Faculty Senate Head Seeks Higher Raises

by Hilton Smith

President of the Faculty Senate Francis E. McVay praised last week's budget message by Governor' Bob Scott but expressed particular concern over the Governor's proposals for raising the salaries of faculty at higher education institutions.

"I thought he did a good job on the speech. He had a good deal of courage to ask for a cigarette tax and he sup-ported it well with reasonable arguments," expressed McVay.

8% Increase

8% Increase

In the message the Governor proposed an eight percent increase in faculty salaries at higher education institutions each year for the next two years. Earlier the advisory Budget Commission had only recommended a five percent increase for each of the two years.

"I am pleased that he was able to go that far, but it really is a minimum figure. The important thing is not the salary but the salaries in relation to other southern and

Professors To Confer On Student Rights Bill

State's Association of University Professors will hold an open meeting Tuesday night in the Alumni Building on the proposed Student Bill of Rights.

Dr. Burton Beers, history professor, said Student Body President Wes McClure, members of the faculty senate, and several administration officials will be on hand to discuss the Bill of Rights.

The student Bill of Rights is one of the important features which compliment the proposed Student Body Constitution. Beers urges all interested students and faculty members to attend the meeting.

national institutions.

According to a report from the Faculty Senate given to the Visiting Committee of the Board of Trustees last fall and using figures of the American Association of University. Professors, in the 1966-1967 year there were 254 institutions with average annual full—time faculty compensation of \$11,000 or more. For 1967-1968, the average has been raised to \$11,600 while figures at other institutions were not yet available "The faculty has been concerned as individuals and as members in salaries because we have seen people leaving for higher paying jobs. The point comes when you cannot ignore the offers," said McVay.

Faculty Poor

Faculty Poor

we are committed to accepting people from North Carolina. There is a limit to how many we can accomodate. We need more space. This is a very difficult problem," said McVay.

According to McVay his own ST 311 class is pushing the limit so much that thought is being given to phasing the laboratory and preser

McClure Explains Changes

Limiting Senate

Taking the place of the vice-presidency will be the student senate president, who will be required to have served at least one term in the Student Senate. As we. as fulfilling the duties of the old vice-presidency, McClure explained that this office will give "a different kind of influence" to the student body president, by creating more of a separatness from the legislature.

The chief difference in the

The chief difference in the The chief difference in the legislative branch of the government will be the limiting of its size to sixty senators. McClure pointed out that this figure was not picked arbitrarily, but based on a "logical committee structure" in the

McClure felt that "as the University expands more decisions will be made within the schools," thus necessitating the increase in their power. He also felt that these changes would provide "a wider base" for the operations of the government system as a whole.

In the judicial branch of the government there will no

In the judicial branch of the government there will no longer be two separate codes. Wes hopes that this new combination will elimnate such problems in the old system as: "the double standard; any disparity in sentences given by the Honor Code Board and the Campus Code Board; and insufficient investigations."

The new constitution makes provisions for a Judicial Affairs Office which will carry out the investigations and provide a student over-view of records. There is also a provision for an Attorney General, who will act as a "judicial coordinator."

By Constitution

government. The president stated that this limited number article concerning service are stated that this limited number of the principle changes occurring in the Executive, Legislative, Judicial, Services, and Publications articles of the new constitution. And commented on the importance of this document to the student body in terms of money—"this new syster. vill handle approximately \$143,700 a year."

In the executive department of the student government of the government of the student government with those of the will be able to determ government will be more constitution made the system of the legislature government will be more constitution made the system of the legislature system of the legislature to more different will be able to determ government will be more constitution made to the price of the system of the McClure describes the article concerning services as a "consolidation of the student government with the Union." Under the new constitution, the president said, "the Senate will be able to determine the policy of student programs and activities carried out in the Union." McClure thinks this activities carried out in the Union." McClure thinks this system will be more advanta-geous to the student body because of the representation of their opinions in the Senate. He sited specific advantages as: "a Student Senate over-view

"a Student Senate over-view:/
determining the budget; and;
the power of approval for
administrative personnel."
Fees Invested
"The fourth branch of government," as McClure termed
it, publications presents a very
unique situation found only on
college campuses, where a free
press is supported by tax dollars. Wes illustrated the importance of this feature of the
constitution in terms of constitution in terms of money-approximately \$60,000 in fees are invested in publications: It is hoped that the provision for a board or authority in this department

authority in this department will create an effective system of checks and balances in the control of money-matters, If all goes according to schedule, the new constitution will be voted on by the Senate on February 26 and by the student body on March 19. President McClure hopes that the Student Bill of Rights and Responsibilities can be voted on at the same time.

The YMCA will have a meeting of Ballet Spectacular Lauded North Parlor, E.S. King Building.

The American Ballet Theater's production of Swan Lake

The American Ballet Theater's production of Swan Lake last week was truly one of the most spectacular events in the ten-year history of Friends of the College.

The ballet company's strength in so many areas—dancing, costuming, scenery and music—held the attention of the large FOC audiences for three hours—no mean accomplishment considering the fickleness of many Raleigh concert-goers.

There was so much to admire and experience: The ballet's beautiful backdrops were so lifelike in perspective, yet so fittingly dream-like that the fantasy of Prince Siegfreid's romance with a princess who had been turned into a swan by a sorcerer was somehow believable.

But then if one tired of the scenery, there was always magnificent dancing to watch. Frequently (as in the first and third acts) the company performed group dances (a Spanish routine, a mazurka and others) and their lavish costumes were as dazzling as their fancy steps.

routine, a mazurka and others) and their lavish costumes were as dazzling as their fancy steps.

But certainly the grandest part of the entire production was the prince's dance with the swan-princess in the second act. Accompanied by a haunting violin solo, Cynthia Gregory as Odette (the swan) leapt and twirled in a tremendous exhibition of co-ordination when whe danced with the prince, Gayle Young. So poised, so perfect were her movements that at times her body seemed only a beautiful extension of Tchaikowsky's lovely music.

Editorial Opinion Duke: Black Militants Give It Their Usual

The events at Duke University bring biting questions very close to hom

Just what game are the black militants

Being white, alas, we can only guess:

Apparently blacks who empathize with those who took over Allen Hall feel nothing at all can be accomplished by non-violent protest-much less reason.

Sadly, we must admit their feelings are not completely unfounded. The agonizing slowness of social reform legislation, the brutal murder of Martin King, the persistence of the Klan in the South...all these imply that white America cannot be moved by any form of logic or persuasion.

But it need not be so on the university campus. Let's be idealistic a moment. Universities are founded on reason and receptiveness to any opinion. The idea of inhibiting or repressing any man because of his color is totally incompatible with the principles of any university.

Granted, the above is idealistic. But it is undeniable that the Duke administration is far more receptive to balck ideas than is

indicated by the militants' actions.

For example, why did they demand a black dormitory when officials were already planning to designate one wing of an existing hall as such?

And were those who demanded a Black Studies program unaware that president Knight was in New York seeking funds from the Ford Foundation for just such a

Their other demnads were absurd. They would require a kind of "reverse discrimination" equally as unjust that the blacks themselves have endured. Certainly some blacks were at a disadvantage because of inferior high school training, but this is no ground for reinstating only those blacks who flunked out. Of course grading systems are often constrictive to education, but they cannot be eliminated for blacks

And to demand that a certain per-centage of the enrollment be black is equally foolish. Demanding a completely

unbiased admissions policy would have been just. Demanding that special efforts be made to recruit students from black high schools would have been valid. But a

Ridiculous.

Now we are compelled by conscience to express disgust at the conduct of the police. The Technician had reliable reporters there, and there was much of the unthinking, unrestrained violent approach that so often characterizes the policemilitary mind.

Police reference to the militants as "Niggers" is worse than their use of the term "pigs" because the gendarmes are supposedly agents of the entire

But apparently this is the very kind of conflict the militants relish.

And we detest it.

READER OPINION

To the Editor:

To the Editor:

In the last three semesters, many events have happened at State that have almost spurred me into writing to this paper. I have always refrained, under the supposition that perhaps others could better express what I have felt. Finally something

Students Should Consider OCS

Many State students have not been properly informed about their military obligation and the mormed about their military obligation and the possibility of Officers Candidate School and are thus becoming enlisted men rather than officers. Army Lt. Robert Buckmaster, from the Recruiting Main Station in North rillis Main; said recently that many of the State Students that come to see him know only that they have a military obligation facing them. "Unfortunately, many of these students had their draft notices in their hands. As a result many of these well-educated young men are going into the service as enlisted personnel, often as riflemen or mechanics, rather than officers."

1. Buckmaster stressed that the property of the service as enlisted personnel, often as riflemen or mechanics, rather than officers."

Lt. Buckmaster stressed that the Army would

Lt. Buckmaster stressed that the Army would prefer that college graduates enlist as officer candidates or warrant officer pilot candidates, to better utilize their intelligence and education while in the service. He added that the officer receives higher pay, greater responsibility and valuable financial and material management experience.

He said that many students wait until the last minute to find out the facts about the Officers Candidate Program, and then it is—too late. An OCS or a Warrant Officer Flight Application takes more time than the draft allows and thus many students are being drafted as enlisted men rather than participating in one of the other programs in the Army.

the Army.

Lt. Buckmaster recommends that all students facing the draft should call on a recruiter or on the ROTC staff on campus, to find out the facts about the military and th avenues available before it is too late to enter one of these programs.

"So get the facts that will have a great impact on your life in the near future," he concluded.

Technician concerning the out-of-state tuition hike. A better name would be the Yankee Go Home policy. If I remember correctly, last spring's tuition hike was enacted to relieve the burden of educating out-of-state students. What is the purpose of this?

If this State wants to decrease the number of out-of-state students the quota should be lowered. It is unfair to expect us to pay \$1400 a year tuition. There is no reasonable explanation for such a move. The only reasonable explanation that I can come up with is that it is a move to push us out of this university system. Why? We meet higher requirements, we pay to educate ourselves. Who will fill the spaces we leave? Let me answer that. For every intelligent out-of-state-student-forced to seek education elseshere, there will be a North Carolina grit waiting to take his place, and this grit will be admitted on the sole merit of his residence. This is discrimination in the lowest form. In the long run the school will suffer for having replaced intelligent students by the rejects from the bottom of the barrel, who could not make it by brains alone.

Linda Louise Walker If this State wants to decrease the number of

Linda Louise Walker LAN Soph

Mildly Upset

To the Editor:

I was mildly upset Friday when I read the article on the tuition hike for out of state

As it stands now, we out-of-state students pay more than in-state students, which if I may say, is only fair. However, I wish that another means of regulating the number of out of state could be

formulated.

May I suggest that instead of raising our tuition from such a high price to an unreasonable one, that the university set a quota for out of state applications. This would allow only a certain percentage of out-of state students but would still permit a mixture of geographically separated students.

I ask other out-of-state students to try to thwart this increase and offer other solutions.

Reason Is Invalid

To the Editor:
The reason given for the proposed out-of-state tuition hike is invalid!
It is stated in several University publications that a maximum of 15% of the students at any one time can be from out of North Carolina. Therefore, those students from out-of-state are not competing for the same spots as the students from North Carolina.

This hike will only hurt those students from out-of-state who cannot afford the great increase. State is well-enough known nationally that there will still be sufficient numbers of more-affluent out-of-state students who apply to meet the 15%

out-of-state students who apply to meet the 15% limit which is imposed by law Label this hike for whi

Label this hike for what it is—a method of obtaining money by sapping all that this University can from out-of-state students.

Denis F. Waldron

"At It Again"

To the Editor: To the Editor:

I am writing in regard to your editorial "At it Again", concerning my behavior in the S.G. Senate. What Mr. Gravely failed to point out in his Editorial was what the motion in question was. I had moved to let another student be allowed to run in future elections, after she had resigned because she was getting married. If such a motion

e night that the student she is not allowed to run in any future I did not feel that a student should be resigns, sine is not anowed to full may returne election. I did not feel that a student should be punished for getting married. The voice vote, in my opinion was not a clear vote. I feel many of the senators were annoyed by the call for division because they had to stand up, which interrupted their sleep. If the five minutes that the vote took distrurbed so many senators, it might be because they had just wasted 20 minutes reading the minutes of the last meeting.

I also moved that Steve Mullinex be allowed to run in the future if he so desires. This vote passed, but it still took up some of the senate's precious time. If S.G. has so much business to transact, maybe they should streamline the general statutes, to make such motions needless.

Sorry About Your Hat. . .

Dosp Mr. (Kid) Godwin

We are truly sorry you lost your had. Something that old must really be valuable. We hope you can find another one to keep the red and white glare out of your eyes.

We enjoyed the State-Carolina ballgame, even if we did lose. The thing we enjoyed most were the Childish exhibitions you and the Chapel Hill "Jet" set displayed throughout the game. We hope you and your fellow Tar Heels enjoyed your liquor. We do hope you bought it in Raleigh, we can really use the tax money.

As students, we realize ballgames are to be enjoyed by everyone. However, the example you set was way out in left field, as far as parents are concerned. If we knew our parents were at ballgames acting in such disgusting manner, we would personally try our best to keep them at home. If that didn't work then a name change would be justified.

home. If that didn't work then a name change would be justified.

Mr. Godwin, if you are still sowing wild oats at your age it might be best to knock off and start the harvest. Hope you get a bumper crop. At the next ballgame bring your youngest child to help keep you in line.

Fun is fun, but Mr. Godwin grow up!!

Wish we had that hat, S.F., J.B., J.R. Education Majors Would Like to Ask

To the Editor:

To the Editor:

I would just like to ask the people who have considered the printing of "The Student as Nigger", why was the article so embarrassing to you and to the university (specifically to Mr. Carol Mann). If just one man's opinions can be so upsetting to you, then I suggest that you hire a personal censor to edit out all the "dirty" words from your reading material and quit trying to edit the publication that printed the material. The Technician did not originate the article so why the claims that the staff's moral standards have been lowered? A newspaper should be a medium of communication—not a medium of censorship.

Mann "Outdated"

To the Editor:

Directed to Carroll L. Mann, Professor of Engineering, and his letter printed in the Feb. 14, 1969 issue of the Technician.

It is my opinion that you are as outdated as your father who "served before" you in service to this university. The Technician is the student newspaper, and should, therefore, be directed towards them....not alumni, parents, or staff.

I personally feel that more controversial material, like "The Student As Nigger", needs to be presented to our student body, and the best way to do this is through its publications. Perhaps this would help to put an end to the apathy so noticeable on this campus. As long as faculty such as yourself continue to stifle freedom of opinion with your engineering narrowmindedness, this apathy will continue.

Ross M. Gannon

Objects ot Filth

Dear Dr. Caldwell:

Dear Dr. Caldwell:

I am sure that you are aware of the article, The Student As Nigger, which appeared in a recent issue of the Technician.

As the father of two students currently enrolled at North Carolina State University, I strongly protest having to help finance the publication of such filth as I consider this article to be. I do not feel that I have much freedom when I have no choice but to pay specified student fees in order for my two sons to be enrolled as students, and then for a part of these fees to be used to support the publication of an article of this type, and it is my understanding that approximately 30% of the Technician's expenses are paid from Publication Fees.

Technician's expenses are paid from Publication Fees.

I so strongly object to the use of any portion of any money that I have paid in the form of fees being used for this purpose that I almost feel as though I should request a refund of whatever the portion is for Technician support.

According to the News & Observer the University's advisor for the Technician indicated that he was not aware prior to publication that this article was to be published. I am wondering if some steps might be taken to prevent the future-publication of such an inflammatory article.

I have no quarrel with the basic article and would have no objection to its having been published in the Technician if the filth had been edited from it. According to the Editor of the Technician, had this been done the article would have lost its meaning. My feeling is that it is a distinct reflection on the author of the article if he is not able to express his ideas except by resorting to the lith. Teecho the new team was the or the server the of is not able to express his ideas except by resorting to such filth. Trash of this type is not worthy of publication and should be relegated to the gutter

publication and should be ready.

Where it belongs.

I sincerely hope that I shall be able to expect
more wholesome results from any Publication Fees
that I have paid or that I may pay in the future.

Sincerely yours, Macon R. Rowland

State University Print Shop, Raleigh, North Carolina.

from Friday's N.C. Anvil 'Students as Niggers' at N. C. State

newspaper of N.C. State University, published Jerry Farber's article "The published Jerry Farber's article "The Student as Nigger" on Feb. 7, along with a Wall Street Journal article about the Farber article, and a third article by Craig Wilson, editor of the Agromeck (yearbook) which argued that Farber's theory applies all too well to NCSU students.

The three articles, published as a two-page spread, have not caused any movement by the school administration or by the NCSU publications board to impose any sort of censorship or new guidelines - but the stir created at the faculty level, and to some degree at the student level, has been considerable.

been considerable.

The Farber article had been published before (Anvil, Jan. 11), and distributed on every campus in the Triangle - it was sold at NCSU in the same building where the Technician is given out every day.

But it was something of a publish-

But it was something of a publish-

But it was something of a publishing event for a college paper at a State-supported school, one equally under the guns of Jesse Helms on one side of the campus and the Legislature a few blocks to the east. And under those guns, the Technician managed the publication of "Student as Nigger" with some finesse. The Wall Street Journal article carried next to Farber's essay explained that "Student as Nigger" was becoming just too big a piece of the under-

graduate literature to be ignored by the establishment, although having said this in one paragraph, the Journal expended a few tozen hopeful generali-ties in putting down Farber's argu-

ments.

And Craig Wilson pitted Farber against the Wall Street Journal, concluding that as far as the NCSU campus is concerned, Farber was unfortunately closer to the truth than the Journal.

What will be the upshot? One design student, who explains that "everyon student, who explains that "everyone here is completely apathetic except for the design students and a few faculty members," doubts that the Farber article will really get things moving. "The only thing that might possibly get any sort of student reaction would be for the administration to hear thesees." to ban tobacco, alcohol and women from a twenty mile radius of the campus and make everyone walk to complains. "Short of that, the State nt will never wake up to his negritude."

It may be significant that five let-ters to the Technician which appeared last Wednesday dealt with the Farber article; and three of them were from

article; and three of them were from faculty members.

There has been some response to the "Student as Nigger" article in terms of the central question, "are college students treated like niggers and should they be" but there has

should have printed a few words that

should have printed a few words that are generally exempt when spoken. One letter writer called the article "fillth of the lowest order," and said that it was all tied up with "race degeneration" and a cancerous rotting which already infests UNC, Duke, and Wake Forest Wake Forest.

It would appear that publication of the article at NCSU has answered two questions. First, it appears that the administration has adopted a reasonable policy towards student publications - if the Technician has not run obscenity for the sake of obscenity, the administration apparently has seen no need to censor for the sake of censorship.

And the incident has shown that there are at least a handful of NCSU students who are not niggers, and are even getting concerned about the servitude of some of their brothers. But a bigger question remains, as one looks at the bleary-eyed person

with fifteen books and a slidefule -how close is that student to figuring out what all the fuss is about.

Was the publication of a single article the biggest political event, the greatest and most shining piece of student activism on the State campus in the last five years? And will it remain so for another five years?

Carmichael Entertains | Give To Campus Chest -At Bar-Jonah Opening

'A folk-singer has more of an obligation than just to entertain—he has to actually involve the audience in what he is doing," explains Bill Carmichael between clouds of smoke that come out lavender under the Bar-Jonah lights.

Apparently he believes this, since his performance Friday, more than anything else managed to keep the audience closely, and feich

Chetto Story" and "A Thousand Hillsides." These have
both appeared in *Broadside*, a
topical song magazine out of
New York City.

Bill may get considerable

Leonard Cohen and Bob-bylan are among his favorite songwriters, as well as Len Chandler, whose work will be among that featured at Bill's next performance, at the Bar Jonah, scheduled for Friday and Saturday night.

if he works with Vista's public Raleigh resident, Bill attends Sandhills Community College

O.K., that's the score. Bill Carmichael has plenty of music to offer and the Bar-Jonah is looking better all the time. Be there next weekend.

For Thurber Carnival

Tryouts To Begin

Tryouts for a touring production of *Thurber's Carnival* will be held Tuesday and Wednesday at 7 p.m. and Thursday at 8 p.m. in the Union Theater.

University Players, the producers of James Thurber's Thurber's the Union.

popular play, invite anyone to try out who is interestd in thester work. Jobs of all kinds are available.

Did you like beer the first time you tasted it?

A lot of people say no. They say beer is one of those good things you cultivate a taste for . . . like olives, or scotch, or

kumquats. Maybe. But we think it makes a difference which brand of beer we're talking

about.

We think Budweiser is an exception to this "you've gotta get used to it" rule. It's so smooth. (You see, no other

beer is Beechwood Aged: it's a costiy way to brew beer, and it takes more time. But it

So whether you're one of the few who has never tried beer, or a beer drinker who suddenly feels the urge to find out why so many people enjoy

Budweiser, we think you'll like it.

From the very first taste.

Budweiser is the King of Beers.

(But you know that.)

CAREER **OPPORTUNITIES**

at all degree levels

for conquest of disease vement of human health

The National Institutes of Health-NIH-is the principal research arm of the U.S. Public Health Service, and conducts many of the most advanced programs in medical science today. These pro-

most advanced programs in medical science today. These programs require specialists in a wide range of disciplines. Example: Right now NIH has openings in the following areas:

CHEMISTS ... BIOLOGISTS ... NURSES ... MEDICAL
TECHNOLOGISTS ... SOCIAL WORKERS ... LIBRARIANS
... ENGINEERS ... COMPUTER PROGRAMMERS ... MATHEMATICIANS ... STATISTICIANS ... SYSTEMS ANALYSTS
... MANAGEMENT INTERNS ... PERSONNEL SPECIALISTS
... ACCOUNTANTS ... INFORMATION SPECIALISTS ...
MANAGEMENT ANALYSTS ... CONTRACT SPECIALISTS ...

An NIH representative will be visiting your campus soon to discuss these positions with interested students. We urge you to get further information about a career with NIH from the Placement Office, or by contacting

College Relations Officer

NATIONAL INSTITUTES OF HEALTH

From your campus to ours...

Last year more than 100 graduates came to our campus at TRW Space Park in Redondo Beach, or to our Houston or Washington, D.C. operations. Of the more than 16,000 men and women in TRW Systems Group, over 7000 are college graduates. Their major fields of interest are as varied as your own: Engineering, Behavioral Sciences, Physical Sciences, Computer Sciences, Life Sciences, Management Sciences, and the Humanities.

It's characteristic of TRW Systems Group that many of our employees continue to do advanced and applied research in the same area of specializa-

tion they worked on in college.
For our challenges are much like yours.
We're deeply involved in the exploration of space and the defense of the Free World. We're also applying these advanced technologies to the complex social problems-of today...transportation, health, urban renewal, land planning; water and air pollution, global communication, ocean sciences.
As they work to meet these diverse challenges, many of our employees are continuing their study for advanced degrees with TRW's blessing and financial help. That's just one of the reasons

so many people have found the move from their campus to ours a natural and rewarding one.
Perhaps you'd like to consider the same move. Make an appointment to see us when we're on your campus (see below). or write to Dr. W. D. McIvers. College Relations, Room 7001-J. TRW Systems Group. One Space Park, Redondo Beach, California 90278. TRW is an equal opportunity employer.

State Loses 45-35

CHARLOTTE-To beat the amecocks, they must be ought out of their tight zone fense, or so the thinking goes

The Wolfpack tried to draw Frank McGuttes quintet out with a very con-trolled, almost stalling, of fense here Saturday night. But for this strategy to work, the challenging team must gain the lead early in the contest, or at least re-

ontest, or at least re-in position to contin-

main in position to continuary intractor. XState could not do this, falling behind 4-0 before Doug Tilley finally put the Wolfpack on the score board 6:17 into the period.

Five times State turned over the ball and to add to Coach Norman Sloan's woes, the Gamecocks hit a torrid 67 percent from the floor, eliminating any need for McGuire to order a man-forman defense.

you'd think they had never seen snow before-highly un-likely since both were born on

the wrong side of the Mason

But, the Abbey is beautiful tonight. The rolling, pine co-vered hills are new-blanketed in-white. The snowfall must have

white. The snowfall must have reached ten inches by now and here I am stuck, pounding a pathetic excuse for a type-writer supposedly working on the game story, and wishing I'd. had enough forethought to bring boots and gloves and things.

Then there is the sled locked up in the closet in Raleigh, inaccessable to anyone as the only key is here with us in Belmont. And all those beautiful hills—unmarred by tire tracks, or intersections at the bottom.

The wind has blown most of

The wind has blown most of the snow off the trees now, but earlier they were covered with the white stuff and the whole area looked like a New England scene on a Christmas card, especially along 1-85, which is lined in many places with ced-ars whose branches reach the ground

ground.

Looking out the window, everything is still white-except for the tree trunks, black against the white background into the blue-gray sky.

Maybe it will snow all day today and we'll be stuck here

ed on her body was magnifi-

Again in act four the two danced before they died. Miss Gregory's interpretation of the anguished final scene was superb. One needed no program to sense that her heart was torn or that her death was near.

near.

Certainly the visual communication of the production was the most poignant that Friends of the College has ever brought to Raleigh. Hopefully Swan Lake will set a precedent for many similar programs in the future.

Maybe killing's

By half-tme, South Carolina had worked to an eight point advantage, 20-12, and went on to win by what had been the half-time score in State's Friday game, 45-35.

During most of the second half it looked as though the first period had been decisive; the Gamecocks maintained a steady 7 to 9 point advantage.

Finally State narrowed the Gamecocks advantage to four as Vann Williford hit with 8:52 showing on the clock.

South Carolina spurted back, to a 7-point lead at 34-27, and then a nine-point lead at 38-29 as the Game-

lead at 38-29 as the Game-cocks, especially high-scoring guard John Roche, began to convert the one-and-one. State was nowshooting at the first opportunity with Joe Serdich and Nelson Isely, bombing from the outside, while the Gamecocks went to their own controlled offense, running out the

beat the Wolfpack earlier in the season in the Littlejohn Coliseum.

The tigers had every right to believe they could do it here again Friday night, but Doug Tilley, a sophomore who has been used as only a limited reserve capacity by Norm Sloan until just recently, had other ideas.

His ideas included 17 rebounds, the second best effort by a State player this season, and 25 points, a plateau exceeded only by Vann Williford and Joe Serdich so far this year.

Tilley, who did not play in State's earlier 78-77 loss to the Tigers, had just recently moved into a major role in Wolfpack basket ball, making his first start last Saturday against Virginia, had acored 48 points in the three games through Friday night, although his

Wolfpack Split Pair Over Weekend

CHARLOTTE—State earned a split in the Charlotte North-South Doubleheader over the weekend, leaving its ACC record at one better than break even (6-5) and maintaining its hold on third place.

Turnovers in the game plagued the Wolfpack as they had 18. considerable improvement over the Carolina game that saw State turn the ball over on 31 occasions. But, the Big Red more than made up for what they lost via the turnovers. by completely dominating the boards, claiming a 57-40 advantage. Isley with 13 and Rick Anheuser with 10 were the other State players to break double figures, while Jim Risinger with 9, Serdich and Williford with 8 each, and Dick Braucher with 7 carried out a balanced scoring attack. Al Heartley had 4 points.

After running to a ten-point victory over Clemson on Friday night, The Wolfpack fell to South Carolina's Gamecocks, upset victory over Carolina in the opening game, by the same margin in the Doubleheader's final game, while outside Mother Nature carried out her own beautification

outside Mother Nature carned to the rown beautification plan on the city of Charlotte.

The Gamecocks victory (68-66) eased them into a tie with the Tar Heels for first place in the conference, as the race for top seeding in the tournament heads down the comestrated After the Charlotte in the previous meetings, home-stretch. After the Char-

For the Wolfpack, things came out as expected, but not nearly as well as followers of the West Raleigh team had hoped.

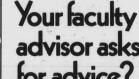

For the remainder of the season, State will be engaged in ACC action, taking on Wake Forest Thursday night in Winston-Salem, then coming home to take on Duke and South Carolina in the Coliseum.

The Decons have split with State in two previous meetings,

SUMMER CAMP COUNSELOR OPENINGS: Wanted

to be played.

Both Carolina's found themselves in must-win situations Saturday night as the snow came down making attendance inconvient, but hardly keeping the ardent fans from both schools who had gobbled up most of the 11,666 tickets. And, both teams won easily North Carolina rolling to a 107-81 victory, while the Gamecocks had to overcome Norm Sloan's slowdown for a 45-35 decision.
