HUNDREDS ATTEND SHORT COURSE IN FERTILIZERS HERE

Y. M. C. A. Scene of Great Activity as Soil Fertility Men Gather

Two hundred and fifty men, coming from all parts of North Carolina, attended the short courses in Fertilizers and Soil Fertility, given at State College on Wednesday, December 9th.

The short course was given for the benefit of all fertilizer dealers, salesmen, brokers, and general crop farmers of this territory. The course was given to acquaint those who attended with the latest experimental results that have been obtained by the North Carolina Experiment Station through scientific research that has been carried on for the last several years, on Soil Fertility.

The course, though short, was very intense. It began at 9:45 and lasted through 5:00 o'clock in the afternoon.

The schedule followed was:
9:45 A.M.
Address of Welcome, by Dr. E. C. Brooks, President of the College.

10:00 A.M.
Address, by W. A. Graham, North Carolina Commissioner of Agriculture.

10:30 A.M.
"Wise Use of Fertilizers on Cotton: Their Effects on Yield and Maturity for Different Soils in North Carolina," by C. B. Williams, North Carolina Experiment Station.
General discussion.

11:00 A.M.
"What Fertilizer Results Have Shown With Reference to the Fertilizer Needs of Irish and Sweet Potatoes in North Carolina," by J. J. Skinner, office of Soil Fertility Investigation, United States Department of Agriculture.
General discussion.

11:30 A.M.
"Kinds and Amounts of Fertilizers for Best Results With Tobacco in the (Continued on page 5.)"

MUSICAL ORGANIZATIONS ORGANIZE OWN FRATERNITY

C. M. Stone Elected President of Eleven Charter Members Mu Beta Psi

For several years there has been a feeling among the band men and a few others here that there should be a musical club at State College. Acting on this impulse, the Senior members of the Band got together recently and organized a club which shall be exclusively a musical organization. Eleven men were present at the meeting, who took quite a bit of interest in the discussions which led up to organizing a fraternity.

The purpose of the fraternity shall be primarily to discuss the minor theories of music that come up in the practice of the musical organizations on the campus; to give the members instruction in the direction of bands, glee clubs, etc.; and to create a greater interest in music. For several years there has been a demand for members of the Band who graduate from this institution to teach in high schools and direct bands. Heretofore the men who have left here to do such work have felt the need of more training along this line. It is the purpose of this organization to give this desired need.

After having decided on the formation of the fraternity, the members decided to call it Mu Beta Psi (Music, the Soul of Life), and elected C. M. Stone, president; E. G. Moore, vice-president, and F. L. Tarleton, secretary and reporter.

Only Seniors who take active part in musical work are eligible to membership.

NOTICE!

All articles for publication in next week's Technician must be in the office by 9:00 P.M. Tuesday, December 16, except in the case of late news items.

Managing Editor.

STUDENTS VOTE IN FAVOR U. S. ENTER WORLD COURT

Eighty-five Per Cent of Votes Cast Favor Immediate Participation

State College, following the example of colleges throughout the country, has voted in favor of the United States entering the World Court. The poll was held in the Y. M. C. A. Monday afternoon between the hours of 1:30 and 7:00. Three hundred and eighty-one students voted—three hundred and twenty-three for and fifty-eight against our active and immediate participation.

The World Court Problem has occupied the center of the stage at State College during the last six weeks, and many students have shown a great deal of interest in the subject. To these students is due the credit of successfully carrying on the campaign that led to the favorable poll Monday.

During the month of October a Student Conference was held at Atlanta, one day of which was devoted exclusively to the discussion of the World Court problem. H. E. Springer, of this College, was the North Carolina representative at that conference.

Soon after his return, during the week-end of November 7, a State World Court Conference was held at Duke University. Several State College students attended this conference. Since that time several speakers have addressed the student body as a whole or by groups, and an open forum discussion of the court has been held in the Y. M. C. A. each Wednesday night. While many of the students have remained indifferent, many others have seriously studied the world political and economic situation.

The poll held Monday writes the (Continued on page 8.)

MUSICAL CONCERT GREATLY ENJOYED

First of Series of Programs to be Given During the Year

Pullen Hall was filled to capacity Sunday, November 6, to hear the first concert of the year by "Daddy" Price's musical organizations, the band, orchestra, glee club, and quartet.

The band made a distinct hit when it opened up with the State College Alma Mater, which was composed last year, words and music, by A. M. Fountain and Bonnie F. Norris, respectively, of the class of '23. This was the first time many of our friends had heard this beautiful selection.

The glee club appeared on the program twice, singing two selections each time. The first two, "The Gypsy Trail" and the hymn "In the Splendors of Thy Glory, Lord," were rendered very beautifully.

Probably the greatest hit of the entire concert was made by the quartet in singing the two negro plantation songs, "Little Cotton Dolly" and "Open Up the Gates of Glory." The audience clamored for an encore until the boys had to come back so the regular program could be continued.

For sheer beauty of music and perfection of performance the orchestra deserves great praise. This organization is destined to become one of the (Continued on page 8.)

JOHN E. FOSTER

FOSTER GIVES DARST CREDIT FOR VICTORY

International Champion Says Coaches Responsible For Victory

When interviewed by a reporter of The Technician, John E. Foster, high scoring man at the recent International Grain Contest, expressed the opinion that the record made by himself and his team-mates was due to the excellent instruction given them by W. H. Darst and J. B. Cotner, of the Agronomy Department.

Not only did Foster lead the entire procession, but R. J. Peeler and R. B. Winchester, of this school, were second and third, respectively. In making the high score, Foster completely eclipsed all previous records and piled up the highest score ever turned in at the contest.

When the team returned Friday night it was announced that Foster had placed fourth in a national essay contest in which he had entered an essay about two weeks ago. Coming in the wake of his unusual performance in the grain contest, this honor has been somewhat overlooked. However, this alone is no small achievement, for several hundred essays were entered from all parts of the country.

The statement given for publication is as follows: "As for winning first place at the International contest, I like to see credit given to whom credit is due, but I think a large part of our success was due to Professors Darst and Cotner for their splendid coaching. Since State College has led in two of the three contests with the above coaches, I think the success is due more to the coaches than to the students."

Talk By Pres. Brooks Features "Y" Banquet

Promotion Force Hears Address on the "Ideal of a College Y.M.C.A."

"We must take the principles laid down by Christ and apply them to this tangled, social existence of today if we would really accomplish the right relationships on this campus," stated President E. C. Brooks, in an address which featured an informal banquet given by the Promotion Force of the college Y. M. C. A. Thursday night.

The affair was opened by H. E. Springer, who returned thanks. John Currie, President of the "Y," then introduced the Hawaiian Guitar Club, which rendered several selections while a delicious chicken dinner was served. Dr. Brooks was the chief speaker of the evening, and was followed by R. J. Peeler, chairman of the Bible study committee; Henry Kendall, president of the Student Council; E. L. Cloyd, dean of students, and Ernest Moore, editor of The Technician.

In developing his theme, "The Ideal For Our College Y. M. C. A.," Dr. Brooks said that we might have all (Continued on page 4.)

Ninety Members of Freshmen Class Accept Fraternity Bids

CHAMPION CROPS JUDGING TEAM ON ASSEMBLY PROGRAM

Dr. Brooks Thanks Students and Coaches for Splendid Record Made at Chicago

"It was said by the judges that the record made by the team representing North Carolina State College in the recent International Intercollegiate Crop Judging Contest, held at Chicago, has never been equaled in the history of the contest," said Professor W. H. Darst to the student body of this school at the general assembly period last Wednesday.

The assembly exercises were opened by three selections beautifully rendered by the State College Orchestra. Dean Cloyd then made a few remarks in which he told how well the orchestra is doing and how it is rising to a point where we should justly be proud of it. Dr. E. C. Brooks, President of State College, presented Professor Darst.

The team which brought such honor to State College and credit to itself as a whole and to individual members was then presented to the student body by Professor Darst. The members of the team are Messrs. Winchester, Peeler, Bullock, and Foster, the two former being students in the School of Business and Science and the two latter being registered in the School of Agriculture.

State College had an excess of 198.3 points over the other teams in the contest and also 348 points in excess of the winning team of 1923, which itself represented this school.

In speaking of the contest, Professor Darst said there were three phases, the first of which is the knowledge of commercial grading; the second being the identification and adaptation of field crops; and the third, seed judging. An additional phase is the individual record.

In the first and second of these phases State College came out first, but making only second place in the third. In the fourth or additional phase the individual score, this school made the highest record, thanks to Mr. Foster. The second and third highest individual (Continued on page 5.)

LOCAL CLUBS GIVE FIRST AIR PROGRAM

Quartet and Hawaiian Club Are Invited to Make Other Appearances

Giving radio programs is a new method of entertainment by the State College musical clubs, but is highly successful, as was shown Wednesday evening when the quartet and the Hawaiian Club gave a concert from Station WRCO, Raleigh.

Many friends of State College were agreeably surprised when they tuned in on their favorite local station Wednesday evening, December 9th, at 9:00 o'clock. They heard familiar songs and familiar voices. Yes, it sounded like the "foolish four" quartet from State, but—yes, the announcer is saying, "Station WRCO, Raleigh, N. C., broadcasting a program by the State College male quartet and the Hawaiian Club. Stand by a moment, please. The next number on the program is, 'On the Beach of Waikiki,' by the Hawaiian Club."

The program lasted an hour, and was full of melody from start to finish. The officials stated that they wished to secure the clubs for another program at an early date.

The following students make up the personnel of the organizations:
Quartet—C. S. Overman, W. F. Tew, R. R. Fountain, C. C. Correll.
Hawaiian Club—W. A. Hays, R. H. Fentress, W. J. Ferguson, C. J. Goodman, — Stout.

PASS A SLEEPLESS NIGHT

Local Fraternity Life Increases in Popularity Year After Year

"Bid day" comes and goes with the usual excitement and hilarity. Some were delighted and others were disappointed.

Those who were already fraternity men "wisecracked" at each other all during the day. Every one seemed to be in a happy state of mind, and no fights resulted from the various remarks that were made.

Sunday night was indeed a sleepless night for some, in fact quite a few, while others did not seem to realize that the next day was bid day. Several boys were seen speeding over various parts of the campus, attired in hat, overcoat, and pajamas, in order to make hay while the moon was shining.

Everybody seems to be glad that it's all over and done with, especially the freshmen. They seemed to be getting tired of being rushed, and the brain-racked fraternity men were indeed tired of rushing them.

Fraternity life has been steadily growing in popularity on the campus, and each year an increased number is bid into the various fraternities. It is said that social life on the campus is being distinctly improved, and it is believed by many that a greater popularity of the college over the State as a whole will result because of the improved social opportunities.

Ninety members of the Freshman class accepted bids to the national and local fraternities which have chapters on the campus. This is one of the largest groups of men ever bid into the State College fraternities at any one time.

The following have accepted bids:
Sigma Nu: Floyd Isom, Charlotte; George Fowler, Statesville; Jimmie Allen, Louisburg; John McNair, Washington; Carl Koontz, Raleigh; (Continued on page 5.)

LOCAL CHAPTER SCABBARD AND BLADE GIVES A DANCE

Affair Reminiscent of Hectic Days of 1918, as Uniform is Worn

The local chapter of "Scabbard and Blade" held a very enjoyable dance Saturday night, December 5, in the gymnasium.

Besides the Cadet members and their guests attending were Major C. C. Early, commandant; Capt. John H. Gibson, Capt. Wm. C. Lee, Capt. Wm. E. Vernon, and First Lieutenant E. P. Passailaigue of the Regular Army personnel of the State College R. O. T. C. Unit, and Reserve Second Lieutenant Geo. B. Cherry, of Raleigh.

The chaperones of the dance were Capt. and Mrs. Wm. C. Lee.

The music was furnished by the Dixie Serenaders.

The hall was attractively decorated with American flags, crossed swords and pine trees and as in the days of 1918, the uniform was far more popular than the full dress.

The local unit is one of the best in the South. Cadet Lieut. Colonel Abe Jones, captain of the local unit, was last summer elected to the command of all the units of the Scabbard and Blade in the Fourth Corp Area, at the R. O. T. C. camp at Camp McClellan.

LOST!

One black pocketbook, somewhere on the campus, last Saturday, containing \$11 and receipts. If found, it will kindly be appreciated if returned to E. L. Mountcastle or The Agromeck office.

Paragraphics

Count that day lost which sees no new club started on this campus.

Rex Hale suggests that the editor change his name and call himself I. M. Broke.

Over at N. C. C. W. the girls are evidently getting plenty of goolash. Well, misery loves company.

Our idea of a genuine "bull session" is the gathering which convened in Washington last Monday.

That professor of ours who said Seniors wouldn't work has utterly disproved his own theory by a recent assignment.

Henry Clay said he would rather be right than President. Most of us now would rather be "Red" Grange than President.

Know all women by these presents that ye paragaphicer has joined the United Givers of Post Cards for Christmas.

The Yelper and M. W. L. are writing about the women this week. We shall have no part in this, and since we have nothing good to say for them we shall remain silent on the subject.

Many of the most prominent students on the campus say they did not know enough about the World Court to vote intelligently. We have a notion that it is the business of every wide-awake student to see that he does know something about such matters.

John E. Foster, international champion grain judge, now says his success was due to the coaching he received from Professor Darst. He can blame it on anyone he likes, so long as he wins such laurels for State College. Maybe Johnny is spreading a bit of Jim Potter's applesauce.

Some of the State College students have remarked that the girls from Peace were not allowed to attend the Agricultural Club reception, and yet just two weeks later boys here received a most cordial invitation to attend the Alumni Bazaar at the Presbyterian Church, which incidentally cost a dollar.

TURN ON THE LIGHT

About two weeks ago we decided there should be better lights in the stairway leading to the new side of the dining hall. For several weeks we had gone up and down these stairs in the dark for our evening refreshment. The result was an editorial pleading with the authorities to give us light on this situation. We were very proud of this work and were sure of getting results. However we were quite surprised the following night to find the place flooded with light. This meant the destruction of the appeal which we had so highly prized, since its object was attained.

All was well for a short while. Then came our old adversary, darkness, again. Several times we have started to re-write that masterpiece, but it is no use. The words are gone and will not come back. Now we shall merely state that we would be very glad if the lights would burn again. Climbing three flights of stairs in utter darkness is enough to take the joy out of the habitual visit to the eating department. Turn on the lights, please.

REGARDING FRATERNITIES

Pledge Day is past. The Freshmen who have been chosen for membership in the various fraternities here will now proudly don their buttons and such other paraphernalia as is customary. College papers, as a rule, offer much advice to the Freshmen who are being sought by the "rushers." We expect the results of this advice is considerably less than zero, for the writer has devoted some perfectly good time to something which he usually knows very little about, and if he does know, the fellows whom he desires to counsel will neither read nor heed his advice. Their time is consumed by the "rushers."

So, we have waited until the contest was over and the results were announced. Now no one can accuse us of offering advice to the Freshmen, who generally know before they arrive here whether they will join a fraternity or not. It is merely our purpose to comment somewhat at random on fraternities, now that we can do them very little harm or good by any of our observations.

To begin with, many good things may be said for the fraternity. On the other hand, some things not quite so good can also be said with equal truth. Like the rest of our institutions, they are usually what we make them. A fraternity is neither better nor worse than the men who compose it. If they are the right type the organization may become an asset to the institution. If they are not the right type they can do untold damage to the school.

A college paper recently devoted quite a bit of space to an editorial consoling the men who were overlooked on Pledge Day. These men were reminded by the writer that they might have another chance later. We wonder if the pledgers themselves didn't need the sympathy instead of the others. They were the men who were going to face the difficulties. The first thing they have to conquer is that air of superiority which so many college men fall victim to. It is this which requires the real stamina in a man. To be singled out of a great throng to receive an honor is more than many Freshmen can stand without yielding to the idea of personal superiority. When this malady gets its victim fairly in its clutches it holds him up to the world as an example of a fool. This malady has been present on this campus in past years. We hope it will not get its usual share of victims this year.

Fraternities are based upon the highest principles. Fortunate is he who may share the many benefits from the fraternities and still retain his common sense to the extent that he can look upon his fellows without looking down.

Now that State College has cast its vote in favor of the World Court the United States Senate should be able to dispense with the matter in short order.

DIGNIFIED SENIORS

Sometime, possibly many years ago, somebody, probably a dreamer, conceived the idea that Seniors were, or should be, dignified. Since that day we have spoken of dignified Seniors just as if the term had real significance. Now we have been in college long enough not to expect Seniors to be dignified, but even then we are constrained to call to mind a situation existing here which shows not only that our Seniors are unsullied by dignity, but that they are not even burdened with an overdose of gentility. We refer to conduct in the dining hall. At almost every meal the Senior side of the hall is converted into a playhouse for the little boys. Various and sundry missiles are heaved with great delight and often deadly accuracy. If a Senior be hit by one of these implements he feels that his honor is at stake, so forthwith he prepares to redress the wrong by hurling a few pounds of bread in the general direction of his adversary.

There is always much fun to be had at this game, but the greatest competition is developed at the evening meal. At these times rolls are usually served, and these afford the finest type of hurling material known to the playful Senior. It is a common practice to exchange greetings with a few well-aimed rolls, which fly by the nose of the innocent observer and cause him to look for more, and just at this time the victim emits a groan not unlike that of someone in dire pain. Then the said observer realizes he has missed the fun, so he feels hurt, and the one who was hit feels hurt, and the one who threw the wheat feels hurt unless his aim was 99 per cent perfect.

It has been suggested that the Seniors be allowed to introduce their game on the other side of the dining hall, where there are at least 800 boys eating. It is felt that these underclassmen should enjoy the sport as well as the Seniors. Of course a few dozen rolls would be wasted each day, but the other little boys would like the fun quite as much as the Seniors, we believe.

For the benefit of Rex Hale and his tribe we wish to say that the last paragraph is sarcasm. It is the best way we know of saying how we feel when the Seniors (or at least a few of them) cannot conduct themselves in as gentlemanly a manner as the rest of the student body.

HETERO COLORS

M. W. L.

This department was discussing with the editorial staffs of the leading publications of the campus the happenings that would be of interest for this week's issue. Since there had been no murders, drunks, petting parties, cars stalled on the leading highways, and all the "co-eds" of Raleigh have not signed the total abstinence clause against the weed that made Duke famous. One very young and unsophisticated cynic, his other ailment being editor-in-chief of the leading issue of the campus, "yelped" out, "wimmin," and his side suggestion was, "we have nothing else to write about." The subject, just "wimmin" being rather general, it was decided that I take some concrete phase of the subject. At first doubtful as to the meaning of the word "concrete" in this relation, but after consulting Webster it was very clear—a mixture. Here this job became one of perspiration rather than one of inspiration. After grazing around for a while I found that Heine said "Matrimony—the high sea for which no compass has yet been invented." Then matrimony must be the subject, since it is the most heterogeneous mixture (mix-up) imaginable. In answer to an S. O. S. from England, I received an importation, tariff free, that will prove a consolation to those lost in the sea or to those who may set sail soon. The importation, in the form of ten commandments, have been adopted and verified by the students of North Carolina State College, and it is hoped that they will be conventionalized as soon as the next General Assembly meets.

For wives:

1. Thou shalt not nag.
2. Thou shalt keep thy temper to thyself.
3. Thou shalt not bore thy husband.
4. Remember to keep unholy his

Agromeck Yelps

Here's to the girl who is pure and chaste; the less she is pure, the more she is chaste—or vice versa.

All women are fortunate in one respect. That is that they never have to marry one of themselves.

December 25 is the climax of the boy's "kicking" season—then the girls have their chance.

The girls are all sweet this time of year and it doesn't take a fellow with a college education to tell you why.

M. W. L. also thinks the girls colleges should have smoking parlors. We wonder why the girls haven't asserted their rights by saying that they don't need them, since they will smoke where they darn please.

For three months the professors have been trying to tell us what they know. Now they are asking for all we know in one week. Well, Shakespeare probably knew what he was about when he said, "Men of few words are the best men."

T. C. Dickerson, our circulation manager, recounts the following incident about himself and declares it to be the reason for his distrust of modern girls:

T. C. (to modern sweet thing)—"I love you, dear; kiss me once more."
M. S. T. (to T. C.)—"And I love you, but I must save part of my kisses for other boys."

Notice to men choosing sponsors: The Staff wishes to announce that the man who hands in the prettiest sponsor will be refunded his \$20. The Business Manager and Editor will be the sole judges. The name of the winner will appear in next week's TECHNICIAN.

At last we have found one member of the fair sex with whom we agree—in part. M. D. H., in the *College Message* of Greensboro College says, "The younger generation is going to the dogs. Wherein lies the blame?" The blame, girls, lies mostly with us." Of course she has quite a bit more to say—women always do. But few women know where to stop.

P. S.—The Business Staff asked us to please advise his girls through this column that he did not write any of the "Yelps."

many socks! Remember his linen, to see that it is spotless! Provide the extra stud for emergency that will surely come, and watch lest the suit that hath been pressed is not returned to its accustomed nail, as it will be the one he asketh for.

5. Honour thy husband and let him do exactly as he pleases.

6. Thou shalt not ask him any questions, neither in the morning, nor at the noonday hour, nor at night, for whatsoever a man wanteth thee to know that will he tell thee unsolicited, and a question mark is a hoop that catcheth—who knows what.

7. Thou shalt not complain, for verily a complaining woman is worse than a shoe that pincheth.

8. Thou shalt not steel thy heart against his hobbies.

9. Thou shalt be fresh and sweet and dainty as a shower bouquet.

10. Thou shalt obey him.

Had you thought how much work you will save the postal carriers if you give post cards for Christmas?

Some more or less industrious members of the student-body have been working on a key of identification for those noisy animals that attend the shows at the "Y." To save time in this work I should like to suggest that the ears of said animals are too long to be identified as horses.

Student Forum

Are We True Gentlemen?

The best definition of a gentleman I have ever seen is found in "The Freshman and His College." Mr. John Henry Newman, the author, says a true gentleman carefully avoids whatever may cause a jar or a jolt in the mind of those with whom he is cast. The true gentleman is the man who tries to make everyone feel at ease and at home.

Stop and take a census of yourself. Are you complying with these rules of a gentleman? Can it be true that our student body as a whole is composed of men who are not gentlemen? It is a known fact that the visitors to our campus, especially the ladies, receive a jolt to their mind and cannot feel at ease when approached with the conduct of our student body at their appearance. Are we playing fair with our college and ourselves by advertising such conduct as exists at present? No, men, we are not! It is the duty of each and every one of us to make the best name possible for this college. Nothing more honorable could be said of this college than "The men of that school are gentlemen."

The matter of playing the part of a true gentleman while in school is one which should receive more than surface thinking. If we will stop and realize the fact that the habits we are forming during these college days are the habits that will determine the type of men we are to be, surely the subject of playing the part of a true gentleman will receive more serious consideration than it has received in the past. It has been said, "It is well for the world that in most of us, by the age of thirty, the character has set like plaster and will never soften again." Our character is now setting, and so far it is a character that most of us cannot be proud of.

If we should be asked why we are coming to school, no doubt the answer would be to get an education. The word education does not imply knowledge alone. Educated mankind is governed by two passions; one for pure knowledge and the other for being of service. A fusion of these two will give us the idea of what a true gentleman is and should be. We must know how to mix with folks. After all, then, the rock-bottom reason for our being here is to develop and put to practice the qualities of a gentleman. Therefore, let each and every one of us strive to have it said of us, "The men of that school are true gentlemen."

HENRY M. WOODSON.

What Kind of Leaders Are We?

How many of us know that "Red" Grange is a football player who left school before obtaining his degree in order to play professional football? If we know this, we have followed his career as given in the newspaper. What else beside the sport sheet and the comics do we read? How many of us know there was a World War? Did the United States take part in it? Who was President then? Do we know that there is an organization called the League of Nations, and do we recall the name of the man who was the father of that organization? I wonder how many of us think it was "Red" Grange? How many of us know that there is such an organization as the Permanent Court of International Justice to which forty-eight nations belong? Do we know that the principal nations outside the Court are Germany, Russia, and the United States? Do we realize that the United States Senate on December 17, 1925, is going to open discussion on the question of whether the United States shall join the Permanent Court of International Justice and that the discussion will last until a vote is taken? I wonder if we have an idea that student senti-

KEEBLE PREPARES SHELF NON-FICTION LITERATURE

Nineteenth Century Peculiarly Rich in Poetry of Every Type Known

C. G. KEEBLE

Arnold Bennett, in his "Literary Taste: How to Form It," says that the makers of literature are those who have seen and felt the miraculous interestingness of the universe. And, again, he remarks, "An understanding appreciation of literature means an understanding appreciation of the world."

Literature is a reflection of the life of man—his deeds, his thoughts, his ideals, and his aspirations; and it is as varied as that life. The nineteenth century, being an age of scientific discovery, an age of invention, an age of development in the ideals of democracy, afforded a fertile field for writers. It presented opportunities to both liberal and conservative thinkers, to say nothing of the reactionary.

Hence we find that books of almost infinite variety were produced in this era. We have the delightful familiar essays of Lamb and Hazlitt and Stevenson; the brilliant historical essays of Macaulay; the gorgeous prose poetry of De Quincey; the elaborate disquisitions of Ruskin; the keen criticism of books and society of Matthew Arnold; the "dithyrambic eloquence" of Carlyle; the stately exposition of Cardinal

Newman; the clear, incisive scientific essays of Huxley, and the calm, profound musings of Walter Pater.

The nineteenth century was a period peculiarly rich in poetry of almost every type. Shelley voiced the yearnings of the sensitive, ethereal soul, of the creature almost "too bright for human nature's dally food"; Keats, worshipper of sensuous beauty, wrought verses that will charm forever; Scott, prince of story tellers, revived for us the romantic past; Byron gave us perhaps the most impressive descriptions of natural scenery in the language; Wordsworth showed us "the glory of the commonplace"; Tennyson, in matchless phraseology, expressed "the faith that looks through death"; Arnold represented the struggle between the "obstinate questionings" of the analytical mind and deep religious sentiment; Swinburne revealed the marvelous possibilities of the language in the creation of musical verse; Browning, friend of man and prophet of immortality, irradiated us with a courage and optimism that are unparalleled.

In history we have Macaulay's *History of England*, a work written with a serious purpose, that actually "replaced the most popular volume of contemporary fiction on the dressing tables of the young society ladies of London"; the entertaining, though inaccurate, narrative of James Anthony Froude; the elegant, compact account of the development of the English people of John Richard Green; and the scholarly history of Greece by Grote.

Do not the students of State College desire an acquaintance with "the best that has been said and thought in the world"? Do they not wish to apprehend "the miraculous interestingness of the universe"? Do they not seek to feel the beauty and the mystery of life? The writer has prepared a list of nineteenth century books by English authors, which, with others suggested by them, he hopes may stimulate the readings of genuine literature, "the literature of power" as well as "the literature of knowledge," as follows:

Edwin Arnold's *The Light of Asia*.
Carlyle's *Essay on Burns*.
Spencer's *Education*.
Lamb's *Essays of Elia*.
Hoglit's *Characters of Shakespeare's Plays*.

Macaulay's *Essays*.
Huxley's *Lay Sermons*.
Ruskin's *Sesame and Lilies*.
Byron's *Childe Harold's Pilgrimage*.
Carlyle's *Sartor Resartus*.
Bulwer Lytton's *The Lady of Lyons*.
Browning's *Pippa Passes*.
DeQuincey's *Confessions of an English Opium Eater*.
Fitzgerald's *Rubioyat of Omar Khayyam*.

Derby's *Translation of Homer's Iliad*.
Newman's *Apologia Pro Sua Vita*.
Tennyson's *In Memoriam*.
Tennyson's *Idylls of the King*.
Kipling's *Barrack Room Ballads*.
Macaulay's *History of England*.
Matthew Arnold's *Culture and Anarchy*.

Carlyle's *Heroes and Hero-Worship, and the Heroic in History*.
Thackeray's *English Humorists of the Eighteenth Century*.
Stevenson's *Virginibus Puerisque*.

WORK SOON TO BEGIN ON TEXTILE ADDITION

Work will begin in the near future on the new Textile building addition. This new addition will extend seventy-five feet across the campus drive in the direction of Primrose Hall, being an extension on the present Textile building.

This addition obliterates the present driveway from Hillsboro Street to the college campus. The new drive will run between Pullen and Primrose Hall and thence into Hillsboro Street. It was thought at one time that the three large willow oaks behind Pullen Hall would have to be cut down to make way for the new building, but it was later discovered that with some trimming they still could stand as sentinels over Primrose and Pullen Halls, as they have done for the last fifty years.

MILITARY DEPARTMENT SPREADS APPLE SAUCE

As a balance to the disciplinary system there is a new system in the Military Department. If a student does well in appearance, drill and class work he is called in to the Military Department and commended. A certificate is given to the student, and one is filed with his military record.

A newspaper carried the information that the Regular Army uniform was to be changed to the lapel collar type. There were no specifications, but it will be the same in cut as last year.

T. E. Brown Returns From Northern Tour

Director of Vocational Education on Program at National Convention

T. E. Browne, State Director of Vocational Education, returned Sunday after a week's trip to Washington, D. C., and Cleveland, Ohio, in the interest of vocational education.

Mr. Browne met with the Federal Board for Vocational Education officials in Washington, November 30. In Cleveland he attended the National Association of State Directors, at which time he was the first and second on the program to speak on "Specific Objectives Which Should be Stressed in the Immediate Future in Civilian Rehabilitation." On December 3 and 4 he attended the session of the National Society for Vocational Education.

Through a co-operative arrangement between the State Department of Education and State College, Mr. Browne holds the position as head of both departments of vocational education.

FORMER STATE STUDENT WITH TEXTILE SERVICE

Walter C. Taylor, who is a graduate of the N. C. State Textile School, and who also holds the graduate degree of Textile Engineering from this school, has become manager of the Textile Service, at Charlotte, N. C.

The Textile Service is an organization that will offer a weekly letter and other service to the textile mills of the South. The service will consist of up-to-date cotton and cotton goods statistics and charts, and also financial reports that have a bearing on the textile trade.

Mr. Taylor has been engaged in a similar kind of work with another company in New York and New Jersey, and in his new position will have allied with him a strong New York organization. He has had a wide and varied experience in textile mills, engineering work, and for the past several years has been engaged in collection and distribution of textile and general business statistics.

CHEMISTRY AND WORLD PROBLEMS DISCUSSED

Dr. James F. Norris, who will give a public lecture at the College Y. M. C. A. auditorium on Monday evening, December 14, at 8:00 o'clock, is in a position to give a very comprehensive talk on the subject which he has chosen—Chemistry and World Problems.

Besides being president of the American Chemical Society, he is vice-president of the International Union of Pure and Applied Chemistry and member of the National Research Council, which has been so active with war and world problems during the past ten years.

President Norris has had many unique experiences during the past year. He visited Europe as a delegate to the Congress of Pure and Applied Chemistry and spent the summer traveling throughout the countries there. He is now on the home stretch of a tour which he is making, visiting nearly every part of the United States.

Dr. Norris is professor of Organic Chemistry at the Massachusetts Institute of Technology and author of a great many books. He is an excellent speaker.

He comes to Raleigh under the auspices of the North Carolina Section of the American Chemical Society.

STUDENT FORUM

(Continued from page 2.)

ment will have any effect on the way our Senators will vote? Do we really care what our politicians in Washington, and elsewhere, do that will affect our lives and the lives of generations to be?

Let every man in State College who did not vote Monday for or against the Court ask himself these questions. The college graduates of the United States form about two per cent of the population and furnish a majority of the leaders in civil life, but if the interest shown by us here is an indication of our future leadership, God pity those who have to be our followers. I have heard several honor students say that they did not know enough about the Court to vote intelligently. Are they being educated or are they merely making grades like an adding machine makes rows of figures? Why do they read only the sport sheet and the comics? Are we so well-fed, smug, self-satisfied and lazy that we are willing to allow the uneducated classes to dominate our politics? Our attitude here in college is a sample of what it

will be when we are out in the world, and when we get out there, a careless attitude may cost us dearly. A dishonest man will go far to influence public officers and voters in order that he may benefit thereby, while in too many cases the honest man will not take time to learn the facts and vote intelligently, and after it is all over he complains about graft and dishonesty among public officials. Who is to blame?

There is absolutely no excuse for any man in State College being ignorant of what the Permanent Court of International Justice is, for many articles have been in the daily papers, pro and con; THE TECHNICIAN has carried stories from week to week; free literature could have been obtained at the Y. M. C. A.; all the leading magazines have had articles for and against the Court; some time ago a conference was held at Duke University and several well-informed men told about the

Court; Dr. Taylor and Dean Brown have conducted an open-forum every Wednesday night at 6:30 to which anybody is welcome; Dr. A. W. Taylor told us about the Court at Chapel Monday. Where have we been that we did not absorb something about the Court.

This applies not to the World Court only, but to all community, State, National, and international problems that arise, and the day has come when what happens in Europe affects us. Not until we let our minds roam beyond the confines of the family and community circle will we cease to be selfish, clanish, provincial, and prejudiced.

HERMAN W. TAYLOR.

Get The Most
out of
Home Grown Feeds

"About ninety per cent of the stuff written about 'The Variety of Proteins' is pure bunk. The feeder who has corn, oats, silage, alfalfa, clover and peas needs only one other feed—Corn Gluten Feed."

So declares one of our biggest authorities on feeding. He says that variety is a very simple thing—easy to understand by any farmer who knows his animals.

The purpose of variety is to make the ration more palatable. If there is any other virtue in variety, you get it in your alfalfa, clover and other leguminous roughage.

Feed your corn, oats, silage and clover hay—with Corn Gluten Feed. You will then make meat or milk at the lowest cost per 100 lbs. In proper combination you get the variety your animals want and the protein they need.

Beef cattle make cheaper gains on Corn Gluten Feed than on grain alone. Dairy cows almost double their yield with Corn Gluten Feed in their ration. This practical feed lot experience can not be changed by theories.

The price of corn does not change its analysis. Sell some of your corn and buy Corn Gluten Feed to supply the protein lacking in your grain. Tell us what you are feeding and we will suggest the right ration for you.

We want to help you get more out of your home grown feeds. Write us for advice on feeding. Get your supply of Corn Gluten Feed from your dealer or from any manufacturer.

FOOTBALL SEASON RESUME SHOWS GREAT FLUCTUATION

Curve of Results Shows Downward Dip at Midseason and Rise at End

The 1925 season of the Wolfpack is a thing of the past, but its deeds and its heroes are still alive in the minds of the students whom the red-clad warriors represented. Thus THE TECHNICIAN feels that now is an opportune moment to present in condensed form the story of the Wolfpack's battles and of the players who made up this fighting squad.

Richmond Loses in Opener

The University of Richmond journeyed to Raleigh to open the season in style, but they were met by a fast-moving Pack that took their measure to the tune of 20-0. Jack McDowall's long run for a near-touchdown, and his all-around passing, running, and punting were the outstanding features of the game.

Pack Blanks Duke at Durham

Duke University was the next to fall. W. Shuford and Jennette carried the ball over twice to defeat the Methodists, 13-0. This game was fast and furious throughout, with State showing a marked superiority, especially in the last half. Long and thrilling runs were frequent, with a majority being made by the members of the red team.

Gamecocks Nose Out 7-6 Win

Scoring soon after recovering a State fumble, the South Carolinian's seven-point lead was never headed, though only a goal missed by inches kept it from being tied. The Wolfpack had two excellent chances to score, besides the one it took, but passes dropped behind the goal line took each of those opportunities away.

Carolina Takes Fair Classic

After holding well for the first half, the Wolfpack loosened up and allowed the Tar Heels to run through and around the line for a total of seventeen points. State's offensive seemed badly lacking. "Big Nick" Nicholson was the outstanding player for the Techs in this contest.

Pack Fails to Hold Cadets

The V. M. I. backs broke loose in the first four minutes of play and scored one touchdown, quickly followed by three more. "Bull" Thomas played the second half at quarter and pepped up the team so that it not only held the Cadets but took and held an offensive which netted one touchdown and threatened several times more. This game was played in a veritable sea of mud.

Wildcats Protect Lair 9-0

Running true to form, the Davidsons played hard to win on their home field, and managed to do so by a field goal and touchdown. State played the Presbyterians on even terms during the first half, but was unable to guard the flanks from the fast attacks of the Wildcat backs, and lost, 9-0. Jack McDowall's punting was one feature of the game.

Zero Score for V.P.I. Game

The Wolfpack then journeyed to Virginia again, and came back with a moral if not material victory over the Polytechs. Repeated threats at scoring were made by both teams, State once holding the Gobblers on the 4-yard line, but neither team was able to make good. One of the stars of this game was "Bill" White, State guard, who was out the rest of the season because of a serious attack of pneumonia.

Demon Deacons Lose Championship

Doped to lose by two or three touchdowns, the Wolfpack rose from the depths and figuratively and literally swept the much-touted Baptists off their high horse. The whole squad fought like mad from beginning to end, stopped the slippery pair of Greason and Rackley before they got started, and came out on the top side of a 6-0 score. This was the best game of the season at Raleigh, and gave the

South End Of 1911 Are Tag Champions

Have Scored Sixty-nine Points and Have a Goal Line Untouched by Opposing Teams

Seventh Dormitory forfeited a game to South, while Fifth forfeited to 1911. Each game was to be played on Freshman field, December 9, 1925. As these games were forfeited, South and 1911 played off the tie for the Intramural championship in tag football.

1911 won a hard-fought contest by a 6 to 0 score from South on the Freshman field. This gives 1911 undisputed championship in tag football. 1911 has scored 69 points to opponents 0. The game was played by 15 minute halves.

Cinder Track Will Be Much Improved

Greater Interest is Being Shown in Coming Track Season Than in Former Years

With the laying down of a new cinder track which will be equal to any in the State, much interest is being shown in the coming track season.

Heretofore, a prevalent idea among the students was that if they couldn't take first place in their event there was no use for them to go out for track. Hence very few men have been out for the last three years. This year, with a new track and coach, much more interest is being shown, and it appears that all places, including seconds and thirds, instead of the usual first places, will be hotly contested by many new and old men. It is especially noted that many of the new men who are interested are Sophomores who feel that they will be able to develop into monogram men in the three seasons they have on the campus.

At present the team from last year looks weakest on hurdles, pole vault, and distances from the half mile up. In no event is there more than one or two men who were out last year.

With Dr. Sermon as coach, official practice will start January 10.

fans an exhibition of real football, with passes, runs, and everything.

W. & L. Takes Final 14-0

The Generals prepared a hot reception for the Pack on the final trip of the year, and entertained them to the tune of a couple of touchdowns in the first half. Once again State came back strong in the closing periods, but failed to put over a marker. The backfield work of Johnson, Shuford, and McDowall was of a high order, and McDowall's 80-yard punt from behind his own goal line was the outstanding feat of the game.

"How now, milord?" queried Sir Mun. "dost think this playlet be decent?"

"Forsooth, sir knight," replied Sir Kell, "it must needs be clean for by'r lady it containeth three bathroom scenes."

WRESTLING TEAM LOOKS PROMISING

Fifteen Men Fighting for Places Left Vacant by Sherman and Hicks

Many activities are engaged in daily down at the gym, but few indeed are more important than the daily workouts of the 25 or 30 men who will later in the season meet representatives from other institutions as State College's wrestling team.

Wrestling is still in its infancy here, this being but its second year as a recognized sport, but the squad is determined to overcome this lack of experience by hard and diligent practice.

These boys have decided among themselves that they are going to give State College the champion grappler team of the State, and all who have watched them work out heartily agree with them.

The team loses two of the best members of last year's team in "Red" Hicks and Franklin Sherman, but the loss of these men will not be felt very badly, because there are about fifteen men fighting for their jobs. The letter men who are having to fight for their berths are Capt. Harrill, Chas. Lamb, Nicholson, and "Bull" Thomas. Kelum and Leary, two Sophomores, have just about convinced the coaches that they are good enough to creditably fill any vacant places on the squad.

ITINERARY FRESHMAN CROSS-COUNTRY TRIALS

Monday, December 14th, 4:45. Course from Riddick Field across railroad bridge, down through Pullen Park to merry-go-round, across bridge, up road to orphanage, follow beyond orphanage, taking first road to right, follow road on down to the barns, up between barns, and finish on Freshman Field beside the Gymnasium.

Every freshman required to run and finish within a specified time. Maximum time in order to get credit is 18 minutes.

Men failing to meet this requirement will have to run the race over before getting credit for their fall's work in Phy. Ed.

Guards will be posted to see that the course is run properly. Captain Wright of the Varsity Cross-Country will lead the race to show the way.

Architectural Club Initiates Ten Men

Stated that a Local Architect Will Address Each Meeting of Society

On Thursday, December 3, the Architectural Club held an initiation for the new members. The new members taking the initiation were: C. Z. Bailey, G. P. Hall, H. L. Sullivan, M. L. Crawford, F. A. Love, H. Rockwell, O. P. Chaney, J. M. Wooten, S. V. King, and E. W. Kearney.

A short business meeting was then held to welcome the new members and to set a date in each month for a meeting. It was decided to hold a meeting the first Wednesday in each month, at which time a program shall be rendered that will be of educational value and interest to every member of the club.

Professor Shumacher was absent on account of illness in his family, but left an announcement with the president that he would secure architects from this vicinity to make short talks at every meeting. This will afford interest as well as keeping the students in contact with the technical world. The members of the club expressed high enthusiasm over this feature of the programs.

Abie: Fader, dere iss a customer in der store vat wants to know if diss all-wood shirt vill shrink?
Father: Does it fit heem?
Abie: No, it iss too large.
Father: Vell, it will shrink.

Intra-mural Sports Reach All Students

Builds Up a Love for College and a Love of Fair Play in Athletics

Intra-mural athletics on the campus of State College is becoming a great sport for all, students as well as the spectators.

The physical directors of the College are trying to promote athletics in the greatest possible way so every student possible can participate in some form of them.

Intra-mural athletics not only produces and brings out men that the coaches may look over and count on them for their varsity squads. They also like to see that the men are interested in some athletics by participating in them. Although the men that play in the games may not be good enough to go out for varsity athletics, they create in the minds of the student body that they may become interested in their College Athletic Association.

When a student becomes interested in his athletic work at a school, and also learns to love his school accordingly, he then becomes attached to his school in such a way that he will fight for it. This is why intra-mural athletics are being introduced, so that the student will become more fixed to his school and his fellow-mates.

Intra-mural athletics is the coming sport at State College. After all the major sports are over there has to be a closing-up scene produced, and this is the minor forms of the major sport. Fun and excitement are both furnished by these sports, and those taking an active part get as much fun out of the games as do the spectators.

Grading Of Tennis Courts Now Started

Will Extend Along West Side of Freshman Athletic Field South of Railroad

At last State is going to have some tennis courts. Ever since tennis has become one of the important outdoor sports, the four tennis courts on Ag Hill have been very inadequate. The need of these new courts has been felt very badly, especially for the last two or three years, when State has had a tennis team. There has been no place for the boys to practice, and a winning tennis team could not be put on the field without enough courts for practice.

Last week work was started on the row of new courts, which are to be on the west side of the Freshman Athletic Field. The grading work is being carried on with as much speed as possible, and it is hoped that the courts will be ready for use by the time spring practice begins.

The present plan calls for twelve courts, extending from the railroad south along the west edge of the Freshman Field as far as necessary.

This location is much more ideal than the present one. It is much nearer the gym, and is also nearer the dormitories. Being so ideally located, it is hoped that a great many boys will take advantage of these courts next spring and help put out a tennis team that cannot be defeated by any in the State.

FRESHMAN HARRIERS WIN CHAMPIONSHIP

Our State College Freshman Cross-Country Team won the State championship by their victories over the Duke and Carolina Freshmen. The State Freshmen won from Carolina by a decisive score, and from Duke by the narrow margin of one point.

In the State meet at Chapel Hill the State Freshmen were unable to enter because of injuries. In this meet the Carolina Tar Babies defeated the Duke first-year team, both of which had suffered defeat at the hands of the Wolflets.

HARRIERS PLACE THIRD IN STATE CHAMPIONSHIP MEET

Supposedly Cross-Country Race Is Held Over Paved Road

In a race that could be called most anything else but a cross-country meet, the State harriers matched their endurance with the other teams in the State Meet held at Duke University last Saturday, and took third place. Carolina captured first honors and the State championship; Duke came second and Elon fourth. The local team was at a decided disadvantage throughout as the entire course was on a hard-surface road, and one of this kind had not been used in their program of training. Running on city streets is a rather far-fetched idea from that of a traditional cross-country race.

By taking the first three places, Carolina gained a good lead that went far toward making them the champions of the year. Duke captured the next three places, which entitled them to second honors. Wright, of State, placed eighth, then came Henderson of Carolina. The main feature of the race, however, was furnished when Brimley, Nance, Barnhardt, and Kendrick joined hands and crossed the finish line together, thereby taking tenth, eleventh, twelfth, and thirteenth places. They were followed by Rowe, which made five State runners that placed consecutively. The course of three miles was made in 17 minutes and 1 second, which was unusually slow time. The race began at the flag-pole on the main campus and went out through the main entrance. The return was made in the same manner.

Talk by Pres. Brooks Features "Y" Banquet

(Continued from page 1.) the organization in the world, but unless we have the desire to do the right thing our organization will accomplish little. "The chief aim of our lives is not to do the small things for our fellowmen, but these will manifest themselves if we have the right spirit," declared the speaker. He drew the same parallel between the real purpose of the Y. M. C. A. and the many small things it does for the student here. A note of optimism was sounded when he discussed conditions on the campus at present. "We have Christian education right here in our midst," stated President Brooks. He praised the work of Student Government, and its president, in helping to keep the students in the right relationships with each other and the college. He brought out very forcefully the principle of getting along with our associates by an incident which recently occurred here. "Truth," he said, "is facts in their proper relationship to other facts."

About fifty men were present, which included the members of the Promotion Force and a few guests.

PUNCH BOARD CAUSES ARREST GEO. CHERRY

George Chery, owner of the confectionery and haberdashery shop just off of State College campus, was arrested by plainclothesmen Monday night on a charge of operating a gambling device within the city limits. He was instructed to appear in police court to defend himself against the offense.

Mr. Chery has been operating this shop since September, and has been keeping a line of goods to suit the needs of the college men.

The arrest for the operating of a punch-board was quite a shock to Mr. Chery, as he states that such was lawful in Statesville, his home town, and that he had no intention of disobeying the city ordinances.

A moon
The steps
A pretty miss
A man with arms so strong
An upward
A fatal kiss
Another good man gone wrong.

HAIR-CUTTERS VISIT ROOM OF COUNCILMAN TO GET MAN

Concentration of Most Profound Nature Features Sleep of Floyd K. Fogleman

"'Twas the night before Christmas, And all through the house Not a creature was stirring, Not even a mouse."

It was not the night before Christmas, nor were all creatures still. But all was still in room 210, Fifth Dormitory, Monday night. That is, until the early morning hours. Then there was an inaudible shuffle in the hall, a silent whisper, and the mischief-makers were on their way. Some few minutes later F. S. Peterson, of the Freshman Electrical Engineering class, awoke to find cold clippers slowly gnawing at his hair.

The procedure was carried on so quietly and orderly that Peterson's room-mate, F. K. Fogleman, Senior in Mechanical Engineering, member of the Student Council, business manager of THE TECHNICIAN, chairman of the Student Publication Association, and chairman of the Senior ring committee, was not awakened. It has been said on the campus that the class of '28 did not have any order and could not conduct anything in an orderly manner. But if quietness and stealth count, then they redeemed themselves on Monday night.

A hair cut of this nature is not exactly the sort of Christmas present that a Freshman would petition Santa Claus for. If you picture a young collegian as he returns to the family fire-side for the Yule-tide season, you may understand why he does not wish to have the little unpleasantness of hearing aspersions cast on the kind of work the Raleigh barbers do in the rush season.

It is reported that Floyd Fogleman is nursing a badly bruised appendage, as the midnight barber incautiously stood upon the innocent finger of the sleeper while he plied his clippers.

Necessity Breeds Another Invention

N. C. State Chapter of United Givers of Post Cards for Christmas Bids Thirteen Men

Last Monday the N. C. State Chapter of the United Givers of Post Cards for Christmas had a most successful pledge day. At 2 o'clock thirteen bids were placed in the post office, and by 2:10 they had all been accepted but one. The following men accepted bids and will be initiated at an early date: E. G. Moore, John Anderson, R. R. Fountain, F. K. Fogleman, T. C. Dickerson, Frank Chedester, Rex Hale, C. L. Shuford, G. D. Humphrey, Pop Taylor, H. Baum, and Flop Morris. Red Beam was the thirteenth man, and refused his bid because he had already bought his girl a box of cracker-jacks for Christmas. Professor Stuart Robertson was also made a dishonorary member without his consent.

Following is a list of the officers, to whom much credit is due for their noble efforts in getting a chapter of the organization at State:

- E. L. Mountcastle—Grand Hypobola.
- H. M. Weedon—Second Part of An Equation of a Straight Line.
- M. W. Long—Third Propagation of Diminishing Utility.
- Joe W. Johnson—Fourth Angle of Relativity.
- J. M. Potter—Rear End of Statistics.

The purpose of this organization is summed up in the following resolution:

Whereas the members of the profligating sex have continually robbed the members of the opposite and weaker sex, since Eve first took Adam's last fig leaf for a Christmas present; Whereas it is the purpose of this society to prevent such gross robbery: Be it, therefore,

Resolved, That the members of this society will give nothing but Christmas cards for Christmas, the value of which is not to exceed 21 1/4 cents. This resolution also includes the constitution and by-laws of the society.

P. S. Resolution: Be it further Resolved, That copies of these resolutions, with a list of the members of this society, be sent to all the daughters of Eve who are expecting presents from members of this society who are descendants of Adam.

"You are concealing something from me," snarled the villain. "Softly I am," said Nellie, the beautiful garment worker, "didja take me for an artist's model?"

Last Week's Best Article

The honor for having the best article in the issue of December 4th goes to Annie Smaw for her article, "Textile Men Interested in Mechanics Course."

Nicholson Places On All-State Team

Young Guard Starts With Fight at Beginning of Season and Keeps It Up

Playing his first year as a regular on the Varsity football squad, "Big Nick" Nicholson was recently chosen by the gridiron coaches of North Carolina to fill a place in the line of the All-State team. This is an even greater honor to the hard-hitting guard and tackle because he was the only member of the Wolfpack to get more than one vote.

Nicholson started his stellar work with the season, and never slackened until the last game was played. In the Duke contest he did some excellent defensive work, and in the Carolina fracas he was the acknowledged star for the Wolfpack. Since then he has been a steady player, a terror on the defensive and a hard-driving forward on the offensive.

With another year of experience to help him and a winning team to play on, Nick should be well towards the top in the race for South Atlantic honors in 1926.

Champion Crops Judging Team On Assembly Program

(Continued from page 1.)

ual scores were won respectively by Messrs. Peeler and Winchester.

The three of the six trophies offered won by State College were displayed to a good advantage at one side of the stage. The grand trophy has not yet arrived because of delay in designing it.

Mr. Peeler then made a few brief remarks in which he said the team went not to win honors for themselves, but to bring glory to North Carolina and N. C. State College. If this college continues to win for a few years more, he said, the New York brokers will have to change the dumping grounds, which at present means the South, and find some other place to send their inferior grades of farm products.

Dr. Brooks next thanked the team and professors for their share in bringing more glory to N. C. State College. In his opinion if we are able a little longer to send out a few men such as these, we shall make over agricultural North Carolina within a single generation.

For the benefit of the college men, Dr. Brooks gave a bit of information about the coming examinations. They are to begin at nine o'clock on the morning of Wednesday, December 16, and are to close at three o'clock on the afternoon of Tuesday, December 22.

Any exams taken before Wednesday will not be credited upon the books of the college unless they be taken under special permission by the faculty. The examinations are to be conducted within three hours and each student is to have only two a day, one in the morning and one in the afternoon.

In speaking of the conduct of the examinations, Dr. Brooks said the classroom was the sanctuary of the professor as well as of the student. There should be no smoking during any exam. in any of the classrooms. There should be a fair effort on the part of each individual student to do his own work. The instructor is to remain in the classroom in order that he might make more clear any of the questions which the students should not understand.

Registration is to begin on Tuesday, January 5, and after the regular period is closed a fee of ten dollars will be collected from all registering later.

Telling of improvements soon to be made upon the campus, Dr. Brooks laid out the lines to be followed in the construction of concrete walks. The first of these is to extend from the entrance to the campus nearest the drug store to the old Mechanical Building. The second will be laid from the bridge past the new library, and across the walk to Mechanical Hall. A third walk is to be laid from the middle of the rear of Holiday Hall, past the dining hall, to which it will branch, and then to 1911 Dormitory. The walks in the triangle at 1911 are also to be paved with concrete.

In conclusion Dr. Brooks told of damage done by someone "trying to get an automobile into one of the dormitories" and by a motorcycle kept in another. It is up to the students to cooperate in keeping the campus looking well and to set aside a regular parking place if they must have cars at their disposal.

Traction Tom says:--

"SHOP MORE FROM TEN TO FOUR"

The wise shopper will shop earlier in the day this year. The stores are not so crowded during the earlier hours, permitting the shopper more leisure in making her selections.

Then, too, she should avail herself of our street car service. When using the trolley cars you are not troubled with parking cares and can devote your entire time to shopping.

Shop more from ten to four—use the trolleys.

—I thank you.

COMMITTEE PICKS MEN FOR STAFF LITERARY MAGAZINE

Names Given Publications Board For Action; Name Committee Appointed

On Friday, December 4, at noon, a representative group of the students and faculty met in room 18, Holladay Hall, with J. W. Johnson officiating in the capacity of chairman, for the purpose of discussing the newly authorized State College magazine. Several men were suggested to the Publication Association for positions on the staff, and a name committee was appointed.

Considerable discussion was given to men possessing editorial and managerial ability as possible nominees for the more important staff positions.

Dillon Supply Co.

"Cramming"—

and studying makes strong eyes tired and weak.

Consult—

Dubonchais

and let us fit you with a pair of glasses.

The following men were suggested to the Publication Association.

Editor—W. E. Wilson.
Associate Editor—Joe W. Johnson.
Associate Editor—John Anderson.
Business Manager—M. W. Long.
Business Manager—J. E. Campbell.
Other men will also be considered by the Publication Association before they submit a ballot to the student-body.

Mr. Stewart Robertson, professor of Journalism, was appointed chairman of the Name Committee, and the following men were appointed to serve on that committee: Prof. J. D. Clark, E. G. Moore, J. M. Potter, Joe W. Johnson.

Every student who has a suggestion as to what name should be given our magazine is earnestly requested by the committee to turn in the name he suggests to Prof. Robertson at once.

CUNNINGHAM WILL GIVE SERIES LECTURES AT "Y"

Prof. C. C. Cunningham will give the first of a series of lectures on "What Is The Bible?" Sunday afternoon at 1:30 in the Y. M. C. A. auditorium.

This series of lectures is worthy of the attention of every State College man. The subject is one that should interest every student, because the Bible has influenced the life of the world more than any book in existence. The speaker is admirably prepared to handle the subject, and is one of the best speakers on the State College faculty.

A cordial invitation is extended to students, members of the faculty, and citizens of Raleigh to attend.

EIGHT O'CLOCK CLASS IS SOCCER CHAMPION

The soccer team of the Monday and Wednesday Eight O'Clock Physical Education Class captured the Monday and Wednesday championship yesterday by defeating the Three O'Clock Team 2 to 1.

The final intra-mural soccer game will be played next week, when the Monday and Wednesday Eight O'Clock Class will play the winning team of the Tuesday and Thursday group for the championship of the College.

"What are you doing?"
"Don't bother me. I am adding up some figures and every time I look at you I put down zero."

ALUMNI NOTES

(Observations and Communications of Zippy Mack)

Only one more issue, and then off for the holidays. But had you forgotten that in between comes examination? Truly he was a great man who warned us that the darkest hour is just before dawn.

Mr. and Mrs. Aaron Holleman, of New Hill, announce the engagement and approaching marriage of their daughter, Blonza, to Mr. Early C. Smith, of Hamlet. The wedding will take place during December. Mr. Smith is a member of the Civil Engineering Class of '25, and while in College was very popular and active. He was not only student manager of the dining hall, but was also a member of the glee club and quartette. He is now living in Hamlet.

Mrs. Stephen William Steele announce the marriage of her daughter, Laura Page, to Mr. Harold Davis Duke, Wednesday, November 18, Rockingham, N. C. Mr. Duke was for a time a member of the Textile Class of '23.

Mr. R. H. Raper, last year's business manager of THE TECHNICIAN, was a visitor on the campus Monday. He is at the present time teaching school at Walburg.

Mr. P. W. (Pete) Blum, of the '25 Electricals, visited his friends on the campus last week. He is now working with his father in Winston-Salem. It is rumored that he will return to school for more work during the winter and spring quarters.

Mr. E. O. (Mike) Breen, formerly of the Class of '24, and a consistent TECHNICIAN writer and poet, was in town a few days ago. Breen left school for a position on the staff of the *Atlanta Constitution* several years ago.

Mr. F. B. (Frank) Looper, of the '23 Electricals, is doing civil engineering for the Westinghouse Electrical and Manufacturing Company, with headquarters at Los Angeles, California. His duties carry him through Southern California, New Mexico, and Arizona.

MEREDITH NEWS

(By Leone Warrick)

The chief event of last week was the Glee Club concert. From all reports it seems to have been good. On the program appeared two vocal solos by new members of the club, Elizabeth Myers and Lorene Woody. Miss Myers has a soprano voice of great range and power, and Miss Woody has unusual lyric quality. A violin solo was played by Mildred Brockwell; this added variety to the program, which has for some years been made up of vocal music only. Dr. Brown, the director, undoubtedly knows his business, for the numbers all showed the musical feeling which efficient coaching alone can give.

An item which was unintentionally omitted last week was the waffle breakfast given on Thanksgiving morning by the Y. W. C. A. This event took place in the Home Economics Building, between the hours of nine and eleven. A table was reserved for the Quill and Quip, who were present in a body, with the exception of one member, who was sick. There was a great deal of conjecture among the uninitiated as to what could be the subjects of conversation among so august a body. As a matter of fact, Dr. Harris delivered a very learned discourse on how pickaninnies dress their hair, and how movie stars keep thin. The waffles, however, were the main asset of the breakfast, in spite of Horace's assertion that it isn't the menu but the conversation that makes a meal successful. Apropos of the most recent yelps of the Agromeck, we would state that the Meredith appeasance artist is also an adept at making waffles.

As many others have done, our petition to the faculty for earlier holidays was not granted, but the Senior minstrels will not be given as was announced for a very good reason: Dorothy Yates, former member of the Class of '26, is to be married on the evening of December 19, and the class is invited to be present at the wedding, which is to take place in the First Baptist Church of this city.

Miss Youngs, a new member of the

Music Department, is to give a vocal recital December 15 at 8:40 o'clock, in the college auditorium. Miss Youngs has a lovely contralto voice, and in the occasional solos she has sung in chapel has displayed great artistry as well as talent. Students will be required to attend, and outsiders will be admitted by card.

One of the traditional events at Meredith is the Annual Cake Walk given by the waiters, usually on the last Saturday night before the Christmas holidays. This year it has been postponed until the following Monday on account of a conflicting event. It is open to the students and faculty only, which is to be regretted, because it is usually a very amusing example of genuine high-brow strutting.

She (unctuously): I have clox in my hose.
He: Will you kindly show me the time?

DR. WELLS TO SPEAK AT RELIGIOUS FORUM

Dr. B. W. Wells, chairman of the Botany Department of State College, will speak at the Raleigh Religious Forum Sunday night. Dr. Wells' subject will be "Divinity Versus Divinity." President Chase of the University was scheduled to speak at this time, but his address has been postponed because of illness.

The program will open at 7:30 p. m. with a concert by the State Theatre Orchestra.

"I sprang from a line of peers."
"Huh! I jumped off a dock once myself."

Here's A Way to Make Money After Graduation In Your Own College Town

TAKE this Flower Shop at Wellesley, Mass., for example. It is located handy by, just outside the college grounds. It wasn't so long ago that all there was to it was a plain little frame building, with some rather diminutive green-houses hitched to it.

Now the shop is a most attractive brick building, with up to date greenhouses, and this show house opening right off it.

You should see the way the college girls come here and buy flowers! Christmas and Easter week, the Western Union brings a private wire right into the shop, and has an operator on the job to take the Florist Telegraph Delivery orders that come from parents and friends, for flowers to the girls.

From one of his rose houses alone, this man took \$9,000 last year. Doesn't all this start you thinking?

Man alive, where is there a business as healthy, fun-filled and profit yielding?

Just the kind that to-be-wives of yours would like.

Had you ever stopped to think how many graduates are going into the greenhouse flower growing or shop business?

Hadn't we better start in getting acquainted so you can have the facts. Write us.

Ask us the hundred and one questions you have on your mind.

If interested, write to the Manager of our Service Department, 30 East 42d St., New York City, who will give it his personal attention.

Georgia Tech Not the Only Southern College Granting Ceramic Engineering Degree

TECH TELLS THE WORLD
State College Would do Well to Compare Standing With Any Institution

An article appearing in "The Technician," Georgia Tech's weekly, under date of November 20th, stating that Tech was the only college south of the Ohio River having a department of Ceramic Engineering giving a full course and granting a degree, though incorrect, illustrates an attitude of mind that North Carolina State might well emulate.

Georgia Tech makes it a practice to "tell the world," both in and out of season, that they have the "only" or the "best" or the "finest" of everything in the college line. They do not confine their comparisons to Southern institutions, but unhesitatingly claim superiority over the great technical institutions of the East, West and Pacific coast. They have made these claims so often that not only does the student-body believe them, but the people of the entire State, and, it might be added, many people throughout the South. It is a splendid example of how well it pays to constantly tell the people, and especially the people who do not take the trouble to verify claims to greatness, how good you are. This is only another way of saying, "It pays to advertise."

Nothing could do more to create the

much desired "superiority complex" that State College needs so badly than to have the student-body visit the University of Georgia and Georgia Tech, in order to compare their campuses, buildings, equipment, faculties and student-bodies with those of this institution. They would find that the entire campus of Tech could be set down in the quadrangle between Hillsboro and the railroad and "1911" and Pullen Hall; that the buildings and equipment of Tech cannot even be compared with ours, as is also true of the buildings and equipment of every other technical school south of the Ohio. As to faculties, and, after all, it is the faculties that count, any neutral who took the trouble to compare them, man for man, would unhesitatingly say that State College can stand comparison with Tech or any other Southern institution without suffering in the least, in fact, with considerable pride. As to numbers, our faculty is twice as large as Tech's. And should we not lead Tech? Georgia spends about \$40 per year per student on her technical school, while North Carolina spends \$230 per year per student, or more than any other Southern State.

Then why this superior attitude of Tech's? In a few words, we can hand Tech the following: They have the finest college spirit in the South; a confidence in themselves that cannot be shaken, even in adversity, and a good football team.

And why not develop this much-to-be-desired complex at State College? We have had weak football teams at State for several years past, but we have on every occasion trailed Tech's colors in the dust in both baseball and basketball during the past two years. We have an intramural and student-body athletic program that is admitted by Southern athletic authorities to be unequalled by any other Southern institution, to say nothing of a gymnasium that makes even the most rabid Techman envious. We qualified an orator in the National Collegiate Contest last year when none of the Georgia institutions were able to even get representation. Our rifle team last year defeated all Southern opponents, and at the summer camp the R. O. T. C. romped away with all of the worthwhile honors. Our grain and cattle-judging teams are consistent winners at the international shows, against Northern, Western, and Southern institutions with ten times our student-body, even though we do not even

claim to be a grain or cattle state. Our Textile School is recognized by the textile manufacturers as the largest, best equipped and most outstanding school of its kind, not only in the South but in the entire country, and it is even now being increased in size, equipment and faculty. And our graduates—State College men are in as great demand by the large corporations, such as General Electric, Westinghouse, the railroads and textile mills as are those of any institution of the South or country. Can more be said for our standards?

But to return to the original subject. Not only has State College a department of Ceramic Engineering, offering a curriculum leading to a degree, but graduate courses leading to a Master's degree. Furthermore, the new Ceramics Building now being completed is larger and the equipment purchased for it will make it more complete than is Georgia Tech's new building; in fact, it will stand comparison with any in the country. As for students, it is almost unfair to make a comparison. State College has more than twice as many resident Ceramic Engineering students as Tech and in addition, over 100 students registered in Ceramic Engineering correspondence courses carrying college credit. Last year a Short Course in Ceramic Engineering was given, with an attendance of 30 students, some of them coming from Georgia because they could not get instruction in their own institutions. In other words, State College has about 25 times as many Ceramic Engineering students as Georgia Tech. The department also boasts of a Student Branch of the American Ceramic Society, numbering 21 members, the only one chartered in the entire South.

Surely there are many things of which the students of State College may be proud, as proud as any student-body in the land. Why should we not hold up our heads and "tell the world," and incidentally develop that "superiority complex" that has done so much for Georgia Tech? To use the words of a well-known advertisement—"Eventually, why not now?"

STATE SANDHILL CLUB HOST TO SISTER CLUB

The Sandhill Club of the State entertained their Sandhill sisters (so to speak) at Meredith on Saturday night, December 28, at 8:00 o'clock. Both visitors and members assembled in a Meredith society hall. The atmosphere of N. C. State prevailed, for State pennants were much in evidence. Formality was done away with, and each Sandhillian greeted his friends and made new acquaintances as well.

During the evening many interesting and laughter-provoking games and contests were enjoyed. Much originality was shown when the crowd was divided into groups and each group presented a stunt. All were good and some were better. The winning group really showed the Sandhill spirit.

Throughout the evening Louise Allen, assisted by Roscoe Ferguson, served delicious punch. As 10:00 o'clock drew near, refreshments were in order—consisting of ice cream, cake, and salted almonds, which were served in attractive Christmas favors. Jessie Brooks, representing the Sandhill girls, expressed their appreciation of the club entertainment, and their plan to give a party in the near future for the finest boys in North Carolina, those from the Sandhill section of our State. President of the State Club, John Currie, responded to this word of thanks. After yells for each other and for the chaperone, we had to say good-night.

Those present were: Misses Janie Parker, Louise Allen, Clara Mae Smith, Alberta Harris, Francis Harris, DeLesslie Tyner, Margaret Hayward, Jessie Brooks, Lois and Violet Stafford, Vivian Freeman, Josie Moore, Mable James, Mable Andrews, Inez Holloway, Thelma Hodges, Mary Ayscue; Messrs. J. M. Currie, C. O. Butler, R. V. Ferguson, D. M. Bailey, A. L. Speight, C. W. Mason, G. A. Munn, N. M. Smith, R. A. Harkey, J. F. Byrd, M. R. McLeod, J. A. McLeod, P. L. Stewart, A. O. Smith.

CO-EDS UNANIMOUSLY VOTE AGAINST SMOKING

Co-eds at State College do not approve the practice of smoking for the fair sex. THE TECHNICIAN has conducted a vote among the half dozen girls who take work here and finds that each and every one of them is very strong in her denunciation of the habit for girls. One of the girls said it was all right for men to smoke, but she didn't particularly approve of tobacco even for men, to say nothing of its use by women.

Kampus Komics

And He Flunked

The professor told the freshman to sign his pledge at the end of his review paper, and he wrote, Sigma Pi.

Cecil—I am itching to kiss you.
 Pearl—Are you sure it is not that woolen underwear?

"Hello, central! Is this information?"

"Yes."
 "Well, would you please tell us what the gov'nor of South Carolina said to the gov'nor of North Carolina?"

"I had a hot date last night."
 "Every time I kissed her I signed my mustache."

Cadet—I wish to ask you a question concerning a tragedy.
 "Tip"—Well?
 Cadet—What is my grade?

Tact is something a girl uses with a slow date to make him think he's a fast worker.

I Love You

"I love you" is a queer old phrase. It means so many things—For often it is just what makes That pay-check take on wings.

"What is the most passionate thing you have ever seen?"
 "An octopus with ten arms loving a giraffe with twelve feet of neck."

A canoe is like a small boy—both behave better when paddled from the rear.

A city lad was visiting in the coun-

try. While walking along the road one day he spied a pile of condensed milk cans. He immediately called his uncle and said, "Come here quick, Uncle Tom, I've found a cow's nest."

Our little Boy Blue lied here, 'tis true. The gas tank exploded and little boy blew!

Autoist (who has just run over a pedestrian): "Pardon me, but haven't I run across your face some time or other?"

Irish Pedestrian: "No, begorra, it was me left leg you hit last time."

"So your father is ill? Well, I hope it is not contagious?"
 "Gee, so do I. The doctor said Dad is suffering with overwork."

Ordnance Repairmen With Military Dept.

All Rifles Turned in so That They
May Be Inspected and Put
in Good Order

Thursday, December 3, Mr. McGee and Mr. Coste, traveling repairmen for the Ordnance Department of the U. S. Army, arrived at N. C. State College.

Mr. McGee, with his helper, Mr. Coste, are touring the Southeastern States, inspecting all National Guard armories and R. O. T. C. Schools. They inspect rifles, machine guns, pistols, automatic rifles, 37 millimeter guns, and trench mortars. Any part found defective or broken is repaired or replaced.

All the cadets of State College are rejoicing over the arrival of the ordnance repairmen, as all rifles were turned in a week earlier than previously planned for Christmas. This early turning in of rifles was done that they might be inspected and repaired.

Mr. McGee is stationed at Camp McClellan, Ala., but in winter travels over the country repairing firearms. Mr. Coste is stationed at the Charleston Ordnance Reserve Depot at Charleston, S. C., this being his first trip of inspecting and repairing. His usual work is in the machine shops at Charleston.

They will complete their work here about Tuesday, December 8, and will go to Raeford and Fayetteville, and from there to Columbia, S. C., where their work is finished. From there they will each go to their respective headquarters for the Christmas holidays.

Musical Concert Greatly Enjoyed

(Continued from page 1.)

most, if not the most, popular musical outfit on the campus. Their rendition of "Spring Zephyrs" was especially beautiful.

It is the intention of the Department of Music to give other concerts during the school year, and it is believed that they will come to be very popular among the friends of State College in Raleigh, and that it will be excellent practice for the different musical organizations.

LOVE ME WHILE I AM LIVING

If you're ever going to love me,
Love me while I can know
All the warm and tender feeling
From real affection's flow.

Love me now while I am living,
Do not wait till I am gone,
And then chisel it on marble—
Warm love words on ice cold stone.

If you have dear thoughts about me,
Why not whisper them to me?
Surely they would make me happy,
And as glad as glad can be.

If you wait till I am sleeping,
Nevermore to wake again,
There'll be walls of earth between us,
And I cannot hear you then.

If you knew someone was thirsting
For a drink of water sweet,
Would you then be slow to bring it,
Would you step with laggard feet?

There's a tender heart right near you
That is thirsting for your love;
Why should you refuse to give them
That which God sent from above?

You have some flowers in your garden
Some are white and some are red;
Give them to me while I'm living—
I can't see them when I'm dead.

I won't need your fond caresses
When the grass grows o'er my face,
I won't want your love and kisses
In my last long resting place.

So, if you are going to love me,
If it's but a little bit,
Won't you love me while I'm living,
So that I can treasure it?

Messrs. J. C. Powell, '26; C. V. Seal,
'28; Freshmen James Crane, and John
Gorham were in Tarboro last week-
end. John Gorham was in an automo-
bile accident while there. He received
a few minor injuries when the car

Sides President Literature Club

Members Go on Record as Encour-
aging High Scholastic Ideals
For Students

The election of new officers for the Brooks Literature Club was held at a meeting of the club last Tuesday in Professor Clark's classroom. B. A. (Doodle) Sides was unanimously chosen as president for the new term.

Mr. Sides is one of the most active members of the club, as well as a leader in many student activities. He is one of the leaders in scholarship in the Junior class, being one of the ten Juniors taken into the Pine Burr Scholarship Fraternity.

The other officers elected were as follows: Vice-President, M. W. McCulloh; Secretary-Treasurer, W. R. Burnette; Reporter, J. D. Conrad; Sergeant-at-Arms, R. R. Fountain. These new men will take over their duties immediately and pilot the organization through the coming term.

The regular program was held in addition to the election of officers. The program was varied for the meeting by making it one in which each member present took part. The general topic for discussion was Romantic Literature, each taking some selection or some writer from this era of literature and bringing out the thought in connection with it to the club.

An investigation of the membership of this organization showed that seven of its members were taken into the Pine Burr Honorary Scholarship Fraternity this year out of the fourteen from the entire Junior and Senior classes. The Brooks Literature Club stands for scholarship ideals, among others, and while scholarship is not a requisite for membership, it is encouraged among its members.

turned over, but is improving, and will be back in school very soon.

Mr. C. L. (Charlie) Shuford, '26, and Freshman Henry Armond were in Greensboro on a visit last week.

F. L. Snipes has returned from Indianapolis, Ind., where he represented the local chapter Theta Kappa Nu at their national convention.

Glee Clubs Will Form Association

South Carolina Clubs Issue Call to
All Southern Colleges to Meet
at Greenville

Those who are familiar with the influence and use of music in history, and all lovers of music, will be interested in the movement which is on foot to form a Southern Association of Men's College Glee Clubs. The South Carolina Glee Club Association has issued, by letter and press, an invitation to all men's colleges in the South which have glee clubs to send representatives to Furman University, Greenville, S. C., in January of the coming year for the purpose of forming a South-wide organization. The South Carolina Association has been in operation for several years, and is a proven success. The plan of the organization committee is to form a similar association in each state, with all the state associations forming a Southern association. The New York Musical Corporation has for several years been active, holding annually a contest among the clubs of the larger universities of the north and east, and the winner of the southern contest will have the privilege of entering this national contest each year. The New York Corporation is cooperating with the South Carolina Association in forming a southern organization, and will probably have a representative at the conference in January.

The purposes of the Southern Association will be to create a wide-spread interest in music among the people and colleges of the south, to facilitate the annual holding of a State contest in each State, and a Southern contest by the winners from the different states. Among other things such an association serves to:

Give non-athletic students opportunity to participate in college life.

Maintain a high standard of program for college glee clubs.

Promote a friendliness and fellowship between students of different colleges.

Create interest in cultural and general education.

Give recreation of a worthy sort to thousands who would not otherwise receive it.

The contests are so planned as to

take little additional time in preparation, and the songs can be prepared along with the regular annual program for the club. The expenses of the clubs attending the contests are paid by receipts from tickets sold. Maxie C. Collins, Jr., of Furman University, Greenville, S. C., who was president of the South Carolina Association for '24-'25, is chairman of the organization committee, and is assisted by W. J. McGlothlin, Jr., of the same school. Anyone desiring further information may receive it by communicating with either of the above mentioned.

Students Vote In Favor U. S. Enter World Court

(Continued from page 1.)

final chapter of the World Court agitation at this institution, but it is on the calendar for consideration at the present meeting of the United States Senate.

It is interesting to note that 85 per cent of those voting were in favor of the United States joining the World Court. By classes the ballot was: Freshmen, 136; Sophomores, 102; Juniors, 68; Seniors, 69; Graduate, 4; and Special, 2.

It is hoped that the past few weeks of study on the World Court will only be the beginning of a general awakening among State College students to the vital necessity of studying international affairs.
