Military Ball Weekend Set

By MIKE EDENS

The ten beauties pictured above will vie tomorrow afternoon at the Chancellor's house for the titles of Honorary Colonel and two Honorary Lieutenant Colonels of the Military Ball.

Selection of the winners will be made at an informal tea between three and four p.m. tomorrow. Judges for the event will be Mrs. Caldwell, Bob Bandsuch (Burton's Apparel), Betty Elliot (WRAL-TV), Dick Snavely (Raleigh Little Theater), and Margaret Brickold (WPTF radio), noted individuals in the field of fashion news.

According to Mrs. Caldwell, the final selections will depend mainly upon manners, poise, and personality in general, the beauty having already been determined.

The Honorary Colonel and her court will be presented as part of the central figure during the program, which will also include presentation of the permanent members of the Military Ball Association, and the commanders of the sponsoring organizations.

Among those who have already accepted invitations to the Ball are Chancellor and Mrs. Caldwell; Maj. Gen. Richard L. Jewett, USAR; Maj. Gen. George S. Speidel, Jr., USAR; Col. J. D. Howder, PAS; Col. L. M. Kelly, PMS; and all of the

Army and Air Force cadre.

Sponsors for the Military Ball will be Ann Breedin, for Cadet Lt. Robert D. Vaughn; Nancy Rouse, for Cadet Maj. Allison D. Allison, II; and Mrs. Sandi McAllister, for Cadet Maj. Howard W. McAllister, Jr., who represent the groups that plan the ball—Arnold Air Society, Scabbard and Blade, Pershing Rifles, and the Association of the United States Army.

The Erdahl-Cloyd Union will be decorated with various scenes emphasizing the theme of the ball, "On Watch Around The World," including a Japanese tea garden, with a running fountain. The program will include door prizes and various presentations, backed by the music of the Embers and Bert Massengale's Dance Band. Rooms maintained by the individual organizations will be on the second floor of the Union. Photographs and individual portraits will be taken by a photographer in the second floor music lounge.

Tickets will remain on sale in Brigade and Wing Headquarters today, and will be sold at the door tomorrow night. The main floor of the Erdahl-Cloyd Union will be closed tomorrow afternoon for decorating, and the downstairs snack bar will close prior to the ball to allow for clearing the building for the dance.

No NSA Vote Will Be Held

The student legislature on Wednesday night decided not to hold a student referendum on whether or not State should disaffiliate with the National Student Association.

Other action included the introduction and unanimous approval of a resolution encouraging the General Assembly to consider possible ways of providing facilities for the music department, a decision to draw up a resolution asking the administration to consider ways of financing dorm building other than by increasing student housing fees, and an introduction to

the concept of moral rearmament.

The NSA referendum will not be held because last year SG passed a bill stating that disaffiliation with NSA may be made either by a majority vote of the student legislature or by a petition of 15 per cent of the student body for a referendum, according to SG Vice-President Terry Lowder.

Lowder apologized for allowing the legislature to debate for "some two hours" on the subject. He then declared all action last session, during which it was decided to hold the referendum, "null and void," and the legislature voted 21-20 to uphold his ruling.

WKNC Extends

Time, Programs

WKNC, the student broadcasting system, is extending its broadcast hours. Until now, the station has been on the air only five hours daily, from 6 p.m. until 9 p.m., and from 1 a.m. until 3 a.m. Beginning Monday, March 29, WKNC will be broadcasting continuously nine full hours, from 6 p.m. until 3 a.m. The original programming has not been changed, however the new hours will add new programs and announcers.

The schedule from 9 p.m. through 12 midnight will have the format of music by request and will be entitled "By Request." Several regular features can be heard nightly including a late edition of Campus Bulletin Board, and Communique-30, a thirty-minute national, state, local, and inter-Consolidated University newscast at 11:30 p.m. A new program, "In a Velvet Mood," with music of a romantic type, will be broadcast nightly from 12 midnight until 1 a.m. At that time, the program "Music 12-A" will begin as in the past and continue until 3 a.m.

The new shifts created by the added hours are being filled by a newly trained staff of announcers taken from the spring semester recruiting program. They are: Gary Smithwick, Paul Matthews, Jimmy Layton, Larry Stone, Bill Fabry, and Al Vance.

Senator Billie Jones, PSAM senior, introduced a resolution requesting the Appropriations Committee of the General Assembly to "give all possible consideration" to providing a building for the music department, in view of their losses in the Pullen Hall fire. The rules were suspended because, said Jones, the Committee meets tomorrow night. The bill passed unanimously.

Senator Jones also protested the administration's decision to increase housing fees. The primary reason given for the increase is that dorm building at State must be self-liquidating, which "is not the best way to build dorms," Jones said. He pointed out that a private firm could build a dorm on campus and lease it back to the university. This plan, which Jones said, has been successfully carried out at Ohio State, calls for the expense of the dorm to be paid by the people living in it. "It is very unwise of the University to persist in the self-liquidation policy without any consultation of the students," Jones concluded. He was asked to draw up legislation dealing with the problem and to introduce it next session.

The SG meeting was preceded by a short talk and a film on moral rearmament.

A speaker for moral rearmament, Richard Wain, will present a lecture on the subject at the Erdahl-Cloyd Union April 2.

Campus Crier

ASME will meet March 30 at 7 p.m. in Broughton 111 for a student papers contest. Refreshments will be served.

The Industrial Arts Club will meet March 30 at 7:30 p.m. in room 4 of Tompkins Hall. Two films will be shown.

Students interested in trying out for the freshman fencing team report to room 115 in Carmichael Gym April 5 at 8:30 p.m.

Applications for membership in the sophomore honor society, The Order of Thirty and Three, are now available in 351 Daniels. Students who are sophomores may nominate themselves or any other sophomore. Members are selected on the basis of character, satisfactory academic average, and demonstration of leadership in extracurricular activities. Nominations are due by April 1.

The Westminster Fellowship will meet Sunday at 6 p.m. in the West Raleigh Presbyterian Church for a report on the 1965 General Assembly of North

Carolina by members of the legislature.

The Wesley Foundation will hold an election of officers Sunday at 6 p.m. in the Fairmont Methodist Church.

Seniors may still place orders for graduation announcements at the Student Supply Store.

The Baptist Student Union (Continued on Page 4)

Interview Schedule

Students may sign up for interviews at 239 Riddick with the following company on March 30. The company will be on campus April 13.

Youngstown Sheet & Tube Company—ME, EE, IE, MTE, ChE.

Note: This completes the list of employers to visit the campus this spring. Any additions will be posted on the bulletin board outside Room 239 Riddick.

Limited Repairs To Date

Plans Being Prepared For Restoration Of Peele Hall

C. L. Mann, Director, Facilities Planning Division, recently stated that bids will be requested for major repair work on Peele Hall as soon as restoration plans are complete.

Peele Hall, which suffered fire and extensive water damage during the Pullen Hall fire, had been the location of the administrative offices before the fire. The offices are now located in Daniels Hall.

Mann stated that Jesse M. Page and Associates of Raleigh had been engaged to prepare the restoration plans.

Major repairs will include repairing damaged wooden floors, suspended ceilings and plastered walls, with repainting required throughout, Mann stated. He added that the heat had been

kept on in Peele Hall in an attempt to dry out the building.

To date, weatherproofing of Peele Hall has been the extent of repairs. Mann stated that the reinforced concrete base deck on top of the old attic floor had been made waterproof. Parapet walls will be added around the top of Peele Hall so that the roof, which is to be flat, can be completed, he continued. Mann said also that bids had been requested for the repairing of windows and replacing of broken glass.

Plans for landscaping the ground where Pullen Hall was located have not been completed, Mann added.

Mann gave the reoccupancy date for Peele Hall as sometime "next fall."

Malcolm Boyd To Speak At Conference In Raleigh

The seventh annual Raleigh International Conference will sponsor Rev. Malcolm Boyd at its meeting this weekend.

"The Hunger, the Thirst" is the theme of the conference. The theme is the title of a book written by Boyd last year which dealt with questions raised by young people today. The charge is fifty cents for registration, plus the cost of a "Dutch treat" dinner.

Students from Meredith, Peace, Rex School of Nursing,

Shaw, St. Augustine's, and St. Mary's, as well as State, have been invited to attend.

The conference begins Saturday at 2 p.m. with registration at King Religious Center. This is to be followed by a speech by Boyd and dinner in Leazer Hall.

On Sunday, the meeting moves to Shaw for a coffee and doughnut breakfast followed by a period of Bible study and church services in the Shaw Chapel.

Freshmen Need Help?

Freshmen in the School of Engineering will be required to submit a curriculum request card next month in order to officially register in some engineering curriculum next year. Some students, however, have indicated a choice on their applications to State, while others have indicated just engineering. The cards will be submitted regardless of a previous choice.

With a decision to make in the next few days, there will inevitably be someone who has not made up his mind and is having trouble doing so. In anticipation of this, the Engineers' Council is holding an informal question and answer period Monday to give the freshmen an opportunity to find out all the facts. As stated in Wednesday's *Technician*, the function is to be strictly informal with no speeches.

Three upperclassmen and one professor from each curriculum will be available to answer questions about the course work, employment opportunities, graduate work, or most anything else the freshmen may want to know. As is often the case, however, whether with teenagers and parents, subordinates and superiors, students and faculty, or whatever the case, the low man on the totem pole feels he has all the answers and needs no help or advice whatsoever from anyone.

We hope this will not be the case Monday night as the faculty and upperclassmen attempt to provide the freshmen with an opportunity for some free information. Dr. Ralph E. Fadum, dean of the School of Engineering, has given his wholehearted support to this venture, and if someone in his position has as much enthusiasm for a program of this type, there must be something more to it than just free advice.

In the future all engineering freshmen will be classified as just engineering regardless of any request on their applications. The choice, then, will come near the end of their first year of studies as is being started this year. The E 100 classes will, of course, be the major factor in curriculum orientation; but the students will not have the opportunity to talk first-hand with other students who have been "through the mill" in some particular curriculum.

This Engineers' Council Freshman Function is designed to provide just such an opportunity. The Navy, Marines, Coast Guard, and Air Force set up a table on the ground floor of the Union several times each year to answer questions about their officer candidate programs. The Freshman Function is to be conducted on much the same basis with informal conversation. There is one change in the format, however: refreshments will be served to the students.

We strongly urge the engineering freshmen, whether they think they have made up their minds or not, to get all the facts Monday before they submit their permanent curriculum requests.

'Windhover' Due Wednesday

By CORA KEMP

How long can a body continue forward motion under its own momentum?

This is a problem currently facing *The Windhover*, N. C. State's literary magazine.

Although it is a university publication, not a product of the School of Liberal Arts, *The Windhover* has yet to receive campuswide recognition from anyone other than the individual students and professors who have taken a personal interest in it.

The Windhover will make its second appearance on campus Wednesday.

When it was published for the first time last spring, interest was moderate, but there was no evidence of praise or good wishes to be found among the administration to spread the news of the publication beyond the campus.

The only hope, according to Editor Roy Colquitt, came from individuals. Students caught on to the idea fast, he said.

Colquitt, now in his second year as editor, said the staff faced a serious problem in its attempts to get student works for the first publication. The staff refused to print second rate work, however. They looked beyond the limited student manuscripts they had received and printed works of faculty members, Raleigh residents, and others interested in creative writing.

By the fall, the situation had changed. The staff was flooded with student works. More than half of the magazine is student work.

"*The Windhover* is making no pretense to being an over-intellectualized publication," Colquitt noted. "It is for the students' enjoyment."

"We had a tremendous amount of material to select from. We picked the best in the lot," he said.

Heading the staff with Colquitt are the two major "critics," Virginia Farnell and Irene Gaskins, both English majors. Miss Farnell is fiction editor and Mrs. Gaskins is poetry editor. They held the same positions on the staff last year. Also holding the position he maintained last year is Art Editor Bob Chartier, a fourth year design student.

Colquitt was assisted this year by Al Fuqua, a junior in English, who will be next year's editor.

Selections for the new issue include the first two chapters of a novel called *The Ballad of Being Alive* by Herb Allred, a former psychology major here.

Among the short stories are "Better Than Looking" by Grant

Blair, and "Anna" by Joel Jackson, both State students.

Two former students, Jim Lewis and Henri Ruggero, also have short stories appearing in the magazine. Lewis is author of "Dust of Death" and Mrs. Ruggero wrote "Convulsive Jelly."

The poetry division includes poems by Jackson and Colquitt, as well as poems by several faculty members. Tom Walters and R-ed Sanderlin, members of the English Department, have

poems in the magazine.

A photographic essay, "Southern Foundry," is the work of Hank Hastings, a fifth year product design major.

And there are interviews with Harold Clurman, director of the Lincoln Center Repertory Theatre, and Granville Hicks, author and critic.

Copies will be available to students Wednesday in Winston Hall, Brooks Hall, and the Erdahl-Cloyd Union.

Nuclear Facilities Expand

By JOE CLOCKER

A cobalt radiation source and a new reactor core to be installed in the near future in the Burlington Nuclear Laboratory building will give the Nuclear Research and Engineering Center expanded facilities for student and faculty research and instruction.

Dr. Martin A. Welt, director of the Nuclear Center, said construction is scheduled to begin within a month on the cobalt radiation facility and will be finished in three to four months.

The construction phase is being financed by a \$62,000 grant from the North Carolina Board of Sciences and Technology, while the cobalt, commercially valued at \$35,000 is being furnished by the Entomology Research Division of the U. S. Department of Agriculture.

Dr. Welt described the cobalt facility, to be located in the reactor room of the Burlington Lab building, as a tank 6½ feet in diameter and about 12 feet deep with the cobalt in two plaques mounted in parallel. The tank is to be sunk in the floor and will contain water for vertical shielding and cooling.

The 30,000 Curies of cobalt will be capable of giving a maximum radiation dose of about 400,000 Rads per hour. One Curie is defined as 3.7 x 10¹⁰ disintegrations per second.

In the case of cobalt each disintegration emits two gamma rays. One Rad is the absorption of 100 ergs of energy per gram of material.

The cobalt radiation facility will also feature a variable high intensity irradiator at the bottom of the tank capable of providing radiation dose rates up to 10 million Rads per hour.

High intensity radiation will be used in radiation damage studies and in chemical processing experiments where a search will be made for the synthesis of economical radiation induced chemical compounds.

The low intensity radiation will be utilized primarily for

agricultural experimentation to study the effects on plants and animals.

Dr. Welt stressed the fact that this cobalt facility is available for use by the entire Consolidated University for research in all fields of study, not just those at State.

Also, it is hoped that industrial concerns, non-profit organizations, and State and Federal agencies will use the facility, he said.

A new core will be received for the existing reactor April 12 to be installed shortly thereafter, and will eventually provide a pulsing capability not now available with the present core. This new core will be operated initially on a steady state basis rated at 100 kilowatts, but will later be modified at a cost of about \$100,000 to provide for pulsing, Dr. Welt stated.

The pulsing will provide a maximum power of 300 megawatts for periods of 10 milliseconds half-width duration. The present core is rated at 10 kilowatts steady state operation.

Dr. Welt commented that the new core has been received as an outright grant from the Armed Forces Radiobiology Research Institute in Washington, D. C., and has an estimated value of \$75,000.

He remarked, "It certainly appears that it will be necessary to expand our nuclear laboratories to help provide maximum utilization of this new equipment. Hopefully some relief can be obtained prior to construction of the proposed Nuclear Science and Engineering Building."

Dr. Raymond L. Murray, head of the Nuclear Engineering De-fence the North Carolina General Assembly for the new building which will house an advanced pulsing reactor. The power level of that reactor will be in the range of two to five megawatts.

The building will also house additional radiation facilities including hot cells, radiochemistry labs, and accelerators.

Campus Comments

By THOM FRASER

Again we present some selections from the *Daily Tar Heel* weekly "Awards":

DAY OF THE WEEK:

Wednesday was "Hate America" day in Viet Nam, putting that nation one-up on the United States, which celebrates "Don't Care About Viet Nam" day every day.

SEMPER FIDELIS CITATION: To the two battalions of Marines who dramatically landed through the surf in Viet Nam en route to defend the Da Nang air base, only to find they were greeted by (1) some 25 photographers and (2) a bevy of native girls with garlands. A local wag commented yesterday that this was an indication the only escalation in Southeast Asia was the number of wire-photos flowing into the nation's newspapers.

SURE SIGN THE CAMPAIGN'S ALMOST OVER: A poster on the door of a room in Old West, obviously put up by a scholar who was finally bored to death by candidates: "I'm Apathetic—Go Away."

FACT OF THE WEEK: There are 50,000,000 acres of sand dunes in the world.

HISTORICAL DISCOVERY OF THE WEEK: The Lost Colony, missing since 1590, was found yesterday. The entire colony was discovered at the State Legislative Building lobbying against Daylight Savings Time.

To these we add an award of our own:

STUDENT BODY PARTICIPATION OF THE WEEK AWARD: The University of North Carolina at Chapel Hill for a tremendous voter turnout, of 66 per cent in its Tuesday elections.

We have always suspected that there was something pretty deep about the girls at Meredith. Now we know; it's just their minds. We got this bit of academic profundity from *The Twig*:

"Supercalifragilistic - expialidocious," the mouthful from "Mary Poppins" that picks up your spirits if you say it, really means something.

Mr. T. Buchanan Looney of the Queens history department took the trouble to look up the meaning of the word after his children asked him what it meant.

According to Mr. Looney, the word is a combination of the following prefixes: Super—above or beyond; cali—having beauty; fragilistic—easily broken; ex—from; pi—a jumble; ali—magic; and docious—teachable.

All are Greek or Latin prefixes except ali, which is Cockney.

Put together, the syllables make a word that means "shimmering beauty coming from a mixture of teachable magic."

This was a letter to the editor of the *Wake Forest College Old Gold and Black*:

To the Editor:

Yes, the white were there,
And the black were there;
They talked of blue and of gray.

Oh, the white were there,
And the black were there;
They talked and went away.
For black to black,
They took them back,
And only the white could stay.
Oh, the white were there,
And the black were there,
And it mattered for less than a day.

Fraternities Clash In Softball Action

Spring intramural sports got underway this week with the first round of action in the fraternity softball league. The sixteen teams participating in Monday's action combined for a total of 195 runs with Lambda Chi Alpha leading the way, scoring 24 runs in a victory over Alpha Gamma Rho.

LCA tallied 10 times in the first frame with the first 10 batters getting a hit and scoring a run to put the game out of reach of AGR. Bevery and Murray of LCA and Vollmer of AGR connected for home runs. In another high scoring game, Pi Kappa Phi scored three times in the bottom of the seventh on a home run by Boyd to defeat Delta Sigma Phi, 15-12. Delta Sig scored six times in the sixth inning to tie the game at 12-12. Besides Boyd, Horner and Mason homered for PKP while Bare had one for Delta Sig.

Kappa Alpha tallied 15 runs in the first three frames to outlast Sigma Chi, 16-12. Wheelless, Thomas and Woodson hit round trippers for the losers while Cato and Hodges homered for KA.

Seven runs in the bottom of

the last inning enabled Kappa Sigma to come from six runs down and defeat Pi Kappa Alpha, 13-12. Adkins of PKA had the only home run of the game.

A seventh inning rally by Tau Kappa Epsilon fell three runs short as Sigma Nu took an 11-8 victory. Through the first six frames, the Sigma Nu's held an 11-2 lead. Goodnight of TKE, and Hunts and Riley of Sigma Nu had home runs.

Sigma Phi Epsilon tallied six times in the third frame to take a 7-1 lead over Sigma Alpha Mu. The Sig Eps increased their lead to a 12-6 victory margin. Smith homered for the winners while Mann hit one for SAM.

Theta Chi battled through four innings with a 5-3 lead over FarmHouse before exploding for 10 runs in the fifth frame to take a 16-4 victory. Swain had the only home run in the game for Theta Chi.

Last year's championship team, Phi Kappa Tau, began the 1965 season with a 19-6 romp over Sigma Pi. PKT tallied eight runs in the fourth frame to ice the game. Lyerly and Harrison homered for the winners.

Bulldogs Win Wildcard Crown

The 1965 intramural basketball schedule came to a close this week with the ending of action in the Wildcard League. The championship game in the league was played between the Neutrons and the Bulldogs with the Bulldogs being victorious by a 62-58 score.

It was the second championship of the year for the Bulldogs, having won the Open League crown last week. The two time champions completed action in both league with perfect 9-0 marks.

Donnan and Gentry paced the Bulldog attack with 16 points

each while Pitts added 10 points. Mayton led all scorers for the Neutrons with 17 markers. Hirons added 15 and Gregory 13.

The Bulldogs had little trouble building up a 13 point lead at halftime, 38-25, but the Neutrons came back strong in the third period to close the gap to one point, 46-45, going into the final period. The Bulldogs managed to hold back the Neutron rally in the quarter to win.

The Bulldogs won first and second round victories over Alexander and the Flunkies on the way to the final match while

the Neutrons defeated the A.Q.'s and the Tigers for a final's berth.

drifting, aimless,
weltschmerz life.

Drink lots of Herb-Ox bouillon and win a color TV set for your fraternity, sorority, dormitory, etc.

Take a break from Nietzsche, Kierkegaard, Kant, and Whitehead. Contribute to good, solid, material accomplishment—a color TV set for your dorm, commons, frat house, or what have you.

Drink Herb-Ox bouillon, the delicious, nourishing pick-me-up with 20% protein and only six calories. Save the wrappers and bring or send them to:

CMC, 299 Madison Avenue, New York, N. Y. 10017

Whatever group totals the most, wins the set. Anything goes: get Herb-Ox wrappers from anyone and everyone. Your parents at home, their friends, kid brothers and sisters, older brothers and sisters,

the UN, the president. From any source; everything's acceptable.

Smart dorms, frat houses, and sororities are going to serve it up with meals. Throw out the beer barrels and have hot water coming out of all the spigots. Start insisting now that all cafeterias carry and serve Herb-Ox.

And, Herb-Ox can't get boring: it's beef, chicken, onion, and vegetarian flavored. The contest runs from November 15 to March 15.

And one parting aphorism you won't find in Wittgenstein: the race is to the swift.
