## Coeds May Move Beds

By JANEEN SMITH  
Watauga coeds finally may move their beds.

Prior to this, it has been a house offense to unbolt the beds from their positions. The Department of Student Housing and the Physical Plant had decided that the beds should be secured to the floor for safety reasons because of the top-heavy type of bed and the type of floor and wall.

Residents wishing to move their beds must complete a form and turn it in to the housing office. The Physical Plant will then unbolt the beds for a two-day period during which the girls can find the arrangement that best suits them. At the end of the period, the beds will be rebolted in the place they are found and not changed again during the school year.

## Dean Of Faculty Visiting Japan

N. C. State's dean of the faculty is visiting universities and other scientific institutions in Japan this week.

The dean, Dr. Harry C. Kelly, is traveling with a delegation from the National Academy of Science. The delegation is the second group of American scientists to visit in the Oriental island nation with invitations from President Sin'itiro Tomonaga of the Science Council of Japan.

Dr. Kelly is an honorary member of the Physical Society of Japan and an active member of the Pacific Science Board of the National Academy of Sciences. He came to State two years ago from a post as associate director for education and international activities of the National Science Foundation.

# VPI Gobblers Beat Wolfpack While Wake Trounces Duke

By MARTIN WHITE

It's not every day that a team can lose the game and take over first place in the conference, unless the game is a non-conference one.

State's loss to the Gobblers by a 28-19 margin was somewhat overshadowed by the win over Duke by Wake Forest that gave the Wolfpack the undisputed lead in the Atlantic Coast Conference championship race. A single game could now decide the hectic finish if the Pack can stop the Deacons of Wake Forest.

Saturday's loss to Virginia Tech greatly resembled last week's thrilling homecoming game with South Carolina, with the tables turned. This time it was VPI quarterback Bob Schweickert instead of Pack general Ron Skosnik who made a long run to decide the outcome.

State started off strong in the game, moving 67 yards on the second ball possession to take a 7-0 lead. Sophomore halfback Wendell Coleman completed the drive by taking a 15-yard pass from Skosnik for the score after 9:45 of the first quarter.

The fired-up Gobblers came right back to tie the score before the period ended, marching 63 yards for the tally.

A roughing-the-kicker penalty in the second period enabled the home team to take a 13-7 advantage on a 62-yard march. The roughing penalty gave VPI a first down instead of a first and ten for the Pack.

Bob Schweickert then came into his full potential at the start of the third quarter as he took the second-half kickoff and marched his team 70 yards down the field for their third score and a comfortable 21-7 advantage. Schweickert ended the drive with a 14-yard TD pass and then added a two point conversion on another pass.

Flight program advisor Major W. O. Wilson holds Cadet Lt. Col. Anderson's shirttail as it is cut off in the traditional post-soloing ceremony. The plane is a Piper Cherokee belonging to Avionics, Inc., of Raleigh-Durham Airport. (Photo by Lientz)

## Twenty-Two Cadets In Flight Program

By DOUG LIENTZ  
1st Battalion PTO, Army ROTC

A record number of cadets are learning to fly in Army ROTC this year.

Twenty-two men are participating in the Army Flight Program this year, compared with six last year. The large number

this year required the formation of two groups of flight students.

The first section of 13 cadets, which started flying about three weeks ago, will have every cadet in it solo by the end of this week. At that time, the second group will start flying, although the first group will have about three-fourths of its flight time

still to come.

The program consists of a ground school and 36 hours of flying time for each cadet participating in the program. It leads to a private pilot's license and on into Army Aviation when the cadet graduates from State.

The Government pays for the program, which is conducted through the facilities of Avionics, Inc., of Raleigh-Durham Airport.

Cadet Lt. Col. Buck Anderson, executive officer of the State Brigade, was the first of the new aviators to solo, but the rest of his group followed close behind him. It is hoped that all cadets will complete the program by the end of February.

## State Grads Win Awards

Three graduates of the School of Design have received regional awards of merit from the American Institute of Architects.

Richard Rice, Class of 1941, shared an award with his partner in a Raleigh architectural firm for the renovation of Memorial Auditorium in downtown Raleigh.

Two members of the Class of 1953, J. Hyatt Hammond and Alvis O. George Jr., received awards for designing the N. C. State Faculty Club. Hammond's wife won an award for the interior design of the club.

# Climate Of Learning Conclave Provides New Campus Horizons

By BOB HOLMES

The Climate of Learning Conference held this past weekend was termed a success by virtually everyone attending the meeting.

Dr. C. Addison Hickman of Southern Illinois University, the visiting lecturer at the conference, stated that the "Climate of Learning" could be called successful even if no really concrete plans resulted from the first meeting of that group.

A summation of the findings and proposals of the various deliberating bodies is to be compiled and forwarded to the individuals attending the "Climate of Learning" conference. Herb Sanborn, chairman of the planning committee, indicated that the ideas and procedures developed in the conference should not be allowed to die out but should be continued and enlarged over the course of the

year. In addition, Sanborn mentioned that similar gatherings might be held in the future.

The faculty and students invited to the conclave were divided into small groups for the consideration of particular "areas of the concern to the climate of learning at State." Studies of grading systems, faculty advisors, extra curricular activities, study loads of students, undergraduate research, specialized education, and faculty-student relationships were made by these groups. A summary of the group activities was given by Dr. Hickman at the halfway point of the conference.

The final meeting of the entire membership of the three-day conference was occupied with summarizing the results of the various small groups. The recorders, or secretaries, for each group presented the findings and suggestions of their respective divisions. Most of these groups

had moved into the consideration of other "areas of concern" as well as their own and several of the proposed solutions to the stated problems were found to be similar.

O. B. Wooldridge, one of the moderators and originators of the conference itself, stated that the planners had intended for the various campus leaders invited to take the proposals of the conference back to their respective activities and "turn the ideas into reality."

The setting for the conclave of students and faculty members was the Betsy-Jeff Penn 4-H Camp in Reidsville, North Carolina. According to members of the planning committee, the remote, off-campus location was deliberately chosen to provide the atmosphere of rapport between the students and faculty required for the conference.

## Library To Get Air-Conditioning

Contracts were let October 28 for the installation of air conditioning in D. H. Hill Library, one month after the original scheduling of bidding.

The delay, according to J. McCrea Smith, director of the Physical Plant, was due to a lack of interested low bidders. Smith also stated the work on the library should begin within the next week, and the job should be completed by May or June.

The contracts for the work were made with three local companies, Inland Construction Co., and Bolton Air Conditioning and Heating Co. of Raleigh, and C. W. Dixon, Inc. of Elm City. The construction bids totaled \$243,833.

The air-conditioning installation is part of a larger program of renovation and construction scheduled for the library, according to the library's acting director, I. T. Littleton. Also in plans for the future is the construction of a connecting building between the library and the present Union building, with the idea of eventually turning the Union into an undergraduate library.

The Pack broke into the scoring column for the second time in the game by taking the kickoff after the VPI score and marching 76 yards for the TD. Skosnik's arm was true again, hitting Gary Rowe for the score on a 39-yard play. The touchdown closed the Gobbler lead to eight points at 21-13.

The fourth period brought a possible tying opportunity for the Wolfpack as their third touchdown closed the lead to only two points at 21-19. Rowe had scored again on a pass from Skosnik covering 28 yards to end a 50-yard drive. The Pack went for two points and a tying score but the pass was broken up; 6:06 remained on the clock. It was still anybody's game.

State kicked off after the score and VPI took over on their 32-yard line. The first play from scrimmage netted only two yards, bringing a second and eight situation. Schweickert then put the game away for the Gobblers with a 66-yard run down the sidelines for the final score. A single point conversion provided a nine-point lead to put the victory out of reach of the Pack.

Ron Skosnik completed seven of 12 passes in the game for 115 yards and rushed for 52 more to total 167 yards. This is only the third game in which a State player has totaled more than 100 yards. Charlie Noggle did it against Virginia and Skosnik turned the trick last week against South Carolina.

VPI's Schweickert totaled 202 yards, rushing for 122 and completing seven of 12 for 80 more. It is the first time his team has defeated the Pack in eight years.

## Bridging The Gap Between Student, Faculty

The Climate of Learning Conference this weekend was a unique experience for N. C. State.

Faculty members and students gathered at the Betsy-Jeff Penn 4-H Center to discuss ideas for the improvement of the intellectual climate here. The two groups discussed such topics as the grading system, the workload and many, many others that contribute to the intellectual climate.

The outcome should benefit the entire University, for it is a step toward bridging the gap that so often exists between the students and the faculty. The University is so big that the faculty has little time to communicate with students outside the classroom. Few students have the time to sit down and discuss their opinions with the faculty on such issues as the improvement of the intellectual climate.

Students are too wrapped up in their day-to-day problems to give such ideas much serious thought. They usually have opinions, though, that the faculty would be interested in. The misunderstanding between the two factions on occasion has resulted in strife. But if there is an amicable relationship, the two groups could discuss the matters with some degree of mutual respect. Too often, it is much too easy for the students to jump to a conclusion without giving the faculty an opportunity to explain satisfactorily their viewpoints. The same applies to the faculty. They perhaps have too many other problems to take the necessary time and patience to justify their positions.

It is a give and take proposition that is just beginning to become a reality on this campus.

## Frank Thompson Theatre-It's Great

Congratulations are in store for all the people responsible for the Frank Thompson Theatre.

The theater opened this weekend with its first play, *Antigone*. The play itself is delightful. Anyone familiar with the original version of *Antigone* will no doubt find this version highly entertaining. It is the type of play that may be seen many times without losing its original impact, for it has a universal application to the understanding of man and life.

Directors Ira Allen and Charles Stilwill have made the best of an excellent opportunity to create a theater here. The cast and particularly the boys who have worked diligently with the lighting also deserve recognition for a job well done.

The play will continue for the next two weekends. We recommend that you see it.

## CONTENTION

ALL YOU CAN EAT—\$1  
To the Editor:

The purpose of this is to warn our fellow students from being taken in by this phrase. When I say "we," I am referring to these students who reside in Suite 607 in Lee Dormitory.

This was the title of a "special meal" which has been advertised by Howard Johnson's. We, the occupants, feel that this phrase has been used falsely. It is not what you can eat, but rather what they are willing to give you to eat. The advertisement should read:

"All We Want You To Eat—\$1"

We are referring to the meal which they serve every Wednesday night which is offered for this price. The meal consists of fillet of flounder, French fries, lime wedge, hush puppy, tartare sauce, cole slaw, and assorted rolls.

We, the occupants, have gone out there the last two weeks, and the same technique has prevailed on both occasions. As soon as we walked in the door, we were given the cold stare and could almost hear the waitress say, "Oh, no, not them again." Since they are required by law to patronize everyone, they cannot throw us out, so they concede to the fact that they must serve us.

We were hauled off to the back of the dining area where no one could see us for fear of damaging their business. We guess that they thought that with all the "big wigs" driving by all the time, we might discourage them from stopping. The waitress does not ask us what we want, she simply says, "fish and tea" with a tone of self-satisfaction at having guessed what we wanted, and then trots off to the kitchen.

If you are lucky you might not have to wait long or should we say, too long. Finally the "feast" arrives, and we look down ravenously at what she has brought. We have no bread or tea yet but with hope and good words, it will soon arrive. Finally all is within reach. Our day, meal-wise, is almost complete. After having classes all day, we are more or less appetites covered with skin. After

devouring the morsels they have brought, then it is now time to start thinking of what are known as "seconds." Don't count on it. They will humor you for a while by bringing a few pieces of fish and some French fries, but after a couple of plates, you might as well give up. There were five of us this week, and these plates barely made it around. And we weren't making "pigs of ourselves" either. You never see any more cole slaw, hush puppies, or bread. After politely asking the waitress six or seven times for something, and each time being more or less ignored, you can get rather discouraged. Then comes the cruellest cut of them all. The waitress comes by and says, "Are you still here." What can you say?

We realize that they are busy, and we are not complaining about having to wait for a while. But when you have to wait for 30 or 45 minutes, it is pretty hard. After a time, you will get discouraged enough to get up and leave. Besides there are other people waiting. Is it the fact that we are college students and cannot afford to leave the waitress a big tip? We don't know. We also realize that \$1 will only go so far, but they should not advertise this meal unless they feel they can fulfill their part no matter what the circumstances. We pay the price which is advertised; why can't we get what is advertised? It is the principle of the thing. Students, beware . . .

### WHO, FISH?

To the Editor:

Re: Steampipes, November 4.  
Mr. Fishburne, are you putting us on?

Jack Hilton

### Letters' Policy

"Contention" is an open forum in which *Technician* readers may express opinions in the form of letters to the editor.

All letters should be addressed to the editor and they must be signed. Names will be withheld by request only when the writer has justified reasons for remaining anonymous.

Any statements made by the letter writers are the writers' own opinions, not *The Technician's*.

## SG And Me

By Bob Holmes

Editor's Note: Today's column was written by Jim Robinson, a "Technician" Student Government reporter, who will be a regular contributor.

The Student Government legislature spent 45 minutes last Wednesday night settling the affairs of the students of N. C. State. The Budget and Finance Committee reported the near-\$10,000 budget of SG was almost one-tenth gone. Three other committees reported they had nothing new to report, but were working on getting something decided so they might have a better report the next meeting.

The only legislation introduced had its strongest point deleted, whereupon the bill was easily passed. The bill had been a student-suggested move to allow the whole student body to have more voice in the selection of homecoming queen.

Each State student pays \$1.65 for the support of student government. So far this semester five SG legislative meetings and one special session have been held. During these meetings, the Student Government has postponed judgment on the now-famous *Agromeck* issue until next spring, has held elections, has passed two procedural amendments to the State constitution, has reigned over homecoming, and has provided for judicial review committees. That makes five issues more or less settled, an average of one issue per meeting at a cost of about \$200 per issue, costing each student roughly three cents. The question is, did the students get their three cents' worth?

SG reacted to student opinion in *The Agromeck* name-change issue, it did not take the initiative. Little, if any creative thought was necessary to draw up the amendments dealing with elections procedures and count the ballots for the incoming freshmen and graduate officers. The fact is that SG has not initiated action this semester on any original, significant bill concerning areas outside of SG housekeeping activities.

SG representatives and officers have been placed in office to function as a thinking body, as well as a speech-delivering, election-running, school-spirited elite.

Perhaps they see their task to be one of collecting good ideas from students, faculty, and administration workers which can be turned into legislation, rather than one of bringing forth ideas of their own. One therefore might assume that no one on campus is having any good ideas, and that State has achieved such a condition of glowing academic and social health that we have no problems. In the light of this past weekend's activities at the Climate of Learning Conference, where campus faculty and student problems were aired with incredible frankness, such an assumption seems ridiculous.

At the first Student Government Retreat held September 5 and 6 at Camp Betsy-Jeff Penn near Reidsville, SG leaders met and discussed plans to do a better job for the University in 1965 than was done by SG in 1964. The student body has yet to see the benefits of such a retreat. SG members who attended the Climate of Learning Conference have been exposed to a wide variety of creative ideas for definite problems that exist on campus. Whether they will put this experience to the same use they did their own conference remains to be seen. The way is open for a great deal of productive effort.

The question that stands foremost in any evaluation of an organization is, "is this group justifying its existence and expense by its activities?" To put it bluntly, once again, are the students of N. C. State getting three cents' worth of action for three cents in expenses?

## Library Plans Holiday Hours

The D. H. Hill Library will through Friday from 8 a.m. through Friday from 8 a.m. to 11 p.m., and on Saturdays of Thanksgiving. During academic from 8 a.m. until 5 p.m. On demic holidays and between Semesters, the library opens at 2 p.m. and closes at 11 p.m.

The Stack service ceases at 9:45 p.m. on Monday through Friday nights during these periods. The library is open Monday 5:45 on Sundays.

New York City Ballet here for three days.

# N. Y. Ballet Here

Three ballets will be performed by the New York City Ballet as it is presented under the auspices of the Friends of the College.

The ballets the company is scheduled to perform are Raymonda Variations with music by Alexander Glazounov, The Four Temperaments with music by Paul Hindemith, and La Valse with music by Ravel.

The company is headed by principal dancers Jacques d'Amboise, Melissa Hayden, Jillana, Allegra Kent, Conrad Ludlow, Nickolas Magallanes, Patricia McBride, Arthur Mitchell, Francisco Moncion, Andre Prokovsky, Maria Tallchief, Violette, Vardy, Edward Villella, and Patricia Wilde.

General director of the company is Lincoln Kirstein. George Balanchine and John Taras are ballet masters. The New York City Ballet Orchestra is lead by principal conductor Robert Irving, and Hugo Fiorato is associate conductor.

Soloists during the engagement here will be Anthony Blum, Suzanne Farrell, Gloria Govrin, Deni Lamont, Sara Laland, Patricia Meary, Mimi Paul, Richard Rapp, Robert

Rodham, Suki Schorer, Earle Sieveling, Victoria Simon, Kent Stowell, Carol Summer, Roland Vazquez, and William Weslow.

During its first fifteen years, the New York City Ballet has presented 35 seasons at the City Center of Music and Drama in New York, appeared throughout the United States, made one Oriental and seven European tours, and has toured the USSR for eight weeks. The company opened the New York State Theatre at Lincoln Center in April of this year.

The most loudly acclaimed features of the company have been the superlative level of its classical approach to the art of ballet, its vigorous athleticism combined with sensitivity and understanding, and for the uniform excellence of its principal dancers, soloists, and corps de ballet.

Students may pick up tickets for the performances which will be held November 10, 11, and 12 from residence hall counselors and at the Union Information Center. The program will be performed in William Neal Reynolds Coliseum.

Vol. XLIX, No. 25

North Carolina State Station, Raleigh, N. C., Monday, Nov. 9, 1964

Section B

## - - Take Five - -

The Recreation Committee of the Union will sponsor a pocket billiards tournament November 17 starting at 6:30 p.m. The tournament will be held in the billiards room at the Union and will be a single elimination tournament. There will be no entry fee. Trophies will be awarded to the first and second place winners. Tournament rules will be posted November 16 in the billiards room. Persons interested in competing may sign up at the Game's Desk in the Union before 5 p.m. this Friday.

There will be a Contemporary Issues lecture today at 1 p.m. in the Union Ballroom. Professors Ragan and Brickwell will speak on "Will the New President Be Able To Do Business With the New Congress?"

Practical and written tests for obtaining a pass to the Union darkroom will be held at 7:30 p.m. tonight in the Craft Shop darkroom. Passes for old passholders will be renewed upon request.

The Lapidary Faceting demonstration scheduled for Thursday in the Craft Shop has been postponed until next Thursday.

The titles of the NASA space film series to be shown tonight at 7 in the Union Theatre will be "Missiles, Rockets, and Satellites" and "Orbiting Solar Observatory."

Atlantic Christian College is having the French "Swingle Singers" in a performance Wednesday in the ACC gymnasium at 8:15 p.m. Tickets are \$1 and \$1.50.

The week-end movie to be shown in the Textile Auditorium will be "Mr. Scoutmaster."

The two most recent art exhibits being presented in the Union are the "School of Design Faculty Exhibit" which is in the Main Gallery of the Union and an exhibition of paintings by Alta Alberga, a newcomer to Raleigh. The latter showing is in the South Lounge.

## 'In A Daze' Says Mary Ann

How would it feel to be elected Student Government senator, secretary of the freshman class, and homecoming queen all in one week?

According to Mary Ann Weathers, the State coed who just received all these honors, it is hard to believe. Miss Weathers said, in an interview with *The Technician*, "I'm just kind of in a daze."

The Liberal Arts major asserted she is not yet sure what field she will go into. "It will possibly be either counseling of some sort or I will teach Eng-

lish. I still have a couple of years to decide."

When quizzed as to the nature of her duties as homecoming queen, Miss Weathers said she has not been given any information concerning them yet. She continued, "I kind of hope there is something to do."

The Raleigh coed said she is in favor of the bill calling for revision in the process for selection of homecoming queen. She stated, "I think it's good because it will be more representative of the students. Of course, I think the way they did it this year was just fine."

## 'Antigone: Dramatic Debut'

The first production of State's new Thompson Theatre is underway.

The new stage arrangement which is formed by platforms of different heights which are all movable provides a versatile setting for the performance of "Antigone," a modern adaptation of the Greek play by Sophocles.

The play concerns not only dictatorship and religious belief, but also man's basic inability to understand and communicate with his fellow man.

Corrine Newman, the wife of State psychology professor, Slater Newman, plays the title role in the play.

After graduating from Northwestern University, she has been active in community theatre in Denver, Colorado, Mississippi, and Illinois. In Raleigh she has been make-up chairman at the Raleigh Little

Theatre and has participated in other backstage activities. Some roles she has played are Angeliq in "Angel Street," the shoplifter in "Detective Story," and Cherie in "Bus Stop."

Director Charles Stilwell, who studied drama at New York University and at the Pasadena Playhouse, has a two-fold job as he also plays the chorus.

Stilwell has planned a three-quarter round staging with walls which can be removed to form a stage for proscenium productions. They will hold scenery, drops, or curtains at almost any place. These may also be attached to a lighting grid over the theater shell.

The part of Creon is portrayed by Lloyd Kay, the Presbyterian minister in Benson. He has appeared in Raleigh Little Theatre productions of "Wonderful Town" and "Liliom." The former drama major of Florida

State University plans to combine his interest in the Theater with his work in the future in the form of study in religious drama.

Simon Parker, a Broughton High School math teacher, Craig Givens, who played in the Thompson Theatre Project "Swan Song" last year, and Eugene Seals, a State freshman, play the parts of the three guards.

An actress who played Lois Lane in "Kiss Me Kate" with the Carolina Playmakers, Gurdine Bliss, plays the nurse.

An Enloe High School senior is playing her part of Ismene for the second time.

The production will appear November 14 to 16 and again 19 to 21. Tickets may be obtained at the Information Center of the Union or by writing or calling the Thompson Theatre in care of the Erdahl-Cloyd Union.

## Mensa Group Formed Here

A chapter of Mensa, an organization for and limited to those with at least an Intelligence Quotient of 132, is being formed in Raleigh.

According to Charles R. Stone, acting local secretary, State students and faculty are invited to apply for membership in this latter-day brain trust.

The purpose of this society is research in psychology and social science, in addition to providing contact among the intellectual elite of the population. General meetings are held monthly, usually with a special speaker. These are either in member's home or some public facility.

"Mensa" is the Latin word for table, the name coming from the concept of the society as a round-table. The idea for such a group was originally proposed in 1945 by British Professor Sir Cyril Burt during a broadcast over the BBC. The idea was later taken up by a barrister, Roland Berrill, Esq., who founded Mensa later that year.

There are presently approximately 6,000 active members in 50 countries, about half of whom are American. Membership is not limited by age, race, or educational level, and members represent almost every field of endeavor.

The applicant for membership first takes a preliminary test at home unsupervised. Then a supervised test is administered locally. In Raleigh this is being done monthly.

In this area interested persons should contact Charles R. Stone at 829-3235, and the preliminary tests may be obtained by writing the American Mensa Selection Agency, P. O. Box 86, Gravesend Station, Brooklyn, New York.

Marty Bell, Stuart Taylor, Bart Lewis, and Bill Ackee work at lighting in "Antigone."

## Booters End Season With Win At Campbell

By WALTER LAMMI

Friday afternoon, in the last game of the season, State's soccer team won its seventh victory against four losses by defeating Campbell, 8-0. This contest ended the best season in the history of soccer at State, in both overall record and conference standings, where the Pack defeated Duke and Virginia for a third place finish.

State took immediate command of the game in spite of the high partisan homecoming crowd at Buies Creek and the unfamiliar sensation of playing under the lights. One minute after kickoff the team was awarded a penalty kick which Captain Benito Artinano converted for a 1-0 Pack lead. Shortly afterwards, Jamie Ferrand scored and then scored again on a free kick to stretch the lead to 3-0. In the second quarter Artinano made his eighteenth and last point of the season and his college career to retire State with a 4-0 half-time lead.

Soon after the half, Co-captain Mete Kantar, playing his best game of the season in spite of a leg injury, centered the ball from a corner kick into position for Ferrand to head it into the

net. Pedro Lozada then connected for State's sixth point on a penalty conversion.

In the last period Campbell remained unable to score or to slow down the pace of the game. Jaime Ferrand rounded off his scoring efforts with his fourth point of the game and twentieth point of the season. Then Losada finished the scoring for the day with State's eighth point.

After the game, the elated Wolfpack carried coach Max Rhodes off the field and put him in the showers in the traditional token of appreciation. Later Captain Benito Artinano presented him with a plaque from the team, commending his efforts on their behalf.

This year the team loses six graduation seniors: Benito Artinano, Mete Kantar, Pablo Schick, Dave Serbeck, Moshe Feldman, and Ismail Misirli. Artinano, team captain and leader for three years and an All-Southern player last year, leaves a gap in the lineup that will be hard to fill. Kantar, the team's co-captain, was an important factor in every victory in spite of a series of injuries. Pablo Schick, Dave Serbeck and Moshe Feldman were first-string defensive players that will be hard to replace.

## Virginia First, State Last In Non-Conference Action

### ACC STANDINGS

Duke	1-1-0
Carolina	1-2-0
Wake Forest	1-2-0
Maryland	1-2-0
S. Carolina	1-2-1
STATE	0-2-0

Virginia, with a 4-0 record, is first place in the Atlantic Coast Conference against non-conference competition while the Wolfpack of N. C. State with an 0-2 mark is eighth place. This is exactly opposite from the standings in ACC competition with State's 5-1 mark taking first and Virginia's 0-4 record being last.

In overall non-conference action, the eight ACC teams have accumulated a 10-14-1 record with Virginia having the only winning record and Duke break-

ing even at 1-1. Georgia Tech heads the long list of non-conference winners against ACC teams, having beaten Clemson and Duke. Georgia with wins over Clemson and Carolina is also undefeated in the ACC, but was tied by South Carolina. There are nine other undefeated competitors. Army is the biggest loser, being beaten by Duke and Virginia. Virginia Tech is the only team that has won and lost against ACC competition.

In the eight weeks of the college football season to date, 19 outside teams have played Atlantic Coast Conference football. In the two remaining weeks, one more non-conference team will meet an ACC squad; this will be Florida State this Saturday against the Wolfpack.

## "If's, And's & But's" Intramural Schedule Includes Fifth Sport

### ACC STANDINGS

STATE	5-1-0	5-3-0
Duke	3-1-1	4-2-1
Carolina	3-2-0	4-4-0
Wake Forest	3-2-0	4-4-0
Clemson	2-2-0	3-5-0
Maryland	2-3-0	3-5-0
S. Carolina	0-3-1	1-5-2
Virginia	0-4-0	4-4-0

If State beats Wake Forest, then the Wolfpack will be the 1964 Atlantic Coast Conference champion; but if Wake Forest beats State and Duke beats Carolina, then Duke is the king; but if Duke and State lose and Wake and Carolina win then there will be a three-way tie for the conference championship. WOW!

A victory by State over the Deacons would certainly be the simplest way to end the 1964 season in the ACC, for the crown would be decided by one game. For Duke to win the title, two games would be involved; and for the three different ties possible, almost all of the remaining ACC games are involved.

After eight weeks of football

action, the conference championship hovers in the skies over North Carolina with all of the "Big Four" teams still in the running. Clemson is out of the conference race due to its six-game conference schedule.

The five possible endings and the circumstances necessary are listed below:

- State to Win**
- 1) Win or tie at Wake
  - 2) Lose at Wake Forest
- Duke to Win**
- 1) Win or tie at Carolina
  - 2) Wake over State
- State & Carolina to Tie**
- 1) Carolina over Virginia
  - 2) Carolina over Wake
  - 3) Carolina over Duke
- Wake over State**
- 1) Wake over S. Carolina
  - 2) Virginia over Carolina
  - 3) Wake over State
- Carolina over Duke**
- 1) Carolina over Virginia
  - 2) Wake over S. Carolina
  - 3) Wake over State
- Carolina over Duke**

Action in the intramural leagues gets into full swing this week with the addition of bowling to the schedule. This is the third sport of the week and the fifth of the season. Football, volleyball and bowling are the current sports with track and golf already completed.

Football in the fraternity league will be completed this afternoon with the championship game between Sigma Chi and Theta Chi. Dormitory football begins its playoffs with the first round this afternoon.

Volleyball in both the fraternity and dormitory leagues begins its third round of action with the dorms playing Monday night and the fraternities on Wednesday night. The bowling schedule starts with the Greeks playing on Monday nights at 9:00 and the dorms playing on Wednesday nights, also at 9:00.

In the near future, the annual Dixie Classics Basketball Tour-

ament will begin. The tournament is open to the first 64 teams that enter. At present there is still room for more teams. The tournament is a good opportunity for everybody to get a chance to play basketball prior to the beginning of the regular basketball schedule.

## Graduation was only the beginning of Jim Brown's education

### Because he joined Western Electric

Jim Brown, Northwestern University, '62, came with Western Electric because he had heard about the Company's concern for the continued development of its engineers after college graduation.

Jim has his degree in industrial engineering and is continuing to learn and grow in professional stature through Western Electric's Graduate Engineering Training Program. The objectives and educational philosophy of this Program are in the best of academic traditions, designed for both experienced and new engineers.

Like other Western Electric engineers, Jim started out in this Program with a six-week course to help in the transition from the classroom to industry. Since then, Jim Brown has continued to take courses that will help him keep up with the newest engineering techniques in communications.

This training, together with formal college engineering studies, has given Jim the ability to develop his talents to the fullest extent. His present responsibilities include the solution of engineering problems in the manufacture of moly-permalloy core rings, a component used to improve the quality of voice transmission.

If you set the highest standards for yourself, enjoy a challenge, and have the qualifications we're looking for — we want to talk to you! Opportunities exist now for electrical, mechanical and industrial engineers, and for physical science, liberal arts and business majors. For more information, get your copy of the Western Electric Career Opportunities booklet from your Placement Officer. And be sure to arrange for an interview when the Bell System recruiting team visits your campus.

## Campus Crier

The American Institute of Chemical Engineers will meet Tuesday at 7 p.m. in Riddick 11.

Found: A white manstyle jacket in Leazar belonging to Mac Allen. The owner may contact Paul Allred in 302-B Lee Hall.

Lost: A white London Fog jacket in Leazar. Initials L.E.A. are on the collar. If found, return to Lynn E. Aiken, 118-B Bragaw. Phone 828-3091. A reward is offered.

Written and practical Dark-room Test for darkroom pass will be given tonight at 7:30. Students are required to sign up in advance. Those having passes from last year may apply for a new pass at any time.

The Food Science Club will meet Tuesday at 7 p.m. in 110 Polk Hall. Dr. Ivan Jones will be the guest speaker.

The YMCA will meet tonight at 9:30 in the YMCA. Representatives of Special Forces will speak and show films about Viet Nam.

The Student NEA and Math and Science Education clubs will meet Tuesday at 7:30 p.m. in room 114 Tompkins Hall. H. Carroll King, director of athletics for Raleigh Public Schools, will speak on the topic of public health education.

States Mates will hold their monthly meeting tonight at 8 in the Erdahl-Cloyd Union Ballroom. Miss Jean Holtzman from Troutman's College of Hair Styling will give a demonstration; a social hour will follow. All girls who are wives of students are invited.

Found: Ladies' make-up bag adjacent to campus. Coll TE 3-0697 and identify.

The ASCE will meet Tuesday night at 7 in Mann Hall.

## Lee Dorm Parking Problems Improved

The parking situation has been improved around Lee Dorm due to the addition of approximately 116 new spaces.

N. B. Watts, director of Student Housing, said these spaces were formed through a new lot on the south side of Lee and on

the road between Lee and Bragaw by restricting it to one way (south) traffic while placing 38 diagonal parking spaces on it.

Watts said that no spaces were planned for Sullivan Dorm which will be behind Lee,

due to the increase in building costs and the limited amount of money which may be spent on housing per occupant.

## GOING OUR WAY?

If you're mapping out your career destination, Ling-Temco-Vought offers a wide choice of exciting and challenging routes to your personalized goal.

Here at LTV, young, alert engineers are "going places" in the fields of aircraft, missiles, space, mobile surface vehicles, weapons systems, ground and airborne communications, electronics, and range services. Supporting these activities is an excellent engineering climate providing the opportunity to contribute and professional advancement which is a direct function of the contribution. Assignments are diversified and stimulating in such areas as: aerodynamics • avionics and instrumentation • dynamics • systems design • propulsion • stress analysis • communications design •

telemetry and tracking • reconnaissance systems • amplifier and computer design • electromagnetic interference control • technical administration . . . among others.

In addition to a rewarding professional environment, LTV offers engineers the opportunity to earn advanced degrees through company-financed graduate education programs.

Before selecting your industrial home, investigate the career avenues available with Ling-Temco-Vought. Get complete details from your Placement Office or write College Relations Office, Ling-Temco-Vought, P. O. Box 5907, Dallas, Texas 75222. LTV is an equal opportunity employer.
