## COLLEGE BAND RETURNS FROM THE STATE FAIR BOOSTER TRIP

SPENDS TWO DAYS IN SOUTHEASTERN SECTION OF STATE

Is Greeted With Much Enthusiasm At Every Stop

RALEIGH MEN SHOW APPRECIATION FOR BAND'S GOOD WORK

The State College Concert Band returned to the campus Thursday night, after a tour of southeastern North Carolina with the "Raleigh Boosters" on the "State Fair Special." "Daddy" Price and his boys put in their share of the entertainment at each of the 37 towns visited. Ben Dixon MacNeil accords them 49 per cent of the enthusiasm stirred up along the way, while the Raleigh Times says that "over half" the enthusiasm was due to the Band. O. Max Gardner, however, was the individual high scorer.

The Band boys thoroughly enjoyed the event, although called upon to do much work. They got away to a good start when, at Garner, they were met by several hundred school children and their parents, all of whom went wild over the music and the souvenirs distributed by the Raleigh business and professional men. It was largely a repetition of this performance at each town until Goldsboro was reached. At this town a parade was on the schedule, and the work of "Railroad" Fountain in his new capacity as drum major was the outstanding feature of the parade. To use the favorite slang vernacular, it must be said that he truly "slings a wicked baton." After having used the "stick" in many ways heretofore unknown by the members of the Band, it finally made connection with his military cap, causing it to depart from his head and go spinning across the street. At Clinton, the next place to parade, he was more conservative, and he and his cap never parted company.

At Warsaw the special train was met by "Big" Eller and N. M. Smith, State College men of the Class of '25. Eller is developing the football prowess of Duplin County, while Smith is laboring with its mental development. If they fail to fall in love with some of the beautiful girls that were present in numbers comparable to the sands of the desert, then they are more than human.

At Wallace a bevy of beautiful girls, representing the town, endeared themselves in the hearts of the "boosters" by passing around grape juice and cigars. This feature was conspicuous because of its absence at other places.

The night was spent at Wilmington, and the Band contested with the president of the Fair, O. Max Gardner, for first place in the favor of the townspeople.

The second day was a fair repetition of the first. In Bladen County great ovations were given the "boosters." Among the many counties visited, Duplin, Pender and Bladen were probably the most enthusiastic. At Lumberton, while parading, the drum major was again compelled to leave the Band to take care of itself while he chased his unruly military cap.

At Hamlet, Tom McCrea and Early Smith were encountered. They immediately attached themselves to the party and went on to Rockingham, where an improvised quartet gave a few selections, along with a parade and a speech by a "booster." A group of Hamlet ladies also accompanied the party to Rockingham, and the Band boys were so presuming as to come near putting the Raleigh men out of the running with the

AGROMECK PHOTOGRAPHER HERE FROM OCT. 1 TO 15

PHOTOGRAPHIC WORK TO BE DONE BY SIDDELL

Co-operation of Student Body is Necessary to Obtain the Best Results

The "Good-Will" Committee from the Raleigh Merchants Association held an important meeting at their office in the Bland Hotel Monday after-

noon. The purpose of this meeting was to promote a better feeling between the students and business men of Raleigh. Representatives from the publications of Wake Forest, Meredith, Peace and State College were invited to this meeting to discuss with the merchants the bringing about of a better understanding between the two groups.

For some time there has been some misunderstanding among many Raleigh merchants as to the attitude of the Merchants Association in regard to college papers and other official publications. However, Mr. Hudson, president of the association, and Mr. Gunn, chairman of the committee, made it clear that they were strictly supporting the college publications in advertising and any other possible way.

This decision will very materially affect the quality of local collegiate publications, as many of these depend to a large extent upon their advertisements to finance their operations. That advertisements in college papers may be made profitable was brought out by Mr. A. S. Brower, Business Manager of State College. He mentioned the tactics used by foreign concerns in securing trade from the boys, and suggested some means for interesting the college boys in local merchandise. The delegates from the colleges assured

## RALEIGH MERCHANTS ASSOCIATION PROMISES TO SUPPORT COLLEGES

DECISION MEANS MUCH TO PUBLICATIONS FROM FINANCIAL STANDPOINT

College Students Urged to Patronize Local Concerns in Return for Co-operation

"Good Will" Committee Active in Securing Action Favorable to Colleges

Individual pictures for all Seniors, Juniors, and Sophomores will be made at the Y. M. C. A. beginning next Thursday, October 1, and continuing through Saturday, October 10. Pictures will be made at the rate of about eight each hour from 11 a. m. to 9 p. m.

All photographic work for the 1926 Agromeck is being done by Siddell Studio of Raleigh. Mr. Gale V. John, of Cleveland, Ohio, who recently became connected with Siddell's Studio, will do the photographic work for the Agromeck. Mr. John has had several years experience and is a very capable photographer. Last year he did the photographic work for the University of West Virginia. Mr. Siddell will supervise all work, and he promises the best co-operation of his complete staff.

The prices for space in the Agromeck are due at the time of sitting and are as follows:

Seniors .....	\$10.00
Juniors .....	5.00
Sophomores .....	3.50

Of this amount \$1.50 is paid the photographer, which may be applied on individual orders for pictures if the student so desires. Four exposures will be made of each student, and Mr. Siddell absolutely guarantees a satisfactory picture.

Over 600 pictures will have to be made in this limited time of ten days, so it is hoped that all students will co-operate with the staff in every way possible. Appointment cards will be sent to the student at least three days in advance, and each student's name and hour of appointment will be posted on the Agromeck bulletin boards. If any student finds his appointment is inconvenient, he should call at the Agromeck office and get a new appointment. The staff will do their best to please everybody.

At the time of sitting, each student will be asked to fill out a questionnaire which will serve as a complete record of each man and will aid the staff to eliminate all errors in the book. Samples of these questionnaires may be seen on the bulletin boards or at the office.

the committee of every co-operation on their part in return for their friendly attitude.

## WOLFPACK OPENS SEASON WITH 20-0 VICTORY OVER RICHMOND

SOPHOMORES PAINT NUMERALS AT GIRLS COLLEGES IN CITY

Place Guards at Meredith to Keep Watch Over Prized Design

TEXTILE TOWER RECEIVES THEIR ATTENTION, ALSO

In accordance with the customs and traditions of State College, the numerals of the class of '28 have appeared in

the customary places about the campus and at the various sister institutions in Raleigh.

After the numerals were finished on the campus, the entire class journeyed to Meredith two nights later and were rather noisily greeted by the Sophomore class of that institution. The usual exchanges of songs and yells took place and then four 28's were painted: two on the corner of Edenton and Blount streets, one of which was dedicated to the Meredith Sophomores. The other two were painted directly in front of Dr. Brewer's home.

After the painting was finished at Meredith the class moved on to Peace, where they were again greeted with yells and songs. Here a 28 was placed in front of the main gate to the entrance of the campus. After the painting was finished at Peace, the Sophs decided it was too late to go to Saint Mary's, so that the placing of the numerals there was put off until another date. However, by the time this issue is in the hands of the readers they will have appeared at that institution.

On the night of the painting at Meredith it was decided best to post guards to protect these freshly painted numerals. It would have been very discouraging to the Sophomores who had done the painting to have their work destroyed even before it had a chance to dry, so three men volunteered to keep vigil over these cherished numerals through the night.

The night passed slowly for the weary watchers, but as the sun rose they were aroused from their stupor by the silent approach of many people. To the surprise of the watchers it was the entire Sophomore class of Meredith who turned out to view the new numerals dedicated to them. The men who had remained on guard all night were cheered by the girls, and true to life they blushed readily in the presence of so many of the fair sex. It is needless to say that these Tech Sophs enjoyed a delightful hour until the coming of the fresh guards. The tired men were too eager to gain their bunks, for shortly after their departure a sumptuous breakfast was brought out to the dismay of the new guards, who had just come from their breakfast at the college dining hall, but who did justice to this repast in place of those who had earned it.

JOHNSTON AND McDOWELL STAR; TEAM WORKS WELL

Featured by a Seventy-Five-Yard Run by McDowell

TEBELL SENDS IN WHOLE TEAM OF RESERVES, WHO MAKE A FINE SHOWING

Bang! and the State Wolfpack pried the lid off the football season in this section of the State at Riddick Field yesterday afternoon by trouncing the Richmond Spiders 20 to 0. State started very much off at first but as the game progressed she began to work herself up and by the end of the last quarter she was going at full speed. Never in danger after the third period, Coach Tebell sent in practically his entire second and third string men to relieve his tired Varsity, and they showed up very well.

It was toward the end of the first quarter that the Wolfpack found themselves, and they at once began to march down the field and a touchdown. W. Shuford has the honor of making the first score of the season by plunging over the line from the one-yard line. Try for point by the air was good, McDowell to Johnson. Neither team scored any more until the fourth, when the fighting sons of the Red and White pushed across two more markers and one try for point. The second score was the result of a pretty seventy-yard pass, McDowell to J. J. Bynum secured try for point by drop kick. The third and final one came as C. Shuford dashed across the line after receiving a five-yard pass from Johnson, and ran ten yards. Bynum's try for point failed.

State at first played very poorly and was on the defensive most of the time during the first and second quarter; but it was in the third and fourth that showed that the coaching of Gus Tebell had not been in vain. During the first three-quarters of the game Richmond showed very little fight, and it was only at the closing minutes of the contest that they let loose with any kind of offensive power at all. Their dazzling passes practically swept the Wolfpack off their feet for a few minutes, and only an incomplete pass over the line denied them a score. At this juncture the Spiders had completed three passes out of eight for gains of eleven, twenty, and twenty-five yards, respectively.

McDowell, the fast-stepping half from Rockingham, was the star of the game. His work of passing, punting and running was brilliant. His longest run of the game for seventy-five yards was made only after he had sidestepped and dodged many of his would-be tacklers. Capt. Johnson ran McDowell second honor for excellent work. His plunging and dashing ability were very pretty and attributed much to State's offense. In the third quarter Al got loose around right end for a sensational run of twenty-five yards, and was only hauled down after several players had tackled him.

State was somewhat off in the passing line, only completing two out of seven attempts, having one of them intercepted. Richmond completed four out of nine and had one intercepted. The Wolfpack scored seven first downs to the Spiders five.

Line-up and Summary		
State	Position	Richmond
Watkins	R. E.	Goode
Bynum	R. T.	Demotte
White	R. G.	Trummer
Logan	C.	Gibson

## Editorials

Query: How do the Meredith people always manage to pass by just at supper time?

Speaking of weather reminds us that our staff were "hot under the collar" all last week.

A joke is all right in its place, but really it's time to cast aside that old straw lid.

Supper on Sunday is indeed a luxury. Will it last, or are they just "legging" us for a while?

One advantage of being a member of the Band is that it teaches a fellow to blow his own horn.

A French psychologist says that rest is complete relaxation of body and mind. Bet it would be fun to try it once.

According to the clock it is six and one-half hours from breakfast until dinner (a la southern). According to our anatomy it is a day and a half.

The Agromeck staff plans to buy a car, according to Mr. "Yelps." Not willing to b outdone, THE TECHNICIAN staff will begin negotiations at once for the purchase of a bicycle.

Our favorite college weekly stated last week that a committee will be appointed to look after refund fees. We have been waiting four years for this thing to happen. Cheer up, fellows, our dreams are about to come true.

During the first week of school our Senior Class president met with an accident. Soon afterwards the president of the Sophomores met with an accident. We are not superstitious, but just the same, if we were Freshmen, we wouldn't politic very much for the president's place when the class election is held.

When the orchestra at the State Theatre played our Alma Mater Monday afternoon approximately three people cheered. Later another State College song, whose music was borrowed from Sousa, was played. State students all over the house then raised their voices loudly in approval. The moral is left for you to figure out for yourself.

## WAKE 'EM UP!

Often we hear the cry of too many organizations in a college community. If we are not mistaken, State College is rapidly marching to that state of affairs. What seems to us to be a fairly good thing to do would be to rejuvenate a long-neglected member who has slumbered peacefully these many years, except for an abrupt call once a year. This stagnant organization to which we refer is the county club. Custom and vanity induce us to belch forth the price for a picture in The Agromeck, and then it is usually all over until exactly one year.

Here is a possibility. The county club may be used for many things. It can become an agency for bringing more men here—if we are foolish enough to go wild over mere numbers—and most of us are. It could create a feeling of fellowship among us if we gave it the opportunity. It may be made to serve as a social unit, to fill a gap in the lives of new men especially. Finally it may help in the task of presenting State College, just exactly as it is, to the people of North Carolina. Such a presentation, we think, would be of more value than the raving of some imaginative newspaperman or the soft stuff that is usually handed out by college papers.

## WHICH IS BETTER?

The proceedings and conclusions of the Student Council have long been a subject for discussion. Many of our leaders in campus life have thought that the plan of secrecy was best. Others have thought that publicity was preferable, and have said so.

We are raising this question purely from the standpoint of the news involved. It is not the purpose of this editorial to discuss the merits of either system from the standpoint of the Student Council. We are looking at it from the point of newspapermen. The beginning of the year seems to us a good time to have some opinions from students and faculty on this matter.

Everyone knows that newspapers print much material that no one is especially proud of, yet it is news and the people are entitled to know about it. Should THE TECHNICIAN print the details of the affair when several men are found guilty of breaking a law of the student government? Which of the two courses, secrecy or publicity, will do most toward reducing offenses?

We have attempted to lay the question before the student body, for it is their government, and THE TECHNICIAN is their paper. Our desire is to make THE TECHNICIAN serve in the fullest measure. We will appreciate any comment on this matter from anyone interested.

## "THE FOURTH DIMENSION"

THE TECHNICIAN is not a religious publication, but we cannot overlook the fundamentals upon which all our learning and all our achievements are based. College students usually undergo many changes, and chief among these are the changed ideas about religion. So often youth is misunderstood and a yearning for truth is mistaken for lack of faith. When youth finds a friend who understands its problems, who seeks to help rather than criticize, then it should stand ready to listen. Last Sunday Rev. W. A. Stanbury of the Edenton Street Methodist Church preached a sermon that should have a special appeal to the students of this college. We have secured permission to print a few extracts from this sermon, which are given below:

"Is not this just the point at which many people, especially young people, find their trouble—that they try to intellectualize God and reduce religion to a scientific formula? They want to know Him in the same way that they know mathematical equations, and if they do not get Him into such straight-jackets they conclude that He is only a figment of the imagination, or at best only an aura elusively dancing about the more solid body

of material worlds. And if they can say 'Law,' why then they think there is no God at all. But it may be that He is that 'Law' of which you talk so glibly, and that some day you will be able to say, as Jacob said of his camp ground, 'Surely God is in this Law, and I knew it not.'

"But why is it that God hides Himself? Why does He leave anybody in doubt? At least this we may be sure of, the best and highest we know in this world is not self-revealed. Does anything beautiful and fine and good ever rush at you and loudly exclaim, 'Here I am. Look at me!' Really, is anything spiritually rich and great ever come to easily? Could God be spiritual if He shoved and shouted and paraded Himself? And could we care anything for Him if He obtruded Himself that way?"

"But how can you make vivid and unmistakable that you live and move and have your being in God? There is no formula that I can give. Mostly, you will have to let God reveal that to you in His own way. But you will have to let Him. He will not and cannot till you render your soul receptive, till you wake up to Him. You must suffer yourself to become aware of God.

"And yet there is something you can do, must do. It is to make the experiment. It is to live on the assumption that God is, and that He is a rewarder of them that seek Him. Only after you have tried it will you know whether it is better to live that way than on the assumption that there is no God. Only then will you know whether it is a more satisfactory way of life, and whether you feel more firmly based, and whether you have a keener sense that you have got your feet on rock and have laid your hands on eternity. The proof of life is in the living. And if you want to know tremendously what God is, and if you want to feel yourself upheld by Him, moved by Him, living in Him, having your very being enveloped in His presence, make the venture. Act as if He were there, and you will know that He is there. Reach out hands to Him, for 'He is nigh thee. Speak thou to Him, for He heareth.' For yourself and not another, you shall know. But do not go out to hunt for Him; become aware of Him: 'Closer is He than breathing,

And nearer than hands and feet.' "That God, the God of experience, the God that you experience, is the only God you will ever know, or ever can know. Finding Him is the greatest human achievement; it is the mightiest thing that can ever happen to a human soul. It is the most amazing and the most blessed discovery that man can make. One feels like some watcher of the skies when a new planet swims into his ken. It is a spiritual revelation. It is the signal—rather it is the turning on of the current of a new and sufficient motive-power for the machinery of life."

## Opportunity

With doubt and dismay you are smitten;  
You think there's no chance for you, son?

Why the best books haven't been written,  
The best race hasn't been run,  
The best score hasn't been made yet,  
The best song hasn't been sung;  
The best tune hasn't been played yet,  
Cheer up, for the world is young!

No chance? Why the world is just eager

For things that you ought to create.  
Its store of true wealth is still meagre,  
Its needs are incessant and great.  
It yearns for more beauty,  
More laughter and love and romance;

More loyalty, labor and duty.  
No chance—why there's but chance!

For the best verse hasn't been rhymed yet,  
The best house hasn't been planned,  
The highest peak hasn't been climbed yet,

The mightiest rivers aren't spanned.  
Don't worry and fret, faint-hearted,  
The chances have just begun,  
For the best jobs haven't been started,  
The best work hasn't been done.

BERTON BRALEY.

## This Week's Timerick

by ZIPPY MACK

There was once a good coach, Gus Tebell,  
Who'd been drilling his men quite a spell;  
Now, he modestly claims  
There're no championship aims;  
But good golly, you never can tell!

## Agromeck Yelps

Fellows, the time has come for you to increase your "cussing" vocabulary—we are submitting our prices for space in the 1926 Agromeck.

But please be as gallant as possible. Remember "Red" is in the hospital, and it's poor sportsmanship to kick a man when he is flat on his back.

We expect to be accused of being in league with the Mop-up, the Laundry and the Bursar's office, but we deny that we are using any such highway robbery methods.

But don't "kick" too much right now—save some of the bad things you have to say till after you see the finished book. Then, if you are not satisfied, we guarantee not to refund your money.

We admit the prices are slightly higher than they were last year, but this advance was necessary, since we are advancing between \$1,500 and \$2,000 more than was spent on last year's book. Wait and see in all we ask.

Have you noticed the two beautiful new structures that have been erected on our campus? We are referring to our bulletin boards in front of the "mess hall" and postoffice. Keep your eye on them, for they will have all important announcements.

Elsewhere in this issue of The Technician you will find information concerning individual pictures which are to be made for all Seniors, Juniors, and Sophomores from October 1st to 10th. Read it carefully. You may also enjoy the picture of Siddlell's Studio staff. If you have never been down to Siddlell's Studio, it might be worth your time to make a visit—we understand that all the young ladies are not married.

## NEW PROFESSOR ADDED TO ENGINEERING STAFF

Professor Paulson Comes to State College Highly Recommended

Prof. J. D. Paulson, graduate of Allegheny College and of the Yale College of Fine Arts, has accepted a position on the teaching staff of the Architectural Department, taking the place of Professor Schwartz. Professor Paulson has had wide experience, and his department feels that in him they have a valuable addition.

**Cold Storage of Eggs Does Not Affect Vitamin A Content**

That the vitamin A content of eggs is not seriously affected by cold storage has been recently shown by a series of experiments conducted by the United States Bureau of Chemistry. The results of these experiments would seem to indicate that freezing an egg for even long periods causes but little deterioration in the vitamin A potency of eggs.

Tests were carried out on rats, which had been kept on a diet deficient in vitamin A until they showed unmistakable symptoms of xerophthalmia. The addition of 0.1 grain of frozen egg to the daily ration of these rats produced a marked improvement in the condition of the eyes, while a cure was accomplished in most cases by means of a 0.25 gram dose.

Growth of the animals which had stopped on the vitamin free diet was resumed with the addition of the frozen egg to the diet. Eggs kept in a frozen condition for nearly nine years were used in part of this work, and strictly fresh eggs were found to produce only a slightly greater rate of improvement on diseased rats than the frozen eggs.

**ASBESTINE SERVES MANY PURPOSES**

Asbestine is a double silicate of magnesium and calcium. It has been generally used as a filter material, especially in the manufacture of paper. Recently a careful study of this material has been made and a number of new uses have been found for this material. When mixed with sodium bicarbonate in the ration of three parts of sodium bicarbonate to one of asbestine, it serves as a new fire extinguisher which is especially adapted to the control of oil and gasoline fires.

A serviceable tracing paper has been prepared by coating thin, but firm writing paper with a film of asbestine and petroleum oil. A new kind of plaster which contains no stone or cement and which is well suited for kitchens, courts, etc., can be made with asbestine as the basic material. Filter diaphragms and cells made from asbestine are a good substitute for those of silicious earths made from especially prepared silicious earths. A mixture of sodium salicylate and asbestine constitutes a very satisfactory powder for treatment of wounds.

A north German chemical factory has recently manufactured a new oil from domestic raw materials, which has the qualities which are superior to ordinary vegetable fats, and is about 20 per cent cheaper than the vegetable fats. It is very similar to castor oil in its consistency and contains about 92.55 per cent neutral fat or glycerines, 6.15 per cent free fatty acids and 1.05 per cent unsaponifiable material.

It is known in the trade as Myrabilia oil, and is very well adapted for the manufacture of soaps. Toilet soaps made from 10 per cent coconut oil and 90 per cent Myrabilia oil conform to the highest requirements of texture and lathering qualities. A very desirable quality which this oil or soaps manufactured from this oil possess is that the odor of the materials from which it is manufactured does not develop as the oil ages.

This is not true in the case of oils manufactured from garbage and waste, no matter how highly they may be purified, for sooner or later they develop the odor of the original material.

**SPRINGER "Y" SECRETARY**

H. E. Springer, of Portsmouth, Va., a member of the Junior Class, was elected secretary of the Y. M. C. A. Monday evening, September 21.

Since R. L. Browning, the former secretary, did not return this year, it was necessary to elect some one in his place. Springer, who always has been interested in Y. M. C. A. work, was chosen for this position.

Springer has shown his interest in Y work at this institution in more than one way. He was a loyal member of the Friendship Council, attended the College Y. M. C. A. Conference at Blue Ridge this summer, served on the "new Student Committee" this year, and has helped the Y in other ways. More than once he has shown this institution that he is not afraid of hard work. This year he is living in the Y and is there a large part of his time to gladly lend a helping hand whenever he can do so.

Cross-word puzzles are now installed as regular course in the University of Kentucky College of Engineering.

**Kampus Komics**

Jazz: "What instrument do you play?"

Band: "The shoe horn."

Jazz: "What can you play with a shoe horn?"

Band: "Foot notes."

She: "I've just had my hair shingled."

He: "What's the matter? Does your roof leak?"

Evangelist: "Don't worry, madam; weeping and wailing and gnashing of teeth."

Old Lady (in audience): "But, sir, I have no teeth."

Evangelist: "Don't worry, madam; teeth will be provided."

Art Stude: How many kinds of milk are there?

Professor: Why, there's condensed milk, evaporated milk, and—but why do you ask?

Art Stude: Well, I was drawing a picture of a cow, and I wanted to know how many faucets to put on her.

It isn't what a girl knows that bothers us, but how she learned it.

He: "What is a four-letter word entirely surrounded by water?"

She: "Fish."

She will not pet, She will not squeeze, Her skirt comes yards below her knees,

She's not to blame— For no one's taught her, You see, she is the parson's daughter.

Dressing Salad

Adam: Say, Eve, was that my suit you threw in the salad?

Just a Chaser!

Guest: "Say, old man, this stuff is a little weak, isn't it?"

Host: "Wait a minute, you have the wrong bottle! That's furniture polish you are drinking!"

"Church was out early last night, wasn't it?"

"Yes."

"What was the trouble?"

"Some one blew an auto horn outside and the male quartet was all that was left."

Inside Dope

Hen: What kind of a girl is Frances?

Hal: Oh, she'll do in a pinch.

Hen: Do what?

"Were you afraid to ask your father for money?"

"No, I was calm and collected."

File: "What color hair do you like best?"

Lil: "I think black is wonderful."

File: "Well, take this sandwich. It has one in it."

Riff: "Do you know Bill?"

Raff: "Yes, I used to sleep with him."

Riff: "Room-mates?"

Raff: "No; class-mates."

"I'm the cats!" said the mouse when he saw he was cornered.

Alli Baba: "How do you like my new blackjack?"

Fortieth Yegg: "It's a knock-out."

"Are you an actress, auntie?"

"No, darling; why do you ask?"

"Because daddy said when you came we'd have a scene."

First After: "I spilled some whiskey on my coat last night; how can I get it off?"

Secnod After: "Try Blue Jay Corn Remover."

"Do you love me, darling?"

"Of course I do, Herbert."

"Herbert! My name's Elmer!"

"Why, so it is. I keep thinking that today is Monday."

"When was the loose-leaf system first used?"

"Eve used it to keep track of her party gowns."

Ed, (in auto): This controls the brake. It is put on very quickly in case of an emergency.

Co-Ed: I see; something like a kimona.

**Rules and Regulations Boarding Department**

**For Orderly and Economical Administration, and to Render the Greatest Service**

The boarding department is administered by the college under the authority of its trustees to provide good board to its students at a low cost.

For orderly and economical administration and to render the greatest service, these rules and regulations are prescribed.

**Rules and Regulations**

Board is payable in advance on registration and thereafter on or before the first day of each calendar month at the rates designated by the college in its bulletin of "Fees and Collections." The rates for the present year are: \$18 per month; \$5 per week; \$1 per day; 50 cents per meal.

Payments for board are made at the office of the treasurer of the college, where a certificate of "Board Payment" will be issued and given to the student.

This certificate of board payment is the only authority for entering the boarding department, and is to be given by the student to the management of the boarding department upon its request.

Withdrawal from the boarding department is not allowed except at the end of the calendar month. Request for withdrawal at such time must be made in person to the boarding department management, who will issue to the student a "Permit to Withdraw," and will notify the treasurer's office that the student has withdrawn. Payments for board will be required up to and inclusive of the date assigned on the "Permit to Withdraw." Permit to re-enter the boarding department must be obtained from the office of the treasurer of the college and be presented to the boarding department management.

No refunds will be made to any student on account of board for absence from the boarding department for any cause, unless it be for sickness that necessitates his return home, or because of his withdrawal from college, or in consequence of some action of the College Council reducing the number of days the student is required to remain in college. The boarding department will remain open for the minimum number of days required in any month, and board will be collected only for this time. Students who are here in advance of the opening of the boarding department or who remain after its close will be provided for in the college cafeteria at reasonable rates.

Students who have not obtained a "Certificate of Board Payment" from the treasurer's office are not to enter the boarding department for one or more meals without first obtaining the written permission of the boarding department management; nor is any such student to occupy the place of some other student during the latter's absence.

Students having guests here for only a short time will not be required to pay for them provided that they are reported to the boarding department management, and provided that they are not students in this college.

Untowardly conduct as well as any attempt to evade payment for board will not be tolerated, and the boarding department management is authorized and directed to report to the proper college authority all infractions of this rule.

**POULTRY SENIORS WILL JUDGE AT COUNTY FAIRS**

Within the next few weeks the seniors in Poultry Science will go to the county fairs over the state in the capacity of official judges.

This is one of the most valuable experiences that will come to these men. In judging the poultry at county fairs they will have their first real contact with agricultural North Carolina in a professional way, and will thus gain valuable experience. They will meet on an equal basis the agricultural leaders of these counties, county agents, farmers, and the leading poultry breeders. They will get an understanding of the inside workings of a county fair—a chance to handle valuable birds.

**What Took Her There?**

Mrs. Smart: So you are going to Hot Springs?

Mrs. Dumb: Yes.

Mrs. Smart: Are you going for the week-end?

Mrs. Dumb: No—for rheumatism.

Mr. H. L. Caveness, a graduate of Duke University, has accepted a position as instructor in the Chemistry Department at State College.

Mr. A. D. Jones, a three-year graduate of the University of Cincinnati, has accepted a position with the Department of Chemistry.

## Freshmen and Varsity Lock Horns in Practice

Tuesday afternoon saw the Freshman and Varsity football teams have their first practice game of the season. The first-year men were a little confused and played rather apart for a while, owing to the fact that they had not been together or practicing long enough to perfect their plays, but nevertheless they gave the Varsity a merry time for about an hour.

Running signals by both teams was the program, in order to give the coaches a chance to observe the plays and watch the men in action. The customary fumbles and misplays were abundant at first, but as the scrimmage continued, both sides settled down to real line plunges, end runs and passing, with much fight and accuracy.

The Freshmen had several plays that at first caught the Varsity unaware, and before they could be broken up Albright and Outen had either circled the ends or pierced the line for nice gains. The sidestepping of Albright and the plunging ability of Outen were very noticeable. The work of Deadmon on end and Ellis on tackle, both All-State men, was very conspicuous, along with that of Floyd and Goodwin. McDowell was the principal ground gainer for the veterans, while Jeanette, Kilgore and Shuford also played well.

Neither team gained much over the line, and the Freshman team should have in a week or so a line almost impregnable. The Freshman backfield was a little slow in getting started, but Coach Homewood should develop a fast-stepping backfield that will give a good account of itself before many more days. The Varsity backfield worked with much ease and grace, and their interference was well formed.

Both teams have room for improvement, especially in the passing. They are somewhat off in this feature of the game, but this can be developed as the season progresses. McDowell did some very brilliant work along this line, but a team needs more than one man that can pass with a reasonable degree of accuracy.

The line-up was as follows:

Freshmen	Position	Varsity
Deadmon	Right end	Beatty
Ellis	Right tackle	Bynum
Goodwin	Right guard	Fountain
	Center	Logan
	Left guard	Honeycutt
Floyd	Left tackle	Wilson
Kilgore	Left end	Kilgore
Beatty	Quarter	Jeanette
Albright	Right half	Johnston
Outen	Left half	McDowell
Holden	Fullback	W. Shuford

Numerous substitutions were made by both teams.

### SWIMMING POOL

Owing to the failure of having a few lengths of special hose for the swimming pool water-cleaning apparatus, the pool has not been open since the opening of school. Without this hose it is impossible to use the water-cleaning apparatus and the water has to be drained out and clean water used instead of cleaning the water in the pool as it should be.

However, the pool was opened for use Wednesday, and fresh water will be used to keep the pool sanitary.

Tuesday and Friday nights will be reserved for the faculty and their families, and the pool will be open for the students at all other times until cold weather.

### NOTICE!

The ones that are entitled to intramural medals from the baseball leagues and the track meets of last spring can get them by calling by Coach Parker's office in the gym.

### WOLFLETS SHOW SIGNS OF GREAT STRENGTH

Indications Point to Strongest Freshman Team in Years

Coach Homewood has about twelve candidates out for the Freshman Cross-Country Team, and there are indications that he will be able to pick a good hustling squad to represent the Yearling Class this fall. Some of the men have had experience before coming to State and the rest are anxious to demonstrate what they can do, and Coach Homewood will have little or no trouble at all in whipping in shape a very formidable team.

Daily workouts have been given the boys, and they are now limbering up along with the Varsity. Coach Homewood announced the other afternoon that it would be a good while before he could take them in charge and give them his personal attention, due to the fact that most of his time is being given to the Freshman football squad, but just as soon as he could manage it he would be with them and then they would get down to real hard work. The candidates realize that there will be much competition, and they mean to fight hard for the positions on the team.

The squad will be put on the training table immediately.

The candidates out are: H. W. Parker, W. W. Eller, C. W. Mathews, H. Williams, F. English, S. L. Hoyle, R. R. Little, C. E. Lamson, J. H. Griffin, J. P. Brock, L. L. Witherspoon, S. C. Oliver and C. Beck. Others are a little late in reporting and the squad will soon contain 15 or 20 men.

### STEPHENSON TALKS ON GROWTH NEW TESTAMENT

Upon the request of one hundred and seventy-five State College students at the State College Bible Class of Pullen Memorial Baptist Church last Sunday, Mr. Gilbert T. Stephenson, the teacher of the class, will begin next Sunday, September 27th, a series of 21 talks on the growth of the New Testament, in which he will take up the books of the New Testament one by one and discuss the author, the situation that brought forth the book, and the way the author dealt with the situation.

State College men who are not identified with any other Sunday school class are cordially invited to attend the State College class at Pullen Memorial and hear these talks. The class meets at 9:45 in the Sunday school auditorium.

### STUDENT SELF-HELP

The Y. M. C. A. Student Self-Help Bureau is functioning smoothly again this year under the direction of the Y. M. C. A. staff, consisting of the secretaries, E. S. King, W. N. Hicks, and Mrs. Margaret R. Moores.

Already a number of upper-classmen and Freshmen have secured employment at the college and in the city.

As yet only a small per cent of regular jobs have been secured as compared with the number of steady jobs that the organization hopes to find.

Besides the attempt to place boys in more or less regular work, the college Y. M. C. A. operates an odd-job system which secures an average of one hundred jobs a week for students.

## FOOTBALL SCHEDULE

SEPTEMBER 19  
Davidson vs. Elon at Davidson.

SEPTEMBER 26  
State vs. Richmond College at Raleigh.  
Carolina vs. Wake Forest at Chapel Hill.

OCTOBER 3  
Duke vs. Guilford at Durham.  
Davidson vs. Wofford at Rock Hill.  
King vs. Elon at Elon.  
Lenoir vs. W. and M. at Williamsburg.

OCTOBER 10  
Duke vs. State at Durham.  
Carolina vs. South Carolina at Columbia.  
Wake Forest vs. Davidson at Charlotte.

OCTOBER 17  
Elon vs. Guilford at Guilford.  
High Point College vs. Oak Ridge at High Point.  
Lenoir vs. Milligan at Milligan.

OCTOBER 24  
Davidson vs. High Point at High Point.

OCTOBER 31  
State vs. South Carolina at Raleigh.  
Carolina vs. Duke at Durham.  
Wake Forest vs. Lenoir at Wake Forest.

NOVEMBER 7  
Davidson vs. Guilford at Davidson.

NOVEMBER 14  
State vs. Carolina at Raleigh.  
Carolina vs. Duke at Durham.  
Wake Forest vs. Lenoir at Wake Forest.

NOVEMBER 21  
Davidson vs. Presbyterian at Clinton.

NOVEMBER 28  
State vs. Carolina at Raleigh.  
Duke vs. Elon at Elon.  
High Point vs. Guilford at High Point.  
Lenoir vs. Emory-Henry at Hickory.

NOVEMBER 28  
Lenoir vs. Erskine at Hickory.

NOVEMBER 28  
State vs. V. M. I. at Richmond.  
Carolina vs. Maryland at College Park, Maryland.  
Duke vs. William and Mary at Norfolk.  
Wake Forest vs. Florida at Gainesville, Fla.

Davidson vs. Furman at Charlotte.  
Elon vs. Concord State at Berkeley, Virginia.  
High Point vs. State Freshmen at High Point.

OCTOBER 31  
Davidson vs. State College at Davidson.  
Carolina vs. Mercer at Macon, Ga.  
Wake Forest vs. Guilford at Wake Forest.

NOVEMBER 7  
Duke vs. Richmond at Richmond.  
Elon vs. Hampden-Sydney at Hampden-Sydney.  
High Point vs. Wake Forest Fresh at High Point.  
Lenoir vs. Roanoke at Roanoke.

NOVEMBER 14  
State vs. V. P. I. at Blacksburg, Va.  
Carolina vs. V. M. I. at Richmond, Virginia.

NOVEMBER 21  
Duke vs. Wake Forest at Durham.  
Guilford vs. Lynchburg at Guilford.  
Lenoir vs. High Point at High Point.

NOVEMBER 28  
State vs. Wake Forest at Raleigh.  
Carolina vs. Davidson at Chapel Hill.  
Elon vs. Lynchburg at Lynchburg, Va.

NOVEMBER 28  
High Point vs. Duke Freshmen at High Point.

NOVEMBER 28  
Duke vs. Wofford at Spartanburg, S. C.

NOVEMBER 28  
Wake Forest vs. Furman at Asheville.

NOVEMBER 28  
Elon vs. Emory-Henry at Elon.  
Lenoir vs. Tennessee Normal at Hickory.

NOVEMBER 28  
(Thanksgiving Day)  
Carolina vs. Virginia at Chapel Hill.  
State vs. W. and L. at Lexington.  
Davidson vs. Duke at Davidson.  
Wake Forest vs. Elon at Elon.  
Guilford vs. Lenoir at Hickory.

### GREAT MOVIE PROGRAM OFFERED BY THE Y.M.C.A.

To Be Two Shows at Night Every Tuesday and Thursday

Starting September 22, moving pictures will be shown in the Y. M. C. A. auditorium every Tuesday and Thursday. The movie program this year will be similar to the program put on by the Y last year.

There will be two shows at night, but on account of the hot weather there will be no afternoon shows during the next few weeks. The price of admission will be 15 cents again this year.

"The Ten Commandments" will be here October 29 and 30. From what you have read, and from what you have heard, you know that it is a picture that you can't afford to miss. Friday evening, October 30, the picture will be shown only once, because no moving picture show will be allowed to conflict with the literary society meetings.

The Y. M. C. A. is planning to give State College a better moving picture program this year than has ever before been presented on the campus. Mr. King, our Y secretary, has signed a contract for thirty-four Paramount and ten Metro-Goldwin films, making a total of forty-four movie films that will visit the campus during the school year. Only pictures of the very highest type and best character have been selected. Here are the names of a few of the pictures that the contract calls for: "The Great Divide," "The Goose Hangs High," "Code of the West," "Light of Western Stars," "Forty Winks," "Cheaper to Marry," "He Who Gets Slapped," "Romola," "Seven Chances," "So This is Marriage," "Along Came Ruth," "Rag Man," "Dixie," "In Name of Love," "The Navigator," and "Welcome Home."

If you will save a nickel and a dime now and then, the Y will be glad to try to give you more than your money's worth.

### FOOTBALL PROSPECTS AT VARIOUS INSTITUTIONS

The football season will open Saturday with most of the teams in South Carolina in action. The prospects of most of these teams are exceedingly bright. More interest has been shown this season than ever before, and fans will be following very closely the progress of their particular teams. Predictions will be made as to the winner of championship laurels, but it will be hard to pick the winner from teams as evenly matched as these are.

The University of South Carolina gives out very little information as to what they have and expect to do. They have a new coach and he will try exceedingly hard to put out a winning team. They will suffer very little from losses on last year's squad.

Furman's team will be heard from, as they had one of the best freshmen teams in this part of the country last season. Their coach is always instituting new plays to fool the opposition, and he has already let his intentions be known.

Clemson has some hard games on their schedule, and if she expects to come out on top, new material will have to be developed. Coach Saunders can be counted upon to do this, and Clemson cannot be taken too seriously.

Wofford College has already displayed her wares by holding the strong V. M. I. team to a 9 to 0 score.

The Citadel will have to be watched. They boast of an experienced, fast, but light aggregation, and led by Weeks, who was last year picked by a number of coaches as all-southern material, will give a good account of themselves.

Newberry College suffers from losses on last year's squad, but expects to develop men from last year's freshmen to fill these gaps.

Presbyterian College gets a number of good men from last year's freshman squad and should give a good account against any opposition.

**FACULTYFAX**

Professor C. C. Cunningham was born in Wehawkin, New Jersey. The earlier part of his life was spent as a newsboy in New York City. He was educated in the public schools of New York, and graduated from the Commercial High School of Brooklyn in 1907.

He worked in a Wall Street broker's office for the following four years, and then went to Colgate University. He was a student here for two years and then transferred to Beloit College, Wisconsin. He graduated here in 1915 with highest class honors. While an undergraduate he was a member of a number of debating teams and took an active part in oratorical contests and dramatic productions.

He taught public speaking at Yankton College, South Dakota, and at Berea College, Kentucky.

He enlisted in the regular army in June, 1917, serving for more than a year in France, and was injured in service there.

He was released from service in September, 1919. He taught the following year at Cresmont High School, Kentucky.

The next fall he entered the graduate school of Northwestern University. He received his Master's degree in English and Public Speaking and remained here to teach and coach debating teams for one year. He has returned here for the past four years to teach in summer school.

He taught a year at University of Arizona and came here in September, 1924, to take charge of the department of public speaking.

He has coached the winners of many intercollegiate and interstate debates and oratorical contests, and the winner of one national oratorical contest.

**MANAGING EDITOR GOES TO NEWS AND OBSERVER**

**Herman Baum Connected With City News Department**

Herman Baum, senior electrical student at State College and Managing Editor of The Technician, has accepted a position as Assistant City Editor on the staff of the "News and Observer" and will probably take charge of the sport department of that paper next spring.

"Radio," as he is familiarly known to his fellow students, has been actively connected with The Technician and other campus organizations since his first year at State College, and has a host of friends on the campus and in Raleigh.

Baum will continue his duties with The Technician until another man can be trained for the place. He will continue his studies at the college, working with the "News and Observer" only in the afternoon and night.

"Radio" is a hard worker and we feel sure that he will make a success in his new position.

**CROSS-COUNTRY TEAM GETTING INTO ACTION**

With the opening of the season not so far distant, the cross-country squad is practicing daily with a purpose which bids fair to outstrip the showing made by last year's team. From the team that came within three points of winning the state championship last year there is left only one man, Captain Wright.

The prospects for a winning team are fairly bright. Captain Wright is equal to the best in the state, while Brimley, captain of last year's Freshman team, was unbeaten during the season. McCarn and Rowe of last year's Freshman team are showing up well. There are several other men out, including about six Juniors who are training with the determination to win the coveted monogram.

Very little has been heard of the schedule yet, but there is a rumor of at least one Virginia trip.

As the freshmen have only been practicing a day or so there is not much of a line upon them. Prospects are good, however.

**TO THE FACULTY**

Any member of the Faculty or any stenographer who works for the college is entitled to receive The Technician for \$1.25 per year. Send checks to J. C. Davis or F. K. Fogleman.

**NASH-EDGECOMBE CLUB**

**R. R. Trevathan is President of This Organization**

The Nash-Edgecombe County Club held its first meeting of the new year Wednesday night. A large group of the old men were back. There was also a fair sprinkling of new men.

The club was called to order and officers were elected for the year. There were a number of good men nominated and several close races for offices resulted. The successful candidates were:

President—R. R. Trevathan.  
Vice-President—W. G. Batts.  
Secretary—B. F. Shelton, Jr.  
Treasurer—H. J. Daughtridge.

After the business session was over, smokes, eats and a social gathering were thoroughly enjoyed.

The club showed great promise of entering its greatest and most useful year of work and pleasure.

Sam Wallis is now engaged as chief agricultural agent of Buncombe County. He is making a fine record and seems to be perfectly happy. It may be that he has at last found his long-lost "Sally." Who knows? It may be he has given up all hope and is steering his efforts in another direction. At any rate his many friends here at State College wish him much luck.

**WANTED!**

Assistant Departmental Editors for the N. C. State Agriculturist. If you are interested in your department and willing to put-out for it, see

J. G. WEAVER  
101 Seventh

**LEAZAR SOCIETY HOLDS FIRST MEETING OF YEAR**

**Twenty-three Men Join Ranks; Society Expects Big Year**

Leazar Literary Society held its first regular meeting of the new school year on Friday evening, September 18th.

The meeting was called to order by the president, R. J. Peeler. After a few remarks of welcome and after the business program had been dispensed with, the meeting was turned over to Mr. Springer, the chairman of the Program Committee.

Mr. Springer soon made known that some twenty-odd literary and forensic addicts were clamoring at the outer door for admission. The members present readily agreed to admit those to membership who could successfully ride the society "goat" to the High Priest's throne.

When the evening ended twenty-three men had been initiated into the ranks of Leazar Society.

With the addition of these new members and the enthusiasm of the old members, Leazar Literary Society hopes to accomplish far more in the future than in the past.

**Contents of Home**

(By Luther Shaw, '28.)

Home—there's where mother lives  
And fades her hair to gray;  
To prayer her life she wholly gives,  
To teach her son the righteous way.

Home—there's where father stays,  
And wears his body to bone.  
Under work, sweat, and toil he sways  
To make son's work easier done.

Home—there's where comfort abides,  
To rest the wearied soul  
And calm the wind that rouseth the tides  
O'er life's rugged shoal.

Home—there's where love lies  
To soothe the aching heart  
And dry the tears from tear-filled eyes  
And warm life's frozen part.  
Home—there's where peace awaits  
To calm life's mental wars  
And drive from one all petty hates  
And brace the shaky wharfs.

I don't like my prof. at all;  
In fact, I think he's punk.  
He sharpened his pencil with my knife  
To mark me down a flunk.

**JUNIOR CLASS ELECTS NEW VICE-PRESIDENT**

A meeting of the Junior Class was called on last Friday night, September 18, by the president, J. F. Mätheson. The purpose of this meeting was to elect a man for vice-president. R. L. Browning, who was chosen for this place last spring when the other officers were elected, was unable to return this fall. Browning was a strong man and a very capable man for the place. We regret very much the fact that he cannot be with us again this year.

In selecting a man to succeed Browning we feel sure that we have a man who is very capable of filling the place. H. L. Brown, who was one of the best players on last year's basketball team, was elected as vice-president, and we are sure that he will make as good here as he did with his position on the basket-ball team.

**COLLEGE BAND RETURNS**

(Continued from page 1.)

ladies, even though they were the guests of the Raleighites.

At Sanford a short parade, supper, a band concert, and Max Gardner were the features.

Soon after leaving Cary the Raleigh men gathered with the Band boys and Mr. H. B. Branch expressed the appreciation of the Chamber of Commerce for the valiant work of the Band. He then presented a handsome sum of money as a token from the members of the party. Captain Price made a few remarks, thanking the men for the gift and for the spirit which prompted it.

Raleigh was reached at 9:30, and the "State Fair Special" came to a triumphant ending with a parade from the depot to the State Capitol, during the whole of which the cap of the drum major sat sedately upon his head.

**SENIOR RINGS ARRIVE**

The Senior Class rings, 135 in number, arrived Wednesday and distribution of them was begun Thursday. The rings this year are duplicates of those that have been used by the Senior Class for several years, having been made standard by the Class of 1923. They are being handed this year by the Student Supply Store.

Anyone who wishes to give a miniature ring for a Christmas present should place the order at once. The next order will be mailed in on October 1, and the last order before Christmas on November 1. Delivery for Christmas cannot be guaranteed unless orders are placed by the first of November.

**DR. RIDDICK ERECTING A TWO-STORY BUILDING**

Ground has been broken and dirt is rapidly being moved to make way for the foundation of a two-story store building to be erected in College Court by Dr. Riddick.

There will be floor space for two stores on the first floor, and rooming quarters will be placed on the second. A branch of the Piggly-Wiggly stores has contracted for one of the rooms and a branch of one of the downtown banks will probably occupy the other, the lease not being definitely made at this time.

Through the influence of Professor Wooten a number of students were enabled to secure work during the past summer with the Locating Department of the Highway Commission. The following boys were operating instruments: W. J. Ferguson, J. J. Powell and B. C. Steed. Others working with the department were J. M. Potter, T. V. Ferguson and Clifford.

Professor Wooten himself had charge of one of the crews locating roads over the state.

Professor H. K. McIntyre and G. C. Cox left Tuesday night for Chattanooga, Tenn., to attend a meeting of the American Electro-Chemical Society. At this meeting they will read a paper describing some of the results of runs on the double current electric furnace at State College.

**FRESHMEN!**

If you are interested in newspaper work, come to Technician office at once. We have a very interesting proposition for you. Experience preferred but not necessary.

One of the easiest ways to get through college is to start saving now!

He climbed a signpost, lit a match,  
To find out what it said.  
He scanned the letters eagerly—  
"Wet Paint" the signpost read.  
—Elsie Louise Williamson.

**"It's twice as fast as writing longhand"**

STUDENTS say this because with a little practice they soon become speedy writers. Essays are written, notes kept in good up-to-date condition, and letters gotten off quickly and easily.

The New Remington Portable perfectly meets the demands of the student, for it is the lightest, smallest, and most compact of all standard keyboard portables. It is durable beyond words—you'll find it useful for years and years to come.

We will be glad to show you the many advantages of this New Remington Portable and explain our new easy payment plan.

## PULLEN LITERARY SOCIETY HOLDS FIRST INITIATION

Thirty-six New Members Voted In; Another Initiation Sept. 25

On Friday night, September 18, from 6:30 to 7:30, Pullen Literary Society held its fall term initiation for thirty-six new members who joined at that time. This number of new members was composed not only of men from the freshman class, but a great many of them were upper-classmen. This shows that the splendid work done by the society has attracted a great deal of attention and interest in this line of work. At present everything bids fair for even a better year than at any time in the past. It is the intention of the society to make every program just as interesting as possible and at the same time begin and adjourn on time, so no one will have an excuse for staying away.

Due to the fact that there were several others who could not be present at the first initiation, Pullen will have only a short program and arrange to receive those who want to join the society at that time, just preceding the program at the next meeting on Friday night, September 25.

## CHANGES NECESSITATED IN TECHNICIAN'S STAFF

Because of failure of some of the fellows to return to college and for various other reasons there has been quite a number of changes made in The Technician staff recently. The reporters were not appointed last spring, as is the usual custom, but when school opened this fall a competitive arrangement was installed whereby every man on the campus might try out for a position. This plan also gets the better class of journalists.

The position of Advertising Manager has been filled by the appointment of F. L. Tarleton, a senior in Electrical Engineering. Jim Campbell has been selected to act as Society Editor. He will also conduct a personal column. D. R. Pace and Crawford, Sophomores, will act as assistants to the Administration Editor. F. M. Chedester will be with the Sport Department in the future. He made his debut this week with the sport comments, which he calls "On the Sidelines." James Cooper, a Freshman, will also be connected with the Sport Department. He has had considerable experience in this field, and promises to develop into a real sport writer.

It is the policy of the staff to select only those men who are willing to work. There are several places open yet, and there is always room on the staff for one who can write and who is willing to do it. The staff again invites any member of the student-body to try out for the vacant positions.

The sympathy of the entire student-body is extended to our schoolmate, Floyd W. Warrington, who was recently called home on account of the death of his father.

"Men may come and men may go, but the Equitable stays and pays"

## ALUMNI NOTES

(Observations and Communications of Zippy Mack)

Mr. D. K. Stewart of class of 1925 is a teaching fellow in the M. E. Department. He is devoting his time to the woodshop and furniture course.

Mr. L. M. Keener of the '23 class has accepted a position as instructor in the E. E. Department. Mr. Keener was a teaching fellow in the same department last year.

Mr. H. C. Pritchard, '24, has a teaching fellowship with the E. E. Department for the coming school year.

Mr. James A. Higgs, President of the General Alumni Association, was in the city last week working in the interests of the Memorial Tower. Mr. Higgs is a wide-awake man and he has the interest of the college at heart.

The cool wave has made some excellent football weather, and at the time of going to press we are confident that Richmond University will be having an interesting time of it this afternoon when the paper comes out.

Mr. Arthur Finn Bowen announces the engagement of his daughter, Eunice, to Mr. William Hawkins Bogart, the wedding to take place October 7. Mr. Bogart is a member of the Textile Class of '24. His wedding will mark the second marriage of a State man with one of Mr. Bowen's daughters.

Mr. Philip A. Willis, of the Mechanical Class of '23, dropped out the campus the other day, and evidenced his old spirit by leaving a subscription for The Technician. He is with the Frick Company at its offices in Waynesboro, Pennsylvania.

Messrs. F. F. Clarke, of the '25 Architecturals, and H. B. Pritchard, of the '24 Electricals, are both registered in the Graduate School, doing advanced work in their respective departments.

Mr. George Bryan Cherry, of the Civil Class of '22, has recently opened a shop in the College Court Building, adjoining that portion occupied by Newsom. His stock consists of those little things which tickle both the palate and the vanity.

## EXHIBIT OF DRAWINGS

Saturday and Monday there were on exhibit in Page Hall a number of drawings sent here from Atlanta, Ga. These drawings were sent in by students from Georgia Tech, Alabama Tech, Texas A. and M., Clemson and N. C. State College to the Southern Intercollegiate Competition held last spring. N. C. State College was very fortunate in securing the drawings to show the students and people of Raleigh just what is being taught in the colleges of the Southern States.

## COLUMBUS COUNTY CLUB REORGANIZED AT STATE

E. R. Thompson is President of New Organization

The Columbus County boys attending State met last night for the first time in three years. All were present but one. The meeting was called for the purpose of organizing a club.

The officers of the club are: E. R. Thompson, President; D. T. Reynolds, Vice-President, and J. J. Barnhardt, Secretary-Treasurer.

The aim of the club is to advertise State College in Columbus County. This will be done in part by sending The Technician to the high schools in Columbus County.

## CRAVEN COUNTY CLUB HOLDS FIRST MEETING

E. G. Moore Elected President of Progressive Organization

The Craven County Club held its first meeting of the year in the Y. M. C. A. on Saturday, September 19, 1925. The purpose of the meeting was to reorganize and to elect officers. The following were elected officers of the club:

E. G. Moore, President.  
J. H. Rhodes, Vice-President.  
J. C. Davis, Secretary and Treasurer.  
C. E. Hibbard, Reporter.

Among the important business of the meeting was the proposition to renew the old plan of sending The Technician to all of the high schools in Craven County. Every one approved this plan, and it was unanimously decided to send the paper to the schools so they may know more about N. C. State.

It was decided to have regular meetings every two weeks, and every one said he would answer the president's call when cause arises to have a special meeting. This club did some good work last year, and the present members are planning to continue to do good work this year.

## Fraternities

To my mind this is a fit time to bring to the mind of the freshman, first, the reason for the existence of fraternities. Fraternities started with the founding of Phi Beta Kappa at the historic old College of William and Mary in Virginia.

Fraternities may or may not influence a freshman, that is, he may or may not be benefited by joining one, the determining factor being his wisdom in selecting the right one, that is, joining the one whose members he deems his equal in every respect.

One of the big mistakes a freshman usually makes is in pledging himself to one simply because it has the largest number of athletes, or for some other insignificant reason.

A fraternity is simply an organization composed of men who have like characteristics, and because of these like characteristics they prefer to band themselves together for the purpose of promoting good fellowship and in an effort to bring out the nobler qualities of the man himself.

Unfortunately a large percentage of every freshman class will, because of the fact that they are receiving a big rush, so to speak, from this or that fraternity, have a tendency to high hat their fellow-classmen who perhaps have not been quite so fortunate as to receive such unusual attention. This attitude, freshman, is absolutely the wrong one to take, because you will not always be doing business with your fraternity brothers, as you may think; hence it is paramount that you learn to mix and mingle with all classes of men. Don't think simply because your fellow classman is not a fraternity man that he will not succeed as quick as you, for he will. Membership in a fraternity will not elevate you to the zenith of success overnight.

Another condition, I think, is to be deplored when a freshman goes so far as to high hat an upperclassman simply because he thinks that he is receiving such a rush from his favorite fraternity that he believes he is justified in high-hatting all other persons, regardless of race, creed, or sex.

Freshman, if you possess any of the above false impressions, for your own good rid yourself of them at once, for I firmly believe that no fraternity wishes to ask a man to join them who has any such ideas in his head.

Freshman, be fair with yourself, for you have a future at State College, and it rests upon you whether or not you create a good impression or a bad one. A bad impression once created in the eyes of your fellow-man is hard to live down.

H. R. FIELDS.

## PRE-SEASON DOPE ON LINE-UP OF WOLFPACK

New Members of Squad Make Excellent Showing

Behind closed gates for the past week, Coach Tebell has been putting the finishing touches on the Wolfpack. The team as a whole is showing up well, and so far there has been remarkably few injuries to the squad.

According to dope, the Richmond Spiders will bring a heavy and fairly good team to Riddick field on Friday afternoon. At this time the strength of the two teams is still a matter of conjecture.

However, the rather exceptional pre-season showing of a number of youngsters from last year's Freshman team seems to indicate that the opening game will find a new team for the most part. It is believed that this infusion of new blood will strengthen the Wolfpack. It seems that the team will be lighter and faster than last year's team. From the showing made by light teams last year this should help instead of hindering the team.

Those who have watched the daily labors of the Techmen since September 7 are of the opinion that Coach Tebell has a fairly competent team in the making.

The line-up for the opening game is still a matter of conjecture. At each position there is a probability that several men may be used.

## The Line

It seems that Kilgore, Beatty, Studdart, Austell and M. Watkins have been showing up best at the end positions. Several of these men will probably get into the opening game. Probably Kilgore and Studdart or Beatty will start the game.

It looks as though "Moko" Bynum and Anthony or "Firpo" Wilson will be used at tackle. The competition at tackle has been unusually keen and Coach Tebell has several others who may be used.

Fountain, Hunnicutt, Dowell and White will probably fill the guard jobs. A warm contest has developed for the pivot job. "Tubby" Logan of last year's team will probably be used, with Emerson Black in reserve.

## The Backfield

There is a wealth of promising backs. The backs for the opening game will probably be taken from Captain Al Johnston, Jeanette, Walt Shuford, McDowell, Evans, Faulkner and Hunsucker. Coach Tebell has a number of other promising backs who may be used.

The Wolfpack gives promise, and before the end of the season Coach Tebell should have a fast, heady, fighting team.

## FOOTBALL PRACTICE BY ELECTRIC LIGHTS

With the changing of the schedule of classes the length of practice periods for the Wolfpack is also having to be changed. With the last class ending at 4:30, it is impossible for the team to get on the field before 5 o'clock. This gives the team about one hour to practice before dark, which is entirely inadequate.

To combat this shortness of time the flood lights are being placed on the Freshman field and secret practice is being held. The lights should be ready for use the first of the week, which, although not as good as daylight, should be a great help.

Since Tuesday afternoon the squad has been working behind closed gates. Members of the student body as well as residents of Raleigh who have been viewing the practice from the stands have been excluded from Riddick Field.

The Tech coaching staff does not believe sister institutions in this section would attempt to "scout" the practices. The coaches are of the opinion, also, that a majority of the friends and alumni of rival colleges would not countenance the gathering of material in this manner for the use of their teams. The staff is convinced, however, that more rapid progress in the development of a green team can be attained by working the squad in privacy, rather than before the several hundreds of spectators who have been accustomed to flock to the field every afternoon.

## NEW STREET ON CAMPUS

As a part of the improvements being made on the campus, a new street is being cut between Watauga dormitory and First dormitory. The new street connects the street in front of the mess hall with the one in front of Watauga dormitory.

## TEXTILE SOCIETY HOLDS NEW ELECTION TUESDAY

Harry Brown Elected Secretary and Treasurer for the Year

Harry Brown, a member of the Junior Class, was elected secretary and treasurer of the Textile Society Tuesday evening at the first regular meeting of this organization this term.

The election was necessary at this time of year because "Red" Davis, the former secretary and treasurer of the society, failed to return this year to continue his work at this institution.

Harry Brown, who is one of the most popular men on the campus, is well qualified to fill the place left vacant by Davis. The fact that Harry is a varsity basket-ball man and secretary of the Student Council shows that he strives for and attains some of the highest and most influential positions on the campus.

At this meeting of the Textile Society Nelson Hart was appointed chairman of the Program Committee, with D. A. Purcell and T. E. White as his assistants.

A committee was appointed and plans made for the society initiation which will be held Tuesday evening, September 23. At that time all sophomores and upper-classmen in the Textile School that are not members of the society will have an opportunity to join the organization.

Professor Nelson gave a very interesting talk in which he told about the good speakers that will visit the Textile School this year. He also talked about the new textile building, the erection of which will begin at an early date. He encouraged a good attendance at all Textile Society meetings, and gave the members reason to believe that the prospects for a good year in the Textile Society and Textile School are as good or better than in any previous year.

## "Y" CABINET EQUIPPED WITH PRIVATE OFFICE

New Room Given Officers of Y.M.C.A.—Each Cabinet Member Has Own Desk

The Y. M. C. A. cabinet now has for the first time a room of its own equipped with a small but new and well-made desk for each of the cabinet members.

Before this year the Y cabinet had no definite time and place for its meetings. This group of workers, in whose hands rests the power to govern and control the actions of our Y. M. C. A., has in the past met whenever meetings happened to be called and wherever an unoccupied room could be found.

This year the Y cabinet, with a room of its own and a definite meeting time, expects to do its work in a better and more systematic way. This is a step forward that the Y. M. C. A. has made in an effort to keep up with the rapid progress that the college as a whole is making.

## CIRCULATION MANAGER UNDERTAKES HUGE TASK

Technician Sent to Large Number of Alumni Through Efforts of "Jeff" Davis

For the past few days The Technician office has been the scene of much activity. The circulation manager has undertaken the huge task of sending a sample copy of The Technician to every member of the classes of '23, '24 and '25. The copy bears a stamp asking for a subscription from the alumni.

This task has called for much extra work on the part of the circulation manager, but it was felt that the alumni would appreciate a copy and many would be glad to send payment for the entire year. As far as we are able to learn, this is the biggest number of Technicians ever sent out to former students.

## RED MUD OF CAMPUS IS FAST DISAPPEARING

Carpet of Green Will Soon Cover the Mud That Made State Famous

Do you remember the mud you had to tramp around in about this time last fall? Ah, but such unpleasant memories! But when we walk around now on these sanded walks the college is having built, it is hard to believe that it could ever have been in such an awful condition.

Now, not only the walks can we appreciate, but this green carpet of grass and sod that is fast taking the place of the trenches that used to exist in such numbers.

## Student Forum

### About the Mid-Afternoon Meal

Although it is doubtful if many have suspected it, some State College men are guilty of thinking at times, but it must be admitted that the process is often disconnected and spasmodic. In rare instances, however, it has been found that a student can ponder over the same situation for days at a time.

A careful observer will notice that these cases are far more frequent among Freshmen than among the upper-classes. This is easily understood when we reflect that the beginning of their college life was also the first time that several of them had missed seeing HER twice each week since they were fifteen, and the first time that mother had ever been absent when it became necessary to locate that clean shirt which was left lying on the corner of the dresser.

Seniors, Juniors, and some Sophomores have become accustomed to this, and have but little cause for thinking, while the joke editors would have us believe that a professor's mind is perpetually absent.

Be that as it may, it has become evident to many on our campus that the present system of waiting until the afternoon to give us our accustomed noonday meal is not satisfactory. We admit that it is very nice to get such a large percentage of our classroom work done in the morning, but we have to draw upon our imaginations to make ourselves believe that a class from 12 to 1 is a morning class. Five hours classroom work in rapid succession is too much, especially when we remember that the faculty tell us that we are supposed to do two hours work at our rooms for each hour on class.

Several of our more observing students have noticed that light breakfasts are not the exception at the College Dining Hall, and that the length of time between breakfast and the afternoon meal is six and one-half full-grown hours. It has also been noticed that when the time for the late meal finally does arrive all available food is eagerly devoured. This is probably a contributing factor to the dullness and listlessness of the afternoon laboratory sections, since we must eat dinner, go to our rooms for note-books, and be at our respective places for roll-call, all within a half-hour's time.

It is eleven hours from 7 a. m. to 6 p. m., but a six and one-half hour morning with a four and one-half hour afternoon is not getting the day very accurately divided. I should like to hear the opinions of others on the subject, whether they agree or disagree with me.

R. R. FOUNTAIN.

In less than three weeks one of the most eventful weeks of the N. C. State calendar will begin—the Carolina State football game and the Students' Agricultural Fair.

This year, instead of five or six hundred people looking over our exhibits, forty thousand or more will see them.

One of the ethics of this school is backing up a worthy proposition, especially if it benefits this school. Heretofore any one looking over the Students' Agricultural Fair exhibits could hardly help being impressed with the idea of the practicability of the Fair Plan. It has really been a course in Fair work itself. This year we do not want to fall short of our record; what we want to do is to "put our shoulder to the wheel" and put the students' part of the Fair over. We want to make the thousands of this and other states see that students do not come to this college and become impractical; we want to prove that we are a great factor in increase of quality production.

Every Agricultural student and Science and Business student with work in Agriculture should get behind this proposition and help make it a success. The experience is valuable, besides a greater benefit results—that is fellowship. There is no better place to really get acquainted with students and instructors than in this Fair work.

The co-operation of the whole student-body is needed and desired. Fellows, when you write back home inviting your people up to the big football game and State Fair, tell them to look over N. C. State's tents of seven departmental exhibits and an idea can then be had of a Technical student's purpose in coming here to learn to "use his hands, his head, his eyes."

B. A. SIDES.

## SOPHOMORES PROMISE TO ABOLISH HAZING

Dormitory Homes Will Be More Desirable for Freshmen in the Future

The Freshman Class will rejoice in learning that hazing has been abolished by the Sophomore Class. At a meeting Saturday afternoon President Hodgkin introduced H. E. Kendall, President of the Student Council, and he then spoke on the subject of hazing. He said that some of the Freshmen were moving off the campus to undesirable homes to live on account of not being able to study. All men hereafter will be shipped if caught in any kind or form of hazing.

## APPROXIMATELY \$750 PLEGGED TO Y. M. C. A.

Aim of Campaign is to Raise \$1,800 From Student Body and \$500 From Faculty

Approximately \$350 in cash and \$300 in pledges were contributed by the students to the Y. M. C. A. Wednesday evening, according to the latest reports Wednesday night.

The Y. M. C. A. in this campaign, which ends Saturday night at 1:00 p. m., hopes to raise \$1,800 from the student body and \$500 from the faculty. Since the "Y" is not supported by fees paid by the students at registration time, but is supported by voluntary contributions from the student body and faculty, it is necessary to raise this large amount through free-will offerings. If this amount is not raised, the "Y" must necessarily take a step backwards.

The three-day campaign began Wednesday evening at 7:45 after 50 energetic "Y" workers, both students and faculty members, had enjoyed a good and a well-earned "feed" in the Y. M. C. A. At this feed interesting talks were delivered by Professor Nelson, dean of the Textile School, and Dean Brown, dean of the School of Business and Science. Professor Nelson emphasized the fact that the great importance of the "Y" and its work on the campus is just beginning to be realized. He is thoroughly convinced that this organization has a great future on the campus. Dean Brown stated that the Y. M. C. A. is a religious organization of a cosmopolitan nature. It possesses the strength of all denominations and is free from the weaknesses and bickerings of any denomination. Both of these men, as well as Dean Cloyd, and other members of the faculty, are back of the "Y" and are ready and willing to do all they can at any time to help this organization. They are back of this Association because they know what an important part of the College it is.

Dr. E. E. Randolph, Professor of Chemical Engineering, has arranged, in co-operation with the State Department of Conservation and Development, to send an exhibit from North Carolina's chemical industries to the Chemical Exposition in Grand Central Palace, New York City. The exposition will be held some time in October. This week a similar exhibit is on display, along with the textile exhibit at the "Made-in-Carolinas" Exposition held in Charlotte, N. C.

## TRACTION TOM SAYS:

"Getting along in peace is a '50-50' job"

Dear Folks:—The other day, at the wife's request, I leaped into a twice-over shave, put on a clean collar, and went out with her to a Golden Wedding celebration.

The folks who were celebrating were Aunt Fannie and Uncle Jimmie. The big feature of the celebration was the announcement by Uncle Jim that they had lived together fifty years without a battle that amounted to anything.

"Of course, we had our little spats, like any married couple is licensed to do," Jimmie said, "but nothing serious."

That interested me, so, after dinner, I took Jimmie out on the front porch, in a corner, and asked him what was the answer to the Universal Peace scheme he and Aunt Fannie had worked out.

"It's simple," Jimmie explained. "We've always gone fifty-fifty. We try to be considerate of each other. When a storm is brewing, each of us tries to give in just a little bit. And that keeps peace in the family."

Coming home on a car, I heard a passenger and a car man having a spat over a trivial matter, and it just struck me that here was a good place to try the "fifty-fifty" scheme. So I butted in and told them about Uncle Jim and Aunt Fan, and, sure enough, they both grinned, shook hands, and settled their spat.

Why wouldn't this "fifty-fifty" scheme be a good one for everyone to try, on electric cars and elsewhere?

—I thank you.

*Traction Tom*

## Do You Want a Place on the TECHNICIAN Staff--

THE TECHNICIAN Needs Workers  
In All Departments

EDITORIAL DEPARTMENT  
MANAGERIAL DEPARTMENT  
BUSINESS DEPARTMENT

Call by the Office in the "Y"

## FRESHMEN TOLD OF WORK OF ENGLISH DEPARTMENT

Dr. T. P. Harrison and Messrs Clark and Robertson Speak

The Freshman Class, at its regular assembly period last Monday, was introduced to the personnel of the English Department of State College and given the facts about certain branches of the department and the things those branches propose to do in this and following years.

After the opening exercises, in which Dean Cloyd made several announcements and read some Scripture passages and "Daddy" Price led the assembly in some stirring songs, Mr. Clark, head of the English Department, took charge of the program. He presented all members of the department to the new men, with the exception of Mr. Wilson of the Business English classes, who was absent on account of illness. The purpose of the department, he explained, is to give the best possible instruction in all phases of English taught here, to devote more time and energy to individuals, and to foster a better relationship and understanding between students and the faculty.

Dr. T. P. Harrison then went on to tell, in detail, the organization and object of the Language and Composition Department, of which he is the head. He gave interesting examples and facts about the world-wide use of the English language and the value of being able to use it correctly and forcibly. The English language, including about four hundred thousand words, is, in the opinion of some of the world's greatest scholars, the most perfect tongue that has ever been written or spoken and has more writings and a greater literature than any other. With this to work with, Dr. Harrison and his colleagues intend to teach their students to take from writings their utmost meaning and to teach them correct expression, both oral and written.

Mr. Stewart Robertson, head of the Department of Journalism, gave a brief description of his courses. He told what news is, how it is gathered and written for newspaper publication, and explained the organization of a newspaper with its separated business and editorial departments.

## GREAT POSSIBILITIES FOR THE SAND HILL SECTION

The South has developed its resources very much in the last fifty years. The raw products that were once waste materials are now being used to great advantage.

The Sand Hills have particularly developed their resources. Only thirty years ago the Sand Hills were a barren waste of sand and blackjacks.

Today the Sand Hills are not the same stretches of waste land. It has been converted into vast fruit farms, poultry farms, and truck farms. The best fruit in the world is grown on these Sand Hills. This statement has been proven because this fruit is in great demand even in foreign nations.

The reason for its great development is the railroad facilities. There are long refrigerator trains on hand at all times, prepared to carry this perishable fruit to Northern markets. There is a large ice plant in the center of this section that handles the work of icing the cars.

With this large refrigerating plant and the easy access to quick transportation, the Sand Hills will be one of the coming sections of the South. Not only fruit, poultry and trucking are coming to the front in this section, but manufacturing has begun to develop. In a few more years the Sand Hills will be one of the richest sections of the South.

## CATAWBA COUNTY CLUB REORGANIZED

On Monday night, the twenty-first of September, the Catawba County boys met in Watauga Hall for the purpose of re-organizing the Catawba County Club.

Those present at the re-organization meeting were: George Cline, Newton; Herman Wilfong, Newton; John Herman, Newton; Robert Stamey, Newfong; Sam Rowe, Newton; Sibley Hoyle, Newton; Monroe Gabriel, Newton; Glen Cline, Newton; Roger Harvell, Newton; Loice Young, Newton; John Kidd, Newton; Harry Baker, Startown; Fulton Lutz, Startown, and Charles Wilson, Startown.

The officers elected for this term are:

George Cline—President.  
Herman Wilfong—Vice-President.  
Loice Young—Club Reporter.

## STUDENT FORUM

I wonder if every one thinks that our Student Council took the right step last week when they passed rules which said that the Sophomores could no longer play tricks or have fun with the Freshmen? Personally, I'm afraid they took the wrong step, because the Freshmen will not have the right college spirit if we treat and respect them as highly as we do the Seniors.

Yes, I know there are some who will argue that we are violating a State law when we hold our "Kangaroo Courts" and other parties for the Freshmen, but suppose we were arrested and brought to court—what would the courts do with us? It is my opinion that the courts would turn us loose and perhaps tell us it was nothing more than our duty to initiate the new men.

I have heard quite a number of Freshmen say that they did not feel at home since the "Sophs" had discontinued to visit them with their "paddles." Will these Freshmen feel like upper-classmen next year? How can they if they are respected as upper-classmen this year?

May I ask you, did our Student Council take the right step when they said stop playing tricks on the Freshmen?

J. R. HERMAN.

At the beginning of every school year the students of the college do not consider the rights of others as they should.

Every year the place is rushed to death for rooms, therefore some of the students are put in the college infirmary, particularly freshmen.

They seem to think, after they have been placed there, that they can do as they please and stay as long as long as they like. This is the wrong idea. Suppose the nurse should have several sick fellows to come in. Where would she put them? As soon as you get your room go to it.

There are certain hours for the fellows to get supplies. They are from 8 a. m. until 3 p. m. every day. Please remember these hours, and don't come for something after every one has gone to bed or before they get up—unless it is absolutely necessary.

Come in the front door and not the back. Some few of the fellows have a habit of coming in the back door, and getting what they please. This is against the rules of the college. Come in at the front door. Always ring the bell before entering.

Visiting hours are from 9 a. m. until 12:30 p. m.; 2 p. m. until 5 p. m.; 6:30 p. m. until 8 p. m. Please remember these hours and don't try to come in at inconvenient times during the day.

W. L. ADAMS.

## OLD DOMINION CLUB HOLDS INITIAL MEETING

Last Thursday night the Old Dominion Club held its initial meeting in the Y. M. C. A. with fourteen men answering to the roll call of Virginia boys. The purpose of this meeting was two-fold; the first was that of making acquaintance with the new men, while the other was the election of officers for the present school year.

H. M. Adams, Vice-President of the Old Dominion Club last year, was elected President for this year. Other officers elected were H. E. Springer, Vice-President; L. C. Einwick, Secretary and Treasurer; F. S. McCoy, Reporter. After the completion of the election of officers, President Adams explained the program that the Old Dominion Club hoped to carry out this year. This included the initiation of the Freshmen and also the feed which will follow immediately after the initiation. Other parts of the program were discussed but will not be definitely settled until the Old Dominion Club can get in touch with every boy from Virginia. During the meeting each member joined in the discussion as to whether or not the club should have a pin to represent the Virginia State Club. Although the conclusion reached was in favor of having a pin, the matter will not be settled until the next meeting. Another important matter was discussed as to whether the club should send the college paper to the high schools represented in the club. The members were enthusiastically in favor of sending The Technician to the high schools represented in the club in order that the boys back home may know the type of college we have. No final decision will be made until next Tuesday night when we hope every boy from Virginia will meet in the "Y" a few minutes after supper in order that we can find out definitely the number of boys from Virginia so that we can complete our program for the year.

## On The Sidelines

The growl of the Wolfpack sounds sweet to our ears once more, and we can scarcely wait to see the force of their bite.

The Richmond Spiders might be bringing their web along, but we think it had better be made of something stronger than scrimmage line if they expect to hold what they'll find here.

Gus's fences and signs remove a nice source of afternoon's pleasure for us poor unathletic mortals, but we know from past experience that he and we're for him all the way.

Sammie and Chick seem to be all het up when they come in these afternoons. We take that to mean that they as well as the 29s are not loafing on the job of putting out a real championship team this fall.

Was Elon weak or Davidson strong last Saturday? For the peace of mind of several other teams we would like to believe it the former.

Davidson, we certainly sympathize with you for the loss of your fine quarter-back.

There's one consolation at least, they can't put a fence around Captain Wright and his pack of distance-hounds every day.

Don't it sound funny not to hear Dutch and Red down on Riddick Field these days?

## TEXTILE DEPARTMENT SENDS GOOD DISPLAY TO CHARLOTTE EXPOSITION

The exhibit of the Textile Department of the North Carolina State College of Agriculture and Engineering at the "Made-in-Carolina" Exposition at Charlotte from September 21 to October 3, was said by the Charlotte News to be the most striking exhibit of textile goods of designed and woven fabrics prepared by students of the textile industry.

In the six hundred feet of space—which is two hundred feet more than first allotted—on the second floor of the exhibition building to the representatives of N. C. State—there are being shown a number of frame pictures of goods and nine samples of cloth as well as other fabrics, samples and designs of cloth which makes the manufacturers realize that State College is doing its part in popularizing made-in-Carolina goods by training young men in the technique and art of textile manufacturing.

It is estimated that one-half of the cotton mills at present spin yarn only, and that the future development in the textile industry is in the path of weaving and designing for which the students at State are being especially trained.

Mr. Hart and Mr. W. E. Shinn were in charge of the exhibit from N. C. State College until their return Friday, which left N. N. Harte of the Senior Class as supervisor.

No prizes are offered for the best exhibit, but the object is to boost Carolina products.

West Point has adopted the three-year football rule, to go into effect next year. The rule will not, however, affect this year's freshman team.

A dark past may serve as a reflector for a very bright future.

## Wolfpack Opens Season With 20-0 Victory Over Richmond

(Continued from page 1.)

Hunneycutt	Shelton
Anthony	L. G. Robbins
Kilgore	L. T. Sanford
Jennette	L. E. Newcomb (Capt.)
McDowall	Q. B. Dillion
Johnson (Capt.)	R. H. McCorkle
W. Shuford	L. H. Vitsby
	F. B.

Officials: Gass (Lehigh), umpire; Magoffium (Mich.), referee; Hays (Miss.), head linesman. Periods: 12 minutes.

Score by quarters:

State ..... 7 0 0 13—20

Richmond ..... 0 0 0 0—0

Substitutions: State, Wilson for Anthony; Donnell for Hunneycutt; Fountain for White; Austell for Watkins; Anthony for Wilson; Evans for W. Shuford; Hunneycutt for McDowall; C. Shuford for Jennette; Austin for C. Shuford; Shelton for Studdert; Balfy for H. Watkins; Faulkner for Hunneycutt; Benfield for Donnell; Thomas for Johnson; Studdert for Kilgore; Hendricks for Bynum; Nicholson for Fountain; Watkins for Austell; Black for Logan. Richmond, Whittem for Robbins; Peterson for McCorkle; Parker for Goode.

### Game by Quarters

State started with wind at her back. Richmond kicked to forty-three-yard line. Jennette lost three yards over center. Pass incomplete, McDowall to Watkins. Pass incomplete, McDowall to Johnson. Fourth down McDowall punts forty-eight yards to twenty-yard line. Richmond punts to McDowall to thirty-five-yard line. Johnson off tackle, three yards. McDowall punts to ten-yard line. Richmond punts to Richmond punts cmfwypetaoicmfwp five-yard gain. Johnson, right tackle, three yards. Shuford over center two yards and first down. Pass incomplete, McDowall to Johnson. Pass grounded, McDowall to Johnson; ball goes over on the fifteen-yard line. Jennette intercepts pass and runs eleven yards to five-yard line. Johnson, left end, no gain. Shuford, one yard over center for touchdown. McDowall passes to Johnson for try for point. Quarter ended, State 7; Richmond 0.

### Second Quarter

McDowall punts to forty-yard line. Running pass four yards for Richmond. Pass incomplete. Drop kick no good. State's ball on twenty-yard line. McDowall, four yards left end. Johnson, four yards right tackle. Shuford, four yards for first down. Pass incomplete for Richmond. Richmond punts to McDowall, who returns to ten-yard line as half ended. State 7; Richmond 0.

### Third Quarter

State kicks off. Richmond returns ball forty yards. State holds for down. Johnson, left end, nine yards. W. Shuford, one yard and first down. Johnson, right end, twenty-five yards and first down. Johnson, off tackle, two yards. McDowall, left end, fifteen yards. Quarter ended, State 7; Richmond 0.

### Fourth Quarter

Evans, off tackle, two yards. Pass, McDowall to Evans, fumbled but was off-side and penalized five yards. Pass, McDowall to Johnson, seven yards for touchdown. Bynum gets extra point by drop kick. Richmond kicks off from forty-yard line to ten-yard line and McDowall, who ran seventy-five yards and first down. Bynum's drop kick from twenty-yard line fails. C. Shuford, two yards right end. Pass, Johnson to C. Shuford, ten yards and touchdown. Bynum's try for point failed. State kicked to Richmond's thirty-five-yard line. Richmond pass incomplete. Pass completed for eleven yards and first down. Pass incomplete. Pass good for twenty yards and first down. Pass incomplete. Pass good for twenty-five yards and first down, carrying ball to State's ten-yard line. Pass incomplete over the line. State's ball on twenty-yard line. Evans, one yard, off tackle. Faulkner, eight yards, off tackle. State 20; Richmond 0.

A committee of the American Association of University Women, in compiling expenses of women at 114 colleges and universities, found that college cost the average co-ed about \$650 per year.

Violations of the hazing rules at the University of Minnesota are punishable by indefinite suspension or expulsion from school.

A psychological clinic, where individual examinations and suggestions for students bothered with educational problems are given, has been established at the Ohio State University.

Last year \$52,700 was earned by students of Leland Stanford University through jobs furnished by the employment office. Sixty-two per cent of the men students earned a part of their expenses last year. The percentage is expected to be larger this year.

A matrimonial agency has been started in Ottawa University. Two sophomore girls guarantee anybody a date for twenty-five cents. (Burlap holders please note.)

The students and faculty of Oregon Agricultural College over-subscribed their drive for the proposed Memorial Union building by over fifty thousand dollars.

The Journalism department of the University of Iowa has a newspaper library which contains an edition of every daily paper published in the United States, 2,500 in all.
