STATE WINS SERIES FROM GEORGIA TECH

Ninth Inning Rallies Feature Both Games; Johnny Hill and "Red" Johnson Heroes of the Series

State's hard-hitting baseball team surprised quite a few baseball fans here last Friday and Saturday by taking two out of two of the most hair-raising series of baseball games seen on Riddick Field in a long time, from Georgia Tech, a team which bids well to be the strongest team in the South this season.

Tech was favored to win both games, and when State went to the bat in the ninth inning of the first one with the score 4-0 in favor of Tech it looked as though the dope was all right. In a minute State rooters found the bases full. Charlie Shuford was prancing about on third, "Gladrock" Gladstone was on second, and "Bobby" Correll was playing away off from first. There was only one down. A home run would tie the score! "Sambo" Redfearn went in to pinch hit. He "popped out" and "Red" Johnson walked up to the plate. He fouled one. Four more came across—three balls and a strike. Most of the crowd was edging toward the gates. Suddenly they heard a crack. They turned in time to see the center fielder chasing the ball down to the corner of the center-field bleachers and "Red" Johnson chasing State's three fastest base-runners across the plate for a home run and a tied score. Bedlam broke loose—you know what that means, don't you? When the umpire managed to clear the diamond and get the boys back in the bleachers, "Dutch" Holland sauntered rollingly up to the plate, swung his bat, and stopped on third, from which natural position (to him) he threatened to whip "Gaither" Lassiter to death if he didn't bring him in "Gaither" didn't get whipped. Instead, he smashed one through between the Tech third baseman and shortstop, trotted down and touched first base as "Dutch" crossed the plate. Then they raced off to the showers. Thus ended the greatest ninth inning rally outside of fiction, so far as State was concerned.

Much of the credit for this game is due to Johnny Hill, State's little left-handed pitcher. Johnny went in in the second inning, after Tech had made four runs off Captain Jimmy Allen's offerings, and held the hard-

STATE TRACK MEET HERE MAY 2 AND 3

All Colleges of State Contend for State Championship on Riddick Field Track

The biggest athletic event of the year at State College comes off this week, when Carolina, Trinity, Wake Forest, Davidson and perhaps others come to Riddick Field to contend with us for the State championship. This is the event toward which the energy of the whole year of training is bent, and judging from ability already shown this season quite a few of the existing State records rest not in security, but in real danger of being smashed.

Carolina seems to be the most aggressive toward the honor this year, with State a close second. Neither of these teams, however, has matched its strength with that of the other contenders, while Davidson, Trinity and Wake Forest have all indicated in no mistakable manner that they are to be reckoned with before the championship is won. Far be it from us to attempt to predict who will be State champions, but we do predict one of the closest, hardest-fought, cleanest contests ever to be entered by so large a number of the State's college athletes. And we venture to predict that some new records will be made.

Notice how we stand for the State championship, and be proud of OUR TEAM.

(Continued on page 3.)

PLANS DISCUSSED FOR NEXT YEAR'S AG. FAIR

The entire program of the Agricultural Club at its last meeting was devoted to the discussion of plans for next year's Ag. Fair. Mr. Smith, president of next year's fair, made an interesting address, in which he laid down four principles for which he believed the Ag. Fair stood: (1) Instruction in all the phases of agriculture; (2) to make the people realize that State College is the center of agriculture in North Carolina; (3) to show appreciation to the people of the State; and (4) to illustrate the fact that we have co-operation of effort here. Mr. Smith also stressed the value of the departmental exhibits and the individual exhibits as a means of advertising the College to the people and of advertising the home-grown products to outsiders and finding how they compared with the same kinds of products from other parts of the State. He stated that valuable prizes were to be given which would make it well worth while for every student, no matter what part of the State he is from, to try and win one of them. The first prize for the farm exhibit is to be \$50, and the second and third prizes \$25 and \$15, respectively. He urged all the members of the club to be thinking about this fair during the summer and for everyone to bring an exhibit and a new idea back with him next fall.

Mr. Lutz, secretary of the fair, stated that a large number of prizes had already been secured, although only a small per cent of the last year's contributors had been written to concerning them, and he expressed the belief that the prize list this year would exceed the one of last year, which was the largest of any college fair in the United States.

The leaders for next year from the various departments were then called upon to give their ideas concerning the next fair. All gave enthusiastic reports of what they had already done or what they expected to do on their floats and exhibits, and everyone seemed confident that his department would win first place next fall. Competition promises to be very keen, which is sure to add to the quantity and quality of the work which they will do in the different departments.

The growth of the Ag. Fair since its organization here three years ago has been remarkable. The prize list of last year exceeded that of any other fair of its kind in the whole country. People who have seen both our fair and the one at Missouri University, the oldest and largest in the United States, say that the quality of our exhibits and shows exceeds that of Missouri's fair. The parade

GOLF CLUB STARTED AT STATE COLLEGE

Part of College Farm Which Seems To Be a Liability May Be Converted Into Golf Course

Last Monday night several interested students met with Col. Harrelson in the Y. M. C. A. and discussed the feasibility of securing a golf club and golf course on the State College campus.

Col. Harrelson gave a brief discussion on how much a golf course would cost and where the students could get a course located in order that it might be easily accessible to students, if they only had one hour to play. He also discussed how a team could be formed at this institution that would be of credit to this College in the way of representing one of the branches of light athletics.

It was thought by the men who met last Monday night that part of the College farm, which seems to be a liability to the College, could be easily converted into a five- or six-hole golf course with a moderate cost to the College. This would enable any student to play a game in about an hour, which he could do between classes.

Many of the students on this campus are interested in this sport, due to its light exercise, which consists almost only in walking. Not only are there students who are interested in golf on this campus, but many of the faculty members would gladly favor any practicable plan to have a golf course for the College.

At the meeting the ones present elected a board composed of three students to investigate the matter of forming a golf club and getting a good golf course on our campus. The members are as follows: H. H. Shelor (chairman), "Tommy" Powell and E. C. Westin.

The institutions in this State that have golf courses for the students and faculty are: Wake Forest, Davidson and Carolina that I know of. Why can't State College have one? We can if we want it bad enough.

—Joe W. Johnson.

How the Colleges Stand For State Championship

| | Won | Lost | Pct. |

Editorials

Greetings from the new Staff to all Students, Faculty, Alumni and Friends.

The beginning of the week sees the beginning of our new power house.

It must have been a gay time that our socializing set had at Peace and Meredith this past week-end.

A home-run is always welcome, Rochelle, especially when it is the ninth inning, 4 to 0, three men on bases, and two out.

A stranger on our campus would think we were digging holes to get dirt to fill up the low places. It does look that way, doesn't it?

A new name has been suggested for these columns in THE TECHNICIAN for the next year—**IDIOT-RIALS**. What do you think of it?

These ninth-inning rallies are certainly nerve-racking. It was Georgia Tech's time Saturday, but—"Who wrecked Tech" in the tenth!

It was some scrap that the Wolf Pups and the Wild Kittens had Monday afternoon, but the Pups were a little too much for the Kittens. Stay in there and fight, for you will be a Wolfpack by and by.

Dixon is to be congratulated on the fine work of the "Y" this year. Few of us realize the amount of work that the "Y" has done. Even Dr. Brooks was very agreeably surprised with its accomplishments as Dixon outlined them in his retiring and farewell speech.

Johnny Hill, we take off our hats to you. You fought for State like a man. Every man on the team played the old game as it is supposed to be played, and we are proud of you, each and every one. Much credit is coming to Coach Doak, and we all give it to him.

We have all read about baseball games being won in the ninth, but Friday was the first time many of us had seen it done in such a manner.

Who says State College has no SPIRIT? Send them around to our ball games, then to our serenades, and if they are not convinced then that we have SPIRIT, send them to Cleve Beatty. Any one who was an eye-witness to the two games Friday and Saturday, and who went around with the crowd Friday night, and then still claims State College has no SPIRIT—well, that person is evidently deaf, dumb and blind or else a cheerful liar.

"I like the ring of the new president's talk—and am glad to see him president of the 'Y' next year." That is what Dr. Brooks said after Brothers' installation speech in the "Y" auditorium Monday night. So did we like the ring of his talk, and we are also very glad to see Roy president, and we feel sure that with the co-operation of the student body, next year will see a successful one for the "Y" through Brothers' leadership.

It is a pity that more of the student body didn't hear Dr. Brooks Monday night, for his talk was one that will long be remembered by those present.

The serenade Friday night was the most successful one we have had in quite a while. There were more fellows, more spirit, more singing and yelling, and more good time in general than we have had in a long time.

St. Mary's gave us a most cordial welcome, and they sang and gave us yells as we have always known they could. We appreciate their songs and yells, for it makes us feel as if they were really for State College.

Meredith and Peace always seem glad for us to come around, and we are always more than glad to go; because they never fail to greet us with their songs and yells for "Our State College."

The new Staff feel as if there should be something said in this issue about our appreciation to the student body for our election, and thank them for the honor of the positions bestowed upon us. We find it hard to express ourselves in words; so fellows, we will leave it to our work in the future to express to you our appreciation.

We do, however, want to thank the retiring Staff for their hearty co-operation in helping us with this edition, and to thank them for the splendid condition that THE TECHNICIAN was left to us in. We realize that we have a hard job ahead of us to keep up the reputation of the paper, but with your co-operation we will endeavor to make THE TECHNICIAN a paper that is worthy of "Our Greater State College" and one that we can all justly be proud of.

Since the College is growing, we feel that the College paper should grow with it; therefore, beginning with Vol. V, No. 1, or the first edition next fall, THE TECHNICIAN will be an eight-page weekly, five columns wide by nineteen inches long.

It is customary for an incom-

ing Staff to publish the policy of the paper for the coming year. The Staff is now working on a constitution and set of by-laws which will include the policy of the paper. These will be published either in one of the remaining issues or else in the first edition next fall.

STATE COLLEGE STATISTICS

The following tables from the report of the Statistics Committee for the First Semester of the N. C. State College 1923-'24 will probably be of interest to all State College men.

| Senior | 78 per cent |

VARSITY GONE NORTH

Sunday, April 27th, the baseball team left on its annual Northern trip. The teams to be played on the trip are V. M. I., Washington and Lee, Maryland University, Quantico Marines, and William and Mary. The men making the trip are Capt. Allen, Sam Redfearn, Jonah Morrison, Pete Dellinger, Red Johnson, Whitey Smith, Bob Correll, Gladstone, Charlie Shuford, Al Johnston, Dutch Holland, Red Lassiter, Johnny Gilbert and Walter Shuford. Johnny Hill is to meet them later in the week.

They Beat V. M. I.

Reports from the Northern trip show that State's Varsity is enjoying a pleasant trip. Monday afternoon the boys whipped V. M. I. to the tune of 8 to 6. Capt. Jim Allen pitched and Gladstone and Holland divided the heavy hitting honors.

They Beat Washington and Lee

Tuesday afternoon Sambo Redfearn grudgingly gave Washington and Lee three hits, while his teammates pounded three W. & L. twirlers for thirteen hits, twelve of which counted for runs. Correll and Red Johnson did the heavy stickwork, Bobby garnering a homer. The final score of the game was 12-2, favor of State.

Work for that cash prize offered by the Students' Supply Store.

BAPTIST STUDENTS IN CHARGE OF SERVICE

On Sunday night, May 4th, the Baptist students working with Pullen Memorial Church will have charge of the evening service. The program has been in the making for some time and will be equally as good as the one given last November.

Mr. Leslie Andrews of State College as chairman has worked out a program of music, talks and ceremony which will be interesting and beneficial to all who attend. The main features of the program are as follows:

Anthem—Girls from School for the Blind.
Offertory—Violin Solo—Miss Fleetwood of Meredith.
Installation of Officers of B. Y. P. U. and Sunday School Classes—Mr. R. L. McMillan.
Male Quartet—State College.
The Student Church—Dr. C. E. Maddry.

Program of Baptist Student Activities—R. M. Warren.
The Student's Part—P. M. Hendricks, State College.
Solo, with Violin Obligato—Fleetwood Twins, Meredith.

During the service the Honor Roll for 1924 will be announced. In order to give some type of recognition for faithful and efficient leadership and participation, the State Board of Missions and Pullen Memorial Church authorized an Annual Honor Roll for those making a minimum number of credits in church activity. A beautiful Honor Roll has been completed through the efforts of Carl Bridges as author of the credit system, Herman Curtis designer, G. L. Gaston the frame-maker, and Mr. Lewis Heilig of the Wachovia Bank and Trust Company as scribe.

The service will start promptly at 8:00 o'clock. All members of the Student Work Committee are urged to be present not later than 7:45. The public is cordially invited to attend the service.

The Triangular Debate To Be Held Saturday Night, May 3

Many of us know, while some probably do not know, that the first triangular debate of the year will be staged the coming Saturday night. It has been many years since a debate of this kind has been held at this College. The three colleges to engage in this debate are V. P. I., V. M. I., and N. C. State College.

Our home team, which will be represented by C. F. Seymour and J. M. Potter, will debate with V. M. I. in Pullen Hall Saturday night, while R. H. Raper and M. L. Snipes will debate at V. P. I. at the same time. The query for debate is, "Resolved, That France was justified in the occupation of the Ruhr Valley." Our home team will represent the negative side of this question, while our visiting team will debate on the affirmative side.

As this is the first debate of its kind to be arranged in several years, and as it will mean much to our College, all of us should be interested enough to be present in Pullen Hall to back up our team Saturday night.

"RED" JOHNSON

Best State athlete and who beat Georgia Tech with a homer last Friday --

STATE WINS SERIES FROM GEORGIA TECH

(Continued from page 1.)

hitting, fast-fielding Yellow Jackets completely at his mercy.

The Second Game

Saturday afternoon an unusually large crowd gathered on Riddick Field to see what Tech was going to do about her defeat of the day before. Much to the surprise of the crowd and dismay of the Tech players, Johnny Hill, the same little pitcher who had fed them from his left hand the day before for seven innings, walked out to the mound and stayed there until the ninth. He held them completely at his mercy again. When he left the score was 4-2 in favor of State. But Tech had started their ninth inning rally and Coach Doak sent Capt. Jim Allen in. When the smoke cleared away the score was knotted—Tech had almost duplicated State's feat of the day before. In the tenth Gladstone doubled and "Dutch" Holland brought him home for the winning run. State had twice defeated Tech in as many days to the tune of five to four.

Two features of the series were the successful use of State's new song, composed by "Ditty" Ray and led by Cheer Leaders Clifford and Ruffy, and the "Serenade" of the girls' schools and the business section of Raleigh Friday evening by a large part of the student body.

VICTORY OVER TECH WELL CELEBRATED

Such a victory as that witnessed on Riddick Field last Friday certainly deserved a celebration and the State student body did not fail to celebrate. The parade down Hillsboro street, the serenade at the several girls' institutions, the snake dance down Fayetteville street, the free show at the Grand—all were included in the Friday night program.

The crowd assembled at 7:30 Friday evening. At the command of Cheer-leader Clifford the procession, illuminated at frequent intervals by flaring torches, started on the pilgrimage, visiting first St. Mary's School, where they received a most cordial welcome, proceeding thence to Meredith and Peace, where the customary exchange of songs and yells was conducted.

Next was the snake dance, from the Capitol to the Sir Walter Hotel. The T. P. A. Convention at this hostelry was not forgotten, and received its share of yells.

It was then announced that the doors of the Grand Theatre were open to State students. Then bedlam broke loose. Torches and all unnecessary paraphernalia were discarded as each student madly rushed up town in an effort to obtain a seat on the "bald head" row. It so happened that a Ku Klux Klan convention was being held in Raleigh at the time. As the students took the Grand by storm the negro occupants of the

gallery, thinking that they were being besieged by the K. K. K.'s, took to their heels, completely demolishing a projecting machine in their mad rush to gain exit.

"The crowd certainly seemed to have enjoyed themselves," said the manager of the Grand, after the show. He continued, "We do not object to giving the students a free show on such an occasion as this, provided they conduct themselves in as orderly a manner as they did to-night. I was very much surprised and delighted at their conduct." We certainly owe the management of the Grand a vote of thanks for their generosity, and we should make an effort to conduct ourselves in an orderly manner on all such occasions.

Collegian's Love Story

He had hung his pin—long, dim ages ago. He had completed the payments on the ring. He was marrying the most wonderful girl in school.

On the eve of his wedding he wondered how things would be a year from that night. He wondered if she would still love him, if he would be as crazy about her.

Time has a way of going by. Another year came—the anniversary of that night. And they were still as crazy about each other.

You see, they hadn't been married yet.—Judge.

The married man who says he doesn't play second fiddle in his house probably plays the lyre.—K. C. Kansan.

Deceived Wife

"Trouble at home?" inquired the sympathetic friend.

"Serious," replied Mr. Meekton, "My wife went through my pockets last night."

"And you are highly indignant?"

"No. She is. She didn't find a thing."—Exchange.

(With sincere apologies to Whittier) Blessings on thee, little dame, Bare back girl, with knees of same, With thy rolled-down silken hose And thy short transparent clothes, With thy red lips reddened more, Smeared with lip-stick from the store,

With the make-up on thy face And the fluffed hair's jaunty grace From my heart I give thee joy, Glad that I was born a boy!

Flapper Hater.

Blessings on thee, little boy, How I wish thee years of joy, With thy close, tight-fitting clothes All the way from chin to toes.

With the hat that crowns thy head Leaving rings of violet red, And thy fragrant cigarette, Sweet must be thy beads of sweat. Still the clothes we flappers wear Leave a place for nice fresh air; Though I wish thee years of joy, Still I am glad I'm not a boy!

Flapper Lover.

—Exchange.

"ON TO BLUE RIDGE!"

Alumni Notes

Observations and Communications of Zippy Mack

We were over on the Trinity campus the other day, and found a good many interesting things. For example, there was the stone near the flagpole whose inscription, "God bless our country," had been almost completely hidden by the more modern words, "Keep to the right, sound horn." Then there were the double boardwalks along the muddy pathways of the campus. Who said you couldn't tell a co-ed school except when there was someone on the grounds? The old campus bell, hanging in its wooden tower, could no doubt tell many interesting stories. Its rope, through long usage, has cut a deep notch in the side of the hole where it passes through the ceiling.

Every State College man will be interested to learn that our own "Dick" Gurley has been made head coach of Lenoir College. "Dick" was one of the best all-round athletes ever produced on our campus, where he captained the great Wolfpack of '19, and caught on the baseball team, as well as guarding for the cagers. He has been, for the past few years, athletic director of Shelby High School.

Mr. J. B. ("Brooks") Mabry, of the '22 Electricals, was around town at the first of the week. He is now employed by the Phoenix Utility Co.

Mr. H. C. ("Bud") Fisher, of the last year's Civils, seems to have a permanent position with the Durham Public Service Co. He was leaning against the same lamp post Sunday night at seven as he was at two the

same afternoon. He was on the campus Tuesday night to attend the meeting of the A.A.E.

Mr. W. N. ("Red") Hicks, of the '22 Mechanicals, who was President of the "Y," President of Pullen Literary Society, President of the Pine Burr, champion Commencement orator, and a few other little things, is now doing graduate work at Trinity College.

Mrs. Eugene Hastings Brooks announces the marriage of her daughter, Elizabeth Cummings, to Mr. Richard Von Biberstein, on Saturday, March 8, 1924, at Wilmington, North Carolina. Mr. Von Biberstein is a '21 Civil man.

Mr. W. C. ("Copes") McCoy and Miss Lillian Lorraine Lawrence were married April 23, at the College Park Methodist Church, College Park, Georgia. Mr. McCoy is a '21 man who, since his graduation, has been with the Poultry Extension Service of the University of Georgia.

Mr. and Mrs. E. N. Meekins, of Cary, announce the birth of a daughter, Doris, on April 4. Atta boy. "Red."

Unskilled Help

A couple of tourists were gazing at the sculptured front of a certain church, when one of them quoted the remark about art being the handmaid of religion.

"If that is so," returned the other, glancing again at the crudely carved figures, "religion ought to give her a month's notice."—Exchange.

THOS. H. BRIGGS & SONS

Raleigh, N. C.

—THE BIG HARDWARE MEN—

Sporting Goods

LARGE cities, tearing down in order to build up, are penalized because their founders lacked the foresight to envision the coming development of our great communities. Washington—the exception—expands easily and gracefully because its planner had the foresight to provide for centuries of growth.

The foresight needed to plan a Washington is rare. But the foresight required to provide protection for the loved ones left behind is found in every walk of life.

Plan your future—and your family's future—as an architect plans a building. And do it NOW, for failure to provide insurance today may mean added expense tomorrow. A Provident Mutual agent can offer you a plan of protection that will meet your individual requirements. Let him tell you how you can insure the safety and happiness of your family.

A note in the mail, or a ring on the telephone will bring a representative to see you.

His Goal Won

"You have no ambition," complained his young wife.
"Not now," he replied indolently.
"You never did have any."
"Oh yes, I did; but I achieved my ambition when I acquired a rich father-in-law."—Exchange.

There are three words, the sweetest words

In all the human speech—
More sweet than all songs of birds,
— or pages poets preach.
This life may be a vale of tears.

A sad and dreary thing—
Three words and trouble disappears
And birds begin to sing.
Three words and all the roses bloom,
The sun begins to shine.

Three words will dissipate the gloom
And water turn to wine.

Three words and trouble disappears
"I love you?" Wrong, by heck!
It is another, sweeter phrase,
"Enclosed—find—check."

STATE FRESH BEAT DAVIDSON FRESH

Neese Hit Two Homers, a Three-Bagger and a Single in Four Trips to Plate

Monday afternoon, while the Varsity was winning from V. M. I., Capt. Neese led his Freshmen one step nearer the Freshman State championship. He defeated Davidson Fresh 9-3, and in the meantime batted a thousand. Matheson also did well with the club, getting a homer and a three-bagger. Three pitchers were used by Coach (Doc) Crozier: Julian, Taylor, and Hurley.

PLANS DISCUSSED FOR NEXT YEAR'S AG. FAIR

(Continued from page 1.)

which is staked in connection with the fair is declared by many citizens to be the best which is held in Raleigh at any time during the year. The valuable training which the students get out of putting on a fair of this kind is inestimable, for practically every agricultural student will be connected in some way with the community and county fairs of different parts of the State when he gets out of college. Participation in the work of the fair is just as important as one's classwork, both from an individual standpoint and that of advertising the College.

The prospects for the year's fair are indeed bright, and there is every reason to believe that as much improvement will be shown in the future as in the past, and that this year's fair will be the best of any held yet.

Black: "How did Bill and his new girl finish the evening?"
Jack: "Neck and neck."

ANNUAL JUNIOR-SENIOR BANQUET AT MEREDITH

The Junior-Senior Banquet of Meredith was held Friday evening, April 25th. This is an annual occasion and is given by the Juniors in honor of the Senior Class.

The guests were received by Dr. and Mrs. Brewer, Mr. and Mrs. Donald Bunn of Raleigh, and the Junior Class officers.

Upon the announcement that dinner was served the guests proceeded to the dining hall. The decoration was that of the garden effect, with arbors. And the color scheme was lavender and purple. One arbor was near the entrance, others were placed conspicuously. Along the walls were evergreens of numerous variety, swayed by a light breeze. Even the inanimate butterflies seemed to have life, and the constant chirp of the canaries made more effective the purpose of the decorators.

Just before the toasts were given two light-winged Dryads of the modern age, assisted by the Senior Class mascot, Donald Bunn, Jr., distributed minute baskets of flowers and bouquets among the guests.

Among the guests present were a number of State College men. They were Messrs. Edwin Vick, Charlie Fawcett, Bill White, L. Carlton Lawrence, L. Carlton Salter, Rump Reese, Frank Trantham, Lyman Worthington, George Holloman, Furney Brock, Herman Curtis, Bill Carpenter, Luther Raper, Alex Stillwell, Bivens, Sturgess Collins, Robert Orman, Red Hamrick, Bill Sharpe and — Pace.

Q.—What is a diplomat?

Ans.—A diplomat is a gentleman who can tell a lie in such a manner to another gentleman, who also is a diplomat, that the second gentleman is compelled to pretend that he really believes the first gentleman, although he knows that the first gentleman is a liar, who knows that the second gentleman does not believe him.—Puppet.

SPLINTERS

from
The North Carolina Pine

In the best of regulated families it is considered bad taste to lean against the door bell while saying "good night" same 2:30 a. m.—Exchange.

First Freshie—Say, is that the moon rising over there?

Second ditto—I'm sure I don't know; I'm a stranger here myself.—Exchange.

"The time approacheth when no man sleepeth," he muttered as he read the schedule for the coming exams.—Emory Wheel.

Biggs—I'm worried. My girls is running around with that new doctor in town.

Jiggs—Feed her an apple a day.—Bearcat.

Professor of Physics—The pressure of bodies at rest is called force. Give an example, Harry.

Harry—The police force.—Ex.

Prof. Schultz (in Current History)—It looks like England is going to have some trouble with the Hibernic race.

Beers—It's a shame these foreign countries can't run their track meets honestly.—Exchange.

Mary, golfing, ripped her skirt,
"Twas nearly torn in half.
No one noticed Mary's lamb,
But who could miss her calf?

Mary had a little light,
It was well trained, no doubt,
For every time a fellow called,
The light went out.—Ex.

She—What'll we do?
He—Anything you like.
She—Oh, but mother might see us.—Exchange.

A Scotchman crossing the road one day saw a threepenny bit lying in the

mud. He stooped to pick it up, according to the Boston Transcript, and was struck by an automobile with facts were put before the coroner, who gave the verdict as "Death due to natural causes."—Exchange.

Motorist (who had just run into another car)—Why don't you put out your arm when you are going to turn a corner?

Sorority Girl's Companion—What do you think I am, an octopus?—Exchange.

Fritz—Is it true that your sister is married again?

Hans—Oh, no! Just under new management.—Exchange.

Tweddle—What kind of cigarettes do you smoke?

D. D.—Any kind you've got.—Ex.

Truth is stranger than fiction— and lots scarcer.—Exchange.

From Frat House Porch

"Did you see that girl in the green hat and striped stockings?"

"Oh! Did she have on a green hat?"—Exchange.

Socialist—Do you believe in free love?

1293 (checking over the past month's expenses of dinners, candy, theatre, etc.)—It doesn't exist.—Ex.

A young fellow who was the crack runner of his town—somewhere in the South—was unfortunate enough to have a very dilatory laundress.

PERSONAL AND SOCIAL COLUMN

JOE W. JOHNSON, Editor

All social or personal news deposited in The Technician News Box will be appreciated by the editor.

L. A. Bridger and J. E. Kelly visited relatives in Bladenboro last week.

"Zippy" Mack, editor of last year's Technician, spent the past week-end in Durham visiting friends.

Prof. Winchester and J. F. Bullock were visitors in Greensboro last Sunday.

C. W. Mayo spent the week-end in Tarboro with his parents.

S. R. Wallis and R. G. Fortune will attend the North Carolina Collegiate Press Association at Elon College this week. All important topics pertaining to college publications will be discussed at this association.

The Gamma Sigma Epsilon, chemical fraternity, will hold a banquet at the Blue Moon Inn next Tuesday night.

State College Students Attend Reception at Peace

Several State College students attended the annual Student Body Reception at Peace Institute on Saturday night, April 26. All those present report a very pleasant evening, and only regret that it is only an annual occasion. Although activities were supposed to stop at 11:00 p. m., it was nearing midnight before the Matron was finally able to induce the boys to depart.

Spend Ten Wonderful Days At Blue Ridge This Summer

Do you ever long for a place to rest, and think? If so, Blue Ridge is the place you've been longing for. And there you can rest in a new way. There rest will have a new meaning for you. There, far from the toil and noise of the cities, high up in those glorious Carolina hills, you will

Tennis Team Off to State Meet

The State tournament for the State championship in tennis was held Wednesday and Thursday of this week at Greensboro. As we go to press no reports have come in from the State meet.

However, the State team met Guilford College team in a dual tournament Monday and Tuesday and suffered defeat to the tune of 80-60. Monday evening when the play was called on account of darkness State led by the score of 60-50, so close that all depended upon the doubles which were played off Tuesday morning.

R. O. T. C. UNIT UNDER- GRADUATE INSPECTION

The annual spring inspection of the R. O. T. C. Unit was made on Thursday and Friday, April 24th and 25th. The inspecting officers were W. C. Short, Lt. Col., U. S. A. General Staff, and Maj. Robt. C. F. Goetze, Field Artillery. Thursday morning was devoted to the inspection of units in physical drill, close order drill, machine gun drill, and

field engineering. The afternoon was given over to a demonstration of the platoon in the attack.

On Friday an inspection was made of the storeroom, indoor instruction, and facilities for training in marksmanship.

This inspection will determine whether State College will be classed by the War Department as a distinguished college.

WORK OF THE Y.M.C.A. EMPLOYMENT BUREAU

One of the most important accomplishments of the Y. M. C. A. for the year has been the Employment Bureau, which was in operation for the first time at the opening of the school in September. Beginning then, and until the Christmas holidays, there were 2,205 jobs obtained for the students. Averaging these jobs at four hours each at 30 cents per hour, which was the average price paid, a total of \$2,246 was earned by the

students. Twenty-four permanent jobs were also obtained. From the Christmas holidays until May 1st, 581 jobs have been obtained, averaging four hours at 30 cents per hour; \$697.20 was earned by the students and two permanent jobs obtained. Figuring for the year, the students earned \$3,343.20.

TECHNICIAN HAS TWO REPRESENTATIVES

North Carolina Collegiate Press Association Now in Session at Elon College

The regular semi-annual meeting of the North Carolina Collegiate Press Association is now in session at Elon College. Sam Wallis and Bob Fortune are attending the meeting as the official representatives of The Technician.

These meetings are for the purpose of discussing the problems (and solutions) that face the college publications. Few men on the campus realize that the only way other colleges have of judging us is by our athletic teams and our college publications. These men have gone to the meeting with the determination to get something that will make our Technician one of the best college publications in the South and consequently our college one of the outstanding educational institutions.

"Y" OFFICERS INSTALLED

Dr. Brooks Delivers an Address on the Subject, "Evidences of Christianity on State College Campus"

On Monday evening, April 28th, the Y. M. C. A. officers were installed. P. T. Dixon, retiring President, made a report of the work done during the year. Dick has been a faithful worker and efficient leader.

The inaugural address of the new President was next on the program. Brothers took for his subject, "Christianity." He made a short but very interesting talk. He said: "In my estimation, Christianity may be defined as 'Personal Purity and Practical Kindness.'" Mr. Brothers asked the co-operation of every man present to help him put across an even greater

program next year. He has taken a very active part in the work of the Y. M. C. A. during his three years here at State. He has made for himself a record that anyone would appreciate. Brothers was elected Editor of The Technician, but resigned when elected President of the "Y." The other officers installed were: S. R. Wallis, Vice-President; J. E. Griffith, Secretary, and J. M. Potter, Treasurer.

After the speech of Mr. Brothers,

Mr. Britt presented the speaker of the evening, Dr. Brooks, President of the College.

He congratulated Mr. Brothers on the talk he had just made, and Mr. Dixon for the great work and progress during his administration. He seemed exceedingly well pleased with the success of the "Y," especially the work of the Employment Bureau.

Dr. Brooks took for his subject, "Evidences of Christianity on State College Campus." Among the evi-

dences named was the work of the Y. M. C. A. "But the greatest evidence," said Dr. Brooks, "is friendship." In conclusion he discussed the necessity of being a good friend to one's self in order to be a royal good friend to others.

Absent-minded Admiral, meeting his son—Hello, George, how's your father?—Exchange.

\$5.00 in Cash For a New Idea In Students' Die-Stamped Stationery

We will pay \$5.00 in cash to the student submitting the best design or sketch of a new die for our Stationery Department. Must be something new and distinctly typical of N. C. State. A dollar box of stationery will be given for every other sketch submitted that we can use.

For further particulars see the Manager,
STUDENTS' SUPPLY STORE.

HENRY CAVENDISH

1731-1810

English chemist and physicist, of whom Biot said, "He was the richest of the learned and the most learned of the rich. His last great achievement was his famous experiment to determine the density of the earth."

He first made water from gases

Henry Cavendish, an eccentric millionaire recluse, who devoted his life to research, was the discoverer of the H and the O in H₂O. In fact he first told the Royal Society of the existence of hydrogen.

He found what water was by making it himself, and so became one of the first of the synthetic chemists.

Cavendish concluded that the atmosphere contained elements then unknown. His conclusion has been verified by the discovery of argon and other gases.

The Research Laboratories of the General Electric Company have found a use for argon in developing lamps hundreds of times brighter than the guttering candles which lighted Cavendish's laboratory.

In this age of electricity the General Electric Company has blazed the trail of electrical progress. You will find its monogram on the giant generators used by lighting companies; and even on the lamps and little motors that mean so much in the home. It is a symbol of useful service.
