Judicial Board Cancels Meeting On Argument

By BOB HOLMES

Last night's scheduled meeting of the Honor Code Board was cancelled due to a lack of a "constitutional reason" for such a meeting.

The judicial council was scheduled to consider the constitutional dispute between the Student Government and the Board of Publications. The controversy stemmed from the "Agromeck Resolution" passed by SG.

The Board of Publications is contesting the constitutionality of the bill by claiming that SG has no authority in such an area of student activity.

The basis of the SG argument is a clause in its constitution stating that "all groups organized for the benefit of student groups shall be responsible to the Student Government" (Article III, Sec. 2).

The Honor Code Board was asked to mediate the dispute by a special committee composed of members of the SG Investigations Committee and members of a special committee of the Board of Publications. However, such a request is unconstitutional according to Mike Scofield, chairman of the Honor Code Board.

Scofield pointed out Article VII, Section 4c of the SG constitution which states: "Upon the written request of the President of the Student Government or on the petition of twenty (20) members of the Student Body, the Honor Code Board shall have the responsibility, under its jurisdiction, of interpreting any part of this constitution and the constitutionality of any act of the Student Government."

Since no such request of the SG president or petition from the student body had been presented to the board, the scheduled meeting was termed unconstitutional at the present time.

SG President John Atkins, who was temporarily unaware of the situation, said he would draw up a formal request today for such a meeting of the Honor Code Board.

The telegram sent to the football team in Alabama was long enough to circle the room twice. Eddie Broadhurst is shown reading the cable to Coach Earle Edwards during breakfast. (Photo by Cashion)

2,237 Send Telegram To Football Team

Saturday morning at least started off right for the football team.

During breakfast in Tuscaloosa, the cheerleaders presented a 110-foot-long telegram to them. The telegram read, "In our hearts we know you are number 1. Wish we could all be there to see the victory. Rip 'em up, tear 'em up, give 'em hell State!" The cable was signed by 2,237 State students.

Each student whose name appeared paid five cents toward the cost of the telegram. The cheerleaders, and some of their friends, went to each student individually to collect the names.

According to Eddie Broadhurst, head cheerleader, it was an almost complete surprise to the team. Unfortunately, someone had asked a football player to sign. Head coach Earle Edwards, however, was completely surprised.

Broadhurst and 12 other cheerleaders unrolled the telegram and completely surrounded the team with it. It circled the room twice "with some left

over," according to Broadhurst.

The idea man for the cable was Assistant Sports Information Director, Gene Cherry. Cherry presented the idea to the SG officers who contacted the cheerleaders. Eventually, it ended up in Alabama.

Western Union reported that a "very fast" operator took two and one-half hours to punch the message, plus the time taken for it to go over the wire. It was transmitted early Saturday morning, after being delivered by SG.

The telegram is now on display in the trophy case in the Coliseum.

Selection Committee Chosen For Contest

Dean H. Brooks James, Dean of the School of Agriculture and Life Sciences; Dr. Henderson G. Kincheloe, Professor of English; and William T. Carpenter, head of the Agriculture Communications Department, will be on the committee choosing the winner of the Ag Council's contest to improve the name of *The Ag Student*.

The committee will decide upon the recipient of the \$5 prize for the best entry, according to Nell Beatty, assistant editor of *The Ag Student*.

The magazine's present name does not include the biological science aspect of the School of Agriculture and Life Sciences, added Miss Beatty. Also, the improved name should be brief, lively, and include the magazine's relation to the student in the School of Agriculture and Life Sciences, she said.

All students and faculty of the University are invited to enter. Entry blanks may be obtained from the feature section of Monday's *Technician* or a facsimile may be used. The entries should be turned in to Dr. E. W. Glazener's office in Patterson Hall or the Union Main Desk by Friday.

Homecoming Queen Contest in Full Swing

The Homecoming Queen Contest is now on. These are just a few of the lovely coeds eligible for the competition. They are (from left, top to bottom) Gail Shelley, Kathy Canaday, Julie Hill, Diane Davis, and Gerry Katz. Entries in the contest are due by October 23. Pictures must be submitted to 204 Peele Hall. The contest is sponsored by Blue Key, an honorary fraternity. Any organization or group may submit an entry. Last year's winner was sponsored by Burlington Dorm. (Photo by Cashion)

India Association Requests New Story

Rao Nivargikar, acting president of the India Association, has issued a statement to *The Technician* to clear up any discrepancies that may have arisen about the meeting of the India Association October 4.

Nivargikar stated the article appearing in the October 9 edition of the paper was misleading. According to him, the meeting proceeded as follows:

After a formal speech by President Ram Badan Singh, the question of election was taken up. In this respect, three nominations, (1) C. N. Nirmal, (2)

M. P. Sharma and (3) O. P. Chedha, for the president's office were made.

However, a fair portion of the assembly grew very enthusiastic, particularly over the issue of the basic qualifications of nominees for office-bearers. They hence expressed a keen desire to resolve such issue in fairness, once and for all, by framing a formal, well outlined basis, through a suitable constitution, to provide a common platform for the future activities.

At the suggestion of R. S. Dahiya, the assembly agreed to

accept Nivargikar as the acting president for the period, during which a constitution will be framed. For expediting this assignment, a committee of eight members headed by the new president has been formed.

Since Singh's tenure of office was complete and a new president was chosen, the members expressed their appreciation to him and his colleagues for their sincere services to the association. Singh is completing his Ph.D., shortly, in the Department of Genetics. In recognition of his qualifications, he has been offered a Class I post of Assistant Professor at the University of Punjab, India.

Seniors To Suggest Class Gift

Students who were disgruntled with last year's suggested choice of a senior class gift—a kiosk—will have a say-so in the choice of the gift this year.

Seniors may submit suggestions about the class gift this year, according to Carlos Williams, secretary of the Senior Class.

Williams encouraged all interested prospective graduates to turn in ideas about what the gift should be as soon as possible. The suggestions should be signed and mailed to Senior Class, Erdahl-Cloyd Union, North Carolina State; or may be turned in at the Union main desk.

The class officers, according to Williams, will review the suggestions and present a list of those which are economically feasible. These suggestions will be voted upon by the class on a special ballot to be printed in *The Technician*.

Underclassmen may also express their opinions concerning the prospects of a larger, more expensive, joint class gift, Williams explained.

It was emphasized that all suggestions should be turned in before December 1.

Williams would not comment about the chances of the Senior Class recommending a kiosk as an all-class gift this year, nor

would he comment on the possibility of an all-class gift this year.

The kiosk was proposed last spring by officers of the Senior Class and the lower class officers. The structure would have been located between Harrelson Hall and the Erdahl-Cloyd Union as a central area for displaying posters and as a newspaper vending area. It would have been financed by the combined revenues of the four classes.

The concept was defeated, however, in a general vote of the student body in the spring elections.

PP&M To Appear

Folksingers Peter, Paul, and Mary will appear at Duke Saturday at 6 p.m. after the football game.

The group, which performed at State last year, is being sponsored by the Duke Student Union Committee on Major Attractions. The general public is invited.

A special invitation to State students has been issued by Cathy Cordyack of the Duke Student Union Committee.

The performance is to be held in the Duke Indoor Stadium. Tickets will be on sale at the door for \$1.50, \$2, and \$2.50.

English Club Elects Officers

Glenn Rhodes was elected president of the new English Club at the club's first meeting Monday.

Also elected were Clene Pinix, vice president, and Rosina Coburn, secretary.

The club was organized to give English majors an opportunity to meet together informally. The group plans to set up the student lounge in Winston Hall primarily for English majors.

The club will meet again Friday night at 8 p.m. for the Contemporary Scene Lecture by Robert Penn Warren in the Erdahl-Cloyd Union Ballroom. After the lecture, the members will talk informally with Warren.

Off And On With WKNC

The fact that WKNC, the campus radio station, is off the air indefinitely isn't likely to raise many eyebrows, nor is it likely to bring a sharp retort from Student Government demanding that it return to the air.

The truth is that not many students will know the difference since they seldom, if ever, listen to the station anyway.

This isn't the first time the station has closed down. About this time last year Station Manager George Heeden closed the studios for two weeks for the same reasons this year's station manager, Bill Powell, has given. In both cases, the station was closed because the equipment needed overhauling and the staff was going to be reorganized.

The year before, when Lewis Nelson was station manager, six staff members resigned at one time in protest of the way the station was being run.

The major protest seems to be that the station managers and the staffs have disagreed with the overall programming. The staffs of the past two years have wanted to play more rock and roll music while the station managers have insisted upon classical, jazz, or folk music.

This year the staff is again faced with an indecision. Consequently, the whole programming is being changed, but for better or worse nobody knows.

Both Mr. Nelson and Mr. Heeden were in favor of setting high standards for the station by playing as little rock and roll as possible. Both wanted to offer the students a much more sophisticated program than the students themselves desired.

Consequently, it was just as easy for a student to tune in a commercial station as it was to tune in the campus station and apparently that is what the students have chosen to do.

WKNC serves a twofold purpose. One purpose is to offer students a chance to learn the techniques of operating a radio station. Many who have become interested in radio as a hobby have joined the staff and have pursued the profession after leaving the University. At the same time these students are fulfilling the second purpose by rendering a service to the student body.

The station has tried about every type of programming imaginable during the past two years in an effort to fulfill these purposes. Now it is making another attempt to revise and restore the station to the popularity it needs if it is to continue operating for the students.

Mr. Powell appears to have made a wise decision in closing down the station. He could have allowed it to continue to operate at its usual pace—poorly listened to and obviously uninteresting. Instead he has chosen to make some badly needed changes.

It is hoped that when WKNC returns to the air, the students will find a more interesting format and that the station itself will have cured its own ills at last.

CONTENTION

REVISED CONTROVERSY

To the Editor:

I was informed by a friend of mine that when the students pay their tuition and fees that the cost of the yearbook is included in the student's expenses. Therefore, I would like to make a slight modification in the letter that I previously wrote to you on the yearbook controversy.

The modification is a change in the wording of the main question which I presented to you. The question now is: Do you honestly believe that any of the underclassmen will pick up a copy of this year's yearbook, if their pictures are not even in it? I still hold to my speculation that about three-fourths of the underclassmen will not get a copy of this year's yearbook because of the picture situation. If this then is the case, it is therefore the duty of whoever is in charge to see that these students have their money refunded if they want it back.

I still believe that it is the duty of the yearbook editor and his staff to put together a yearbook and stay the hell out of politics. By politics, I mean the exclusion of underclassmen pictures and the changing of the name. If the editor and his staff would adhere to the following, then they might be able to get along with the student body:

1. Design a yearbook which is acceptable to the student body.
2. Keep the student body informed on what is happening.
3. Be able to accept outside ideas.

As I have stated before, I am willing to hear the editor of the yearbook's side of the story. If the editor and his staff cannot follow the above ideas as standard operational procedure to some degree, then it is their duty to inform the student body why they cannot do so, or they can resign.

Mark A. Henn

On The Campaign Trail

(Editor's Note: The following is the first of a series of background and platform information submitted by the candidates in the fall elections. The material is written by the candidates and, except for necessary editing, is printed as submitted. This coverage will continue until October 28, the day before elections.)

FRESHMAN CLASS PRESIDENT

Robert Swanson

Robert's background is a history of successful responsibility and leadership. He served his high school as a class president. During this time he proved to be such a capable leader that he was nominated for a second term. However, he declined because of his desire to serve on the yearbook staff for the experience that it would provide.

Within a few hours after high school graduation, Robert was on his way to fulfill his military obligation by volunteering to serve for three years as a paratrooper. Not only was he accepted as a paratrooper but he was accepted by the Army's elite Special Forces with which he traveled to South Vietnam. There he was decorated for distinguishing himself in combat against the Communist Viet Cong and was promoted to a non-commissioned officer at the age of nineteen.

Robert returned from Vietnam and served with the Special Forces for the remaining 16 months of his obligation as a sergeant. During this time he gained invaluable experience as a leader.

In June, at the termination of his three years in the service, Robert entered N. C. State to begin his studies in Zoology. During summer school he became quite familiar with N. C. State and realized that the freshman class would need a capable class president. Therefore, he has entered the campaign for freshman class president and is asking all freshmen to unite behind him and elect him. As the class president he feels that he can use his demonstrated maturity, ambition, and experience to produce the strongest, most capable freshman class in N. C. State history.

Food Complaints

The Cafeteria Advisory Committee will meet whenever necessary to consider suggestions from students, staff or faculty.

There are five faculty and five student members. The students are Gene Eagle, Doug Lientz, Bernard Smith, George Robert Johnson, and Clyde Alden Kaschub.

Anyone with complaints is asked to submit them to these students.

STEAMPIPES

By Bill Fishburne

Parking on the State campus is a real problem.

This brilliant statement will have to serve as an introduction to this column, for it is not a pleasant problem. Several examples of this problem must first be stated. Then a solution will be proposed.

The residents of Lee dorm have 40 or so parking spaces. There are 800 people in Lee. It takes 15 minutes to walk to Brooks Hall from Lee. The situation from Bragaw to Tompkins is little better.

There are no spaces in which to park that are empty west of Tucker after 9 p.m. A student who lives in Lee must either park in McKimmon Village or at the Coliseum. The best idea might be to give the car away.

This not the only area with a problem. Turlington, Syme, Gold and the Quad residents all have similar problems. The residents of Syme, Welch and Gold are asked to park in the mud field across from the Alumni Hall when no other spaces are available. This field would make a good test track for an Army tank. Besides, it is always full.

The staff area behind Brooks Hall is always full. The five faculty spaces between the tracks and Welch are always empty. An adjustment of five spaces will help some, but not enough. Last year these five spaces were reserved for students. The year before they were for the staff. Everybody is unhappy.

Another complaint: The "P" car spaces are reserved 24 hours a day. Yet there are always empty spaces on campus for these cars. If a student parks in one while attending a night quiz he will receive a two-dollar ticket. That is more than he would get for parking all day in the space reserved for police cars at the Court House.

The fines apparently are high for two reasons: 1) to provide revenue to finance the traffic control office and to build parking lots, and 2) to discourage violations.

Because there are so many cars on campus something will have to give. Lee and Bragaw are too far away from the main campus for a student to walk to class in a reasonable time. It is not that the students are lazy (I don't car how far their daddys walked; they are not lazy). There just isn't enough time for a student to walk to class, attend class, do homework, study, do laundry, eat, and exist in general.

The best way to help the students out of this time dilemma is to provide dormitories that are within walking distance of the classes, and to provide parking spaces for those who live too far away to walk. Maybe Lee and Bragaw residents could have special stickers to permit them to park in the front Coliseum lots or along Hillsboro Street.

The unhappy side of the story is that there will still be too many cars on campus. Perhaps a referendum could be held to decide whether or not freshmen should be allowed to have cars on campus. Another idea might be to restrict Lee and Bragaw to upperclassmen with bicycles and/or cars. Someone could make a fortune renting bicycles to students. Maybe the Students Supply Stores could do this, at their usual low prices. If Student Government got in on it the profits could be used to pave the red mud field or maybe to pay for the freshman and sophomore pictures in the yearbook. The Physical Education department might be persuaded to give an hour's credit to anyone who uses roller skates to commute from Lee to Brooks Hall.

If anyone thinks this column has become a little silly, he must realize that it isn't half as silly as the parking situation.

Apollo Club Debates Speaker Ban Law

By MIKE EDENS

"The present Communist policy of 'peaceful coexistence' is more dangerous than the openly tough Stalinist policy," declared Armistead J. Maupin, Raleigh lawyer, in a debate before the Apollo Club last week.

The evening's program pitted Maupin against the former chancellor of N. C. State, William B. Aycock, in a debate on the General Assembly's 1963 "Speaker Limitation Law."

The two attorneys were introduced by Dean Fred V. Cahill of the School of Liberal Arts, who read from the law itself, which, generally stated, is: "No person shall be allowed to speak at a State-supported college or university who is a known member of the Communist Party; who is an advocate of the violent overthrow of federal or state government; or who has invoked the protection at any time of the fifth amendment in regards to Communist activities."

The right of any Communists to speak at our colleges has been forfeited by their driving desire to destroy both us and our way of life, Maupin said.

Reading from the Internal Security Act of 1950, he said, "There exists a world Communist movement which, in practice, is a revolutionary movement whose purpose is, by any means, to establish a world Communist dictatorship, in which fear and terrorism would deny freedom of speech, worship, and of the press."

Aycock opened his answering speech by referring to the same laws that the preceding speaker had read, with the addition of a statute passed by the North Carolina General Assembly in 1941 which stated: "Be it hereby unlawful for any person by word of mouth to teach, advise, or publish a doctrine that the government shall be overthrown by violent means."

Aycock denounced the law for forbidding speakers with Communist affiliations from speaking here on even educational topics.

"Men of common intelligence must guess at its meaning and differ over its application," he stated. In attributing the unpopularity of the law to sloppy draftsmanship, he also declared there has been no definite need for such a law.

He expressed the idea that the law should either be expanded to cover the entire state or removed from the books, and closed with the statement, "My only objection to the law is to limitations that do not apply to all people in all situations."

Sports

Four Remain Undefeated In Fraternity Football

By MARTIN WHITE

Sigma Phi Epsilon, Sigma Nu, Phi Kappa Tau, and Sigma Alpha Epsilon continued to assert their football power this week as each won victories in their sections to remain undefeated.

The Sig Eps, Sigma Nu, and the PKT's have only two games remaining in the regular season and are assured of at least a tie for first place. A single win will assure the first place spot. Two teams in each of the first three sections are tied for the second position.

Two of the five teams in Section #4 have completed only two games, three have played three times, and one team has had four contests. Only one of these five teams is definitely out of contention for a first or second place.

SPE continued to dominate play in Section #1 with a 14-0 victory over its closest contender, Kappa Alpha. Doug Monday called the first TD on a short run after passing 20 yards to Pat Calhoun to set up the play. The second score came on a 24-yard pass from Monday to Calhoun. Both extra points were on passes from Monday to Mike Wagener.

Sigma Chi gained a tie for second place with KA in the section by defeating Sigma Pi 13-6. Ricky Wheelless passed to John Anderson and Webb Lankford for the scores.

Sigma Nu remained the undefeated leader in Section #2 with a 12-6 win over Theta Chi. Brisson passed to Riley for a Sigma Nu score in the first period and passed to Hendrix for the second TD in the final period. Riggins took the kickoff after the touchdown 43 yards for the only Theta Chi score.

Delta Sigma Phi hit for two scores in the first period and one in the second to down Alpha Gamma Rho, 18-2. The win put the Delta Sigs in a tie with Theta Chi for second place. Bare threw all three touchdown passes for the winners, hitting Darwin, Steele, and Paton.

Phi Kappa Tau kept its record unblemished with a 7-0 squeaker over Pi Kappa Phi. The lone score came on an intercepted pass by Harrison in the fourth period. Harrison went 30 yards for the score.

Lambda Chi Alpha forced a second place tie with PKP by defeating Farmhouse 32-0. After a scoreless first quarter, the winners tallied twice in the second, once in the third, and twice in the last period.

Sigma Alpha Epsilon, playing its second game of the season, defeated Kappa Sigma 13-6 to remain undefeated in Section #4. The winner's TD's came in the second and third quarters on passes from Penniger to Everett. Sigma Alpha Mu, currently the second team in the section (2-1) tallied in every period to defeat Tau Kappa Epsilon 33-6.

Pi Kappa Alpha Wins In Fraternity Golf Tourney

Pi Kappa Alpha scored a low 220 in Monday night's fraternity intramural golf finals to become the 1964 champions. Kappa Alpha (222) placed second in the meet, followed closely by Sigma Phi Epsilon with 223. Tau Kappa Epsilon came in fourth with a 235.

Other finalists were Pi Kappa Phi with 240 and Sigma Nu, 241. The scores were generally

higher than those of the qualifying round in which Kappa Alpha with 218 finished first and Pi Kappa Alpha and Sigma Phi Epsilon tied for second with 221.

Low individual scores in the qualifying round belonged to Martin of SPE and Seely of TKE with 50. Low finalist scores were Goodman of PKA and Duncan of SPE with 52.

Booters Top Campbell Then Lose To Maryland

By WALTER LAMNI

With six players scoring in a well-balanced attack, the soccer team defeated Campbell College Thursday, 9-2.

State started slowly, and after 7 minutes of play Campbell scored from a corner kick. Then with 3:45 left in the first quarter, All-Southern Jaime Ferrand evened the tally with a penalty kick. In the second quarter the State offense began moving. After three minutes All-Southern Benito Artinano converted a penalty. Ferrand and Artinano each scored again and State retired at half time with a 3-point lead.

The Wolfpack controlled the game from then on. In the third quarter Jaime Ferrand, Pedro Lozado, Tomas Rueda, and Manuel Mejia each kicked a goal. In the fourth, Campbell made their second point and State goalie Halis Alkis, playing center forward, converted a penalty for the ninth point.

State showed an excellent defense, due both to individual performance and to some of the best teamwork of the season. Halfbacks Rueda and Oner and fullback Levi were among those instrumental in keeping the ball in Campbell territory.

During the game wing Pedro Lozado, captain Benito Artinano, and co-captain Meté Kantar, who gave his best performance of the season in setting up many

crucial plays, were all sidelined with injuries.

With these three key players out of action, the Booters were host to league-leading Maryland Saturday afternoon. The Terrapin booters have been the ACC soccer champions for the past 11 years, and showed their power in a 6-2 win over the Wolfpack.

This brings the Pack's record to a 2-2 position. The next contest will be on October 16 against Carolina at Chapel Hill.

ARROW

BSU Forum To Discuss Campus Pressures At NCS

A panel composed of Dr. Robert Harper, a Raleigh psychiatrist; Dr. Karl Hanson, director of the Freshman Engineering Division; and George Needham, assistant director of Counseling, will focus on "Campus Pressures" at the Supper Forums Program of the Baptist Student Union Friday.

Harper is expected to clarify the general emotional pressures which students are under. Hanson will focus on the pressure

created by the academic weight load on a student, and Needham will speak from the point of view of the pressure involved in a student's vocational decision.

The panel members will make brief statements with questions from the floor and a discussion following.

The session is open to both State and Meredith students. Supper will be served at 5:45 p.m. with the forum beginning at 6:40 p.m.

Campus Crier

The Christian Science Youth Organization will meet tomorrow at 7:15 p.m. in the YMCA. All interested are invited to join testimonial meetings which are held every Thursday night.

Anyone interested in confirmation or in further study of the Episcopal Church is invited to inquirer's classes which are held Sundays at 4 p.m. in 204 King Religious Center.

The Math and Science Education Club will hold a picnic in Pullen Park Friday. Everyone in the club is invited to attend. Tickets may be picked up in the department office in Tompkins 104 this week.

The Coed luncheon meeting will be held today at noon in the Union Ballroom.

The Piedmont Sports Car Club will sponsor a Gymkhana Sunday at Doak Field. Registration time is 10 a.m. Practice runs are at noon, and the timed runs begin at 1:30. There will be television coverage.

Barry Allen in 108 Welch found an Imported Briar pipe on Oberlin Road. The owner may reach him at 832-9119.

Seniors interested in a career with the Federal Government are asked to attend the Federal

Service Entrance Exam. Ask for information in 239 Riddick.

The Board of Student Publications will meet today at 4 p.m. in the North Parlor of the YMCA. The agenda includes a discussion of *The Windhover* and *The Technician* budgets and a liaison committee report concerning the yearbook name change.

State's Soccer Team Wins Over Davidson

By WALTER LAMMI

In its fifth game of the season, the State soccer team yesterday beat Davidson, 5-2.

State controlled the ball throughout the game, but the offense was unable to organize itself until the second quarter. After 11 minutes of the second quarter, inside left Walter Lammi scored on a perfect lead pass from center forward Jaime Ferrand. Then in quick succession All-Southern Ferrand scored two goals to retire State at the half with a two-point lead.

Immediately after halftime Ferrand scored again. Then after 18 minutes of play he made State's fifth and final goal. In the fourth quarter State still had control most of the time

but, in spite of many close shots, was unable to score. In the last 30 seconds of the game Davidson converted a penalty kick for their second point.

To the effective defense goes much of the credit for the Wolfpack's decisive victory, in spite of the absences due to injury of captain Benito Artinano, co-captain Meté Kantar, and wing Pedro Lozado. Goalie Halis Alkis had to make few saves because of the playing of half-backs Moshe Feldman, Ruben Levy, and Ali Oner and of full-backs Dave Serbeck and Pablo Schick, who passed the ball to wing Wolfgang Dahle for many beautiful plays.

On Friday, State, now 3-2, travels to Chapel Hill in hopes of winning its first conference game.

Work with a group worth standing out in.

The more competent your co-workers are, the greater your satisfaction when they admire something you've done. And the better your chances are to learn so you can move on to additional responsibilities and rewards.

Boeing's world leadership in the jet transport field is an indication of the calibre of people you'd work with at Boeing. The forward-striding attitude responsible for this leadership has, since 1916, provided a steady succession of pioneering achievements: first twin-engine, retractable-gear, low-wing, all-metal airliner; first four-engine, pressurized airliner; first modern, high-performance bomber; first large swept-wing, multi-jet bomber; and, of course, America's first jetliner, the 707, and the 720 and three-jet 727. (Right now we're designing a variable-sweep wing supersonic transport.)

Boeing is one of the nation's major manufacturers of heavy transport helicopters (Vertol), and for more than two decades has pioneered most of the world's applications of the small gas turbine in aircraft, industrial, marine and vehicular fields.

And the space age? Boeing's contributions here include major contract responsibility for the Minuteman ICBM and NASA's Saturn V Booster — the launch vehicle destined to send America's first lunar landing team to the moon. We're also working full blast in all other phases of space flight, including a manned earth-orbiting laboratory and a lunar orbiter.

Projects underway in Boeing's extensive Scientific Research Laboratories encompass basic and applied research in celestial mechanics, solid state

physics, nuclear and plasma physics, terrestrial and space flight sciences and allied human factors.

Engineers and scientists at Boeing work in small groups, under supervisors picked for ability to inspire and promote the ideas of their associates. Individual initiative and ability get plenty of exposure that way. (The company encourages graduate studies at leading colleges and universities near Boeing installations.) Boeing is an equal opportunity employer.

We're planning to interview engineering and science seniors and graduate students on campus on the date listed below. So drop in at your campus placement office and arrange an appointment. We'll be looking forward to meeting you..

Divisions: Aero-Space • Airplanes • Vertol • Turbine • and Boeing Scientific Research Laboratories

ERASE WITHOUT A TRACE ON EATON'S CORRASABLE BOND

We can't be on perfect key every time, but typing errors needn't show. And won't on Corrāsable... Eaton's paper with the special surface that comes clean in a whisk with an ordinary pencil eraser. There's no smear or scar left in evidence when you type on Corrāsable.

Your choice of Corrāsable in light, medium, heavy weights and Onion Skin. In handy 100-sheet packets and 500-sheet boxes. Only Eaton makes Corrāsable.
