TWELVE MEMBERS OF SENIOR CLASS GET HIGH HONOR

Organization of Senior Honor Society Completed and Name Chosen

BE "THE GOLDEN CHAIN"

Will Elect Members of Coming Senior Class at Appropriate Exercises

As a result of a meeting of the Senior Class held last week, the proposed Senior honor society became a reality when twelve members of the class were elected to receive the honor of the first membership in the society.

The organization was perfected at a meeting in the president's office Saturday night, at which time officers were elected and the name, "The Golden Chain," was chosen. The men who are charter members are R. D. Beam, R. E. Black, C. B. Brown, F. K. Fogleman, J. E. Foster, H. E. Kedall, E. G. Moore, J. M. Potter, C. L. Shuford, H. W. Taylor, R. J. Peeler, C. W. Wade.

The purpose of the organization, as set forth in the constitution, is to foster prevailing traditions and promote new traditions at such time as they are needed. Citizenship in its broadest terms is the determining factor in selecting members, and includes such items as better athletics, higher standards of scholarship and government, clearer expression, and fidelity to duty. The constitution also provides for the election of twelve members of the Junior Class during the month of May. These men will be selected at a public meeting and initiation ceremonies will take place at that time. The day will be known as "Link Day," and the idea of an endless chain will be carried out in the initiation. The names of the men to be honored at this time will be withheld and no one outside the organization will know who is to be selected for membership until the ceremonies begin. It is hoped that the entire student body will be present at this time, and especially is this true of the Junior Class.

Final plans for the ritual are being drawn up by a committee consisting of R. D. Beam and two members of the faculty committee appointed by Dr. Brooks to advise in the organization of the society.

During the past few years many new organizations have sprung up on the campus, honorary and otherwise. It is not the purpose of "The Golden Chain" to compete with these.

LAST GLEE CLUB TRIP OF YEAR ENDS LATE AT NIGHT

Wilson Only Dark Spot in List of Widely Separated Towns on Spring Schedule

Yawning, stretching, fumbling for hats, and swearing sullenly at each other as only the best of friends can swear, the State College Glee Club and Orchestra stumbled out of the "Blue Goose" in front of the Frank Thompson Gymnasium Saturday morning at 2:15. The last, most pleasant, and most successful tour of the year was only a page of history.

An article in these columns last week gave an account of the jolly musicians in New Bern and Snow Hill. Since then President Brooks and Editor Moore have received communications from each of these towns, commending the organization and its program most highly.

The bright spot in the last half of the week's tour was Clinton. The queen of huckleberry cities was all hospitality.

The Rotary Club invited "Daddy" and his quartet to dinner. The quartet made such a favorable impression on that body that every mother's son of them rushed home to get his family and take to the concert. If the Rotary Club had had more members the auditorium would have been filled to overflowing. This was, perhaps, the best program of the year, since the organization was full strength for the first time, and the audience called out the best that the boys had. The double quartet and...

1926 VALEDICTORIAN

HERMAN W. TAYLOR

H. W. TAYLOR IS NAMED CLASS VALEDICTORIAN

Leads Entire Class of 190 in Scholarship; Won Many Honors Besides

Herman W. ("Pop") Taylor, of Wilmington, will be the valedictorian for the Class of 1926, according to an announcement from the registrar's office this week. He entered school with the Class of '26 and has been a consistent worker for four years.

During his Freshman year, by winning the Alpha Zeta scholastic medal, Taylor displayed an ability to do good work in class and take an active part in outside activities. Since that time he has contributed something to almost every phase of college life. He has been manager of the wrestling team, inter-society debater and orator, president of the Students' Fair, president of his literary society, managing editor of N. C. State Agriculturalist, and cadet captain in the R.O.T.C. regiment.

He is registered in the graduate school at present, as his requirements for graduation were completed at the end of the second term. He will return next year for graduate work in Agronomy. His undergraduate work was done in the School of Science and Business, in the Department of Vocational Education. He is a member of the Pine Burr Society. —Continued on page 2.

PULLEN DEFEATS LEAZAR IN LAST DEBATE OF YEAR

W. B. Kilgore, of Pullen Society, Declared Best Speaker in Heated Contest

Before a small audience, Wednesday night, the Freshman debate team from Pullen Literary Society emerged triumphant from a battle of wits with the Freshman team from Leazar Literary Society. W. B. Kilgore, of Pullen, was awarded the decision of best speaker.

This is the sixth and final inter-society battle between the two societies, and in the final count Pullen has won four of the affairs, losing only the oratorical and declamation ventures. This gives Pullen a twenty-five-point lead in the annual contest.

The question was, "Resolved, That the United States Government should operate the coal mines." The affirmative team from Leazar, composed of R. H. Dunlap and E. R. Walborn, advocated government ownership, operation, and control through a civil service system. They declared that labor would be given regular employment; that waste of coal at the mines would be prevented, and that the profits would be taken out of private hands.

The negative team from Pullen, composed of H. H. Burroughs and W. B. Kilgore, stated that the affirmative should prove government ownership, operation, and control to be practical, to be possible, and to be necessary in order to support their contentions. The affirmative failed to do. The negative speakers emphasized the fact that our Government is not adapted to the proper conduct of business enterprises because of automatic and frequent changes of political officeholders, and that waste under government operation is much greater than under private ownership. They also brought out the fact that American business has been built up by private ownership, operation, and control of natural resources. Burroughs was mentioned as second speaker.

Student Government President Assumes Command at Helm

Matheson Formally Takes Over Reins of Government From Retiring Kendall; Inaugural Address Outline of Purpose and Aspirations of Self-Government Among Students

"It is up to the men of the student body to do their part and to assume some of the responsibility of student government and not to leave everything up to the Student Council," said Henry E. Kendall, retiring president of the student body, in a speech made at the general assembly exercises in Pullen Hall, April 28, to the men of State College on the occasion of the inauguration of the men who are to govern the student body during the year 1926-1927, and of those who are to compose the Student Council for the next year.

The assembly exercises were opened by the State College Concert Band which played during the program four selections, among which were: "National Emblem March" and the fox trot, "I Wanna Go Where You Go." Dean Cloyd made two announcements, and then called upon H. E. Kendall to deliver his farewell address.

Kendall, in his speech, spoke of the recent improvements made in the general conduct of the boys on the campus. He told how the drinking at dances had been decreased to such an extent that the dances held at State College were conducted as well as, if not better than, those at any other place. The hazing, too, has decreased until, after the first two weeks of school this year, there was practically none on the campus. It is thought that, with the co-operation of the sophomore classes of the future, all signs of hazing and horseplay will be eventually removed from the campus.

In speaking of the honor system, the retiring president said that nearly all the rules and by-laws of Student Government at State College are in some way, for the most part, directly related to the honor system in effect at this college. It would be better, in his opinion, if the example of Davidson and Washington and Lee, which have both made the greatest success with the honor system, could be followed here, and let each man be bound on his honor to report only a few most necessary violations of conduct instead of being bound, as at present, to report every little misdemeanor to the Student Council. Under this system an offender of the honor system would be looked upon as in disgrace, as should be the case.

At the conclusion of Kendall's speech, Dean Cloyd called the future officers to the rostrum. Here they were administered the oath of office by the vice-president of the present council, E. G. Moore. These men were: J. F. Matheson, president of the student body; J. A. Anthony, vice-president; J. C. Davis, secretary; C. S. Tucker, treasurer. The group of council members were then gathered before the rostrum and administered their oath of office.

The council is composed of: Seniors—W. E. Matthews, J. A. Anthony, K. V. Wainwright, C. A. Leonard, John Anderson, R. R. Fountain, J. F. Matheson; Juniors, Luther Shaw, C. S. Tucker, J. C. Davis, F. C. Davis; Sophomores—Charles Hibbard, K. C. Loughlin, H. C. Greene. The House is composed of the following men, who were duly sworn in: Seniors—J. L. Smathers, J. D. Conrad, H. M. Weedon, J. J. Barnhardt, H. E. Springer, W. M. Ginn, J. D. Cassada; Juniors—C. W. Jackson, Fred Crum, George Wallace, J. T. Alexander, M. J. Polk, E. W. Kearney; Sophomores—Frank Winkler, H. A. Phillips, Thomas Wilson, Robert Williams, H. H. Grubb, W. D. Kendall, C. E. Nicholson.

J. F. Matheson, in his inaugural address, said that before student government was established at this college the students had very little voice in the affairs of the college most closely related to them, yet the same student government was not established to give the students more power, but to enable the members of the faculty to devote their entire time to the instruction of the students, and to take off their hands the responsibility of dealing with ungentlemanly students. Since the installation of self-government, the self-control of the students has been better developed, and the general attitude toward discipline has improved a great deal.

Before student government was established, the interests of the students were entirely personal and dealt little with the problems of the college, while now, since the installation of this system, the whole college has been united, and each student is working for the good of the others about him. The government at State College can compare favorably with that of any other school in the South, except in the case of classroom honor. The standards of honor in the classroom can be greatly improved in many ways.

—Continued on page 2.

Matheson formally takes over the reins of government from retiring Kendall; inaugural address outline of purpose and aspirations of self-government among students.

The council is composed of: Seniors—W. E. Matthews, J. A. Anthony, K. V. Wainwright, C. A. Leonard, John Anderson, R. R. Fountain, J. F. Matheson; Juniors, Luther Shaw, C. S. Tucker, J. C. Davis, F. C. Davis; Sophomores—Charles Hibbard, K. C. Loughlin, H. C. Greene. The House is composed of the following men, who were duly sworn in: Seniors—J. L. Smathers, J. D. Conrad, H. M. Weedon, J. J. Barnhardt, H. E. Springer, W. M. Ginn, J. D. Cassada; Juniors—C. W. Jackson, Fred Crum, George Wallace, J. T. Alexander, M. J. Polk, E. W. Kearney; Sophomores—Frank Winkler, H. A. Phillips, Thomas Wilson, Robert Williams, H. H. Grubb, W. D. Kendall, C. E. Nicholson.

J. F. Matheson, in his inaugural address, said that before student government was established at this college the students had very little voice in the affairs of the college most closely related to them, yet the same student government was not established to give the students more power, but to enable the members of the faculty to devote their entire time to the instruction of the students, and to take off their hands the responsibility of dealing with ungentlemanly students. KENDALL AND MATHESON ATTEND SOUTHERN MEET

Annual Southern Student Federation Held at Washington and Lee University

Retiring President Kendall and the new President-elect Matheson attended the annual Southern Student Government Federation at Washington and Lee University on April 23 and 24. Practically every large Southern college and university that practices Student Government was represented at this conference by two delegates, usually the retiring president and the newly elected president of their respective schools.

The conference opened the morning of the 23d, and Dr. Smith, president of Washington and Lee, greeted the delegates with a delightful speech of welcome. He also gave a summary of the history of the Student Government at Washington and Lee.

Certain students from the different universities were assigned certain subjects pertaining directly to Student Government, which they were to lead in a discussion. After each discussion of a topic, the federation held open forum, and the question was discussed from every angle. Practically every great Student Government problem was discussed, and the ideas given by the various delegates were exceedingly beneficial to everyone present.

The hospitality shown by the students and the faculty of Washington and Lee could not have been better. This Federation is a great advancement in the strengthening of Student Government. It will be held at the University of Kentucky next year, and it would certainly help State College if we could get it here the following year.

MILITARY DEPARTMENT STAGE DEMONSTRATION

Annual Military Maneuvers Will Be Held in Pullen Park on Thursday, May 6

The Military Department is going to stage a demonstration of military tactics on Thursday, May 6, at twelve o'clock, which will be that of a platoon attacking an enemy position, and will take place in Pullen Park. The maneuvers will begin with the platoon deployed on the hill just below Seventh Dormitory, with the scouts out in advance of the platoon. The section will slowly move forward over the hill until the scouts are fired upon by the enemy, located in the bushes near the rifle range. At this time they will pick up the fire, and the main body of the section will move forward by infiltration to pick up the fire as it arrives at the line of scouts. It is at this moment that the real fight begins. The section will be moved forward by squad rushes until it reaches the ditch which crosses the field near the rifle range. When the section has gained fire superiority the order will be given to fix bayonets, and marching fire will be taken up upon leaving the ditch. At this time the enemy's fire is to be very slow and finally cease when the assault will be made.

During this time the second section of the platoon is to work its way around the left flank of the first section in order to afford protection against flanking fire by the enemy. The platoon is to be supported by machine guns, 37 millimeter guns, and trench mortars.

Captain Lee is in charge of the training for the maneuver and is working hard in an effort to make it a great success. The public is cordially invited and a large crowd is expected to attend.

STATE TRACK MEET TODAY

The track stars from Carolina, Duke, Davidson, State, Elon, Guilford, and Lenoir who survived the preliminary races and trials yesterday will battle for the State Track Championship and individual awards on Riddick Field this afternoon, beginning at 2:00 o'clock.

MILITARY DEPARTMENT GIVES ENTERTAINMENT

Charleston Contest Will Be Feature at First Program of Its Kind on Campus

The Military Department is going to stage an entertainment in Pullen Hall on May 6 for the purpose of raising money for the Infantry Memorial. This entertainment will consist of a band concert, solos, a "Charleston contest," and several other features, among which are the State College Quartet.

Several prominent faculty members are anxious to compete in the Charleston contest, but the decision as to whether they will be allowed has not been announced. Several students with ball-bearing knees and ankles have already signed up. Cash prizes have been offered, as follows: \$10 for first place, \$5 for second place and a handsomely bound copy of the third term schedule for the third place. The New Electrola, wonder phonograph, furnished by Darnell & Thomas, will furnish the music for the contest.

The band concert is to be the same that has been given in several cities this spring. The concert will be composed of band selections and solos. The "Foolish Four" will also be present and strut their stuff. The Freshman Quartet will probably be present to assist their big brothers in a double quartet.

FACULTY FRATERNITY CLUB TO GIVE SCHOLARSHIP CUP

Student Social Fraternity With Highest Average Grade To Receive Award Cup

The Faculty Fraternity Club of North Carolina State College has recently announced that they will give, to one of the social fraternities of State College, a Scholarship Cup. They have adopted the following conditions by which the award is to be made: The cup shall be awarded to that social fraternity having representation on the Pan-Hellenic Council which has made the highest average grade during the last term of the preceding year and during the first two terms of the year in which it is awarded.

In computing the scholarship standing, the grades of freshmen members for the first two terms shall be included.

The grades of members withdrawing from college within thirty days prior to the end of the second term shall be secured from their instructors at the time of their withdrawal, and shall be included in computing the average of the group.

The cup shall be awarded annually at some time during the third term. The name of the winner, the grade, and the date shall be engraved upon it. The cup shall become the permanent property of the fraternity winning it for three successive years.

Cup is awarded by the Faculty Fraternity Club of State College.

"Y" CABINET OFFICERS WILL BE INSTALLED

The Bible Study Committee of the Y. M. C. A. decided to have a get-together and refreshments for all who attended the classes, instead of giving a banquet to the men who had a perfect attendance. This Bible Study affair will be held in connection with the installation service of the new officers of the Y. M. C. A., at 7:00 o'clock Wednesday, May 5, in the "Y" auditorium. All members of the Bible Study classes are expected to attend, and all others are welcome.

FINAL PLANS FOR SCHOLARSHIP DAY HAVE BEEN MADE

Held Under Auspices Pine Burr Society and Phi Kappa Phi Fraternity

CHASE TO MAKE ADDRESS

Object to Create Interest in Higher Scholastic Attainments in College

Final plans have been made for the inauguration of "Scholarship Day," which will be held May 12, and the complete program has been issued by Dean E. L. Cloyd.

The meeting will be held in Pullen Hall from 11:00 to 1:00 o'clock, and all classes will be dismissed for that time. Dr. Harry W. Chase will deliver the principal talk, and representatives of Phi Beta Kappa from Duke, Davidson, and Carolina will make short talks. President Brooks will preside at the meeting.

J. G. Weaver, president of the Pine Burr Society (scholarship), will make the first address, on "The Purpose of Scholarship Day." Dr. W. C. Riddick, president of Phi Kappa Phi, will read the honor roll for the year, and Col. J. W. Harrelson will read the names of those who are members of the honorary societies and fraternities on the campus.

The Alpha Zeta scholarship cup will be presented to the sophomore in Agriculture who made the highest grade during his freshman year. The College orchestra will furnish music.

Following is the program:

First Annual Scholarship Day
North Carolina State College of Agriculture and Engineering, Wednesday, May 12, from 11:00 to 1:00 o'clock. Auspices of the Pine Burr and Phi Kappa Phi scholarship societies. Dr. Eugene Clyde Brooks, President North Carolina State College, presiding.

Music—State College Orchestra. Invocation—Rev. Henry G. Lane, Rector of the Church of the Good Shepherd.

Purpose of Scholarship Day—J. G. Weaver, President Pine Burr Society. Address—Dr. Harry Woodburn Chase, President University of North Carolina.

Music—State College Orchestra. Reading of Honor Roll—Dr. W. C. Riddick, President Phi Kappa Phi Society.

Greetings from Phi Beta Kappa—University of North Carolina. —Continued on page 2.

ANNUAL JERSEY CATTLE SALE BE HELD MAY 6TH

Some of Finest Blood in State Consigned to First Sale Held at College

The fifth annual consignment sale by the North Carolina Jersey Cattle Club will be held in the Judging Pavilion of the new Animal Husbandry Building at State College, Thursday, May 6, 1926. Lunch will be served at 11:30, and sale will begin at 12:00 o'clock.

The officers of the North Carolina Jersey Cattle Club are: R. L. Shuford, president; A. C. Wharton, vice-president, and Prof. R. H. Ruffner, secretary-treasurer. These three, with R. E. McDowell and H. P. Lutz, compose the sales committee.

The offerings, which have been carefully selected by these men, are the choice animals from the best herds in the State. The majority of the animals are out of Register of Merit dams, by Raleigh's Farmer's Glory, one of the richest bred "Raleigh" bulls in America, for which an offer of \$27,500 was recently refused. This bull will also be sold, and will make a wonderful addition to any herd in the State. Then there is the choice of the choicest females in the young Silver Medal cow, "N. C. State Admiration," with a record of 8,500 pounds of milk, 463.73 pounds of fat, in 305 days, at the age of two years and two months. She is consigned by N. C. State College.

This is the first time a sale has been held at the College, and it should be of an educational value to any of the students who desire to attend.

ARRINGTON ADDRESSES THE TEXTILE STUDENTS

John W. Arrington, president of the Union Bleachery, Greenville, S. C., spoke to the junior and senior textile students in the Textile Building Thursday morning, April 22.

Mr. Arrington, a North Carolinian by birth, says that the textile industry has a great future in the South. He looks for great progress, especially in the finishing branch of the industry. It is his opinion that the South offers the best opportunities for textile graduates.

In the Union Bleachery, according to Mr. Arrington, the best qualified men, and not the men that have been on the job the longest, get the promotions. He also stated that a man must have leadership above all other things if he expects to succeed as a mill executive. He encouraged students not to become impatient after leaving school, but to be willing to start at the bottom and work up, although it may take a few years.

At the close of his talk, Mr. Arrington showed several large photos of the Union Bleachery, at Greenville, S. C.

Entertainment Given Military Department

(Continued from page 1)

- The program is as follows:
1. Band—El Capitán. March, by Sousa.
 2. Band—Poet and Peasant. Overture, by Von Suppe.
 3. Cornet Solo — Inflammatus, from Rossini's Stabat Mater. Played by W. K. Enos.
 4. State College Quartet.
 5. Band—Panorama. Overture, by Barnhouse.
 - Intermission.
 6. Band—Spring Zephyrs. Waltz Intermzzo, by Vessella.
 7. Baritone Solo—Tramp, Tramp, Tramp, by Goldman. Played by J. A. King.
 8. State College Quartet.
 9. Band—Echoes from the Harem. Oriental Dance, by Hughes.
 10. Band—In a Moonlit Garden. Intermzzo, by King.
 11. State College Quartet.
 12. Band—State College. Keep Fighting Along. Music by Sousa; words by Ray, '25.
 13. Band—Star Spangled Banner, by Key.
 14. State College Charleston Contest.
- The admission to the entertainment is twenty-five cents. Tickets are on sale at the Military Department and by R.O.T.C. Seniors.

Last Glee Club Trip Of Year Ends Late At Night

(Continued from page 1)

violin solo were, perhaps, the most applauded.

The high school girls gave a dance after the program, in honor of the club.

The dark and unsavory ending of the tour was the appearance at Wilson. Lack of proper organization and advertisement at that place left the boys "holding the sack" for want of an audience worthy of the name.

Enthusiastic letters have been received by the president of the College and the editor of The Technician from each of the towns visited. They would be reprinted if space permitted.

Kampus Komiks

BY "J. J."

"Show me the way to go home!" yelled Charlie Shuford, as he tore into third base in the baseball game Thursday.

Student (being arrested)—But, officer, I am a student.

Officer—Ignorance is no excuse.

Signs

"What makes you think they're engaged?"

"She has a ring and he's broke."

"Hope you liked those queer little Chinese back-scratchers I sent you, dear."

"Is that what they are? Mercy! I've been making my husband eat his salad with them."

Poor Anthony Coccyx! He's so cross-eyed that every time he puts a penny in a slot-machine he gets salted peanuts instead of chewing gum.

The last word in petting parties—

"Stop."

Bride (at butcher shop)—I want half a pound of mince meat, and cut it from a nice, tender young mince, please.

A blotter is the thing you spend your time looking for while the ink is drying.

Jacobs—Where does the time pass the fastest?

Oliver—I'll bite. Where?

Jacobs—In Italy, for every time you turn around, you see a dago.

Prof.—Is there anything you can do better than anyone else?

Student—Yes; I can read my own writing.

He (in a very low voice caused from a cold)—Is the doctor home?

She (in a low whisper)—No, come right on in.

Man in barber's chair—Be careful not to cut my hair too short. People will take me for my wife.

Wife—I'm sick of being married.

Hubby—So's yer ole man.

He—Do you dance?

She—Yes, I love to.

He—Fine; that beats dancing any time.

"Do you know that I started life as a barefoot boy?" asked a merchant who had been rather successful.

"Well, I wasn't born with shoes on, myself," said the clerk.

"Do you want anything in yours?"

"No, I guess I'll take it straight to-night."

"Me, too. Waiter, two black coffees."

Customer: "You say this is athletic underwear?"

Clerk: "Yes, ma'am."

Customer: "Let me see it do some hand-springs."

A small boy who was sitting next to a very haughty old lady in a crowded train kept sniffing in the most annoying

ing manner. At last the lady could bear it no longer and turned to the boy:

"Boy, have you got a handkerchief?" she demanded.

The small boy looked at her for a few seconds and then, in a dignified tone came the answer:

"Yes, I have, but I don't lend it to strangers."

First Dark Boy—I hear you-all's sick.

Second Dark Boy—Yas, sir; I got pleurisy.

F. D. B.—You sho' has a mighty alcoholic breath.

S. D. B.—Yas, sir; every time I looks, I sees plural.

"So you accepted that young postal clerk?"

"How could I help it? He addressed me rapidly, then enveloped me in his arms, stamped a kiss on my lips, and sealed with a hug."

A railway contractor advertised for one hundred and fifty sleepers. A clergyman replied, offering his entire congregation.

Teacher—Do you understand the difference between liking and loving? Willie—Yes, ma'am; I like my father and mother, but I love pie.

"I don't quite get you," said the count, as the pretty heiress rejected him.

"Will you marry me?"

"No."

They lived happily ever after.

Cop: "What are you doing on this front porch at 2 o'clock in the morning?"

Copped: "I live here, officer. I lost my key and am waiting for the children to come home and let me in."

She: I can't imagine why Helen wore a chiffon dress to the dance.

He: I saw through that right away.

Mary: There's a new prof, do you have anything under him?

Jane: Yes, he's sitting on my hat.

Son: "Wow, Mary took a bite of my apple."

Mom: "You shouldn't cry over a little thing like that."

Son: "But it was my Adam's apple."

Prof: "Do you change your environment very often?"

Fred: "I shore do. I change every Saturday night."

Willie: Why is cleanliness next to godliness?

Firp: Why?

Willie: Because Saturday is before Sunday.

A month before my uncle's death he knew he was going to die.

Who told him?

The judge.

H. W. Taylor Is Named

Class Valedictorian

(Continued from page 1)

Kappa Phi, Alpha Zeta, The Golden Chain, and a host of other clubs.

The men with the eight highest scholastic records for the four years are as follows:

H. W. Taylor	90.3
J. B. Edwards	89.8
F. L. Tarleton	98.7
G. W. Dobbins	89.4
E. G. Moore	89.1
C. W. Wade	88.6
T. C. White	88.3
T. L. Bennett	87.7

Student Government President Assumes Command

(Continued from page 1)

ways, but to accomplish this, the officers of the student government must have the co-operation of every student in the college.

Dr. C. C. Taylor, Dean of the Graduate School, followed Matheson with another address to the student-body upon the subject, "Privileges and Responsibilities of Self-Government." In explaining his subject, Dr. Taylor said that the necessary men can be elected, and that they can be expected to govern, but such a case is not self-government. Self-government is based on the recognition and knowledge that the individual and the group are one, and that each is a part of the other. The individual determines the character of the group, and the group, in turn, sets the standards for the individual as well as his rights and penalties. Self-government is largely a government of public opinion.

A democratic government is as good as its people make it. In this form of government there are three groups of people taking part, the first of which is the group of leaders, those who generate the issues and arguments; the second is composed of those who silently weigh and judge the issues and sanction or taboo them, while the third group is one without which self-government would be much better; that of the voting or the non-voting mass. The great concern in self-government today is to move as many as possible from the third into the second group. The last great essential to a good government of this type is a live public conscience.

Last Week's Best Article

The honor for having the best article in the issue of April 17 goes to S. V. King for his story, "Panoramic View of Dix Hill Fire Full of Human Interest."

The honor for having the best article in the issue of April 24 goes to H. W. Taylor for his Student Forum article, "When Does a Professor Fail?"

FRATERNITIES ASSIST BUSINESS WOMEN'S CLUB

The Business and Professional Women of Raleigh have for the past few years owned a training camp for recreation in the western part of North Carolina. In the past, the building and keeping of the grounds and the summer camps held there have all been financed by the members.

On April 26, Mrs. Barbee, of 10 North Boylan Ave., asked one representative of each fraternity at State College to meet with her at her home. With the exception of one or two fraternities, all responded and had a very successful meeting. Mrs. Barbee asked the co-operation of the fraternities in helping sell tickets for a dance to be given at the Woman's Club at an early date, the proceeds to go to the Business and Professional Women of Raleigh to help finance the camp for the approaching season. John Anthony, of the Sigma Nu Fraternity, was called upon first, and he agreed to sell ten tickets. All the other representatives followed him and took

Twelve Members of Senior Class Get High Honor

(Continued from page 1.)

Chain" to compete with any organization now represented here. It was felt by many Seniors and faculty members that a local honorary society could do much to foster traditions at the College, and render service in many other ways. It is differentiated from the Pine Burr Society in that it is not based on schol-

arship alone, although that is one factor in the selection of members.

The first move toward the beginning of the society was a suggestion in an editorial in this paper during January, to the effect that such a society would be an addition to the campus organizations. Dean E. L. Cloyd immediately took the matter up with Dr. Brooks, and it met with the approval of each. The faculty council then voted in favor of the idea, and Dr. Brooks appointed a committee consisting of Dr. Taylor, Dean Cloyd, Tal Stafford, J. F. Miller, E. S. King, Major Price, Professors Greaves-Walker and Cunningham.

Crows

In a field in sunny Spain stands a stone mortar. Crows hover around it, picking up bits of grain and chaff—cawing.

Here Marcheta, in the fresh beauty of her youth, will come to pound maize. For years she will pound maize. The stone will stand up under the blows; not a dent has the muscle of three generations of women made upon it. But the crows will hurl their black gibes upon a woman aging early and bent with toil. Old Marcheta—still in her thirties.

The American woman does not pound maize. But she still beats carpet; she still pounds clothes; she still pumps water. She exhausts her strength in tasks which electricity can do better, and in half the time.

The high ideals of a community mean little where woman is still doomed to drudgery. But the miracles which electricity already has performed indicate but a fraction of the vast possibilities for better living and the tremendous opportunities which the future developments in electricity will hold for the college man and woman.

Electricity, which can release woman from her burdens, has already created a revolution in American industry. Wherever mankind labors, General Electric motors can be found carrying loads, driving machinery and saving time and labor. And there is no branch of electrical development today to which General Electric has not made important contributions.

A series of G-E advertisements showing what electricity is doing in many fields will be sent on request. Ask for booklet GEK-1.

Ten-Inning Thriller Finally Ends 5 to 4 in State's Favor

Four Home Runs, Evenly Divided, Add Spice to Interesting Battle Between Techs and Methodists on Riddick Field; Charlie Shuford Saves and Wins Game in Tenth; Duke Shortstop Handles 10 Chances Without Error.

With Beal in the box and the whole team showing a complete reversal of form, it took ten big innings to show the Blue Devils that State can still upset the old dope bucket. Back home from a very disastrous road trip the team seemed to take on new life when only three of Duke's men came to bat in the first frame and two of them whiffed the air.

The first two innings resulted in goose eggs for both teams. It really looked as if the spectators were going to see a game like many of those the famous "Barney" of the Senators has pitched in his long career.

The first man up in the third for Duke whiffed for the fourth strike-out for "Rooster." Then came Duke's third baseman. He caused a cold chill to run up the spine of many of State's supporters, for he lifted one of Beal's benders into the left-field bleachers for the first run of the game.

State tied the score in their half of the third with a two-base hit by "Legs" Faulkner, a stolen base by "Rat" Austin, running for "Legs," and a fielder's choice.

Duke scored two more runs in the fourth on an error and a home run by Weaver. Duke, however, did not have a monopoly on home runs, for in State's half of the fourth "Croaker" Wade picked out one of Thomas' high ones and parked it over the center-field bleachers. Tommy Harrill also parked one in the sixth, with Captain Gilbert stationed on first.

With the score 4 all in the tenth, Charlie Shuford made one of the prettiest catches ever seen on Riddick Field. Weaver hit a line drive through left field. Everyone was expecting to see Weaver trotting around the bases and the Duke supporters cheering madly. But this did not happen, for Shuford jumped high into the air to bring down safely the traveling horsehide.

Charlie was not satisfied with his wonderful catch. He wanted the best game to be seen on Riddick this year to end in State's favor, and he ended it by slamming out a three-bagger to right field. He galloped home for the

STUDENTS SERENADE AFTER WINNING FROM DUKE TEAM

St. Mary's and Peace Meet Boys
Half Way in Staging
Celebration

Saturday evening, April 24, about 300 of the State College student-body serenaded the girls' colleges in Raleigh, celebrating the 5-4 victory over Duke University.

They marched down Hillsboro Street to St. Mary's. Here they found the girls waiting for them with open arms. They were received in a more cordial manner at St. Mary's than ever before. The girls answered State yells and songs with yells and songs of their own. The president of St. Mary's congratulated the boys for their victory.

After leaving St. Mary's, the boys marched to the Capitol Square, yelling and singing constantly. Here they were joined by a few recruits.

From the Capitol they went to Peace Institute. Here they were met by the same old Peace spirit which was running over with pep and cordiality. The most interesting feature of the evening took place when J. E. Debnam ("Ep"), a State freshman, gave a yodel. J. G. Allston ("Sir Sid"), J. C. Hester ("Red"), and J. E. Debnam sang two selections. Peace sang her "Alma Mater," and joined in "State College Keep Fighting Along."

The very unusual thing was that the boys did not parade down Fayetteville Street. Why? No one seems to know. From the beginning of the ball game Saturday afternoon to the end of the serenade Saturday evening, there was what seemed to be the rebirth of the old State College spirit. It was a wonderful exhibition of college pep and enthusiasm.

winning run when Vick hit a fast roller to Cranford.

Brown, Duke's snappy short stop, gave the spectators a real treat by handling ten chances without a bobble. Chappell and Bunting for Duke, and Wade for State, showed up best in the stick work. Each connected twice out of four times at bat.

Ga. Tech Plays Well To Win Two-Game Series From State

Yellow Jackets Take First Game Easily With Score of 10-2, But Barely Nose Out Win in Second Game 7 to 5; Heavy Hitting Features Both Games, With Fielding Excellent on Both Sides; Home Runs Are Plentiful.

Reversing the famous series of two years ago, Georgia Tech had little trouble in taking a brace of games from the N. C. Techs on Riddick Field on Wednesday and Thursday.

Beginning with four runs in the second inning of the first game, the Yellow Jackets continued to hit and run until they battered two hurlers for a 10-to-2 win. Both teams played an excellent defensive game, with Austin, on third, and first baseman Harrill showing up best for State. Smead, "the laughing pitcher," held the Doakmen at his mercy in all but the seventh, and let them down with only six hits. State scored first in the seventh, when an error, a walk, a hit batsman, and a wild toss put Kidd across the plate. In the eighth, C. Shuford tripled into the bleachers and easily scored on Harrill's single. Georgia Tech scored four runs in the second frame and four more in the seventh, with one each in the fifth and ninth. Angley, Jacket catcher, gave the best exhibition of college catching seen on Riddick Field in many a day. Besides playing tip-top behind the bat, this round player slammed two in the immediate vicinity of the distant right-field fence, and bounced one into the center-field bleachers for the circuit.

Morrison allowed 12 hits in the seven innings he pitched, and allowed all except one of the Georgia Tech scores. "Skeet" Green, on the mound the first time for the North Carolinians, fanned three men in two innings, and only permitted two hits for one run.

Second Game, 7-5

With the score tied at five all in the latter half of the Thursday game, Wycoff, centerfielder and football star, met the ball squarely and deposited it with seeming ease over the bleachers in left field. One man was on base at the time. In the sixth, mighty "Croaker" Wade came to bat with Vick and Gilbert on the sacks. The ball left his bat in the direction of center field, and before Wycoff could chase it down and throw it home all three runners had crossed the plate. This hit was almost the counterpart of "Red" Johnson's famed home run in 1924. Two men on base and one out gave State another chance to tie the score or win, but the next two men were easy outs and removed the best chance to score. C. Shuford tripled in the third inning, but was trapped off the base by the catcher.

Tech scored five of their runs in the third inning on five straight hits, three off Green and two off Beal, the last one being a home run in center field. Both teams again played excellent ball in the field, with Vick for State and Reeves, Tech short-stop, doing the best work. Conn pitched the whole game for the winners, and though hit freely, he tightened up and held in the pinches. Green and Beal both pitched well, except for a bad inning, while Beal starred for State at the bat with a single and two long doubles to left field.

A bandit posing as a guide recently escorted a stranger about the campus at the University of California, and then proceeded to rob him of \$35.

LENOIR-RHYNERS SUCCUMB TO NUMEROUS LONG HITS

"Rooster" Beal Allows Only
Three Hits and Lutherans
Fall, 10 to 2

"Chick" Doak's nine made it two in a row by defeating Dick Gurley's Lenoir-Rhyners, 10-2, on Riddick Field last Tuesday. "Rooster" Beal worked out a very good game for the Doakmen. The Lutherans gathered a single, a triple, and a walk, which accounted for the two runs which they made. After that he pitched a no-hit game.

Homesly started the mound work for Lenoir-Rhyme, and pitched a very good game until the fourth inning, when State connected with the ball for three singles in succession which, with the first baseman's error, accounted for three runs. "Croaker" Wade parked one in the bleachers which, owing to the new ground rules, was a three-bagger. Kidd was hit by Homesly, and "Croaker" came home on a double steal when Kidd stole second. Harrill singled in the seventh and scored on Johnny Gilbert's double. The Doakmen started the "old eighth-inning rally" when "Croaker" Wade parked one in the bleachers and scored on Matheson's single. "Rat" Austin singled, and Johnny Matheson went to second and on to third on the second baseman's error. Beal was walked. The bases were loaded, and then Charlie Shuford "golfed" one into the bleachers, scoring three men. Charlie scored on Harrill's single. Johnny Matheson did some good

OAK RIDGERS RUN WILD IN FIRST: DOWN FROSH

The Cadets of Oak Ridge defeated Coach Tebell's Yearlings, 14-9, on Riddick Field last Friday.

Alston started the mound work for the Yearlings, but the hits he allowed, combined with several errors, accounted for the nine runs the Cadets made in the first inning. Alston was relieved by "Bugs" Burriss, who worked out a very good game for the freshmen. He struck out twelve men.

Forlowe and White pitched for Oak Ridge. They allowed fifteen hits. With the exception of the loose first inning it was a very good game.

DAVIDSON BESTS STATE FRESHMEN

Tebell's Freshmen hit an even dozen times to ten for the Wildkittens, but contributed eight errors to five, and fell before the Presbyterians by the score of 10 to 11. Taylor, for State, batted out three hits in four times up for the hitting honors of the day. Burroughs pitched for the Frosh, with Taylor doing the work behind the bat.

work on second by making some good pick-ups. Whisenhunt made a pretty catch between center and left field.

Moose, star pitcher for Lenoir, relieved Homesly in the seventh, but fared worse than his predecessor. He allowed five hits, which netted six runs, in the last two innings.

Seniors 3

The winner of the Fraternity Relay was Pi Kappa Phi, with a team composed of Murray, Bagwell, Campbell, and Brohel.

FRATERNITY BASEBALL

To lessen the number of games that must be played in the Fraternity League, the fraternities have been divided into two divisions. Each section will then decide its winner on a percentage basis, and the group winners will play it out for the Fraternity Championship. The groups are as follows:

Division A

Kappa Sigma
Sigma Phi Epsilon
Alpha Gamma Rho
Tau Rho Alpha
Sigma Delta
Theta Kappa Nu
Alpha Lambda Tau

Division B

Sigma Nu
Phi Kappa Tau
Pi Kappa Alpha
Sigma Pi
Kappa Iota Epsilon
Phi Kappa Phi

Schedule for Week May 3-8

May 4, 4:30, Fresh Field—Kappa Sigma vs. Tau Rho Alpha.
May 4, 6:20, Riddick Field—Sigma Pi vs. K. I. E.
May 6, 6:20, Riddick Field—Pi Kappa Alpha vs. Sigma Nu.

Paragraphics

It's a sorry game if Croaker Wade doesn't put two or three balls in the bleachers.

Remember that May 12 is Scholarship Day. It's a new college sport, but a rather commendable one at that.

We notice that the committee of 100 are planning great things. Wonder if they mean 100 B. C. or 100 A. D.

Lost or Strayed: One intercollegiate baseball championship. Finder please return to any North Carolina college.

Remember that next week is "Better Speech Week." A "Better Slang Week," however, would be more applicable for us collegians.

We hear that "Pop" Taylor is to be valedictorian. All right, if we can keep him from telling jokes in the course of his commencement speech.

Wonder if the loyal state authorities will debar the May issue of it because of the article by Nell Battle Lewis which tells a few unpalatable truths about our great state.

From last week's paper we read of board at \$10 per month, regular study hours, and compulsory chapel here twenty years ago. From that it's hard to tell whether the world is getting better or worse.

With this issue the old staff steps down from the high chair and turns the reins over to the new men. We have put in some labor, have written some foolish things, and have had a year of genuine pleasure.

In a student forum letter last week a student suggested that professors should be "funkt" out when they become inefficient. Would it not be a queer show to see the profs. around the postoffice comparing funk ships?

Due to an oversight of the editor no acknowledgment was made last week of the free show given the boys by the State Theatre. Since we are late we will say "Thank you" a few times to Mr. Lucas.

A realist would probably write up the installation ceremonies held Wednesday as follows: The student government officers were installed before an enthusiastic audience of about three dozen students.

Just at the time when the National Geographic magazine and the New York Sun are placing North Carolina before the eyes of the world, the brethren over at Charlotte are preparing to put on a real demonstration of intolerance and narrowness. Their first move will be the attempt to oust one of our greatest educators, Dr. W. L. Potteat.

THE PENALTY OF FREEDOM

(Extracts from address made before the N. C. Collegiate Press Association at Guilford College by President E. G. Moore.)

Since our last meeting attracted so much interest over the state and so many comments from the press, I am sure you are expecting something that will make Mr. Mencken ashamed of his *American Mercury* as a medium for sensational literary endeavor. Rather than try to live up to such an obligation I have decided to make a few observations, give the newly-elected editors some entirely unnecessary advice, admonish them to be good little boys and girls, and quit at that.

There is one observation which I must make from our last meeting. It is rather interesting to see the reaction among the elders when youth demands a hearing. Sometimes we fit into ruts so completely and operate so smoothly that it is exceedingly annoying to have someone come along and insist upon a few readjustments. Thus it was only natural that we should be criticised when we voiced the opinion that we be allowed freedom to express our own ideas rather than the stereotyped clap-trap so often handed down from higher up.

In a time when students are asking more, demanding more than ever before, it is to be expected that this body should join—yes, lead the movement. The spirit of inquiry, however, is not confined to the student journalists. On every campus today there are many specimens running wild who are asking that they be allowed to take part in their own education.

I think we should restate our position as firmly denouncing faculty censorship, but at the same time it behooves us to remember just what it means to do this. We raise a loud cry for the privilege of editing our own papers. We have asked that the faculty censors be relieved of their duties so they may attend the sewing circle. And yet I wonder if we realize the significance of the thing we are asking for? We must know there is a penalty attached to this freedom, as with all other desirable things. It may take on a number of different forms, but it will appear, and you may rely upon it. Above all things it will call for the exercise of judgment. There have been cases when college students have not exercised proper judgment nor realized their responsibility. The best way to get a thing is to prove worthy of it. As young men and women of judgment we must measure up to the confidence placed in us by our fellow students and our colleges themselves.

To those of you who are just beginning your careers as college journalists I would offer just a word of advice. When you have a real story "break" and have made plans for a feature issue, if you are not allowed to publish the story do not become discouraged. Remember that few of us ever get so high that we do not have to take orders from someone. That does not always seem just, but it is true, nevertheless. One of the greatest factors for success anywhere is judgment. It is especially true with newspaper editing. Be sure you have the truth before you make any rash decisions, and remember that truth, as Dr. Brooks says, "is facts in their right relationship to other facts."

Those words are not meant to act as a soothing syrup for those who do not like our stand for true expression. We are still knocking at the gates and shall continue to do so until we are bidden to enter.

There are many problems in student life today that should claim our attention. Some of these are government, athletics and hired athletics, gigantism, curriculum, quality and method of teaching, and many others. If you think that you will have no voice in handling these problems, you have underestimated your position; or else you are just a mere figurehead.

I can look at this audience and see enthusiasm radiating from practically every person. Let my last message to you be a plea to temper this enthusiasm with good, sound judgment.

AN ATTEMPT AT BEAUTY

For the past few months a program of beautification has been going forward on the campus. When it was begun those of us who did not know of its full extent said it was a move in the right direction, but that it probably would not go very far.

Now anyone can see that the campaign is not only the most thorough ever put on by the college, but probably the equal of any ever inaugu-

rated by a North Carolina college. And it is still going forward. For once the walks are being made where the students have occasion to walk. The hard earth is being prepared to receive the grass seed by liberal application of plant food and humus, besides being made loose and porous. Last, but by no means least, shrubbery is being set at appropriate places.

For the first time in its history this college has undertaken a systematic attempt at beauty, and the program is large enough to get results. Nothing that has happened during our four years here gives us more pride than this improvement in the appearance of the campus. It shows more than the mere work of landscape architects. To us it is the indication that this school is not satisfied with mere material advancement, but is taking into account the things that lend beauty and harmony to life. The campus program is a real attempt at beauty, and it pleases us very much that our last editorial should be one recording such an attempt at State College.

Student Forum

WHAT THE FACULTY AND STUDENTS NEED

Much space has been given to Student Forum articles in the past few weeks pertaining to the grades that are given by some of our professors. One takes the time to digest all that has been written, he is certain to come to the conclusion that something is wrong with our ways of grading.

It is almost useless to give the many cases of where some professor has given a student a grade lower than he thinks he deserves; however, some of these cases are bound to be in favor of the students, and not always in favor of the professors, as we are coaxed to believe when we protest our grades. The writer knows of gross injustices done to students by their professors during the four years they have been here. One of the extreme cases was when a professor admitted that he did not attach any importance to quizzes, yet he gave them three or four times a quarter, and when the final grade was called for, he simply sat down and started down the list. And, as he said he did, he would start his great inflexible mind to work something like this:

"Well, Mr. A is a pretty good student; I guess I will give him a three—down it goes. And here is Mr. B, I don't believe he deserves much of a grade; he sat on the back seat and didn't take much part in the discussion. I think I will give him a four."

And down the list he would go, giving grades that were as unfair as one could imagine. Yet the professors think that each professor should be allowed to grade as he sees fit.

To condemn with no words of construction, I think, is a very poor policy for any person to follow. The condemnation would go better unsaid. What the faculty needs to do is get together and practice some of this "co-operation" we have heard so much about in the past four years, and adopt a uniform grading system of some kind. At first it may be as full of errors as the sea is of fishes, but these errors will eventually be ironed out, and an infant grading system that falters and almost fails will some day grow into an adult and be one of the greatest stabilizing factors that we could have here at State College.

If the professors would project their imagination and see what a deplorable situation we have in the grading of students, I sincerely believe that they would immediately adopt some uniform system of grading whereby the students would be able to protest unfair grades in a systematic manner.

JOE W. JOHNSON.

WHAT ABOUT MONOGRAMS?

In the last issue of THE TECHNICIAN there was an article regarding monograms and sweaters for members of the Rifle Team. Up to the present, nothing has been done, as far as we are able to ascertain. I think it is getting high time for the matter to be taken up by the Athletic Department, and action taken either pro or con. Such matters should not be deferred until the last minute, because some of the members of the Rifle Team are seniors and will soon be leaving here. What could be the object of delaying the monograms until the last minute? Those who win such coveted prizes do not want to wait until they are out of school to get them, but rather want them while they are here in school and can enjoy the use of them.

For the benefit of those who do not understand how the Rifle Team is picked, or selected, I wish to submit the following: At the beginning of each year the call for candidates for the Rifle Team is sent out. Of course, only R. O. T. C. students are eligible. This year when the call was sent out 155 candidates responded. The theory of rifle marksmanship was taught by the coach (Capt. Vernon). Then practice began and lasted for about three weeks, at the end of which time we

had the first elimination. This elimination was in the form of an inter-battalion meet; that is, in each candidate who was out for the team shot with the battalion he was with when drilling. From this unit 30 of the best shots were selected to fire in matches to follow, the last 10 to represent the team in the matches. These 30 practiced for about four weeks, the best 10 shots entering in matches occurring during that time, and then there was another elimination. This time only 20 were selected. And from then on one by one was eliminated until the final match last week, from which there was only 14 to select the best 10 to shoot in matches.

The foregoing paragraph may seem unnecessary just here, but it serves its purpose. From it one can readily see that with all the above competition it requires work and lots of it to make the Rifle Team and stay on it. And it is hoped that the Athletic Department will give the Rifle Team the consideration due them.

Now as for those to receive monograms and sweaters, it is up to the Athletic Department to say, but a suggestion is to select the 12 having highest total scores for the year, all matches considered.

B. L. VICK.

THE PROFESSORS' DUTY

What is wrong with our college professors' salaries? Do they get an adequate salary to provide the necessities and comforts of life, or do they have to take up outside work in order to supplement their salaries derived from college teaching? I am not writing this article because I alone think that some of our professors are putting more time on outside work than on their college work, thus making us the losers; but because I have recently heard a good many students make the same complaint. If this situation is becoming a serious problem at this institution, I believe it should be discussed in this column.

The complaints which I have heard came from students in the schools of Engineering and Science and Business. One student remarked that the professor in a Civil Engineering class called the roll and said, "You need to work on your note-books," and excused the class. He then employed one of the boys to help him on an outside job. Another student said that a professor teaching Business Administration courses was a good professor and knew his stuff, but that he was spending most of his time on outside work and not giving his classes the time and attention that he should. I have heard other complaints similar to these, all coming from juniors and seniors, men who are beginning to judge the values which they should derive from their courses.

If this practice is allowed to continue we students will be the losers. What do we get out of a course if we just look at or study it on class? A hazy notion of it. Then what can a professor give us in a course if a great deal of his time and thoughts are centered on outside work? A lot of the professors are supposed to secure jobs for the graduates in their department. Some of them are failing miserably in this task, due, somewhat, I think, to putting their time and energies on outside work. Some of the statements I have made cannot be substantiated with direct proof, but is more of a feeling that I have that some of our college professors are putting too much of their time on outside work and neglecting their courses and us. From the remarks of other students, they seem to have sensed this feeling, too.

Carolina will not let their professors do outside work, so I understand. It follows to reason that they give more of their time to the students. If we have to adopt that plan, let's do it. But, first, let's see if our professors get adequate salaries; if they don't, then let us get on the band wagon and help them get them. If they do, then let us demand that we get more of their time than some of them are giving us at present.

H. E. SPRINGER.

This Week's Limerick

by ZIPPY MACK

That's a pretty good game, Georgia Tech,
We admit it, though we'd fain wring your neck;
But your fellows, it seems,
Have variable teams—
In 'twenty-four we returned them a wreck.

WITH THE COLLEGE EDITORS

SUCKERS

As the college year draws to a close there come to each campus an invading throng of self-styled "representatives." Smooth, talkative, persuasive, full of windy promises, it is their aim to enlist students to sell (on commission, of course) some variety of unwanted goods during the summer. Against these gentry the Ohio State Lantern sounds a warning.

Says the Lantern: "These recruiting agents are wise. They know the students who will be most apt to swallow their promises at a gulp. They go after the Freshmen. The business starts with a mysterious telephone call some warm spring night. A business-like voice tells the flattered but bewildered Freshman to meet the speaker at a certain place and time if he wants to be let in on a profitable proposition.

"The Freshman keeps the appointment and frequently signs up to sell encyclopedias, Bibles, maps, or mops during the summer in the desirable territory the company will select for him. "He has been lured by promises of at least forty dollars a week and the 'at least' is emphasized. Instances of students who made fifty dollars in a day are rattled off by the glib tongue of the representative. Instances of students who have worked weeks without making a sale are conveniently forgotten."

And so the poor Freshman is pressed into service and after a hard, disillusioning summer of ringing doorbells he returns to college a sadder, wiser student, or more rarely, a "born salesman." Freshmen, beware! Stop, look, think it over!—The New Student.

MY ENGLISH CREED

I believe that my mother tongue is worthy my admiration, respect and love.

I believe that it is possible for me to speak my native language correctly, fluently and elegantly.

I believe that this takes time, patience and care.

I believe that slang is language in the making, and that until it is made it is not proper for children to use.

I believe that the use of slang kills one's power to speak fluently.

I believe that the proper accompaniment to pure, clearly-enunciated language is a musical voice.

I believe that this voice can be cultivated, for it is every one's right by inheritance.

I believe that it is possible to live up to this creed.

I believe that it is worth while.

I believe I'll try it.

A vocational census of the senior class at Wesleyan shows an increase in interest taken in graduate work with a decrease in the number of men entering business, Engineering, business, medical, and European schools are mentioned.

OUR COACHES

By F. S. Mc Coy

S. L. (Sammy) HOMEWOOD
Freshman Coach at N. C. State College

He was born in Burlington, N. C., January 19, 1896. He attended the Friendship High School, graduating in 1915. While in high school "Sammy" was a versatile athlete, playing basketball, baseball, running the hurdles, throwing the weights, and taking part in the high and broad jumps. The only reason "Sammy" didn't play football was because Friendship did not have a team.

In the fall of 1915 Homewood entered N. C. State College. His athletic achievements were first noticed when he played halfback on the Wolfpack his freshman year. The next year "Sammy" was shifted to tackle and at the close of the season he was picked on the all-State and all-South Atlantic teams. After the 1917 football season had closed Homewood was again selected all-State and all-South Atlantic tackle. The war intervened and "Sammy" put away his athletic ability and became a member of Uncle Sam's army. After the armistice had been signed Homewood returned to State College in the spring of 1919 to complete his education. He played two more years of football and was selected South Atlantic end for both years. "Sammy" played guard in basketball two years. He was also one of the best track men in the State during his four years as a member of the State team and the last two years he was high point man. Homewood graduated in 1920 with a B.S. degree. He pursued graduate work in 1921 and received his M.S. degree in the spring of 1922.

Homewood was selected as coach of track and football in 1922 and since that time he has been a member of the Tech coaching staff. In the fall of 1922 "Sammy's" freshman football team won the State championship. The past freshman football season will bring to mind the remarkable team that was composed of several men over six feet tall, and the winning of the State championship.

The freshmen who received their first college athletic training under Homewood are well qualified to fit in the larger positions that Tebbel and Sermon offer. With the one year conference rule, State College has a man who can qualify as a freshman coach, and this man is "Sammy" Homewood.

OUTRUN WAKE FOREST ON FIELD AND SCORE BOOK

State Track Men Win Over Bantists 91 4/15 to 34 11/15;
Daniel High Scorer

"Doc" Sermon's cindermen defeated the Demon Deacons of Wake Forest, 91 4/15 to 34 11/15, in a dual track meet held on Riddick Field last Saturday morning, being especially strong in the weights and distance runs. Daniel, of Wake Forest, was high scorer of the day by making a total of 16 points. He took first place in the broad jump, high hurdles, low hurdles, and third in the shot-put. Five men tied for second in the pole vault and three for the same in the high jump.

"Doodle" Sides, flashy century man, won from Rackley, of Wake Forest, in 104 seconds, after being set back a yard for breaking. He also won the 1-4-mile easily. Brimley, Nance, and Kendrick, of State, won the 2-mile easily. All three men finished with locked hands, which resulted in a triple tie.

Summary:
100 yards: Sides (State), Rackley (W. F.), Cree (W. F.). Time, 10.4 sec.
220 yards: Rackley (W. F.), Good-

man (State), Clark (State). Time, 23.8 sec.

440 yards: Sides (State), Moye (State), Green (W. F.). Time, 53.4 sec.

880 yards: Crum (State), Green (W. F.), O'Brien (State). Time, 2 min., 8 sec.

1 mile: Wright (State), Barnhardt (State), Leonard (State). Time, 4 min., 47 sec.

Two mile: Brimley (State), Nance (State), Kendrick (State). Time, 11 min., 37.6 sec.

High hurdles: Daniel (W. F.), Satterfield (State), Currin (State). Time, 16.6 sec.

Low hurdles: Daniel (W. F.), Currin (State), Gorham (State). Time, 27 sec.

Pole Vault: Bremer (State), first; McBee, Bryan, and Parrish (W. F.), and Gaston and Hunsucker (State), tied for second place. Height, 10 feet.

High jump: Matthews (State), first; Richmond (W. F.), and Morris and Woodsie (State) tied for second place. Height, 5 ft. 9 in.

Broad jump: Daniel (W. F.), Bremer (State), Shannagan (W. F.). Distance, 21 ft., 2 1/2 in.

Shot: Rush (State), Black (State), Daniel (W. F.). Distance, 38 ft., 3 in.

Discus: Shuford (State), King (State), Standley (W. F.). Distance, 111 ft., 10 in.

Javelin: Kibben, Kidd, Griffin (all State). Distance, 158 ft.

Final score: State 91 4-15; Wake Forest, 34 11-15.

DERIEUX RETURNS FROM PHYSICAL SOCIETY MEET

Doctor J. B. Derieux has just returned from the meeting of the American Physical Society, which met in Washington, D. C. There were about four hundred present from the leading universities and colleges of the country. The meetings were held at the Bureau of Standards, which was thrown open to the visitors.

While Doctor Derieux was in Washington he had a conference with the officials of the Coast and Geodetic Survey, in cooperation with whom he and Mr. Meares have been engaged in research work here this year. He was entertained at the Naval Observatory, also, where he went to verify the time signals which have been used in the research work.

ARCHITECTURAL CLUB TO ENTERTAIN FROSH

The Architectural Club of State College will hold a feed in Page Hall next Wednesday night, May 5, in honor of the freshman students of Architecture.

A most cordial invitation is extended to all active members of the club, and especially to those members of the freshman class who desire to continue in Architecture or those contemplating entering that department.

This feed will follow the regular meeting of the club, and plenty of entertainment will be furnished to put every one in good spirits.

INVICTUS

Now, gather 'round me, children,
Just before you go to bed,
For your dad has taught to tell you
That perchance you haven't read.

'Tis a tale of fame and glory
That once came to Julius Spink,
Down at dear old Whoosis College,
Where your daddy learned to drink.

Now this Julius was a senior;
College days were almost o'er,
But he'd never made a letter,
And his heart was sick and sore.

He had subbed at track and tennis,
Football, baseball, and debate,
But when honors were accorded,
Julius always got the gate.

When they broke the tacklin' dummy,
Gentle Julius was the clown
That the coach would toss the ball to
While the others slammed him down.

And for warmup up the pitchers
Julius surely was the stuff,
But the coach could never see him
When the pitchers had enough.

Came the last big game of baseball,
Whoosis College versus Wake,
And 'twas sure to be a battle,
For the pennant was at stake.

Came the faithful old ninth inning,
As ninth innings always do,
And the bags were drunk and reeling,
And the score was two to two.

Whoosis fans were going crazy,
Begging, praying for a run;
And the local Casey fainted
When the Umpire yelled, "you're done."

Jones went in to bat for Jenkins,
But he popped a measly foul,
And the catcher caught it neatly.
Whoosis fans began to growl.

No one left to bat for Miller,
Coach's heart began to sink
As he looked along the benches,
Then he noticed Julius Spink.

"Julius Spink will bat for Miller,"
Julius picked a heavy club,
But as I have often told you,
Julius was an awful dub.

"Score a run and make your letter,"
That was what the coach had said,
But he mystified the poor nut
When he added, "Use your head."

Now the pitcher sneered at Julius,
As he threw his fast one, grooved,
"That's a strike," the umpire shouted,
Gentle Julius hadn't moved.

"Hit it, Julius; hit for Whoosis,
Wah-g-rack for Julius Spink,"
"Strike, again," the umpire hollered,
Whoosis hearts began to sink.

Julius seemed a little nervous,
Thinking what the coach had said,
But instructions must be followed,
And they were—to use his head.

So he pulled his cap down tighter,
Resolution in his eye,
He would make that dad-gummed
letter
Even tho it meant to die.

Here it came, another fast one,
"Crack," it sounded like a shot,
And the man on third romped home-
ward.
Whoosis fans tore up the lot.

Gentle hands picked up poor Julius,
Rubbed the knot upon his dome,
For the pitcher's fast one hit him,
Forcing the winning tally home.

Julius Spink now wears a letter
And he isn't even dead,
For he waited till his chance came,
Then went in and used his head.

So, whenever people tell you
Education doesn't pay,
Point to Julius, little children,
Point to Julius Spink, and say:
"Blah!"

DICKERSON WILL WORK WITH SHIP BUILDERS

Mr. T. C. (Dick) Dickerson of the Senior Mechanicals has accepted a position with the Newport News Shipbuilding and Drydock Company in the estimating department.

Dickerson came to State two years ago from V. P. I. He is a hard worker, and without a doubt will make good in his work. He will report for his work June 15.

DORMITORY BASEBALL NOW BEING ORGANIZED

Another branch of intramural sports, baseball, has been organized. Teams from North-end 1911, South-end 1911, Watauga, Fourth and Fifth, Sixth, Seventh, and South dormitories will be entered in the contest. Winners will be awarded medals. Six games by each team will be played, beginning next Monday.

Since the inauguration of the policy of getting the student body as a whole to take part in athletics the number of students participating is increasing very rapidly. By such wholesome recreation as this plan affords the general health of the students is improved and varsity material is often discovered.

RESULTS OF A. C. SOCIETY PRIZE ESSAY CONTEST

For three years the American Chemical Society, through the generosity of Mr. and Mrs. Francis P. Garvan, of New York, has conducted a prize essay contest throughout the high schools of the United States. Essays are submitted by high school students on the following subjects:

The Relation of Chemistry to Agriculture.
The Relation of Chemistry to the Enrichment of Life.
The Relation of Chemistry to Health and Disease.

The Relation of Chemistry to the Home.
The Relation of Chemistry to Industry.

The Relation of Chemistry to National Defense.

From 103 essays submitted this year, the State Committee, composed of Dr. J. Henry Highsmith, Col. Albert L. Cox, Prof. H. T. Hunter, Dr. E. V. Howell, Mrs. T. D. Jones, and Dr. R. L. Felts, have decided that the following submitted the best essays:

Gertrude Blow, Woodland; Elizabeth Loller, Rutherfordton; Z. M. Potts, Washington Collegiate Institute, Washington; Walter Cogburn, Canton; Edgar Swan, Weaverville; Mary Ethelwyn Tomkins, Asheville, winners of first prize.

John Broadwell, R. F. D. No. 2, Selma; Fernley Fawcett, Asheville; Fern Norman, Charlotte; David Henry Wilcox, Winston-Salem; Kenley Richbourg, Asheville; Marion Alexander, Asheville, winners of second prize.

The winners of the first prize receive \$20 each, and the winners of the second prize receive a certificate. Interest in the contest in this State is increasing, and the officials are expecting a much larger number of contestants in 1927 as the pupils of the high schools become better acquainted with Chemistry.

Dr. L. F. Williams, Professor of Organic Chemistry in N. C. State College, has been State Chairman of the contests for 1925 and 1926.

THIRSTY TEXTILES SEE "THIRSTY COTTON" SHOW

"Thirsty Cotton," an interesting three-reel moving picture, was presented in the "Y" auditorium Wednesday afternoon for the benefit of textile students and other students interested in cotton and in the manufacture of cotton yarn. The picture was presented by the Parks-Cramer Co.

Charlotte, N. C. not simply to advertise the humidifiers that they place on the market, but also to inform mill men of the real effect of humidity upon the cotton as it is being treated in the different processes. By the use of slow-motion pictures conditions that are not ordinarily seen are brought to the attention of the mill man. The film also gave important figures and facts that are helpful to textile students.

FORMER STUDENT SPEAKS TO MANAGEMENT CLASSES

Louis A. Carpenter, former student at N. C. State and now associated with the National Cash Register Company, returned to the campus for a visit last week.

Carpenter has just finished the National Cash Register Company's school at Dayton, Ohio, which he entered last November. After a short vacation, which he is spending in Monroe, he will leave for Hattiesburg, Miss., to take charge of a branch office there.

While visiting State College, Carpenter made a very interesting talk before an Office Management class, outlining the system used so successfully by his company at Dayton.

FRANK CAPPS REPRESENTS COLLEGE WITH ENGINEERS

Professor William Hand Browne, Dr. H. B. Shaw, and Mr. Frank Capps attended the annual convention of the Southeastern Division of the National

Electric Light Association at Pinehurst during the early part of the week. Mr. Capps represented N. C. State on the program, and spoke Tuesday morning on "Co-operation of Educational Institutions With Public Utilities." Mr. Capps was the only State College professor on the program.

Governor McLean also spoke to the Engineers Tuesday morning. The Governor reviewed the history and development of the use of electricity in North Carolina.

She was only a glue-maker's daughter, but I got stuck on her and she pasted me in the eye.

P. A.

TALK about "alliteration's artful aid" . . . the printer certainly raided the "p" box that trip. But let that go! The advice is just as serious and sound as though it were couched in the careful diction of an English prof.

Just get yourself a jimmy-pipe and fill the bowl to the brim with Prince Albert. Light up, and let the first fragrant whiff tell you that no other tobacco is like P. A.—or can be! Cool and sweet and fragrant, P. A. has everything a fellow ever wished for in a smoke.

P. A. can't bite your tongue or parch your throat. The Prince Albert process settled that in P. A.'s freshman year. Get yourself a tidy red tin of Prince Albert today. The first load-up will tell you why pipes are so fashionable among young men today.

PRINCE ALBERT

—no other tobacco is like it!

P. A. is sold everywhere in red tins, round and half-pound tins, humidors, and round crystal glass humidors with sponge-moisture top. And always with every bit of bite and parch removed by the Prince Albert process.

CAPTAIN W. R. WATSON WILL RELIEVE CAPTAIN W. C. LEE

Watson Holds Allied Army Record as Best Individual Shot of All Nations

This is the last year for Captain W. C. Lee to remain on duty at this college. Captain William R. Watson has received orders to report to State College for duty.

The Regular Army personnel are permitted to remain only four years at the same institution. Captain Lee has been at State College his four years and will report elsewhere for duty after the summer training camp.

All the students really like Captain Lee and regret to see him leave. The new officer, Captain Watson, is a native of North Carolina, being born here in Raleigh, although a good part of his life has been spent at Darlington, S. C. He is a graduate of the University of North Carolina. While in school there he played baseball and other sports.

At the beginning of the war he went to Fort Oglethorpe, Georgia, where he received some training as an officer. He reached France after the Armistice was signed, but was sent on into Germany with the Army of Occupation. He was on this service for two and a half years.

While in Germany the Allies held a rifle match, and Captain Watson won first place among all the men from the different nations who participated.

Since his return to the United States he has been serving with the Fifth Infantry. He has been a permanent member of the Infantry Rifle Team. He is graduating from the Infantry School at Fort Benning, Georgia, this spring, and will be here when school opens next fall.

FAGAN NEW PRESIDENT ELECTRICAL SOCIETY

The American Institute of Electrical Engineers held an important meeting Tuesday evening, April 20, in Winston Hall. The purpose of this meeting was to elect officers for the school year of 1926-27. A student program was also enjoyed by the society.

The student officers that were elected are as follows: J. W. Fagan, President; P. L. Stuart, Vice-President, and W. E. Matthews, Secretary and Treasurer.

The A. I. E. E. Society has had some very interesting programs this year, conducted by both the students and outside speakers. The society is looking forward to another successful year under the jurisdiction of the new officers.

COMING HOME

You are not home when past the gate.
Not home when through your door.
Not home where never hearts await
Your footstep on the floor.
For coming home is more than this.
For coming home is someone's kiss.
Yes, arms that miss you while you roam
To greet you—that is coming home.

You are not home when you have hung
Your hat within the hall.
If dark of men or mute of tongue
You are not home at all.
You are not home until you take
Her in your arms for old love's sake
And kiss her in the twilight gloom
For new love's sake—that's coming home.

You are not home until you leave
The hurts of day behind;
The losses that have made you grieve.
The words that were unkind.
You are not home until you lay
Aside the worries of the day.
The strife of trade, the dusty toils
Forgotten—that is coming home.

You are not home until you learn
The joy we often miss.
You are not home until you turn
From worlds without to this.
For coming home to have and wife
Is coming home to love and life.
Whatever other worlds you roam,
Your house, your world—that's coming home.

(Copyright, 1923, by the McClure Newspaper Syndicate)

George Studdert and Luke Mills, who have been in Mexico City, Mexico, with the highway, returned the past week. George came to Raleigh to see his sister, Lyda Carter, and his brother, Carter Studdert, who live here.

Bill Shope, who finished Christmas and is now in business at Weaverville, was in Raleigh Sunday and Monday. He was at the K. I. E. house with fraternity brethren while here on a business and pleasure visit.

Hilliard Greenwood and Wilfred Booker, of Carolina, attended the A. G. R. dance last week.

The German Club will give a dance Saturday evening, May 1st, in the Frank Thompson gymnasium, from 9 to 12.

"Bill" Stradley, of Wake Forest, spent last week-end in Raleigh attending the A. C. R. dance Saturday evening.

The many friends of F. E. Lee, of Selma, a Freshman in Chemical Engineering, will learn with pleasure that he is recovering from a serious operation for appendicitis which he underwent Sunday. Lee was taken with appendicitis Saturday, and an examination showed that it was a very serious case. Although in poor condition for an operation, it was deemed unwise to wait, and he was operated on on Sunday morning.

Fraternity Dance

The Alpha Gamma Rho Fraternity gave its annual Founders' Day dance last Saturday evening in the Frank Thompson gymnasium. The decorations

MECHANICAL ENGINEER SENIORS OFF ON TOUR

Visit Virginia Shipyards and Make Study of All Conditions

Yesterday about noon a party of Mechanical Engineers, headed by Professor Vaughan, left by motor for Norfolk and Newport News.

This morning a trip of inspection will be made through the yard of the Newport News Shipbuilding and Drydock Company.

The tour will be conducted by alumni of this institution who are employed at the yard. There are a number of State College men connected with this firm, and they have expressed a great interest in the trip of these Senior Mechanicals. Trips to other points of interest will be made after leaving the yard.

Tonight the party will be the guests of the local branch of the Alumni Association at the annual banquet to be held at the Warwick Hotel in Newport News.

Members of the class making the trip were: T. C. Dickerson, F. K. Fogleman, F. W. Jones, W. E. Plott, D. F. Ritchie, J. V. Leonard, E. L. Mountcastle, and R. M. Shuford.

The hours were from 9 until 12, and dancing was enjoyed throughout the evening with special dances for the A. G. R. members only. Favors were given out and a flashlight picture was taken during the evening. Punch was served over in one corner of the gymnasium in a booth made of streamers of the fraternity colors.

The music was furnished by the Emerson Orchestra of Tarboro.

CONSTRUCTION WORK IS MAKING GOOD PROGRESS

Great progress is being made on the construction jobs on State College campus. It is pleasing to see that work on the Textile enlargement and the new Electrical and Physics buildings is giving results. The Memorial Tower is also coming in for its share of construction. There has already been several feet added to the height of the tower, and more stones are being hauled to the scene to be put in place.

ALUMNI NOTES

(Observations and Communications of Zippy Mack)

The meeting of the North Carolina Collegiate Press Association this week-end at Guilford, and its attendant gusts of hot air, probably account for the unsettled conditions of the weather for the past several days.

Mr. Harvey Nathan Kelley and Miss Margaret Wheeler will be married June 1, in the library of new Meredith College.

Mr. Kelley is a member of the Vocational Class of '23, and since his graduation has been in the teaching profession in the State schools.

Miss Wheeler is a member of the Senior Class at Meredith College, and has served as president of that class this year. The wedding will be a part of the commencement program, and the bride will have as her bridesmaids the Senior and Sophomore classes of her institution. She is a native of Providence, Rhode Island, and is a niece of Dr. J. L. Peacock, of Shaw University.

Mr. and Mrs. Harold E. Norwood announce the birth of a son, April 21, at Transylvania Hospital, Brevard, North Carolina.

Mr. Norwood is a member of the Electrical Class of '23.

Mrs. Norwood was formerly Miss Rosa Wiggs, of Raleigh.

Mr. Blair Jenkins, of the Electrical Class of '23, has recently accepted a position with the operating department of the Carolina Power and Light Company of Raleigh.

Mr. W. L. Trevathan, of the '24 Civils, was on the campus with his family last Sunday, the guests of his brothers, R. R. Trevathan, '27, and P. E. Trevathan, '28.

The Junior-Senior banquet at Meredith College last Friday night drew State College alumni from several directions. Among those present were: Frank Simmons Trantham, '24, of Lakeland, Florida; Clyde R. Hoey, Jr., '25, of Shelby, and Harvey N. Kelley, '23, of Evergreen.

Mr. William Harney Jennings, Valedictorian of the Class of '23, at which time he graduated in Chemistry, was on the campus during the

greater part of the week. Bill is now doing graduate work at Iowa State.

After having noticed our caustic comment of last week, Tom McCrea has consented to supply the material for this column next week. Those of you who know Tom also know that we have a treat in store.

OFFICERS ENTERTAINED BY DEAN AND MRS. CLOYD

The recently elected officers and the retiring officers of the Student Government were delightfully entertained Wednesday evening by Dean and Mrs. E. L. Cloyd at an informal dinner party at their home on Hillsboro Street.

After partaking rather freely of a bounteous feast prepared by Mrs. Cloyd, the boys indulged in an argument as to who had eaten most. The dean presented an infallible argument as to his prowess, and won the decision on points. He also took honors for coffee, with E. G. Moore running a poor second. John Anthony announced that, as he was eating at the cafeteria, he would not need another meal for at least two days. College problems, ranging from the honor system to the tendency of Charlie Shuford to steal second, were discussed, and every fellow pronounced it a very delightful evening.

Those attending were: Henry Ken-

dall, E. G. Moore, Harry Brown, Johnny Matheson, John Anthony, Jeff Davis, and C. S. Tucker.

FOR BETTER SPEECH WEEK

"Be sure you're right—then go ahead," said darning Davy Crockett. Be right. Pledge yourself to say: I saw him this morning. He isn't coming to school. She taught me to do this. I am as tall as he. I lie down every night. May I study with you? It is a secret between him and me. He and I are good pals. I do my work well. He doesn't care to go. For whom is the package? I have seen the circus. He has gone to the city. He did more than I did. They have known each other for years.

In addition, I will pronounce every "ing" distinctly. This week and every week be sure you know these right forms and use them constantly in your speech.
