AL JOHNSTON TO HEAD WOLFPACK NEXT YEAR

**Elected Captain at Banquet Held in the "Y"—
"Flop" Morris Unanimously Chosen as Manager.**

At a banquet given in honor of the 1924 Wolfpack, Friday evening, December 5th, in the "Y" banquet hall by the State College Woman's Club, Al Johnston was elected to head the 1925 Wolfpack.

Al hales from Rocky Mount, and since his arrival on State College Campus he has well accounted for his time. He played on the Freshman team in 1922, and has been a mainstay in the Varsity backfield for the past two years. He is one of the fastest and most versatile backs State has had in some time. He is a natural leader of men, and should make a good captain. Besides his activities on the gridiron, Al is a member of the 1924 State champion baseball team, where he officiates as shortstop. He is good in his academic work and a very popular man about the campus.

At the meeting the manager for the 1925 Wolfpack was also elected. "Flop" Morris was the unanimous choice of the team for the position. This speaks well for "Flop" and indicates clearly the kind of work he has been doing behind the scenes, where glory and honor, etc., are unknown. His consistent hard work and sympathetic interest in the individual player during the two years and serving as Assistant Manager, have made him one of the most popular men on the campus, especially with the athletes and others who know him. "Flop," whose real name is Robert Beverly Morris, of Asheville, stands well in his class work and has been somewhat of an athlete himself, since his arrival on the campus, having played on the 1923 Freshman basketball team.

Animal Husbandry Building Commenced

Will Cost \$200,000 and Will Be Well Equipped for Purpose Intended

Ground has been broken for the new \$200,000 Animal Husbandry building on the southwestern corner of "Ag Hill." This building will house all the animal industry workers, including the college industrial staff and the division of extension and experimentation in animal industry.

In addition to call rooms, laboratory and office space for the teaching staff, quarters will be provided for the extension specialists working with dairy cattle and dairy produce, beef cattle, swine, sheep, poultry, and animal nutrition.

The building will be of reinforced concrete, fire-proof construction, with a brick exterior. It will be 60 by 180 feet, three stories high with two wings 50 by 60 feet.

One of the wings will be used for dairy manufacturing and will be fitted for handling and teaching all creamery products. Part of the other wing will be used for stock judging. Opening into this wing is the slaughtering room where animals may be killed. Next to this room is the cooling and cutting room.

All the offices for the teachers are to be located on the first floor with three classrooms and a laboratory. The second floor is to be used by the experiment workers. The third floor is to be used by the animal industry extension forces.

Carolina-State-Trinity Debate Was a Success

Proposed Child Labor Amendment to Federal Constitution Subject Debated

For the first time during the current school year students of State College participated in intercollegiate forensic contests when a team composed of Ralph J. Peeler, a Junior in the School of Agriculture, and Henry H. Rogers, a Freshman in the School of Science and Business, met representatives of the University of North Carolina and of Trinity College last Monday and Tuesday nights. The question for debate was that of the proposed child labor amendment to the Constitution.

The local contest was held Tuesday night with the speakers from Durham, in the auditorium of the Edenton Street Methodist Sunday school. The program was opened by songs rendered by the newly-organized State College Quartette. This "musical foursome" bids fair to duplicate the record of the N. C. Band in winning the favor of North Carolina audiences. Their music was much appreciated by those who heard it Tuesday night.

The speaking then followed in the following order: Affirmative, Mr. Peeler, of State; negative, Mr. Rogers, of State; affirmative, Mr. Boyd, of Trinity; negative, Mr. Blakeney, of Trinity; affirmative reply, Mr. Peeler. At the close of the contest, questions were put to the several speakers by members of the audience, and points dwelt upon and elaborated which had been raised in the formal discussion. Following this colloquy, the decision of the audience was announced to the effect that the debate had been won by the negative, by a vote of thirty-one to twenty-one.

This contest marked the first public debate between students of Trinity and State. It was likewise the first time that the "Oxford style" of contest has been tried before a local audience. It was regretted by those in charge of the contest that more of the auditors did not take advantage of the opportunity to put questions to and engage in colloquy with the debaters.

The debate last Monday night at Chapel Hill between the Technicians and the Tarheels proved to be an interesting and, before it was over, actually an exciting event.

Gerrard Hall was the scene of the encounter, and an audience of over one hundred was present. When the evil condition of the weather is con-

(Continued on page 5.)

LEAZAR SOPHOMORES AND FRESHMEN DEBATE

Last Friday evening at the regular meeting of the Leazar Literary Society a debate which created plenty of interest and showed signs of a real intellectual battle was contested between Sophomores on the affirmative and Freshmen on the negative.

The question debated was: "Resolved, That the Student Council of State College should prohibit Freshmen from leaving the campus every evening except on Saturdays, Sundays, holidays, and special occasions." The affirmative was presented by the following Sophomores: Messrs. J. L. Fort, G. V. Harren, and J. L. Smathers. The following Freshmen upheld the negative: Messrs. M. O. Pleasants, C. W. Jackson, and W. R. Sechler. At the conclusion of the heated discussion, Mr. C. F. Parrish gave a humorous story, after which the judges rendered their decision in favor of the negative.

Friday evening, December 12, officers will be elected to serve for the next quarter, beginning with the first meeting after Christmas.

PULLEN LITERARY SOCIETY ELECTS ITS NEW OFFICERS

Pullen Literary Society held its last meeting of the fall term Friday evening, December 5th. The first thing on the program was the distribution of eats, drinks and smokes. This put the society in a good frame of mind for the business which was to follow. Professor Cunningham made a distinct contribution to the evening's

J. E. WEBBER

enjoyment by giving several humorous readings.

The election of officers for the next term was the chief business of the evening. The following were elected: President, J. E. Webber; Vice-President, J. M. Potter; Secretary, J. A. Wilson; Treasurer, H. Baum; Assistant Secretary, Conrad; Assistant Treasurer, Humbert; Critic, L. A. Whitford; Reporter, E. G. Moore; Chaplain, C. A. Leonard; Sergeant-at-Arms, H. B. Keen; Chairman Program Committee, H. W. Taylor.

Following the election, Mr. Webber made a short talk in which he called attention to the high positions now held by some of our former presidents, and concluded with the statement that he knew of none who had surpassed our retiring president, Mr. Keen. Mr. Wells, the retiring sergeant at arms, made a farewell address in which he elaborated upon the duties of his office and gave some wise counsel to Mr. Keen, who was elected sergeant at arms, following the usual custom of electing the retiring president to this office. Mr. Keen then made a short talk, thanking the members for the fine spirit of co-operation which he had enjoyed, and asked for its continuation during the future.

Mr. Webber has won many honors for Pullen, and the society feels that great things lie ahead of us with such a leader.

Freshmen Down The Bloody Sophs

Was Necessary to Play an Extra Quarter to Decide the Game

The Freshman Co. 1 football team won from Sophomore Co. A, 13 to 6, in a hotly contested game that necessitated an extra period to decide the winners Saturday afternoon at 2:30 o'clock on Riddick Field.

Saturday afternoon, December 6, the wits of Black and "Bull" Thomas were pitted against those of the veteran Walter Shuford in the third game of the "Colonel's army" series of football games to determine the championship of the campus.

During the first quarter the ball seamed up and down the field. The Sophs making one first down and the "freshies" none. The second quarter was all in favor of the Sophs. They made two first downs in succession, then the ball went over near the Freshmen's goal. The Sophs held, and as the Fresh started to punt, the ball was blocked by Williamson, who re-

Carolina Champs In Cross Country

Phi Kappa Phi Society Initiates New Members

Banquet and Initiation Held in Y.M.C.A. Monday Night for Thirteen New Members

The annual banquet and initiation of the Phi Kappa Phi national honor society was held Friday night in the

Y. M. C. A. banquet hall at which time thirteen new members were taken into the organization.

The list of those taken into the society include three faculty members and ten members of the student-body. They are: Dr. L. F. Williams, head of the Department of Chemistry; Dr. R. Y. Winters, of the Department of Agronomy, and Prof. Harry Tucker, head of the Department of Highway Engineering, from the faculty, and the following students: L. A. Brothers, Wilmington; L. L. Hedgepeth, Greensboro; C. R. Hoey, Jr., Shelby; S. E. Holt, Rochester, N. Y.; D. S. Mathe-son, Jr., Cheraw, S. C.; R. H. Raper, Welcome; S. R. Wallis, Arden; J. E. Weber, Morganton; L. A. Whitford, Silverdale, and A. M. Woodside, Statesville.

The society has for its purpose the promoting of scholarship among the American college students. It seeks to foster learning in competition with the numerous conflicting interests affecting the modern every-day of the undergraduate by offering him membership on an equal basis with members of the faculty. It aims to promote good feeling, learning, and high ideals among the students in their personal college relationships.

The local chapter of Phi Kappa Phi was organized December 10, 1923, with a distinguished list of members of the faculty and alumni as charter members. Since then the membership has grown to fifty, not including the latest group of initiates. To be eligible for membership a student must have completed three full years of college work and rank with the upper one-fifth of the class.

Dr. T. P. Harrison of the Department of English, president of the local chapter, acted as toastmaster and introduced the speakers. These included Dr. E. C. Brooks, Dean B. F. Brown, and John A. Parks, charter members, who extended greetings to the new members in behalf of the faculty and alumni, and L. L. Hedgepeth, a member of the Senior Class, who responded for the initiates.

The officers of the local chapter are: Dr. T. P. Harrison, president; C. R. Hoey, vice-president, and Professor W. A. Anderson, secretary-treasurer.

NOTED DYESTUFFS MAN SPEAKS TO TEXTILE MEN

The members of the Textile Department were favored last week by having C. M. Stone, southern representative of the Grassile Chemical and Dyestuffs Company. Mr. Stone advanced the fact at first that he was not an orator, but before he proceeded very far all present were convinced that he was. He was thoroughly enjoyed by all.

Mr. Stone spoke from the manufacturer's standpoint and sales standpoint on the dye industry before the war and at the present time. He made a detailed comparison of the properties and qualities of the dyes then and at present. He also conveyed the good news that the American dye industry was beginning to fast surpass the German and foreign countries in quality and fastness.

BAILEY, WAKE FOREST, SETS FAST PACE IN RUN

State College Pushes Carolina and Comes Out an Easy Second

Carolina took a closely contested first place in the State Championship Cross-Country Meet held at Wake Forest last Saturday, December 6th. Although Bailey, of Wake Forest, ran a superb race and took first place, Carolina finished with the smallest score, 42 points, but was closely pushed by the State Harriers whose 46 points assured them an easy second place.

The event was the fastest three-mile road race held in this section in the past several years. Bailey broke the tape exactly 15 minutes and 45 seconds after the starter's gun was fired. For the benefit of those who are not so well acquainted with road races, that is unusually good time. Mabry, of Trinity, pushed him closely, finishing second.

Lambert and Russ of Carolina placed third and fourth; Wright and Roberson of State came in fifth and sixth; then Peacock of Wake Forest followed by Sherman of State. Interest was kept at a high pitch at the finish line until the last man came in, by the order in which the men finished. At no time did several men from one school come in together, and nobody knew for certain which of the teams had won the glory of championship until all men were in and the count made and checked.

Carolina's score was 42; State came close behind with 46; Trinity was third with 59. Then came Wake Forest, Davidson, and Elon, in the order named. All teams were standard, that is, had seven men on them, save Davidson, with five, and Elon, with three.

Trinity was doped to win but here, as in the seasons of football, dope seemed to be worthless. State was generally considered second only to Trinity. Thus surprise was experienced when Carolina took the championship home to Chapel Hill.

Dr. Taylor Back From Southern Conference

Many Subjects of Importance Were Brought Before the Conference

At the annual meeting of the Southern Intercollegiate Conference held at New Orleans on December 5th and 6th, State College was represented by Dr. Carl C. Taylor and Director Miller. Dr. S. V. Sanford, of University of Georgia, was re-elected president.

Many subjects of importance were brought before the conference, but the one to affect State College most was the rule which makes any college man ineligible to participate in any sport if he has played on any team during the summer that has played more than three games a week.

Dr. Taylor was frank in stating that he believed there were many students playing baseball for money during the summer and doing it with the eyes of the Conference wide open.

An important amendment adopted was that no school shall pay the expense of its athletes during the preliminary training season.

It was decided that next year's tournaments would be held at the following places: Basketball at Atlanta, February 27 and 28 and March 2 and 3; track at Sewanee, on May 15 and 16; cross-country at V. P. I., on November 23. The Conference also voted to place all college athletics under Conference rules.

Editorials

Emilie Rose certainly "Knox" a violin around, doesn't she?

Speaking of Christmas presents, how about Mr. Duke's one to Trinity?

Every dark cloud has a silver lining. Cheer up, exams have one in the Christmas holidays.

Half a week, half a week, half a week onward, into the shadows of EXAMS rode old State College.

It has been suggested that Colonel Gregory that he practice trench warfare while he has the trenches already dug.

There is to be a Christmas number of THE TECHNICIAN and it will be out on Tuesday of next week, in time for all to get their copy before going home.

We feel sure that the old proverb "To him that hath shall be given, and to him that hath not shall be taken away even that which he hath" may be applied to the grades on examination.

The attitude that Wake Forest took toward Trinity and her proposed endowment was indeed commendable. That is the right spirit, Wake Forest. If we can't have it we would like to see some one get it.

We were indeed glad to have so many visitors last Monday night to the concert. Especially were we glad to see St. Mary's, Peace, and Meredith over. We are always glad to have these schools represented here.

This week marked the beginning of the Inter-collegiate Oratorical Contests that State intends to have this year. There is much credit due the men who so ably represented State College in debates with Trinity and Carolina. We are proud of them and the showing they made.

We would like to correct a statement made in the last week's paper about the winner of the Norris Trophy. It was an oversight of the proofreader. Instead of "Red" Lassiter winning the trophy he was high man in the nomination for it, Al Johnson and Charlie Shuford being the other two men nominated. The winner will not be chosen until next spring, when the general elections are held. The three men named above will be voted on at that time.

It would be a shame to change the name of Trinity College, from a standpoint of the Alumni and Alumnae, but on the other hand how about the undergraduates and the ones who are still back in high school and grammar grades and then back some more, who expect some time to go to Trinity. Again we repeat, it would be bad to have to change the name of the institution, but it would be a greater shame to lose so much money that they could have.

As exams approach, a little reminder might help some one to keep out of trouble. Think before you go on your exam. Remember that we have student government. Remember that when you get aid, other than from your own head, you are not only cheating yourself and the man next to you, but you are hurting every man at State College, you are hurting the name of State College. Think of the effect it will have on you and your folks at home if you are asked to resign on account of cheating. What could be more disgraceful. The best way to keep from cheating is to keep yourself free from temptation. Don't take your book on class unless the professor asks you to do so. Don't take any papers on class that could aid you in any way. It is the desire of the Student Council to go through this set of examinations without a single case of cheating. BUT WOE TO THE MAN WHO DOES CHEAT AND IS TURNED UP.

Already this year several articles have appeared in THE TECHNICIAN regarding a press for the college. This week there is another one in the Students' Forum. Be sure and read it.

All ye sons and professors of State College who are really interested in the welfare of the school and want it put on the map, then give this matter of having a press at State College a second thought.

Every year the school spends thousands and thousands of dollars on printing that, if she had a press, she could keep here and use for some other purpose. THE TECHNICIAN should be put out at least twice a week, and maybe more often, but under existing conditions it is impossible to finance this. This would be possible with a press on the campus.

Besides saving money the press could be operated in connection with the class of journalism, thereby giving the students practical knowledge of the printing business. This is a question to be decided, and we would like to have some discussion on it from either the students or faculty, or both would be better. We would like to know from the students if the majority of them want a press and from the faculty if such a thing would be practical and within reach.

Forsaken

(With apologies to nobody)

The author wishes to thank the world of literature in general for the metre used.
On the grid-iron's western goal-line,
Stretched out where the "docs" had left him
Lay the hero of the fracas.
On his head were many stitches,
On his legs, adhesive plaster,
And on top of all a bandage
Covered him from skull to ankles.

Proud he'd been of all his troubles,
Proud he'd been to shed his gore,
But to leave him where he'd tumbled,
That was sad, and he was sore—
And he would run, ah—nevermore.

For although he'd been the runner,
No shouts sailed toward the sky,
For the score was two to nothing
And he'd made it be that way—

When he turned in his mad ramble
And gathered up the sphere,
He set out, hell-for-leather
And no curses did he hear.
But he kept on running, running,
Till at last he made the score,
And as he crossed the goal line, he was
Tackled by Devore.

All the fans were quite disgusted,
And they roasted at his soul,
For in his dash for glory
He'd run toward the wrong goal!
PLUMP—31.

Student Forum

N. C. State Needs Its Own Press

It appears to the writer that one of the most pressing needs of the college at present is publicity. In comparison with other schools of the State this one is lacking in this respect.

In connection with the department of Journalism, which has just recently been added to the several courses offered at this school, there should be a press and other necessary newspaper equipment, so that we, the students, could turn out from start to finish the publications and bulletins of this school. If such were here I believe that the cost of production of THE TECHNICIAN, Agriculture and Industry, Extension News, Alumni News, etc., could be greatly reduced, certainly the printers' profit could be eliminated. It would be one of the finest ways of offering practical experience for those interested in or expecting to enter the newspaper field. It would compare favorably with the laboratories of the sciences taught here. It has been tried and found true that laboratory methods are more efficient than lectures alone. One can be lectured to about a certain thing all day and won't understand nor get as much out of it as if he had done the thing with his own hands and on his own initiative.

If we get a press here we can publish more, and more often, at a less expense than if it has to be done by a professional printer, and if this be true a greater circulation could naturally be afforded, thereby giving us the desired amount of publicity.

Most other large schools which offer a course in Journalism, and some which do not, have their own presses, and control and operate their publications.

It seems to the writer that during this period of growth and expansion which is taking place so rapidly around us that no mistake would be made in securing our own college press, not for the department of Journalism alone, but for the betterment and advancement of "A Greater State College."

—J. C. Thompson.

College Laundry a Modern Plant

During the past six years the College Laundry has nearly tripled itself in size. From the very small and inefficient laundry, valued at around \$6,000, which was located in the basement of the Textile building, the plant, under the supervision of J. B. Cullins, has now developed into a very modern one valued at around \$15,000.

After the new part of the dining hall was completed the laundry moved into the basement, giving much more room for the development that has taken place in the past few years. Every year it has been the plan of the proprietor to increase the capacity of the plant and to get rid of all the old machinery and replace it with modern up-to-date machinery. There remain now only two of the old machines that were used when the laundry was in the basement of the Textile building. Even these have been remodeled and all of the rest are new and of the latest type.

Not only has the value of the plant been increased but the working force has also been about doubled. By increasing the number of employees this has made more efficient and a better class of work possible. From every angle the laundry has been developing along with the college, and from the standpoint of capacity it has gone far ahead for now the laundry has a capacity that will take care of from eight hundred to one thousand more students.

It has been estimated that from 70 to 75 per cent of the students patronize the laundry all the time, and that from time to time it is evident that around 90 per cent of the students have their work done here. Many of the students find it more profitable to send their laundry home. This group of students make up the remaining percentage. Even a larger percentage of students patronize the pressing department of the laundry since the service is very satisfactory and the prices are very reasonable. There is a new department in the laundry which is gaining in popularity with the boys. This is the inspecting department. Every article that has buttons on it is inspected after it has been laundered and if there are any buttons missing they are replaced free of charge. This is indeed a great help to the students as there are very few of the men here that are competent seamstresses. In connection with the inspection depart-

"You say Doc Brooks is a pretty good scout?"

"No! No! I'm cramming! Shut up and get out!"

ment there is a tailoring and repair department for suits.

The College Laundry is now doing all the college work, like that of the Infirmary, Dining Hall, and Athletic Association. This is a recommendation, because up to a few years ago the college had its work done elsewhere. It is a generally recognized fact that the laundry is putting out good work.

Mr. J. B. Cullins is the proprietor and supervisor of the College Laundry, and any one having any dealings with Mr. Cullins always finds him ready to do what is right in any matter. Mr. Cullins is running the laundry himself, and it has no connection with the college whatever. In connection with the College Laundry there are two other laundries in the state owned and operated by Mr. Cullins and his brothers. There is the Sanford Steam Laundry at Sanford, N. C., managed by N. Cullins. The other is located at Goldsboro, N. C., and operated by M. J. and G. C. Cullins. In the three laundries combined there is about \$60,000 invested.

The Buhl Building, New York City
HELMLE & CORBETT, Architects

FAR more strongly than most churches, this great tower of commerce bespeaks the real spirit of Gothic architecture— aspiring, rugged, virile—an inspiration for the thinking, creating architect of today. Contrasting the antiquarian, this great tower declares that the spirit of Gothic architecture is a living, organic thing, adaptable to modern problems of accommodation and engineering, and endowed with a future as magnificent as its past. Certainly modern invention—modern engineering skill and organization, will prove more than equal to the demands of the architecture of the future.

OTIS ELEVATOR COMPANY
Offices in all Principal Cities of the World

The Civil Engineer

The Civil Engineer we like—to meet him we're delighted. He drives some pegs along the pike and gets us all excited. We wonder what it's all about, such stealth and circumspection. Perhaps some railroad seeks a route right through this very section.

If so, we'll swat them in the neck, our price will be a whopper. At least five figures on a check would be no more than proper. We dream of railroads, projects big, the world seems bright and newer 'till at length they start to dig a ditch to lay a sewer.

He always rouses up our hopes and makes us optimistic; We like him and his telescope, his symbols, cabalistic; He neither grumbles nor complains, he labors on the level; Although he does his work in "chains" he seems a care-free devil.

When damsels stroll before his glass he never rubbers at 'em, Though we would peep and say "Some class," and straightway lose our datum.

He works while sidewalk idlers gape like so much future mutton, And winds up ninety yards of tape by pressing on a button.

He's civil—mostly on the square—he nether scolds nor wrangles; He figures to a "cootie's hair" the proper dips and angles. Here's to you, Civil Engineer, and to the pegs you're hewing; Your coming fills our heart with glee, for things will soon be doing.

SPECIAL MUSIC SERVICE AT PULLEN ON SUNDAY

The special Christmas music at Pullen Memorial church will be given Sunday morning and evening at the regular church services. The plan is to give the special music early, so that students of State College and Meredith may be present and participate before going home for the holidays.

The department of Baptist Student Activities considers this the last out-

AL JOHNSTON

standing event before Christmas claiming the attention of students.

On Sunday afternoon, at 3 p. m., the Durham B. Y. P. U. will give a program at the Tabernacle Baptist church. This will be a great opportunity for learning more about B. Y. P. U. work and for becoming acquainted with the workers.

Mr. R. M. Warren, director of Baptist Student Activities, has expressed himself as being highly gratified with the church work of Baptist students during the term. The amount and scope of the work has greatly exceeded that done before Christmas last year.

The Sunday School class taught by Mr. Gilbert Stephenson and the B. Y. P. U. have had large attendance during this term, but only a fraction of the possibilities of the 356 Baptist students at State College.

All students who are to remain at college during the holidays are invited to leave their name at the Y. M. C. A. Some special events are being planned by Pullen church for those who cannot go home.

Alumni Notes

Observations & Communications of Zippy Mack

Well, "Shorty," you put it over, didn't you? And we who happen to come from the eastern part of the State are proud. There is nothing in the way of glory, eligibility, or anything else, and the shades of Dick Kirkpatrick or Casey Morris can only silently steal away. The honor to Rockingham and "Shorty" stands clear and undefiled. Shake!

An article which should be of interest to State College men was found in Thursday's News and Observer:

"Charlotte, Dec. 3.—Dr. S. T. Walton has arrived in the city to take charge of the dairy inspection work with the city-county health department.

"He came from Dayton, Ohio, where he has been connected with the health department as food inspector. A young man, Dr. Walton was reared in Onslow County, this State.

"Dr. E. M. Duncan has been in charge of the dairy inspection work, but the increase of work in the laboratory of the department has made it necessary to employ a man to devote his time to the dairy inspection."

Dr. Walton finished in Veterinary Science with the Class of '20, and two years later emerged from the Ohio State College with his Doctor's degree.

Messrs. J. E. Britt and C. D. Faucette, of the Mechanical Class of '24, were on the campus Sunday. Britt

will go to Philadelphia January 1 to take a position with Westinghouse, while Faucette is with the American Tobacco Company in Durham.

Mr. and Mrs. Alfred Vance Foote request the honor of your presence at the marriage of their daughter, Carrie Vance, to Mr. Roy Edwin Smith, Saturday evening, the twenty-seventh of December, at half-past six o'clock, First Baptist Church, North Wilkesboro, N. C. Mr. Smith is a member of the Class of '23.

Mr. D. A. Stevens, a member of the Class of '22, '23 and '24, was on the campus at the first of the week, with the avowed purpose of registering up for the winter and spring terms and finishing with the Class of '25. We have missed you, "Goat," and hope that you will decide to remain with us till the last.

Mrs. Mortimer Van Fleming, of

Manson, announces the approaching marriage of her daughter, Marie Celeste, to Mr. William Sturges Collins. The wedding will take place early in January. Mr. Collins was for a time a member of the Electrical Class of '23.

Rockingham Hi Wins State Championship

By Blocking Punt in First Quarter Defeat Shelby and Secure Championship for East

A blocked punt and recovery tell the tale, and the State High School Championship rests on the shoulders of Rockingham High School. In the first quarter young Osborne brought victory and glory when he blocked a Shelby punt near the Shelby goal line and fell on the ball across the goal line for a touchdown. Bower dropped-kicked goal for the extra point. The rest of the game was devoid of scoring but not of thrills.

Time after time Rockingham plowed her way down the field only to be stopped by a desperate Shelby team when its goal was threatened. For three quarters these offenses kept the ball well in Shelby's territory. In the third quarter, while ripping off tackle with the ball, Bowyer, who was bearing the brunt of the offense, was tackled sharply and fell on his shoulder, fracturing his collar bone.

Shelby presented a weak line and the Easterners went through the holes for repeated gains. Shelby played a defensive game throughout until the last five minutes in the last quarter when the Westerners uncorked an aerial attack that amazed and thrilled the grand stands and kept the Rockingham supporters in agonizing doubt until the final play. Rockingham met this attack with a defense that retreated but would not crack. In this last five minutes Shelby completed four out of nine forward passes for a net gain of 101 yards. Rockingham succeeded in keeping the passes scattered and thereby prevented a possible score.

Rockingham made 12 first downs to Shelby's 4 but the Easterners were penalized six times for a total of seventy yards as compared to one time for Shelby for five yards. Bowyer was the outstanding star of the game. Hiner also played a good game for Rockingham. Ellerbe and Connor starred for Shelby. There was staged a pretty punting duel between Pritchett Ellerbe of Rockingham and Earl Ellerbe and Connor of Shelby. An enthusiastic crowd of 3,000 people witnessed the game.

Line-up and summary:

| Rockingham | Position | Shelby |
|------------|----------------|------------|
| Covington | Left End | Lee |
| McLeod | Left Tackle | Beam |
| Ballard | Left Guard | Surrett |
| Fifer | Center | Grigg |
| Gibson | Right Guard | Auten |
| Osborne | Right Tackle | Caldwell |
| Hester | Right End | Dedman |
| Bowyer | Quarterback | Furches |
| P. Ellerbe | Right Halfback | C. Ellerbe |
| Heiner | Left Halfback | Connor |
| Ludwig | Fullback | Wray |

Score by periods:
 Rockingham 7 0 0 0-7
 Shelby 0 0 0 0-0
 Summary — Rockingham scoring: Touchdown, Osborne; extra point, Bowyer. Officials: Gooch (Virginia), referee; Poindexter (University N. C.), umpire; Pritchard (University N. C.), headlinesman. Time of quarters, 12 and 15 minutes.

WANTED!

Forty men, with some experience in gymnasium work, to serve as leaders for Freshmen and Sophomore groups in Physical Education. The experience is desirable but not absolutely necessary. Any one interested, see me any afternoon in the gym or any morning in my office in the "Y" as soon as possible.

W. F. PARKER.

Upper Classman: "Who's your girl?"
 Frosh: "She's Helena Sedan."
 Upper Classman: "How's she in a porch swing?"—Ex.

SPORT COMMENT

We are endeavoring in this column to give the gist of Campus opinion about sports. Because of man's inherent narrow-mindedness and conceit it is most probably our own personal opinion that we're actually giving. We hope not.
 THE SPORT EDITOR.

THE CAPTAINCY OF THE WOLFPACK returns to the back field after an absence of three years. It was four years ago also when we were State Champions last. We're not exactly superstitious, but!—Well, go to it, Al Johnston, we're pulling for you next year.

—N.C.S.—

BY THE WAY MEN, AL JOHNSTON and "Flop" Morris are in order for congratulations on their recent election as Captain and Manager, respectively, of the 1925 Wolfpack.

—N.C.S.—

CAROLINA CROSS COUNTRY TEAM is to be congratulated on its 4-point win over our own team Saturday for the Championship.

—N.C.S.—

FOR THOSE WHO LIKE FOOTBALL for the sake of the game alone these daily games on Riddick Field are furnishing lots of entertainment and excitement.

—N.C.S.—

THOSE TIE GAMES and brilliant plays down on Riddick Field look good to us. Varsity men are found that way.

—N.C.S.—

SHORTY LAWRENCE, we're proud of you and your new crown. Rockingham is indeed fortunate to have a coach like you.

—N.C.S.—

AND ROCKINGHAM, we extend our congratulations to you, especially to the team and scrubs.

First Intramural Football Game Has To Be Played Twice

Freshmen and Sophomores Battle to a Tie First Day; Then Sophs Win

December 3d Riddick Field witnessed the official inauguration of intramural sports on State College campus. And the game played well befitted the occasion. Fresh. Co. 3 and Soph. Co. E battled four full quarters to no avail; the final score being six. In other words, 0 to 0.

However, the game was played off two days later. At the end of the eighth quarter each other, the Sophomores had piled up the paltry score of seven points. The Fresh., covered with mud and glory, were thus eliminated from the championship race.

E COMPANY SOPHS DOWN THE FROSH THIRD GROUP

On Friday the Sophomore Co. E defeated the Freshmen Third Co. group by a score of 7 to 0. This settled the dispute which arose on Wednesday when the same two companies battled to a scoreless tie. The score came when Doug Dunn of the Sophs blocked

a punt behind the Freshman goal for a touchdown. Woodleaf drop-kicked for the extra point.

The Soph outplayed the Fresh throughout the game, making five first downs to two for the Fresh.

Hurley, Dunn, and Woodleaf looked best for the Soph while Williams and Eller were the individual stars for the Fresh.

Summary and line-up:

| Fresh | Position | Soph |
|-----------|----------|----------|
| Third Co. | | E. Co. |
| Palmer | R. E. | Dunn |
| Woodside | R. T. | Folley |
| Eller | R. G. | Pruder |
| Honningan | C. | Springer |
| Neal | L. G. | Shelton |
| Barnes | L. T. | Moss |
| Roan | L. E. | Hill |
| McConnell | L. H. | Smith |
| Coley | R. H. | Hurley |
| Arthur | F. B. | Utter |
| Williams | Qt. | Woodleaf |

Officials: Referee, Shaw; umpire, Parker; headlinesman, Gibson.

"FLOP" MORRIS

Freshman Basketball Prospects Look Bright

More Than Sixty Men Answered Homewood's First Call and Are Practicing Daily

When Sammy Homewood issued his call for candidates for the Freshman basketball team on November the 25th more than sixty men reported. These men have been practicing daily and are now being primed for one of the hardest seasons ever attempted by a State College Freshman team.

On Friday afternoon at 4 o'clock more will be learned about the pros-

pects of a good Freshman team when they will be pitted against the varsity. The game will be played in the new gymnasium, and the students will be given their first glimpse of both teams this season.

The regular Freshman schedule, which includes Freshman teams of the leading colleges of the state, will begin early in January. So far ten games have been scheduled and a number of others are pending.

Among the men who look the best are the following: Spence and Edwards, of Raleigh; Lytch, of Laurinburg; Hill, of Statesville; Shirley, of Rose Hill; McDowell, of Rockingham; Daniels, of Salisbury; Williams and Rush, of Churchland; Bynum, of Shelby; Crum, of Goldsboro; Bremer, of Wilmington, and Watkins, of Henderson.

A number of men who played football will be out after Christmas.

TAG FOOTBALL BECOMING POPULAR AT N. C. STATE

After classes are over for the day one will see the boys run to their rooms, put up their books, then for the field. The game is a new one at State and is very different from the real grid game we love so much; it debars tackling and rough playing. The boys divide up equally on the sides and then the ball is placed in the middle of the field. It is kicked off and the game is started. The offense uses the aerial attack most of the time though end runs are not uncommon. When the team fails to make the required ten yards in four downs, the ball goes over to the opposing team. The quarterback does the passing, punting, and generalizes the team. The defense is trained to break up the passes, which are the chief means of advance used by the offense. The game is fast-going and attracts many spectators.

INTRAMURAL BASKETBALL SCHEDULE

The following schedule has been drafted for intramural basketball practice Mondays, Wednesdays and Fridays, from 6:30 to 7:30 p. m.:

Tuesdays, Thursdays and Fridays, from 6:30 to 7:30:

Ag. Club Hears Details Chicago Crops Contest

Lively Talks by Professors and Members of Team Made— Election of Officers

That the program of the Agricultural Club was very interesting and instructive Tuesday evening was proved by the attentiveness with which all the members listened while Prof. Darst, Prof. Cotner, T. B. Lee, D. S. Matheson, and R. G. Christopher told in full the details of the preparation, the trip to and from Chicago, the contest itself, how this contest originated, and the value of such an undertaking. Officers of the club for the next term were elected after each of the above had done his part towards enlightening the club concerning this contest.

T. B. Lee opened the program of the evening by telling us of the preparation for this team before going to Chicago. He mentioned the fact that even last spring preparation was started for the contest. Last spring the boys were given small vials of the different kinds and varieties of crops of America that they might have a chance to study the identification the past summer, even though they were not at the college. Strenuous effort in this preparation was begun immediately after the boys registered up this fall. Many laborious hours were spent in the farm crops laboratory preparing for this contest. Work at night was even necessary as the time for the contest drew near. This contest requires much more preparation than any other that State College engages in at the present time.

R. G. Christopher told us of their trip to and from Chicago, mentioning Washington and other places that they passed through.

D. S. Matheson spoke of the value of such a contest. He pointed out the advertisement we get from such an undertaking, as well as telling of the knowledge that one acquires by training for the team. These things in themselves will far more than repay any individual who puts forth an effort in the preparation.

Professor Cotner, after giving J. E. Foster, their best orator (as Professor Cotner himself said) a chance to say something, held the attention of the club for some time. He told of the contest itself, but first gave a little inside dope about the actions of some members of the team that he thought the club had a right to know. He mentioned the fact that one of the team, when he retired one night while on the way, got the berths slightly confused. Nothing was said as to whether this was done purposely or not. Some may think the club has a right to know this also. Other amusing events which we know are characteristic of these boys were mentioned.

From the material that Professor Cotner presented to the club everyone knows that the boys had no easy job preparing for this trip. The contest consisted of identification, commercial grading, and judging. The identification consisted in knowing the common name, scientific name, variety name, and regions where mostly grown of every important crop in the United States and Canada. We are proud of the fact that R. G. Christopher came out first over all other competing colleges in the United States in identification.

The judging work consisted of corn, wheat, oats, barley, sorghum, hay, and cotton. The grading work consisted of corn, wheat, and oats.

Professor Darst next told in a few words why this contest was carried on, and the value the country as a whole gets from it. It might interest some to know that Professor Darst was among the first to suggest and start this contest.

Thus we see that State College is still on the map and can be compared with the largest State institutions of America. Ranking only fourth when competing with the largest agricultural colleges of America is no little honor.

The following officers were elected for next term: H. G. Moore, president; R. G. Christopher, vice-president; E. A. Davis, secretary; C. R. Lamb, assistant secretary; H. W. Taylor, treasurer; E. G. Moore, assistant treasurer; T. T. Brown, critic; J. G. Weaver, corresponding secretary; J. A. Wilson, reporter.

Ditches, Ditches, "Britches" rhyme with ditches

And off the twain do meet.
It's not the knees and not the top
But merely it's the seat.
The still dull thud out in the mud
Is all that we can hear,
Till victims wake and shake and shake
And then they cuss and swear.
So it don't pay to go astray
At night without a light,
So watch your step so you can help
Yourself out of a "tight."

FACULTYFAX

A department devoted to the problem of acquainting our student body and other readers of THE TECHNICIAN with our faculty.—E. G. MOORE.

DEAN B. F. BROWN

Benjamin Franklin Brown was born in Crescent County, Illinois. He attended the elementary schools of that county and did preparatory work at Wesleyan University. In 1901 he entered Northwestern University and was graduated in 1905, receiving a B.S. degree. Following the graduation he taught science in the high school at Petoskey, and later at Lansing, Mich. For several years he was principal of the Lansing High School, which at that time had an enrollment of 1,200 students. In 1916 he began graduate work in the University of Michigan, where he continued to study for a year. He also spent a year at the University of Wisconsin as a graduate student.

In 1918 he went to the Texas A. and M. College as chief of the Division of Rural Organization. He filled this position for two years, and in 1920 came to North Carolina as chief of the Division of Markets. Later he became State Warehouse Superintendent for the North Carolina Cotton Growers' Co-operative Association. In 1923 he came to State College as dean of the School of Science and Business.

Dean Brown has had excellent training and experience for the administrative position which he now holds. He possesses the desirable combination of scientific training and business ability. He is a member of the National Committee of Marketing Officials. Professor Brown, together with Dr. C. C. Taylor, are joint authors of a text-book on Citizenship, which is used at this institution.

PLEDGE DANCE A SUCCESS

The German Club of State College gave its annual pledge dance at the Woman's Club Friday night in honor of the new fraternity pledges.

For several years it has been a custom to the German Club to give a dance just after bid day. December 1st was bid day and Friday night the annual dance was given. The pledges were there with their buttons shining in the lapels of their coats and a broad smile on their faces. Each seemed to say "Look what I got." The music was furnished by the Dixie Serenaders and the dance was a success.

"You're right," said the left shoe.—Ex.

Freshmen Down Bloody Sophs

(Continued from page 1)

covered and went for a touchdown. They failed to kick goal.

In the third quarter the Fresh staged a comeback and by holding the Sophs to no first downs, and aided by fumbles of the Sophs, made a touchdown, Vick carrying the ball over. They failed to kick goal. The fourth quarter began with the score tied. Neither side was able to score, so it was decided to play an extra period. In this extra period the Fresh made their lone score.

Hendricks at quarter was the outstanding player for the Sophs. Vick at quarter and Dickson at center were outstanding players for the Freshmen.

Carolina-State-Trinity Debate Was a Success

(Continued from page 1)

sidered, the debaters should feel highly complimented by such an attendance.

The audience readily participated in the open forum discussion that followed the regular, formal contest. In fact, questions and arguments came so thick and fast from the floor to the rostrum that the chairman had difficulty at times in keeping order, and every one of the four debaters was called upon to reply to queries put to him and to defend statements which he had made during the course of the debate. Evidently the people of North Carolina are giving serious thought to this proposed Twentieth Amendment to the Federal Constitution, for the questions showed an intelligent and wary interest in the meaning of the amendment and in its implications. The audience, voting on the merits of the debate before the general discussion, decided for the affirmative by a vote of sixty-two to thirty-eight. The negative, however, successfully defended their position in the open discussion, pointing out that Congress had deliberately chosen the broadest and most comprehensive wording for the amendment when many milder and less dangerous ones had been suggested. On this point, Rogers, the State speaker, did especially effective work. Probably the deciding factor in the victory of the affirmative, however, was the personality and experience of Young, the Carolina defender of the amendment. His driving force and popular appeal wayed the majority to his side. Peeler, the State affirmative speaker, showed remarkable improvement over any of his previous work, and de-

fended effectively his contention that the amendment would be practicable and desirable in operation. Quickel, the Carolina negative speaker, was participating in his first public contest, but he revealed a winning personality and considerable power in straightforward, extemporaneous speaking.

After the contest, a friendly "get-together" was held in the Y. M. C. A., during which the question was thrashed out further and plans were discussed for continuing the friendly relations in forensic activity between State and Carolina which were begun so auspiciously by this debate.

In commenting on the two contests, Professor Cunningham said: "I was, on the whole, much pleased with the showing made by the State College speakers in both debates. They exemplified a creditable degree of proficiency in that style of debating which, to my mind, is fundamentally right for the beginning speaker to follow, namely, simple, direct, extemporaneous, 'enlarged conversation.' I felt that, in this respect, their work shone in contrast with that of some of their opponents who tended to rely principally upon carefully-prepared, smoothly-delivered, memorized speeches. One of the chief purposes of the open forum debate is to get away from that latter type of work and to train students to 'think of their feet.' Each of the two State speakers proved that he could do this."

Our Alma Mater

Of late there has been considerable discussion as to the adoption of an Alma Mater song for the school. As is generally known we have no Alma Mater song. The fast strides that the school has taken within the past few years, seemingly, necessitates our getting one and in response to the call of Daddy Price, the Dean of Music, several composers have been at work and to date there has been submitted three songs, all written and composed by State men. From an unauthoritative source there is a prevailing element of originality in the songs that have been submitted, both in the musical composition and in the wording. It is the aim of the department of music to have these songs submitted to a committee composed of eminent musicians, in order that we may get expert criticism. Then the songs are to be submitted to the department of English, where the wording is to be gone over and criticized and the best of the song wordings are to be designated. Then the songs are to be presented to the school by the Glee Club chorus and by popular vote of the student body the Alma Mater song is to be chosen. It shall be the object of the students to choose that song which best embodies the spirit of the school, and which will henceforth be representative of the school, both in words as well as in the sentiment expressed in the music.

It is interesting to note that the songs are all written by State boys and that the help of outsiders has not been solicited. In so doing it is felt that we can get a song that is State's in spirit, and in deed and in truth.

LEAZAR-PULLEN FORENSIC CLUB ORGANIZED DEC. 4TH

On Friday night, December 4, at the close of the meetings of the literary societies, there was organized the Leazar-Pullen Forensic Club. This organization is designed to bring together in fellowship and mutual helpfulness the members of the two literary societies who have represented the college in intercollegiate debates and oratorical contests.

Plans for the year's activities in public speaking competition were discussed, and the following officers were elected: President, Ralph J. Peeler; secretary, J. M. Potter. The other members of the club are: Frank Seymour, Ralph H. Raper, Marvin L. Snipes, and Henry H. Rogers. Professor Cunningham is faculty adviser.

The organization made definite plans for petitioning for a charter for Phi Kappa Delta, national public speaking fraternity—"the largest honorary forensic organization in the world."

"Co-ordination of Highway Research" Is Keynote of Meeting at Washington

With "Co-ordination of Highway Research" as its keynote, the Highway Research Board division of the Engineering National Research Council, of which Charles M. Upham, N. C. State Highway Engineer, is director, held its fourth annual meeting December 4th and 5th at Washington, D. C., with North Carolina and State College well represented.

Professor L. E. Wooten, who, along with Professor Harry Tucker, represented State College at the meeting of the board, read a paper on the measurement of tractive resistance of certain types of pavements. This paper was in the nature of a progress report on tests conducted with an electric truck at N. C. State College during the summer of 1924. Other papers were read by Frank Page, N. C. State Highway Commissioner, and W. E. Hawkins, N. C. State Highway Maintenance Engineer, on "An Analysis of Defaulted Highway Contracts" and "Economic Selection of Road Building Materials," respectively, the latter being discussed by Professor Harry Tucker.

The board decided that "co-ordination of highway research" is to be secured, not only by a more vigorous research program, but by making available for general use the practical results of research. To this end the director has appointed contact men in each of the state highway commissions, and also in the universities and colleges interested in highway research.

Kampus Kracks

By WRIGHT

Red Uzzle—"When I want to borrow a dollar I never go to a friend."
"Ah, well," returned Dopey Brown, extending his hand, "let us be friends."

"May I kiss you, Jean?" asked Dick, in the parlor.
"Oh," replied Jean, "Mother's in the other room."

"That's all right," replied Dick, "your father can kiss her."—Ex.

"Say, can I borrow your Tuxedo?"
"Sorry, I only smoke Velvet."

Professor Robertson made the statement to the class in journalism that not enough of the college activities were being printed. "Why, even if a professor at the university changes pajamas, it gets into print. Why is that?"

N. M. Smith—"Because they change 'em so seldom."

Hawkshaw himself (detective arriving on scene)—"Heavens," he said, "this is more serious than I thought; the window-pane has been broken on both sides."—Ex.

"Well, I must be going," said the steeple-jack, when his foot slipped.

New Arrival—"How long you in for?"
Prisoner—"Two weeks."

New Arrival—"Huh—easy fr youse. What you gonna do then?"
Prisoner—"Hang."

Circus man: "The leopard has escaped; shoot him on the spot."
Guard: "Which spot?"—Ex.

It was at the end of the scene; the

heroine starving—"Bread," she cried. "Give me bread," and then the curtain came down with a roll.

"Rastus, whar you keep yo' money?"
"In mah strong box."
"What dat, niggah?"
"In mah shoe."—Ex.

First Frosh—"Why is it always best to tell the truth?"
Second Frosh—"Because you don't have to remember what you say."

Wife—"Don't sit there staring at me. Why don't you say something?"
Hen-pecked Husband—"I didn't know it was my turn yet."—Ex.

ONE OF OUR LATEST SONGS
The girl of my dreams has bobbed her hair
And dyed it a brilliant red.
She drinks and smokes and tells dirty jokes,
And there's not a brain in her head.
Her lips know the taste of alcohol,
The same as you and I.
Oh, the girl of my dreams is not what she seems—

She's the sweetheart of any old guy.

Meredith Girl—"I weigh a hundred and twenty-five pounds, stripped."
Kemp Reece—"Dearest, you can't tell anything about those scales in the California fruit store."

A city and a chorus girl
Are much alike, 'tis true;
A city's built with outskirts,
A chorus girl is too. —Ex.

Shipwrecked sailors on raft (to comrade): "Mike, if one of us should not survive what shall I tell your folks?"—Ex.

Lyman Worthington (at cafe up street): "How's the chicken today?"
Waitress: "Fine; how are you?"

She: "Does he belong to the 400?"
He: "Yes, he's one of the ciphers."—Ex.

A freshman went to Hades once
A few more things to learn;
Old Satan sent him back again,
He was too green to burn. —Ex.

"Last night I made an awful mistake."
"That so; how come?"
"I drank two bottles of gold paint."
"How do you feel?"
"Guilty."—Ex.

Tom Moore wants to know if the author of "Crossing the Bar" was a pole vaulter.

THAT OLD JUG O' MINE

When the world's last still is raided
And the kegs are emptied and dried,
When the brightest nose has faded
And the youngest bootlegger has died,

We shall thirst; and, faith, we'll be thirsty
With a craving that knows but despair

Till we reach a land of wetness
And all our friends will be there.

We shall have real bars to drink from
And the old brass rail of yore
Shall rest our weary bodies

With the other foot on the floor,
And ne'er a cop shall chase us
Nor a Student Council suspend,
We'll drink not the villainous corn
likker
But Four Roses, Scotch and Gin.

Till then, my friends, be merciful
On my fast disappearing stock
That sat out on the table
Behind no bolt nor lock.
It's just one little jug full
I'm saving for Christmas cheer
So I can pull a party,
And all my friends be there.

We shall sip the purple nectar
That came from the grapes of Neuse
And strike the corn-cob stopper
And turn the spirits loose.
Exams shall go to the background,
The point system be damned to shame,
Books of Mechanics and Physics
Be consigned to devouring flame.

We'll discuss only pleasant subjects—
Girls and their ruby lips,
Home, Christmas, and Santa—

As the little brown jug we sip,
So till then, my friends, be patient,
Don't taste my private stock,
For it now sits in the closet
Behind a stout Yale lock.
TOM MCCREA.

One Freshman said, "I wouldn't mind being a dumb-bell if I could hang up in Meredith's gymnasium."

H. B. GUNTER,
Vice-Pres. & Agency Manager.

You Have An Old Man In Your Care

—He is with you all the time, though you have never seen him. But not so many years from now you will look into your mirror and meet him face to face. He is—you!

There is great satisfaction in looking after this old man—a sense of mental comfort in knowing that his declining years are provided for. And it is so easily done; sums laid aside at regular intervals to accumulate at interest will pay him an income when he needs it most—that is, when he can no longer earn for himself. If death intervenes before the date which he has set for this income to start, payments are made at once to his—to your dependents.

Provident Mutual old age endowment policies are bringing comfort to thousand of elderly people, and it is gratifying to see how popular this excellent form of Life Insurance is becoming. Consult your nearest Provident Agent concerning a plan of old age endowment insurance for you today. If you do not know his address write to the company itself.

The men who represent Provident Mutual are of the type that see in the day's work something more than monetary return. They are equipped to give good counsel and advice. You can depend upon them.

National Y. M. C. A. Council At Buffalo

Delegates Return and Report a Large Amount of Business Accomplished

On Monday W. D. Russell who, along with Mr. E. S. King, represented North Carolina students at the meeting of the National Council of the Y. M. C. A. held at Buffalo last week, returned to the campus and reported as having a great trip. Mr. King returned one day later, having stopped, as one would expect, to spend a day in Philadelphia. Mr. King says that while at the Quaker City he attended a Quaker church service and had the good luck to hear Helen Keller there.

Russell and Mr. King both report that their time was well filled while in Buffalo. The Council met early and adjourned late, finishing a tremendous amount of business in the short time of meeting. The National Council is the highest legislative body of the Y. M. C. A. and at this meeting was given more freedom than ever before.

There were six other North Carolina delegates present at the Buffalo meeting but the student "Y" of the whole state was represented by these two State College men.

POULTRY SCIENCE CLUB MEETS LAST TIME IN 1924

At the last regular meeting of the Poultry Science Club, held in Ricks Hall, December 4, 1924, the following officers were elected:

J. R. Browne, President.
J. B. Slack, Vice-President.
C. F. Parrish, Secretary-Treasurer.
W. M. Ginn, Reporter.

The meeting was largely attended by students interested in poultry.

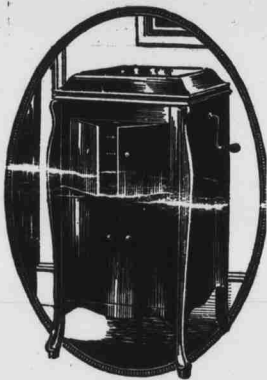

The program was as follows:

"The Profitableness of Artificial Lights on Egg Production," by J. R. Browne.

"Nearby vs. City Markets For Marketing Fall and Winter Eggs," by C. E. Glenn.

"Respiratory Diseases Common in Fall and Winter," by H. C. Kennett.

The program was thoroughly enjoyed by all the members present. The speakers gained the interest of the audience in the beginning by being masters of their subjects.

Get Our Terms on Victrolas

We have a plan by which hundreds who felt they "couldn't afford" the best Talking Machine made,—a Victrola, are now enjoying its unequalled variety of entertainment. This plan makes it so easy to own your Victrola, it almost seems you can't afford not to have one. Come in and choose the Victrola you want.

We will deliver it the
same day.

(All social and personal news turned in THE TECHNICIAN office will be appreciated by the editor.)

—Harold Weaver, Gordon Keith and P. D. May spent the week-end in Aberdeen with friends.

—E. M. Mitchell spent the week-end in Oxford with his parents.

—The German Club gave a dance at the Woman's Club Friday night.

—Sid Wilson has recently been pledged to the Phi Kappa Tau fraternity.

—Billy Abernathy, Fuller Gerald, Louis Ruffy, Hubert Rallins, of Carolina, visited on the campus Tuesday.

—H. T. Bynum spent the week-end in Pittsboro with parents and friends.

TOMPKINS TEXTILERS HOLD SMOKER-FEED

The Tompkins Textile Society held a feed and smoker last Tuesday evening, which was well attended and thoroughly enjoyed by all present. The society was favored by having

as their principal speakers Mr. Haddock, efficiency engineer of the Irvin chain of mills, Durham, N. C., and Mr. Irvin, one of the officials of the Irvin Cotton Mills Company.

Mr. Haddock spoke on his trip to Europe and the comparison between English mills and American mills. He brought out the fact that the American mills were somewhat advanced in having more automatic and modern machinery. Mr. Irvin spoke of the English mills and American mills. He brought out the fact that American mills needed to be more careful with their manufactures, especially in finishing. He stressed to the students the importance of being careful and particular with their work and what a great demand for State men there would be if we would only follow this principle.

The members of the faculty were called upon to give a talk, Professor Hoot featuring on his wide experience in the textile industry and what difficulties a college graduate would face when he left college.

Election of officers for the mid-term was held. Mr. P. E. Smith was elected President, Mr. I. C. Albright Vice-President, Mr. I. C. White Secretary and Treasurer, and R. H. Smith Reporter.

After all business had been transacted, the society was bountifully served with sandwiches, milk, ice cream, cake, cigars and cigarettes. After a jolly good time the society adjourned.

NOTICE TO CONTRIBUTORS

As far as possible, contributors to the Technician are urged to comply with the following requests of the managing board:

1. Type your copy.
2. Double space your typed copy.
3. Check your copy carefully before turning it in, and be sure that you are willing that it should be seen in print without further correction.
4. Sign your name to all copy so

that credit may be given where credit is due.

5. Have all copy in as soon after Tuesday noon as possible.

The above are merely several things which, if done, will simplify to a large degree the getting out of a better paper. The board asks co-operation in this trial of making the Technician the best college weekly in the state.

It's alright to pick a chicken, but leave the neck alone.—Ex.

FACTORY PLUMBING CAN CONTRIBUTE TO EFFICIENCY

Supplying dependable valves, fittings and steam specialties that exactly satisfy all piping requirements is only one of the ways Crane Co. serves American industry. Crane provides another important means of lowering manufacturing costs in its complete line of factory plumbing fixtures.

In many ways this sanitary equipment can be used to bring up efficiency. Toilet rooms and lavatories of ample capacity, placed close to the "population centers" of the departments they serve, save many wasted minutes. Enough drinking fountains, convenient to machines and benches, increase production by shortening the time taken

off by workmen in quenching their thirst. Because Crane plumbing materials stand up under ordinary, careless usage, they perpetuate these savings of time. Their upkeep cost is low, their life much longer than could be expected of fixtures made to sell on price alone.

When you plan plumbing installations, a Crane specialist at the nearest Crane Branch or Sales Office will be glad to help you select the correct type of fixture for each particular requirement. One hundred two Crane branches and offices bring this service within easy reach of every industrial plant in the United States and Canada.
