"THE MIKADO" WAS A GREAT SUCCESS

Many College Students, Faculty and Friends of the College Enjoyed Lyceum Number

The State College Committee on Lectures and Entertainments presented The Tooley Opera Company in Gilbert and Sullivan's delightful comic opera, "The Mikado," last Tuesday evening. There was a very large audience for the entertainment, and it was enjoyed by all. Many of the numbers on the program were encored several times.

This was the first visit of this company to State College, but we hope that it will not be the last. The voices in the entire cast were above the average found in the usual lyceum program, and the characterizations were also unusually good.

H. C. Howard, who took the part of Pish-Tush and Ko-Ko, was exceedingly good, and his part was thoroughly enjoyed by all. In fact, the whole cast is to be praised.

During the "three-hour" intermission between acts, H. W. D. Tooley entertained the audience by telling several good jokes. He also took the opportunity to thank the audience for their appreciation and attention to the opera. All enjoyed the program so well that we hope the company will return to our campus again.

There are yet several other members on the program of our Lyceum Course—the next attraction to be an illustrated lecture on "Our Forest Heritage and What About It," in the Y. M. C. A. Auditorium on Friday evening, March 21, by Dr. Henry Cowles. Dr. Cowles, of the faculty of the University of Chicago, comes to us with the best of recommendations as being a man who can well handle his subject.

The Harp Ensemble Company will appear in Pullen Hall on Monday evening, March 24, in a concert of classic and semi-classic numbers.

Since there are no admission charges to any of these entertainments, it is a good chance for a fellow to take his girl out to something worth while without it costing him so much. Get them all out, fellows, and let's have a packed house at every one of the remaining entertainments—as it was last Tuesday night.

METERMEN'S SCHOOL WAS WELL ATTENDED

The second annual school for electric metermen got a flying start on Monday when Professor Browne of State College outlined the course and welcomed the men to the college.

Some of the topics discussed during the school were: "The Meter Department," by W. S. Davis, of the New Jersey Public Service Company; "Instrument Transformers and Testing," by William A. Folger, of the Philadelphia Electric Company, and L. Arnold, of the General Electric Company. The "Importance of Standardizing Service Connections" was discussed by Claude

(Continued on page 4.)

PRESIDENT BROOKS TO BE INAUGURATED MAY 26, '24

Many Dignitaries Are Expected to Attend Exercises, Which Occur First Day of Commencement

The Faculty Council has recently decided that the formal inauguration of Dr. E. C. Brooks as head of State College will be held on May 26, which is the first day of the commencement exercises. Representatives of many educational institutions and scientific societies are expected to attend.

The commencement exercises begin, as usual, on Sunday evening, May 25, and the plans for Monday, which is the regular "Alumni Day," will have to be altered somewhat on account of the inauguration. A luncheon will be served in the afternoon at the college dining hall, which will take the place of the regular alumni barbecue. Senior orations will be held Monday evening.

THE COLLEGE WOMAN'S CLUB SERVES BANQUET TO CAMPUS LEADERS

Last Monday night at 7:30 the College Woman's Club served a banquet to one hundred State College men, who represented practically every student activity for the campus.

The honor guest was Dr. George A. Fitch, general secretary of the Young Men's Christian Association of Shanghai, China. The speaker was introduced by Prof. C. M. Heck, who was at one time associated with Dr. Fitch in Y. M. C. A. work in China.

Dr. Fitch spoke of the wonderful influences the Y. M. C. A. is exerting over the lives of the young men of

(Continued on page 4.)

FRESHMAN COUNCIL ENJOYS GREAT FEED

Several members of the Freshman Friendship Council had the privilege of attending a banquet or a feed that was given in the Y. M. C. A. last Monday evening. The members that attended enjoyed every minute of the time that they spent at this feed. Yes, the eats were fine. They were made to order for the appetites of college men. But good things to eat were not the only things to be enjoyed. Several songs by our College quartet and a few yells by all the State College boys that were present put life and pep into the whole crowd. Talks by Mr. Fitch of Shanghai, China, and Mr. Comer and others of the University of North Carolina were very interesting. Mr. Comer and the other men of Carolina gave many beautiful descriptions and told many interesting things about Blue Ridge. They were trying to show just how wonderful it is for any student to attend the conferences that are held at Blue Ridge.

The talk that was made by Mr.

(Continued on page 4.)

SENIOR DEBATE TO BE HELD NEXT FRIDAY

The annual Senior inter-society debate between Pullen and Leazar Literary Societies will be held in the "Y" auditorium on Friday, March 28.

The query to be debated will be "Resolved, That the present inflow of foreign immigrants to North Carolina is detrimental to its welfare."

Speakers will be selected on Friday, March 21. All students and members of the faculty are cordially invited.

C. E. DEPARTMENT GIVES SHORT COURSE

Land Surveying to Be Taught Those Who Have Not Time for a Complete Course

During this week the Civil Engineering Department has been giving a short course in Land Surveying for men interested in such work but who cannot give time for a complete course in Civil Engineering. Those attending the classes in this special course are very much interested in their studies, and at the close of the first day's work gave voice to the fact that what they had learned in that one day was enough to repay them for the total cost of the course. Some also expressed a wish that the course might last longer than the specified time—one week.

Some of the subjects taken up by these men are the Planimeter, Stadia, Drawing and Blueprinting, Adjustment of Instruments, and Latitude and Departure, together with talks on Legal Points and Professional Practice by members of the Civil Engineering faculty.

NOMINATING COMMITTEE AND Y. M. C. A. ELECTION

Heretofore the criticism has been that the officers elected to serve the "Y" did not come as a fair representative of the student body. This year we hope that every State College student will take a deep interest in the "Y" election. These men serve the student body; therefore, they should be elected by the student body. May every man come out and cast his ballot for the man he wishes to hold office. In order that the entire student body be represented on the nominating committee, the following men have been elected:

W. S. Morris, chairman of the committee; H. D. Hamrick, J. E. Britt, C. D. Faucette, C. R. Hall, P. C. Beatty, C. L. Walton, R. H. Scott, E. L. Cloyd (faculty member), E. S. King, and P. T. Dixon, ex officio members.

If you have a suggestive candidate in mind, turn the name into any of these men. The president and vice president come from the Senior Class, the secretary and treasurer come from the Junior Class. Watch the bulletin boards for the election date and come down and cast your vote.

P. T. DIXON, President.

R. L. OBERHOLSER SPEAKS TO THE CHEMICAL SOCIETY

He Tells of Work of Chemists in Steel Industry, Describing Many Interesting Processes

During the last meeting of the Berzelius Chemical Society, M. R. L. Oberholser, head chemist of the State Highway Testing Laboratory, traced the work of chemists in the various processes used in producing iron and steel. He first discussed the blast furnace. He described the process and enumerated the determinations necessary to the control of pig iron production.

The shortness of the time allotted for some of the analyses was astonishing to some of the students who had studied quantitative analysis.

After the discussion on the blast furnace Mr. Oberholser described the following processes: Puddling furnace, acid open hearth, bessemer, and basic open hearth; and told of advantages, uses, principles and control work of each process. He stressed the importance of absolute accuracy in making analyses for industrial work, and showed why an error often causes the loss of a job. He clinched his statements by citing errors and their results. He showed, in graphic fashion, the reception a young chemist receives on his entry into the steel industry by giving a dialogue and by telling of his own and other chemists' experiences. He also described technique used in industrial practice that could be used to advantage in college work. After concluding his talk Mr. Oberholser invited members of the society to visit his laboratory and to watch the work being done there.

STUDENT COUNCIL FOR NEXT YEAR

During the past week the following men have been elected to the Student Council for next year. From the representatives of the Junior Class will come the president and vice president, and from the Sophomore Class will be elected the secretary and treasurer of the Student Council. The primary will be held Saturday, March 29, and the final election will be held one week later, on Saturday, April 5.

Junior Class representatives: S. R. Wallis (Ag.), A. B. Hunter (Ag.), J. C. Clifford (B. Ad. and Chem.), Henry Duls (C. E.), R. L. Melton (E. E.), R. Johnson (Tex.), C. R. Hoey, Jr. (M. E.).

Sophomore Class representatives: F. K. Fogleman (M. E.), Henry Kendall (C. E.), M. W. Long (Ag.), J. M. Potter (C. E.), C. L. Shuford (B. Ad.).

Freshman Class representatives: R. R. Fountain (Ag.), R. L. Browning (Ag.), J. E. Davis (E. E.).

All of the representatives to the House of Student Government have not been elected yet. A list of these men will be published as soon as they are all elected. Students Supply Store and the College Court Pharmacy report a slight increase in the sale of drinks and cigars already, and both are lay-

Editorials

The works in my head
Have nothing to do with my face,
Tra! la!

But the way they run
Will have lots to do with the case,
Tra! la!

When exams come in the spring.

March! April! Maybe I would
pass, but it would be safest not to
take the chance.

From the remarks of the boys who
spent last Saturday evening in
Greensboro it seems that they found
N. C. College to be a real sister college
to N. C. State.

We regret to note that our greatly
cherished editor is out this week on
account of having had his tonsils
removed last Friday. The doctors
say he will be back with us in a few
days. He is missed very much.

Mr. George Fitch, general secretary
of the Y. M. C. A. in Shanghai,
says "China is destined to become
the greatest nation on earth."
America will wake up some day,
perhaps too late, to find that she is
not the only nation on the globe.

It is not fair that most of the
girls' colleges of the State get their
spring holidays next week, while we
must wait four weeks more. We
know that they are anxious to see
the home folks. But lots of us feel
like we are home folks, too.

Those of us who had the privilege
to hear Dr. Poteat last Sunday at
Pullen Memorial Church received

a real message. Dr. Poteat speaks
like a man who can say, "The Lord
is my rock and my salvation; I will
not be moved." We are for Dr.
Poteat.

We understand that an International
Relations Club is to be organized
here this week. This should become
one of the most significant
organizations on the campus. American
students, especially Southern
students, should begin to realize the
fact that students of other lands,
Oriental students in particular, are
dealing definitely with international
problems; and if we are to hold our
present place in the world, we, too,
must deal with these problems.

MEETING OF A. S. C. E.

Members Are Urged to Boost Engineering Show, Which Will Be Held April 15th

The meeting of the A. S. C. E., which was held on Tuesday evening, March 18, was presided over by Vice President Pete Barber, in the absence of President Buck Morris. It was announced that the date set for the engineering show was April 15.

A great amount of work must be expended in order to make this show a success, and each member was urged to participate as much as possible.

The first speaker on the program was Tubby Cox, who spoke on "Engineering Employment on the Upgrade." At the conclusion of this he made a short talk on "Improving the Campus," in which he stated that he would be very glad to receive any ideas or suggestions from the students as to how we may improve our campus. Spivis McNamara gave an interesting and highly instructive talk on "Tunnels." Jokes were rendered by Henry Fox.

ART AND ATHLETIC EDITORS CHOSEN FOR THE 1925 AGROMECK

The staff of the 1925 Agromeck feels fortunate in securing the services of Tom McRae of Macon, Ga., as art editor and C. R. Hoey, Jr., of Shelby, N. C., as athletic editor. Both of these men are capable of performing in a creditable manner the work which will fall under their respective departments.

Hoey is well known on the campus and needs little introduction to the student body of State College. He remains always in close touch with the athletic situation and can get the real dope on the athletic records.

McRae is a new man at State. He successfully completed two and one-half years of work at Georgia Tech and entered here at the beginning of this term. While at Georgia Tech he was in control of the comic section of the Tech publication. He has his work in such shape that he will be able to devote the requisite amount of work on the cartoons and art layout of the 1925 Agromeck. He, however, cannot handle the proposition alone and will need the help of any student who can do creditable cartooning.

TEAMS SELECTED FOR TRIANGULAR DEBATE

With only a handful of students present to hear the oratory on the French Occupation of the Ruhr District, J. M. Potter, R. H. Raper, J. F. Seymour and M. L. Snipes delivered the best speeches on this subject and were chosen as State College representatives in the May triangular debate between V. P. I., V. M. I. and State College.

Dr. Harrison and Professor Clarke of the English faculty, together with

Stewart Robertson of the Business Administration department, officiated as judges and were unanimous in their opinion that J. M. Potter was the best speaker.

J. E. Whitaker and William Gooch will serve as alternates.

ANNUAL SPRING TERM TENNIS TOURNAMENT

Mr. A. S. Williams Has Offered a Very Handsome Loving Cup to Winner of the Tournament

The annual spring term tournament is to begin March 26. All you wielders of the racket shake off that touch of spring fever and let's have a lively competition for the Williams Tennis Trophy. This tournament, which has now become a permanent event, is held once each fall and spring under the supervision of the tennis coach. Its purpose is to determine the best singles tennis player of the college, and incidentally the first ten men are the ones from whom the coach picks his team.

The rules of this tournament are as follows:

1. The spring tennis tournament, weather permitting, begins Wednesday, March 26.
2. All men registered as students of this college are eligible.
3. Your name must appear on the list in front of the mess hall not later than 6 p. m. Tuesday, March 25.
4. There is no fee—players are expected to furnish balls.
5. A schedule will be posted March 25 in front of the mess hall.
6. The first round must be completed by Friday, March 25. Any matches not played by this date will be forfeited.

A great amount of enthusiasm and the liveliest competition is anticipated for this tournament. Mr. A. S. Williams, who has taken such a great interest in the development of tennis at N. C. State, has offered a most handsome loving cup to be presented to the winner. This cup, which is known as the "Williams Tennis Trophy," has been given by Mr. Williams to the Athletic Association, and is to be competed for annually in the spring and fall tennis tournaments. The winner takes temporary possession, and has his name engraved upon its face. Any man winning this cup for four consecutive times will retain permanent possession of it.

The schedule for the 1924 tennis team is almost completed. Games are being arranged with Trinity, Carolina, Wake Forest and Guilford, and probably others. With this schedule it is obvious that we are going to have to put out some hard work to win. Therefore, men, let's be prompt, sign up, and help run off this tournament on schedule.

COLLEGE CREDIT COURSES FOR THE SUMMER SCHOOL

During the Summer School, June 10th-July 22d, courses of college credit value will be offered wherever there are as many as five students applying for any one course. The purpose of this is to help any student who wishes to remove conditions or to take work during the summer so as to lighten his regular term load.

The President has sent out to the student body a letter for the purpose of getting this information. Those students who are interested in remaining during the summer should answer the questions asked and return to the Registrar's office immediately. This is necessary in order that the faculty may know just what courses to arrange for.

T. E. BROWNE,
Director, State College
Mar. 18, 1924. Summer School.

Hargrove: "Cox had some dirt left over in filling up his ditch, didn't he?"
Council: "Yea."

Hargrove: "He ought to have made his ditch larger in front of Fifth, so he could get all the dirt back."

He: "How much do you weigh?"
She: "Oh, not enough to spoil the crease in your Finchley trousers."

(Apologies to The Lyre)

Alumni Notes

Observations and Communications
of Zippy Mack

We planned to say a few words last week, but when the managing editor was approached on the subject he informed us that he had enough junk to fill the paper already.

We are glad to see that our editor and business manager are able to be up and about again after undergoing operations at Rex Hospital. The fact that both of them were having repairs made on their nasal appendages would seem to indicate that these organs had too frequently been inserted into other people's affairs. The alumni editor is contemplating a similar operation.

Mr. I. L. Langley, a textile man of '23, was in Raleigh last week. He was visiting the Pilot Mills, which are a link in the chain of mills controlled by the Consolidated Textile Corporation. Mr. T. E. Wray, of the same class, is also with this company. Both of them have headquarters in Boston.

Mr. R. M. Deal, a former member of the class of '23, was in town last week. He and his brother, H. A. Deal, of the class of '22, are now with the Crompton-Knowles Loom Works. Deal said he would be here occasionally, so we will not mention him again.

"Big Dick" Bostian, captain of our last Wolfpack, drifted into these parts last week. He is now a partner in the firm of Bostian Brothers, general merchandise, in the metropolis of China Grove, N. C.

Mr. H. M. Shaw, of the Mechanical class of '22, is now in Raleigh engaged in construction work with the Robert G. Lassiter Company.

Mr. T. P. Richardson, who was in college with the '23 boys for two years, was in town last week. He is now living in Gastonia.

Among the teachers attending the State Teachers' Convention here last week were many old State men. Those seen or heard of were something like

this: Practically the entire male faculty of the Cary High School, H. N. Kelly, '23; A. H. Veazey, '22; Q. E. Colvard, '22; S. L. Carpenter, '21; S. A. Allred, '23; E. C. Tatum, '22; A. L. Teachey, '15; G. G. Farrington, '23; E. F. Strupe, '23; and W. D. Yarboro, '23. Mr. Yarboro wishes us to retract the statement made some time ago to the effect that he was making good.

The last meeting of the Wake County Alumni Association was held Thursday night in the College Y. M. C. A. banquet room. A delightful banquet was served by the "Y" folks in their usual spirited manner. For the first time in several months, the number attending the meeting was higher than the number expected, and additional tables had to be provided. Plans were made for the alumni part of the commencement program, additional work on the Memorial Tower was discussed, and the probabilities for entertaining the Senior Class were also aired out. Everyone had an enjoyable time.

SPRING IS COMING!

Cain't yo' hear dem people smilin',
Comin' walkin' down de street?
Cain't yo' hear ol' springtime pilin'
Up its flowers aroun' yo' feet?

Cain't yo' hear dat sun a-shinin'?
Not a cloud gits in its way;
Git to work and stop dat whinin',
I feels sorter good today!
ZIPPY MACK, '23.

Let Conscience Be Your Guide

(By Mr. Paul Bearer)

I'm just as carefree as a lark,
As anyone can see;
At me no dog will ever bark,
Oh! don't you envy me!

I never shirk, I never work,
I'm happy as can be,
I'm never blue, I'm always true,
Why don't you be like me?

It isn't as hard as you might think;
Just lay your worries aside,
And e'en though you totter on ruin's
brink,
Let your conscience be your guide.

My Friend, I'll tell you the secret.
You see, it is just this:
Don't do anything you will ever regret,
And remember that ignorance is
bliss.

WHAT MADE THE NOISE?
Wife: "I heard a noise when you came home last night."
Hubby: "Perhaps it was the night falling."
Wife (coldly): "No, it wasn't; it was the day breaking."—Ex.

HERE AND HEREAFTER
"Agnes always finds something to harp on."
"Yes; I only hope she'll be as fortunate in the next world."—Ex.

LIGGETT & MYERS TOBACCO CO.

College Woman's Club Serves a Banquet to Campus Leaders

(Continued from page 1.)

China. He told of the games and gymnasium work, and of the educational work which the association is promoting and how young men are led through these activities to enroll in Bible study. Dr. Fitch gave an interesting account of a group of Chinese students he himself taught in a Bible class in Shanghai and of how each one had accepted Jesus' standard of living. All these young men, Dr. Fitch said, are now occupying important positions in the China of today. He gave this as an example of what is being done for the 40,000 young Chinese enrolled in Y. M. C. A. Bible classes today.

There were also four guests from Carolina at the banquet, Messrs. Comer, Poindexter, Purser, and Massey. Each of these men made short talks on the Southern Student Conference held annually at Blue Ridge, N. C. Last year Carolina sent a delegation of 46 men, and they challenged State to send as many as they do this year. The State College men were delighted to have the Carolina men present, and their talks in behalf of the conference very much appreciated.

President E. C. Brooks was invited to attend the banquet. He was unable to attend, but sent a message saying that he was for the conference. He has accepted an invitation to give one or more addresses there.

The faculty members present at the banquet were: Dr. C. C. Taylor, Prof.

L. L. Vaughan, Prof. C. M. Heck, Prof. E. L. Cloyd, and Coach Homewood.

The music furnished by the State College Quartette was highly appreciated.

Freshman Council Enjoys Great Feed

(Continued from page 1.)

Fitch of Shanghai, China, was of unusual interest. In his talk he told many interesting things about the Chinese. He also told of the things that the Y. M. C. A. are doing for these people. He cited several instances in which members of some of the greatest families of China were converted to Christianity through the Y. M. C. A. After hearing his talk no one could say that the Young Men's Christian Association is not doing a great work in China.

Such interesting speakers and fine things to eat caused this banquet to be much above the average feed.

Metermen's School Was Well Attended

(Continued from page 1.)

H. McAllister, of the Tidewater Power Company; Earle Dameron, of the Durham Traction Company; N. E. Canady, State Electrical Inspector. "Keeping the Meter Records" was discussed by Bedford J. Brown, of the Southern Power Company, and Elwood Doudna, of the Carolina Power and Light Company; Henry G. Duus, of the Samgamo

Electric Company, and F. L. Pavey, of the Duncan Electric Company. Each of these companies had sent an excellent equipment of meters and appliances.

Lectures on the principles of meters were given by members of the Department of Electrical Engineering, and we are proud to note that of all the big and noted men which lectured to the metermen, Professor Browne stood out as an authority in this branch of work.

The Metermen's School has been a success, and we hope that our campus will see many more of them.

WHY NOT?

They tell us that granting of long-term credit makes possible more liberal extension of trade in many industries. Could not this be applied to individual cases, thus increasing our buying and promising power in campus stores?—Exchange.

JOE W. JOHNSON, Editor

All social or personal news deposited in The Technician News Box will be appreciated by the editor.

E. Y. Webb, Jr., Henry Kendall, and O. V. Talley went to Richmond last week to visit friends.

C. R. Jones visited his parents, Mr. and Mrs. W. P. Jones, last Saturday and Sunday in New Bern.

George Little visited his brother, P. B. Little, last week.

"Bill" Haynes, who is now located with I. W. Barber in Mount Airy, N. C., visited Kemp Reece the past week-end.

We are sorry to know that Warrick Payne has had to stop school on account of defective eyes.

Joe Cobb has quit school on account of being unable to obtain the right kind of work to count toward a college degree. He intends to return next year and take textile engineering.

There is a report of the social affairs that the boys had in Greensboro last week-end elsewhere in this publication.

F. L. Hargrove spent the past week-end with his parents at Enfield, N. C.

Last week a number of Juniors and Seniors motored to Chapel Hill to obtain information for the purpose of improving our college publications. Those who went on this business trip were R. G. Fortune, J. E. Britt, George Wray, T. S. McRae, and L. L. Hedgepeth.

Sam Allred was a visitor here last week. He graduated here last year and is now head of the vocational department at Pleasant Garden High School.

R. H. Raper visited brothers in Chapel during the past week.

Carl Tatum, who graduated with the

class of '22, was a visitor at State during the past week.

H. N. Kelly, class of '23, visited his brother, J. E. Kelly, last week. Kelly is now teaching in the agricultural department at Chapel Hill High School.

R. H. Luther, of Asheville, visited his son, R. W. Luther, last Sunday.

Bill Absher, student at the University of North Carolina, visited T. W. Church, Jr., last Sunday.

Gena Church visited her brother, T. W. Church, Jr., last week. "T. W." went as far as Greensboro with her Sunday en route home.

We are very sorry to know that Professor Hinkle, who is head of the Modern Language Department, is seriously ill with pneumonia.

E. C. Smith spent the past week-end at his home in Farmington, N. C.

**FOOTBALL SWEATERS
AND PROCRASTINATION**

There has been some fuss lately about college spirit and athletics. Some have said that the college needed a new athletic system, and that need has been well attended. There is something that has not been fixed that needs fixing badly. Three and one-half months have elapsed since the close of the football season, and not a sign of a sweater has been seen. Is this due to carelessness or to procrastination on the part of those who have charge of the awarding of sweaters? Lack of official recognition will kill athletics and college spirit. Deferred recognition will not cause the number of candidates for the football team to increase. Deferred recognition will not arouse enthusiasm for athletics. Perhaps it was thought wise by those

in charge to wait until spring to award sweaters, that the members of the team might have new sweaters for next winter. The members of the team do not think that way. Those who have the matter in charge should realize these facts and show some action right now.
K. M. U.

Attention, Tennis Players!

The Annual Spring Tennis Tournament will start Wednesday, March 26. All bona fide students are eligible to enter this tournament and compete for the William Tennis Trophy.

If you wish to enter, please sign your name on the list posted on the bulletin board at the mess hall before 6 p. m., Tuesday, March 25. The rules governing this tournament are published elsewhere in this issue of the Technician.

BAPTIST BOYS ATTEND RECEPTION AT N. C. C. W.

Men From Wake Forest and N. C. State Royally Entertained in Greensboro

Saturday afternoon, March 15, at 2 o'clock, two big buses loaded with N. C. State boys left Raleigh for Greensboro. In the first bus were those who were to stay over Sunday, while the second was laden with those returning Saturday night. All were going over to attend a reception given by the Baptist students of N. C. College for those of N. C. State and Wake Forest.

Arriving at Greensboro about 5:30, the members of the party separated, some being assigned to homes and others looking for friends at N. C. C. W. At 8 o'clock they gathered at the Forest Avenue Hut, just off the campus, where the reception was held. The "Hut" was tastefully decorated with lanterns and cherry blossoms, depicting spring in the Orient. Partners were selected by matching cards bear-

ing quaint characters of Chinese origin upon cushions on the floor, further carrying out the far eastern idea of the event.

The N. C. State quartet favored the gathering with a few selections. Next a Wake Forest man rendered some exquisite pieces on the piano. Several short plays were given by the girls, most of them being representative of Chinese life, and the characters were in Oriental costume.

Refreshments were served and enjoyed immensely. Soon after, it being late, the party broke up. Those returning to Raleigh were loathe to leave, but they had made their mistake and had to go. The boys staying till Sunday were sent to homes in the city.

It is proposed that this shall be made an annual, or possibly a semi-annual or quarterly occurrence. It is

COPY-BOOKS have failed to impress on the minds of men the truth of that most quoted of all axioms—"Procrastination is the thief of time." Yet down through the centuries, the lesson is there for those who will but learn. That great word "if" is the epilogue to many of history's greatest tragedies.

Is some one going to say "if" after you are gone? Consider! There is always a "tomorrow," but only one "today".

Through the Provident Mutual plan of insurance, you can insure protection for the years to come—protection against your own old age—protection of your family's future comfort.

PRIZES FOR BEAUTY CONTEST SELECTED

They Are on Exhibition in the Trophy Case in the Lobby of the Y. M. C. A.

After much consideration the staff of The Technician decided on appropriate prizes to be awarded in the Beauty Contest now being conducted by that publication.

These prizes, consisting of a gold pen and pencil set for the most beautiful Raleigh girl and a red lacquered set for the handsomest State College student, are on display in the trophy case in the Y. M. C. A. lobby and may be seen by anyone desiring to do so.

Although the close of the contest is only two weeks away, the contest is far from ended. It is almost as impossible to tell today who will win the contest as it was on the day it opened.

Between today and the end of the contest 66,000 votes are available to the man who is energetic enough to go after them. This is more than the total number of votes that have been turned in to date, so you can see that those who are at the head of the contest now will not necessarily win. Do not be a quitter, but continue to send in the votes.

TRACK SCHEDULE

Meet at Montgomery Included; Many Aspirants for Places on Team

The schedule that the track team is to follow is practically complete. There will be one or two additions later, but the present schedule is one of the best that has been gotten up in many years.

The schedule is as follows:

V. P. I.	April 5	Raleigh
Davidson	April 10	Davidson
Washington & Lee	April 19	Raleigh
Open	April 26	
State meet	May 2 and 3	Raleigh
S. I. C.	May 9 and 10	Raleigh
S. I. C.	Montgomery	

There are many aspirants for places on the team this year. The dash men are working hard and some good results are expected from them. The work on the track is nearing completion and better time is to be expected from them.

The distance men are in better shape this year than ever before, due to the preliminary training in cross-country. There is an abundant supply of good distance men this year, and they can be relied upon to uphold their end of the meets.

The field events are stronger this year than ever and no doubt there will be some new records set. The old records have been approached already.

The schedule for the Freshman team will be published at an early date.

BEAUTY CONTEST RESULTS

Total to March 1924, for the most beautiful Raleigh girl:

Miss Emily Jones	2880
Miss Ruby Sadler	2310
Miss Mary Thacker	330
Miss Margaret Workman	250
Miss Charlotte Nelson	220
Miss Winnie Rickett	210
Miss Lula Wynne	110
Miss Patsy Batts	95
Miss Evelyn Tyson	70
Miss T. K. Messick	50
Miss Sallie Peele	50

For the most handsome State College student:

C. E. Vick	2065
S. C. Hodges	1850
J. R. Moffitt	980
M. W. McCulloh	430
G. D. Humphrey	320
P. C. Beatty	250
C. D. Killian	250
Bull Harper	235
Frank Love	230
Goat Hooks	220
J. N. Wall	145
E. F. Clarke	100
J. C. Richert, Jr.	95
J. S. Neely	70
F. S. Trantham	70

THE BEAUTY CONTEST WILL CLOSE AT MIDNIGHT, MARCH 30, 1924.

¶In the mind of every serious thinking college man there arises a question: "What am I going to do after graduation?" This question presents a serious crisis. It demands a definite decision.

¶In an unusual degree the Life Insurance business combines the opportunity for conspicuous business success with the opportunity for real social service. Here is a profession that is eminently worthy of consideration.

ON A COLD, WINTRY DAY

Last time I wrote to you of spring,
And all the joys it gives to you;
How all its breezes gladness bring,
As signs of life spring up to view.

But now the world is grey outside,
And murky clouds hang overhead,
While springtime's coming stands defied
By winter's cold, and fear, and dread.

But though it's cold and drear without,
And Nature seems devoid of love,
Soon winter's blasts will be worn out,
And summer's sun will shine above.

The Great Engineering Achievement of 1899

What
Engineering
Owes to
Initiative

PRIOR to 1899 the works of the Westinghouse Airbrake Company was operated by reciprocating engines distributed in various parts of the plant. While this source of power was inefficient in many respects, it was the best known commercial motive force of the day.

By 1899, however, remarkable developments had been made in the design and construction of steam turbines and electric generating equipment. Called to the attention of the Airbrake officials, it was decided to give the new machines a chance, and three Westinghouse Steam Turbines were installed without delay. This was the first large installation of its kind, anywhere.

Daddy of All Large Commercial Turbines Began Operation at Wilmerding

It required *initiative* to take this step—someone had to be first. And, as in all important pioneering achievements, there was much skepticism as to results.

However, the new units quickly proved their practicability. Although of only 400 K. W. capacity they proved much more efficient and economical than the old reciprocating engines. Their economy was particularly conspicuous because by careful test they showed a fuel saving of approximately 36 per cent.

Steam turbine development thus received its first real impetus in 1899, the Wilmerding, Pa., performance definitely establishing this electrical unit as a *better* method of turning the wheels of industry.
