boys. Girls usually have more elaborate facilities, such as the lounge area and laundry room proposed for Watauga Hall. The rent for coed dorms at the University of North Carolina at Chapel Hill runs \$120 per semester. This is high, but it is certainly more reasonable than \$135.

In this case, the University obviously plans to get its money's worth out of Watauga Hall whether the students do or not.

-CK

Signs Of The Times

One interesting fact that emerged from elections was the voting of our so-called "conservative" campus. The slate of NSA delegates who campaigned on a conservative platform and announced themselves as conservatives were, with two exceptions, unable to muster enough votes to get elected.

Does this point toward a more liberal campus? Maybe, but the fact remains that some of the candidates had no announced platforms, and that one other candidate, who had views "at both ends of the political spectrum" were also defeated.

Indeed, there is still some question whether or not voting for NSA delegates has yet to become a clear choice of political likes and dislikes. The old rule of thumb that the most successful politician is one who speaks loudly and says little may still apply.

Letters To The Editor

Bynum Defended; Kiosk Flushed

To The Editor:

The biased editorial published in The Technician on March 19, 1964, concerning the right of Mr. John Bynum, our Student Government president, to actively support or express political opinions on the gubernatorial candidate of his choice was most disgusting to anyone who has any knowledge of political rights, or procedures in American politics. Occasionally informed students from other schools will read The Technician, and it would save much embarrassment to State students if members of The Technician staff would familiarize themselves with political rights of citizens before criticizing them too severely.

Even members of Congress, or the President of the United States, will use his influence to promote candidates whose political views are considered to be in the best interest of our nation. It is the responsibility of all Americans to familiarize themselves with political candidates, and we should certainly commend and not condemn anyone who is interested enough to actively participate in the furtherance of his ideas. If responsible leaders in government positions can find time to fulfill their obligations to society and still actively support their party, I'm sure our Student Government president can also meet his responsibilities to the student body, and support the candidate of his choice.

Mr. Bynum is a citizen of the United States even though he is our Student Government president, and as a citizen he has the right to support the candidate of his choice. He has not supported Preyer in the name of the Student Government. If becoming a member of the Student Government here at State should deprive one of his constitutional rights, then we should do away with our Student Government.

It is not the purpose of this letter to support Mr. Preyer for governor but rather to support freedom of speech and expression granted in the constitution.

So rather than being so critical, or jealous of Mr. Bynum's success politically, let each of

us select the candidate of our choice and support him.

Charles T. Barnhill

To The Editor:

Being a senior, I am naturally concerned about the kiosk controversy. However, after careful study of the situation, I feel that I have found the perfect solution—the Kiosk Re-evaluated All-Purpose Plan (KRAPP).

The plan is this: Why not, instead of using the kiosk for an information center, use it instead for an outdoor "comfort station," such as those found in public places in other cities? We could retain the planned "swatiska" shape; all we need add is the necessary interior fixtures (about which I need not go into detail). Since this is a four-class project, we could provide four of these fixtures, each adorned with a suitable plaque, identifying the donating class. The project could be financed out of class dues or on a "pay-as-you-go" basis. The "information dispensing" function of the kiosk will not be lost, since, as anyone knows, students will quickly inscribe timely information on the partitions surrounding the above-mentioned fixtures.

There are many advantages of such a kiosk:

- 1) Students will favor it for reasons mentioned above.
2) Professors will favor it since it may help reduce tardiness due to present crowded conditions.
3) Visitors will favor it, since it will eliminate their sometimes-desperate search for facilities in Harrelson Hall.

The only unsatisfied group will be the coeds, but that problem could be solved by construction of dual facilities. Two heads, after all, are better than one.

Photo Contest Deadline Near

The deadline is approaching for entries in the 1964 Annual Spring Photography Contest to be held May 9-25 at the Erdahl-Cloyd Union.

Student entries in either black-and-white or color divisions must be made by 10 p.m., May 10 according to an announcement made by the N. C. State Photography Club and the Erdahl-Cloyd Union Gallery Committee, co-sponsors of the contest. Entries will be judged on composition, creativeness, and technique, with prizes to be awarded in each division. A ten dollar award goes to "Best in Show", five awards of six dollars each will be given as first prizes, five more prizes of four dollars each go to second prize winners, and five awards of two dollars will go to the third place winners.

Additional details as to the size of entries, on contest rules and regulations may be found at the main desk at the Union.

National Players Present Shakespeare

By Joan French

Advance press releases for the National Players of Washington, D. C., call this group "internationally acclaimed." Their performance Saturday night certainly attested to the validity of this report.

Even those people who claim to detest the great Bard,

Shakespeare, in any shape, form or fashion would have enjoyed the Players interpretation of The Taming of the Shrew. The company infused the ribald comedy with a spark of life which ignited the audience and caused many a spontaneous, boisterous belly laugh.

Many times, the sparkling wit of Shakespeare is lost when the actors and actresses do not have a sharp sense of timing or do not articulate well enough to project the context to the audience. This was not the case with the National Players. The puns came over as "puny", and the use of slapstick was well designed to maintain action on stage.

Bernard McInerney as Petruchio was a delight to view as he stormed across the boards in an effort to "tame the shrew," Katherine, played by Joy Mills. This reporter also thought that Edward Kuczewski did a fine job with a rapid, Jerry Lewis-like interpretation of the minor character, Grumio.

The Taming of the Shrew was "good theatre." It is a shame that the production could not have been held over, but hopefully the Union will continue to bring other creditable groups such as the National Players to the campus for the entertainment of the people of this area.

Sociologist To Give Two Lectures Here

Dr. James S. Brown, a rural sociologist, will deliver two addresses on State's campus next week.

Dr. Brown's first lecture will be at 8 p.m. Wednesday, April 1, in Room 100, Harrelson Hall. He will speak on "A Sociologist from Eastern Kentucky Looks at the Southern Appalachians."

At a luncheon the following day, Dr. Brown will discuss his research on the personal and social adjustments of migrants from the Appalachian region. This meeting will be held in Leazar Hall Cafeteria.

Dr. Brown, who is a native of Kentucky, holds an A.B. degree from Berea College and a Ph.D. degree from Harvard University. He is now on the faculty of the University of Kentucky.

Baseball Season Opens This Week

The 1964 edition of the Wolf-pack baseball team opens the season this week with a game every day from Monday to Friday. Next week the diamond men will play a game a day from Monday to Saturday. A total of 11 games in 13 days, all to be played in Raleigh and all against non-ACC teams.

The 12th game on April 6, will take the Pack to Greenville to meet the East Carolina team. The next 14 games will all be against Atlantic Coast Conference squads.

State's entire outfield of last spring will again be in uniform. They are Larry Clary, Warren Lineberger and Ronald Erb. Pete Parham, who paced the

Pack in hitting in 1963, will also return along with catcher Warren Cutts and shortstop Allan Baker.

The Pack's pitchers show a lot of promise. Buck Johnson, who shut out ACC champion Wake Forest last season, Frank Perkinson and last year's frosh standout, Bobby Hicks will see duty on the mound.

NOTICE

Soccer coach Max Rhodes, asks that the Varsity soccer team and anyone else interested in playing soccer, meet in Room 211, Carmichael Gymnasium on Monday, March 23, at 7:00 p.m.

Sigma Alpha Epsilon, Bragaw South No. 2 Are New Swimming Champs

Sigma Alpha Epsilon swimmers won two first places, one second spot, two third positions, and one fourth place in the fraternity intramural swimming meet last week to win the fraternity crown in that sport with 84 points. Phi Kappa Tau took second with 77 points, followed by Pi Kappa Alpha with 52, and Pi Kappa Phi with 43.

Bragaw South #2 won first place in three events and second in one race to take the dormitory crown with 73 points. Tucker #2 won the team medley event on the way to second place with 69 points. Owen #1 followed with 55 points for third place, and Tucker #1 had 43 points.

Rogers of Bragaw South #2 was the only double winner in the meet, with victories in the 25 yd. freestyle event and the 100 yd. freestyle race. His time of 11.1 seconds in the 25 yd. event broke the intramural record of 11.5 set in 1958 and tied in 1962.

Taylor of the same team took first in the 50 yd. backstroke event with the time of 32.2 seconds. Taylor also came in second in the 50 yd. breaststroke to complete the Bragaw South #2 scoring.

Bannan of Owen #1 took first place in the 50 yd. breaststroke in the time of 35.8 seconds. The 150 yd. team medley relay event was taken by Tucker #2 in 1:39.5.

In the fraternity meet, Smith of Sigma Chi took first in the 25 yd. freestyle race in 12.1 seconds. Second place Phi Kappa Tau took first in the 50 yd. breaststroke as Caldwell finished in the time of 34.2.

Pi Kappa Alpha took winning points in the 50 yd. backstroke race as Cockerham won in the time of 30.6 seconds, only .1 second off the record in that event.

SAE's Robinson won the 100 yd. freestyle event in the time of 58.6 seconds before his team mates took first in the 150 yd. medley relay in 1:35.

1964: YEAR OF DECISION

Well sir, here we go into 1964, which shows every sign of being quite a distinguished year. First off, it is the only year since 1954 which ends with the Figure 4. Of course, when it comes to Figure 4's, 1964, though distinguished, can hardly compare with 1444 which, most people agree, had not just one, not just two, but three Figure 4's! This, I'll wager, is a record that will stand for at least a thousand years!

1444 was, incidentally, notable for many other things. It was, for example, the year in which the New York Giants played the Philadelphia Athletics in the World Series. As we all know, the New York Giants have since moved to San Francisco and the Philadelphia Athletics to Kansas City. There is a movement afoot at present to move Chicago to Phoenix—the city, not the baseball team. Phoenix, in turn, would of course move to Chicago. It is felt that the change would be broadening for residents of both cities. Many Chicago folks, for example, have never seen an iguana. Many Phoenix folks, on the other hand, have never seen a frostbite.

This would not help make you NATO-minded!

There are, of course, certain difficulties connected with a municipal shift of this size. For instance, to move Chicago you also have to move Lake Michigan. This, in itself, presents no great problem, what with modern scientific advances like electronics and the French cuff. But if you will look at your map, you will find Lake Michigan is attached to all the other Great Lakes, which in turn are attached to the St. Lawrence Seaway, which in turn is attached to the Atlantic Ocean. You start dragging Lake Michigan to Phoenix and, willy-nilly, you'll be dragging all that other stuff too. This would make our British allies terribly cross, and I can't say as I blame them. Put yourself in their place. What if, for example, you were a British costermonger who had been saving and scrimping all year for a summer holiday at Brighton Beach, and then when you got to Brighton Beach there wasn't any ocean? There you'd be with your inner tube and snorkel and nothing to do all day but dance the Lambeth Walk. This, you must agree, would not help make you NATO-minded!

I appeal most earnestly to the residents of Chicago and Phoenix to reconsider. I know it's no bowl of cherries going through life without ever seeing an iguana or a frostbite, but I ask you—Chicagoans, Phoenicians—is it too big a price to pay for preserving the unity of the free world?

I feel sure that if you search your hearts, you will make the right decision, for all of us—whether we live in frostbitten Chicago, iguana-infested Phoenix, or narrow-lapped New Haven—are first and foremost Americans!

But I digress. We were speaking of 1964, our new year. And new it is! There is, for one thing, new pleasure in Marlboro Cigarettes. How, you ask, can there be new pleasure in Marlboros when that fine flavorful blend of tobaccos, that clean efficient Selectrate filter, have not been altered? The answer is simple: each time you light a Marlboro, it is like the first time. The flavor is such that age cannot wither nor custom stale. Marlboro never palls, never jades, never dwindles into dull routine. Each puff, each cigarette, each pack, each carton, makes you glad all over again that you are a Marlboro smoker!

Therefore, Marlboros in hand, let us march confidently into 1964. May good fortune attend our ventures! May serenity reign! May Chicago and Phoenix soon recover from their disappointment and join our bright cavalcade into a brave tomorrow!

© 1964 Max Shulman

We, the makers of Marlboros, available in soft pack or flip-top box in all fifty states of the Union, wish to join Old Max in extending good wishes for a happy and peaceful 1964.

WHERE ARE YOU GOING THIS VOCATION?

Young scientists and engineers "going places" investigate a variety of challenging engineering avenues before selecting one best suited to their goals. And they look for a professional climate with lots of individual recognition and advancement opportunity. If you are charting your career along this course, let Ling-Temco-Vought be your guide.

As one of the nation's most versatile contributors to the aerospace, military electronics and communications sciences, LTV can offer you a personalized route to an exciting and rewarding future in such areas as aerodynamics • avionics and instrumentation • operations analysis • dynamics • systems design • servomechanisms • stress analysis • propulsion •

communications design • reliability/maintainability engineering • reconnaissance systems • amplifier and computer systems • microwave components design • electromagnetic interference control • electronic systems analysis • telemetry and tracking • trajectory analysis • manufacturing r&d • industrial engineering • technical administration . . . plus many others.

For a closer look at the numerous career directions available with Ling-Temco-Vought, ask your Placement Office for our brochure describing LTV projects and products, then schedule an appointment with our representative. Or write College Relations Office, Ling-Temco-Vought, Inc., P. O. Box 5907, Dallas 22, Texas. Ling-Temco-Vought is an equal opportunity employer.

Date Set For Art Exhibit

All student virtuosos must submit their masterpieces to the Second Annual Student Art Competition on or between March 30 and April 7.

Any undergraduate student in the colleges and universities of North Carolina are eligible. Work may be submitted or mailed to the Union Main desk in any of four categories, paintings, sculpture, prints, and drawings.

Judging on April 8 or 9. The Union will exhibit the works April 12 through May 4.

Slater System Receives Praise

The Slater system received praise yesterday from North Carolina Health Department inspectors.

High praise was given for the condition of equipment, it was revealed. One inspecting official commented, "I have never seen cleaner glasses and silverware."

Ag Students To Appear On 'Aspect'

You may be on television Thursday.

"Aspect", a daily program produced by the Agriculture Communications Department at State, will feature Agriculture student activities and general student activities at 12:30 p.m. on March 26, on Channel 4.

Four students, Cole Porter, Bob Matthews, Carolyn Watson, and John Arnold, will present all aspects of extracurricular activities with pictures taken at random on the Campus.

This program will be repeated at 6:15 a.m. on Channel 5 on Friday. Then the program will go to the following stations throughout the State: Channel 7, Washington, N. C.; Channel 12, Winston-Salem; Channel 13, Asheville; Channel 8, High Point; and Channel 7, Charlotte.

Hal Reynolds, television editor of the Ag Communications Department and director and moderator for the program, said, "I feel that this program depicts student activities well and will be well-received by the public as representative of N. C. State."

Sweetheart Pictures

All fraternities wishing to have pictures of sweethearts run in *The Technician* should turn them in before IFC weekend, April 26.

Dorm '62 Featured In Cover Story

Dorm-62, the new 9-story dormitory at State, is featured in a two-page cover story in the current issue of "Contracting in the Carolinas."

The dorm, which will be ready for student occupation in the fall semester of this year, is a \$2,500,000 structure.

A picture story on the new 12-unit "Fraternity Row" is also included in the issue.

IF SHE'S NOT GETTING IN YOUR HAIR

...GET THIS

Those dainty fingers aren't about to play games in a messy, mousy mane! So, get with it! . . . get your hair *shaped-up* with **SHORT CUT**. Disciplines crew cut, brush cut, any cut; gives it *life!* Helps *condition*—puts more body, more manageability, more girls in your hair! Get it *today*. Old Spice **SHORT CUT** Hair Groom by Shulton . . . tube or jar, *only* .50 plus tax.

Exciting things are happening everywhere at Ford Motor Company!

After Ford's spectacular debut in last year's Indianapolis 500-mile race, many people wondered what we would come up with next. Well it's here! Ford Motor Company engineers have developed a brand-new V-8 especially for this year's competition at Indy. Although it's the same size as the 1963 version, this racing engine is a much "livelier" performer because of four overhead gear-driven camshafts and other refinements. Overall results of these revolutionary changes: an increase of at least 44 horses, delivering 420 hp or more at 8,000 rpm.

Ford engineers met many challenges in developing this engine. But this is just typical of the challenges being accepted every day by our employes . . . that's what makes Ford Motor Company such an exciting place to work. And not only in engineering. Exciting opportunities exist in manufacturing, finance, sales, marketing, industrial relations, purchasing, traffic, product planning, styling and research. All types of career opportunities for all types of graduates. If you're looking for an interesting career—look to Ford Motor Company. A growing company in a growing industry.
