ANNOUNCE PLANS SUMMER SESSION

Annual Summer School To Open
on June 14 and Close
July 23

PROVISION FOR WOMEN

Courses Include Many Technical
Subjects, Work For Teachers,
and For College Credit

By TAL H. STAFFORD

The preliminary announcement of the State College Summer School, which will be held June 14 to July 23, has just been issued by T. E. Browne, director.

The purpose of the summer session of the college, according to this preliminary announcement, is three-fold in nature: first, to provide professional and subject-matter instruction for high school teachers and principals, and for persons in administrative positions; second, through the regular college credit courses, to give students the chance to continue their work during the summer; third, to make it possible for North Carolina citizens to take advantage of the type of instruction State College is so adequately equipped to give. The latter has special reference to short-term courses and conferences which will be arranged to suit the convenience of farmers and farm women, boys' and girls' club leaders, industrial and commercial workers, and special groups of teachers.

The elaborate technical equipment in the fields of agriculture and engineering, and the physical and social sciences, together with its highly trained faculty of 200 men place North Carolina State College in a position to render the State a unique service. It is possible for students to complete a half term's work in the summer session. This arrangement should appeal to students who wish to lighten the student load during the regular term, in order that they may participate more largely in other college activities. It also enables students to get off back work and thus proceed with better college standing.

Special Work for Teachers and Principals
The State College Summer School should attract all teachers interested in further training in technical fields, as well as high school teachers and principals. Courses of college grade will be offered in all subjects given in the regular session, provided there is a sufficient enrollment to justify holding classes. In addition to the subject-matter courses, there will be a long list of professional courses from which the teacher may select. Any

GILLILAN PLEASES PACKED AUDIENCE

Popular Humorist Visits State
College For Second Time
in Two Years

For the second time in as many years, an audience that filled Pullen Hall to capacity was delightfully entertained by Strickland Gilliland Monday night. Mr. Gilliland is one of America's foremost humorists, lecturers and authors, being a member of the editorial staff of "Judge."
Mr. Gilliland's talk was primarily humorous, yet it contained numerous bits of serious thought in his poems of childhood, several of which he gave, talking and reciting in the same tone without lifting or lowering his voice, piling sentence upon sentence, with scarcely a pause between, he looks and speaks like the philosophic jester that he is. His appearance has been described as that of an undertaker at a convention of oldest inhabitants.
Rambling from one subject to another, as are most of the lectures of this type, Mr. Gilliland touched on numerous subjects, each one as humorous as its predecessor, yet none deserving the name of being silly.
"Mr. Coolidge is so quiet that you can almost call his salary hush money," he remarked in referring to the President. Then he jumped to a discussion of Congress, stating that it was representative of the people, and recalling the fact that a census during the World War showed that 65 per cent of the inhabitants of this country were half-witted. He referred to Senator Cole L. Blease, of South Carolina.

Top Row, left to right: Coach Tebell, Manager Jones.
Middle Row: Waters, Brown, McDowell, Spence, Williams.
Bottom Row: Davis, Bremer, Captain Dickens, Watkins, and Gresham.

STUDENTS SHOW THEIR APPRECIATION OF TEAM

Lively "Pep" Meeting Held in
Honor of Best Basketball
Team in Many Years

At a very enthusiastic meeting held in Pullen Hall Monday the student-body of State College celebrated the achievements of its basketball team. Word had already been received that the team had been eliminated from the tournament in Atlanta, but this fact did not dampen the spirits of the assemblage.

The meeting was opened by a snappy march played by the band. Henry Kendall, president of the student-body, presided and presented Dear Cloyd, who proposed the affair. Mr. Cloyd announced that he would relate some ancient history, and read from the *Agromech* of 1919. This was the last time State had won the championship of North Carolina in basketball until the present year.

The next speaker was Colonel J. W. Harrelson. He told of the beginning of basketball on the campus. Especially interesting was his account of the first game which was played in Pullen Hall against Wake Forest. At that time it was a purely voluntary proposition, but later received official sanction of the Athletic Department. J. F. Miller, Director of Athletics, praised the team and Coach Tebell for the splendid playing they had done in the tournament as well as throughout the year. He attributed their success to their willingness to sacrifice personal pleasure for the good of the team. He also stated that he favored fewer games and bigger games for next year.

Dr. C. C. Taylor, Dean of the Graduate School, was the last speaker, and he had to stop many times for the applause to subside before his voice could be heard. He told of the many insipid basketball games he had witnessed since he came here six years ago. He attributed the present success to three things: the coach, the men on the team, and the spirit of the student-body.

The meeting was by far the most enthusiastic held this year. Even though the team had been defeated, the boys were proud of the record their team had made.

Throughout the meeting Ed Ruffy led several yells at intervals between talks. Feeling was at fever heat and did not calm until the last man was outside the building.

KENDALL CHAIRMAN "Y" NOMINATING COMMITTEE

Henry Kendall has been appointed chairman of the Nominating Committee of the Y. M. C. A. The other members of the committee are Dean E. L. Cloyd and R. J. Peeler. The President and General Secretary of the "Y" are ex officio members.
The committee is expected to report in the near future. The election will be held at the same time the student-body election is held.

Basketball Team Makes Fine Show in Southern Tournament

ENGINEERING JUNIORS GET SUMMER PRACTICE

Must Spend Six Weeks in Field
of Chosen Profession After
This Year

Beginning with the class of 1927, all of the engineering juniors will be required to spend at least six weeks during the summer in some form of work along their particular line. The engineering faculty believes that by requiring this of all juniors they will have a better idea of their line of work and will be more able to decide in which field they wish to specialize. This experience will not only help the students in selecting their professions but will also tend to increase their interest in the senior year subjects.

The juniors of 1927 will be the first class to do practical work under the requirements laid down by the faculty. Some of the electrical students will be located with Westinghouse at Pittsburg, some at Baden, and many with different companies in the State. Civil Engineering juniors will go with different construction firms and surveying parties in the State.

The summer work of the engineering students between their junior and senior years has been practiced at the University of North Carolina and has proven a success. Other leading schools of the South have this system in practice, and in all cases it has worked out favorably.

WALLIS GOES TO ARKANSAS AS EXTENSION SPECIALIST

Was Editor of The Technician,
Member of Wolfpack, and
Honor Student

S. Ross Wallis, '25, who is well known by the upper-classes at State, has just received a high honor. He has been appointed State Extension Poultry Specialist for the State of Arkansas. He received his appointment last week and left Asheville Sunday for Little Rock, Arkansas, to take up his new duties.

For the last year he has been Assistant County Agent for Buncombe County, and has done much valuable work.

Sam will be remembered as one of State's high honor men in scholarship, a member of football team and Editor-in-Chief of THE TECHNICIAN. This new appointment comes as a signal honor and is another high achievement to be added to the list already made while here at State.

The recent dormitory fire at S. M. U. caused a loss of about \$175,000, exclusive of personal belongings of students.

SENIORS, NOTICE!

It is time to order your invitations for Commencement. Please help get this matter settled by placing your order now. Don't wait until the very last. It is necessary to collect as order is taken so that contract can be filled with the printers. Final order must be made before March 25.

J. E. GRIFFITH,
Chm. Invitation Com.

CONCERT BAND WARMLY RECEIVED AT KINSTON

Musical Organization Guest of
Caswell Training School for
the Feeble-minded

Returning to the campus in a more or less frozen condition, "Daddy" Price's concert band completed its second trip to a state institution for unfortunates. This time the trip was made to the Caswell Training School, near Kinston, where the band met with a very warm reception.

About thirty-five men made the trip, leaving the college at one-thirty Saturday. The transportation was furnished by the State Highway Commission in the form of cars and trucks. Those who were unlucky enough to ride in the trucks did not enjoy the beauties of Nature as they sped along to the extent of becoming dumb in admiration. However, the dust had a great influence in producing silence, and the necessary finishing touches were added when the convoy rolled through the well fertilized fields of the school. Before the origin of a penetrating odor was discovered diligent search was made in the trucks and cars for the cause. This illusion soon vanished when the fertility of the fields and its cause was noted.

Playing to about four hundred pupils, whose ages varied greatly, the boys put across a program that was received very enthusiastically. The quartette, as usual, made a big hit, being encored repeatedly. Becomingly arrayed in freshman caps, they went through their repertoire of songs, popular and otherwise, without a hitch, and could have had an audience for as many more songs without any lack of enthusiasm. W. K. Enos, solo cornetist, also was applauded at length when he played the well known but difficult "Inflammatus" from Rossini's "Stabat Mater."

One of the most enjoyable features of the occasion was a banquet given the boys by the school authorities. Although the inmates are considered to be of low mentality, this condition did not extend to the nurses and teachers, which were numerous and good to look at.

Leaving the school about eight-thirty in a light snow storm, the long trek homeward was begun, to be completed, none too soon, when Sunday was still young. The mercury's nose dive added very little cheer to the weary trek back to school, but made the warmth of the dormitories very welcome.

SYMPHONIC QUARTET GIVES PROGRAM IN PULLEN HALL

Repertoire Consists of Variety
Selections Ranging From
Classical to "Jazz"

The Cleveland Symphonic Quartet, which played in Pullen Hall Sunday evening, February 28, sent away a delighted audience of students, faculty, and city folk.

The musical instruments used by the quartet were a violin, violin cello, harp, flute and piano. Miss Nell Steck played the piano and harp, Mr. William Moran the flute, Mr. Vern Leslie the violin, and Miss Morris Lewis the cello.

The playing of classical, semi-classical, and even jazz was featured on the program. The different numbers were arranged in such a way as to give a well-balanced program.

Near the end of the program a contest was held by playing popular music of today, of twenty-five years ago, and forty to fifty years ago. When the music of the latter period was played the audience seemed to appreciate it the most. Such pieces as "When You and I Were Young, Maggie," and "Old

ANNUAL CHICKEN BONE LICKING BY YELLOW CUR HELD

Poultry Science Club Banquets
on Milk-fed Chickens Thurs-
day Evening, March 4

RAISED BY THE STUDENTS

Z. P. Metcalf Announces Inten-
tion of Assisting in Passage
of State "Monkey Law"

Feasting on young milk-fed chickens, with all the trimmings, Kennel 999 of the National Order of Yellow Curs held their annual spring bone licking at State College Thursday evening at 7:30, March 4.

The Yellow Cur is a social organization sponsored by the Poultry Science Club of the college. Its mission is to create a spirit of fellowship among the students, faculty, extension workers, and friends of the Poultry Department. J. B. Slack, president of the Poultry Science Club, acted as toastmaster of the occasion. The big event of the evening was the banquet itself. Preparations for this occasion had been going forward since the opening of the college, in September, as the chickens have been hatched, reared, and fattened by the students of Poultry Science. The finished product is the best that Dr. Kaupp and his department are capable of producing.

Music for the occasion was furnished by the freshmen quartet, which was encored repeatedly.

Short talks were made by several members of the faculty and extension force. The most outstanding of these was that of Dr. Z. P. Metcalf, director of teaching. He stated that he had four hobbies in life. First of these, said Dr. Metcalf, is home and family. Second is the School of Agriculture, which is destined to become the leading agricultural school of the south. Third is his collection of bugs, which he hopes to make of national importance. His fourth hobby, and the one to which he is lending his whole strength, is to see that the next General Assembly of North Carolina may pass the "monkey law," so that this state may take its rightful place along with Tennessee and other progressive states.

Other speakers were: Dr. B. F. Kaupp, Dean I. O. Schaub, Dean B. F. Brown, Prof. T. E. Browne, Dr. R. Y. Winters, and Professor Henninger. There was a total absence of anything that resembled pedagogy. Perhaps the most boyish of the group were the faculty members and the visitors present. The active members and visitors numbered about one hundred and fifty.

ROPE IS BROKEN FROM FLAG POLE

Has Been Five Years Since Van
Sant Climbed Pole to
Put in Rope

The flag has not been flying over the lone cannon in front of Holladay Hall for the past few weeks. The rope which was used to raise and lower the flag is broken. No one has climbed the pole to put in a new rope. The fire department will probably be asked to aid in putting in a new rope.
=The last time that this catastrophe visited the campus was about five years ago. At that time D. B. VanSant was in school here and he climbed the pole to put in a new rope. He worked a rather unique method of climbing. He placed a wire around the pole and then fastened it to his feet. When he supported his weight by his hands the wire would get slack and he could lift his feet and tighten the wire and it would support his weight.
=No one has been up the pole since except last spring "Polly" Moore, a student, went up the pole and painted it.

The other day when the rope was broken no one would go up the pole. On Tuesday Mr. Wright, the college electrician, agreed to climb the pole. He even put on the hooks and went a part of the way up the pole, when Mr. Kennedy told him not to climb the pole. The reason for this decision was the fact that a woodpecker has made a hole in the pole up where it is small, and the wind was very strong. The fire department will be asked to assist in putting in a new rope.

Are you a loyal State College student? Then you will help

Make that high school basketball tournament a success.

Resume of Basketball Season Shows Marked Improvement

Tebell's Red Terrors Upset Dope in North Carolina Sport Circles

THE BEST TEAM SINCE 1919 Terrors Win Much Admiration in Atlanta Tournament, Despite Defeat

A day or two before Christmas a rather weak-looking basketball team was held to a tie for twenty minutes by the little Atlantic Christian College tossers, and only won out in the last half. About two months later that same team, or rather the same players but a very different team, romped about on the same court and showed the Champion Tar Heels their getting-off place, to the tune of 17 to 8.

In the meantime, and later, Tebell's Techs, for that's who it was, set up the very enviable record of fifteen wins out of eighteen games at Atlanta. State's cagers dropped the ball through the basket for 746 points, exactly 223 more than their opponents. State's average superiority was 10 points, having a score of 34.4 per game as against 24.3. To show the regularity of the Tech's scoring, only four times did the count rise above 40, and only one lone time did it fall below 20. Similarly, five times only did State's opponents count 30, and only once did they stay in the units column.

The members of this wondrous team were: Dickens, captain and forward; Gresham, Williams, Eldenhour, forwards; Brown and Spence, centers; and Watkins, McDowall, Waters, and Davis, guards.

THE SEASON—GAME BY GAME (courtesy 1926 Agromock)

Opening Contest With A. C. C.
'Twas on Saturday night before Christmas when the "Red Terrors" won their first victory of the season over the smooth passing quint from Atlantic Christian College. The first half was a close contest, but the Techs came back in the second half and piled up a lead that was never overcome. The final score was State 37, A. C. C. 20.

"Red Terrors" Defeat Durham "Y"
The Durham Y. M. C. A. basketball team came to State with their aggression of star players with a strong determination to take revenge for the defeat last year, but they left badly disappointed. From the very beginning the Terrors showed their superiority. The end found State the winner, 45-12.

State Visits High Point
On the first trip of the season Gus Tebell's "Red Terrors" made a flying start by defeating High Point with a score of 33-21. The game was unusually fast and kept the spectators on edge throughout.

Pays Visit to Lutherans
On the following night, after having brought High Point into camp, the State basketballers showed the lads at Lenoir-Rhyne that Gresham and McDowall were far too fast for them, by allowing them only one field goal out of the 26 to 11 score.

Davidson Entertains State
Due to the speedy floor work of Gresham and the accurate shooting of Dickens, Tebell's Warriors defeated the Presbyterians by a good margin. The Techs were in the lead throughout the game, but the Wild Cats tightened down at one time and came within two points of State's score. The end found the score to be 33-24.

"Red Terrors" Invade Deacons
Led by the flashy Gresham, State made her first real start toward the coveted State championship by defeating Wake Forest. The Red Jerseymen played real basketball and the victory was deservedly won through their superiority in speed and accuracy in shooting. The young warriors tossed the ball through the hoop with great regularity and from all angles until the end of the game, with a score of 37-23.

State Entertains Clemson
The lads from the Palmetto State presented some good passing but they were unable to penetrate the quick forming five-man defense of the boys wearing the red jerseys. A sufficient score was piled up early in the game to permit an almost entirely second team to play over half the game. The game was handsomely won by a score of 43 to 23.

Duke Pays State a Call
The most exciting game played on the local floor in the early part of the season was when the Red Terrors defeated the Blue Devils by a lone point. Duke started off with a spurt and at

the close of the first half had a five-point lead. State came back in the second half and gradually overcame this lead, defeating the Devils by a score of 28 to 27, when McDowall looped a field goal through the hoop as the gun fired.

Terrors Invade Clemson
Tebell's mighty warriors were never in danger throughout the entire game. Although the Tigers showed much better performance than in the previous game on the local floor, they were forced to accept the small end of a 32 to 18 score.

Georgia Tech at Atlanta
It was not until January 22 that the State basketballers were forced to accept the small end of a score. At the end of the first half everything was in State's favor, with a seven-point lead. In the last part of the game the Jacks staged an up-hill battle, winning at the last moment by a field goal from the center of the court, with a score of 23 to 22.

Georgia at Athens
It was not until near the close of the first period that the Bulldogs ever gained a lead. The game was very similar to the one played the night before, and just as exciting in that it was not decided who should be the victor until the last few seconds of the game, when Lady Luck seemed to favor the Georgians. The score was 26-25.

Elon Pays a Visit
Still with a clear State record the Techs played the poorest game of the season on the local floor in an encounter with Elon. Although having a good lead in the first half, State had her hands full to keep the Christians from overcoming the ten-point lead during the last period, when the game ended with a score of 29 to 24.

Duke Again Defeated
Although the game was slow at the outset, it rapidly speeded up as the red-blooded Terrors warmed up. It ended one of the fastest games of the season. Showing that the one-point margin earlier in the season was only an accident, the Techmen had no trouble in maintaining a lead throughout the game and ending with the favorable score of 32-24.

Carolina at Carolina
The Terrors were forced to accept their first defeat of the season inside the State in Carolina's "Tin-Can." Although Carolina had led the score during the first half, State came back strong in the second half and came very near tying the score at one time. However, the close of the contest found the score in Carolina's favor, 31-21.

Auburn Here
By winning a well-deserved victory over Auburn in the Frank Thompson Gymnasium State balanced her Southern Conference record. Although the score was threatened with being tied more than once, it was the inability of the Alabamians to locate the basket that forced them to take the small end of the 43 to 36 score.

Wake Forest Again Bows
It was in this contest that Gus Tebell's swift gathering basketballers virtually made monkeys out of the famous Wake Forest quintet. However, despite this score of 27 to 18 may be, it does not show the superiority the Techmen manifested on the floor.

Gullford Visits State
It was the unusual accuracy of Captain Dickens that made the bright spot in the otherwise slow and uninteresting game here between the "Red Terrors" and Doak's Quakers. The final counting was 30 to 16 in favor of State.

Georgia Tech Tamed
The famous Golden Tornado proved to be a mere puff of wind when they met with Tebell's Terrors in the Frank Thompson Gymnasium. Captain Dickens made up for his absence in the first encounter by tossing field goals from all parts of the court. The short, dazzling passes made by the Reds gave them the 30 to 14 victory.

Carolina Dethroned
By a score of 17 to 8, in a marvelous exhibition of basketball that was characterized throughout by wonderful ability, glorious spirit, and clean effort on the part of every player, Tebell's "Red Terrors" forced the 1925 Southern Conference Champions from their throne of pomposity. Captain Dickens scored more points than the entire team from Chapel Hill. "Ground Hog" Gresham, the midget of the court, literally "hog tied" the widely heralded Cobb. McDowall rose to the demands of the occasion and dribbled like a champion, while his running mate, Watkins, constituted the other half of a defense that couldn't be

RIFLE TEAM BEATS DELAWARE UNIV.

Firing Now Beginning in Fourth Corps Shoot; Also Contest With Univ. of Kansas

The State College rifle team scored 59 points more than the rifle team of the University of Delaware for the week ending February 27.

The rifle team were not up to their usual form during the past week. They were unable to score over 3,562 points out of a possible 4,000. The week before they scored 3,557 points. The lowering of the total score was probably due to some changes which have been made in the firing order. But the team is getting the new order in their system and are gradually becoming accustomed to this method, and are bringing their scores up to what they were before.

This week the firing on the Fourth Corps area match has begun. In this match eight targets will be fired by each team member. The first stage will consist of 10 shots prone and 10 shots sitting. The second stage will be composed of 10 shots prone and 10 shots kneeling. The third stage will consist of 10 shots prone and 10 shots standing. The fourth stage consists of 20 shots prone. All these targets must be fired and scored and at the Fourth Corps Area Headquarters by the twelfth of March or the match will be thrown out.

The winner of the corps area championship is given a large loving cup with their name engraved on it. The cup becomes the permanent property of the college only after winning the cup three years in succession.

State College teams have won the cup for the last two years, and they only need to have their names engraved on the cup this year for it to become the permanent property of the college.

Besides the Fourth Corps Area match this week, the team has a match with the university of Kansas.

The scores of the team last week are:

Griffin, F. J.	372
Vick, B. L. (Capt.)	370
Oliver, S. C.	362
McKinnon, J. H.	360
Vinson, A. J.	356
Barnhardt, M. L.	355
Greene, L. M.	349
Hood, E. E.	347
Rines, H. R.	347
Mast, P. H.	344
Total.	3,562

PURINA MILLS TO SEND REPRESENTATIVE HERE

The Purina Mills will have an employment representative at State College on March 22 and 23 to interview seniors in Agriculture.

The Purina Mills have seven large factories. One located at Minneapolis, one at Kansas City, one at St. Louis, one at East St. Louis, one at Fort Worth, one at Buffalo, and one at Nashville.

broken. Brown and Spence, who alternated at center, played a winning game from the starting whistle. Though all of these facts were evident, the strength and effort of the Tar Heel "Wonder Team" must not be underestimated.

Carolina led at the end of the half by a score of 7 to 6. In the second period Carolina made history by proving unable to score a single field goal. A lone foul shot accounted for the one point that the record shows for the Tar Heels during the closing period.

Davidson Again Victim
True to "Wild Cat" style the Davidson team rushed in the lead by a three-point margin soon after the starting whistle had blown. However, the consistent "Red Terrors" soon hit their championship stride, and an air-tight defense in conjunction with deadly accuracy in passing and shooting accounted for the one-sided final score of 35 to 19.

Techmen Defeat Christians
This was a game that opened fast from the sounding of the first whistle, and at no time throughout the entire forty minutes of play did it lag. The Elon tossers put up a stiff fight against the mighty Red Terrors, but were conquered by the handsome score of 27 to 18.

Extra Point For Quakers
This was a game of unusual interest, not because it represented the closing of the most successful season of basketball in many years, but because the score was tied five times, and one extra period was necessary to decide the winner. The first half was played almost entirely by second line men, which probably accounts for the close score of 32 to 31 in favor of the State Champions.

BASEBALL SCHEDULE ANNOUNCED FOR SEASON; MEET ELON MARCH 27

The State College nine, under the direction of "Click" Doak, will open hostilities of the 1926 season by pitting their heavy artillery against that of the Fort Bragg artillery men on Riddick Field on March 27. Carolina will close the campaign, also at Raleigh, on May 22.

Dartmouth and Georgia Tech are the only far-away teams to be met this year, and both will visit here. Wofford and Furman, both in South Carolina, are the other newcomers to the Tech schedule. Clemson will in all probability also be met while on the South Carolina trip, the date of April 21 having been offered to them. Gullford needs only to return the contract to make certain their date of May 10 at Raleigh.

The schedule, as announced by Athletic Director J. F. Miller, is as follows:

March 27—Fort Bragg at Raleigh.

March 30—Elon at Raleigh.
April 1—Dartmouth at Raleigh.
April 5—(Easter Monday) Wake Forest at Raleigh.
April 10—South Carolina at Raleigh.
April 13—Wofford at Raleigh.
April 15—Elon at Elon College.
April 16—Davidson at Gastonia.
April 17—Davidson at Davidson.
April 19—Wofford at Spartanburg, S. C.
April 20—Furman at Greenville, S. C.
April 24—Duke University at Raleigh.
April 27—Lenoir-Rhyne at Raleigh.
April 28—Georgia Tech at Raleigh.
April 29—Georgia Tech at Chapel Hill.
May 4—Carolina at Chapel Hill.
May 7—Lenoir-Rhyne at Hickory.
May 15—Wake Forest at Wake Forest.
May 20—Duke University at Durham.
May 22—Carolina at Raleigh.

teams have been entertained by Mr. and Mrs. Hicks, after the final match.

CERAMIC DEPARTMENT SOON BE FULLY EQUIPPED
The Ceramic Engineering Department is rapidly installing new machines and equipment, which will enable State College to be known as having the best equipped Ceramic Engineering Laboratory in the south. Although laboratories and equipment are important, the lecture-room equipment has not been neglected by any means. One of the best ways of putting across lectures of a technical nature is by illustrating the detail points. This is now being done most efficiently with the Balopectin machine. The remarkable thing about this machine is that diagrams from the printed page of any text-book can be projected on the screen. This will show every detail of

TAR BABIES OUTCLASS LITTLE RED TERRORS

Freshmen End Season With Poor Exhibition; Has Been Successful Year

The "Little Terrors" did not terrorize the Tar Babies of Carolina last Saturday night down in the Frank Thompson Gymnasium. Carolina won to the tune of 24-17. The game was one of the worst played by the Tech Freshmen this year.

Carolina started the game with a rush, scoring a field goal in the first few minutes of play. State was slow in getting started, and by the time that they got started, Carolina's count was several points ahead. The first half found the score to be 14-7, in Carolina's favor.

Holden stood out for the State Fresh, while Satterfield was the star for the Carolina aggregation. The Waring, Goodwin, and Young combination was unable to cope with the stiff guarding of the "Tar Babies." Time after time they were turned away from the goal when a score seemed inevitable.

Waring, with 6 points, was the high scorer for the "Green," with Mason and Holden on his heels with 4 points each. Satterfield and Hackney of Carolina were tied for first place with 9 points each.

This game should have been an easy win for the Tech Freshmen, as they defeated Carolina 35 to 18 in the first game, played at Chapel Hill.

the diagram and brings out the colors that are sometimes used. This is much more economical than the machine which uses the slides, which takes a lot of time to make. During the course of one lecture illustrations can be taken from several sources.

Pick a pipe and pack it with good old P. A.

TALK about "alliteration's artful aid" . . . the printer certainly raided the "p" box that trip. But let that go! The advice is just as serious and sound as though it were couched in the careful diction of an English prof.

Just get yourself a jimmy-pipe and fill the bowl to the brim with Prince Albert. Light up, and let the first fragrant whiff tell you that no other tobacco is like P. A.—or can be! Cool and sweet and fragrant, P. A. has everything a fellow ever wished for in a smoke.

P. A. can't bite your tongue or parch your throat. The Prince Albert process settled that in P. A.'s freshman year. Get yourself a tidy red tin of Prince Albert today. The first load-up will tell you why pipes are so fashionable among young men today.

PRINCE ALBERT

—no other tobacco is like it!

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

© 1926, R. J. Reardon Tobacco Company, Winston-Salem, N. C.

PHI KAPPA TAU WINNER OF FRATERNITY TROPHY

Narrowly Defeat K.I.E. Twice in Three-game Championship Series

The Phi Kappa Tau Fraternity won the two deciding games of the season from the Kappa Iota Epsilon team on Monday and Wednesday nights of this week. By virtue of these wins the Phi are fraternity champions of the college in basketball, as they were the winner of one group, and the K. I. E.'s were the unquestioned leaders of the other.

Both games were exceedingly hard fought and not settled until the last whistle, as the scores—13-10 and 13-12—show. Until that final championship series both teams had a like record of 7 wins and no defeats in their own group.

In the opening encounter "Legs" Faulkner was the outstanding star, scoring eight of his team's points. Seal outranked his team-mates by counting six times out of their total of 10.

In the final and deciding battle fought Wednesday night, "Little" Faulkner was the scoring ace, with 7 counters. "Skeet" Green and Seal followed close for the K. I. E. boys with 6 and 4 points, respectively. Faulkner and Seal also led in the guarding work of their teams. Luck seemed to camp

Do you expect to graduate? If so, and you have not received a requisition card for your cap and gown, see F. W. Jones, chairman of the committee, at once. No caps and gowns will be ordered for those who do not turn in a requisition. COMMITTEE.

with the winners, as their score trailed or tied for practically the entire time. Late in the contest "Tommy" Nelson tossed the ball through the basket, and hardly had it gotten back to center before the whistle ended the battle one point in their favor.

Those playing in the closing series were as follows: Phi Kappa Tau—Faulkner, C. V., Faulkner, W. B., Seal, Nelson, Crum. Kappa Iota Epsilon—Holland, Seal, Green, Powell, Jordan, Ormand.

W. T. MIDYETTE DIES AFTER LONG ILLNESS

Word was received here Thursday night that W. T. Midyette, of Lake Landing, member of the Class of 1922, had passed away in Asheville on Wednesday night following an illness of several months.

While in school here Midyette was a popular student and took a very active part in Y. M. C. A. work. After graduation he taught Vocational Agriculture until last spring.

The deceased was a member of Sigma Pi and Alpha Zeta fraternities. The active members of each of these groups met the train from Asheville Thursday night which bore the body of their friend. Members of these fraternities went to Lake Landing to serve as pallbearers at the funeral, which will be held Sunday.

WOMAN'S CLUB HOLDS BUSINESS MEETING

The State College Woman's Club held its monthly business meeting Friday afternoon at 3:30 in the College Y. M. C. A. The President, Mrs. E. E. Randolph, presided. After the business hour the meeting was turned over to Mrs. S. G. Lehman, chairman of the Social Committee. Mrs. Charles G. Doak delighted the club with a reading in "The Tolls of the Enemy." Miss Dorothy Boshart gave three beautiful vocal selections. During progressive conversation, refreshments, consisting of sandwiches, tea, cake, and salted nuts, were served.

The honor for having the best article in the issue of February 27 goes to E. G. Moore for his story, "Fourteen Scholarships and Fellowships Will Be Awarded."

AGRICULTURAL FACULTY DISCUSS ENGLISH USED

Instructors Go On Record As Favoring Consideration of English in Grading

"I ain't got no use for English, and never hain't had," said a Junior in the School of Agriculture to Dr. Z. P. Metcalf, Director of Instruction, while interviewing Dr. Metcalf about the low grades his instructors had been giving him. The careless use of English by many of the students was the order of business at a recent meeting of the Agricultural Faculty.

It was brought out in this meeting that a large percentage of the students take the attitude that the only time when they need pay attention to their written or spoken English is when they are on classes in English.

Some members of the faculty, who are in more or less close contact with the English situation on the campus, believe a higher standard should be set in English 101, or, rather, that men should not be passed out of that course until they show a better working knowledge of English.

After mature deliberation the Ag. Faculty went on record as favoring the following:

1. That extreme cases of poorly written English be brought to the attention of the Department of English.
2. That each instructor in Agriculture pay some attention to English in grading papers.
3. That the situation be given publicity through the columns of THE TECHNICIAN.

With this last purpose in view, the following horrible example of the butcherery of the English language by an upper-classman is submitted. Even this is not a fair example, because it is impossible to display in print the marked similarity in many letters of the original manuscript. In each case where there was a reasonable doubt, the student was given the benefit of that doubt. Merely the answers to questions are given, some of which may contain the right idea. They are reproduced here only to show the English used:

"Nitrogen-fixation means the gathering of nitrogen from the air by plants by the means of bacteria and making it usable to living tissue.

"Nitrification is a process of changing amino into nitrites and nitrates by bacteria.

"The pure element phosphorus is not absorbed by living tissue but by being combined with other elements in phosphates. Bacteria gives out acid and gases that unite with the insoluble phosphorus and make it soluble.

"Bacteria-reproductive characters are more like plants. With the exception of cell wall and absent of chlorophyll other morphologically structures are more like plants. They are very similar to ferguts, rather than protozo, altho fergus no chlorophyll yet a plant."

"The pure element phosphorus is not absorbed by living tissue but by being combined with other elements in phosphates. Bacteria gives out acid and gases that unite with the insoluble phosphorus and make it soluble.

ELECTRICAL SENIORS CHOSEN FOR POSITIONS

Representatives of the Southern Bell Telephone and General Electric Companies made offers to six of the Electrical Seniors during their interviews here last week.

Mr. Weisiger, of the Southern Bell, made offers to four men—E. Y. Webb, Jr., H. D. Middleton, E. M. Friar, and B. L. Vick, who will report for work in Atlanta the latter part of June.

Mr. Boring, representative of the General Electric Company, made offers to D. A. Reid and E. W. Chadwick, who will start their work in Schenectady, N. Y. Mr. Boring also made an offer to E. Y. Webb, Jr., and H. D. Middleton, who feel their inability to hold down two jobs.

All the men selected are well qualified to do the work offered them, and it is expected that they will make a success.

BASKETBALL SQUAD FIGURES IN WRECK

Four members of the Carolina Freshman basketball team and the driver of the bus in which they were riding were painfully injured last Saturday night while returning from the Carolina-State game when the bus was forced off an embankment between Raleigh and Durham by another car and caught on fire.

The driver of the bus was more seriously hurt than any of the other occupants and was brought to Rex Hospital for medical attention. The boys were able to return to Chapel Hill after having their wounds dressed at Watts' Hospital in Durham.

SCHOOL SENDS LETTER OF THANKS FOR BAND

The Caswell Training School, Kinston, N. C., March 1, 1926. Dr. E. C. Brooks, President State College, Raleigh, N. C.

My dear Dr. Brooks:

It is a pleasure to me to tell you that the State College Band and Quartet gave our institution a concert on Saturday night, February 27, 1926. To begin to tell you how much the children and employees of the institution enjoyed this concert, I am sure it is beyond my ability to do so. It was just like taking the children from some deep sorrow and placing them in some great enjoyment, which was really the case with them. I am sure every one of us enjoyed every moment of the time the members of the or-

chestra and quartet were with us, and I wish it were possible that we had something to give in the way of entertainment in compensation for the one given us.

With best wishes, I am Yours very truly,
W. H. DIXON,
Superintendent.

Guide: Would M'sieu care to see one of the robber strongholds which abound in this neighborhood?
Tourist: No, thanks. We are fixed up at one of the hotels already.

Antenna of super-power transmitter

The World's Loudest Voice

On the rolling plains of South Schenectady, in several scattered buildings, is a vast laboratory for studying radio broadcasting problems. Gathered here are many kinds and sizes of transmitters, from the short-wave and low-power sets to the giant super-power unit with a 50- to 250-kilowatt voice.

Super-power and simultaneous broadcasting on several wave lengths from the same station are among the startling later-day developments in radio. And even with hundreds of broadcasting stations daily on the air throughout the land, these latest developments stand for still better service to millions of listeners.

Only five years old, yet radio broadcasting has developed from a laboratory experiment into a mighty industry. And alert, keen young men have reaped the rewards.

But history repeats itself. Other electrical developments will continue to appear. And it will be the college man, with broad vision and trained mind, who will be ready to serve and succeed.
