Prof Asks For Straw Vote

By THOM FRASER

Dr. Abraham Holtzman of the Department of History and Political Science has proposed that the gubernatorial and presidential candidates' names be placed on the October 29th election ballot.

The election, to be held a week from Thursday, is for freshman class and graduate positions and is also a school-wide referendum on two constitutional amendments.

In an interview with *The Technician*, Dr. Holtzman said that he felt this would be good for both the students and the school. He feels that the students themselves, most of whom cannot vote, want an opportunity to express their opinions; and furthermore, it would cause many who are apathetic to think and take a stand on controversial issues.

Secondly, Dr. Holtzman said, it would be good for the school in that it would create a greater interest in the election in general, and he added parenthetically, it could well give N. C. State some national publicity.

Biff Mullins, president of the History and Political Science Club, when asked about the proposal, said he personally was quite interested in it and was anxious to promote the idea.

In addition, Webb Lanford, chairman of the SG Elections Committee, said he was interested in anything that would increase participation in the election and referendum. The turn-out for the freshman election is very poor, he noted, usually only about 30 per cent.

"In order for a democracy to work," Dr. Holtzman observed, "every citizen must think and take a stand. And if students don't start here, when will they?" He feels his proposal will go a long way to help.

Campus Chest Committee Slates Yearly Campaign

Planning for the 1964 Campus Chest Fund Drive has begun. Although final plans have not been made, optimism for a successful year is running high among persons closely associated with this year's drive.

Harvey George, the moderator of the Campus Chest Executive Committee, said, "Increased spirit is evident on the campus this year as indicated by the increased participation in football games and pep rallies and I feel confident that the students will express their responsibility as members of this campus." He also stated that "Campus Chest is the only drive permitted to solicit funds on campus and the only drive dedicated to helping other people."

The "other people" which the Campus Chest Fund helps are the students and the community. Last year the Campus Chest financially supported the Student Emergency Fund, a short term loan service for N. C. State students, the Catherine Zeek Caldwell Memorial Fund, a scholarship fund for deserving and capable international students at State, and the World University Service. The Campus Chest also supported the Raleigh United Fund and Radio Free Europe.

Alpha Phi Omega service fraternity will again this year work with the Campus Chest Drive Commission in administering the project. The commission has indicated that the help of any interested students would be appreciated.

Duke Rolls In Final Period To Take First From State

During the first 22 minutes of the game at Duke Saturday the Wolfpack held a slim 3-point lead. Harold Deters and Page Ashby combined for the field goal in the first period. Coach Bill Murray of Duke stares intently from the background along with the Duke offensive team. (Photo by Wooden)

By MARTIN WHITE

Following State's 35-3 rout at the hands of the Duke Blue Devils, there can be no question as to where the power lies in the Atlantic Coast Conference. The Devils launched what is probably the strongest ground game to date in the ACC in gaining the number one spot in the conference.

The Wolfpack drew first blood in the contest as Harold Deters connected on a 46-yard field goal with 5:10 remaining in the first period. Tony Golmont set up the play with a 20-yard runback on an intercepted pass to the Duke 45. The Pack had moved 15 yards in six plays when Deters scored.

The State defense held its own throughout the first period and six minutes of the second quarter as they stopped the Devils on three drives to the State 26, 5, and 13 yard lines. Two Duke field goal attempts on the last two drives were unsuccessful, but on the second attempt things began to go wrong for the Pack. A State player was called for holding on the play and the following penalty gave Duke a first down on the nine-yard line. Three plays later, Duke led 7-3.

The following kick-off and a clipping penalty put the Pack in a hole that forced a punt on third down. Duke took over on their 44-yard line and moved to their second score 11 plays later.

ACC STANDINGS

	ACC	All
Duke	3-0-1	3-0-1
State	3-1-0	3-2-0
Clemson	1-1-0	2-3-0
Maryland	2-2-0	2-3-0
Carolina	1-2-0	2-3-0
Wake Forest	1-2-0	2-3-0
S. Carolina	0-1-1	0-3-2
Virginia	0-2-0	3-2-0

As the first half came to a close, State moved to the Duke 34-yard line; but a Skosnik pass was intercepted on the 15-yard line to end the threat and the half.

Action in the third period was evenly divided between the two teams with State having the only scoring opportunity. A Duke punt was returned by Bill James to the Duke 33-yard line. Two plays later Gary Rowe drove to the 27 but fumbled to give Duke the ball.

Early in the final quarter, the State defensive unit stopped the Duke attack on fourth down inside the seven-yard line to take possession of the ball. Then a curtain of doom descended upon the Pack, and stayed there for the final 12 minutes of the game as a State fumble on the Duke four resulted in the third Duke touchdown.

On the next series of downs, State drove to the Duke 24-yard line where Gutekunst intercepted a pass and raced 83 yards for the fourth Duke score. State again had ball possession only to have a third pass intercepted on the Duke 36-yard line, leading to the final score of the game.

In the closing seconds of the final period, State made its way to the Duke 22-yard line but was forced to give up the ball on downs.

The afternoon was a story of a massive Duke running attack and a devastating lack of control on the part of the Wolfpack. The Devils netted 319 yards, 224 of which came in the first half. Only 105 of the total yardage was needed to tally all five touchdowns. The real story of the game was State's three intercepted passes and two lost fumbles. Two of the interceptions and one of the fumbles resulted in Duke scores, while two interceptions and the other fumble stopped State drives deep in Duke territory.

	State	Duke
First Downs	9	21
Rushing yardage	77	319
Passing yardage	71	23
Passes	5-14	2-8
Passes intercepted by	1	3
Fumbles lost	2	0
Punts	5-40.5	2-48.5
Yards Penalized	51	48

Warren: 'Poetry Is Self-Satisfaction'

By JEEP BLACK

"Poetry is mainly self-satisfaction."

This is an opinion stated by Robert Penn Warren at the Contemporary Scene Lecture, Friday.

Warren, a Kentuckian by birth, is recognized for his work in all fields of literature.

Warren stated that "all the awards I have won only prove

that I own a typewriter."

He explained "I'm not a critic, I only put opinions on paper."

He added that "poetry is a way to privacy" and that poetry "is a way of providing an itch that becomes a philosophy."

He then read some of his poems including one in which a horseback rider is compared to the world as it moves from a peasant's point of view.

He also read two poems entitled "Little Girl One Year Old in a Ruined Fortress" and "The Child Next Door." The first compares the innocence of a child to the bloody fortress. The second one compares a 12-year-old girl to her deformed brother for whom she cares.

Warren also read two poems about the Civil War called "Two Studies in Idealism." In the first of the two poems, the killer attitude of a Mississippi plantation boy is described. The second poem gives contrast by presenting a Harvard boy who states that it is "ghastly impertinence" for "people who haven't the right to die" to just die.

His last two poems were taken from an unpublished set "Delight." Warren remarked that delight was "a very disturbing experience" because it disturbs a comfortable existence.

He stated, "I haven't written a short story in 18 years" because "short stories are work; poems are a pain, but not work."

Trent To Give Five Lectures

Again this year graduate students and faculty members will have an opportunity to hear Dr. H. M. Trent.

Dr. Trent is head of the applied mathematics staff at U. S. Naval Research Laboratory in Washington, D. C., and also holds an adjunct professorship in applied mathematics and engineering at this University. He is planning to give a series of five lectures on "Linear Graph Theory With Applications To Multiple Energy Systems" in November.

The dates are November 16, 17, 18, and 19 from 7 to 8:30 p.m. and November 20 from 4 to 5:30 p.m. The lectures are to be given in Harrelson 201.

The Mathematics Department Office requests the names of faculty or graduate students who plan to attend Dr. Trent's lectures.

Traineeships Available

The International Association for the Exchange of Students is making traineeships available to college and university students majoring in engineering and natural sciences to train with a company or institution in a foreign country. The traineeships are usually for an eight to 12 week period during the summer. A limited number of long-term positions are available.

Further information may be obtained from 205 Peele Hall or by writing IAESTE-U.S., c/o Engineers Joint Council, 345 East 47th St., N.Y., N.Y.

Sigma Xi To Present Research Program

Sigma Xi, honorary scientific research fraternity, is slated to present a program showing a cross section of research activities in the School of Engineering.

The fraternity, composed of faculty members and some graduate students, is presenting the symposium primarily to the faculty and graduate students in the schools of Engineering, PSAM, and Agriculture, according to Professor Jesse S. Doolittle, of the ME department. Doolittle commented that the program is primarily for the faculty and graduate students because the talks will be "over the heads of most undergraduate students except advanced seniors."

Three professors from ME, EE, and ChE will each give a 20-minute talk on their respective research projects. From the ME Department, Dr. F. O. Smetana will speak on "Rarefied Gas Flow in Closed Channels"; from the EE Department, Dr. R. W. Lade will speak on "Measurement of Semiconductor Surface Properties"; and from the ChE Department, Dr. J. K. Ferrell will speak on "A Study of Forced Convection Boiling Inside Channels."

Frank Thompson Theater, An Asset To State Students

It takes a lot of time, hard work, patience and determination to do what Ira Allen and Chet Stilwill are doing for N. C. State.

These two men, who are both men of distinction in the realm of the theater, are working well beyond the hours of the normal work week to see that this University has a first rate theater.

When Mr. Allen came to State a little more than a year ago to become director of the Theater Workshop, his enthusiasm was bubbling over. The concept of a theater was a relatively new thing to this campus. The year before, Rom Linney had attempted to arouse some interest in this field, but the idea just didn't seem to catch on.

Mr. Allen's enthusiasm paid off, however, and before the year was over, State students were on the stage and enjoying it. Plans were already underway to convert the old Frank Thompson Gym into a theater. In the meantime, the show had to go on in the Erdahl-Cloyd Union Theater.

The cast made the most of what facilities it had last year and produced a series of four one-act plays by Anton Chekov which ran for more than a month. However, Mr. Allen felt that the attendance was disappointing and attributed it to the fact that the students just weren't familiar with the theater. But no one gave up. The cast for the Chekov plays included 13 people, all but two of whom were students.

By the end of the spring, the future was looking bright. As the new theater appeared to be well on its way to completion, a new man was sought to assist Mr. Allen. But the addition of Mr. Stilwill in September didn't cut Mr. Allen's work in half. It meant that more could be accomplished.

Now both men work constantly not only with the cast but with the overall conversion of the old gym into an ideal theater, one that the University can be proud of.

The grand opening of the first play in the new theater is scheduled for November 6. The play will be *Antigone*.

Perhaps it is ironical that this particular play was chosen to be the first in the theater. *Antigone*, the heroic daughter of King Oedipus, was inspired with an excess of determination to do her duty.

Mr. Allen and Mr. Stilwill both have been overly endowed with a love for the theater and their determination to make it a success here is indeed remarkable. Like *Antigone*, they both possess a strong sense of duty.

But here the comparison hopefully ends, for *Antigone's* obsession with duty ultimately led to destruction.

It seems instead that the new theater is well on its way to becoming a vital part of the extracurricular and cultural activities of State students.

SNIDE REMARKS

To the Editor:

I wish to comment on the letter published on October 16, written by Mr. Carlos Williams.

I have met Mr. Williams on several occasions and I must say that his letter comes as a profound shock to me. As I understand it, Mr. Williams holds a high elected position in a fraternity whose reputation for producing fine, upstanding men is widespread. Had some alumni and former members of this fraternity read that letter, they would, I'm sure, be deeply disappointed by the attitude, language, and purpose of that letter.

I do not think that the letter in question should have been published at all! It did not attack an office or defend an issue, but it was a vicious and unprovoked personal attack on one Mr. Henn. Now, if Mr. Williams wished to attack Mr. Henn, I believe he should have done so privately. This letter was poor judgment on Mr. Williams' part and poor taste on *The Technician's* part in publishing it. Personal quarrels should remain personal and not public. To be sure, it is easier to conduct them at letter's length, but it takes more courage and honesty to settle them face to face.

As for Mr. Henn, I believe he, no less than any student, is entitled to his opinion. I do, however, question his choice of language at the end of his letter. Some people, and Mr. Williams and Mr. Henn both seem to fit into this group, seem to think that it is very grown-up or cute to use words like "hell" and "damn" in their public utterances. This is fallacious. Unfortunately, the lesson is seldom learned until too late. They may find this out when they leave

school and go to work for a reputable company. No company wants its reputation put on the line as a result of the offensive expletives used by some very junior employee.

Mr. Williams should remember that he too was a "tender freshman" once. And if he was typical, he too brought his year-book home to show off himself (whatever little there was) and his school friends to his family. Unlike Mr. Williams, a good many freshmen will ultimately go their four years with only their four pictures in four year-books to show their families. To some, this may sound silly and even sad. But for those who only have these "little pictures," as Mr. Williams puts it, they mean a whole world of memories. A fellow or girl can go four years unnoticed and a bit lonely, lost in the crowd that has caught them up, but at least they have that one little bit of a page all for themselves. I don't see how anybody can advocate taking that last one thing away without the overwhelming consent of the majority.

The kind of condescending dressing-down given to Mr. Henn was not only out of order, but not at all worthy of a man of his (Mr. Williams') age, maturity, and intelligence. This was not the letter of the responsible, fair-minded Carlos Williams I knew. This was the letter of an undisguised snobbery and conceit expected from much different quarters. Freshmen have their pride albeit they often seem to think that they know more than they do. But this is

all part of the metamorphosis one is supposed to go through at college. Freshmen still have the undeniable right to voice an opinion, however accurate or erroneous that opinion may be. We may not always agree with them, but one does not go about changing another person's views by snide remarks and public skewering.

I suggest that since Mr. Williams' attack was published and public, he make a published and public apology to Mr. Henn and bury that sort of hatchet forever.

I suggest that Mr. Henn, in his future public statements, confine his language to those words considered appropriate for arguing intelligently on issues. Mr. Henn should also seek all the facts possibly available before plunging into the fray.

Lastly, I suggest that *The Technician* redirect such letters as Mr. Williams' to the rightful recipient if that recipient is obviously neither the editor nor the student body. For whatever bad effect that letter had on Mr. Henn, *The Technician* must assume the bulk of the blame. *The Technician* is directly responsible for whatever Mr. Williams' character and respectability have suffered in the eyes of those who know and like him. And whatever poor opinions students have formed of these two, without ever knowing them, are a direct result of *The Technician's* terrible sense of judgment.

Brendan E. Smyth

SG and Me

By Bob Holmes

The upcoming fall elections may again reveal the peculiar political situation existing on this campus. It is much the same as the type of minority rule on the national level. However, on this campus, the minority seems to consist of only the fraternities.

Statistically, the members of fraternities comprise approximately less than 10 percent of the student body. Yet the number of fraternity members participating in campus activities is far out of proportion with this figure. Several of the fraternities actually "own" a large share of some of the various campus activities.

Election periods usually stimulate a flurry of activity in fraternity row and in off-campus houses. This year's leading activist may be the Sigma Nu fraternity. The Sigma Nus are reported to have set up an election headquarters at their house on fraternity row. Almost every contested freshman position has a Sigma Nu pledge on the nominations list. It would appear that an aggressive campaign is underway on the part of the Sigma Nus. However, the SAE house is also reported to be making noises in the same direction.

One of the fraternities has enjoyed particular success in such political maneuvering. The Sigma Chi fraternity has placed its members in such top campus positions as editor of *The Technician* and president of the student body.

This year, members of that fraternity may be found at virtually every level of campus activity. If these students do not occupy the top positions, they are in positions of considerable influence on matters concerning the student body. Examples of such positions are those members of Sigma Chi who occupy high, non-elective positions within the Student Government. The influence of these persons appears to have already been exerted on the appointments of the president. Together with the Sigma Chi members of the student legislature, they form an impressive nucleus for Sigma Chi within the Student Government.

Minority "majorities" such as the one existing on this campus are only possible when the physical majority is apathetic. Student apathy has been well indicated in the past campus elections. The coming elections may be only another example of such a situation. The fraternities are usually among the most active of campus groups. Lopsided percentages in representation are usually the result when one such group is far more active than another.

Since apathy continues among the "independents," the fraternities will probably continue to have a more powerful voice in campus student organizations such as the Student Government.

Throckmortimer

New Theater Almost Ready For First Play

IRA ALLEN (LEFT) AND CHET STILWILL
... working a 24-hour day ...

BY TOMMY ANTONI

The new Frank Thompson Theater, formerly the Frank Thompson Gym, is scheduled to open November 6 with a contemporary version of Sophocles' ancient Greek drama *Antigone*.

Director Ira Allen, who is designing the lighting for the play, said that he and his assistant, Chet Stilwill, who designed the set for *Antigone*, have found their work "extremely interesting and are planning a big opening."

The main floor of the old Frank Thompson Gym is being remodeled to incorporate a space for the stage and audience. According to Allen, the main chamber of the theater will be one large sound-proof room. This room is designed to allow various arrangements of the stage and seats.

In this manner, the room adapts to the play rather than the play adapting to the room, Allen pointed out. Entrances and exits to the room may be made by simply removing a panel of the wall. Present plans provide for the corridor which surrounds three sides of the chamber to be used as an art gallery.

This is a new design in theaters, Allen noted, because it is economical and in the majority of the seating arrangements, the audience is no more than five or six rows away from the actors. This reduces the problems of seeing and hearing often found in conventional theaters and puts "the emphasis on the actors, the director, and the play," Allen said.

Allen, who is in his second year with the Theater Workshop here, feels that the

"cultural development of any college is way ahead when it invests in a theater." The philosophy behind the Frank Thompson Theater is "to bring as much drama as possible to the State campus using any means possible," he said.

Antigone is the only drama to be presented this semester due to the remodeling, but three plays are scheduled next semester. The names of the three upcoming presentations have not as yet been announced.

Auditions for the Frank Thompson performances are open to all students, staff, and faculty members of State, and to all outside persons interested in trying out. The theater is located beside

Becton-Berry-Bagwell Quadrangle.

This year for the first time, the Raleigh Little Theater is working hand in hand with the Frank Thompson Theater. The Little Theater, located off Hillsboro Street on Pogue plans to produce five plays. The first play, *The Boy Friend*, will begin Wednesday at 8 p.m. Special student tickets may be purchased at the box office for \$1.25.

The original plans for a campus theater began two years ago. Rom Linney, producer and novelist, worked for a year organizing the workshop. Allen took over in 1963. Stilwill joined the staff last month.

Homecoming Queen Entries Solicited

All fraternities, dormitories, organizations, and interested individuals may submit entries to the homecoming queen contest until Friday.

Rules for the contest, which is sponsored by Blue Key Honorary Fraternity are as follows: Contestants must be single girls between the ages of 18 and 25. A full-length photograph and an 8¼-by-11 portrait accompanied by the name and age of the contestant and the name, address, and telephone number of the sponsor must be submitted to the Student Activities Office, room 204 Peele Hall in a self-addressed envelope by 5 p.m. Friday. The name of the contestant's escort also must be included. The entry must be a student at a North Carolina college or university. The pictures may be picked up in 204 Peele after the contest.

Members of Blue Key will select 10 finalists from the pictures submitted. Finalists will then be formally interviewed by the judges October 30 and 31.

The winner will be announced during the halftime ceremonies of the game and will officially be crowned Miss Wolfpack Saturday night in the Union at the Homecoming Dance.

Parents Invited To Visit Campus

Parents of new students are being invited to visit the campus Homecoming Day, October 31.

The invitation has been extended so that parents may learn more about State, visit the academic advisors of their sons or daughters, and enjoy a football game and barbecue luncheon.

The program will include a short meeting of new students and parents in the Coliseum from 9:30 to 10:15 a.m. From 10:15 to noon students and parents will visit academic advisors. At noon, a barbecue luncheon will be held in the Coliseum. The football game begins at 1:30.

Parents, students, and faculty advisors are invited to be the guests of the Alumni Association for the barbecue.

New students who wish to sit with their parents at the game may pick up student tickets and those for their parents October 29 and 30 using

the special permit which parents have received. Parent tickets are half-price.

Engineers Place First

The Agriculture Engineering Club's booth won first place at the student fair in the North Carolina State Fair.

Each year at the "fair within a fair," eight clubs decorate booths which support the fair theme in relation to their own particular branch of agriculture. These booths are judged and the best booth is awarded a trophy, while the second and third place booths each receive a plaque.

This year the club standings are in order as follows: Ag Engineering, Horticulture, Poultry, Animal Science, Ag Institute, Agronomy, Ag Education, and Pre-Vet.

Japan Philharmonic, Isaac Stern Coming Here

BY BILLI DARDEN

The Japan Philharmonic Orchestra will appear at State Thursday and Friday on its first American tour.

The orchestra will be joined by Isaac Stern, violinist, who will perform as guest soloist.

This is the second Friends of the College program this year.

The tour will take the orchestra to 16 states from New York to Hawaii as well as to Washington, D. C. and Canada.

Concert master for the group is Louis Graeler who was concert master of the Symphony of the Air, concert master of the New York City Center Ballet, and a member of the Kroll Quartet at the time of his appointment.

Stern has performed with all the major symphony orchestras in cities across the United States and Canada, in Europe, Russia, Israel, India, Japan, Australia, and South America. He has also twice toured the Soviet Union at the invitation of the Soviet Ministry of Culture and the U. S. State Department.

The concert will begin at 8 p.m. in William Neal Reynolds Coliseum both nights. State students may pick up tickets for themselves and a date from dorm advisors or at the information center of the Union upon presentation of ID cards.

Protest Movement To be Lecture Topic

The Negro protest movement will be discussed at the Contemporary Issues Lecture today at 1 p.m. in the Union Ballroom.

Professor William Edwards of the Social Studies Department and George Gullette, head of the department, will be the speakers.

ISAAC STERN

... to be here Thursday and Friday ...

- - Take Five - -

The Chinese Club will sponsor an international night with Chinese food and entertainment October 25 at 6 p.m. in the Erdahl-Cloyd Ballroom. Tickets are on sale at the Union information center.

The North Carolina State Museum of Art is presenting a show entitled *Young British Painters*. It will run until November 15.

The Latin Club will meet to elect officers in room 256-258 of the Union Friday. All Spanish speaking students are invited to attend the meeting which will begin at 7 p.m. Refreshments will be served.

All coeds and student wives are eligible to attend slimnastics classes starting tomorrow at 7 p.m. For room assignment, women may check in the locker room.

All interested students are invited to attend dance lessons sponsored by the Union. They are held Tuesday evenings at 7:30 p.m. in the Union.

The weekend film to be shown in the Textile Auditorium is "Advise and Consent." It will begin at 4, 6:30, and 9 p.m. Saturday and Sunday.

Instruction in bridge is available for beginners and experienced players at the Union Thursday at 7:30 p.m.

Three films in the series from the National Aeronautics and Space Administration will be shown tonight in the Union Theater. They are *Echo in Space*, a short version of *Project Echo*, *Father of the Space Age*, a following of Dr. Goddard's moon rocket research to the dedication of the Goddard Space Flight Center, and *The Flight of Faith 7*, Gordon Cooper's flight from pre-flight training to his landing in the ocean.

Cadet Hop Planned

This Saturday is the date of the annual Cadet Hop sponsored by the Military Ball Association.

The hop will begin at 8 p.m. in the Erdahl-Cloyd Union Ballroom. Music will be provided by The Tassels and tickets must be presented at the door.

Tickets cost \$2.50. They will admit all ROTC cadets to both the Cadet Hop and the Military Ball on March 27. Bret Massengill and his orchestra and The Embers tentatively have been scheduled for the Military Ball.

The Military Ball Association is currently considering holding the ball in the Coliseum this year rather than the Union which has been crowded for the past several years.

Five Teams Are Undefeated In Dormitory Football Play

Berry-Welch-Gold, Becton, Owen #1, Tucker #2, and Alexander survived the third round of action in the dormitory intramural football league to remain undefeated. Alexander and Turlington, both of Section #4, led all teams in scoring with 76 points for Alexander and 52 for Turlington.

Berry-Welch-Gold scored twice in the first and last periods to shut out Bragow South #1, 26-0. Garter ran three yards for the first score and caught two passes from Montgomery for the next two tallies. Taylor intercepted a Bragow pass and raced 40 yards for the final touchdown.

Mike Holthouser of Bragow North #1 kept his team in the section's second position by throwing three TD passes to overcome Lee #2, 19-7. Blythe received two of the tosses and Craver caught the third one.

Becton and Owen #1 found themselves in a first place tie in Section #2 as Becton topped Owen #2, 27-0, and Owen #1 won over Lee #1, 26-7. Mike York ran one score and passed to Wendland for two of the Owen #1 scores, Davis ran one and passed to Wendland for the other two touchdowns. Lee #1 had held a 7-6 lead until the second period.

Tucker #2 and Bragow North #2 played to a 0-0 tie at the end of the first half, but Tucker

tallied twice in the last two quarters to take a 25-0 win. Price ran one of the scores and caught TD passes for the other three. Colliar threw for one and Woodard connected to Price for the other two.

In the other Section #3 contest, Syme scored twice in the last period to overcome a 13-13 deadlock and defeat Tucker #1, 26-13. The two teams were tied at the end of the third quarter.

Both of the Section #4 games could hardly be called contests as Turlington trounced Lee #3 by a 52-6 score, and Alexander blasted Bagwell for a 76-0 win.

In the Turlington game, Cranford threw four TD passes, connecting to Buffaloe twice, and Tyndall and Broughton once each. Pope threw to Stout and Galbraith for two scores, and ran back an intercepted pass for another tally. Stout threw to Tyndall for the final score. McKeithan intercepted a pass and scored for Lee #3.

Leonard played an outstanding game in the Alexander victory as he was involved in seven of the 10 touchdowns. Leonard ran one score, passed to Cartwright and Creech for two touchdowns each, and threw to Mauro and Webster for two more scores. The other three tallies were made by Campbell on an intercepted pass, Creech on a run, and Moneyhan on a kickoff return.

Section #1	3-0
Berry-Welch-Gold	2-1
Bragow North #1	1-2
Bragow South #1	0-3
Lee #2	0-3
Section #2	3-0
Becton	2-0
Owen #1	0-3
Owen #2	0-3
Lee #1	0-3
Section #3	3-0
Tucker #2	2-1
Syme	1-2
Bragow North #2	1-2
Tucker #1	0-3
Section #4	3-0
Alexander	2-1
Turlington	1-1
Lee #3	1-2
Bragow South #2	1-2
Bagwell	0-3

Tar Heel Booters Stop Wolfpack, 4-1

By WALTER LAMMI
Carolina took the offensive immediately in the contest, scoring after 2:55 of the first quarter and again late in the same period. In the second quarter, State's teamwork improved and

after one minute Jaime Ferrand broke through the Tar Heel defense to score State's only goal of the day. Carolina retired at half time with a 2-1 lead.

In the third and final periods, the ball was in State territory most of the time. Carolina scored their third goal in the closing minutes of the third period and their last score came near the end of the game.

Center halfback Ali Oner and goalie Halis Alkis were defensive standouts for the Pack.

The booters have now compiled a 3-3 record and will be host to the Virginia squad this afternoon at 3:00.

I love a man in Van Heusen "417"!

You can tell he's important, ready to move up. That "V-Taper" fits and flatters his rugged, rangy physique, and the executive styling of traditional button-downs or crisp Snap-Tabs should take him to the top. Broadcloth or oxford, in all the greatest colors, oh man... that's the shirt for my man!

No limit on earnings. Finest fringe benefits and retirement program. For a chance to qualify for this outstanding career opportunity call 828-3416 for an interview.

STEP FORWARD WITH FORD MOTOR COMPANY

An Open Letter to the 1965 College Graduate from Donald N. Frey, Assistant General Manager, Ford Division of Ford Motor Company

Donald N. Frey was awarded a bachelor's degree in metallurgical engineering by the University of Michigan in 1947 and a doctorate in 1950. One year later, he joined Ford Motor Company as manager of the Metallurgical Department in the Scientific Laboratory. In 1962, Dr. Frey was appointed assistant general manager of the Ford Division with responsibility for all engineering, product planning and purchasing activities. He is 41 years old.

America's automobile industry is in the midst of a challenging era, with prospects of an even more exciting and demanding tempo in the years to come. Ford Motor Company is determined to achieve leadership in all phases of its operation. This leadership promises to bring lasting success to the company, its employees and its stockholders.

It will take people to accomplish this objective. Engineering, finance, styling, marketing, product planning, sales—all require people with the knowledge, judgment and personal drive to avail themselves of the unprecedented opportunities offered by a great industry.

The automobile business is growing. More cars are being bought now than ever before. With increases in population and consumer buying power, even more will be bought in the future. Realizing this, Ford Motor Company seeks to attract college graduates who have the capacity to grow with the company and the market.

Right now, our plans call for employing about a thousand of the best 1965 graduates we can find, with all types of educational backgrounds. We need specialists, but we also need persons with broad liberal-arts training who can handle a wide variety of assignments. Actually, in our company, many graduates grow into jobs totally unrelated to their degrees. They have discovered that Ford offers intellectually challenging opportunities for those with the ability to seize them. We invite you to make the same discovery.

Contact your Placement Office and arrange to see our representative.
