CAPTAIN JIM ALLEN BLANKS GUILFORD 2-0

Game Played in Rain; Shore Pitched Well For Guilford; Both Teams Worked Smoothly

State College blanked Guilford, 2 to 0 in the second game of their schedule. Although out-hit 6 to 5 State made good their hits, and coupled with good base running had no trouble in winning.

Captain Allen was in fine form and turned eight of the Quakers back by the strike-out route. When a hit meant a run Guilford was absolutely at the mercy of Captain Jim. He had no trouble, except in the first and fifth frames, when a hit would have put the game a tie. But that hit was lacking and Guilford was unable to score.

State scored in the first when C. Shuford opened with a hit, stole second and came home on Correll's single. Gladstone scored in the third

THE BEAUTY CONTEST PRIZES ARE AWARDED

Miss Emily Jones and C. E. Vick, Winners in Contest, Are Present at Supper Friday Night

In less than an hour after the names of the winners of The Technician Beauty Contest were announced the prizes were awarded.

Friday night at supper a special table was reserved in the dining hall for the winners of the contest, who were present for the occasion. Editor Morris gave a short talk, telling of the success of the contest, naming the winners, and then calling on each in turn to stand, delivered the prizes. The students, led by Cheer Leader Clifford, voiced their approval with a "Wau Gau Rac!" for the winners.

The Hodgers' sympathizers showed signs of defeat and some went so far as to charge the contest editor with bribery, whereupon they gave "Radio" the "axe." However, things passed off quietly and Col. Gregory saw no need of calling out the reserves.

STATE AGRICULTURAL STUDENTS HOLD THEIR ANNUAL RECEPTION

The Entire Student Body of Peace, Together With the Junior and Senior Classes of Meredith, Were the Guests of the State College Agricultural Students

The spring reception of the Agricultural Club, held in Patterson Hall last Saturday evening, was a very brilliant and successful social event. This reception, at which the entire student body of Peace and the Junior and Senior classes of Meredith were guests of the State College agricultural students, has come to be an annual affair, and one which is looked forward to with pleasant anticipation by the members of all three institutions. This is by far the largest social event held on the campus during the year.

A large reception hall was formed by throwing together two of the largest class rooms in the building. Other class rooms were also opened, allowing plenty of space for couples not participating in the contests. The decorations were very tastefully arranged, with potted flowers, evergreens, and paper draperies.

As soon as the guests had all arrived the couples were paired off by matching cards, a group of which had been given to the girls and a corresponding group to the boys, each card containing the name of a flower. As soon as each boy had found his partner, a slip of paper was handed to the girl, on which she was to draw the picture of the boy she was with. When these drawings were passed in and the judges asked to pick the best of the lot it was very hard for them to reach an agreement; but, after a lengthy discussion, they finally decided on Miss Ida Tucker McLaurin, of Peace, who for her artistic ability was presented with a large box of candy.

Following this a contest was held to see which State College boy could pull off the most comical stunt. Mr. Foun-

tain, of the Freshman Class, was declared the winner, and although his performance was beyond description, he was presented with the trophy, a pearl-handled pocket knife.

At the conclusion of the stunts refreshments were served consisting of ice cream, cakes, and fruit punch, which were greatly enjoyed. At this time the State College Quartet added very much to the entertainment by rendering several selections, for which they were generously applauded.

The time flew all too swiftly, and it came as a great surprise to all when Mr. Blount, master of ceremonies, announced that it was 10 o'clock, and as a culmination of the evening's entertainment the boys were to vote for the prettiest girl present. Slips of paper were handed out on which each was to write the name of the girl of his choice. To pick the prettiest one from such a multitude of pretty girls seemed indeed a task, but when the votes were finally counted it was announced that Miss Mary Watkins Bullock, of Peace, had been chosen as the fairest of the fair, her majority as winner being outstanding. Her prize was a beautiful corsage of roses and sweet-peas.

After exchanging college yells and songs, the girls departed for their respective colleges, leaving all the boys wishing that such occasions came oftener.

Out-of-town guests attending were the members of the V. P. I. track team who opposed the State track team in the afternoon.

The chaperones for the evening were Mr. and Mrs. F. H. Jeter, Mr. and Mrs. J. B. Cotner, and Mr. and Mrs. F. M. Haig.

—Ag Club Reporter.

PROMINENT ENGINEER LECTURES TO STUDENTS

G. B. Nichols, Designing and Consulting Engineer, Comes to State Under Auspices A. S. M. E.

With lantern slides showing the complete layout of power plant and heat distributing systems, Mr. Nichols pointed out many facts of value to the engineer in planning a modern power plant and heat conveying system. Particular attention was given to steam distribution, for the power plants itself, he states, is more or less stand-

LEAZAR DEBATERS AGAIN VICTORIOUS

Sophomores Continue the March That Was Started by Juniors and Seniors

The Sophomores of Leazar Literary Society were not satisfied with the victories of the Juniors and Seniors, so they scored the third successive victory by a two to one decision.

The query was: "Resolved, That the labor unions, as a whole, as they now exist, are beneficial to the American people." R. J. Peeler and W. B. Good-

THE TEXTILE SENIORS TAKE A WEEK'S TRIP

Inspect the Cotton Mills of North Carolina, South Carolina and Virginia

On Monday morning, March 31, at 8 o'clock, twenty-one members of Textile Senior Class and Professor Nelson started on a week's trip to inspect textile mills in the Carolinas and Virginia. The trip was made in the "White Swan," one of the large buses of the Raleigh-Durham line.

The Erwin Cotton Mills at Durham were the first to be visited. Here the class saw the manufacture and finishing of wide sheetings and denims. Due to the large number of mills to be visited, only a short time was spent in each mill. From Durham the class went to Greensboro, where they saw the largest denim mill in the world, the White Oak Mill. They saw at Greensboro the only print mill in the South. The class also went through

ENGINEERING EXPOSITION TO BE STAGED ON APRIL 15

Engineering Departments Open to the Public Tuesday Afternoon, 2 to 6; Public Invited—No Charge

For the first time in the history of the institution we are going to have an engineering exposition—a day when the several departments of the school of engineering will throw open their doors to the eyes of the public and initiate them into the mysteries of engineering. It is indeed an opportunity that is being offered to the people to see how young engineers of our State are trained.

The exposition will start at two o'clock and continue through six

Editorials

Dr. Brooks put before the student body some thoughts at the last assembly meeting that will no doubt be remembered for some time to come. In his talk on the *Ideals of Woodrow Wilson* he brought out the forcefulness of the personality of such a man as Wilson, and how he influenced the members of Congress to repeal certain bills that were detrimental to the welfare of the American Republic in Europe. The college is fortunate in having a man like Dr. Brooks that is far sighted enough to discuss the lives of these great men with the students and faculty of the institution.

The Engineering Show that is to be staged on Tuesday should prove of interest to every student on the campus. Of course the students of engineering will be vitally concerned because it is more or less their show, nevertheless the students of the other schools would do well to inspect the engineering departments at this opportunity and learn something of what is going on on the campus outside of their respective departments. In order that State College shall occupy that place in the minds of the people of the State and other States, it is well that her graduates should know of the various courses that are offered at this institution and should be able to talk intelligently concerning the work of the various departments of the college. The Engineering Show offers the chance to learn considerably about the School of Engineering, and it is hoped that the student body as a whole will invite their friends out and take the opportunity

themselves of learning more about their college.

The announcement and the awarding of THE TECHNICIAN Beauty Contest winners in the Dining Hall last Friday night caused an unusual amount of excitement; and rightly so, for this was the first time that such an occasion has taken place on the campus of old N. C. State College. Miss Emily Jones won the Ladies' Prize, which was a gold fountain pen and pencil combination. Miss Jones has smiled her way into the hearts of State College men for the past five years; there is little doubt that she is the best known young lady in Raleigh to the State College men. She always has a smile for everyone, the kind that makes you glad that you are alive. We are glad that Miss Jones won the distinction given her by the State College men, a distinction that she well deserves. The Post Office is a much happier place to visit because of her presence. In awarding the prize to the winner of the State College Handsome Boy Contest, it was very clear that the recipient of the award stood out as a leader in the line for which he had been chosen. C. E. Vick, the pride of the organization, known as the Lion Tamers, accepted the prize with all the dignity and grace that befits a man of his distinction.

The elections for the year 1924-25 are about completed, and from all indications the men that are to lead the forces on the campus are a capable lot of willing workers. It is next to impossible to sum up the work that has been done this year, and to point out what will be done next year, but in passing it might be well to refer to a few of the outstanding points. In the Student Government we have had a most successful year; very few cases have been called to the attention of the Student Council, and they have handled every situation to the satisfaction of those in authority of the college. Student Government has proven by another successful year its right to live on our campus. To P. C. Beatty we extend congratulations for the way in which things have been carried on this year, and we are confident that in C. R. Hoey we have a man that will stand for the best things and that Student Government will grow in usefulness and service to State College under his guidance and watchcare. Best of luck to you, "Cigar."

The Y. M. C. A. is very fortunate in having secured L. A. Brothers for president next year. Leroy is a hard worker and a capable man for the job that is ahead of him. Since his first year on State College Campus he has shown a great interest in the work of the Y. M. C. A., and his election comes as no surprise to those that have watched his interest and his devotion to duty. Brothers hails from Wilmington, and has had a great deal of training in Y. M. C. A. work under the capable "Y" secretary there. He comes to his job as president prepared for the task. He has attended Blue Ridge Summer School and has been to several "Y" conventions, including the one at Indianapolis this past Christmas. We are sure that the "Y" has a man that has the welfare of the Association at heart, and

there will be a sad story to relate at the class of next year if the State College Y. M. C. A. has not increased its usefulness and force on this campus.

The other officers that were elected are good men, men that can be depended on to give their best to the execution of the duties of their respective offices. Sam Wallis will do all he can, we are sure, to help the "Y" through his office as vice president, and J. E. Griffith will make a good secretary with all the experience and enthusiasm that he has. It is a good combination of men, and a combination that is expected to do great things at State College. J. M. Potter was elected to be treasurer. Although we know little of his financial ability, we know that Potter is a good worker and that he has the interest of the "Y" at heart.

State Is Represented At Washington Conference

The first National "College and University Students' Conference For Law Observance and Citizenship" was held in Washington, D. C., April 5-6. There were two hundred and fifty-six delegates present from twenty-five states, representing 85 institutions. N. C. State College was represented by C. R. Hoey, Jr., and E. S. King.

Among the speakers who addressed the Conference were Hon. Mabel Walker Willebrant, Assistant U. S. Attorney General, Senator Carter Glass, and Senator Wm. E. Borah.

The delegates were received at the executive office by President Coolidge on Saturday at 12:30, and the president then honored the conference by having his picture made with the group.

Saturday night a banquet was held in the Raleigh Hotel, to which student delegates were given complimentary tickets. Each delegation was called on to sing their college song or to give their college yell. The State delegates did their best on "Wau Gau Rac" and N. C. State pennants were hung where all present could see them. After the banquet had been served the theme, "The College Student's View of Citizenship," was discussed by Miss Esther McDonald, of Columbia, Mr. Wendell Berge, of Nebraska, and Mr. Dominick, of Yale. Congressman M. Clyde Kelly, of Pennsylvania, made the concluding address of the evening on "Difficulties in the Enforcement of the Eighteenth Amendment."

During the two days the conference was in session ample time was given for open discussion of existing conditions and of ways of inculcating respect for law.

In adopting the report of the findings committee the conference went on record as being squarely behind law observance and enforcement and a permanent organization was formed to co-operate with the National Movement for Law Enforcement and other existing agencies in working for this purpose. This organization has plans for carrying on an aggressive work in colleges and universities.

Chemical Show April 15th

Last Tuesday night the Chemical Society showed two pictures: "Copper Mining at Hecla and Calumet," and "The Manufacture of Zinc Oxide," which were loaned by the United States Bureau of Mines, Department of Interior. The public was invited to see these pictures.

After the showing of the pictures the society met and drew up plans for the Chemical Show, which will be held on April 15, Engineering Day.

A LITTLE MORE PEP

Wasn't it grand to think of State College as having the best athletic spirit of any college in the State, last fall? Didn't we feel boastful over it when we showed to the great crowd at the Carolina game that even though our team had lost our spirit was still alive and able to show itself? Yes, we were proud of it, and are still that way. But let us not get too much in the air about our good qualities until we can make more of their good.

Recently there has been two meetings of the student body which have not been well enough attended. In the first one there were about one hundred and ten men out, and in the second around three hundred. Gentlemen, these meetings were called for the purpose of solving campus problems, i. e., electing men to the various Technician offices, and demanded the voice of the entire student body. If we are to have the best college paper in the South we must take an interest in it. If we are to have the best college in the South we must work for it. And there is no better way of doing this than by getting out and taking a part in what is going on.

Fellow students, let's show to the people of North Carolina what State College can do. Let's put some pep in our work by taking an active part in things relative to student life, and the work of the students here. We want to see this institution ahead of any other of its kind going, and we can do more for making it such than anyone outside of the campus by having our say so in what goes on on the campus. A STUDENT.

Brothers Chosen "Y" President

Brothers was elected to lead the "Y" next year at the Y. M. C. A. election Wednesday. Much interest was shown in the election but it was clearly demonstrated that the majority of the students wanted Brothers as their next "Y" leader.

Brothers has been closely associated with the "Y" during his past three years on the campus, being a hard, earnest worker at all times. He has many friends on the campus and we know, with Brothers as the leader of the "Y," that greater progress will be made next year than ever before. With the rapid progress of the college we believe that Brothers will make next year's "Y" program keep pace with the progress of the college.

The other officers elected were S. R. Wallis, vice president; J. E. Griffith, secretary, and J. M. Potter, treasurer. These men are hard workers in the "Y" and will back Brothers to the limit in the "Y" program for another year.

The student body is to be congratulated on their wise selection of these men as next year "Y" leaders.

STATE STRONG IN FIELD EVENTS AND THE DASHES

Ripple, Byrum, Clark and Pridgen High Scorers for State, With Captain Hamrick and Scott Coming In For a First Place Each

By winning most every place in the field events State defeated the strong V. P. I. team by the score of 71 to 55. State went into the lead by taking first and third places in the century dash. Her lead was never overcome, but threatened several times by V. P. I. Byrum showed up well in the 100 and 220 dashes by winning first place in both of these events. Clark won both the high and low hurdles with much ease. Ripple won the shot-put and javelin after a hard fight with Captain Hamrick and Crater, respectively. Pridgen, a newcomer on the Tech squad, showed up especially well, winning the broad jump, tying for first place with two other State men in the pole vault and winning third place in the high jump. Captain Hamrick won first place in the discus and second in the shot-put. Scott won first in the two-mile without being pushed very hard. The men who won second and third places for State must not be forgotten, as it was these men who made it possible for State to win the meet.

For V. P. I. Roberts showed the best stuff by winning the quarter-mile and second place in both the 100 and 220 dashes. V. P. I. was especially strong in the middle distance run, but was not able to stand up with the pace that was started by State.

State won the meet by winning ten first places against four by V. P. I. State presented a well-balanced team for so early in the season. Much credit can be given to Coach Homewood.

The summary of the meet is as follows:

100 Yard Dash—Byrum, State; Roberts, V. P. I.; Winslow, State. Time, 10 2-5 seconds.

220 Yard Dash—Byrum, State; Roberts, V. P. I.; Hogan, V. P. I. Time, 23 3-5 seconds.

Quarter Mile—Roberts, V. P. I.; Curtis, State; Johnson, State. Time, 2 minutes, 12 seconds.

One Mile—Newman, V. P. I.; Jackson, V. P. I.; Robinson, V. P. I.; Robinson, State. Time, 4 minutes, 43 2-5 seconds.

Two Mile—Scott, State; Richards, V. P. I.; Roden, V. P. I. Time, 10 minutes, 31 1-4 seconds.

Low Hurdles—Clark, State; Maurice, V. P. I.; Currin, State. Time, 27 4-5 seconds.

High Hurdles—Clark, State; Maurice, V. P. I.; Currin, State. Time, 17 seconds.

High Jump—Culbert, V. P. I.; Ellis, V. P. I.; Pridgen, State. Height, 5 ft. 4 3-4 in.

Broad Jump—Pridgen, State; Culbert, V. P. I.; Burnett, V. P. I. 21 ft. 1-2 in.

Pole Vault—Ferguson, State; Pridgen, State; Meredith, State; all tied for first place. Height, 9 ft. 4 in.

Shot-Put—Ripple, State; Hamrick, State; Holly, V. P. I. Distance, 38 ft. 5-8 in.

Discus—Hamrick, State; Holly, V. P. I.; Cook, State. Distance, 117 ft. 8 1-2 inches.

Javelin—Ripple, State; Crater, State; De Le Bar, V. P. I. Distance, 158 ft.

A barber who hailed from Perdue Would continually urge a shampoo; He talked so of dandruff That the townfolk got damruff And made this poor barber skiddoo.—Ex.

DO YOU DESIRE TO APPLY FOR FELLOWSHIP?

Applications For Charles A. Coffin Foundation Fellowships Must be Filed With Secretary by April 15

Applications for Charles A. Coffin Foundation fellowships to be awarded this year must be filed with W. W. Trench, Secretary Charles A. Coffin Foundation, Schenectady, N. Y., by April 15, from whom application blanks may be obtained.

These fellowships are given in electricity, physics and physical chemistry, and are available to graduates of the universities, colleges and technical schools of the United States who have shown, by the character of their work, that they could, with advantage, undertake or continue research work in educational institutions, either in this country or abroad. The committee in charge desires to award the fellowships to men who, without financial assistance, would be unable to devote themselves to research work. Six were awarded last year. Applications from seniors as well as graduates will be welcomed, but any award to a senior will be conditioned upon his being graduated.

Five thousand dollars have been made available by the Foundation for this purpose. The fellowships carry a minimum allowance of five hundred dollars each, which may be increased to meet special needs of applicants to whom they are granted.

Prominent Engineer Lectures to Students

(Continued from page 1.)

ardized, while there is considerable controversy among engineers as to the better system of steam transmission.

The slides consisted principally of the power and heat distributing system which was recently completed at Cornell University by Mr. Nichols, and served as a good example of modern power plant engineering.

It was of interest to note in his lecture that acetylene welding was used altogether in joining the pipes, rather than by use of flanges, and that wrought iron pipes were replaced by those of steel, because the steel pipes could be obtained in much longer lengths than the wrought iron, reducing the number of joints to be welded.

Leazar Debaters Again Victorious

(Continued from page 1.)

ing, of Leazar, upheld the affirmative, while J. A. Wilson and G. R. Cline, of Pullen, argued the negative side of the question.

It was a hot debate, and no one

knew who was victorious until the judges rendered their decision. Every man on the debate showed that considerable time had been spent in preparation.

Mr. R. J. Peeler, who is an able and faithful Leazarite, was declared the best speaker of the evening. Mr. J. A. Wilson, of Pullen, was awarded second place. Both men knew their subject and delivered their speeches well.

Presiding over the contest was Mr. Leslie Andrews, president of Pullen, and Mr. Claude White, secretary of Leazar, acted as secretary. The judges were Professors Mols, Andrews, and Clark.

Their Row

The couple were married and traveled to the lakes for their honeymoon. As soon as they arrived they took a boat out upon the lake.

The following morning the bride's mother got a postcard, which read: "Arrived safely. Grand row before supper."

She read and sighed.

"My!" she muttered, "I didn't

think they'd begin to quarrel so soon."—The Watchman-Examiner.

when he singled, went to second on Correll's grounder, stole third and scored on Johnson's sacrifice fly.

In the first game C. Frazier singled and went to second on J. W. Frazier's sacrifice, moved to third when Smithdeal had been passed and Winn hit by a pitched ball. Here Allen shut down, forcing Cummings to pop up to right and C. Smith hit an easy grounder for the third out.

In the fifth Shore flew out; C. Frazier, J. Frazier, and Smithfield singled in succession, but the inning ended when Gladstone completed a double play unassisted, thereby getting credit for completing the first unassisted double play of the season.

The game was played in a chilly, drizzle of rain, but was fast and well played.

Shore twirled a good game for the Quakers and was well supported by his teammates. C. Frazier was the batting sensation of the game, getting three hits in four trips to the bat.

Engineering Exposition to Be Staged on April 15

(Continued from page 1.)

o'clock. The show will be continuous and no regular order of inspection will be adhered to; the public is invited to come out during the afternoon and see all or as much of the exhibition as they wish or have time to inspect. Students and faculty will be on hand to show the visitors around and explain to them the workings of the various devices and machines connected with their respective departments.

The textile department will give demonstrations showing the making of cloth and the other steps in the manufacture of cotton goods. The electrical department will exhibit the many electrical appliances and machines connected with the department, which should prove of interest to a great number of people. The Civil and Highway departments will have their laboratories and drafting rooms open and in running order to show the visitors the testing of materials and the instruments, etc., used in civil engineering work. The mechanical department will have a great number of machines to demonstrate, their shops will be open, and the forge will be operating; these things will no doubt prove very interesting and instructive to those who attend the exhibition.

The public is cordially invited to at-

Authority on Industrial Relations to Speak Here

On Monday, April 14, Mr. Whiting Williams, outstanding authority on Industrial Relations, will be with us and will address several campus groups on subjects pertaining to labor and social problems. Mr. Williams is a well-known lecturer on such subjects, and is well qualified for speaking on them, studying them closely. For nearly two years he lived as a laborer among miners and steel workers.

Besides, Mr. Williams has been closely connected with work among college men, having held positions on the faculties of such schools as Harvard, Dartmouth, and Carnegie Tech. He is a man of wide learning and, being himself deeply interested in his subject, he is well fitted for giving students new ideas on labor and social problems.

Co-operation and Hard Work by Retiring Staff

W. S. MORRIS
Editor-in-Chief

J. E. BRITT
Associate Editor

T. O. EVANS, JR.
Business Manager

C. L. WALTON
Managing Editor

The students of this institution owe a debt of thanks to the retiring Technician staff for their excellent work and fine co-operation in issuing our college newspaper, The Technician, the past year. Some of the students have the erroneous idea that some of the men have been paid for this hard work; but it is sadly a mistake. All The Technician men have contributed to this college through their writings has been absolutely free and willing. This is why we owe the retiring staff such an enormous amount of congratulation and recognition.

The retiring Technician staff has performed its duties amply well. It

has not missed a single issue for the complete year, and has run feature sections for many of the different departments on the campus, charging them only for the extra cost. The staff has functioned under a system which has covered all news that would be of interest to anyone on the campus, having constructive editorial articles, athletic write-ups, and other happenings on the campus that are of interest to our fellow students.

Three or four years ago The Technician was installed on our college campus for the purpose of serving the students, and not for pecuniary profit to any individual. Some of the non-

progressive element on our campus discouraged the idea and scoffed at the students who conceived this noble thought; but the progressive element showed the "sot-heads" that there are men at State College who can stand up for high ideals. The result was The Technician, which has been running only for three or four years. The 1922-23 workers for the college publication had a hard time, but succeeded in establishing a paper that was a credit to their efforts.

With the somber atmosphere surrounding the retiring staff of this year, they plunged into the task of making a paper that would be of credit to

themselves last fall. With their hard work and fine co-operation, they have advanced our college newspaper to such a high plane that not long ago one of North Carolina's prominent citizens passed a compliment on The Technician that would stand good under any criticism.

"Buck" Morris has written his high ideals and rational thinking into the editorials of The Technician in a way that they have caused the thinking element of this college to follow his ideals. The object of editorials are to shape the thought of the readers, and

(Continued on page 7.)

The Technician Staff Elected For Next Year

S. R. WALLIS
Editor-in-Chief

JOE JOHNSON
Managing Editor

R. H. RAPER
Business Manager

At a large attendance of the student body last Monday night S. R. Wallis, the football and basketball star, was elected as editor-in-chief of THE TECHNICIAN for next year. The other men elected at this time were: R. H. Raper for business manager and Joe W. Johnson for managing editor. This trio will no doubt put THE TECHNICIAN in the front rank of the Southern College publications next year.

Sam Wallis comes to the job as editor-in-chief after having served in the capacity of reporter for the past year. He has proven himself to be an able writer and we feel sure the news

end of the publication will be well taken care of next year with Sam at the head of the list, directing the others in the way they should go. R. H. Raper served as assistant business manager during this past term, and he has shown to the satisfaction of those concerned that he has those qualities of good business that will enable him to finance THE TECHNICIAN through a very successful year. Raper ably assisted the business manager this year and is familiar with the inner workings of the publication, which information will prove of inestimable worth to him in his duties next year.

Joe W. Johnson has been on the staff for two years and served as society editor for the past year. Besides his regular column he contributed to the news end quite frequently and when there was a story to be secured you could always count on Joe if you needed a reporter in a hurry. He covered his field well and has become acquainted with the duties of the staff, especially along the line of the managing editor. The managing editor's job is conceded to be one of much work and little credit; Joe is a hard worker, so we feel that his job will be well taken care of and that the complaints will be few under his direction.

The remainder of the staff will be selected by the new officers with the assistance of the old staff members, and will be announced as soon as the list has been completed.

The new staff is a well-balanced lot and the old staff feels that the student body has acted wisely in their choice. We are proud of our successors and trust they will do those things that we had dreamed of doing, and even go beyond that, into the realms of the seemingly impossible in college newspaper work. We wish you the best of luck and the co-operation that should be yours in the task ahead of you.

Retiring Cabinet Leaves Record of Justice to All

P. C. BEATTY
President

Twelve months ago a dark horse entered the presidential race at State College. Everyone admitted that Cleve Beatty was a good fellow, but no one talked openly of his ability in student leadership. To the campus political forecasters, Beatty's election was a distinct surprise, and his inaugural address was still more surprising. This quiet, reserved fellow had more in him than students thought. And he has merited the trust of the students.

Quickly organizing the council he met his first crisis like a man and came through it successfully. Quiet, determined, rational, and just, he has insisted upon fairness—the square deal—as the standard of student government. No man, be he student, ex-student, or member of faculty, can justly accuse Beatty's adjustment of his affairs as unfair.

In his council he has received solid support. His officers have lent him the co-operation that has helped to make things move along. In the vice president, Crater, the students have a man that is thoroughly in accord with the sound principles of student government, and, better still, makes his actions consistent with his convictions. The other officers, too, have lent Beatty their co-operation to the fullest extent.

In summing up the accomplishments of the out-going officers, no great explanation is needed, no alibis are necessary, and no excuses are in order. The record stands as the answer to all enemies of the administration of student government affairs by the Class of '24. Not a case has been judged by sentiment, not a case has been disposed

of unjustly, not an action has been taken without much careful thought and deliberation. The record is there, in black and white, on the minute books. There for the friends of the retiring council to see, there for its enemies to see and be discomfited. And the retiring cabinet has its enemies. There are a few men yet who have never been converted to the principles of honesty and justice upon which student government must operate. There are others who, in their refusal to face the facts, are dissatisfied because Utopia has not been a reality on the campus. Such opposition has been most unfortunate, and has been deplorable. The thinking of a people cannot be changed overnight, it must be changed by slower, but surer means. State has made great strides during the past three years and there is no call for hysteria, either on the part of idealistic students or on the part of administration officials, who are so blinded by theory that they cannot see the bald facts staring them in the face.

Beatty has met all of this like a man and his quiet but forceful administration has merited the confidence of the student body. The student body is proud of you, Cleve, and believes that the record of your administration refutes any criticism which may have arisen.

Perpetual Motion

"What's the difference between a girl and a Victrola?"

"Well, a Victrola runs down."—Stanford Chaparral.

J. B. CRATER
Vice President

He Knew Them

A small boy had been vaccinated, and after the operation the doctor prepared to bandage the sore arm, but he objected.

"Put it on the other arm, doctor."

"Why, no," said the doctor. "I want to put the bandage on the sore arm, so the boys at school won't hit you on it."

"Put it on the other arm, doc," reiterated the small boy. "You don't know boys at our school."—Ex.

Clyde R. Hoey Elected to Head Student Body

Clyde R. Hoey, Jr., of Shelby, was elected president of Student Government for next year by the student body at a general election April 5. Ro-

C. R. HOEY
President

chelle Johnson, of Chalybeate Springs, was elected vice president, C. L. Shuford, of Arden, secretary, and Henry Kendell, also of Shelby, treasurer.

These are the highest offices within the gift of the student body and are given only to those who have won the confidence and admiration of the student body.

Clyde R. Hoey, Jr., is an ideal student, having distinguished himself by his scholastic standing, by his interest

in athletics, and by his enthusiasm in everything that makes for a better State College. He has had quite a bit of experience in Student Government, having served on the council two (?) years, and is in every way capable of the office.

Rochelle Johnson, who occupies the unique position of having been voted the college's best athlete, is well fitted for the vice presidency.

The officers of both the council and the house will be installed April 17.

The work of the retiring officers is highly commendable. There has been a marked development in Student Government since it was founded, and we are expecting continued advancement under the new officers.

FRACTIOUS PITT FRESHMAN WEARS A "P" ON HIS SCALP

A very unusual freshman has been found at the University of Pittsburg. He has had the hair cut from the top of his head so that the letter "P" is formed thereon, because he has been found guilty of breaking forty-two freshman laws, thirty-three of which were unwritten. He made this possible by using front entrances, by talking back to sophs, by keeping company with a fair co-ed, by refusing to carry matches, and by innumerable other crimes.—Centre Cento.

Flirting Conductor: "That's all right, my dear; you can ride on your face."

Sweet Thing: "Oh, I much prefer to sit down."—Blue and Gray.

STATE ATHLETE WINS COVETED LOVING CUP

Rochelle Johnson, better known as "Red," of Chalybeate Springs, during the calendar year 1923 was the best all-around athlete at State College,

R. JOHNSON
Vice President

according to the sentiments of the student body expressed in an election to name the winner of the Norris Athletic Trophy.

This handsome cup, awarded by

Norris, Incorporated, of Atlanta, Ga., through the president of the company, Frank E. Lowenstein, a State College alumnus, Class of 1897, becomes the permanent property of the winner and a new trophy will be given for next year. It will be presented at commencement.

"Red" Johnson is a member of the Junior Textile Class, and he plays football, basketball and baseball. He is a backfield man on the grid team, a guard in basketball, and a catcher and outfielder on the Tech diamond aggregation. He captained the Tech quintet during the season just closed, and was selected as captain of the 1924 basketball team.

The Norris Trophy, a cup of massive silver design, standing twenty-four inches high, has created widespread interest on the local campus. It is awarded under a rigid code of regulations which carry a scholarship requirement. Johnson qualifies under this regulation also, as he has never made a failure in any of his subjects.

Reform in the First Degree

Flubb: "Gimme a cigarette."

Dubb: "Why, I thought you told me you had quit?"

"Well, I've reached the first stage. I've quit buying."—Kansas Sour Owl.

The 1924 Agromeck Becomes A Reality

F. S. TRANTHAM
Editor-in-Chief

C. R. HALL
Managing Editor

A. W. GREEN
Business Manager

If the hands of time could be turned back for twelve months and the leaders of the Class of '24 named, the names of Trantham, Green, and Hall would be among the first mentioned. And again reverse the hands of time another twelve months, back to the days when our present dignified Seniors were proud, arrogant, blustering, and red-blooded Sophomores, there again ranking high in activity would be found that trio—Trantham, Green, and Hall. The first a scholar and worker, the second a dare-devil (of smokestack

fame) and executive, the third a fellow who possessed a full measure of that rare and valuable attribute—industry. These are the men whom the Senior class charged with the responsibility of compiling, financing, and publishing the 1924 Agromeck. The Senior class chose well, not on the spur of the moment, not on sentiment, but on the basis of past activity, present ability, and indication of future industry. The 1924 Agromeck staff presents a rare combination—scholarship, executive ability, and industriousness—a

combination that has helped them wonderfully in their work. They have met with obstacles which, at times, seemed to threaten the book. Soon after the book was outlined the college was re-organized, throwing them back two months in their self-imposed schedule of work. The material has been slow coming in, the collections hard, and worst of all the staff sick at the busiest time of the year. But they have surmounted the difficulties and offer no excuses, no alibis, and no complaints. They have been

drilled well in the exacting demands of campus activities and have emerged with the best answer to all criticisms—an Agromeck of which the printers are justly proud, a thing of beauty, representative in its entirety of the college and the Class of 1924. The 1924 Agromeck, existing for twelve months in the imagination of Frank Trantham and his co-workers, is about to become a reality. Hard work, brains, business methods, and co-operation have done the job. The 1924 Agromeck staff has "come across."

The Personnel of the New Agromeck Staff

G. W. WRAY
Business Manager

A short time ago the Junior class met and elected the men who are to edit the 1925 Agromeck. The men who are elected to this office are placed in a responsible position, for the college annual is undoubtedly one of the best advertising mediums. Whether this advertising is adverse or commendatory depends to a large extent upon the type of annual which is edited.

The following men were elected to the staff of the 1925 Agromeck: L. L. Hedgepeth, editor-in-chief; D. S. Mathewson, managing editor; G. W. Wray, business manager.

Mr. Hedgepeth has been associated with college publications during his entire time here. He is one of the outstanding men in the Junior class and early showed an aptitude for the work of a college publication editor.

The Junior class could have chosen no better man for this position.

Mr. Mathewson, who will assist Mr. Hedgepeth, is a leader in his class. His work, that of managing editor, or associate editor, is important. A man in this position can be of inestimable assistance to the editor. Mr. Hedgepeth should find a valuable running mate in Mathewson.

Mr. Wray, business manager, is one of the most capable and popular men on the campus. He has been connected with all phases of college work since his Freshman year. He distinguished himself early in his college course. The position he is to occupy next year is one of the most important and responsible that can come to a student. He will have charge of the financing of the year book. He has the confidence of the class and will no doubt prove himself to be a valuable man.

L. L. HEDGEPETH
Editor-in-Chief

CO-OPERATION AND HARD WORK BY RETIRING STAFF

(Continued from page 5.)

this the editorials "Buck" has written have done.

To "Jazz" Britt we wish to extend thanks for his untiring efforts in heading the reportorial department, and the bringing into existence of this needed organization for securing news. "Jazz," due to his interest in his college and the students here, has made several trips to other colleges and studied their systems in order that the students here might have as good

a newspaper as any in the South. All of this was done at the expense of Britt, including all his loss of time. Not only has Britt caused a reportorial department to be brought about among The Technician reporters, but he has put many hours of work and made several trips to other institutions with an idea of establishing a publication union among our college publications. He has studied the union that the University of North Carolina has so successfully brought into operation among her students. All of this brings out the fine characteristics of a true student to his college—a student who will spend his own time and money for the betterment of the other students; a student who goes among his

fellow men and stands out in Christianity, due to his social work among the various organizations on the campus.

Our business manager, "Toe" Evans, has successfully managed the financial end of our paper, which is one of the most irritating jobs that a person takes upon himself. However, "Toe" has used his managerial ability and secured advertisements, subscriptions, and the collections in such an orderly way that one would think he is taking Business Administration. One would wonder how a fellow can so successfully do this; but after he has a few dealings with "Toe" Evans and comes to know him, he ceases to wonder why "Toe" can succeed so easily—it is be-

cause of his pause in thinking, quietness and business trend of mind.

"Shorty" Walton, managing editor, is the fellow who receives all the kicking without any recognition. But, nevertheless, "Shorty" has gone to the print shop two or three times a week, and performs his duty nobly. We congratulate you, "Shorty," on your successful arrangement and display of articles that you have placed for The Technician.

He and She arrived in the second half.

He: "Score is still nothing to nothing."

She: "Oh, goody! We haven't missed a thing."—Ex.

State "Y" Completes a Good Year's Work

As we hear the singing of the birds and the "swat" of the old timber against the horsehide sphere; as we see the trees and lawns turn green with envy at the power of the warming sun, we do two things. We contract spring fever—polite way of saying we get lazy—and we begin to think of next year and of the past year. As we look back over the 1923-'24 school year we see things in a different light from the one we saw them in as we went about our respective duties during the year. We see things now we could not see then. From this perspective all the little rough places are smoothed over in the perfection and unification of the whole. It is even thusly in religious work. We can never see any accomplishment as we go along, but after a period of time we see that we have accomplished something.

P. T. DIXON
President

As we now look back over the passing year we see that Paxton Dixon and his Cabinet have wrought well. Dixon is a thoroughgoing, hard-working man, who makes sure of his way and then pushes forward. He is blessed with a cheerful disposition and a big heart, full of sympathy. He'd walk a mile to do a fellow a good turn. He is a popular man on the campus, and probably knows more men by their first names than many of us do. Dixon came to State College from "down in Craven," near New Bern, where men are men. He has worked his way through college, an accomplishment of which he may justly be proud. It is significant to note that the men who work their way through generally have time to leave the old campus a little better for their having lived here four years. Coming from a fine old Christian

home, "Dick" has kept his standards high. His personal life is above reproach. "Dick" has made us a good president. And best o' luck to you for life, Dick!

In J. E. Smith Dixon has indeed had a right-hand man. As vice-president of the 1923-'24 "Y," "Jazz" has served well, and his presence on the "Y" Cabinet has made itself felt in the life of the College.

George Wray and L. A. Brothers, as secretary and treasurer respectively of the 1923-'24 administration, have proved themselves efficient and dependable in their respective tasks and were valuable factors in the group thought of the Cabinet.

The Difference

"Mrs. Spender's husband seems bent with pain."

Brothers Chosen As President of Y. M. C. A.

RULES AND REGULATIONS OF N. C. STATE COLLEGE

IX

Uniform Regulations

The following regulations governing the wearing of the uniform of the United States Army, as issued to, purchased by or for the students of the R. O. T. C. Infantry Unit, are prescribed:

A. The regulation uniform will be worn by all R. O. T. C. students at all drills, ceremonies, field maneuvers, and such other formations as may be held under the supervision of the Military Department.

B. The regulation uniform shall consist of the following articles: Olive drab cap with ornament; olive drab shirt, flannel, with black four-in-hand tie; olive drab web belt; olive drab breeches, woolen; olive drab spiral leggings; insignia, as directed by the professor of military science and tactics; uniform tan shoes. During cold weather and when directed by the professor of military science and tactics, the following substitute: Olive drab coat, with collar ornaments and sleeve insignia, coat to be buttoned throughout, instead of olive drab shirt; olive drab overcoat, when directed. For student officers, such additional equipment as directed by the professor of military science and tactics.

C. The uniform may be worn at any or all times by students of the R. O. T. C. regiment. When worn, there will be no deviation from that prescribed in sub-paragraph B. When civilian clothing is worn, no part of the uniform will be included, except that the olive drab shirt with a black four-in-hand tie and the olive drab overcoat is authorized as a part of the civilian dress.

D. The wearing of mixed uniform is prohibited at this college. Students will appear at all times in either civilian clothing or the regulation uniform as prescribed above.

E. Sweaters will not be worn with the regulation uniform.

F. A distinctive mark will be worn at all times by Freshmen when in uniform; this will consist of a black cord, as prescribed by the professor of military science and tactics, on the back of the cap from button to button.

G. The Government of the United

L. A. BROTHERS
President

J. E. GRIFFITH
Secretary

States requires all R. O. T. C. students while undergoing military instruction or when in uniform to observe military courtesy and customs.

H. Students of this institution not enrolled in the R. O. T. C. are prohibited from wearing the uniform or any part of the uniform, similar in cut or design to that prescribed for members of the R. O. T. C., except that the olive drab shirt with tie, properly cleaned and buttoned, is authorized.

J. All members of the faculty and all student officers and non-commissioned officers will report any violation of these regulations.

K. These regulations will be in force as regards students enrolled in the R. O. T. C. while he is a member of this institution.

JOHN H. GIBSON,
Capt. Infantry, U. S. A.,
Executive Officer.

There seems to be a general letting down in the manner of wearing the uniform. This is especially noticeable among under-classmen, and upper-classmen are not entirely immune. Whether this is due to ignorance or carelessness, it is hard to say. The rules given above will show you what is correct in the wearing of the uniform. They were adopted by the college, and not by the Military Department. You should take enough pride

in your self and your college to abide by them.

COLLEGE MEN'S EXCURSION TO ENGLAND AND FRANCE IN "SAXONIA'S" 3D CABIN

Chance to Economically Attend European Attractions, Including the Olympic Games, British Empire Exhibition, and Ancient Tailteann Revival.

Under the chairmanship of B. D. Adams, of "The Oaks," Ithaca, N. Y., college men are arranging an economical excursion to England, France and other European countries this summer, sailing from New York for Plymouth, Cherbourg and Southampton on June 21st in the third cabin of the "Saxonia," and returning on the same ship from Southampton and Cherbourg on September 6th. Only college students are eligible, but students of all colleges are welcome to join the excursion. The "Saxonia's" entire third-class has been reserved for the college men, and no others will be admitted.

The cost for the round trip has been placed at \$165, and the chair-

man says that with the low rate of exchange prevailing abroad students may enjoy two months of sight-seeing and attending exhibitions, fairs, athletic meets and kindred attractions for \$400.

Some of the features abroad the coming summer will be the British Empire Exposition, London; the Olympic Games, Paris; the Ancient Tailteann Games, to be revived in Dublin; and many lesser events throughout Britain and the continent.

Mr. Adams says that the exclusive third cabin will answer the increased demand for an economical and comfortable mode of transportation to Europe. On this excursion non-students and immigrants will positively be excluded from the third class, thereby eliminating what has been the economical traveler's only objection to the modern third class. The chairman promises "good wholesome British food four times a day."

Students are invited to take their musical instruments along, so that impromptu parties, "song fests" and musical evenings may be the rule. The Cunard Line will arrange to store the instruments until the ship returns in September.

The "Saxonia" has just been completely renovated and reconditioned. She has always been famous for her steadiness.

The Cunard Steamship Company,
25 Broadway, New York.

TRYING FOR BOTH

A very homely Irishman had lost his job and was having a hard time finding another when an acquaintance met him one day.

"Hello, Pat! How are ye?" he said.

"Mighty bad," was Pat's reply. "Sure, 'tis starvation that's starin' me in the face."

"Is that so?" the other rejoined. "Sure it can't be very pleasant for ayther av yez."—Exchange.

Tom: "What do you call it when a man has a number of wives?"

Dick: "Polygamy."

Tom: "Oh, yes. And what is it when he has only one wife?"

Dick: "Monotony."—The Yellow Jacket.

PERSONAL AND SOCIAL COLUMN

Joe W. Johnson, Editor

All social or personal news deposited in The Technician News Box will be appreciated by the editor.

"Jazz" Britt, associate editor of The Technician, spent a few days the past week with his cousin in Youngsville.

J. A. Brothers visited his son, L. A. Brothers, here last week. On his return trip to Wilmington he was accompanied home by his son and D. D. Barber.

J. K. Wells, Jr., spent the week-end with his parents at Middleburg, N. C.

"Legs" Faulkner, varsity catcher of last year, visited his friends at this institution last week.

"Foots" Beasley, a former State College student, visited here the first of the week. He is now at home at Louisburg, N. C.

Midgett Newberry and Pat Lynch, from Dunn, visited Red Clifford last week-end.

R. K. Matthes' father visited him last week, when he was in Raleigh attending the Rotary meeting.

M. S. Gravely visited his parents, Mr. and Mrs. W. G. Gravely, in Monroe, last week-end.

"Runt" Crockford, long-distance man of last year's track team, was a visitor here to witness the meet between State and V. P. I. last Saturday afternoon.

"Preacher" Wooten visited friends and relatives in Chadbourne last week.

D. O. Price, Felix Ritchie, A. W. Kemp, and W. G. Booker motored to Greensboro last week-end; then each one of them branched off and visited various towns and cities.

T. J. Tobaison spent a few days last week visiting friends in Mount Pleasant, N. C.

"Luben" Baker, who was one of our most popular students last year, visited his Alma Mater last week. "Luben" is now located at Lillington, N. C.

A write-up of the agricultural reception, which was held last Saturday evening, will appear elsewhere in The Technician.

The track team left last Wednesday morning on the 10:40 train for Davidson College, where they will meet Davidson on the cinder path.

The Boiling Springs High School Club at Meredith College gave the Boiling Springs High School boys who are at Wake Forest, State and Carolina a student party Saturday night, April 5th. A good time was enjoyed by all present.

Motorist (stopping beside car parked in shadow—Is anyone hurt? Parker (interrupted in petting party)—No; but there will be.—Ex.

BAPTIST STUDENT MASS MEETING A SUCCESS

"Hunchback of Notre Dame," With Subject of the New Organization Just Performed

A new scene was enacted last Sunday afternoon when approximately sixty Meredith girls and forty State College Baptist students, including a number of local young people, met at Pullen Memorial church to initiate a Baptist Student Organization.

The program was made attractive with music from the Meredith and State College quartets. Short talks were made by Dr. Ellis on "The Origin and Purpose of Baptist Student Activities"; by Mr. L. R. Gilbert on "The Church as the Home of Baptist Student Activities," and Mr. R. M. Warren on the "Plan of Organization." Mr. Carl Bridges acted as chairman and read the recommendation of the organization and election committee, which, in brief, is to have a president and secretary of the organization elected by ballot at a social in May, using as their executive committee the Student Work Committee which has been functioning during the past year and is being projected into the coming year. This committee has representatives from the organizations of the church who serve jointly with student representatives.

A number of nominations were made from the girls present for secretary and from the boys for president. By a standing vote the final candidates for president are H. G. Moore and E. J. Whitaker; for secretary, Anna Belle Abbott and Foy Lineberry. It is hoped that every Baptist student will consider the duties of these officers and help elect the ones they should like to see head-up the Baptist Student Organization.

There are a number of interesting and important events planned for the coming weeks. The next two are special talks by Mr. Stephenson on "Faith and Science." The first will be next Sunday, at 9:30, in the State College Bible Class, and the second will be the first Sunday after the Easter holidays.

GREAT PICTURE COMING TO THE STATE THEATRE

"Hunchback of Notre Dame," With Symphony Orchestra, April 17-19

Victor Hugo's masterpiece, "The Hunchback of Notre Dame," will play a limited engagement at the local house, starting Thursday, April 17, for three days. With the film comes a car load of scenery and full stage crew as well as a full symphony orchestra of twenty pieces. Lou Chaney heads the notable cast of 3,091 players. The story is one of Hugo's best, and the picture does it justice.

Seat sale starting Monday, April 14.

(Continued from page 1.)

the Revolution Mill, where they saw the napping and finishing of outings.

Tuesday morning was spent in the Marshall Field plant at Leaksville-Spray, where Jaquard bed spreads, cotton blankets, and Axminster carpets are made. This is the only mill in the South making this class of carpet. After going through the mills, the class was entertained at lunch by the management of these mills. In the afternoon the class went to Danville, Va., and were shown through the Riverside and Dan River mills. These are the largest gingham mills in the world. On Wednesday a short stop was made at the Erlanger Mills in Lexington. This was the first fancy mill to be visited by the class.

All of Wednesday afternoon was spent at the largest towel mills in the world at Kannapolis. Prior to going through the mills the textile party was entertained at lunch by the management.

In Charlotte the Parks-Cramer Company's humidifier plant, a silk knitting mill and the Haskins Cotton Mill were visited. At the knitting mill the class saw nine of the twenty flat knitting machines in the South.

In order that the textile students might see where some of the power which drives the mill machinery is developed, an hour was given to looking through the new power plant at Mountain Island.

The class saw how yarn is mercerized at the plant of the American Yarn and Processing Company at Mount Holly and proceeded to the Lora and Arkray mills at Gastonia. The former manufactures tire fabric, while the latter makes fine yarns.

The last town to be visited was Greenville, S. C., where the party was

shown through the finest mills to be seen on the trip, the Judson & Duncan mills. Art silk and leno weaving was being done at these mills.

How mills are designed and drawn was shown at the offices of Seirine and Company, architects and engineers. At the office of the Steel Heddle Company of America various types of heddles were examined. The plant of the Union Bleachery Company was of much interest; so was the feed that this company gave the young textile men.

The spirit with which the mill owners and executives received the textile party was indeed gratifying. It goes to show that they have confidence in the work which the Textile School is doing and that they are looking to it for the future leaders of their great industry. At almost every place graduates of the Textile School were found holding responsible positions.

Another thing which impressed the students was the wholesome living conditions which prevail in the majority of these mills and in their mill villages. The modern mill village is a clean, architecturally pleasing community, with modern schools, churches and facilities for recreation and social enjoyment.

Out of this trip the students received not only points of technical value in textile work, but also a clearer conception of the greatness of the industry in which they expect to spend their lives. They are assured that it furnishes a rich field for the college man and can command his best thought and efforts.

A Londoner, looking over a country estate, was startled by a peculiar screeching noise—"I say, old chap," he asked the agent, "what is that?" "An owl." "Hell, I know that—but what was 'owling?"—Ex.

Change in Method of Selecting Senior Commencement Speaker

Dr. Brooks recently met with the Senior Class to consider method of selecting Senior commencement speakers, and also to consider number of speakers.

As many of you know, it has been the custom to have one speaker from each department. In view of the fact that the college is rapidly increasing the number of departments, the class decided that it would be wise to have one speaker represent each school, namely, the School of General Science,

the School of Engineering, and the School of Agriculture.

All who wish may compete from his school to be one of the speakers. The subject must be filed with the dean of his school by April 1. The final preliminaries will be held May 1.

Jack and Jill went up the hill,

The hill of matrimony.

Jack fell down with an awful splash,
And Jill got alimony.—Ex.

Why do girls kiss each other when they meet and men do not? The girls have nothing better to kiss and the men do have.—Ex.

STATE OPENS WITH A VICTORY OVER ELON

Errors by Elon Help State; "Red" Johnson Hits Hard and "Dutch" Holland Gets Homer

Coach Doak's baseball eleven opened the season by completely slaughtering Elon by the score of 13 to 4. Six errors by Elon helped State to run up the high score, but this was coupled with opportune hitting. The weather was bad baseball weather, and neither team was able to get going to the fullest extent.

Charles Shuford was the first man up for State, and thereby the first man to get on base, but to Gladstone goes the credit of getting the first hit. Shuford walked and Gladstone hit one for two sacks; both scored on bonehead plays and errors by the Elon infield. With Lassiter and Holland on base, Red Johnson hit one for two bases and cleaned the bases. State was unable to score in the second, but two more runs were pushed across in the third stanza.

Correll opened with a single and Lassiter reached first on an error, Holland sacrificed and Red brought them home with his second hit of the game.

In the fourth State pushed across four more runs. Two runs had been pushed across when Holland came to bat with Correll on base. He hit one into right field which was good for no less than four bases.

Three errors and Red's third hit gave State three more runs in the sixth. State was unable to score during the remainder of the game.

Elon scored twice in the fourth, when H. Brown singled and Barker hit one over the second base, the ball taking a bad hop and going into right field for a single. Two infield outs, coupled with an error by "Big" Shepherd, was good for two runs.

In the fifth Wade went to the box to relieve Johnny Hill, this being his first game as a pitcher. He was unsteady and walked the first batter. Alston hit one for one base and Gilliam drove them in with a two-bagger. After this inning the Elon batsmen were at the mercy of Wade and were not able to do any more scoring.

A good line cannot be obtained on State as she received very little opposition and the coldness of the weather affected their fielding. State has a well-balanced team and much

will be expected of them before the season is over.

Box Score

Elon	Ab.	R.	H.	O.	A.	E.

Score by innings:

Elon	000	022	000	—	4
State	402	403	00x	—	13

Two-base hits: Alston, Gilliam, Gladstone, Johnson (2). Home run: Holland. Base on balls: off Barker, 6; Hill, 1; Wade, 1. Struck out: by Barker, 6; Hill, 5; Wade, 4. Stolen bases: Sides, Gladstone (2), C. Shuford (2). Hit by pitcher: Kirkpatrick by Hill. Winning pitcher: Hill. Passed balls: Sides. Umpire: Carey.

Officers Student Government

Clyde R. Hoey, Jr., of Shelby, was elected president of Student Govern-

ment for next year by the student body at a general election April 5. Rochelle Johnson, of Chalybeate Springs, was elected vice president, C. L. Shuford, of Arden, secretary, and Henry Kendell, also of Shelby, treasurer.

These are the highest offices within the gift of the student body and are given only to those who have won the confidence and admiration of the student body.

Clyde R. Hoey, Jr., is an ideal student, having distinguished himself by his scholastic standing, by his interest in athletics, and by his enthusiasm in everything that makes for a better State College. He has had quite a bit of experience in Student Government, having served on the council two (?) years, and is in every way capable of the office.

Rochelle Johnson, who occupies the unique position of having been voted the college's best athlete, is well fitted for the vice presidency.

The officers of both the council and the house will be installed April 17. The work of the retiring officers is highly commendable. There has been a marked development in Student Gov-

ernment since it was founded, and we are expecting continued advancement under the new officers.

Staats—Waiter, these apples are not fit for a hog to eat.

Waiter—Sorry, sir; but if you will wait a minute I will get you come that are, sir.—Bethel Collegian.

He—I can't help loving you.
She—No; that wouldn't help much.—Malteaser.

Alumni Notes

Observations and Communications of Zippy Mack

That's all right. They can cut off their hair and wear knickers, but darn 'em, they can't grow whiskers!

The Textile men of the Senior Class took an all-week's tour of the cotton mills in this section of North Carolina and Virginia last week. Besides having a very entertaining and instructive tour, they had many pleasant reunions with old State men whom they found in practically every mill visited.

Mr. R. H. ("Runt") Crockford, of the Mechanical Class of '23, was on the campus Saturday for the track meet with V. P. I. Mr. Crockford is now with Charles W. Christian, heating and ventilating contractor, Charlotte.

Mr. George H. Redfearn, captain of last year's baseball team, was around town the first of the week. Redfearn was formerly with the New York Yankees, but was farmed out for the season to a smaller team. He will probably play with the Pittsfield, Mass., boys.

Mr. L. S. Crisp, of the Textile Class of '23, was on the campus last Saturday.

Mr. T. P. Richardson, a former '23 electrical man, has recently accepted a position in the engineering department of the Carolina Power and Light Company.

Mr. W. H. ("Pop") Hampton, a '22 Electrical man, is now with the Hunter Brothers Electrical Company, of Fayetteville.

The following announcement has been noted: "Mr. and Mrs. Thomas Knight, of Chase City, Va., announce the engagement and approaching marriage of their daughter, Elizabeth, to Mr. Isaac Lewis Langley, of Boston, Mass. The wedding will take place in

early summer." Mr. Langley is a '23 Textile man, and has a very large circle of friends on the campus and in the city. He was our associate last year when we had The Technician job on our hands, and was for one term president of the Pullen Literary Society.

DR. BROOKS CITES WILSON'S POLICIES AS CAMPUS IDEAL

Recommends That Students Form a Good Government Discus- sion Group

"Woodrow Wilson was not great because he became president of the United States, but because he sought to find for humanity a rule of right and justice," said Dr. Brooks, in a short address to the student body on Monday morning.

In defining government in the physical world, Dr. Brooks said: "It is the law of God functioning in nature," mentioning that the discoverers of the great natural laws, all of whom have

made their names immortal, Dr. Brooks stated that likewise the discoverer of a great code of justice to apply to human needs must be enshrined for posterity in the hearts of men.

"Christ lives today because he laid down the principle of certain human laws that are divine."

"In every public utterance of the war president, and in his attitude in every crisis this country was called upon to face, Mr. Wilson sought always to ap-

ply the principles of good government as defined in the preamble of the constitution."

In developing this line of thought Dr. Brooks discussed Mr. Wilson's policies and cited many instances in which he remained true to his high ideals.

In closing, he appealed to the students to form a good government discussion group, the purpose of which should be to study government in all its forms.
