3 second-half scores carry State to victory

by Bryan Black Sports Editor

by Sryan Black Sports Editor Bo Rein wasn't about to panic at halitime of Saturday's game. "I felt like our players had the right look in their eyes at halftime to go back tout there and get the job done." Rein said after State's comeback 34:20 vic-tory over the Pirates. "That's a sign. I think, that we've got some good seniors on our football team." While East Carolina was in firm com-mand of the contest through most of the first half. leading 14-7 at one point, a number of things allowed the Pack to sizez control. Rein began to like the shape the game was taking when State's Woodrow Wilson returned a punt 61 yadrds for a touchdown late in the second quarter. "Woodrow Wilson's punt return was probably the game's biggest play for us," Rein said.

probably the game's biggest play for us," Rein said. Wilson went the distance without ever being touched by an ECU player. "We had a left return called." Wilson said," and when I caught the ball, I was trying to get to the wall over there. But as I was trying to do that. I saw a couple of their men, and I felt as if they knew what I was trying to do. "When I got to the corner and saw them, I also saw a little opening to the inside. When I saw that, I broke against the grain. After that, the only

thing I was thinking about was holding onto the ball."

thing I was thinking about was holding onto the ball." Wilson's touchdown made it 14.13. and that's how it stayed when Scott Smith had trouble on the placement for the extra point. He received a bad snap from center, which caused Nathan Rit ter's kick to stray to the right. The Pirates' Bill Lamm nailed a 29-yard field goal on the last play of the first half, 'giving ECU' its play for the farst half, 'giving ECU' its play from scrimmage in the second half gave an indication of the Bues' fate. Pitchout missed its target, halfback Anthony Collins, and Collins was not able to recover it until it stopped roll-amounted to a 21-yard loss. "That bad pitch just turned things around for us defensively," said State defensive Chues Amato.

"That bad pitch just turned things around for us defensively." said State defensive coordinator Chuck Amato. "After that, our kids just got cranked. "In the first half, we were making a lot of little mistakes on defense. "We had a little confusion out there. but I thought everything would straighten out, and it did. Really, the only adjustment we made in the second half was that we went out and hit somebody, which we didn't do in the first half."

outside linébacker James Butler, who was awarded a game ball for his play. Butter had a half a dozen takkes, in cluding a sack of Green that was good for an 18-yard loss.

cuding a sack of Green that was good for an 18-yard loss. However, Saturday's game was Butler's last this season; he underwent surgery for his left knee yesterday morning, the injury being incurred in the fourth quarter. "James Butler made a lot of great plays for us against East Carolina," said Bishop Harris, State's outside inebacker coach. "You don't replace somehody like James Butler. But the key to us being successful as a team is being able to face adversity, like this, when it comes, and overcoming it. "But we certainly hait to see James go: you just can't replace: somebody like him. We're going to miss him dear-ty."

IV." ECU head coach Pat Dye saw Butler as a significant force in the game. "Butler coming hard from the out-side disrupted our offense in the se-cond half." Dye said flatly. And as far as the Wolfpack was con-cerned, the Pirates' definitely needed a kink thrown into their of-fense. In the first half, Green rushed for 83 yards and fullback Theodore Sut ton got 80 on the ground. With Butler leading the charge. State did warp

Dorms not paid for storage space

by Beth Smith Staff Writer

The University has refused to pay rent on space taken up by the storage of surplus furniture from North Hall in the recreation rooms of Tucker and Owen dormitories, the *Technician* has beened

arned. In a meeting Thursday night with Il Panee, director of Resident acilities, the residents of Tucker and wen were told the furniture would be tored in their recreation rooms for at Eli

stored in their recreation rooms for at least three more weeks. "The items will be there (in the residence halls) at least another three weeks," Pance said. Pance said a complete and accurate inventory had to be taken of all the items, and then he had to get permis-sion to move the items to the state surplus center, located near Carter Stadium, where they can be sold. Money from the sale will go into the operating budget for North Hall.

When several items were stolen from the storage room in Tucker, Panpe said the entire process was slow of down because he then had to inven-tory the items again to assure ac-curacy. In order to speed up removal of the furniture, Panee said he was trying to get permission to sell the items where hey were instead of moving them before sale.

Why stored?

When several students asked why the items had been stored in the residence halls. Panee explained that he did not know what would come with the building until Aug. 2, the day the John Yancey officially became proper-ty of the state of North Carolina. All the furnishings except the television sets were given to the state by the former owners as a tax break. "All the storage space Tve got is

"All the storage space I've got is completely full," Panee said. "So we

had to use any available space. Storage space rents for \$2.50 per square foot per day, and we can't afford it," Panee

Jim Collins, Central Campus coor-dinator, told the students that when he arrived on campus this fall and discovered that the items were stored in the recreation rooms of Owen and Tucker, he discussed storing the fur-niture in other areas with Panee. "Tm convinced, there wasn't any other space available." Collins said. "Every possible option was con-sidered."

Beerg possible option was con-sidered." Besides limiting the space available for parties, the loss of the recreational rooms cuts down substantially the amount of revenue received from pin-ball machines, residents have reported. Concerning this loss, Panee said, "I cannot make complete restitution of the money you are losing. We're trying to identify another source las a means of restitution), but I won't discuss that source." When questioned about this

source, Panee explained that it was a source (role pinkall more that it was a source from pinkall money on campus. Pance suggested that the students go to the Inter-Residence Council for funds to support their loss of revenue. Collins told the students that they would more likely get money from the

Conins told the students that they would more likely get money from the IRC if they had a project or event plan-ned that they couldn't finance. —On behalf of the residents of Tucker and Owen, David Swain, president of the Owen House Council, asked Panee if it would be possible to move all the furnishings into the Tucker rec room, which is the largest, leaving the Owen rea room free. rec room free.

Share facilities

No adequate studies have been done to offer solutions to this problem, ac cording to Pipes. She said a long range feasibility study such as this takes a lot of time and information. She is the one directly endemodel to be been added to been added to be been added to be been added to be been add

"We could do this," said Pipes, "but the problems of getting out of the area at five would be tremendous."

University officials no longer consider Rex Hospital a viable choice as a d mitory. Since the purchase of the John Yancey Motor Hotel in August, Re swilability, distance from campus, and estimated renovation cost ha caused State officials to abandon any future plans for Rex.(Staff photo

Pipes examines parking deck recommendation

by Steve Watson Staff Writer

Staff Writer The feasibility of a paid parking facility for visitors, students and others is being studied by Molly Pipes, director of Transportation. The study was recommended by the Transportation Committee early this year as a "long range" solution to the parking situation on and near campus. Several problems exist in relation to this study according to Pipes.

Several problems exist in relation to this study, according to Pipes. "The cost is enormous for construc-tion of new parking facilities," said Pipes. "On the average, it costs about \$6,000 per parking space for a deck to be built. This would mean \$6 million for a 1,000 space lot." Parking facilities are self-supporting at State, with no state funds ap propriated, according to Pipes. But King Brose, chairman of the Transpor-tation Committee, reports that there is "plenty of money" available for park-ing use.

"Another problem," said Pipes, "is fullsborough Street where the parking is really needed." When saked about locating new operating a shutle bus system. Pipes agreed this was a possibility. "Yes, that's certainly possible. That solution would forego the cost of land, bus systems are very ex-pensive to operate." shows and the substitution of the solution would forego the cost of land, bus shutle bus systems are very ex-pensive to operate." shows and the substitution of the solution would forego the cost of land, bus system. Tarking deck off campus, with bus seregularly running from the deck to campus. "Mosing about \$160,000 on their transit system. Transit service at State could could be of students, paying for something they don't use." "The lot could be operated with meters, according to Brose. The uncert showever, concerns Pipes."

Plans to purchase Rex Hospital discarded

by Lise Thornbush Staff Writer

<text><text><text><text><text>

Watts Hospital in Durham. Worsely estimated that Rex could have housed about 700 students, com-pared with the 350 student capacity of North Hall. "Rex was attractive to us for another reason as well: 700 parking places," he said. the transfer in the early part of that year. Willis said there are no real poten-tial buyers at this time. "At this time, we've only had inquiries," he said. Among other possibilities, he sug gested the site might be partially or completely demolished, perhaps to be rebuilt with condominums or apart ments. "I would say there will be some concrete decision in the early part of 1980," Willis said. "We were delighted to work with **Envisioned** bus service

"We were delighted to work with them," Willis said about his earlier in-teraction with State.

a good winter." The hospital will begin the transfer in the early part of that

Renovation cost

Envisioned bus service "What we had envisioned was a bus, not only for the residents but for com-muters as well," Worsely said. He had hoped the city would add a bus line for students, had fex been bought, but he said State would have considered a shuttle bus to get students to classes. "We really never got that far anyway," Worsely said. "We ree looking at various alter-natives," Jack Willis, executive direc-tor of the board of trustees at Rex Hospital said about the building's future. Willis said the present pro-jected completion date for the new hospital is August of 1980, "if we have Two million dollars was estimated as the amount required to renovate Rex Hospital into housing for the Universi-ty, Worsely said. "We had an estimate on the cafeteria at half a million," he said, adding that he questioned whether the cafeteria would have been used by anyone other than the im

mediate residents. Worsely also pointed out that no hospital rooms have locks on the doors, an expense he said would run to several thousand for installation.

Prime property

"We became aware that the Yancey was on the market in late 1978, November, December," Worsely said calling the land a prime piece of proper-ter".

calling the save approximate ty." "We have to assess the situation." Worsely said, referring to the entire housing problem. He does not foresee a drop in enrollment, saying that the general growth of Raleigh is a con tributing factor. He does predict a shift toward more part-time and adult tudents.

If the private sector doesn't do something, we will have to," Worsley said, adding, "There are a lot of alter

natives." Commenting on the North Hall pur chase, Worsley said, "I think it was a ase. Worstey s od investment

Both dorms could then share the Owen facilities. The residents of Owen and Tucker would provide the man-power to move the items. "I'm agreeable, but both the Tucker and Owen house councils must be agreeable," Panee said.

Dorm rules strictly enforced

by Valerie Palus Staff Writer

Staff Writer Students can be evicted from their dorms if certain rules and regulations are not ficial said. "The rules are strictly en-forced," said Charles Oglesby, director of Residence Life, "although we don't police the halls. "However, continuous abuse of the dormitory rules by any student will result in that student's eviction from the residence hall," he said.

Cause for evictio

The following activities would be cause for eviction from the dorms: throwing objects off of dormitory balconies, unnecessary damage (vandalism) of the rooms or buildings or any ac-tions that could be harmful to other residents. Students have the right to appeal their convictions to the Campus Judicial Board, Oglesby said. Oglesby said there are no curfews set for dormitory residents, but there are restrictions on visiting hours.

Members of the opposite sex are allowed in the dorm rooms "as long as the hours don't exceed noon to 1:00 a.m. Sunday through Thurs-day and noon to 2:00 a.m. Friday and Saturday," he said

Friday and Saturgay, me said. "Students are permitted to have guests, members of the same sex, stay with them overnight, as long as their roommate agrees, and provided the stay does not exceed three days."

Parties are allowed in the dorm rooms if the noise is kept down and if there is no "unreasonable inconve-nience or annoyance to any of the other residents." Oglesby said. Residents of legal age are the only ones permitted to pressess or consume alcoholic

the only ones permitted to possess or consume alcoholic beverages in the rooms. There are certain actions that are prohibited in the rooms, such as removal of any of the furniture from the

rooms or using nails or tacks to hang pictures on the walls. The furniture may be rearranged in the rooms, however, and pictures may be hung with adhesives that are easily removed.

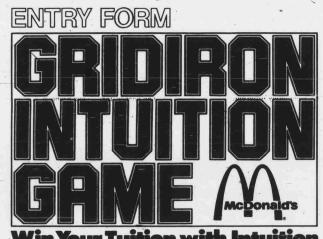

Cooking limited

Cooking in the rooms is limited. Popcorn poppers, coffee machines and small toaster ovens are the only

appliances permitted to be used in the dorms. Students are also allowed to have refrigerators in their rooms, but they may-be no larger than six cubic feet. "Any student who does damage to the room over and above normal wear and dabove normal wear and tear will be required to pay for the damage." said Oglesby. "Most of the students are law abiding." he said.

Features

Come all ye inquisitive and curious; seek Ali at library reference desk

by Steve Watso Features Write

Features Writer It keeps us dry during storms. It cools us when we're hot. It shelters us from noise. But its books are often elusive, and we search the stacks in vain. The place is D.H. Hill Library, and the'saving grace for many is the information and reference desk. People line up at the desk five or six deep at times. Questions are asked. "Where can I find the CRC handbook of chemistry?" 'How should I look up something on hydroelectric generators?" 'Do you have a phone book for Houston?" 'Do you have a list of all the radio stations in North Carolina?" Often the person they ask is Hyder Ali.

radio stations in North Carolina?" Often the person they ask is Hyder Ali. You've probably seen Ali at the reference desk and may have asked him for help. He's from India but speaks and understands English better than many of us. Ask him why he speaks the language so well, and be seems anusch

us. Ask him why he speaks the language so well, and he seems amused. "You know, people ask me all the time about that," All said smiling, "and I don't know what to tell them. What I don't understand is how so many foreigners can live in America for 20 or 30 years and yet speak English so poorly." All is from Hyderbad, India. He was 22 when he left for America. "Indians don't think about travel. I was very unususal. But I grew up in a city and had Australian teachers," Ali said. "It was a Protestant missionary. school. It was the only school in the town." But Ali grew up not as a Protestant but as a Moslem. Several of his friends were Hindus. They were "people who had all kinds of gods." "I think religion is a more important par@ of your life in India than it is in America. One thing that is fantastic about India is the tolerance for different religions the people have," he said. The case system doesn't prevail now, except in smaller villages, according to Ali's recollection. But there are seats reserved for some in engineering and medical schools, an example of the system's continu-ing presence.

ing presence. Surprisingly, the array of religions in India doesn't include Buddhism to any great extent although it started in India, Ali said.

arted in India, Ali said. He is strictly an American now, with no desire to ve again in India. He has made his choice, and he is appy. Although he looks like a foreigner. He feels ore at nome in this country than he would in some live ag

happy. Although he looks like a toregher, he teels more at home in this country than he would in some parts of India. "You go from one part of India to another, and you are a stranger. If I travel in India. I find I cannot com-municate with the people. The religion, food and clothing are completely different."

Left india Ali left India and went to the University of Delaware. He'd thought of going to Minnesota, but it didn't take long for him to decide it was too cold there. He has a Master's degree in Entomology and Applied Ecology. How did he end up in the library? "I used to work in the library as a student and just got really fascinated with the Science Citation Index and Biological Abstracts." Eventually he got a degree in library and informa-tion sciences at the Prati Institute in Brooklyn. He worked for the New York City Public Library then moved to his eurnen position at D.H. He enjoys his job here. He likes to meet people. Basically his job consists of doing computer "Then once this woman came to me because she had black spots on her sandwich and wanted me to tell her if it was safe to eat it. "You have to learn to not always react with 'oh, how crazy." All loves it in America, land of the diverse, unusual and crazy. Although he's lived in this country for only ten years, he feels as though he's spent half of his life here. He plans to stay. Students and faculty at State should be pleased. The man knows his business.

Tacuity and students with answers to some rather unusu-to me. In India it is always 'our problem.' You and your relations stick together in a crisis." There is so much to see and do in America that it is difficult to imagine the day to day lives of people who don't have the environmental stimulations we do. This condition has an effect on communications bet-ween people in India. Ali said. People will quickly run out of daily trivial conversation and communicate to a much greater extent about their feelings and thoughts.

Soccer team takes Mayor's Cup

Sports

Sports Writer GREENVILLE - The Wolfpack soccer team open-ed its season in fine style this weekend by recording back-to-back wins over North Carolina and Duke on its way to the championship of the Mayor's Cup Tour-nament at East Carolina. The Pack blanked arch-rival Carolina 1-0 in over-time Saturday and downed Duke 4-2 in the champion-ship game Sunday. Tom Fink, who scored three of State's five goals, was named the tournament's most valuable naver.

valuable player.

valuable player. Saturday's contest with the Tar Heels was a tough physical game with tight defensive marking. Control of the game changed hands several times and there were several near miss scoring opportunities by both teams. At the end of regulation time the game was scoreless. Fink scored the game's lone goal 1:43 into the first overtime period on an assist from Steve Green.

Green. "This was a very emotional game for us," State coach Larry Gross said of his team's first contest of the year. "This was the toughest opening game I've had in my six years in ACC soccer. We came on strong at the end of the game which is an excellent comment on our conditioning. Over the past couple of

years, Carolina has usually won the close games. It's nice to get a close win over a team with that kind of reputation." The tournament final against Duke was a much more offensively controlled game. State drew first blood with 11:37 gone in the first half on a goal by Fink assisted by Bobby Cochrane. Three minutes later Fink scored again, on a set indirect kick assisted

later Fink scored again, on a set indirect kick assisted by Joey Elsmore. But Duke came on strong at the end of the first half, scoring two goals to tie the game at half lime; The game remained even through the first 25 minutes of the second half. But with 29 minutes gone, Steve Green scored the goahead goal, assisted by Gordon Battle.

Gordon Battle. Hiram King, assisted by Fink, provided the final winning goal with three minutes remaining in the

"Duke had an easier game that we did on Saturday and they were able to rest many of their key players. Once again, that says a lot for our conditioning and stamina."

Gross was understandably pleased about his eam's performance this weekend. But he refuses to verly optimistic

Duke and Carolina are both exceptionally strong "Duke and Carolina are both exceptionally strong and physical teams. For any team to come away with back to back wins over these teams is a notable ac-complishment. Everyone played well. It's tough to single out individuals. "We showed good depth as our subs played well. But we still have many improvements to make. We meed to communicate more and have more fluidity of play. But overall, I'm very pleased."

Along with Fink, co-captains Danny Allen and Jim Mills made the all-tournament team. Goalie Mills had several key saves among the 18 he tallied during the

The Wolfpack travels to Campbell Wednesday to face the Camels in their season opener. The Pack squeaked by Campbell 3-2 last season after spotting them a two goal lead. Gross expects the same kind of close game this year.

"Campbell is a small school with an excellent Divi-sion I soccer program. They always get sky-high when playing the bigger schools. Since this is their first game and on their home field, they will be a very psyched team." Wednesday's game will start at 7:30 p.m. on the Campbell soccer field.

"Business is my field," she said. "I think it's wide open

olleyball in her future

"I'd like to move out west "Id like to move out west to California or Colorado. Here, my work has been done. The popularity for volleyball is out there. I want to be the best player I can be."

Whoever coined the popular slogan "You've come a long way, baby" for the familiar Virginia Slims

come a long way, baby" for the familiar Virginia Slims ad campaign must have had women like State volleyball team's Christine Chambers in mind. Described by head coach Pat Hielscher as "probably our most inimidating hit-ter." Chambers came a long way in improving her already dangerous hitting skills over the summer. She will be looking to show them off when the team opens its season Wednesday at 7:30 p.m. against Guilford and St. Augustine's in Carmichael Gym.

Augustines in car Gym. "My greatest asset is my hitting," Chambers said."1 think Tve improved a lot over the summer. I played anywhere and everywhere I could to become more con-sistent. could to become more con-sistent. "I played beach ball, main-y at Virginia Beach. It's right out there between the dunes and the ocean. There would be about 35 nets on the beach, and we played in two-man teams. Some teams were from all over-from Canada to south Florida." It seems as if Chambers couldn't get enough volleyball this summer, as she and partner Jackie Twisbale, "who I owe an, participated in four such beach tournaments and on grass courts.

A December trip to the West Coast, a dozen regular-season games against teams against defending national champion Old Dominion highlight the 1979-80 State women's basketball schedule announced by Coordinator of Women's Athletics Nora Lynn Finch. "This is the toughest schedule we've ever had." Finch said. The majority of our non-conference op-ponents are nationally recognized. We schedule them for the benefit of our fans, and, hopefully, to prepare us for post-season play." The schedule: Nov. 23 – North Carolina A&T at Elon College: 24 – Pfeiffer at Elon College: 29 – Duke. Dec. 1– PENN STATE: 4 – UNC CHAPEL HILL: 6 – OLD DOMINION at Rabeigh Civic Center: 8– at Appalachian State: 18:20–GIUSTI Tournament of Champions at Portland, Oregon. Jan. 2–at. Tennessee pusy. State's game with, Old Dominion is expected to be a sellout. The game will be played in the Raleigh Civic Center, which has a seating capacity of 5,500. Other contents

an extremely demanding test in our pre-Christmas play," Finch said. State also stands a good chance of playing Texas (No. 4) or UCLA (No. 6) in the GIUSTI Tournament of Champions Dec. 18-20 in Portland, Oregon.

vousion innebacker James Butter received a game bell for his performance Saturday night, but it will be his last game of the season as he underwent knee surgery resterday morning. (Staff photo by Steve Wilson)

capacity of 5,500. Other contests against op-ponents ranked in the final coaches' poll last season in-clude Tennessee (No. 3), Maryland (No. 8), Penn State (No. 13) and South Coaching (No. 15) and South State (No. 13) and South Carolina (No. 15). "Playing Penn State, North Carolina, Old Domi-nion and Appalachian State all in the same week will be East Carolina. Feb. 1-at Virginia; 7-9-ACC Tournament at College Park, Md.; 14-EAST CAROLINA; 16-at Clemson: 21:23-NCAIAW State Tournament at Raleigh Civic Center; 26-at South Carolina.

Carolina. March 5-8-AIAW Region II Tournament; 12,15-AIAW First Round Nationals; 19-AIAW Nationals: 19-AIAW Quarterfinals: 21-23-AUAW Finals at Central Michigan. As a "basketball reject, turned volleyball star," Chambers evaluated some of the changes she has seen in her sport.

With a new coach, we got a year-round volleyball pro-gram and year-round players. "After our season this year, there'll be the USVBA season, but 1 don't know if T11 be in that because I11 be graduating then. "The growing here is fan-tastic," she continued. "But there is a time lag of about 10 years, from now. Tm 21 now, and I don't want to be 31 before I can play the best now, and I don't want to be 31 before I can play the best

two people and the ball - not six people," she added. "You feel like you can't let your partner down. This gave me incentive."

31 before I can play the best players. "In North Carolina I've played about everybody there is to play, and I've won 10 out of 12 times. I, had a really good partner. But-now I'm ready to go where I can get beat and learn something."

Chambers no doubt learn-ed something from the one-point loss in the regional tournament last year-"We just got tired and pooped out," she said. She listed get-ting into the Nationals as a team goal for this year.

ting into the Nationals as a dam goal for this year. "To get to the Nationals we had to come in first or second, and we only missed by one point. So this year it's we'll need a genit think we'll need a genit the set of t

beach tournaments and on grass courts. "Coach Hielscher was great about it, she made a few allowances so I could make it to the champion-ships," she said. "I played in doubles tour-naments and triples tour-naments. In Raleigh doubles I have never lost to anybody." Besides some new hitting skills, Chambers learned more about the competitive more about the competitive nature of other volleyball nature of other volleyball players. "It increased my desire to play volleyball," she said. "I was a basketball reject. I learned to develop the hard-core guts, the intensity that a lot of the girls had. "This summer when I played doubles, it was just

Imbers takes some time of Volleyball star Christine Cha for studying. (Staff photo by "The coach does a lot of omoting, but even now the We didn't have the facilities for volleyball in Carmichael. promoting, but even now the average person does not know about college volleyball," she added. Coach Hielscher has made some gigantic steps. I was at a clinic all day yesterday Saturday) showing techni-que and the basic skills and binse like the right equip-

Chambers said. "For a year and a half, many of the volleyball players played basketball.

We didn't have the facilities for volleyball in Carmichael. And there were no par-ticipants, because, well there was no motivation for anybody to play. "The first, time I played we had guality athletes." Chambers continued. "But they were like jack-of-all-trade athletes. They might get a volleyball move mixed particles and the start of the softball move, you know?" as aoftball move, you know?" as a for the last three years. Before we had players on everything – the chess team, the tiddly-winks team, everything. "We've learned desire, and half of volleyball thought dive? Are you crazy? You expect me to throw my body down on the floor? Throw my body down for a ball? "Now we have the good volleyball players; we had good athletes before. But they may have

game, getting 87 yards on 17 attempts. "East Carolina was play-ing the pitch on our option," Smith said. "They know we

have some great backs, and with that situation, we have to have a quarterback that can run, so I got to run the ball a inite rut After Johnson's moment of glory. ECU turned the ball over two plays later. State tight safety Mike Nall intercepted a Green pass and was tackled on the Pirates '29.

Five plays later, the man who was the answer to the big question about the Wolfpack in the pre-season, scored to give State all the points it would need to win this one.

this one. That big question was "Who's playing in Ted Brown's spot?" and Dwight Sullivan provided the answer and more. Not only did Sullivan score-the game-winning touchdown on a bruising 12-yard run, he also added the insurance points with an 11-yard ruckle-breaking TD dash late in the fourth quarter.

fourth quarter. But he did more than simply acore twice. Sullivan finished with 131 yards on 15 carries. On just his fifth earry out of Brown's former position, the junior from Durham broke loose for 34 yards. Atter the first quarter. Sullivan had a massed 83 yards on six car-ries.

ries. "It feels good," the muscular Sullivan said in relating his feelings about Mis first start and playing so well. "I was just shooting to do the job. From here on out, TII just go about it the same way I did tonight and try to get the job done."

"That young fellow has a

lot of great ability." Rein said in assessing his new star. "He's maybe not as shifty in the open field as Ted Brown, but when he gets up a head of steam, he can run over some people. "He needed a game like that to get started. I think in Dwight and Billy Ray Vickers we've got two pret-ty good running backs there." While State was in control during the second half. East Carolina had a chance to tie in the fourth quarter: Lamm had just been good on a 31 vard field goal to pull the Pirates within seven at 27.20

31-yard field goal to pull the Pirates within seven at 27-20. On State's third play from scrimmage following the en-suing kickoff, Smith fumbled and ECU's Charlie Carter recovered on State's 29. But the State defense showed it had clogged up all the holes that were evident in the Pirates back to the 40 m three plays.

three plays. "Two things are obvious in a football game." Dye

det vol

said. "If you are in a close game, you can't give up a big play in the kicking game, which we did. Secondly, you can't beat a good football team without playing good defense, which we didn't do.

"I really believe that this is the best football team N.C. State has ever had. It is a very, very strong football team."

Rein had praise for East Carolina as well. "We won by 14 points, but they definitely were good enough to beat us." he said. "Their offense in the first

Is there life after M*A*S*H?

Entertainment

by Dianne Gullion Entertainment Editor

Nine o'clock, Monday nights, much of campus comes to a halt. People settle down in front of their televisions to watch one of their favorite showa-"M*A*S*H."

televisions to watch one of their favorite shows.-" $M^*A^*S^*H$." A favorite with all age groups, " $M^*A^*S^*H$ " is full of classic one-liner putdowns, and more than a few touching scenes, as the doctors and nurses of the 4077 $M^*A^*S^*H$ (Mobile Army Surgical Hospital) struggle to retain a degree of sanity against the harsh background of the Korean War. The show has continued to be a hit for several years, so much so that the big brass at CBS have decided to cash in on its success. " $M^*A^*S^*H$." for the sake of the story line, seems destined to remain in Korea in the early fifties, caught up in a never-ending war. The fans, of which " $M^*A^*S^*H$ " has plenty, seem to like it this way, as the writers for " $M^*A^*S^*H$, in-cluding Alan Alda who stars in the show, do not seem to have run out of material to draw in the crowds. Still, CBS is determined to try an imitation of

"M*A*S*H," a quasi-spinoff with more parallels than takeoffs, called "Trapper John, M.D." Although the stories do parallel somewhat, about the only real thing "Trapper John, M.D." has in com-mon with "M*A*S*H" is the partial use of one character's background. According to the new story, Trapper John, Hawkeye's cohort on "M*A*S*H" has survived the Korean War (and the following 26 years) and is now chief surgeon at a present-day San Fran-cisco hospital – supposedly a much more mature per-son than the prankster he was before. The story line continues with the introduction of young Dr. "Gonzo" Gates onto the scene. A Vietnam veteran, Gonzo is supposed to be a "happy golucky drifter but brilliant young physician who approaches life and his work the same way Trapper John did a quarter of a century before." Gonzo joins the hospital staff by simply walking into the hospital during an emergency to apply for a job. Adt to that Nurse Gloria "Ripples" Brancusi another Hotlips?), who'd rather be a nurse than a sex symbol, and Dr. Stanley Riverside, II, who runs close-ly to "M*A*S*H"s' Dr. Charles Winthrop, III."

A Free Woman

This German film con-nues the semester's strong

Foreign Film Series. It has earned the reputation of be-ing one of the best women's films made. A comedy with a touch of melancholy, it is the tale of a recently divorced, hence "free" woman.

Joining the cast is Starch. Trapper John's former scrub nurse from the war; Trapper's ex wife, Melanic (although in 'M*A*S*H.' he wrote faithfully to Peg back home: and Dr. Jackpot Jackson, the "street smart" intern who sounds like a cross between Hawkeye Pierce and the impish Korean children of "M*A*S*H." CBS == "."

September 10, 1979

"M*A*S*H." CBS calls Trapper John, M.D. a "drama with com-edy overtones," pointing out that the production team for the series is Frank Glicksman and Don Brinkley, who led the show "Medical Center" through seven successul years. Reviewers, however, say that it is merely the best of a bad lot of situation comedies lined up for TV this fall. Indeed, without meaning to be idolizing, can anything replace, or in this case, even match, "M*A*S*H?" "Trapper John, M.D." will be an hour-long show,

"M*4*S+R?" "Trapper John, M.D." will be an hour-long show, airing Sundays at 10:00 p.m. Purnell Robert, of "Bonanza" fame, plays the title role, and Gregory Harrison, most recently from the series "Logan's Run" and the mini-series "Centennial," is Dr. Gonzo Gates

**** So if you didn't go to Beverly Sills' only North Carolina concert ever last year, in Reynoldal, and you missed the Mike Cross con-cert where he played seven encores, and you blew your chance to be on Arlo Guthre's "One Night" live album recorded at Stewart. Don't worry: you'll have another one of those once in-alifetime chances on Thurs-day of this week when the rarest of the rare films, the 1924 Peter Pan, plays in Stewart Theatre. Details Wednesday's Technician.

touch of drama in a silcore or a drama with a touch of medy? Gragory Harrison (left) and Pernell Roberts and star in the new TV series, "Trapper John, M.D." Movies, movies, movies by Eric Larsen tertainment Writer

Okay movie buffs, grab the Visine. Get some No-Doz. If you're really a fanatic, you'd better drop a Doz. If you're really a fanatic, you'd better drop a few courses. The next 10 days will see 11 films screen-ed at State: one on each of the next 10 evenings, with two on Friday. Why, if you're lucky, your history professor may even show a movie in class. board, and when one piece would take another piece, he would physically destroy it. Well, the same man who created that effect. Ray Har-ryhausen, created the creatures, in this, the first Sinbad movie. The people facing these creations include a Beautiful Disease. Abunch two he an

As the semister wears on, everything seems to get lost under the avalance of test, labs and reports. We at the Agromech have taken this into consideration, and have decided to sell the yearbook, early, while everyons still has a little time to think. Our staff will be taking orders for the 1980 Agromeck during the first twenty days of September-that's all.

"The cover is the first one of its type produced by any yearbook publisher who is a member of the Pris

Why the real? We feel that one month is ample time to think about making a \$ 5.00 in-vestment. After all, how long does it take to decide about buying a new album or a couple of aix packs? In presenting you with the opportunity to huy a book at the beginning of the semester, we're not only working to your advantage, but to our own as well. You'll be able to get your book carly, and not have to worry about when it will be sold again. In addition, we will be able to begin working more intensely on the book itself, to make it the best it can be.

When we compared our plans for this year's annual to the work of preceeding staffs, we noticed that many of the earlier books were a bit anall for a university of our size and reputation. We decided to increase the number of pages-from 256 to 400-to make our yearbook the largest book since 1968. We also noticed that many campus organizations had been left since 1963. We also noticed th campus organizations had been out in the past, so we are com sating by adding a special org tions section. And, because we dding a spec n. And, beca is are just as

erics, which contains all of the major yearbook publishers in the United States

dorm and Greek section will also be included. To top things off, we are making a special cover for the book with the ansistance of the School of Textlies. It will feature our school emblem woven into the cloth and wi be the first cover of ifs type in the United States.* d will

As a college student, your time is precious. Be sure you remember that time with a yearbook. Ten years from now you'll be glad you did.

We begin with a statement, and encourage moone not liking it to go soak his, her or its mead: druken incorrigibles are becoming as head: druken incorrigibles are becoming as here because a statement of the statement becomboard, as the situation has evolved from the points of bad to worse to totally absurd. Newadays no realistic individual can attend a State football game and expect to escape without a booze-soaked shirt: a sizable collec-tion of bruises sustained from being kicked, drumped and pummeled by hare-brained here bad aim of the same drunks whose feeble inde suddenly decide it would be great thus to filts a bottle, cup or program on the field. If the postint oneself in the middle of the field where to plant oneself in the middle of the field han in the stands. The players are, in many ways, less exposed to injury than the pinolokers; the former have helmets and pads

to absorb the blows they receive while the lat-ter have nothing to shield themselves from the

itsales. This editorial is neither a condemnation of cohol nor opposition to a good time. It every questions the judgement of all too any fans—students and non-students like—who apparently have forgotten the wer-used but nevertheless accurate truism: tere's a time and place for everything.

Night football games begin at 7 p.m. and

We can only shake our heads and wonder, how President Carter, who supposedly wishes to develop an image of increased toughness, could take such a chicken-hearted stand on the issue of Soviet troops based in Cuba. While the Senate is in a turmoil over the newly discovered troop presence to the point of imperiling SALT II ratification, Carter has done little more than issue a mild repriman to the Russians and ask the American people to 'remain calm' while the confict is dealt with. While the situation hardly warrants a halt in diplomatic relations or a declaration of war, it is a serious matter leaving no room for compromise.

compromise. Synd and even Sen. Jesse Helms of North Jarolina have said that SALT II should stand rall on its own merits, not "extraneous mat-ers." But Helms, in a McKimmon Center mess conference Saturday, also said what nany Americans are thinking: "Of course, his isn't exactly an extraneous matter. This isoses to the heart of whether you can trust the isoviets....And if we can't even monitor 2,000

usually are over by 10. That leaves ample time to get in one's car and drive to Hillsborough Street, the dorm, the apartment or wherever one wishes to drink his fill. There is absolutely no reason why people should become drunk during the games. It results in nothing more than disruptive behavior and ill feelings, and could easily cause serious injury or something worse. Those indulging in such idiotic revelry are fond of charging those miffed by their actions with "trying to tell me how to live my life." They somehow forget that whenever they spill beer on, stumble over, or hit with a bottle a person who is there to do what all are suppos-ed, to do – watch the game – they are forcing their way of life on others in a most disgusting and unfair manner.

Unfortunately, there is very infle that can be done to improve the situation because good old American ingenuity has helped spectators devise incredibly clever methods of smuggling alcohol into the stadium, while the security cops can throw out only a fraction of what

goes in. The sole way this sad state of affairs will ever change is through an attitude improve-ment on the part of those who attend the games. It probably won't come any time soon, but we hope it does before the derogatory description of State as "cow college" is indeed rendered obsolete. "pig college" having become more appropriate. goe. The

pup tents 90 miles off our shore, how are we going to monitor nuclear devices 9,000 miles

away?" In other words, Helms and company justifiably see the fact that Russian troops were shipped into Cuba nght under our noses and probably have been there for several years as ample evidence of our inability to know how well they are keeping to the SALT terms. Since insuring USSR compliance is one of the treaty

major points of contention in the treaty debate, how can it be said that the two issues are unrelated?

The only acceptable ending of the troops

The only acceptable ending of the troops-in-Cuba controversy is their removal, with no-strings attached. Sooner or later Carter is go-ing to have to tell Brezhnev and his stooges to get those soldiers out. So he has nothing to gain by mealy-mouthing. Those Soviets have no business in Cuba, and if Carter wishes to show everyone how tough he is he should prove it by demanding their immediate removal in as strong a language and with as severe reprisals for non-compliance as may be necessary.

U.S. should utilize its financial superiority

Over the course of the SALT debate, the newly proposed treaty has been criticized by its adherents as being "flawed" and attacked by its opponents as being a disaster. So why, one might ask, are we getting ready to apone might

The second second second second second second second second sectors and second sectors and that it use rning our defense ets. We see also ress. So

we do

we do not have the will to stand behind what would be right or reasonable in an agreement. Our unwillingness to fight the tough fight for an equal defense posture or a reasonable arms reduction has assured us of a bad treaty. This treaty is merely a continuation of the weakening of U.S. posture around the world, and is yet another signal that we can be push-ed. Is it any wonder that we continue to play the role of the one-legged man in the ass-kicking contest?

It doesn't have to be this way. We can have a meaningful movement towards disarma-ment of our deadly nuclear arisenals, but only if we can have the will to fight for what we believe in

We must, however, be willing to fight about the ground rules for a debate. We must come up with positions which are not no-win in nature, as our defeatist State Department has

nature, as our defeatist State Department makes been doing. Instead of giving the USSR the choice bet-ween a great advantage and an immense ad-vantage, we can give it the choice between liv-ing sensibly and dying. We can let it choose between peaceful co-existence and an economic collapse from competition. We re great at competing in America. Our whole economic system is a product of a work ethic and a belief that competition is healthy. Why not use this idea to its potential with why not soviets? Why not get them into playing our name. no holds barred, rather than trying to game, no holds barred, rather than trying to beat them at the bargaining table, where each side has an equal quantity of words and rhetoric?

rhetoric? The idea behind strategic arms limitation is that we want to avoid a runaway competition in arms buildup—one which could ultimately lead to destruction. So instead of an uncontrolled arms race, we have allowed ourselves to develop only as

Lasitter

fast as the Soviets could We have created a game, where they can win. Why do this? Why not utilize an advantage? Why not take this idea of capacity to produce and use it against the Soviets at the bargaining

table? The Soviet GNP is roughly one-third that of the United States. This means that for them to keep up, they must spend a much bigger chunk of their GNP to equal a smaller percen-tage GNP expenditure on the part of the United States. This is exactly what is happen-ine today.

mediately become clear that they could never keep up. The country would collapse, because it simply could not tolerate the con-sumer cuts necessary to keep up with a pro-ductive and determined United States. This proposal will likely bring shrieks from biberals, but it is the least expensive and most humane one in fact. If we allow the present controlled expansion of nukes, we know for certain that there will be many more programs like the current \$35 billion MX system which we will have to buy. And these systems are totally worthless in a peacetall word. The prospect of a wide open competition with the United States is the only thing suffi-ciently distateful to the Soviets to get them to consider the other alternative, our alternative, of real disarmament talks. We have created, by our unwillingness to fight for long range peace, the only feasible winning situation for the Soviets. The key problem to this solution is the pro-blem of or will. Are we willing to give them his type of proposal, with the determination to follow through? If not, the Soviets would augh us out of the room: if so, then we could is used of the ridiculously sepensive

insure ourself of peace through strength of will and we could avoid the ridiculously expensive es at the bargaining table we now face.

There is a temptation here on the part of some to accept this flawed treaty because they see it as a basis for "future" negotiations towards arms reductions. This "We'll do it later" attitude towards disarmament is nonsense. When it comes to arms control, the future is now. We might not have another chance

imported Oriental art objects they themselve had purchased. All proceeds were donated to the "boat people" through the Diocese of Raleigh

Raleigh. The plight of the Oriental refugees is well known, and many Americans have donated money to or helped resettle one or more of the families. People in our area who wish to help them don't have to search very hard; in August alone from 80 to 100 refugees were resettled in different parts of eastern North Carolina. Thousands more are in desperate need of aid we can provide without straining our own financial resources. An oft-uttered statement regarding the boat people we now repeat: at one time or

sources and the same consideration would like to receive ourselves in a similar situation. But for a simple whim of fate we could be in their shoes, and they in ours.

WASHINGTON-Like generations of young people before them, this year's crop of students may soon find themselves standing in their shorts in front of an Army review panel-if legislation proposed this summer asses Congress. But that doesn't look likely; not yet,

But that doesn't look likely: not yet, anyway. Proposals for the reestablishment of com-pulsory registration, the first step of the draft, have been introduced in both houses. But an unlikely coalition of conservatives and liberals appear to have marshalled enough votes to kill the bill until at least next year. The Senate has decided to hold off on its bill until it sees what the House does, and the House is plan-ning its vote for the second week in September—just as students across the coun-try return to the campuses.

Even if the measure is passed, that doesn't mean Uncle Sam will start pulling students out of school again for compulsory service. But the bill, which affects males who will begin tur-ning eighteen after Dec. 31. 1980, could mandate full-scale (titness classification, and mental and physical examinations, or everything up to the brink of actual induction. The proposal could even mean the reactiva-tion of the now-dormant Selective Service Act, without any review of the same class and race discrimination loopholes that led to its demise in 1975. tion of the Act, withou race discrin demise in 1 in 1975.

n apparent mandate from their

constituents—three out of four Americans favor registration of all young men-most Congressmen are reluctant to vote for registration. For one thing, the Carter Ad-ministration and the Selective Service itself are solidly against the bill. There's also the matter of self-preservation: as Rep. Ron Paul, R-Texas, warms his colleagues, "Pollicitans in-terested in staying in office should beware. No one will work and vote on behalf of a can-didate because that candidate is for the draft. Plenty would work and vote against him for that reason."

that reason." These political considerations are buttress-ed by several studies, including one by the Defense Department itself, which question the need for registration. The Congressional Budget Office, for instance, has found that current computer technology could easily meet the DDD's emergency mobilization timetable, and that inductions would begin only 13 days sooner with peacetime registra-tion.

Not surprisingly. Congress has decided to sidestep the issue, and it's found a perfect vechicle in Rep. Pat Schroeder's proposal to "study" the draft for six months. As an aide to Schroeder remarks. "Everybody is saying. 1

really don't want registration. but I don't to go back to my constituents and say I voted against the draft. This gives them a way out." Led by Rep. Thomas Harkin, D-lowa, the Schroeder coalition threatens to introduce over 200 amendments if their study proposal is defeated. The amendments have little chance of being passed. One imposes the draft on every Congressman who votes for registration, another requires half the U.S. armed forces to complete transcendental armed forces to complete transcendenta

registration, another requires hall the U.S. armed forces to complete transcendental meditation courses, and a third provides for wind-powered torpedoes and.coal-drive sub-marines. But the mere threat of having to spend the required 1.000 minutes debating these amendments is enough to swing votes. "We'll filibuster that thing from now until Christmas." challenges Harkin. Even if Schroeder's stabl is successful, an extremely close vote is predicted, the draft will hardly become a dead issue. Congress is only testing the waters of public reaction, and if it doesn't receive enough opposition, com pulsory registration or even the draft itself could come back as an issue next January To prevent this, says Schroeder. "Students will have to mobilize immediately, phone in, write their Representatives, send letters to editor-do everything they can
